WAR CLOUD IS DARKENING

Hostilities May Break Out at Any Day.

CANNOT BE DELAYED MUCH LONGER

Russia Is Growing Daily More Open it Its Aggressions--Policy of Japan Is to Force a War.

Tokio, July 38.—It has leaked out that the Imperial government regards the present situation as most serious, and that war is likely to break out at any moment. The railway officials have been notified that they must be prepared to transport troops at any time This notiification is all the more necessary, as the railroads here are worked upon the English block system, only one train being allowed upon a section at the one time.

An all rail route is now open all along the northern border of the Inland Sea to Shimonoseki, where a naval yard has been established, with the coal harbor at Moji, just across the narrow straits, with thousands of tons of coal in reserve.

The recent declarations of Russia with regard to Manchuria, barely veiling their hostility, the ominous strengthening of its fleet in the Yellow Sea, the encroachment at Yalu, the building of a Russian telegraph line crossing the western section of Korea, the constant interference with Korean politics, the refusal of Russia to permit of the opening of the treaty port of Wuji in Korea, in defiance of treaty engagements, the quite recent declaration that the various consulates will not be allowed to acquire territorial right, such as exist in every other treaty port in China, in Manchuria, the refusal to evacuate Newchwang, and last but not least the mobilization of 128,000 troops in Russia in addition to the present strong corps now on the ground; all show that Russia is preparing actively for war, and has no intention to recede from its present position.

It is true that the alliance with Great Britain practically precludes a declaration of hostilities without consultation, but it is thought in political circles here that the force of circumstances will enmesh Great Britain, and possibly the United States, in the maze of Far Eastern politics.

The well informed think, however, that there will be no outbreak until the setting in of the severe and long Siberian winter prevents rapid transportation, and Russia will have to depend upon the forces she may be able to assemble on her eastern frontier during the present season of the year.

The Japanese themselves have put little faith in the recent utterances of the Russian war minister while here, and are confident that a sharp winter's campaign will result in the abandonment of Manchuria and as an after result the cementing of an alliance between Japan and China, giving the control to the former country, which the present jealousy of the old time premier power, and its fear of the ominous bulk of the Russian Bear overshadowing Peking now almost entirely preclude. Once let Russian prestige get a set back, and it is thought in Tokio that Peking will be eager for that Eastern alliance from which it at present keeps jealously aloof.

Save money by doing your shopping at THE CRESCENT.

Don't forget the all water excursion to Deer Park Sunday, August 2. Round trip $2: Children half fare.

The Northport Smelter.

The Northport Smelter has now in its yards between 40,000 and 45,000 tons of ore, and this tonnage is being reduced steadily. Hence the output of the Le Roi mine must be increased substantially at an early date.

Don't wait until you are totally blind before you have your eyes examined, but have them attended to when it is possible to effect a complete cure. Consult Dr. W. J. Harvey, at the City Drug store, Columbia avenue, Rossland, Monday, Tuesday and Wednesday, July 27, 28 and 26.

Our Ladies' and Children's Sailor Hats must go at cost. THE CRESCENT

Come and see us at the Strand, you will be treated right. Green & Comerford

The Myrtle.

Bob Allen this week received a contract from the owners of the Myrtle group on Twelve Mile, to bring down about six tons of ore, which is to be shipped as a test. It has been sorted from ore taken out of the mine during development last winter, and will give high returns. The Myrtle has a ledge equal in size and strength to that of the Arlington and bids fair to develop into a bonanza.—Slocan Drill.

WANTED—300 sacks of charcoal at once. Apply at the Palace.

The Palace has the only first-class bowling alley in the city.

SUMMER CARNIVAL

Citizens Are Contributing Cheerfully.

WORK OF LACROSSE COMMITTEE

General Prospects Lying Before the Celebration to Come Off Next Month.

