All kinds of summer drinks at the Strand. Green & Comerford, Props.

Come to the Palace Friday evening and get the first returns from the Corbett-Jeffries fight. It will be as good as if you were at the ringside.

**A Special Wire**

The enterprising manager of the Clifton Bar has secured a special wire to the ringside of the Corbet-Jeffries fight. A hat pool will be made up by the visitors, and there will be music and dancing to while away the time between the ronnds.

FOR SALE—House and Lot, corner of Kootenay avenue and Monita street, one b ock from school house. Apply to Robert Clemas.

**The Corbett Fight**

Ralph Harron, the enterprising proprietor of the Palace has secured the exculsive privilege of the Western Union wires, the only direct wire to the ringside of the Corbett Jeffries fight tonight. Mr. Harron is certainly to be congratulated on securing such an advantage over his competitors in this city. This fight is attracting world wide attention. Everybody should be at the Palace to hear the results. Advt.

A full report by special wire of the Corbett-Jeffries fight Friday evening, August 14, at the Palace.

WANTED—A waiter at the Palace Hotel.

Come and see us at the Strand, you will be treated right. Green & Comerford

## LE ROI AGAIN

Since 1895 the bottom has been dropping out of the Le Roi. If it was not that---the mine was gophered. Knockers will doubtless be pleased to hear that the high grade ore shoot to the northeast of the main shaft, known as the Peyton vein, which widened out to about 12 feet in sinking the winze on the Peyton tunnel, at a depth of 19 feet, and which was lost from that point, the shaft going down in another dip, has been recovered on the 150 level after some months patient work. The ore was located on Wednesday night, dipping into the hill. The hanging wall was struck and some shots put in yesterday disclosed a fine body of ore across the whole breast of the cut. It is penetrated to about six feet and the foot wall not as yet reached. The ore looks to be the same body as that which gave the high values in the narrow two foot vein on the surface.

## CITY FINANCES

### Accounts for the First Half of the Current Year Together With Estimates Up to the End of Mayor Dean's Term.

The following accounts show the financial position of the municipality at the present moment. The city is to be congratulated on at last following out the law on the matter and publishing its accounts once in every six months. For this the public has to thank the chairman of the finance committee. The WORLD refrains from comment at the present moment.

RECEIPTS.

## IRONDEQUOIT WINS RACE

### Challenger Captures Fifth Race.

### STRATHCONA 44 SEC. BEHIND

Series Most Exciting Throughout—Description of the Competing Boats.

Toronto, Aug. 14.—The deciding yacht race in the series for the Canada's cup race was sailed yesterday over a triangular course of seven miles each leg.

The wind at the start was south, southwest and fairly strong with however, no sea.

The Kankee boat got over the line 26 seconds ahead and finished with a lead of one minute and ten seconds, thus lifting the Canada's cup, having now won three races out of five sailed.

The contest has been most exciting throughout, the Strathcona winning the first two and the challenger the last three races.

The Irondequoit, the winner, is a cutter rigged yacht with a sail area of 2600 square feet. Her length over all is 64 feet 6 inches and her length on the water line 39 feet 8 inches. Her extreme breadth is 13 feet 11 inches, with the least free board 2 feet 10 inches. Her overhand forward is 11 feet and the overhang aft 13 feet 6 inches. The area of the midship section is 35.42 square feet. The boat has a displacement of 22 tons and on her keel is lead to the amount of approximately 10 tons. Her mainmast is 44 feet topmast 28 feet, main boom 44 feet and bowsprit outboard 8 feet. She was designed by W. Gardner, of the firm of Garnner & Cox, yards of her construction, including the cost of bringing her to Charlotte, was approximately $10,000.

The Strathcona is a cutter rigged yacht with a sail area of 2598 square feet. Her overhangs are a trifle shorter than those of the challenger, and her length over all is 60 feet, while on the water line she is 39,96 feet in length. Her breadth is 13 feet 7 inches on deck and 12 feet 6 inches at the water line. Her draught is 8 feet 3 inches. Originally the Strathcona had 10½ tons of lead on her keel, but it is said that two tons have been added since. Her overhangs are 8 feet forward and 10 feet aft. Her mainmast is 47 feet; main boom 47 feet 6 inches; main gaff, 29 feet 5 inches; topmast 22 feet; bowsprit outboard, 12 feet; mainsail hoist 27 feet 6 inches. The Strathcona was designed by Payne and her complete framework was constructed and set up in the yards of Summers & Payne in Southampton, England. She was launched at Oakville, Ontario. She cost to build something like $9200.

