VICTORIA, B. C.

Cariboo will have a boom as the result of construction of the transcontinental.

FORT GEORGE HERALD

Freight will not come up the Cariboo road. It will come from Edmonton via the Cache.

VOLUME 1, NO. 45 | SOUTH FORT GEORGE, B.C., JUNE 17, 1911 | $3 DOLLARS PER ANNUM

WRETCHED MAIL FACILITIES

OTTAWA, February 3rd., 1910.

Hon. Hewitt Bostock, the Senate:

" I beg to inform you that the department has instructed the postoffice inspector to arrange at once for fortnightly mail services to Fort George, Fraser Lake, and Fort St. James. He has also been instructed to make enquiries and report as soon as possible on the arrangements necessary to provide satisfactory mail services to these places in summer.

Yours truly, R. M. COULTER.
Deputy Postmaster-General."

The above message we reprint from John Houston's "Fort George Tribune", of February 19th, 1910. It formed a portion of one of the last articles the dead journalist wrote, telling how his efforts through Senator Hewitt Bostock, had culminated in the recognition of the requirements of this district from the postoffice department. John Houston referred to the statement made in parliament by members that the receipts of the postoffice department were in excess of the expenditures. His article concludes with the words: "But there is some satisfaction in knowing that pig-headed postoffice officials can be forced to recognize the just demands of new towns and new districts in British Columbia."

We would emulate John Houston's example, and raise a howl again about the casual way in which the service is conducted in this district. John Houston used to pay $55 a month to get his paper to the outside together with other residents of the camp at that time. Postoffice Inspector Greenfield was sent in to organize a satisfactory summer service. We are now marooned, as it were, by the high water, and if the steamboats can not navigate to this point, from past experiencies, we shall have to wait until the dove returns to the ark with signs of the receding waters in his bill. Today A. G. Hamilton leaves for Quesnel with two loads of passengers over the road. He will take the mail, for which the town in under obligation to him alone. We would suggest that Senator Bostock conducts further investigation into the mail delivery system of this section, as it is yet far from perfect, or even satisfactory.

The steamer B. X. came in on Monday bringing in ten days supply of mail. The river is very high at present and it is doubtful whether the boat will be able to make another trip until the water goes down. This should be within ten days. In the meantime what of the mails? Between the time that the boat last arrived and her previous arrival ten days had elapsed. Ten days without mail, during which time the company sent not one word of information regarding the movements of their boat. They are a casual crowd on the Dreadnaught of the haute Fraser. Apparently they do not realize what neglect of mail delivery means, or of the magnitude of the responsibility which lies upon the mail contractors. In order to exemplify from material which comes from our own door step we would point out that last week we printed, as we often do, some 250 land advertisments. These advertisments must appear upon a certain date otherwise the applications to purchase that 250 square miles of land would not be accepted by the government. The amount of money involved in that deal would buy two or three bigger boats than the "B. X." with a stage line thrown in. Wiring to the Post-office Inspector in Vancouver does us no earthly good. It merely bores that gentleman, and probably makes him yawn and snicker a little. No one has ever seen the contract entered into between the Dominion Government and the British Columbia Express Company, but it must allow the mail carries any amount of leeway. We are quite convinced that the express company are supposed to deliver mail here once a week in any event, and we suggest that they make some arrangements to carry it over the road in the event of their boat being unable to make the grade on the river.

PEACE RIVER VALLEY "FRUIT LANDS"

When the Government of this province backed up on its land policy last April and jumped the price one hundred per cent on the pending applications, an awful roar arose from the ranks of the operators, and the provincial executive moderated their frenzied order-in-council to make it resemble constitutional government. When the bolt fell out of the blue it apparently hit even the party press unawares. They didn't work in harmony. A Victoria organ, striving for light in the gloom, said, editorially, that the move had been made because the government were realizing that they had immense tracts of land in sections of the province that had been considered barren of agricultural possibility, and that they intended to stay the enormous "Peace River land steals" which were pending. In Vancouver a Tory editor took another line and dwelt upon the increasing values of land all over the west. The men who had staked the great blocks of land in the Peace River would be able to carry their deals as the increase in the government price was general, and effected all land, for as no more land would ever be procured in the province at $2.50 an acre the land already acquired advanced in proportion to the new existing prices. The Herald, being a newspaper that has chosen the lesser of two evils, has voluntary pledged itself to support the provincial government, which, outside of its very punk land policy is, in our humble opinion the brightest and cleanest government in these broad dominions, didn't try to say anything in support of the new order of things, because, having made a careful study of the situation, we couldn't.