The chairman of the Carnival committee is of the opinion that there will be no trouble in raising the $3000 necessary for the proper celebration of the carnival, even $3500 if necessary. Over $2000 are already in sight and the remainder will easily be reached by the unremitting efforts of the really excellent finance committee at work. This sum of money has allowed the general committee to be generous in its dealings with the demands of the various subcommittees and altogether the celebration will be of no mean order. The sum of money mentioned is, of course, exclusive of gate receipts, which should easily total $1500 with the attractions afforded.

The only hitch would seem to be with the lacrosse people. Undoubtedly popular as the game is, it will not remain so for very long if its exponents are ever out with the big mitt. There is every disposition on the part of the subcommittee on this sport to meet the demands of outside teams in any fair way. Tney are willing to put up the legitimate expenses of board and railway fare, and to hang up a good purse for the winning team. This is going far enough, for in the interests of true sport the English rule should be adopted, which is that any amateur competing for a money prize is thereafter debarred from all amateur competition. On the other hand if sport is brought down to a professional basis it will soon die out. The WORLD recommends this view of the question to its lacrosse readers. A handsome trophy of substantial value should be the only prize offered.

Orchestra in attendance on the excursion to Deer Park Sunday, August 2.

The Strand is the only first-class Saloon in the city. Green & Comerford.

The B C. Copper Company

Although the resident officials of the B. C. Copper company are not at present disposed to talk for publication about intended improvements and additions the company is planning to make to its smelter at Greenwood it is known that important betterments are to be made. All the definite information obtainable just now in this connection is that a substantial brick stack is to be built, and that preparation is being made for other important additions to the plant and works.

THE MINING ASSOCIATION

The Provincial Mining Association of British Columbia has started well on its career, and by its friendly offices at Fernie in the spring, has done much in that alone to commend it to the province. The views it has taken of matters mining, which have been brought to the attention of the provincial legislature, are not only backed by the great majority of the electors but are in consonance with common sense. But there is a feeling in some quarters, which the WORLD thinks unjustifiable, which is that the Mining Association should eschew questions relative to the relations of capital and labor. Now in matters mining, there is no one condition that is of greater importance than that very relation, and a mining association which neglected labor as a factor, would fall to the ground, and be shorn of its popularity, and therefore power. In the past the Provincial Mining Association has overridden such attempts to limit its usefulness and it may fairly be trusted to do so in the future.

THE KNOCKER.

It would be amusing to watch the efforts of the wily knocker, were it not so exasperating, to hurt this camp. Despite his malignant efforts, the camp will flourish. Latterly things have taken a decided turn for the better, and the knocker is after real estate. He enquires cautiously and professes to be thunderstruck at the prices asked. "Why, don't you know the camp is going to Hades," is his usual protest. The knocker evidently thinks that property in Hades will be a good investment, forgetting that a population of knockers does not conduce to boom values.

As a matter of fact the majority of holders of real estate are by no means willing to let loose their hold. They are fully aware of the fact that the clear demonstration of the Elmore concentrating process will mean the doubling and tripling of the population of the camp. There are plenty of mines in the camp, which are fairly well developed, many having thousands of tons of ore blocked out, which are merely making assurance doubly sure before beginning to ship. Some have indeed already started, and most are eagerly watching the experiments on Red Mountain. When Rossland becomes a greater Butte, and that day is fast nearing, it is breaking already, realty will command all kinds of prices, and the knocker who is looking after his own selfish interests will chortle with glee over the gullibility of the suckers he has succeeded in fooling.

ORIENTAL IMMIGRATION.

The continued disallowance, says the Kamloops Standard, of the Provincial legislation upon the lines of the Natal Act, and the fact that the increased tax upon Chinese is not to come into force for many months yet, plainly shows that the workingman of British Columbia is to receive no consideration from the Laurier government in regard to this matter. As to whether the principles of the Natal Act can with advantage be applied to Canada as a whole, there may be difference of opinion in some parts of the Dominion, but in British Columbia none, and Sir Wilfrid Laurier has expressed himself as firmly opposed to the practically unanimous opinion of this Province. He is entitled to his opinion, but when the question arises. "Has the Province the right to legislate in such matters to suit itself," it is not a matter of opinion but a matter of law, and there is a proper methed of settlement. An appeal to the courts would settle the matter once and for all time.