## THE PROPOSED BYLAWS.

There has been much hostility provoked in camp over the two bylaws proposed at the last meeting of the city council on Tuesday evening last. These bylaws impose a tax of $3 a year on sewer rentals and a licence of $30 per annum for bill posting. To the first is the chief objection raised. It is pointed out that where connection is had with a sewer an extra water rate is levied, which is quite sufficient to carry the interest and sinking fund on the building of the same. As to the point that the new tax would be put aside for a sewer fund, it is contended that there is very little in it inasmuch as the fund is a question of bookkeeping. If a separate fund is wanted it is easy to devote that portion of the water revenue, or a fair proportion of it, which is levied for flushing purposes, to it. It cannot be contended that the water rate for this purpose is insufficient to carry more than the outlay for providing the water since it is notorious that the city is gaining a fair revenue yearly from this source which is devoted to extensions of the water system. Of course, the proper way would have been to provide capital for the extension of the system and to make the water rate such that it could either be applied to the general revenue, cutting down taxation in other directions, or so fixed that it would carry the maintenance, sinking fund and interest and no more.

As to the bill posting bylaw it, if properly worded, is on a different footing. The $30 per annum is very little. The object is not so much to raise a revenue as to prevent the disfigurement of walls, hoardings and public places generally by irresponsible parties. Every business house would not have to take out a licence. A billposter or posters would do that and they would be held responsible for any disfigurement which certainly does not add to the attractiveness of the camp.

But the real objection is that the revenue thus raised would not be needed if the mayor and aldermen had foregone their salaries. Election expenses might have been heavy, but that is no reason why the citizens should heve been called upon to foot the bill. As the WORLD pointed out in the beginning of the year, the reductions made in expenditure were not nearly sufficient and should have been begun at home. Now the council is finding out the results of its own policy, which any school child might have told any one of its sapient members. How far all or any are implicated is something that the public will hardly find out as the matter was threshed out and adjudicated upon in star chamber. Any member of the council now feeling himself aggrieved by the attitude of the public or the press has only himself to thank.

## THE LEAD BOUNTY.

The lead bounty was discussed in the House of Commons the day before yesterday, says the Victoria Colonist. Every public body in British Columbia from the provincial legislature to the Rossland Liberal Association favored the imposition of import duties upon pig lead and its products. In his speech on the Budget, Mr. William Galliher declared for a proper tariff on lead. Why, then, was the question not attacked in this way? The reason is easy of discovery. If the necessity of a readjustment of the tariff on lead has been admitted, the necessity of a readjustment of the tariff in other directions could hardly have been denied. That question the government is afraid to face. Therefore it was necessary to maintain that the lead industry stood in a category by itself and required special treatment. There is no industry in Canada requiring special treatment but every industry requires equal treatment and adequate protection. The trouble with the lead industry has been, not that it required special treatment, but that it required the same treatment as the other industries of Canada, thanks to former protectionist governments in power before it came into existance, and has not been getting it. The bounty system is bad. It protects up to a certain points, but it does not give the national effects of protective duties. In regard to lead, it certainly protects up to the point to which British Columbia is immediately interested. But it holds out no hope either to Canada or to British Columbia of the realization of our legitmate aspirations to be the seat of extensive lead manufacturing industries. A bounty means export at that stage of manufacture at which this bounty ceases to effect the raw material. Import duties lead to the export only of higher forms of manufactured products. Look at the sugar bounties in France and Germany. They certainly protected the industries of beet growing and sugar refining in those countries, and injured sugar refining in Great Britain. But they have enabled Great Britain to obtain an unrivalled position in reference to those industries of which sugar is the chief raw material. The bounty on lead will operate in the same way. It will certainly help the mining and smelting of lead, and for that let us be truly thankful. But after that its only effect will be to throw an artificially cheapened supply of lead on the market of the world to assist the foreign manufacturers who use that produce. The ultimate effect would be, if the bonus were unlimited as to quantity, to reduce the world price of lead so that the Canadian producers would get no more than they are getting now. The foreign manufactures would get all the bonus. Of course it will not have this effect, because the government has limited production at the full bonus to 33.330 tons of lead a year. As soon as that limit is reached, the effect of the bonus will be restrictive upon further output. As we have said, the bonus protects the lead industry so far as British Columbia is at present interested. But for its full development from a national point of view, it does little or nothing.

