VICTORIA, B. C.

THE FERNIE LEDGER

VOL. III No. 6 — FERNIE, B. C., SEPTEMBER 28, 1907 — $1.00 a YEAR

CITY COUNCIL ON THURSDAY

Much Business Transacted—Some Amenities Explained.

The City Council met in session on Thursday night last, when a large amount of business was transacted. Reports from fire chief, resignation of city clerk, stumping in Fernie Annex, financial report for 1907, and street lighting, being the principal subjects dealt with. Those present: The Mayor, Aldermen Tuttle, Bleasdell, Quail, Trites, and Gates, Alderman McIntyre being absent from the city being the only absentee.

After reading the minutes of the previous meeting, the reports of the fire chief were considered.

The bringing of the telephone from upstairs to the ground floor, placing buzzards in firearms, houses not sleeping in the fire hall, were granted. The raising of the hydrant opposite the post office, which is useless in its present position and declared by Alderman Tuttle to be the fault of the city, and the removal of the hydrant in Victoria Avenue to a less dangerous place, were discussed, and the Clerk was instructed to write City Council on the matter.

Leave of absence was given the chief from October 2nd to the 10th to go to the Coast to fetch his family, J. W. Nunn to assume charge during the chief's absence.

The letter of resignation of the City Clerk, Assessor, and Collector, was then read. Moved by Alderman Gates and seconded by Alderman Bleasdell, that the resignation be accepted, and that a successor be appointed

The Mayor said this was the first intimation of the impending resignation he had heard. Mr. Nunn had done his duty to the city faithfully and well, and it was with regret that they received the resignation.

The estimates for the year prepared by the Finance Committee were placed before the Council.

ESTIMATES, 1907.

EXPENDITURE:

Police department—	
Salaries	$9,000 00
Magistrate	400 00
Rent of lock up	120 00
Light, water, and heating	175 00
Keep of prisoners	150 00
Jail building	700 00
Fire department—	
Chief, driver, men at runs	2,028 00
Real estate—	
Payment on dumping gr'nd	188 88
Interest	21 88
School Board estimate	7,800 00
Printing and advertising	250 00
Elections	150 00
General expenses	845 74
Legal expenses	700 00
Street numbering	170 00
Streets and sidewalks	1,100 00
Salary—Clerk and Treasurer	1,200 00
Salary—City Solicitor	150 00
Debentures, Interest, Sinking Fund	5,140 60
Moving scales	80 00
Donations	200 00
Harness and wagons	500 00
Grading streets in Annex	500 00
Stable expenses	240 00
	$26,400 00

(Continued on page 5.)

LABOR NOTES

The U. M. W. of A. will soon find if the Industrial Disputes Investigation Act is of any use to the workers. Two disputes are in course of investigation under this Act.

President F. H. Sherman and Mr. John R. Macdonald having failed to agree upon a chairman for the Hillcrest board, the Minister of Labor has appointed the Hon. C. W. Fisher, Speaker of the Alberta Legislature, as chairman. Mr. Fisher should make a good chairman. He represents the Banff riding in the Provincial House, and is a strong Liberal.

The application of the Hosmer Miners Union for a Board of Investigation under the Industrial Disputes Investigation Act has been granted. F. H. Sherman will act as arbitrator for the men, and Frank B. Smith, inspector of mines, for the company. They are now conferring with a view of recommending a suitable person as chairman.

We wonder why every coal company suggests Chief Justice Sifton, of Alta., as chairman of these boards.

The city mines, Edmonton, have been organized by Organizers Patterson and Galvin, and a charter has been applied for. This makes another Local Union to be attached to District No. 18.

The Strathcona mine is again working about 80 men. This is the mine where six men lost their lives recently owing to the pithead gear being burned down and only one shaft as outlet being provided.

Four men cut of a total of six working in the Parkdale mine, Edmonton, were burned by a gas explosion last week. This is another mine working with only one shaft as outlet, contrary to the Coal Mines Regulation Act. What are you doing, Mr. Inspector, to make these companies observe the law and protect the lives of the workers?

Trade is brisk in the district, and several coal companies are busy developing their mines. The small mines in the Taber and Woodpecker districts complain of a scarcity of good pick miners.

The mass meeting at Taber was largely attended, and was addressed by District President F. H. Sherman. Committees were appointed to negotiate

CITY CLERK RETIRES

In another column will be found an announcement of the retirement of Mr. J. W. Nunn from the position of clerk, treasurer, assessor, and collector for the city of Fernie. Citizens generally will, we feel sure, regret Mr. Nunn's decision, because Fernie is losing a popular citizen and one who took great interest in Fernie's welfare, doing particularly admirable work on the fire brigade. We understand that the health of one of Mr. Nunn's family is the cause of resignation.

Trites-Wood's millinery parlor was ablaze of color on the opening day of their fall millinery sale. Dainty confections in all the latest styles were tastefully grouped and arranged, and the ladies of Fernie showed their appreciation by attending in large numbers. To a mere man a hat on a stand, however beautiful, is a very impersonal affair. There is only one place for a hat—on the head. Of this combination we are the better judge. Music was provided in a very dainty and cosy corner; tea and coffee and other delicacies were served.

RESOLUTIONS TO LAURIER

Morinville Miners Petition on Asiatic Labor.

The following resolution passed by Morinville Miners' Union has been forwarded to Sir Wilfred Laurier:

"Whereas the time has arrived in the history of Canada when the Government must choose between an Asiatic or a Caucasian British Columbia;

And whereas the present influx of Asiatics into the province of British Columbia must inevitably lead to constant clashes between the two races, resulting in rioting, destruction of property, and murder;

And whereas this state of affairs threatens the solidity of the Dominion and must result ultimately in the secession of British Columbia or war with Japan;

And whereas it is the working man who is called upon in the time of war to bear the brunt of the fighting, and it is labor that backs every fund for the repayment of expenses incurred by war;

And whereas war is hell;

And whereas it is the belief of the working men of Western Canada that these unassimilable alien races are being allowed to enter Canada to suit the convenience of railway corporations, lumber operators, and other trust concerns;

And whereas it is now a matter of choice with the Dominion Government whether they should decide with Canadian working men and peace, or with the corporations for an Asiatic British Columbia and ultimate war;

Therefore be it resolved: That we, the Morinville Miners' Union, No. 2878 of the U. M. W. of A., regard as a national menace the delay of the Dominion Government in the face of such a crisis, and as citizens of Western Canada we call on you, Sir Wilfred Laurier, your Cabinet, and the Dominion Government to take immediate action to avert a national calamity by passing an Absolute Asiatic Exclusion Act which will for all time preserve Western Canada to the white races; and this resolution is passed with the full knowledge that the ever ready argument of 'imperial reasons' might be brought forth to answer this, as it has served to answer other similar resolutions, but with this fetich we have little patience and less faith."

J. Montgomery, of Kalispell, Mont., the well known expert in brickmaking and brick machinery making, was at the Fernie hotel this week. Whilst in the neighbourhood he went over the site of the proposed brick factory here, and took some samples of the Fernie clay to his own works for testing.