We have been investigating the Peace River lands, and have come to the conclusion that the government have been able to sell about two thousand square miles of land in that section, fifty per cent of which we feel sure will revert back to them. This land would not be settled by pre-emption within the next twenty five years. We have been in communication with men who know the Peace River country for what it is worth, and we find that although the valleys are productive and arable territory, the great plateaux, miles from the rivers,, appear to be unfit for anything but range country. One single company in Vancouver has recently acquired a block of one thousand miles on the great plateaux north of Fort St. John. A Grand Trunk Pacific engineer who went through that territory once told us that it was a desolate waste. Another engineer of the same company writes: "Any information I acquired about the Peace River country was gained whilst I was in the employ of te G. T. P. and consequently I do not feel at liberty to say anything about it.

"If you have any friends thinking of investing there you had better tell them to take a look before doing so or something will certainy happen to them. That is, if the country in question is the plateaux country north of Dunvagen and St John."

We are not trying to depreciate the Peace River country one iota but we wish to anticipate the flooding of the market sooner or later with "Peace River Fruit Lands", or some similar creation of the promoter's mind. The Peace River valley must contain the pick of the country. There is a reserve placed on this valley for 20 miles on each side of the river. In that reserve there is room for thousands of pre-emptors and settlers. On the provincial boundary the Dominion Government have a reserve of three million five hundred thousand acres open for homesteading. Who, then, that knows these things, will take to the hills for a home?

That 1000 mile block will probably be sold in Great Britain or France to colonization people, but what then? Will people colonize on lands fifty miles back from a great navigable river and water grade for railroads when land can be had for the asking along those routes? And again, can the land company ever sell that thousand miles for any reasonable figure when they must pay a Wild Land Tax on it until brought under cultivation, equivalent to 10 cents an acre per annum? There are enormous areas of splendid land in the Peace, and we realize that within a comparatively short space of time that these arable areas will be populated, and that Fort George will derive an inestimable benefit as a direct result of this travel to the northern valley. James Pettry, one of the modern pioneers and explorers of the great valley, has shown photographs taken in the Halfway River valley, a tributary of the Peace, showing great stretches of wild prairie land which extend for miles along the bottoms. What we deplore is the work of promoters who realize that the big public, nowadays, are for ever anticipating development in these new countries, of which little or nothing is known, and they trade upon this lack of knowledge by foisting on the ever credulous public anything that bears the stamp of investment in the desired locality. Some of the lands in the Peace country that will be trafficked with in this manner should be colonized by the government say, 25 years hence.

We will endeavour to give more detailed information on the Peace River country in future issues.

JAMES COWIE GIVEN ROYAL SEND-OFF

As a token of appreciation to James Cowie, who has been in charge of the Hudson's Bay post here during the past four years, and who left last Tuesday on the "B. X." for Winnipeg, where he goes at the command of the Commissioners to receive his pension, a banquet was given in his honor in the Thorne & McGaghran hall on Fourth Street on Monday evening, at which some twenty five persons sat down. The banquet was given by the old-timers here, and a few of Mr. Cowie's personal friends of later years. Several gentlemen from the Nechaco River townsite, who have known Mr. Cowie more or less intimately, were also present. The whole affair was carried off most successfully and we may rest assured that the friendly old gentleman whose post has been the home of the pioneers here for those years before the evolution of any town, has left us knowing full well the sincerity of appreciation felt here for his many sterling qualities and kindly disposition. Mr. W. F. Cooke was toastmaster at the board, and fulfilled most admirably the duties of his position. "Bill" Cooke has known Mr. Cowie day by day since the factor first came to the district. During the surveys of the G. T. P. Mr. Cooke was in charge of transportation and supplies, and lived at the post, and since that time has oftimes made the great log building his home. There were present also, many others who, in the past had spent many long winter months at the post. Pleasant months they were too; full of incidents that will be recalled whenever two or three of the old-timers are gathered together. These men, together with the later arrivals spoke at length upon the regret they felt at seeing Mr. Cowie recalled, and their hopes to see him return here again and live amongst his old friends.