More than half the battle in cleaning greasy dishes is in the soap you use. If it's Sunlight Soap it's the best. 6B

### Intercolonial Railway

Ottawa, Aug. 14.—It was learned at the department of railways today that the earnings of the Intercolonial railway for the fiscal year, ending June 30th last, were $6,324,327, and the working expenses $6,196,150, leaving a surplus of $128,188. This even better than predicted. In 1896 the receipts were $2,759,800. The receipts last year $5,771,385, or $96,822 greater than the working expenses.

## CONSERVATIVE PLATFORM

[Adopted at Revelstoke, September 13th, 1902.]

1. That this convention reaffirms the policy of the party in matters of provincial roads and trails; the ownership and control of railways and the development of the agricultural resources of the province as laid down in the platform adopted in October, 1899, which is as follows;

"To actively aid in the construction of trails throughout the undeveloped portions of the province and the building of provincial trunk roads of public necessity.

"To adopt the principles of government ownership of railways in so far as the circumstances of the province will admit, and the adoption of the principle that no bonus should be granted to any railway company which does not give the government of the province control of rates over lines bonused, together with the option of purchase.

"To actively assist by state aid in the development of the agricultural resources of the province."

2. That in the meantime and until the railway policy above set forth can be accomplished, a general railway act be passed giving freedom to construct railways under certain approved regulations, analogous to the system that has resulted in such extensive railway construction in the United States, with so much advantage to trade and commerce.

3. That to encourage the mining industry, the taxation of metalliferous mines should be on the basis of apercentage on the net profits.

4. That the government ownership of telephone systems should be brought about as a first step in the acquisition of public utilities.

5. That a portion of every coal area here after to be disposed of should be reserved from sale or lease, so that state owned mines may be easily accessible, if their operation becomes necessary or advisable.

6. That in the pulp land leases provision should be made for reforesting and that steps should be taken for the general preservation of forests by guarding against the wasteful destruction of timber.

7. That the legislature and government of the province should persevere in the effort to secure the exclusion of Asiatic labor.

8. That the matter of better terms in the way of subsidy and appropriations for the province should be vigorously pressed upon the Dominion government.

9. That the silver-lead industries of the province be fostered and encouraged by the imposition of increased customs duties on lead and lead products imported into Canada, and that the Conservative members of the Dominion House be urged to support any motion introduced for such a purpose.

10. That as industrial disputes almost invariably result in great loss and injury both to the parties directly concerned and to the public, legislation should be passed to provide means for an amicable adjustment of such disputes between employers and employes.

11. That it is advisable to foster the manufacture of the raw products of the province within the province as far as practicable by means of taxation on the said raw products, subject to rebate of the same in whole or part when manufactured in British Columbia.

## Conservative Conventions

At a meeting of the executive of the Provincial Conservative Association, held at Vancouver, the province was divided into five divisions for organization purposes. The Kootenay-Boundary division is made up of the following provincial election districts: Revelstoke, Columbia, Fernie, Cranbrook, Ymir, Kaslo, Slocan, Grand Forks, Greenwood, the City of Rossland and the City of Nelson. At the same meeting the following resolutions were adopted:

1. That conventions for nominating candidates for members of the legislative assembly be made up of delegates chosen as follows:

(a) In city electoral districts, one delegate for every fifty and fraction of fifty votes polled at the provincial election held in 1900, and if the city is divided into wards, the proportion of delegates for each ward shall be based on the vote polled in each ward at the last municipal election.

(b) In other electoral districts, one delegate for every fifty or fraction of fifty votes polled at the provincial election held in 1900, the delegates to be apportioned to polling places, or as near thereto as will be fair to the voters of the different neighborhoods.

2. The election of delegates shall be at public meetings, held at a designated central place in each polling division, or in each ward in city electoral districts, if the city is divided into wards. At such public meetings only those who pledge themselves to vote for the candidate or candidates selected at the nominating convention shall be entitled to a vote for delegates.

3. Two weeks notice shall be given of the public meetings at which delegates are to be elected, and nominating conventions shall be held in city electoral districts two days after the day on which delegates are elected, and in other electoral districts seven days after. All nominations throughout the province to be made at a designated central place in each electoral district, and on the same day.