Considerable comment has been aroused of late over the fact that cattle have been straying over the grass patch around the Coal Company's office. Now as no amount of praying will keep "Ginger" on his own preserves, the obvious retort is that a rail right round the green might help some, and the owners are not like people who can't do it. "Ginger," who has tasted that grass once, knows it is the sweetest in Fernie, being in the nature of forbidden fruit, and for which he gladly undergoes the ignominy of the pound. But because "Ginger" is the culprit, why should every other horse be blamed for the indiscretions of "Ginger"?

"THE PINK CIRCULAR"

A Society That Badly Wants Wiping off the Face of the Earth.

The following is a verbatim copy of the notorious "pink circular," that is causing immigration troubles in the Kootenays:

THE BRITISH E. T. & C. SOCIETY (Emigration, tourist, and colonization).

President—REV. J. L. BROOKS, Christian Union Social Service Farm Colony, Lingfield.

Vice-presidents—A. ARMSTRONG, ESQ., F. R. G. S., Liverpool (Presbyterian); REV. W. H. BOOTH, Southend, near London (Methodist); REV. J. MATHIESON FORSON, Liverpool (Congregationalist); REV. J. MCLEAN, Mount Florida, Glasgow (Baptist).

Managing Director—MR. WALTER STARK.

FRUIT RANCHING IN THE WEST

Dear Sir:

British Columbia is the largest but least developed province of Canada. Being further west than any of the others, it has been left until the last to receive the attention it deserves.

Its magnificent Rockies and beautiful scenery have been the admiration of tourists and other globe trotters for years, but the serious colonist earnestly bent upon making his own fortune has overlooked its advantages; comparatively few have gone so far West, and those are interested in mining and lumbering.

A Visit of Inspection.

Recently the President of the British E. T. and C. Society took a trip to the North-west of Canada, and having heard of the prospects of an early development of the fruit industry in B. C. decided to personally look into the matter.

His First Surprise.

Leaving Manitoba, Saskatchewan, and Alberta before winter had fully given way to summer, travelling by the Canadian Pacific Railway Co.'s main line express, he very soon reached their celebrated hotel at Banff, P. C., away up in the mountains, and there found lucious grapes growing on the verandahs of the hotel out of doors.

The casual tourist passes through this wonderful country without seeing much of the interior, finding it sufficiently interesting from the observation car of the C. P. R. train without stopping off anywhere. But this gentleman, being a keen observer with practical knowledge of fruit growing, and having gone out for personal investigation in the interests of the better class of colonists who ask advice of the British E. T. and C. Society, spent considerable time in the fruit sections of that province. The following are a few of his conclusions:

B. C. has a climate very similar to that of Great Britain; no severe winter.

B. C. is open all the year round for work, and there is plenty of it at high wages. (This is confirmed by the Agent General for the province.)

B. C. is the only province in Western Canada that can grow choice fruit in abundance, and there are splendid prospects. (There is a protective tariff on imported fruits from U. S. A., which gives a great advantage to the B. C. fruit grower).

B. C. fruit lands lie between the high peaks of the Rockies and beautiful lakes with cool refreshing waters passing through. There are good steamship and railway services.

B. C. fruit ranches are about 10 acres each, and when cleared are easily worked, and give promise of healthy and happy occupation, superior association, with highly profitable results in view.

B. C. is the British Province of Canada, very few foreigners are there except a few Chinese and others who are engaged because British workmen and women are so scarce.

B. C. fruit ranching land is being bought up very fast at $100 per acre, say £21 sterling, plus interest and the cost of clearance. When cleared it soon becomes profitable, and therefore valuable.

An Ideal Proposition.

When in B. C. the President of the British E. T. and C. Society met a gentleman who is an enthusiastic fruit rancher near the beautiful town of Nelson. This gentleman has spent many months selecting choice locations in the forest for fruit farming, and is now busy developing his plans by which he will settle groups of Britishers of kindred spirit who can soon have pretty little homes of their own on ten-acre strips of this land, each called a "fruit ranch,"

Everything New and Up-to-date

The Trites-Wood Co.

Limited.

LOCALS

Mr. Albert Slater, of Cranbrook, is visiting Mr. and Mrs. W. R. Campbell.

The finest selection of Combs and Hair Pins in the city at Mrs. E. Todd's.

J. S. Sheppard, of Calgary, real estate agent, spent a few days in town this week.

Something good to smoke—Crow's Nest Special and George's Extra. Try them.

Last Tuesday was dog shooting day in Fernie, and quite a few citizens were engaged thereat.

Mr and Mrs. T. Biggs gave an impromptu ice cream social on Saturday last. We enjoyed it immensely.

Patronize home industries, George's Extra and Crow's Nest Special. Call for the best and help Fernie grow.

"Scotty" Minton is carrying his arm in a sling, the result of a fall from his pony at the races on Garibaldi Day.

On Sunday evening, in the Baptist Church, the pastor will preach on the subject "The Sabbath as a necessity of man's nature."

Ernest Parkes, city officer, took two prisoners to Nelson penitentiary this week, and during his visit to that city was an interested spectator of the police imbroglio there.

Last Monday night Victoria Avenue had quite a metropolitan air. Many large cities could not boast of more people on the street.

Coal Creek Rugby football team are ready and waiting for the Fernie bunch. It is up to Mr. Biggs to get busy, as the Creekites are getting anxious.

We are informed a gentleman, until recently connected with the press in Fernie, is about to interview Hon. R. L. Borden with a view to establishing a Conservative paper here.

Another Whale story.

M. MacGibbon, late with Longheed, Bennett, and Co., of Calgary, is entering the office of L. P. Eckstein as managing clerk.

The Non-Collapso Hair Pad for pompadour and Marsailles wave have just been imported by Mrs. E. Todd.

The Rev. Hugh R. Grant, of Fernie, has been appointed chairman of the joint committee of operators and district officers, which meets the second Monday of each month.

The regular monthly tea of the Methodist Church will be given by Mrs. D. V. Mott, on Tuesday, October 1st, from 3 30 to 6 in the afternoon, and from 8 to 10 in the evening. All are welcome.

A large and very choice selection of Plumes, Quills, Wings, Hat Ornaments, and Hat Pins can be had at Mrs. E. Todd's.

The young Liberals met on Thursday night to receive the report of their constitution committee, and adopted same with some few amendments. The club will meet fortnightly, beginning with the second Monday in October, when officers will be elected and the organization completed.

With the passing of another paynight we have to congratulate Fernie on its good bearing on that occasion. That two or three officers working amongst men of many prejudices and enmities, and some speaking alien tongues, can accomplish so much shows that our force though few is fit.

Just arrived, another shipment of beautiful pattern hats at Mrs. E. Todd's.

A. L. Preston, general agent in Winnipeg for the Soo line, was in Fernie this week looking after the interests of his line. Mr. Preston lifted his eyebrows when informed of the amounts of last Saturday's paysheet, and being somewhat of a nature lover was enthusiastic of the autumn tints in our valley and on the lower slopes of the mountains.

Do not forget that Mrs. E. Todd has a full line of Berlin Wool in all shades.

"THE PINK CIRCULAR"

(Continued from page 1)

near to each other, and within a short distance of Nelson, with its 6,000 inhabitants. He has also a model ranch for the benefit of the settlers, and will give them the best possible advice as to laying out their property and buying fruit trees economically.

Selecting Suitable Colonists.