The Dominion government refuses to consent to an adjudication because it is of the opinion that such legislation is undesirable as applied to any part of Canada. It therefore bases its action upon the ground of policy upon which it can have no standing, if the enforcement of the law in question is within the jurisdiction of the Province. The Province is pledged to against this invasion of the provincial prerogative by the only means in their power—continual re-enactment of the required legislation until the question of jurisdiction is settled by the courts. The Provincial Liberal party on the other hand has expressed itself as against re-enactment, and by its stand declares itself in favor of a Dominion usurpation of provincial rights. Its policy is to not only allow the Dominion government to force their policy on the people of the province but to invalidate the policy of the province even at the expense of a breach of the constitution. Every elector in the Province who has any interest in the future welfare of the country should see to it that his ballot strengthens the hands of those who are fighting against the yellow invasion and endeavoring to further the development of British Columbia as a white man's home.

Consult Dr. W. J. Harvey, O. D. M. F. E. C. O., about those headaches, pains in the eyes, eyes crossed, double or indistinct vision, loss of muscular power, or any error of refraction, or the fitting of spectacles that are absolutely correct and will so neutralize the defect as to enable you to see without an effort, at the City Drug store, Columbia avenue, Rossland, Monday, Tuesday and Wednesday, July 27, 28 and 29.

The merchants' lunch at the Palace tomorrow will be a dandy.

The Waterloo

Charles H. Wolf of Spokane, one of the directors of the company owning the Waterloo mine at Camp McKinney, was in Greenwood at the beginning of the week on his way to the mine. From him it was ascertained that the five stamp mill on the Waterloo is treating daily about 10 tons of ore averaging in value $30 per ton. This ore is being taken from the mine workings in the ordinary course of development work. It is intended to shortly enlarge the stamp mill by the addition of five more stamps. When this shall have been done stopes will be opened and the output of the mine doubled. The Waterloo shaft is now down about 260 feet. Levels have been run at 50, 150 and 250 feet depth. A winze was sunk 60 feet below the 150 foot level, and a raise from the 250 foot to connect with this. Another raise will shortly connect the 60 and 150 foot levels. The vein opened up in these workings varies in width up to about eight feet, nearly all milling ore. From two to four feet of the vein is a paystreak running into high values, and the remainder of the ore is described as of sufficient good quality to make it practicable to treat it at a profit. Mr. Wolf expects to return via Greenwood early next week.

CONSERVATIVE PLATFORM

[Adopted at Revelstoke, September 13th, 1902.]

1. That this convention reaffirms the policy of the party in matters of provincial roads and trails; the ownership and control of railways and the development of the agricultural resources of the province as laid down in the platform adopted in October, 1899, which is as follows;

"To actively aid in the construction of trails throughout the undeveloped portions of the province and the building of provincial trunk roads of public necessity.

"To adopt the principles of government ownership of railways in so far as the circumstances of the province will admit, and the adoption of the principle that no bonus should be granted to any railway company which does not give the government of the province control of rates over lines bonused, together with the option of purchase.

"To actively assist by state aid in the development of the agricultural resources of the province."

2. That in the meantime and until the railway policy above set forth can be accomplished, a general railway act be passed, giving freedom to construct railways under certain approved regulations, analogous to the system that has resulted in such extensive railway construction in the United States, with so much advantage to trade and commerce.

3. That to encourage the mining industry, the taxation of metalliferous mines should be on the basis of apercentage on the net profits.

4. That the government ownership of telephone systems should be brought about as a first step in the acquisition of public utilities.

5. That a portion of every coal area hereafter to be disposed of should be reserved from sale or lease, so that state owned mines may be easily accessible, if their operation becomes necessary or advisable.

6. That in the pulp land leases provision should be made for reforesting and that steps should be taken for the general preservation of forests by guarding against the wasteful destruction of timber.