A presentation of a purse of gold was made by W. F. Cooke, together with an address inscribed on a Beaver skin that had been prepared. The address read as follows:

To James Cowie, Esq. | June 12, 1911.
Officer in Charge of the Hudson's Bay Post, Fort George, B. C.

Dear Sir:- It is with feelings of deep regret that we have heard of your withdrawal from the Post after thirty-five years' active connection with the Hudson's Bay Company. We say regret because we have come to look upon the Post and the group of buildings that have braved so many winters as the embodiment of home to many weary and tired stragglers, whose fortunes a kind, or unkind Providence, has sent into the geographical centre of the big province. Few indeed are those gathered here under this roof tonight who have not in some measure of degree enjoyed your proverbial hospitality and benefitted by your considerate and kindly nature. With the passing of the fur trade and the ever advancing wheels of civilization, have come great changes over what was once known as "New Caledonia". On June 11th., 1806, one hundred and five years ago, Simon Fraser encamped at the confluence of the Nechaco, and it is a remarkable coincidence that you should be leaving the district on a similar month and a similar day.

In passing from our midst we feel that we are losing one in whom a living example is portrayed of faithfullness to duty well performed. It is an emulation for the young servitors who will follow in the wake of the Honorable Adventurers.

In wishing you farewell, bon voyage, we draw the curtain over an episode that is linked indellibly to our hearts, and may this Beaver Parchment and Purse of Gold be a means of resuscitating fong recollections of Hudson's Bay hospitality in the Northland.

Respectfully,

W. F. Cooke. J. B. Daniell. A. G. Hamilton. John Bronger. J. O. Williamson. Ben. Bodeker. Russell Peden. Pete Landry. A. Tait. W. J. MacKay. Walter Gregg. L. G. MacHaffie. H. C. Seaman. J. Munroe. F. O'Flaherty. H. B. Close. Charles Brown. George Forbes. F. P. Burden. N. H. Dewar.

The banquet broke up about four a. m. after many speeches and songs. Mr Cowie was carried shoulder high in a chair to the boat, where a ring was formed on the forward deck whilst everyone joined hands and sang "Auld Lang Syne."

The illuminated address was the work of Messrs. W. Gregg and John Bronger. Senior's orchestra was in attendance and the very appropriate music rendered brought forth many encores.

o

THE HIGH WATER.

The hot weather of the past few days continues to raise the Fraser River which is now commencing to flood the lower benches. Old timers say that the river is now higher than it has been for the past ten years. In 1894, the year of the famous high water, a band of the Hudson Bay Company's cattle were cut off on a flooded bench here and drowned. There is little danger to property here, but some of the people who are camping on the beach bench, and those who are occupying shacks there, are preparing to move onto the townsite flat.

o

It is reported on reliable authority that a Federal election will be held in Canada about August or September next. Now is the time for Martin Burrell, M. P. for Yale-Cariboo, to get busy with the department of Public Works upon the subject of clearing the Fraser River of obstructions to navigation between South Fort George and Tete Jaune Cache. The danger to life and property is not active now, as this stretch of the river is not navigated, but next summer it will be the medium of transport between Fort George and the end of steel.

