Entertainment Tonight

J. M. McCloskey, who lost both eyes by an explosion at the Knob Hill mine, Phoenix, B. C., June 6, 1902, will give an entertainment at Miners Union hall tonight. Mr. McCloskey is making a reputation as a humorist of rare attainments and where once heard is always invited back again. Everyone should attend his entertainment and help this worthy gentleman in his heroic struggle for a livelihood. Everyone can spare the small admission price charged and they will be sure to be pleased by the programme. Admission 50c; children 25c.

The Palace has the only first class bowling alley in the city.

WANTED—A situation as watchman by an elderly man, Salary not considered. Address this office.

INTO DOMINION HANDS

Nicola Railway Is Transferred to the Federal Government.

Ottawa, July 12.—At the railway committee yesterday the Nicola, Kamloops & Similkameen Coal & Railway company bill asked that a British Columbia railway be brought under the Federal Railway Act.

There was some opposition to interference with provincial control, and an amendment was moved to make the application of this bill dependent upon the British Columbia legislature. This was moved after the section declaring the railway for the advantage of Canada had been adopted. The amendment failed to carry, and the bill was reported.

Our large line of Summer Wash Goods must go, as we do not intend to carry them over. They will be sold at actual cost price. The CRESCENT.

FIGHTING JOE MARTIN

Shakes His Fist at Judge Walkem and Defies Him.

There was a lively scene in the Vancouver court on Saturday. Before Mr. Justice Walken, J. Martin, appearing for Josias Coote, charged with perjury, applied to have an adjournment made until the trial could be heard by Judge Henderson. Justice Walkem denied the application, fixing the date for the 28th, when Judge Henderson will be absent from the city,

There was an argument before the court, and Mr. Martin finally got so hot that Justice Walkem rose and said he would leave the bench. He intimated he could send Mr. Martin up for cootempt. Mr. Martin shook his fist and loudly defied the judge, and the latter went into his room, Mr. Martin continuing shaking his fist at his retreating figure. Apologies followed later.

The merchants' lunch at the Palace tomorrow will be a dandy.

Montreal Is Growing.

Montreal, July 13.—Montreal is growing fast. The figures just supplied in Lovell's Directory, give the population as 287,000 for the city proper, and 360,000 for city and suburbs. This in an increase for the city and suburbs for the past year of 27,000, and of about 12,000 for the city proper. Since the Dominion Census of 1901, the city proper has grown 20,000 in population.

LOST—On Saturday night, bunch of keys. Return to this office.

Salvation Army Social

There will be a great welcome meeting at the Salvation Army barracks on Tuesday next. Brigadier McMillan will be in charge, assisted by Staff Captain Taylor of Spokane, also officers and soldiers of the local corps.

GERMANY IS JEALOUS

Does Not Approve of President Loubet's Visit to England.

Berlin, July 13.—The German attitude towards President Loubet's visit to King Edward and the Anglo-French entente cordiale is outwardly one of more or less impartial observation, coupled with attempts to minimize the facts of the situation.

Referring to the National Zeitung's assertion that Germany can afford to welcome an Anglo-French understanding as she welcomed the Franco-Italian rapprochement the London Times' correspondent says that those who have had the opportunity of looking behind the scenes of European diplomacy during the past ten or twelve years know that the friendship now uniting England, France and Italy has considerably deeper signifiicance than German critics publicly profess attaches to it.

Our lines of Ladies' Shoes are all well known, viz: King Quality, Sorosis, North Star, Laird, Schober, Utz & Dunn, Geo. A. Slater, etc. You are invited to come and see the latest arrivals.

C. O. LALONDE.

To clear out our stock in Shoes we are offering them at $1,00 per pair; worth from $1.50 to $4.00. THE CRESCENT.

The Crofton Smelter

The Crofton smelter has resumed operations. Arrangements have been made by the management for a supply of coke from the Comox ovens. Pending its arrival a supply has been obtained from the United States. With the arrival of a steady supply of coke the works will be operated to their fullest capacity.