4. All notices of the date of public meetings for the election of delegates to nominating conventions, the apportionment of delegates, and the place and date of nominating conventions in the several electoral districts shall be prepared by the member of the executive of the division in which the electoral districts are situate, and issued over the names of the president and secretary of the Provincial Conservative Association

A meeting of the provincial executive will be held at Vancouver within a month, and the date for holding district nominating conventions will then be fixed.

JOHN HOUSTON,
President of the Provincial Conservative Association.

# PRACTICAL EXPERIMENT

## Chinese Can Be Dispensed With.

### PROOF RENDERED IN VICTORIA

Celestials Driven Out of Shirt Making and White Girls Given a Chance.

Turner, Beeton & company, limited, of Victoria, are giving the people of that city and of the province an object lesson as to how Chinese can be dispensed with in a manufacturing industry, the output of which is sold in a competitive market. Up to about a year ago, 90 per cent of the overalls and shirts manufactured in the province were made by Chinese. Today 90 per cent is made by white labor. A year ago last June, H. B. Thomson, who was for a time manager of Turner, Beeton & company's branch house in Nelson, and who is now manager of Turner, Beeton & company, limited, decided to manufacture overalls and shirts with white labor.

On June 2, 1902, twelve Wheeler & Wilson sewing machines were installed, along with other necessary machinery. Four girl operators started to work on the first day and one more was added on the second. The second week nine were at work, and before the end of the month the twelve machines were in operation, and eight more had to be installed in July. In November ten more were were put in, and in May of this year eight high-speed machines were added, and today the factory has 43 operators on the payroll, and these operators are turning out 550 dozen articles in a month. All the machine operators are girls; men and boys being employed in the cutting, buttoning, and packing departments. The machinery is run by a 2½ horse-power electric motor, and the factory is roomy, well-lighted, and clean.

The output of the factory is of so high a quality that it is sold in the mining camps of British Columbia and the Yukon in competition with the output of the old-fashioned factories of San Francisco.

Every garment made bears two labels. One is the label of the Garment Workers Union of America, which can only be used by manufacturers who employ union labor exclusively. The other label is the company's brand, "Big Horn." Any article with the "Big Horn" label stitched in it is made in British Columbia by white union labor, and there are few clothing stores in the province not handling the goods.

By employing white labor, Turner, Beeton & company, limited, forced the company's strongest competition to do likewise, and it its estimated that white labor has displaced fully 150 Chinese who formerly worked on overalls and shirts in Victoria factories.

The girl operators work eight hours a day, except on Saturdays, when they work four, unless there are rush orders on hand. After a short apprenticeship, they are paid from $1 to $1.25 a day and a bonus, which runs from $4 to $12 a month according to the expertness of the operator.

British Columbia can stand a few more such object lessons.

# PROVINCE ELECTIONS

## Nominations Made Up to Date in the Various Ridings,

The following nominations have been made over the province. The list will be kept standing and added to from to time as further nominations are made:

Atlin—one—J. Kirkland, Progressive.

Chilliwack—one—C. W. Munro, Liberal; J. L. Atkinson, Conservative.

Comox—one—F. McB. Young, Liberal.

Fernie—one—J. McPherson, Socialist.

Grand Forks—one—J. Riordan, Socialist.

Greenwood—one—J. R. Brown, Liberal.

Islands—one—T. W. Paterson, Liberal.

Kamloops—one—F. J. Deane, Liberal; F. J. Fulton, Conservative.

Kaslo—one—J. L. Retallack Liberal.

Lillooet—one—Dr. Sanson, Liberal.

Nelson—one—S. S. Taylor, Liberal.

New Westminster—one—W. Gifford, Conservative.

Okanagan—one—T. W. Sterling, Liberal.

Revelstoke—one—John Bennett, Socialist.

Similkameen—one—W. J. Snodgrass, Liberal.

Skeena—one—C. W. D. Clifford, Conservative; P. Herman, Liberal.

Slocan—one—R. A. Bradshaw, Liberal; W. Hunter, Conservative, W. Davidson, Progressive.

Vancouver—five—Ernest Burns, Socialist, A. G. Perry and F. Williams, Progressive.

Victoria—four—J. Watters, L. O. Charlton, Socialist.

West Yale—one—Stuart Henderson, Liberal.

Ymir—one—A. Parr, Liberal.