APPROPRIATIONS FAR TOO SMALL

If we had time to burn around the Herald office we would like to work upon the compilation of statistical data relative to the gross revenue derived by the provincial government from the Cariboo district. This information may not be found in their Estimates of Revenue and Expenditure that show in detail the amount of money that the government intend to spend on roads, trails and bridges in the different districts. If we had these figures, they would show that the Victoria government have sold huge tracts of this ninety million acre district to land and timber operators: It would show that a surprisingly large number of the fat gold sacks in the Treasury vaults are filled with the assets of the sale of Cariboo's resources. We have no comment to offer upon the wisdom of the government policy of peddling the trees and the soil of the district in which we are particulary interested — although other districts have been treated likewise — by the square mile in any quantity, for this paper commenced publication after the pick of the district had already been grasped in the maw of the man with the corner post axe, and there was no wisdom in advocating that the government reserve what was left-over, for in many instances, in the sale of the large blocks, the government was making good sales at any old figure. Under these circumstances the absurdly futile and ludicrous endeavor on behalf of the Victoria law-makers to appear anxious to conserve the resources of this district for the actual settler appears very obvious. Being on the ground we know then whereof we speak, and knowing, have to smile a little. Well, as we have stated, we would like to show the amount of cash the government have raked in from the sale of Cariboo. This year the district is to have $150,000 worth of work done towards building the $300,000 worth we require. This is the biggest appropriation the district has ever had. In this issue of The Herald we are carrying about 500 land advertisments, each of which, represents to the government a revenue of not less than $3.200, or a total of over one and a half million. The Herald has been full of these advertisments since we commenced publication, they appear for nine issues only and there are two other publications in the district that carry volumes of similar matter. Within ninety days from the date of first publication a deposit of 50 cents an acre on the area applied for must be in the hands of the Government. and completion of purchase must be made within six months of acceptance. Thus it it is seen that the government are raking in some millions from this district every few months, but when it comes to the time for paying out appropriations for opening up the country where they are deriving their enormous revenues, the financiers give us back a sum about equal to the gross receipts of the advertising of these lands in their official organ, the B. C. Gazette. The balance is applied towards making daisy beds round the parliament buildings in Victoria, or being blown-in on public improvements under the recommendation of men who can do most for the party. Here are a few things that we want in the pay-streek of the province: Things that we want badly and want instanter. The first is a road from South Fort George to the Fort George Canyon, to be used at times when the boats can not navigate the rapids, consequently cutting off communication by this fifteen mile gap in the line of travel. It is not possible to trans-ship across the canyon at the present time as there are no boats that can undertake the fifteen mile run between this point and the canyon. The building of this road would make Fort George independent of the whims of steamboat companies in a small degree. South Fort George is the radiating centre for everything in the line of industrial development for this empire round '54. We have a city here today, with two banks, splendid retail stores, a local telephone system, Opera House, pool hall, saw mills, restaurants, a licenced hotel with 60 rooms, a newspaper, steamboat warehouses and headquarters, and in fact every imaginable utility to indulge public requirements that could possibly have been instituted here with even the remotest opportunity for profit, and yet, in spite of the fact that the great defenceless district of which South Fort George is the very heart, has been looted of millions upon millions of dollars to fill the government coffers, the powers that be have not seen fit to blow back with a single dollar for improvements to the streets of the town or the building of sidewalks. The government's decision not to sell any portion of their quarter of this townsite is responsible for the growth of rows of shacks the size of small box-cars on government blocks in the shadow of buildings which would be a credit to any city built on private property.

ANGLICANS TO BUILD CHURCH HERE

Amongst the arrivals here on the "B. X." last Monday, were Archdeacon Pugh of the Archdeaconry of Yale-Cariboo, and Cannon A. G. Deeds, vicar of St. John the Divine, Kensington, London, England. Cannon Deeds is disbursing a fund raised in England for the promotion of the work of the Church of England throughout Cariboo. Both the Reverend visitors were obliged to leave on the following day, owing to the uncertainty of the arrival and departure of boats during the high water. It is the intention of the Church of England to erect a church in this town immediately. A rector will arrive here within the next few weeks, and in the meantime plans are being prepared for the building, which will be erected on lots 19 and 20 in block 5, the property of W. F. Cooke, at the corner of Rose Avenue and Seventh street. The Church is prepared to advance a sum of $1500. which is to be repaid out of the offetory in the next five years. A meeting will be held tonight in the Thorne & McGaghran hall, on Fourth Street, which all those interested in the building of a church here are requested to attend. There are, we believe, a great number of people belonging to this church in South Fort George and Fort George, and a liberal support will without doubt be forthconing to further the good work.