7. That the legislature and government of the province should persevere in the effort to secure the exclusion of Asiatic labor.

8. That the matter of better terms in the way of subsidy and appropriations for the province should be vigorously pressed upon the Dominion government.

9. That the silver-lead industries of the province be fostered and encouraged by the imposition of increased customs duties on lead and lead products imported into Canada, and that the Conservative members of the Dominion House be urged to support any motion introduced for such a purpose.

10. That as industrial disputes almost invariably result in great loss and injury both to the parties directly concerned and to the public, legislation should be passed to provide means for an amicable adjustment of such disputes between employers and employes.

11. That it is advisable to foster the manufacture of the raw products of the province within the province as far as practicable by means of taxation on the said raw products, subject to rebate of the same in whole or part when manufactured in British Columbia.

Conservative Conventions

At a meeting of the executive of the Provincial Conservative Association, held at Vancouver, the province was divided into five divisions for organization purposes. The Kootenay-Boundary division is made up of the following provincial election districts: Revelstoke, Columbia, Fernie, Cranbrook, Ymir, Kaslo, Slocan, Grand Forks, Greenwood, the City of Rossland and the City of Nelson. At the same meeting the following resolutions were adopted:

1. That conventions for nominating candidates for members of the legislative assembly be made up of delegates chosen as follows:

(a) In city electoral districts, one delegate for every fifty and fraction of fifty votes polled at the provincial election held in 1900, and if the city is divided into wards, the proportion of delegates for each ward shall be based on the vote polled in each ward at the last municipal election.

(b) In other electoral districts, one delegate for every fifty or fraction of fifty votes polled at the provincial election held in 1900, the delegates to be apportioned to polling places, or as near thereto as will be fair to the voters of the different neighborhoods.

2. The election of delegates shall be at public meetings, held at a designated central place in each polling division, or in each ward in city electoral districts, if the city is divided into wards. At such public meetings only those who pledge themselves to vote for the candidate or candidates selected at the nominating convention shall be entitled to a vote for delegates.

3. Two weeks notice shall be given of the public meetings at which delegates are to be elected, and nominating conventions shall be held in city electoral districts two days after the day on which delegates are elected, and in other electoral districts seven days after. All nominations throughout the province to be made at a designated central place in each electoral district, and on the same day.

4. All notices of the date of public meetings for the election of delegates to nominating conventions, the apportionment of delegates, and the place and date of nominating conventions in the several electoral districts shall be prepared by the member of the executive of the division in which the electoral districts are situate, and issued over the names of the president and secretary of the Provincial Conservative Association

A meeting of the provincial executive will be held at Vancouver within a month, and the date for holding district nominating conventions will then be fixed.

JOHN HOUSTON,
President of the Provincial
Conservative Association.

TWO DAYS

TO BREAK THE STRIKE

Progress of the Big Smelter Trouble at Denver, Col.

The Denver post gives the following account relative to the importation of men from Joplin into Colorado to break the smelter strike over the demand for an eight hour day.

"Locked up in a day coach and guarded by armed men, sixty-two laborers were taken into the Globe smelter yesterday, but as soon as they were released from this portable prison, fifty-eight of them escaped.

"One of their number, who seized his grip and attempt to escape at Brush, Colorado, was shot in the leg by a local constable, who thought he was an escaping prisoner of the legal authorities.

"Most of the men were give work on a canal at Golden, and will go there tonight.

"The shipment of men came from Joplin, Missouri, where Lee Willis, a recruiting agent of the American Smelting and Refining company, has been for several days, aided by Lee Teele, an employment agent of that place.

"The men charge that the situation was misrepresented to them, else they would not have consented to some to Colorado. Many are members of other unions.