Ladies' and Children's Sailor Hats going at cost. Prices ranging from 40c to 95c. The Crescent

The Lenora

N. Tregear, the manager of the Lenora mine, with a force of men, is reported to be making satisfactory progress at the works at Mt. Sicker preparatory to beginning mining operations. It will, of course, be some little time before the Lenora will be shipping to the smelter.

RUSSIAN AUTONOMY

Tsar Is Gracious to His People.

CONFERENCE MERELY A SHAM

Policy of Decentralization Announced —Autocratic Bureaucracy Is Strengthened.

London, July 13.—The Times publishes from Russian correspondents, under the heading "Sequel to Tsar's Recent Manifesto," an account of the conference held at the Tsar's Koe Selo, the Tsar presiding, to discuss the best means of carrying out the policy of decentralization announced in his manifesto. The result hardly upholds the sanguine hopes of a large extension of local autonomy, cherished by many Russian Liberals, but rather shows any change to be in the direction of strengthening autocratic bureaucracy. The conference was attended by the Ministers of the Interior, Finance, Agriculture, Justice. and State Councillor Platonoff.

All declared the ministers have to deal with many questions not really Imperial, but which local authority are unable to deal with, since the latter are only empowered to handle a few unimportant questions, but it would be otherwise were radical reform in provincial district administration made as announced in the manifesto, raising provincial governors to be real representatives of the sovereign power. The Minister of Agriculture explained that this would require many legislative changes in administration routine, and the Minister of the Interior said he had already drawn up a scheme for concentrating the control of all local administrative institutions of each province in a council presided over by a governor. The Tsar approved of this and ordered lists of the matters transferrable from central to local authorities prepared by the various ministers by August 14.

Make your own selection and set your own price on Wall Paper at Daniel & Arthu, 38 Columbia avenue,

SALMON HAVE ARRIVED.

Strike May Interfere Greatly With the Catch

Vancouver, July 13.—The sockeye has appeared in the Gulf in full head for the Fraser river. By tonight it is expected that the fish will be off the mouth of the river in sufficient numbers to warrant the fishermen going to work.

Just how many men will go out it is impossible to say at present, on account of the strike proclamation issued some time ago by the white men, but the canners have reason to believe that a goodly number of boats will set out at 6 o'clock, at least so advices from Steveston today state.

UNION LABEL

LOSS OF REVENUE.

As an example, says an exchange, of the loss of revenue to Canada on account of the insufficient taxation of railways, the Grand Trunk tunnel at St. Clair is as good as can be given. That half of the tunnel which is in the state of Michigan has been assessed this year by the board of state tax commission for $1,800,000. The tax the Grand Trunk company will have to pay this year upon that assessment is $24,640.29. On the Canadian half of the tunnel the company will have to pay taxes to the amount only of $753, a difference in its favor, from a revenue producing point of view, of $23,887.28. The Grand Trunk people take care, however, that Ontarians pay more for the privilege of using their trains than do the Michiganders, the fare in that state being two cents per mile, while it is three cents per mile in Canada. The Americans gave the Grand Trunk company nothing for building the line, and we gave them $375,000. It is time for a change and this appears to be imminent now that the new Liberal railway policy has been announced as including state control of passenger and freight rates.

UNAUTHORIZED.

Tomorrow night will probably witness an interesting debate in the city council, and it may be taken for granted that it will not be threshed out in the Star Chamber before it comes before the public. The debate will arise over the appointing of Alderman Dunlop to sign cheques with the city clerk and mayor, instead of those latter officials signatures having to be endorsed by the name of the chairman of the finance committee, Alderman Harry Daniel. The reason so far avowed for this action which is practically that of of dethroning the chief of the finance of the city, is that Alderman Daniel has neglected his duty in refusing to sign certain cheques relative to a discrepancy in the charges made by two livery stables of the camp. Alderman Daniel, as stated in these columns last week, has a different tale to tell. He declares that the issue is not at all that which is named, a matter which has already been settled, and about which the only delay that did occur was one of a week in order that he might enquire into the reasons of the discrepancy. The real reason is stated to be that of other expenditures which have been unauthorized by the council undertaken by the mayor for the liquidation of which the finance chairman has notified the committee, or the Star Chamber, it is not very clear which, he cannot, as guardian of the public moneys, sign cheques. Supposing that Alderman Daniel is right in his contention that these expenditures, which in one case alone amounted to $200, are unauthorized it will follow that the mayor will have to disburse them at his own individual expense. This will be the case unless he can get a more complaisant city official to sign the drafts, without which the bank cannot hand over the money. The further point arises whether, in the case as stated, the alderman signing those cheques, and the aldermen, who by a recorded vote, support him in such action will not be jointly and severally liable for the whole amount. It may be ruled that if the council by a bill of exemptions will give the mayor that authority which it is declared he has usurped, that the money thus expended will rlghtly become incumbent upon the city to pay. That is a moot point. If so ruled, however, it is evident that the whole board of aldermen may be dispensed with and the whole power rest in the hands of the mayor. The city would certainly save money thereby, and as certainly would not be any worse off than it is at present.

