KOOTENAY MINES

Rossland Boundary and Slocan Shipments.

LATEST RETURNS OF OUTPUT

What the Mines are Doing Over the District—Boundary in the Lead.

The result of the weeks work was not as good as was anticipated at the end of last week, as the shipments from the big dump at the Le Roi have not progressed well owing to one or two minor difficulties which will doubtless soon be overcome and the output next Saturday should be considerably in excess of that of this week.

The shipments of ore from the camp since January 1, are subjoined. While the shipments for the past week can only be approximately given, those for the previous period have been corrected and give the gross wet weight in short tons of 2000 pounds.

	WEEK	YEAR
Le Roi	3477	107,669
Le Roi No. 2	1362	28,225
Centre Star	130	4,028

COAST-KOOTENAY RAILWAY

Curtis Denounces the Scheme as C. P. R.

WANTS A COMPETITIVE RAILROAD

Great Speech in the Interests of the People and of the Mining Industries of the Boundary.

Victoria, B. C., June 3. — Mr. Curtis in speaking to the Coast-Kootenay bill objected to the bill which proposed the right to build a road through this country should be tied up until Sept. 1, 1903. The parties who held the franchise were not obligated to put up a single dollar. He treated the proposal as a C. P. R. scheme, and intimated that the government was disposed to consider that company with a special regard. The bill was devoid of those safeguards which were incorporated in the railway act of a year ago. He charged that the intention of the bill was to confer the option upon the C. P. R. until September, 1903. With the exception of the Crow's Nest Southern railway; which the government covertly opposed, not a mile of railway has been built under the regime of the present administration.

Mr. Curtis cited figures to show that the cost of railway construction in this province was not so excessive, as the extravagant estimates used in government arguments for the granting of exorbitant subsidies. He opposed the bill, because there was no limitation upon the cost in any way and the province could be held up for any rate the company chose to to charge. He opposed it also because the government had not agreed to build it as a government-owned road, or had not given the subsidy in the way of a loan, so that the province would be out nothing. He opposed it again because it gave the government a chance to hawk the contract about for the highest bidder, and also because it usurped the right of the legislature to approve of any proposed contract for the building of the line; also because the government would be bound and liable to heavy damages to the contractors, if the contractors finally went on with the railway, but still being within the limit of their contract, if their contract were cancelled by the government; also because on the 1st of September, 1903, if the money was put up, the contracters could go on indefinitely and hold right to build the line, and yet give the country no railway, also because there was no certainty nor even likelihood of the immediate construction of the railway under the bill, and because there was no provision for the actual cost of the railway, whereby reasonable railway rates might be easily fixed; and because provision for fixing rates could be of no real value; and also because no right of purchase was reserved by the government in after years, a principle embodied in the railway aid act of last year, and abandoned by the government in their present bill.

Also because it did not call for a line of railway in competition with the C. P. R.

He therefore moved in amendment that:

"Whereas there are at least two companies ready to enter into a contract for the construction of the proposed railway from Vancouver to Midway;

Therefore in the opinion of the House it is the duty of the government to enter into a contract at once for the construction of the proposed road as a competitive line, and upon the best terms that can be secured, and submit said contract to this House for ratification at this session of the legislature;

And further, this House affirms the principle that when a contract in which bonuses are contemplated is entered into, it should not be effected until submitted to and approved by the legislature, and also affirms the urgent necessity for beginning the construction of the Coast-Kootenay railway during the present year."

For fine Cigars and Tobaccos go to Ed Farnsworth's cigar stand.

The Anaconda.

The Anaconda saloon is getting ready for the good times coming along. It has recently renovated the whole place and everything, including the drinks, is now spick and span.

THE NEW TARIFF

Meeting of the Boards of Trade Congress.

WANTS PREFERENTIAL DUTIES

Unanimous Resolution in Bringing Down the Rate of Postage.

Toronto, June 4.—The boards of trade congress opened here this morning, with delegates present from every important commercial body in the country. Mr. M. E. Ames presided, and after a brief speech, was appointed permanent chairman.