IN A MORE PROMISING MIND.

The Indians on the reservation here are now in a much more promising frame of mind regarding the sale of their land here to the G. T. P. for townsite purposes. They now appear to be anxious to sell their land while a few weeks ago they refused to consider the proposition favorably. They are a peculiar people, these Siwashes. They love to linger over any bargain; to prolong the preliminaries, and to contradict their decisions from time to time, just from a natural pervesness. In their childish minds, they realize that they have got something their white brothers want, other than fur or moccasins. Something the white men want very badly, if they wre to believe what the agent of a townsite company — who didn't want to see the sale go through — told them. And so they find themselves in the enviable position of being able to pow-wow and bargain with the fate of a city, and the process is not to be moved with any unseemly haste. We are tolerably sure that the Indians have at last come to their senses, and we are confident, when we state that they will sell the reservation next August, that we are not in any manner jeparadising the reputation enjoyed by this journal, for veracity.

o

The body of George Haines, who was drowned in the Giscombe rapids on May 16th., was recovered at Quesnel last week.

WATER SYSTEM NEEDED.

In this hot weather some sort of campaign should be conducted to protect the water we drink from contamination with bacteria injurious to health, and dangerous to life, the outcome of the primative sanitation conditions of the town. A recent meeting of citizens to take up the question of fire protection resulted in a programme being outlined which included the purchase of a chemical apparatus to extinguish conflagrations. It was proposed to tax the business houses of the town $10 each. Would it not be a better plan to tax these people say $100. and install a waterworks system in the town? This could be done, we believe, for the sum that would be forthcoming. H. W. Gross, who installed the water system in Havre, Montana, explained to The Herald this week that by driving a number of points to a good depth a fine water strata could be reached that would be absolutely filtered of any surface contaminations. These points would be coupled to one pumping main with a probable water pressure sufficient to flood the earth level of the pipe. An ordinary steam pump would be sufficient to raise the water to a tank on the first bench, from which a main could be carried to several street corners, where several faucets could be placed, supplying their particular locality and assuring fire protection. The scheme is worth investigating.

Distances from Fort George

Fort George is central for a large area of country, the greater part of which is suitable for farming. It is located near the geographical centre of the province and at the junction of two rivers, which are navigable for steamboats for 675 miles. Going east and southeast, following the Fraser river up-stream, are the following points:

	Miles from Fort George
Goose Country Ranche	16
Mouth of Little Salmon	22
Mouth of Willow River	25
Giscombe Portage	41
Thomas Cabin	61
Mouth of Big Salmon River	68
Mouth of Bear River	81
Mouth of Tonequah Creek	95
Head of Grand Canyon	106
Slim Creek	139
Dome Creek	156
Clearwater River	164
Smoky River	188
Goat River	204
Garnet Creek	214
Snowshoe Rapids	218
Moose Rapids	220
Beaver River	257
Shuswap River	264
Tete Jaune Cache (via surveyed line G. T. P. 206 miles)	315
Edmonton, Alberta, via surveyed line G. T. P. (estimated)	461

At Giscombe Portage, a wagon road of eight miles connects Fraser River with Summit Lake, and Summit Lake is the source or head of Parsnip River, which is the south fork of Peace River, Findlay River being the north fork, and from their junction the river is called the Peace, Summit Lake is on the Arctic slope or watershed, for the waters of Peace River flow into the Arctic Ocean. The distances to the following points via Giscombe Portage are:

	Miles from Fort George
Summit Lake	49
Fort McLeod, on McLeod Lake	116
Mouth of Parsnip River	196
Fort Grahame, on Findlay River	261
Ingenica Mines, on McConnell Creek	360
Fort St. John, on Peace River	360