# SIMILKAMEEN CITY, B. C.

## Now Is the Time to Buy Lots in Similkameen City, B. C.

CAMP HEDLEY is the most talked of camp in the province, and situated in the centre is Similkameen City, surrounded by rich mines which will shortly have large payrolls. Over 200 lots have been sold to business people who realize that Similkameen will become the metropolis of this district. The Nickel Plate mines have expended $300,000 in development and are at present building tramways and a 40-stamp mill. Arrangements are being made for the erection of a large smelter at Similkameen City which will cost about a million dollars. Besides the Nickel Plate group of claims being developed by one of the richest mining companies in North America, there are several other groups and properties which will shortly be developed, among them being the Kingston Mines, Rollo, Wellington, Winnipeg, Red Chief and Pollock. Situated as it is in the beautiful Similkameen valley, midway between Princeton and Keremeos, and protected from all opposition in the valley by adjoining a large Indian reservation, this townsite will become one of the principal mining camps of the Pacific Northwest. It was only a short time ago that lots in Rossland, Nelson, Greenwood and other mining centres were selling for the same price that they are today being sold for in Similkameen. Come in before the boom and double your money.

## Similkameen City to Have Two Railways.

The Victoria, Vancouver & Eastern and the Canadian Pacific railways are starting immediate construction for the Similkameen, which will make this town a railroad centre and divisional point, and when these competing lines are completed through to the Pacific coast they will become the main through lines, being the shortest route from the interior to the coast. A large sawmill is running steadily on the west addition, the only available timber for miles around. The main street is 90 feet wide, being all cleared and ready for building purposes. All railways, roads, telegraph and telephone lines will have to come through this townsite, which is located in the centre of the whole Similkameen valley and will become the largest distributing point and mining centre in British Columbia.

## Similkameen City Lots Will Make You Rich.

A large agricultural area to draw from. Pure water, fine climate, rich mines, big payrolls.

**Lots for Sale $2 to $10 Per Front Foot.** Agents in All Towns in B. C.

For further particulars apply to

### NOTICE.

To Alexander S. Anderson, James Cowan and E. M. Kinnear:

TAKE NOTICE that an application on behalf of the Consolidated White Bear Mining Company, Limited, Non-Personal Liability, will be made to a Judge of the Supreme Court in Chambers, on the 21st day of August, 1903, at 10:30 o'clock in the forenoon, at the Court House, Victoria, B, C., or so soon thereafter as Counsel can be heard, for an order that the registered plan of the John Y. Cole Addition to the City of Rossland, being plan No. 719, deposited in th Land Registry Office at Nelson be amended so as to close Montreal street, as shown on said plan, and also that part of Kootenay Avenue shown on said plan between the westerly boundary of Lot 12 in Block 2 and the westerly boundary of Lot 16, Block 3, and that there be substituted therefor a street to be known as Kootenay avenue, running first southerly through Lots 15 and 16, or Lots 16 and 17, Block 3, to the northerly boundary of the line running through said Block 3, thence turning westerly running parallel with the said lane to the westerly limit of Lot 12, in Block 2, and embracing the said lands between said points, and a portion of Lots 17, 18, 19 and 20 in Block 3, a portion of Montreal street to be closed as aforesaid, and of Lots 10, 11 and 12, in Block 2, also that a new street be opened to be known as Montreal street 60 feet in width from Cook Avenue to the right of way of the Red Mountain Railway Company through Lots 5 and 6, 13 and 14, in Block 2, Lots 5, 6, 13 and 14, in Block 7; Lots 5, 6, and parts of 12 and 13 in Block 9, and that all other changes incidental to said changes may be made in said plan.

And further take notice that if you, the said Alexander S. Anderson, James Cowan and E. M. Kinnear, or either of you, wish to oppose said application, you are to notify in writing the Registrar of the Supreme Court of British Columbia at Rossland, to that effect within seven days from the last day of publication hereof and to appear upon the return of said application either in person or by your solicitor, otherwise the application will be proceeded with and an order made thereon in your absence.

J. A. MACDONALD,
Solicitor for Applicant.
Dated this 3rd day of August, 1903.

### MINOR MENTION

A. McMillan left last night for the Lardo.

The Tennis tournament opened yesterday afternoon.

Judge Forin is holding county court chambers today.

A. H. MacNeill, K. C. left for Spokane this morning.

G. Williams and G. Mitchell left for the south this morning.

The registration for the provincial elections closes today.

Ed Baillie has declared his intention of settling at Poplar.

J. Hunter and C. Hamilton are off to Marcus on a hunting trip.

The benefit ball for Chris Mackie at Miners Union hall was a success.