He has authorized the Society to select a limited number of suitable Britishers and send out to him. He is more anxious to welcome the right class of settler with but modest means, than to encourage undesirables who can command a considerable amount of money; he therefore offers the following generous arrangement:

Only £20 Absolutely Necessary.

Instead of charging $100 per acre for the ten-acre ranches, plus 6% or 7% interest, he has authorized the Society to sell a few ranches at $75 per acre, free of interest, upon the condition that each purchaser pays the Society a deposit of $10 (say £2 2s.) on account for the ranch, and thereafter to pay $10 per month regularly, either to them in Britain (if the purchaser does not sail soon after paying deposit) or to him at Nelson, until fully paid. Of course, if the colonist can take £50 or £100 or even more with him, so much the better, but an acceptable applicant with only £20 will not be refused, and need not hesitate to go.

The actual fare from Glasgow with one of the British E. T. and C. Society's parties is only £12 3s. 7d. third class on the steamer and colonist on the rail, or £14 13s. 7d. saloon, second class on the steamer (there is no first class), and colonist on the rail to Nelson, B. C. Thus it will be seen that the purchaser will have sufficient money left out of the £20 to pay one or even two instalments on the ranch before sailing, and cover his personal expenses to destination.

Work at 12s. 6d. per Day, with Free Board and Lodging.

This gentleman promises to meet the colonists on arrival at Nelson and give them free food and lodging at his own ranch for a day or two so that they can look around before settling down to work, and then employ them preparing fruit ranches, building, etc., for the whole of their time, or part time if they prefer, at $3 per day, plus food and lodging, so that they can easily earn more than enough to pay the $10 monthly instalment for their own ranch and to pay for clearing same and building thereon, or they can work part time sufficient to earn enough to pay the instalments and clear their own ranch, building their home with some of the wood thereon.

If on arrival a purchaser wishes to make an exchange of the ranch allotted him for one elsewhere so as to be next to a friend, this will be arranged if at all within reasonable possibility; indeed, the proprietor is quite anxious to give every facility to make these settlements profitable and in every way congenial to the colonists going out to them.

Men with wives, or even families of grown up boys and girls, can all do well in B. C., as labor is very scarce and dear throughout the whole province.

As the Society will doubtless have a large number of applicants for the ranches they have authority to sell upon these advantageous terms, it will be necessary to be prompt; preference will be given in rotation. There will be six parties sent out, all sailing from Glasgow by large and fast steamers, viz:

August 3rd and 17th,
September 7th and 21st,
October 12th and 26th.

To secure berths, if going third class £1 each deposit will be necessary, or second class £2 each on account of the steamship fare, in addition to the first payment of £2 2s. on account of the ranch

Yours truly,
BRITISH E. T. & C. SOCIETY,
Per W. Stark.

July 30th, 1907.

LAURIER'S REPLY

Premier Answer to Trades and Labor Council of Winnipeg.

Ottawa, Sept. 21.—Sir Wilfrid Laurier has sent the following telegram to Mr. Verville, M. P., in reply to a request from the Dominion Trades and Labor Congress:

Ottawa, Ont., Sept. 21.

"Alphonse Verville, M. P., President Trades and Labor Congress, Winnipeg.

"I have given due consideration to your request that immediate steps be taken to terminate the treaty with Japan. I would observe that this treaty when brought into existence did not apply to Canada, and that some few years ago, in response to the repeated expressions of public opinion, and with a view of affording to Canadian producers an opportunity of the growing Japanese trade, the Canadian government became a party to the treaty, and that it was unanimously ratified by the Canadian parliament.

"The treaty has proved of great advantage, and our trade with Japan under it has considerably increased. You base your appeal for the denunciation of the treaty on the allegation that a crisis has arisen in British Columbia by reason of the unprecedented influx of Japanese. Whilst it is true that most regrettable incidents have lately occurred in Vancouver, there seems reason to doubt that the cause was the influx of Japanese, as I am in possession of a telegram from the mayor of Vancouver which has been rendered public, which expressly avers that the disturbances were directed against Asiatics generally rather than against Japanese. Under such circumstances any precipitate action might be regrettable, and before committing themselves to such a course the government think that they should carefully inquire into causes which within the recent past have caused a greater influx to our shores than previously of Oriental people.

(Signed) WILFRID LAURIER."

GRAVES AS DIRECTOR

General Manager of Granby Company on a Visit to Fernie.

It now seems assured that there will be no more coke shortages for British Columbia smelters that are supplied by the collieries of the Crow's Nest Pass Coal Company. For some time past there have been rumors that some one was securing large interests in this company, and it is now known that the Granby Company bought outright a considerable block of the shares of that company. F. H. McGuigan, one of the directors of the company, retired, and Jay P. Graves, general manager of the Granby company, was placed on the board.

A week or two ago Mr. Graves visited Fernie and had a consultation with G. G. S. Lindsey, the manager of the coal concern, and it is pretty well known that Mr. Graves is a man who does things and has little time for posing as a dummy director, an increased output of coke is already beginning to be felt at all smelters having contracts with the Crow's Nest Pass Coal Company. It also goes without saying that no further coke shipments will be made to Montana smelters till British Columbia reduction works are fully supplied.

As everyone in this section is fully aware, the Granby and other smelters have had periodical troubles on account of coke shortages. The Granby directors stood this state of affairs as long as they cared to, and then simply purchased an interest in the big coke concern. Competent judges have stated that the Crow's Nest Pass Coal Company owns the most valuable and extensive coal measures in the west. It is now a certainty that the concern will be conducted hereafter in a business like manner, and that its first business will be to dig coal and make coke, rather than to play the game of politics or make trouble with employees. Control has not been secured outright, but it is understood the Granby company has put several hundred thousand dollars in the company, and the voice of Mr. Graves will be heard and his influence felt in the conduct of the company—all of which, it is believed, will be to the benefit of the metalliferous mining industry of British Columbia.

MONTHS OF AGONY.

A Severe Case of Rheumatism Cured by Dr. Williams' Pink Pills.

"For many weary months I suffered untold agony. I could not walk. I could scarcely raise myself to a sitting posture. I was under medical care, but in vain. Finally I tried Dr. Williams' Pink Pills, and they have restored me to my former healthy condition."

This strong statement was made to a reporter recently by Mr. Charles S. Keddey, formerly of Kingston, N. S., but now living at Port Mainland. Mr. Keddey is a carpenter by trade, and is now able to work every day. He adds: "I cannot speak too highly of Dr. Williams' Pink Pills, as they cured me after other medicine failed. While I was living at Kingston, N. S., I was seized with rheumatism in its most violent form. I was compelled to take to my bed and for months was an invalid. I was so weak that it was difficult for me to raise myself to a sitting posture. It is impossible to tell how much I suffered day and night, week in and week out. The pains were like piercing swords. I had medical attendance, but it failed. Then I tried medicines advertised to cure rheumatism, but with the same result—money wasted. One day when hope had almost gone a friend advised me to try Dr. Williams' Pink Pills. I told him my experience with other medicines, but he assured me that these pills would cure rheumatism, so I sent for a supply. After using a few boxes I was able to leave my bed, and from that on my restoration to health was rapid. I am now as well as ever I was, and have not had the slightest touch of rheumatism since. The change they have wrought in my case is simply miraculous, and I can strongly recommend Dr. Williams Pink Pills to anyone suffering from any form of rheumatism.