But the point must certainly be cleared up whether the mayor is the Tsar of Rossland or whether he is a constitutional officer. It is to be hoped that the merits of the case will be fully exposed tomorrow evening, and it will be interesting to record the names of the gentlemen who vote one way or the other and the reasons they may condescend to give publicly for their conduct. It is well to have them on record.

THE OLD ECONOMISTS.

One result, says the Victoria Colonist, of Mr. Chamberlain's throwing a fiscal question into the arena of Imperial politics has been to revive general popular interest in the study of political economy. In particular, the theories of the old orthodox economists have been resurrected, and they are found to be entirely different from the popular conception of them. Free traders of the obnoxious kind, by that we mean those who rest in a dogma and assail with virulence everything that appears to clash with their dogmatic beliefs, have always been firmly convinced that if the practical application of free trade was due to Cobden, its argumentative justification was to be found in the works of orthodox economists from Adam Smith down to John Stuart Mills. As a matter of fact that justification is not to be found in those writers at all, except in so far as they described an ideal interchange of merchandise, only in a purely cosmopolitan society that is, without national divisions. Cobden was purely and simply a cosmopolitan. The logical basis of his doctrine was not that a country might not obtain a selfish advantage by protective duties, but that it was not in the ultimate interests of humanity that it should do so. It is needless to say that it was not the logic of Cobden's position which converted Great Britain, the least logical and most patriotic of all countries, to free trade. The doctrines of the Manchester school involved a similar conclusion as to war.

Obviously, war is not a thing for the general advantage of the human race but for the particular benefit of the winning combatant. Consequently the Manchester school proposed to abolish war at the same time as they abolished protective duties. When, however, they came to put this doctrinaire theory into practice by disarming Great Britain, Great Britain found their logic much too strong for her stomach. It was not, therefore, Cobdenite logic which converted Great Britain to free trade. If it had been it would have deprived the country of army and fleet as well. Great Britain was converted by the facts of her own position. She was developing a colossal manufacturing industry, and needed cheap bread. She saw in free trade a means of cheapening bread, and thus stimulating manufactures. Cobden's policy was put in practice, but his theory was never accepted, never could be accepted as long as nations remain separate entities in civilization. Now the exigencies of Great Britain are driving her in another direction. If she is convinced that it is to her interest to go in that direction, Cobdenite logic will disappear from her path like a straw before a cyclone. Great Britain is beginning to question the advantage of manufacturing cheaply when the articles manufactured are being gradually closed out of her accustomed markets. She is finding, also, that the protected manufactures of foreign countries are invading her home market. Cobdenism, Great Britain thinks, should be justified by results, as well as deducible from a cosmopolitan theory of civilization. A civilization from which cosmopolitanism and Great Britain would be equally eliminated does not appeal to her as satisfactory, and it does appeal as the only practical result likely to be achieved by her continuance in her present course.

CANADA AT OXFORD

First Nominations for Scholarships.

RHODES' WILL NOW OPERATIVE

Conditions Under Which Canadians Will Enter the Famous University.

The Rhodes Scholarship Trust has just issued a memorandum regarding the scholarships for Canada, a copy of which has just been received from Dr. Parkin.

The first election of scholars in Canada under the Rhodes bequest will be made between February and May, 1904. The elected scholars will commence residence in October 1904. A qualifying examination will be held within this period in each province, or at centres which can be easily reached. This examination is not competitive. One scholar will be chosen for each province to which scholarships are assigned.