A resolution, expressing unbounded satisfaction at the return of peace, was adopted.

Captain Gaskin of Kingston, moved that the rate of postage on newspapers between Canada and the Mothe -Land be reduced to the same figure as the domestic rate. The resolution was adopted without debate.

A resolution was adopted that the preferential duty on British goods coming to Canada and Candian goods going to Great Britain under the proposed arrangement be given only on goods imported and exported through British and Canadian ports.

Next in order was a resolution of the Montreal Board of Trade, that Great Britain can best serve the interests of the Empire by giving the products of her colonies preference in her markets as against the products of foreign countries. The motion was amended to incorporate a suggestion contained in the Toronto Board's resolution, that the premier of Canada urge at the Imperial conference the securing of a Royal Commission, representing Great Britain and her colonies, to investigate conditions and suggest such preferential treatment of imports from various parts of the Empire as should be calculated to insure the fullest benefits.

A resolution of the Winnipeg Grain Exchange asks for a specific preference of 5 per cent on all colonial grain entering England.

PAIRS WITH DUNSMUIR

Gifford Allows Dunsmuir to Leave the Province for London.

Mr. Gifford of New Westminster, says the Colonist, has agreed to pair with the Hon. Mr. Dunsmuir for the rest of the present session to enable the premier to represent British Columbia at the coronation. Mr. Gifford has always been strongly of the opinion that British Columbia should be represented at this important imperial function by the premier, and that the presence of the premier of the province is more important to British Columbia than any of the contentious issues in local politics.

It is understood that he has enforced his views upon the leaders of the opposition, and extracted their consent to his pairing with the premier. Mr. Gifford's loyalty to the party he was elected to support will not be called in question, and the course he has taken will recommend itself to the people of British Columbia as a whole.

THE THUNDERER SPEAKS.

Looking at the larger issues, says the London Times in reference to the corn tax, that tax together with the sugar duty and the export duty on coal, does indicate the beginning of a new departure in finance to which the opposition have a perfect right to object if they think objection wise. It is a departure intending to place the country on a better footing to meet the difficulties which the growing competition and expenditure of other nations are visibly preparing for it in the near future. It is the note of the present opposition that instead of recognizing that these difficulties are none of our making and that they must be met if we are not to go under in the struggle, it pertinaciously harks back to bygone days and refuses to face the new order of things. Regarding increased national efforts with horror and alarm, it acts logically enough in objecting to the preparations necessary. Hence the melancholy talk about the thin end of the wedge; and hence, too the objection taken by Sir Henry Fowler, whose imperialism is but imperfectly developed, to anything that may open the door to preferential treatment of our colonies Sir Henry Campbell-Bannerman sees confirmation of these fears in the speech of Sir Wilfrid Laurier which we report today. The Canadian premier said that the duty on corn and flour enables Canada to make proposals which she could not make in 1897. That such a result follows from the duty is, to our minds, a very powerful argument in its favor, instead of being as Sir Henry Campbell-Bannerman thinks, an argument against it. That imperial federation to which the Empire must look for its future development will not come about by platonic declarations. We must establish some community of interest and reciprocity of good offices and nutriment and stimulus to the sentiments of loyalty and affection which have been so strikingly displayed during our trouble in South Africa.

MUNICIPAL ACT.

Hon. D. Eberts and Smith Curtis are together placing a bill before the legislature which, together with the amendment made to it by John Houston, a government supporter, is worthy of special note. Its provision for a frontage tax cannot but be of interest to Rosslanders, in view of the fact that it is gradually dawning upon the citizens of this camp that without the frontage tax no further improvements can be brought about in this city for a long time to come.

Its principle of one man, one vote, which is carried out in all provincial and Dominion elections, is a welcome reform of the present law whereby a citizen of Rossland, if he have but the money, may have three votes to the one of his poorer townsman. It may be argued now, as it has been argued in the past, that a citizen should be allowed the greater influence, the greater his stake in the country, as if a man's stake in his country could be measured by his wealth. Such men as Pitt and Disraeli would have been ruled out of their country's counsels under such a scheme and would give a Morgan or a Rothschild the whole say today. But the best refutation of the argument is that it has already been weighed in the past and and has been rejected as is witnessed by the plan of the general elections.