There is to be a handicap shooting match over the Civilian Rifle Range tomorrow.

There will be choir practice this evening ot St. George's church at 7:30 o'clock sharp.

A. C. Bayne brother of the late George H. Bayne returned last night to Halifax, N. S.

H. H. Welch representing the the British America Paint company of Victoria, is in the city.

Alan Maclean, director of the Velvet mine, lately from London, has ordered the close down of that mine.

For real good sound sense on the geological theory of mining read the Miner this morning. 'Tis passing strange.

"Snowslide" is the name of the drama which the Rossland Amateurs are putting on the boards during the Summer Carnival.

Word has been received from Scotland that Tom Stout has taken unto himself a wife. The lady is a daughter of Captain Allison, harbormaster of Lerwick.

The Miner declares that the big skip at the Le Roi is four compartmented. It knows as much about Rossland mines as it does about Canadian politics.

Colonel Holmes took the Rangers through a course of inspection yesterday, including skirmishing drill in the open. He declares himself satisfied with the progress made.

R. W. Grigor vehemently denies that the postoffice is anyway cracked. Evidently thinks that his critics must themselves be cracked to fancy that any such error could occur in a building which has been over two years in erection.

Manager Kirby is evidently so dissatisfied with the lower workings of the War Eagle, that the paper he owns has no official knowledge of them. Perhaps it is because they are so good that he wants to keep the knowledge to himself.

WANTED—By a woman, chamber work in a hotel or boarding house. Apply at this office.

LOST—A pair of spectacles in case. The finder on returning same to John Hooper at the Clarendon will be rewarded.

### A Challenge.

In an interview with Ralph Harron of the Palace and M. A. Stevens of the Great Northern Telegraph service, they state that there was a mistake in a notice last evening in an advertisement inserted anent the Corbett fight which declared that the C. P. R. service would be ahead of the Western Union service by one half hour. Ralph Harron says he has $1000 to bet, money of prominent officials of the Western Union, that the latter service will beat that of the C. P. R. on the fight reports.

DIRECT WIRE FROM JEFFRIES-CORBETT FIGHT TO HOFFMAN HOUSE TONIGHT. EVERYBODY INVITED.

A full report of the Corbett-Jeffries fight wired by rounds at the Palace Friday evening Aug. 14.

### Marriage.

At the Queen's Hotel, Lerwick, on the 15th July, by the Rev. A. J. Campbell, B. A, assisted by the Rev. S. G. Carmichael, B. D., and the Rev. F. H. Bamford, Thomas Stout, Rossland B. C., to Lilly Maude, eldest daughter of Captain Allison, Harbour Master, Lerwick. Shetland, Scotland.

Drop in early at the Palace and and learn who is to be at the big fight Friday evening

### Claim Superiority.

The Western Union state that they have made special arrangements to handle the fight tonight between Corbett and Jeffries and aver that there will be no repetition of messages. The Palace will be the first place for the news from the ringside of the great fight this evening.

For the best Miners shoes go to O. C. Lalonde's.

EARLIEST RETURNS OF CORBETT-JEFFRIES FIGHT BY DIRECT C. P. R. WIRE TO HOFFMAN HOUSE.

### The Fight.

The earliest returns will be received at the Clarendon bar of the Corbett-Jeffries fight, August 14, 1903. Special wire in direct communication with the ringside. Full telegraphic report of the fight by rounds, including all preliminaries. The C. P. R. report is the earliest by one-half hour.

Ladies are requested to come and see how cheap we are selling our patent and kid low shoes, C. O. Lalonde.

FULL TELEGRAPHIC REPORT BY ROUNDS OF CORBETT-JEFFRIES FIGHT TONIGHT AT HOFFMAN HOUSE.

The very best school shoes made in Canada and the United States, are always keep at C. O. Lalonde's.

### Another Peak Asceaded.

Another perilous peak of the Canadian Rockies has been scaled by another professor, Mr. H. C. Parker having been successful in reaching the top of Mt. Hungabee for the first time. A despatch to the Canadian Pacific Railway from Field announces the fact and says that Professor Parker was accompanied in the first ascent of Mount Hungabee by two of the company's Swiss guides, Christian and Hans Kauffman. Hungabee is one of the highest mountains in the Canadian Rockies and its ascent is, by common consent, one of the most difficult tasks the mountaineer has in the western ranges.

In buying your footwear from C. O. Lalonde, you get the benefit of his 18 years experience of buying and selling hoes for himself.