"'We were offered from $2 to $3 a day for nine and ten hours,' said E. P. Hill of Joplin, 'and they assured us that no strike was on. Some came from Joplin, some from Webb City and others from St. Joseph. We were put into a day coach on the Burlington and given ham sandwitches early Saturday morning. At night they put on a keg of beer and gave us sandwiches and a cup of coffee. None of us suspected anything wrong until we were in Denver. They gave us no tickets except this, a small card bearing the letters A. S. & R. Co., which was never asked for. These were our receipts for deposit on the railroad fare. We all had to stay in the car and two men with guns stood at each door to prevent any one from escaping.

"'At Brush a man seized his grip when he learned the situation and escaped, but the guards on the car yelled after him and the crowd, seeing he was under guard, pursued. A local officer shot him in the leg and captured him, but the train left without him and I don't know his name. His grip which was dropped in the flight, is now at Malich's place at Globeville.

"'When we were near Denver a brakeman came through and told some of the boys they were strikebreakers and we began to inquire. The train crew said a strike was on and that we were being brought in to scab.

"'The guards heard this talk and blocked the doors. Only the trainmen could get in and out and we were brought into Denver locked up in the car. After we were left on the track a short time a switch engine came and took us to the smelter. The car doors were not opened until we had been taken into the grounds and up to the buildings.

"'This sort of slavery was too much for all of us, after we had been told there was no strike, and 58 of us walked out.'

"John D. Carson of Toronto, Ohio, who was found at Webb City, Missouri, said:

"'There was misrepresentation of everything. Some of us deposited $3, believing we were to get first class work, and one fellow paid $12, his full fare to Denver. The railroad fare was to be taken out of our wages. All that Hill has said is true, but we were not fed enough for dogs, and no better. When we reached Denver the guards got in the doors and would let no one pass.

"'We now have 58 of the 62 men at the Salvation Army barracks and the other four may or may not be in the smelter. They are not accounted for. The union is feeding us at the restaurant at 1723 Larimer street, owned by the Waiters' Union.'

"The men gathered at the place of Max Malich at Globeville and spent the day. They were fed there by the Smeltermen's Union and lodged at the Salvation Army barracks. Today they will be sent to Golden, where J. M. McDonald is building a canal for the Golden water works."

SIMILKAMEEN CITY, B. C.

Now Is the Time to Buy Lots in Similkameen City, B. C.

CAMP HEDLEY is the most talked of camp in the province, and situated in the centre is Similkameen City, surrounded by rich mines which will shortly have large payrolls. Over 200 lots have been sold to business people who realize that Similkameen will become the metropolis of this district. The Nickel Plate mines have expended $300,000 in development and are at present building tramways and a 40-stamp mill. Arrangements are being made for the erection of a large smelter at Similkameen City which will cost about a million dollars. Besides the Nickel Plate group of claims being developed by one of the richest mining companies in North America, there are several other groups and properties which will shortly be developed, among them being the Kingston Mines, Rollo, Wellington, Winnipeg, Red Chief and Pollock. Situated as it is in the beautiful Similkameen valley, midway between Princeton and Keremeos, and protected from all opposition in the valley by adjoining a large Indian reservation, this townsite will become one of the principal mining camps of the Pacific Northwest. It was only a short time ago that lots in Rossland, Nelson, Greenwood and other mining centres were selling for the same price that they are today being sold for in Similkameen. Come in before the boom and double your money.

Similkameen City to Have Two Railways.

The Victoria, Vancouver & Eastern and the Canadian Pacific railways are starting immediate construction for the Similkameen, which will make this town a railroad centre and divisional point, and when these competing lines are completed through to the Pacific coast they will become the main through lines, being the shortest route from the interior to the coast. A large sawmill is running steadily on the west addition, the only available timber for miles around. The main street is 90 feet wide, being all cleared and ready for building purposes. All railways, roads, telegraph and telephone lines will have to come through this townsite, which is located in the centre of the whole Similkameen valley and will become the largest distributing point and mining centre in British Columbia.

Similkameen City Lots Will Make You Rich.

A large agricultural area to draw from. Pure water, fine climate, rich mines, big payrolls.

Lots for Sale $2 to $10 Per Front Foot. **Agents in All Towns in B. C.**

Certificate of Improvements.