Rheumatism is rooted in the blood. Rubbing the aching limbs with liniments and outward remedies cannot possibly cure it. You must get the rheumatic acid out of the blood, and Dr. Williams' Pink Pills is the one sure medicine to do this, because they actually make new blood. That is why these pills cure anæmia, headaches and backaches, neuralgia, indigestion and the secret ailments that make miserable the lives of so many women and growing girls. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for $2 50, from The Dr. Williams' Medicine Co., Brockville, Ont.

ROYAL LOVERS AND HELPMATES.

Few husbands are so deeply and ideally in love with their wives as King Victor Emmanuel of Italy is with Queen Helen. And on the other hand, Queen Helen is regarded as the ideal mother lover of Europe.

The husband and wife feel they have a common life work to do not alone for their family, but for the good of all the people of Italy. The Queen says: "We strive to live down selfishness."

Victor Emmanuel met Helen, of Montenegro, at the court of St Petersburg, and at once fell in love with her. He was then but Prince of Naples and she but a little princess, but they were mutually attracted, and although for political reasons every effort was made to prevent their marriage, love triumphed in the end. "They love each other," said the people of Italy, "and why should they not marry?"

It is told that shortly after their marriage the Queen said to the King:

"You have your affairs of state and I have my household duties, but are they enough? Ought we not to do more? Should not more of our time be occppied?"

In reply, he said:

"Well, if you can find the hours, make out a programme."

In the course of a few days the Queen said to the King:

"There are so many poor people I find should be visited. Then there are the factories and great places of industry we ought to know about. Also we should go to the hospitals and see if they are kept in proper condition. I think, too, as we can find time we might visit all parts of Italy and know more of our people. That is all I can think of at the present time, but it should keep us busy for many seasons."

"I quite agree with you," said the King, "and we'll try to accomplish all we can of it."

In consequence all Italy has come to know the two sovereigns, who find no occupation so humble but that they can inquire into its nature and encourage its performer.

On one of their journeys the Queen came upon a teamster who had been thrown from his wagon rack and injured. Medical aid was slow in coming, and the Queen, tearing up a silk petticoat she wore knelt on the turf and bound the man's wounds. He knew who she was and whispered:

"God be good to you, my lady."

"And you be helpful to others when they need help," was the quick response.

The Queen has written some thoughts of her own on the home and home duties. They are the expressions of a pure woman and a believer in a simple life. In these she says:

"Greatness is not in the crown. It is in the thoughts and actions of the one who wears it.

"The love and respect of my husband I first desire; then, that of my people.

"I would never wish to know that I had caused anyone sorrow, but I like to know when I have made anyone happy.

"The object of government is to protect and upbuild the home. A happy home is a kingdom of hearts.

"It is the duty of the wife to keep care from the husband in the home and his to keep care from her in the world.

"Young girls should know more of housework and the care of the home. I believe it is essential all girls should knew sewing and cooking. It does not lower them to know this. It ought to make them better women.

"The worst thing that can happen to a woman is to be idle. I never wish an idle woman about me. An idle woman is either unhappy or a mischief-maker."

Queen Helen is so fond of home life that she has even had a little kitchen constructed in close proximity to the royal apartments, where, aided by two female cooks, she can prepare certain dishes for herself and the King. She also maintains a small sewing class and looks after all the linen supplies of the royal household.

She is fond of horseback riding, walking and bathing, and she encourages among all women with whom she comes in contact the habits of physical exercise. She has made requests to two classes of girls in her domain formed to study physical culture.

Receiving a party of young ladies one day, she said to them:

"You need to have strong bodies to be good women. The state of your health will go a long way toward making the condition of your mind. You should not be afraid of the sunshine nor of getting around a good deal. A woman in her place must be as strong as a man or she cannot do her proper work. It is the woman who is ashamed to use her body that breaks down and becomes useless. Cultivate good health, young ladies."

In the long years of married life enjoyed by the royal couple, those closest to them say no note of discord has ever struck. She calls him "Victor," and to him she is always "Helen." They have kept the ideals of earlier days companions with their practical life work, and in that won new fame and respect for the name of the House of Savoy.

A DARING ACT.

One of the thrilling attractions secured by Manager Cosgrove, of the Spokane Interstate Fair this year is that of Harry Breton, who plunges down a steep incline on an automobile landing on a narrow track on the hills and leaps across a 40-foot chasm on other side. This is one of the most dangerous feats attempted, and the daring rider, who is now at the fair grounds erecting his incline, has had several narrow escapes. Breton is just now recovering from three broken ribs, sustained in a recent accident at the Iowa State Fair.

When the machine reaches the bottom of the incline and starts on its wild plunge through space it is travelling at the rate of 50 miles an hour, so that the danger to the rider in case of the slightest miss can be readily appreciated.

The machine used is small but different from most machines used in work of this kind in that it is a real automobile, driven by a 8½ horse power engine.

During the second week of the fair Miss Breton will perform the feat of leaping the gap on a bicycle. Like her brother, she is a daring performer, and will make the same ride on a bicycle as that made by her brother in the automobile. The feat is a hazardous one that requires much nerve and skill. Both attractions will be seen in front of the grand stand, being on the list of free attractions made by the management for the benefit of patrons of the fair.

CRANBROOK LAND DISTRICT

District of East Kootenay, Southern Division.

TAKE NOTICE that Michael P. Bogle, of Fernie, B. C., lumberman, intends to apply for a special timber license over the following described lands:

1. Commencing at a post planted about four miles north of the International Boundary line, about four miles east of the sub-lot line 4591 of the south fork of Gold Creek; thence north 80 chains; thence east 80 chains; thence south 80 chains; thence west 80 chains to place of commencement, and contains about 640 acres more or less.

Located July 21st, 1907.

2. Commencing at a post planted about one mile north of the International Boundary line and about two miles east of the sub-lot line 4591, and about four miles east of the Yahk river; thence 80 chains west; thence 80 chains south; thence 80 chains east; thence 80 chains north to place of commencement, containing about 640 acres, more or less.

Located July 23rd, 1907.

3. Commencing at a post planted about one mile north of the International Boundary line, about one mile east of the sub-lot line 4591, and about three miles east of the Yahk river; thence 40 chains west; thence 80 chains north; thence 20 chains east; thence 80 chains north; thence 40 chains east; thence 80 chains south; thence 20 chains west; thence 80 chains south to place of commencement, and containing about 640 acres, more or less.

Located July 23rd, 1907.

4. Commencing at a post planted about five miles north of the International Boundary line, and about four miles east of the sub-lot line 4591, on the south fork of Gold Creek; thence north 160 chains; thence east 40 chains; thence south 160 chains; thence west 40 chains to place of commencement containing about 640 acres, more or less.

Located July 25th, 1907.

5. Commencing at a post planted about six miles north of the International Boundary line and about four miles east of the sub-lot line 4591, on the south fork of Gold Creek; thence west 80 chains; thence south 80 chains; thence east 80 chains; thence north 80 chains to place of commencement, and containing 640 acres, more or less.

Located July 25th, 1907.