Going west and northwest and up-stream on the Nechaco and Stuart Rivers the distances are:

	Miles from Fort George
Indian Rancherie No. 3	11
Mud River	20
Mouth of Stuart River	57
Mouth of Stoney Creek (via Stoney Creek trail 75 miles)	90
Fort Fraser on Fraser Lake (via Stoney Creek trail 101 miles	120
Fort St. James on Stuart Lake (via Stuart River)	139
Burns Lake, on Telegraph line trail	156
Aldermere, in Bulkley Valley	237
Hazelton, at head of navigation on Skeena River	297
Prince Rupert, on Pacific Ocean	459

South, via Fraser River and the Cariboo Road, are the following named places:

	Miles from Fort George
Fort George Canyon	15
Hixon Creek Trail	45
Mouth of Blackwater River	60
Cottonwood Canyon	75
Quesnel (Barkerville is 60 miles eaet of Quesnel)	95
Soda Creek (lower end of steamboat navigation)	155
150-Mile House on Cariboo wagon road	183
83-Mile House on Cariboo wagon road	250
Clinton	285
Ashcroft, on Canadian Pacific Railway	230
Vancouver, on the Straits of Georgia	524

There are feeding places on the road between Fort George and Quesnel as follows: Long Meadow 21 miles, Round Meadow 38 miles, Swan Creek 61, Goose Lake 85, Quesnel 110 miles. Blackwater Crossing is on this road, 60 miles from Fort George. A trail runs east from Fort George to Bear River, 40 miles

---The Cariboo wagon road is 167 miles long

---That statement alone will prove to the readers the impossibility of price competition for imported beer against the product of a local industry

THE

NORTHERN INTERIOR BREWING Co. Ld.

Has been incorporated by men who have had long business experience in Cariboo. The objects of the company are:
To manufacture beer for the trade of the Northern Interior; both to satisfy present requirements and the increasing demands of the construction next year and thereafter. To maintain a brewery capable of supplying the demand for a first-class beer

Read this prospectus. The facts are here:

A prospectus has been issued which reads in part as follows:

NORTHERN INTERIOR BREWING COMPANY LIMITED.

Incorporated under the B. C. Companies Acts.

SHARE CAPITAL — — — — — $30,000,00.
divided into 600 shares of $50.00 each.

PRESENT ISSUE

300 shares of $50.00 each at par, payable
¼ on application and ¼ on the corresponding day of each of the three following months.

DIRECTORS

JOHN A. FRASER, M. P. P. Merchant, of Quesnel, B. C. President.

JOHN B. DANIELL, President, Northern Interior Printing Co. Ltd. South Fort George, Vice-President.

WILLIAM L. COLLINS, Manager Hudson's Bay Co., Quesnel, Secy-Treasurer.

A. W. CAMERON, Bank Manager, President Quesnel Board of Trade, Quesnel, B. C.

EDWARD L. KEPNER, Proprietor Occidental Hotel, Quesnel B. C.

GEORGE J. WALKER, Late Government Agent, Barkerville B. C.

BANKERS

The Northern Crown Bank, Quesnel B. C.

SOLICITOR

E. J. Avison, Quesnel, B. C.

Registered Office — — — — — Quesnel B. C.

This company is proposing to immediately erect at Quesnel, a high class, modern brewery, and is offering to the public for subscription at par 300 of its 600 shares.

Since the incorporation of the company several months ago, continuous efforts have been made to obtain from the Dominion Inland Revenue Department its consent to the issue of a brewery licence. It has now agreed to a grant being made when the brewery is erected, and it has already appointed an Inland Revenue Inspector at Quesnel to transact the business of the company. An application will be made with all practicable speed for a provincial licence, and the Directors now propose to immediately construct and equip the brewery.