A further step in the right direction is the provision for the discontinuance of the ward system which would do much towards stopping minor sectional differences, the existence of which is doing flagrant injury to Vancouver today.

The provision reducing the qualification for mayor is also to be approved. This, together with the one man, one vote principle, will, doubtless cause wrath and consternation in the ranks of the "sediment," but really the ring cannot for ever hope to misgovern the city.

But there are clauses in this act, such as that with reference to the continuance in office of a certain number of aldermen which will not meet with approval. These may safely be set down to Hon. D M. Eberts, for it is the parrot cry of such politicians as he that the people cannot be trusted to know their own minds and that consequently, every difficulty should be placed in the way of their obtaining their wishes. This is the theory of all second houses of legislature, this is the theory that, underlies the constitution of the United States, where its effect has been to bind that people with a chain which is ever growing stronger and stronger and which will probably take a revolution to break, since even an united effort at the polls would not accomplish freedom. A safety valve is ever necessary and the fool that sits on that valve is going up in the air.

This law will enable a more facile change next January.

NOTES AND COMMENTS.

The WORLD contented itself with asserting that $6 ore in this camp could be made to pay and that shipments of 20,000 tons a week were in sight. Bernard Macdonald states that $5 ore can be made to pay and that 5000 tons a day are the shipments that will shortly be made. The statement is not all "barney" either. The public can take its choice between the two assertions, the WORLD merely remarking that there is not much standing room between the devil and the deep sea. Again take your choice.

It is curious to contrast the difference of the utterances of two well posted men such as Bernard Macdonald and John Mackenzie talking on the same subject, familiar to both and one in which they are both practically in unison. The Elmore process of oil concentration, if successful, means the pulling down of the camp to an average value of shipment of something over $5 and a population here rivalling Butte, Johannesburg and Denver. The Le Roi man is conservative, the Le Roi No. 2, enthusiastic. The one is cannily Scot the other has had his Irish roused lately.

The attention of A. C. Galt and the man who responded lately for the press at an alleged public banquet is called to the fact that something is at last being done for the mineral tax on mines, and it will probably be abolished or at least suspended and its incidence will be more equitably arranged. They are asked to note that this much needed reform is not coming from any Mineowners' association, nor from any Board of Trade be it associated or merely strike-quelling, but it is from the only man who ever did anything for the mining industry of this province in office, and that man is Smith Curtis.

ONE MAN ONE VOTE

No More Plurality Voters in the Cities of This Province.

John Houston, M.P.P., has secured the insertion of the following subsection in the bill now before the legislature to amend the Municipal Elections act:

"A resident owner of real estate, a holder of a trade license, and a householder shall, when a municipality is divided into wards, be entered on the voters' list for a ward in which he or she resides; a non-resident owner of real estate shall, where a municipality is divided into wards, be entered on the voters' list for the ward in which he or she has the largest amount of property in value according to the assessment roll. No person shall be entitled to have his or her name twice entered on the annual voters' list as a voter in a municipality; and it shall be unlawful to twice enter the name of any person on the voters' list for any one year as a voter."

MUNICIPAL ACT

Important Bill Introduced in the House.

HON. EBERTS AND SMITH CURTIS

Reduce Qualifications of Mayor and Aldermen—The Frontage Tax.

The bills introduced by the Attorney-General and Mr. Smith Curtis to amend the Municipal Clauses Act are of sufficient importance to warrant more than passing notice. Some of the principal features are given below.

By the Government bill, the abolition of one half in value of the last assessment roll is provided for. Any change so made cannot be interfered with for one year after its adoption. By section 6 power is given to a city council to pass a by-law for the continuance in office for more than one year, but not longer than three, of a certain number of the aldermen elected. No such by-law shall have any force until ratified by a vote of the municipal electors.