NOTICE.

"Idaho Fraction" Mineral Claim, situated in the Trail Creek Mining Division of West Kootenay District, and adjoining the "Enterprise," "Idaho" and "Virginia" Mineral Claims.

Take notice that I, T. P. O'Farrell of Rossland, B. C., acting as agent for Mary Kraus, free miner's certificate No. B54770, and William Kellem, free miner's certificate No. B54891, intend, sixty days from the date hereof, to apply to the mining recorder for a certificate of improvements, for the purpose of obtaining a crown grant of the above claim

And further take notice that action, under section 37, must be commenced before the issuance of such certificate of improvements.

Dated at Rossland, B. C., this 7th day of February, A. L. 1903.

T. P. O'FARRELL

IN THE MATTER OF "CREDITORS' TRUST DEEDS ACT," 1901.

and

IN THE MATTER OF THE ESTATE OF JOSEPH HAMON AND OSWALD BISSON; TRADING AS HAMOM & BISSON.

Notice is hereby given that at the first meeting of the creditor of the above named Hamon & Bisson held on the 13th day of July, 1903, a resolution of the creditors of the said Hamon and Bisson was passed appointing W. J. Robinson assignee in the place of Frederick E. Empey,

And notice is further given that a true copy of the said resolution duly verified as required by the "Creditors' Trust Deed Act", has been registered in the office of the county court of Kootenay holden at Rossland, and that all the personal property of the said Hamon and Bisson is now vested in the said W. J. Robinson, and that the said W. J Robinson is alone authorized to collect debts owing to the said Hamon and Bisson and detbs which were assigned by Vaughan and Cook to the said Hamon and Bisson, and all persons indebted to the said Vaughan and Cook and to the said Hamon and Bisson are hereby required to forthwith pay the amount of the said indebtedness to the said W. J. Robinson.

WALTER J. ROBINSON, Assignee.
Dated this 24th day of July, 1903.

Don't forget the hot lunch at the Palace tonight.

Merely Local

The Odams case is still lingering on.

A drunk was fined $10 this morning.

Mayor Schofield was up from Trail yesterday.

A. W. Massey is on a business trip to the Boundary.

The railway spur into the White Bear is making progress.

There will be a meeting of the city council this evening.

W. Linton returned from the Slocan country last night.

Findlay Sinclair of Grand Forks was in the city over night.

The Carnival Committee sat till all hours last night and did excellent work.

Part of the crushing machinery for the Le Roi No. 2 concentrator has arrived.

Herr Kauffmann will look after the singing by the school children during the Summer Carnival.

Inspector of Boilers Madigan yesterday looked over the Iron Horse plant purchased by the Oro Denoro.

It is possible that a few of the British journalists may visit Rossland if anyone chooses to go out after them.

The minor sports have decided to make all members of the various committees chase that greasy pig or forfeit $5.

The question of a city solicitor and of the connection of the city water system to that of the Le Roi will be mooted tonight.

John McKinnon was charged with assault this morning by Otto Jackson on the cutting scrape in the Central hotel and was fined $20.

A grant of $75 has been made for the coming of the Nelson militia to Rossland during the Summer Carnival. Local Rangers will make up any deficit.

Protect your most valuable faculty and save your sight, by having your eyes examined by one who has made defective vision a life study, and can advise you what is best for them. Consult Dr. W. J. Harvey, at the City Drug store, Columbia avenue, Rossland, Monday Tuesday and Wednesday, July 27, 28 and 29.

WILL BOOM LACROSSE

Shamrocks and Souris Will Both Play at Nelson.

Nelson, July 28.—A telegram received yesterday by the secretary of the Nelson lacrosse club stating that the Shamrocks of Montreal would be here for a series of games during the fall fair of the Nelson Agricultural society.