6. Commencing at a post planted about six and one-half miles north of the International Boundary line, and about four miles east of the sub-lot line 4591, on the south fork of Gold Creek; thence west 80 chains; thence south 20 chains; thence west 80 chains; thence south 40 chains; thence east 80 chains; thence north 20 chains; thence east 80 chains; thence north 40 chains to place of commencement, containing 640 acres, more or less.

Located July 25th, 1907.

Dated August 8th, 1907.

MICHAEL P. BOGLE.

NOTICE NO. 69.

Notice is hereby given that 30 days after date I intend to apply to the Hon. Chief Commissioner of Works for a license to prospect for coal and petroleum on the following lands, situate in the district of British Columbia, Block 4593, commencing at a post planted at or near twolmiles north of Nos. 67 and 68, being north east corner of W. W. J. Morrison's claim; thence south 80 chains; thence east 80 chains; thence north 80 chains; thence west 80 chains to point of commencement.

Located this 6th day of August, 1907.

THE Greatest of Tonics
PSYCHINE
(Pronounced SI-KEEN.)
FOR ALL THROAT AND LUNG TROUBLES

TWENTY-FIVE YEARS' SUCCESSFUL RECORD

MONEY can buy advertising space, but it can't buy a quarter century's successful record of wonderful and almost miraculous cures of the most difficult and intricate cases of throat, lung and stomach troubles. Such is Psychine's record. Thousands of cases given up by leading doctors as hopeless and incurable have been quickly and permanently cured by Psychine. It is an infallible remedy for coughs, colds, bronchitis, pneumonia, consumption, indigestion, loss of appetite and all wasting diseases.

"My son had a terrible cough and was wasted to a shadow. Doctors said he could not live. He used Psychine, it cured him."—Mrs. J. Kanger, Brockville.

"After taking $5.00 worth of Psychine my lungs are well and life is of all worth living."—Mrs. I. Richards, Marriotts Cove, N.S.

"My lungs are now sound as a bell after using Psychine."—H. Robbins, Bridgeburg, Ont.

"Psychine saved my life."—A. Walden, 7 Cornwall St., Toronto.

CRUEL DECEPTION

On another page of this issue will be found a reproduction of the celebrated "pink circular" which is causing so much trouble in Nelson, another party of deluded immigrants having arrived there this week.

In all probability the Rev. Mr. Brooks will turn out to be the same gentleman that Labouchere in "Truth" roasted more than once, who, apparently having exhausted the English market for fraud, has now turned his attention to British Columbia.

The original circular is typewritten, presumably it is too precious a document to place in any printer's hands. And the man who wrote it is, of course, a rogue, for whom thrashing would only be a pastime and drowning a luxury.

When the Rev. Mr. Brooks saw grapes growing on the roof of the hotel at Banff, he was probably drunk; too much of the juice of the grape must have entered his poetic soul as he looked through the roof of his hat. Brooks says he has an ideal proposition, which means that each of these intending incomers must pay $10 as deposit in England on a fruit ranch which for all practical purposes might as well be situated in the moon or on the roof of Banff hotel with the grapes. For nobody seems able to locate them, meanwhile Brooks is getting fat on that $10 and the would-be ranchers are doing section work on the C. P. R.

But the cream of the whole thing is where Brooks promises the immigrants that they will be met at Nelson by a gentleman and be given free food and lodging for a few days whilst they look round before settling down. They never saw the mythical gentleman, but they had lots of time to do the settling down. For once Brooks inadvertently told the truth. Let us hope he will have more chances of same.

COMMUNICATIONS.

The following letter has been handed us for publication, and it is with very great pleasure that we give it the publicity of our columns. We are pleased always to do what we can for the amelioration of poverty or sickness.—Ed.

To the editor of "The Ledger."

Dear Sir:

I wish to make an appeal through your columns on behalf of the poor of Fernie. In view of the approach of winter, the Ladies' Benevolent Society will be glad to receive donations of clothing (new or otherwise) to be distributed among those families who happen to be in want. Parcels should be left with Mrs. F. J. Watson, president of the Investigating Committee.

Yours truly,

C. I. ALEXANDER,
Hon Secretary,
Ladies' Benevolent Society.

Fernie, Sept. 26th.

LETTERS FROM PRES. MITCHELL

Indianapolis, Ind., Sept. 10, '07.

To The Officers and Members of Local Unions, United Mine Workers of America.

Greeting:

Pursuant to a resolution adopted by the eighteenth annual convention, United Mine Workers of America, the International Executive Board instructed your resident officers to re-establish reciprocal relations with the Western Federation of Miners, and to arrange with the officials of that organization a basis upon which transfer cards would be accepted in lieu of initiation fee.

Conforming to these instructions, the undersigned entered into correspondence with the acting president of the Western Federation of Miners, and later held a conference with him in Denver, Colorado. At this conference, an arrangement was made whereby the respective organizations were to accept cards subject to the laws of the various district and local organizations. Therefore, local unions of the United Mine Workers of America are hereby notified and instructed, upon receipt of this communication, to accept in lieu of initiation fee, the working cards issued by local unions of the Western Federation of Miners. However, the following reservations should be observed:

If a card presented to a local union by a member of the Western Federation of Miners shows that he is less than three months in arrears for dues, such arrearages should be collected by our local unions. If a card is more than three months in arrears, it cannot be accepted at all.

In districts having special laws governing the admission of inexperienced men, such laws shall continue in force as at present; that is to say, if a member of the Western Federation of Miners presents a smelterman's or millman's working card, the district laws regulating the employment and admission of non-practical men must be complied with.

Fraternally Yours,
JOHN MITCHELL,
International President.

Sept. 10, 1907.

To The Officers and Members of The Local Unions, United Mine Workers of America.

Greeting:

We are sending you herewith an appeal for aid from the National Organization of the Commercial Telegraphers, whose members are now on strike. The appeal has the endorsement of the American Federation of Labor, and consequently our endorsement.

We desire to have a report of all money contributed by our district, sub-district and local organizations for the support of this strike. You are, therefore, requested to forward to this office a statement of the amount donated by your body for the support of this strike. It is important that we should have this information.

When making donations for that purpose please fill in the following blank and return to W. B. Wilson, 1106 State Life Building, Indianapolis, Ind.

Fraternally Yours,
JOHN MITCHELL,
Internationa, President.
W. B. WILSON,
International Sec-Treas.
United Mine Workers of America.

Not a drop of Alcohol

Doctors prescribe very little, if any, alcohol these days. They prefer strong tonics and alteratives. This is all in keeping with modern medical science. It explains why Ayer's Sarsaparilla is now made entirely free from alcohol. Ask your doctor. Follow his advice.

Ayer's — We publish our formulas. We banish alcohol from our medicines. We urge you to consult your doctor.

Unless there is daily action of the bowels, poisonous products are absorbed, causing headache, biliousness, nausea, dyspepsia. We wish you would ask your doctor about correcting your constipation by taking occasional doses of Ayer's Pills.

PREY ON SMALL WAGE EARNERS

Methods Adopted to Rob the Working Man.

Conspicuous among the enemies constantly preying upon the wage earner while he is fighting the battle of organized labor is the investment swindler. He has all the craft of a wolf, his purpose seeming to be to attack the workingman from the rear while his attention is absorbed by the forces facing him. And these promoters of the small investment swindling game have grown so in numbers, in boldness and in sunning that their attacks must receive attention before their depredations amount to quite as much as the losses which might come from unfair wage wage scales or unjust restrictions upon labor.