An important feature of the bill are the clauses (section 11 et seq.), authorizing the imposition of a frontage tax to defray the cost of drainage and street improvements. Sewer rents may be charged against any owner or occupier of land or property where a sewer or drain is provided, whether it be used or not. Authority is given for the borrowing of money upon security of sewer rents (sec. 12.) In the event of owners representing one-half of the assessable value of property fronting on the street or road; or one-half the owners and occupiers of it, requisition the council to carry out certain street improvements, the council may levy a special rate, based on frontage on the improved streets (sec. 13), or according to relative assessed value (sec. 55), to defray the cost.

Sub-section 50 of the Act of 1897 is amended by adding a sub-section providing for the referendum. All by-laws except when the raising of money is involved, may be so referred to the electors for an expression of opinion.

The corporal punishment of boys between the ages of seven and fourteen by the administering of strokes with a strap in lieu of other penalty for offences against the Act, is authorized (sec. 21.)

Authority is given under sec. 19 to borrow money upon the security of water rates, electric light charges, or other rates of like nature. Should money be so borrowed, the rates or rentals given as security are to be withdrawn from the annual revenue. No by-law empowering a loan on this security can be altered or repealed unless the consent of the lieutenant-governor-in-council is first obtained.

Provision is also made (sec. 29) for borrowing to make up any deficiency in revenue from special rates.

The Bill fathered by Mr. Smith Curtis contains a section (3) dealing with the qualifications of mayor and aldermen; these are $500 in real property value clear of encumberance or the payment of $20 a year in taxes.

Section 11 provides for a $5 half-yearly tax for peddlers of fish, game, fruit, vegetables, dairy or farm produce. Every other peddler is to pay $250 for six months.

For Sale—10x15 jobber and 26-inch paper cutter. Apply at this office.

M. Purdy, (Supply.)

RHODES IS ENDORSED

British Workingmen of South Africa Join in the Memorial.

The British Workmen's Association of South Africa held their regular meeting on Wednesday, says the Cape Times, of a recent date. As it was St. George's Day, it was resolved to put all other business aside, and discuss the question of the memorial to the late Right Hon. C. J. Rhodes, the topic being regarded as most suitable to the occasion, as he was certainly one of the greatest Englishmen of the day.

After an animated discussion, the members unanimously supported Mr. T. L. Schreiner's idea with regard to the position for the statue, agreeing that this would be the best site both from historical association and for its panoramic view; also that, as much of the money would come from oversea, it should be more of a national statue than a local one. It was also suggested that as a means of checking the subscriptions and also showing that the people had patronized the scheme, subscription stamps in book form of 100, say, at 1s. each, and donation stamps in books of 25 at £1 1s. each should be used.

If you want first-class bottled goods go to the International Family Liquor Store.

Notice to Delinquent Co-Owners

The Mineral Act and Amending Acts

In the matter of the "Lone Star" and "Sibley" mineral claims. situate on the east slope of Sophie mountain, in the Trail Creek mining division of West Kootenay, B. C., and recorded at Rossland.

To Joseph B. Dabney, William Drain, George Moore, Ovid Poulin and R. C. McDonald, or any other person or persons to whom they or any of them may have assigned their interests in the above mineral claims or either of them.

You and each of you are hereby notified that I have expended in assessment work for the two years ending the 7th day of May, A. D. 1902, the sum of $150, in accordance with the provisions of the Mineral Act, and if within ninety days from the first publication of this notice you fail to contribute your share of the above expenditure, together with the costs of advertising, your interests in the said claims will become the property of me, the undersigned, under section 4 of the Mineral Act, Amendment Act 1900.

ANDREW DALY.

FIGURES TALK.

The fifth annual meeting of the shareholders of the Crow's Nest Pass Coal company was held in Toronto on March 7th.

The net profits of the year after paying all operating expenses and all charge of every kind, amounted to $207,848.39. After paying a dividend at the rate of ten per cent per annum, a balance of $28,142,.89 was carried forward to the credit of profit and loss.