Since their match with the New Westminsters, the local team has been sticking steadily to work, and its members intend to continue doing so. Through the strongness of its team Nelson is now looked on as the lacrosse centre for the interior of the province, and if the team keeps on improving its already splendid form there is a good chance that by the time the date for the match comes around that it will be able to defeat the Montreal players. All the Nelson team needs to make it one of the strongest lacrosse teams in Canada is sufficient practice together so that the members will get thoroughly into playing to each other. This is now fully realized by the members of the team, and if hard work will do it they will correct any weakness in this respect before the big game.

On Saturday and Monday next, or thereabouts, two other first class games will be played at Nelson when the Souris players will go up against the home combinations. The Souris team stands the highest of any of the prairie teams, and as Winnipeg is the home of lacrosse, this means a good deal. To have defeated the stars of Winnipeg, as the Souris boys did last season, shows that they are a thoroughly strong team.

Eagles Convention, July 27 to 29

For the above occasion the Spokane Falls & Northern railway will make a one fare rate for the round trip to Victoria, B. C., if fifty delegates are in attendance and one fare and a third rate if only fifteen delegates.

For further particulars and sleeping car reservations call at City Ticket office.

H. A. JACKSON, G. P. A., Spokane.
H. P. BROWN, Agt., Rossland.

ST. EUGENE WILL SHIP

Preparations Made to Recommence at Once on a Large Scale.

The St. Eugene mine, at Moyie, one of the biggest lead mines in the country, is to resume operations. Manager Cronin says it will take two months to get the mine running at its normal capacity, but he expects that the property will be running again in that time. He further remarked: "I shall probably take personal charge of the St. Eugene again. First of all we must put in more power and we shall add an engine to run the mill for water power is not sufficient there to run all the year round. We shall also put in some zinc concentrators. In the past our zinc has gone over with the tailings. I do not know that we shall be able to ship the zinc at present, but we shall certainly save it until such time as the market for it opens. We formerly shipped 2500 tons of concentrates a month, which means the mining of about 10,000 tons of crude ore, and from that we shall probably be able to save 300 tons of zinc concentrates.

"Since we stopped shipping at the St. Eugene, we have spent about $150,000 in development, and have ore enough for two or three years at our normal rate of production. We are down in a winze seventy feet below the level of Moyie lake, but we are not troubled much with seepage water, as the lake is practically bottomed with a waterproof layer of mud and rock.

Tenders for Printing.

Tenders for printing for the Rossland Summer Carnival will be received up to Thursday, July 30, 1903, for the following:

Two thousand one-fourth sheet hangers, two colors.

Seven hundred and fifty 24x36 posters; two colors.

Three thousand five hundred programmes; size 5x7 of 12 pages; also extra cost per page for any addition pages.

Posters to be ready for issuance from Rossland not later than August 3.

Programmes to be delivered at the secretary's office not later than August 20, 1903.

The lowest or any tender not necessarily accepted.

A. J. DREWRY, Sec.
Rossland, B. C., July 28, 1903.

NOTICE.

Re John Y. Cole Addition to Rossland Registered Plan No. 719.

Notice is hereby given to all persons interested in said plan that application on behalf of the Consolidated White Bear Mining Company, Limited, Non-Personal Liability, will be made to a Judge of the Supreme Court in Chambers, at the Court House, Victoria, B. C., at 10:30 o'clock in the forenoon, on the 28th day of July, 1903, for an order changing said plan so as to close Montreal street and substitute a new street to be called Montreal street ninety feet to the west thereof; also to close a portion of Kootenay Avenue between the westerly boundary of Lot 12 Block 2 and the westerly boundary Lot 16, Block 3 and to open in lieu thereof a street running south through Lots 15 and 16, Block 3, thence westerly parallel to the old street to the new Montreal street above mentioned, including the lane between said Lot 15 and said new Montreal street, also the westerly end of the lane in Block 10 is to be closed, also the westerly half of the lane in Block 6.

And further take notice that the plan of said Addition as proposed to be amended may be seen at the law office of the undersigned, Columbia avenue, Rossland, B. C.

J. A. MACDONALD,
Solicitor for Applicants.
Dated 26th June 1903.