The committee and the universities making appointments will be furnished with a statement of the qualifications which Mr. Rhodes desired in the holders of his scholarships, and they will be asked, in exercising their right of election, to comply as nearly as circumstances will permit with the spirit of the testator's wishes. They will also be asked to furnish to the trustees as full a statement as possible of the school and college career of each elected scholar, with the special grounds of his appointment, together with suggestions, if desired, as to the course of study for which he is best fitted.

It has been decided that all scholars shall have reached at least the end of their sophomore or second year work at some recognized degree-granting university or college of Canada. Scholars must be unmarried, must be between nineteen and twenty-five years of age. Candidates may elect whether they will apply for the scholarship of the province in which they have acquired the above mentioned educational qualification, or for that of the province in which they have their ordinary private domicile, home or residence. They must be prepared to prevent themselves for examination in the province they select. No candidate may compete in more than one province.

Candidates must notify their provincial chairman in January, 1904. The Canadian nominations for 1904 and 1905 will be made in this order: Ontario--1904, by Toronto University; 1905, by Queen's University. Quebec—1904, by McGill University; 1905, by Laval University. Nova Scotia—1904, by Dalhouse University; 1905, by Acadia College. New Brunswick—1904, by the University of New Brunswick; 1905, by Mount Alison University.

In the other provinces the selection of scholars will be made by the following committees: Prince Edward Island and British Columbia—The Lieutenant Governor, the Chief Justice, the Chief Superintendent of Education. Manitoba—A committee of five to be named by the University of Manitoba. Northwest Territories—A committee of five to be named by the Lieutenant Governor and the judges of the Supreme Court of the Territories.

CONSERVATIVE PLATFORM

[Adopted at Revelstoke, September 13th, 1902.]

1. That this convention reaffirms the policy of the party in matters of provincial roads and trails; the ownership and control of railways and the development of the agricultural resources of the province as laid down in the platform adopted in October, 1899, which is as follows;

"To actively aid in the construction of trails throughout the undeveloped portions of the province and the building of provincial trunk roads of public necessity.

"To adopt the principles of government ownership of railways in so far as the circumstances of the province will admit, and the adoption of the principle that no bonus should be granted to any railway company which does not give the government of the province control of rates over lines bonused, together with the option of purchase.

"To actively assist by state aid in the development of the agricultural resources of the province."

2. That in the meantime and until the railway policy above set forth can be accomplished, a general railway act be passed, giving freedom to construct railways under certain approved regulations, analogous to the system that has resulted in such extensive railway construction in the United States, with so much advantage to trade and commerce.

3. That to encourage the mining industry, the taxation of metalliferous mines should be on the basis of apercentage on the net profits.

4. That the government ownership of telephone systems should be brought about as a first step in the acquisition of public utilities.

5. That a portion of every coal area hereafter to be disposed of should be reserved from sale or lease, so that state owned mines may be easily accessible, if their operation becomes necessary or advisable.

6. That in the pulp land leases provision should be made for reforesting and that steps should be taken for the general preservation of forests by guarding against the wasteful destruction of timber.

7. That the legislature and government of the province should persevere in the effort to secure the exclusion of Asiatic labor.

8. That the matter of better terms in the way of subsidy and appropriations for the province should be vigorously pressed upon the Dominion government.

9. That the silver-lead industries of the province be fostered and encouraged by the imposition of increased customs duties on lead and lead products imported into Canada, and that the Conservative members of the Dominion House be urged to support any motion introduced for such a purpose.

10. That as industrial disputes almost invariably result in great loss and injury both to the parties directly concerned and to the public, legislation should be passed to provide means for an amicable adjustment of such disputes between employers and employes.

11. That it is advisable to foster the manufacture of the raw products of the province within the province as far as practicable by means of taxation on the said raw products, subject to rebate of the same in whole or part when manufactured in British Columbia.