The whole expenses of promoting the company, including Solicitors charges for promotion; Government fees; stock books; the printing of stock certificates and the Articles of Association; Solicitor's charges for securing an understanding from the Dominion Government as to a grant of a licence when brewety is erected; the cost of printing and publishing this prospectus have been assumed by the Directors, or some of them, and for so doing the said J. B. Daniell will be allotted 60 shares, and the said J. A. Fraser; W. L. Collins; A. W. Cameron; E. L. Kepner; and George J. Walker 18 shares each. A contract dated 25 November 1910 to this effect has been entered into between the Company and the individual Directors and the same may be seen at the registered office of the Company during business hours.

The Company is thus, without the payment of a single dollar, in the very fortunate position of being discharged from all initial and organizing expenses.

No shares will be issued at a discount and every dollar subscribed will be used for the actual business needs of the company.

The Directors are fortunate in having secured the services of Mr. George Bruder as Brewer and Manager. Mr. Bruder is splendidly equipped for the position. He has 25 years experience as a Brewer in Germany, Switzerland, the United States and Canada. He is a graduate of the American Brewing Academy and was for years Brewmaster of the Upper Michigan Brewing Company, and later of the Imperial Brewing Company, of Kamloops, both of which were exceedingly successful under his management.

Mr. Bruder is the owner of a considerable amount of Brewing plant and apparatus, and so much confidence has he in the possibilities of this District, and the successful outlook of the Company that he has agreed to turn over his plant at a valuation in exchange for the shares of the Company at full par value.

The Directors only propose to raise the capital necessary to place the Company in a thoroughly sound financial condition, and now offer for sale $15,000,00 of shares based on the following estimate:

Site	$500.00
Building	7000.00
Machinery etc.	4000.00
Plant and Apparatus	1500.00
Tools and accessories.....	500.00
Working Capital	2500.00
	$16,000.00
Less estimated value of Mr. Bruder's plant	1250.00
Net amount of capital required	$14750.00

The profits of Breweries are proverbial. The distances of this country from the railroad; the impossibility of price competition from the nearest brewery; the immense extent of territory this brewery will serve; and the splendid prices obtainable, place this brewery in a class by itself, and make the Directors firm in their belief that this company will in a very short time be in an exceedingly prosperous condition and paying a very high rate of dividend.

This brewery will supply Quesnel, Fort George, Stanley, 150 Mile House, Soda Creek, Quesnel Forks, Hydraulic, and all the surrounding country, and it is estimated that these places, during this year, consume at least 2000 barrels of beer. The plant it is proposed to install is capable of manufactfacturing 2500 barrels of beer per annum, leaving a considerable margin for development without increased cost.

The construction of the G. T. P. and other railways through this part of Northern B. C. will immediately increase the territory this brewery will serve, and ensure a big expansion of business within a comparatively short time. As any larger quantity of beer can be manufactured at a less cost of output than a smaller quantity, a steady increase in the yearly profit in proportion to the increase in business will be made.

An average wholesale price of a barrell of beer holding 6 doz. bottles is $10.00 at the Brewery. Prices vary from $8.10 to $12.85 The average weight of such a barrell is 245lbs, and the freight from the Brewery to Quesnel at 5 cents per pound would be $12.-25. Beer from the Railway cannot therefore be laid down in Quesnel under $22.25 per barrell.

The estimated sost ol manufacturing a 6 dozen barrell of finest quality beer in Quesnel is only $7.80.

At $22.25 per barrell a bottle of beer costs approximately 31 cents, of which the freight is approximately 17 cents.

ESTIMATED PROFITS.
First working year,

Cost of manufacturing 1500 bbls., @ $8.00 ...	$12,000.00
Selling price thereof @ $22.25 per bbl.,(wholesale in Quesnel is today $30.00 per barrel ...	33,375.00
Estd., gross profit ...	$21,375.00

After providing for the writing off of the cost of the entire building and plant in five years, and for the creation in that time of a reserve fund equal in amount to the entire capital now to be subscribed, these profits would pay a dividend of over 60 per cent.

To comply with the Companies Act it is stated that the Minimum Subscription on which the Directors will proceed to allotment is one share. A considerable number of shares have already been spoken for.