When a workingman engages in a struggle to advance the cause of organized labor he feels that he is doing something substantial for himself, for his family and for his fellows. And so he is; but if he turns over to the fake investment sharpers all the concrete results of the advantage thus gained, how far ahead is he?

It is time for the wage earners of America to awaken to the fact that they are being systematically swindled out of millions of hard-earned dollars every year. Unless they arouse themselves and perfect their savings they might about as well go back to the old labor conditions since there is not much practical choice between giving the fruits of honest toil to an overreaching and unjust employer and handing them over gratis to a systematized project for swindling.

In my opinion there is no class of people so fit to drink the dregs of human contempt as are those who glut themselves upon the small savings which the wage workers have slowly and patiently put away in the family stocking. And if I could know that this word of warning would be the means of deterring workingmen who read it from investing their savings without first making a thorough investigation of the proposition offered, I should feel that I had rendered a service to the wage earners that I could look back upon always with satisfaction.

There are several ways by which one can tell whether or not an investment offered him is sufficiently solid to warrant his putting his savings into it.

In the first place use all the sober, common sense you have, and this with a realization of the fact that as you cannot bargain advantageously as an individual with the employer who hires hundreds of men and is experienced in the art of getting the most for his money, neither can your untrained common sense be a safe guide when it comes to dealing with men whose business is to dissemble. Go to a man whom you know to be an honest man conversant with money and corporation matters and who can detect an investment fraud at a glance. Common sense—the shrewd, natural ability to form accurate judgments—is always at a disadvantage unless one has the best information upon which to act, and about the most it can do for a man under such circumstances, is to cause him to see the facts be[illegible] a decision.

GREETINGS FROM ORGANIZED LABOR

Chicago, Sept. 2, 1907.

To Organiz?d Labor—Greeting:

The Commercial Telegraphers' Union of America is now engaged in a life and death struggle with the Western Union and Postal Telegraph Companies and the Associated Press. The fight was not of our seeking, came as a result of a lack of good faith on the part of both telegraph companies in negotiations with our representatives.

On account of the peculiar work performed by these companies and the fact that their service extends to nearly every town in the United States, every point is affected to a valable extent ranging from one person in a small town to nearly 3,000 in New York City. Every Commercial telegrapher in North America (including Canada and Mexico), some 28,000 men and women, are indirectly involved in this strike, as well as 47,000 railroad telegraphers.

Over 80 per cent. of the commercial telegraphers are on strike, or over 90 per cent. of those directly employed by the two companies and the Associated Press. At the inauguration of the strike we were over 50 per cent. organized in the commercial comuanies. Our members responded to the strike call unanimously, and those telegraphers who were not members responded in greater percentage than almost any other union could command—90 out of every 100 walking out.

Our organization has been conducted in a conservative manner since its inception five years ago, and it has been our desire to continue along the same lines. However, the fight was forced upon us and we are going to do everything in our power to win it. We have a combined capitalization of over $200,000,000 opposing. We are confident of victory and will win if our sister organizations will assist us.

We are contending for principles vital to every trades unionist, and a defeat for us would be a setback to the entire labor movement.

Our demands are:

An eight-hour day.

Equal pay for equal work by women.

Fifteen per cent. increase.

That the company furnish the typewriters.

This contest is now in its third week and sooner or later victory may hinge on our ability to keep our people out a week longer. The companies intend to starve us out if they can.

Our treasury contained a creditable amount at the beginning of this trouble, but the drain has already proven a heavy one. We will need assistance and appeal to you as a sister organization for what financial aid you can render us at this time.

Our fight is won now so far as the sticking of ohr membership is concerned, but we must keep the companies whipped until they are willing to settle.

To do this we must support our members; to support them we need funds therefore we ask your aid. We trust that we will hear favorably from you and assure you that your aid will be appreciated.

Make all checks payable to Wesley Russell, General Secretary-Treasurer, Room 930 Monon Building, Chicago, Ill., and notify S. J. Small, President, same address.

Trusting you will at once take whatever steps art necessary to secure an appropriation, I remain,

Sincerely and fraternal,y yours,
WESLEY RUSSELL,
General Sec.-Treas.

Approved—S. J. Konenkamp, Acting Chairman General Executive Board.

HOUSTON ON THE RAMPAGE

Vancouver, Sept. 25.—"Just put me down as saying in plain English that I don't give a damn for the whole Grand Trunk Pacific outfit. Despite its hostility, the next issue of my newspaper will be printed in Prince Rupert."

This was the forcible language used today by John Houston, ex-M. P.P., who sails for the north tonight on the Princess Royal. "All that talk about me locating my plant on a house boat in the harbor of Prince Rupert is nonsense. I am going to camp there and all the influence of President Hays and his assistants 'cuts no ice' with me. The railroad owns all the land there except the ocean reserve. When I landed there I got frostily turned down by Mr. Bacon, the G. T. P. engineer. As an old timer I took my medicine. The antidote, though drastic, will be administered later on. I am going to run a newspaper there and [illegible]

SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz—A free miner's certificate is granted upon payment in advance of $5 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 1,500 x 1,500 feet.

The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made, and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of a royalty of 2½ per cent on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5 renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—Unauthorized publication of this advertisement will not be paid for.

Conservative Association!

Great

PUBLIC MEETING!

Under the Auspices of the Cranbrook Conservative Association will be held in the

NEW OPERA HOUSE

Cranbrook, B. C., Tuesday, October 1st, 1907, at 8 p.m.

To Welcome the presence among us of

MR. R. L. BORDEN,

Leader of the Opposition in the House of Commons at Ottawa, who will be accompanied by

The Hon. Richard McBride,

Premier of British Columbia.

This Great Meeting will be addressed by Mr. R. L. Borden, M. P., the Premier and others.

All are cordially invited to attend. Specially Reserved Seats for the Ladies.

By Order of Executive,

JOSEPH RYAN,
Secretary.

GARIBALDI DAY AT FERNIE

Italians Hold Gala Sports on Recreation Grounds.

The Italian Society of Fernie celebrated "Garibaldi Day" on Monday last on the Recreation Grounds. The weather was perfect, and owing to the kindness of the management of the Crow's Nest Pass Coal Company in closing down the mines for the day, a good attendance was assured. Michel and surrounding camps sent their contingents.

From the Carosella Hall, which was gaily decorated with evergreens and bunting, the members of the society, headed by the Fernie (late Italian) Band, paraded the principal street on their way to the Recretion Ground. The appearance of the society was a signal for the commencement of the sports.

The following were the prizewinners of the contested races:

Horse race, one mile dash—1st, Minton.

Girl's race—1st, Lucy Wild.

Ladies' race, married—1st Mary Cost.

Men's race, 100 yards—1st, Galett; 2nd, H. Brown.

Sack race—1st, Kenney; 1bd, Clayton.

Running jump, 18 ft. 7½ in.—1st, H. Galett; 2nd, Lock.

High jump—1st, Kenny; 2nd Bowen.

Potato race—1st, Bowen; 2nd, Clayton.