Conservative Conventions

At a meeting of the executive of the Provincial Conservative Association, held at Vancouver, the province was divided into five divisions for organization purposes. The Kootenay-Boundary division is made up of the following provincial election districts: Revelstoke, Columbia, Fernie, Cranbrook, Ymir, Kaslo, Slocan, Grand Forks, Greenwood, the City of Rossland and the City of Nelson. At the same meeting the following resolutions were adopted:

1. That conventions for nominating candidates for members of the legislative assembly be made up of delegates chosen as follows:

(a) In city electoral districts, one delegate for every fifty and fraction of fifty votes polled at the provincial election held in 1900, and if the city is divided into wards, the proportion of delegates for each ward shall be based on the vote polled in each ward at the last municipal election.

(b) In other electoral districts, one delegate for every fifty or fraction of fifty votes polled at the provincial election held in 1900, the delegates to be apportioned to polling places, or as near thereto as will be fair to the voters of the different neighborhoods.

2. The election of delegates shall be at public meetings, held at a designated central place in each polling division, or in each ward in city electoral districts, if the city is divided into wards. At such public meetings only those who pledge themselves to vote for the candidate or candidates selected at the nominating convention shall be entitled to a vote for delegates

3. Two weeks notice shall be given of the public meetings at which delegates are to be elected, and nominating conventions shall be held in city electoral districts two days after the day on which delegates are elected, and in other electoral districts seven days after. All nominations throughout the province to be made at a designated central place in each electoral district, and on the same day.

4. All notices of the date of public meetings for the election of delegates to nominating conventions, the apportionment of delegates, and the place and date of nominating conventions in the several electoral districts shall be prepared by the member of the executive of the division in which the electoral districts are situate, and issued over the names of the president and secretary of the Provincial Conservative Association

A meeting of the provincial executive will be held at Vancouver within a month, and the date for holding district nominating conventions will then be fixed.

JOHN HOUSTON,
President of the Provincial Conservative Association.

Nelson, June 8th, 1903. tf

SIMILKAMEEN CITY, B. C.

Now Is the Time to Buy Lots in Similkameen City, B. C.

CAMP HEDLEY is the most talked of camp in the province, and situated in the centre is Similkameen City, surrounded by rich mines which will shortly have large payrolls. Over 200 lots have been sold to business people who realize that Similkameen will become the metropolis of this district. The Nickel Plate mines have expended $300,000 in development and are at present building tramways and a 40-stamp mill. Arrangements are being made for the erection of a large smelter at Similkameen City which will cost about a million dollars. Besides the Nickel Plate group of claims being developed by one of the richest mining companies in North America, there are several other groups and properties which will shortly be developed, among them being the Kingston Mines, Rollo, Wellington, Winnipeg, Red Chief and Pollock. Situated as it is in the beautiful Similkameen valley, midway between Princeton and Keremeos, and protected from all opposition in the valley by adjoining a large Indian reservation, this townsite will become one of the principal mining camps of the Pacific Northwest. It was only a short time ago that lots in Rossland, Nelson, Greenwood and other mining centres were selling for the same price that they are today being sold for in Similkameen. Come in before the boom and double your money.

Similkameen City to Have Two Railways.

The Victoria, Vancouver & Eastern and the Canadian Pacific railways are starting immediate construction for the Similkameen, which will make this town a railroad centre and divisional point, and when these competing lines are completed through to the Pacific coast they will become the main through lines, being the shortest route from the interior to the coast. A large sawmill is running steadily on the west addition, the only available timber for miles around. The main street is 90 feet wide, being all cleared and ready for building purposes. All railways, roads, telegraph and telephone lines will have to come through this townsite, which is located in the centre of the whole Similkameen valley and will become the largest distributing point and mining centre in British Columbia.

Similkameen City Lots Will Make You Rich.

A large agricultural area to draw from. Pure water, fine climate, rich mines, big payrolls.

Lots for Sale $2 to $10 Per Front Foot. Agents in All Towns in B. C.

McARTHUR & HARPER

Merely Local

Mrs. W. J. Sullivan has gone to Lewis, Idaho.

Mrs. G. M. King left this morning for Seattle.

H. Van Buren went to Walla Walla this morning.

Frank Loerven and family left today for Quincy, Ill.

Sleepy Jim won the Fishermen's race yesterday afternoon.