Applications for shares should be made upon the form accompanying this prospectus, and sent to the Company's Bankers, the Northern Crown Bank, Quesnel, or to the Trader's Bank, South Fort George, with a remittance for the amount payable on application.

A copy of the Company's Memorandum of Association is printed in the fold hereof, and with the Articles of Association of the Company forms part hereof.

Where no allotment is made the deposit will be returned in full, and also where the number of shares allotted is less than the number applied for the balance of the deposit will be applied towards the remaining payments.

Failure to pay any future instalment on shares allotted when due will render previous payment liable to forfeiture.

Full prospectuses (upon the terms of which applications will alone be entertained) and forms of application can be obtained from the Northern Crown Bank, Quesnel, The Trader's Bank, South Fort George, from any of the Directors, and from E. J. Avison Quesnel.

This prospectus has been filed with the Registrar of Joint Stock Companies.

Dated at Quesnel, this 26th., day of April 1911.

THIS COMPANY offers to the public of Cariboo an opportunity of investing in a venture which will add materially to the industrial development of the district, and the profits of which will be great

Send in your application for shares immediately. Much of the stock has already been subscribed for. Don't delay. Act at once.

$50 EACH — SHARES — $50 EACH

The Northern Interior Brewing Company, Limited

This form of application may be used. It should be filled in and sent in with the amount of the deposit to the Northern Crown Bank, Quesnel, B.C.

.....191

TO THE DIRECTORS OF THE NORTHERN INTERIOR BREWING CO., LTD.

being a deposit of $12.50 per share on ..... shares in the above named company, I request you to allot me that number of shares upon the terms of the company's full prospectus, dated the 26th day of April, 1911, which I have read, and I hereby agree to accept the same, or any smaller number that may be allotted to me, and pay the balance of $38.50 per share as provided by the said prospectus, and I hereby authorize you to register me as the holder of the said shares.

Name in full..... Address .....
Description ..... Date .....
Signature .....

RECEIVED this day of 1911, of Mr.
the sum of $, being a deposit of $ per share upon
shares in the above named company.

For the Northern Crown Bank, Quesnel, B.C.
For the Traders Bank, S. Fort George, B.C.

.....

W. H. Cunningham, of the firm of Cunningham & Cutler, arrived here on the "B. A." last Monday from Vancouver. Mr. Cunningham tells us that the interest in Fort George on the coast is still just as keen as ever.

Amongst the new businesses that are growing up in our very midst mention must be made of the Cariboo Hardware Co.'s sheet metal shop at the corner of Laselle and Third streets. H. W. Gross and A. C. Buchel, of Idaho, are the proprietors, and they are equipping their shop with the best machines to turn out any variety of sheet metal work.

Fishing is good on some of the slough sub-divisions ...

Seventeen telephones are now being installed in town. These seventeen 'phones are the start of Fort George's great future system.

The South Fort George Baseball team have decided to postpone their match with Central until a later date. The match was to have been played on the 24th., but owing to the non-arrival of baseball requisites from Vancouver, the home team is not equipped for the fray.

P. A. Landry, P. L. S., of the well known firm of Gore & McGregor, returned here from a short business visit to the coast last Monday. Mr. Landry assumes entire charge of the surveying firm's northern field, and should be addressed on all matters appertaining thereto.

Two men started from Oregon for Fort George on motorcycles reaching Blackwater telegraph station, 50 miles south of here, last week. They left their machines there and walked in, owing to the state of the road between Blackwater and here.

Dr. D. B. Lazier and Charles Brown left town on Thursday on a fishing excursion to West Lake. We understand that they provisioned for a month. They will find good sport at West Lake, and Mr. Brown will have an opportunity of trying out his new rod and gun.

Messrs. McGarhran & Thorne, the caterers, who supplied the banquet for the farewell entertainment, this week, are to be congratulated upon the excellence of their effort. That banquet would have graced any table, anywhere, any time.

The weather lately is calculated to produce wonderful crops throughout the district this year.