This company's assets are their coal mines and the townsite of Fernie. Four years ago this company had no transportation facilities, and their stock sold as low as eleven cents per share. Today their stock is selling at $90.

The Similkameen Valley Coal company, limited, assets are coal mines, timber, water power, agricultural and horticultural land, city water works, electric light plant and the townsite of Ashnola, surrounded by the following resources: gold, copper, silver, lead, iron, lime, fire clay, platinum, and a fine stockraising country, and it is the smelting center of the Similkameen valley, with a climate that is all that could be asked, You can secure an option on this company's stock by paying 10c per share down, and ten cents per month until fully paid, with non-forfeiture clause. This price is subject to twenty-five cents advance without notice as soon as transportation is assured. The present price is $1.10 per share. Do not wait until it is too late, but get in on the ground floor, and make a handsome profit. A purchaser of one hundred shares now, may gain a profit of $8,990. Crow's nest shares as an example. This would be a fair profit on an investment of ten dollars per month for eleven months. We invite the fullest inspection of the company's affairs by intending purchasers. For further information apply to the

STOCK MARKETS

Half Holiday Brings Less Business.

WEEK'S SALES HAVE BEEN GOOD

The Latest Quotations and Sales Locally and on the Toronto Market.

The sales, being Saturday, were by no means so brisk today, although the tone of the market for the better is unchanged. The week past has been, generally speaking, a good one for the brokers, and the public have succeeded in securing quite a number of meritorious stocks at low prices.

Today's quotations and sales here and in Toronto.

Everybody Welcome to Compete

MINOR MENTION.

The Rossland baseball team is going to Northport tomorrow.

Richard Plewman returned from a visit to Winnipeg last night.

The Presbyterian Sunday school will be open tomorrow as usual.

Dr. Reddick has given permission to reopen the Sunday schools.

Mrs. B. Bannett, who has been ill for the past few weeks, is again around.

The curtain lifter next week at the International will be "A Chinese Laundry," the play "Saved."

The coronation committee will meet this evening in the library at 8 o'clock and not in Crow & Morris' store.

Some fellows are going fishing tomorrow. If they do not catch more than on their last trip they need not return to camp.

The Ladies' Aid of the Baptist church will give a peace supper next Thursday for which an admission of 25 cents will be charged.

The carpenters will hold their regular meeting tonight and the officers for the ensuing term will be elected. A good attendance is requested.

James Peardon, one of the men who was injured by the dropping of the cage in the Nickel Plate shaft last week, left the hospital for his home today.

Although the Sunday schools are now reopened, the daily schools are to remain shut. This is the fruit of the policy of Mayor Clute, Trustee Galt and others.

Dr. D. E. Kerr leaves this even- for Victoria to attend the Grand Lodges of the British Columbia jurisdiction of Masons and Odd-Fellows. He will be absent about three weeks.

The Morganized Truth about Judge Boultbee, Chief Ingram, Police Commissioners Clute and Hamilton is interesting reading—interesting for those who like having the truth told about them.

The International makes the announcement that on the last three days of the week the program will be reversed in order to give everybody a chance of seeing the whole program. This is a wise move.

Victoria is going to celebrate Coronation Day with a four days' festival. The secret societies from all over the Sound are making up a procession upwards of 4000 strong, according to the Seattle Times.

The trouble about this week's Truth is that it is not getting at the root of the matter. Find the hands that move the puppets of the police court and the machinery may then be adjusted. It is no use asking poor Harry to do it.

A pessimistic critic of the town thinks that the statements of the WORLD, of John Mackenzie and Bernard Macdonald are all pipe dreams, and are given out for the express purpose of helping him in his business. He don't like it. Poor chap! He ought to get Doc Johnson to give him a course of medicine. It's fine for knockers.

Dr. Sinclair was so anxious to stick it into a man who sometimes works in the WORLD office that he entirely overlooked the fact that he had already been vaccinated, and moreover forgot that two men from Marcus passed in without examination. The WORLD is sorry for the sufferer, Bob, in the interests of the doctor he must be allowed to get even some way.