Mrs. M. Villeneuve returned home on Saturday evening.

Miss. Anderson was booked over the Great Northern to Walla Walla today.

S. S. Taylor, the Liberal nominee for Nelson riding, was in the city today.

O'Hearn's store was broken into on Sunday and $1.50 taken out of the till, all that it contained.

Premier McBride is expected here this evening and will go out tomorrow morning for the Boundary.

The warehouse of Levy & Co. was broken into on Saturday and 2000 cigars and some tobacco stolen.

There will be a meeting this evening of the executive of the celebration committee at 8 o'clock in the City Hall.

Don't forget McCloskey's entertainment tonight at the Miners' Union Hall. Tickets are on sale at Rolls' drug store.

No word has as yet been received from James Irvine as to the success of his mission to the Boundary. Consequently the date of the celebration is as yet unfixed.

Andrew Sutherland, master mechanic at the Velvet, has been appointed boiler inspector to the Kootenays, succeeding George Madigan removed to the coast.

J. Harper entered his store yesterday afternoon just in time to espy someone making his exit by the back door. On examining the till it was found to have been emptied and $22.50 stolen.

The Knights of the Golden Horseshoe hold thair final initiation before the departure of the organizer this evening. About 18 or 20 Knights belong to the celebration committee. That is why the "honorary chairman," John Dean, called the meeting of that committee for this evening. What's he got up his sleeve?

You can save money by buying your dress goods at the Crescent.

MORE HIGH GRADE ORE

Good Smelter Returns Are Obtained by a Greenwood Property.

Greenwood, July 13.—D. W. McVicar has received from Nelson the returns for a car of ore from the E. P. U. mine, situate within half a mile of Greenwood which he last week sent to the Hall Mining & Smelting conpany's smelter in that town. The shipment contained about 20 tons. One ton showing free gold and telluride ore, had been sorted from the lot, and this returned 19.25 oz. gold and 13 oz. silver. The remaining 19 tons gave 5.10 oz. gold and 6 oz. silver per ton. The returns, after deduction of freight and treatment charges, was $2211, or an average of about $110 per ton for the whole shipment, which left a clear profit of about $1200 after payment of all costs connected with mining and hauling to the railway. Work is being continued at the at the E. P. U. mine with ten men on the payroll.

The Gold Finch, which adjoins the E. P. U. is now getting out some fine ore. This is being carefully sorted and the expectation is that when a carload shipment shall be made it will give equally good returns to those received from other high grade properties in the neighborhood.

The Reason Why

There being an entertainment at Miners Union hall tonight, a function at Odd Fellows hall and another at the Masonic Temple, Mayor Dean calls a meeting of the celebration committee when he knows that half of that committee must be absent.

THE SEWANHAKA CUP

Challenger, Kalootu, Has Arrived in Canadian Waters.

Rochester, N. Y., July 13.—The cutter yacht Irondequoit, the Canada's cup challenger, arrived at Charlotte today from City island via Hudson river, Erie and Oswego canals to Oswego. She will be thoroughly overhauled and put in racing trim.

The Canadian cup defender, Strathcona, has been put in shape and a great race is looked for this year.

The course is laid out in the lake just outside Toronto harbor. The contest calls .or the winner in three out of five races.

The cup, which represent the yachting championship of the great lakes was originally donated by the Chicago yacht club and won by the Canada at the Put-in Bay regatta in lake Erie. With the exception of one year Canada has always succeeded in retaining the cup.

Montreal, July 13.—The Manchester yacht club Kalootu, the challenger for the Seawanhaka cup arrived here yesterdry afternoon, and was taken out to Dorval, where she will be put into the water in a few days.

INTERESTING TALK ON
M. J. O'HEARN'S Closing Out Sale

There is nothing so contagious as good bargains. The closing out sale has spread principally by town talk in Rossland and Trail, and men and women are taking advantage in the fullest degree of our slaughtered prices. There is no let up to the enthusiasm; it keeps on increasing. "I can't realize it," said a gentleman yesterday turning over one of our men's suits to examine the price and quality. These popular goods are rarely seen at slaughtered prices. These fine lines to judge by:

Men's Clothing