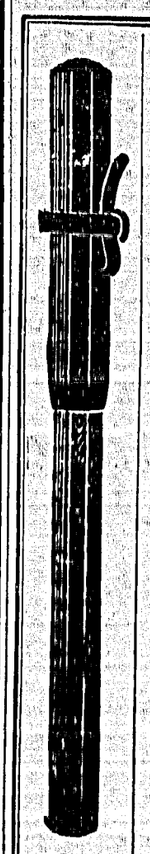
The tug-of-war was won by the Italian team.

After the conclusion of the sports the Italian society in a very sporting way put up $20 for an exhibition run by the Fernie hose reel team. The men who went to Nelson to attend the recent contests there represented one side and the men who remained home formed the opposing team. The home-staying boys won, and no wonder after what those who went to Nelson had to put up with in that city.

In the evening the Italian society gave a dance in the Carosella Hall, which was largely attended by their co-patriots.

A word of praise is due to the committee for the way they carried out their programme.

A hotel that furnishes quiet, commodious accommodation for its patrons is a source of pleasure to the travelling public. Such a one is the King Edward Hotel, of Fernie, corner opposite post office.



THE RYRIE Sovereign Fountain Pen

THIS "special" Fountain Pen is made of the finest grade of Para Rubber, and is fitted with a 14k. solid gold pen with Tridium tip, which assures a steady flow of ink.

COMPLETE with a safety clip which holds the pen securely in the pocket, the price is $1.00.

IN larger sizes the Sovereign may be had for $2.00.

Assessment	$666,420 00
School	790,670 00
	$124,250 00

Alds. Quail Tuttle—That the report of the Finance Committee be adopted. Carried.

At this juncture Alderman Tuttle rose and referred to a letter which appeared in "The Ledger" of Sept. 14th signed by Mayor Bonnell. A lively discussion ensued. Many explanations were made on both sides.

The Mayor told Ald. Tuttle that he was willing to accept the explanations given that there was no conspiracy, as appeared from the letter in the Ledger on the part of the aldermen to retard the business of the city and to make a public statement to that effect.

Council went into committee on the whole to consider tenders for the construction of the septic tank, Ald. Bleasdell in the chair.

The committee recommended that the tender of Harry Oldland at $5,510 be accepted. Their report was adopted.

The Council adjourned until Saturday 28th.

Thos. R. Turnbull, colporteur of the Canadian Bible Society (affiliated with the British and Foreign) is in town selling Bibles. He was present at the mid-week service in the Presbyterian church and gave an interesting address on its work. On Sunday morning, Sept. 29, he is expected to take part in the service of the Methodist church, and goes to Coal Creek for Sunday night. He expects to make a house to house canvass of the town. His headquarters is at Edmonton, but he travels through Southern Alberta and East Kootenay in British Columbia.

QUEENS Hotel

The best dollar a day house in the city.
Well stocked bar.
Liquors and Cigars of the highest quality.

NOTICE

The following notices of coal and petroleum locations in Block No. 4,593, Southeast Kootenay, British Columbia, commencing at the claim Jno. Jones, No. 13, which is located approximately 5 miles down the Flathead river from the east side line of the Flathead Townsite, and the remaining claims as numbered are staked one adjoining the other following down the river, thus protecting a claim on each side for the numbers named, and also in the same manner on the creeks described, the same being confluents of the Flathead river.

A. W. BELDEN.
Agent for Claims Nos. 13 to 50 inclusive.

NOTICE IS hereby given that 30 days after date I intend to apply to the Hon. Chief Commissioner of Lands and Works for a license to prospect for coal and petroleum on the following described lands, situate in the District of Southeast Kootenay, British Columbia, Block 4,593.

13. Commencing at a post planted on Flathead Trail 5 miles from Flathead townsite down Flathead river, and being staked on east side of river, being the northwest corner post of the Jno. Jones claim; running thence south 80 chains; thence west 80 chains; thence north 80 chains; thence east 80 chains to point of commencement.

Located this 1st day of Aug. 1907.
JNO. JONES, Locator.
A. W. BELDEN, Agent.
Witness—Thos. Slater.

14. Commencing at a post planted on north side of post No. 13, being northeast corner of Ena Brown's claim, lying west of Jno. Jones' claim; thence running west 80 chains; thence running south 80 chains; thence running east 80 chains; thence running north 80 chains to point of commencement.

Located this 1st day of Aug. 1907.
ENA BROWN, Locator.
A. W. BELDEN, Agent.
Witness—Thos. Slater.

15. Commencing at a post on the south side of Flathead river, about 1 mile east of claim No. 14, and being the northeast corner of Henry Hewitt, junior's, claim, thence running south 80 chains; thence west 80 chains, thence north 80 chains; thence east 80 chains to point of commencement.

Located this 1st day of Aug. 1907.
HENRY HEWITT, Jr., Locator
A. W. BELDEN, Agent.
Witness—Thos. Slater.

16. Commencing at a post planted adjoining the claim (No. 15) of Henry Hewitt, Jr., on the north, being the southeast corner of Henry Hewitt's claim; running thence north 80 chains; thence west 80 chains; thence south 80 chains; thence east 80 chains to point of commencement.

Located this 1st day of Aug. 1907.
HENRY HEWITT, Locator.
A. W. BELDEN, Agent.

SIMPLE HOME RECIPE.

Mix This Simple, Helpful Recipe at Home and try it Anyway.

Get from any prescription pharmacist the following:

Fluid Extract Dandeloin, one-half ounce; Compound Kargon one ounce; Compound Syruo Sarsparilla, three ounces. m

Shake well in a bottle and take a teaspoonful dose after each meal and at bedtime.

The above is considered by an eminent authority, who writes in a New York daily paper, as the finest prescription ever written to relieve backache, kidney trouble, weak bladder and all forms of urinary difficulties. This medicine acts promptly on the eliminative tissues of the kidneys, enabling them to filter and strain the uric acid and other waste matter from the blood, which causes rheumatism.

Men persons who tuffer with the afflictions may not feel inclined to place much confidence in this simple mixture, yet those who have tried it say the results are simply surprising, the relief being effected without the slightest injury to the stomach or other organs.

Mix some and give it a trial. It certainly comes highly recommended. It is the prescription of an eminent authority, whose entire reputation, it is said, was established by it.

A druggist here at home, when asked, stated that he could either prescription for our readers, also supply the ingredients or mix the recommends it as harmless

A MESSENGER BOY.

It is claiming a good deal to say that there has been a new idea evolved in stage life, but that claim is certainly substantiated in the play, "A Messenger Boy." The cheerful pictures of real life, the sweetness of pure affection and the love of the domestic hearth all brightened by the sense of the comic rather than the tragic. It would be fitting for the opera house manager to put these words above the door, "Abandon care all ye who enter here," when this bright, joyful comedy comes to town. The story is of a boy who was thrown on the mercy of the world, having been stolen from his parents in his infancy, pictures his struggle through early life, his efforts to find out his parentage with no clue except a birthmark on his arm. After years of struggle he goes to Europe, discovers he is a son of Von Bock of Germany, returns to America as such, meets out justice to his persecutors and claims the girl of his choice.

WEEKLY MEETING S. P. of C.

The usual weekly meeting of the S. P. of C. was held in the union hall last Sunday, the attendance being smaller than usual owing to it being announced as a business meeting. However, it was proposed to turn the meeting into an impromptu propaganda meeting, and W. Dickinson was elected to the chair. Those called upon for speeches, songs and recitations were W. Symonds, J. Harrington, J. Shooter, W. Minton, W. McLauchlan and J. Blakemore. The meeting was interesting and instructive from the start, and demonstrates there are those connected with the Fernie branch of the S. P. of C. who know how to handle a subject when called upon at a moment's notice and keep an audience interested at the same time. Next Sunday W. McLauchlan is to be the speaker, his subject be it is expected there will be a large attendance. Questions and discussions invited.

Carterhall, Nfld.

Minard's Liniment Co., Limited.

Dear Sirs,—While in the country last summer I was badly bitten by mosquitoes, so badly that I thought I would be disfigured for a couple of weeks. I was advised to try your Liniment to allay the irritation, and did so. The effect was more than I expected, a few applications completely curing the irritation, and preventing the bites from becoming sore. MINARD'S LINIMENT is also a good article to keep off the mosquitoes. LYours truly,

W. A.V. R.

Portland, Ore., Sept. 21.—A special from Seattle says that seventy-seven Japaness arriving in Atlin Thursday to work in6 the mines were escorted to the river seeamer Gleaner by three hundred whites yesterday and started back toward Vancouver.

The white miners served notice upon the Japanese that if they did not stay away violence would be shown in protecting the diggings against Asiatic labor.

The Japanese are almost destitute and will be turned loose at Skagway.

H. L. BLACKSTONE, Agt., Fernie
or W. A. ROSS, A. G. P. A., Seattle

The Demaurez Propeller Company, Limited

Incorporated under the laws of British Columbia.
Secured in Canada and United States Patent Office.

President—W. H. Whimster, Police Magistrate.
Vice President—A. W. Bleasdell, Ex Mayor of Fernie.
Treasurer—T. Beck, Merchant, Fernie.
Secretary—M. Kastner, Fernie.
Directors—A. C. Liphardt, Jeweller.
Joe Aiello, Merchant.
L. G. McDonald, Blacksmith.
C. O. Demaurez, Jeweller.

We are now prepared to place 3,000 shares only (fully paid up and non-assessable) on the market, the proceeds of which are to be used to build a propeller big enough to demonstrate the practicability of the invention.

According to the statistics of the Patent office 75% of all money is invested directly or indirectly in patents.

All big inventions have been sneered at and turned down, and stock went begging at a low price, and not one person in a thousand took advantage of the opportunity to buy the stock. For example, Mr. Westinghouse, inventor of the now famous air-brake, was kicked out of his own father's factory. Kelly, the inventor of Bessemer steel, was called crazy. Bell Telephone stock went begging, as also thousands of others too numerous to mention.

Mostly all the big fortunes have been made through patents, or brains as it should be called.

What is a stockholder in our company? He is a partner. His stock represents his interest. If he wishes to sell his stock he can do so. The books are open to every shareholder for inspection.

Buy at once all you can afford.

In about three months' time you may have to pay 500% more for stock.

Stock purchased now may lay the foundation of a fortune for life.

This new propeller will, in our opinion, make a great saving in coal and machinery, and on that account leave more space for merchandise in a vessel. It will go at any speed desired, and is perfectly safe, as it can be repaired in case of breakage at sea or elsewhere without going into dry dock.

For further information apply to any of the officers.

Selling Agents—M. A. Kastner, C. O. Demaurez.

The Demaurez Propeller Co., Limited
FERNIE, B. C.

P. S.—You may count on C. O. Demaurez to make this invention a grand success.—C. O. Demaurez.

This is a home company, and we will try to keep it so.

Don't forget to read Mrs. E. Todd's locals.

With respect to resident minister at Michel, Mr. Kinney's successor at the Methodist church is expected to arrive some time during October.

The Varsity is still one of the leading Hats, but the Cheyenne is newer and can be had in up-to-date style at Mrs. E. Todd's.

The Benedicts of Fernie gave a dance on Thursday evening last in the Stork Opera house. Everything went merrily as a marriage bell, as should be the case when the Benedicts are at the helm. The bachelors started the ball rolling, and it is now the ladies' turn to complete a trinity of successes. Dancing commenced at nine o'clock and was kept up to the early hours of Wednesday. During an interval of dancing a dainty supper was served. The Mazzanobile Orchestra supplied the music.

The stock of millinery, etc., shown at Mrs. E. Todd's is all strictly new.

To His Worship the Mayor and Aldermen, City of Fernie.

Gentlemen:

I beg herewith to tender my resignation as Clerk, Treasurer, Assessor, and Collector for the City of Fernie, same to take effect on the 1st of November.

Yours truly,

J. W. NUNN.

Fernie, September 26th, 1907.

The Fernie Curling Club met on Thursday night in the Provincial Court house for the transaction of business. A committee was appointed to go ahead and build a rink and form a joint stock company. The members of the committee are Messrs. Lawry, Cree, Pollock, Aca, Johnson, and Rev. W. Grant. It is intended to have a bowling green in connection.

It is hoped that the stockholders of the proposed rink company will strongly consider the advisability of putting up a rink or rinks that would allow skating and hockey as well as curling, and in this way all the citizens of Fernie would derive a benefit and pleasure not possible under the at present proposed building.

The Motor Veil can be made in any length or any shade at Mrs. E. Todd's.

MARRIAGES.

Sept. 14—Green, Martin Peterson; bride, Miss Selma Matfolk, formerly of Finland. Wedding took place at Mrs. Terry's. Rev. W. L. Hall tied the knot. A number of friends took part in the joyful event, and afterwards sat down to a bountiful supper.

Sept. 21—Green, Daniel Campbell, of Coal Creek; bride, Miss Eleanor Buchanan, both formerly of Cumberland, England. Wedding took place at Coal Creek. A number of friends ceremony was performed by Rev. W. L. and relatives were present. The cer- Hall. An ample table was afterwards spread for the guests.

THE CITY OF FERNIE

APPLICATIONS WILL BE RECEIVED UP to Thursday, September 10th, 1907, for the position of Clerk, Treasurer, Assessor, and Collector for the City of Fernie.

J. W. NUNN,
City Clerk.

$500 REWARD

The Government of the Province of British Columbia hereby offers a reward of Five Hundred Dollars for the arrest, or for information leading to the arrest and delivery to a British Columbia Constable of Patrick Mullen, who is charged with the murder of one Angelo Orlando on the 1st day of September, 1907, at Michel, in the District of South East Kootenay, Province of British Columbia.

Description of Patrick Mullen is as follows:
Nationality, Irish.
Occupation, coal miner.
Age 26 years.
Height, 5 feet 9 inches; weight 163 lbs.
Complexion, fair; hair dark, inclined to be curly.
Was clean shaven on 1st instant.
Wart on right hand at point of thumb.
When last seen, wore brown check coat and trousers of same material; brown boots, and round, grey felt hat.
Warrant issued.—Report any information immediately to
J. H. McMillin, Chief Constable, Fernie, B. C., or to the undersigned:

By order,
F. S. HUSSEY,
Superintendent Provincial Police,
Provincial Police Department,
Victoria, B. C., Sept. 11, 1907.

DEAFNESS CANNOT BE CURED by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
