VOL. 4, NO. 45. SOUTH FORT GEORGE, B. C., SATURDAY, JULY 11, 1914. $3 PER ANNUM

GOVERNMENT MINISTERS HOLD BIG MASS MEETING OF CITIZENS HERE

Attorney-General, Hon. W. J. Bowser, and the Minister of Lands, the Hon. W. R. Ross Give Brief Speeches of Work Done by Government in Past

J. A. FRASER, M. P. FOR THE CARIBOO AND Mr. MANSON, M. P. FOR SKEENA GIVE SHORT ADDRESSES

On Tuesday at twelve o'clock a special train arrived from McBride carrying the Attorney-General, the Minister of Lands, John A. Fraser, M.P. member for the Cariboo District, Mr. Manson, M.P., member for the Skeena District and G. A. McNicholl, colonization agent for the Grand Trunk Pacific Railway.

The party proceded to the Northern Hotel at South Fort George where they stayed during their visit here. Throughout the afternoon the Ministers discussed the needs of the town with the business men and promised to do all in their power to aid the town in its various needs.

In the evening at 8.30 a mass meeting of the citizens was held in Coutt's building, where the Ministers explained what the Government had been doing in the past, outlining the policy of the government and giving a summary of the financial status of the Province.

The first speaker of the evening was Mr. Manson. He expressed himself as being astonished and delighted at the great strides that South Fort George had taken towards becoming a large city. This is my first visit here said Mr. Manson and my eyes have been opened to the fact that you have the opportunities here for a very large city. Mr. Fraser your member has been working very hard in your interest and next spring when the Redistribution Bill comes before the house it will provide two members for the Cariboo District instead of one as at present. In speaking on the question of incorporating the three towns, he advised the people to consider well the question, as their responsibilities instead of ending then were really just beginning. He then extended greetings from the citizens of Prince Rupert to the citizens of South Fort George.

Mr. Fraser came next after expressing pleasure at being in South Fort George and addressing what he considered the largest audience that ever attended a meeting in the city, he then told of the interest displayed by the Ministers during their trip through this part of the country.

He then commented on the importance of the Grand Trunk Pacific and the Pacific Great Eastern to South Fort George and considered that these railroads would have a great effec on the city in future for its advancement. He considered that the question of most vital importance for this city and the district was the tilling of the many surrounding areable agricultural acres of land for said Mr. Fraser the development of the country preceds the development of the city and there is no question in my mind of the fact that the development in this part in the next few years will be far greater than any other part of the province.

He then advised the formation of 'Farmers' Institutes throughout the district and explained the organization by the Government of an Agricultural Department at Victoria for the use of the people its purposes being to estabilsh experimental farms throughout the province. Amid considerable applause Mr. Fraser took his seat.

The next speaker was the Hon. W. R. Ross, Minister of Lands. I consider it a pleasure and privilege to address this meeting tonight said Mr. Ross. This is my second visit here in the last two years and I came this time by rail, instead of by auto and steamboat as in the case of my previous visit. Mr. Bowser and myself thought that a trip throughout the northern Interior of this province would afford us considerable good in the management of our departments and bring us in closer touch with the needs of the people. The most important question in my department is the transportation one—the opening up of a new country means the building of costly roads and the Lands Department are spending large sums yearly to accomplish this, realizing its immense importance to the future of this province. We are now opening up large areas of land to preemption. The McBride district was thrown open a month ago a section of the Fort Geokgo a section of the Fort George district was also thrown open, and from now on at stated times sections of land will be thrown open in all parts of the northern interior. The Liberals have been making complaints in reference to these lands; but their statements have been proven not well founded. Some 93,000,000 acres are available for pre-emption. The Lands Department threw open 10,000,000 acres this year of which only one half was taken up. It is now possible to obtain from any Government office in the province the fullest information as to what lands are open to purchase, and also those that are open for pre-emption. All money obtained from the sale of land is used for the purpose of building wagon roads in this district. Our timber policy is known to be one of the best in the world. I will say in conclusion that I hope that the progress of the northern interior in the coming year will be as great and greater than it has been for the past two years.

Mr. Ross then took his seat amid much applause, and a Mr. Fay who is not unlike his name name came to the platform and after receiving consent amused the audience for considerable time in a Mono-Act Drama entitled "The Wrong Re-count." This was received with loud applause from the rear. Mr. Fay seemed somewhat bright about the head, and his methods hardly creditable, still he posessed to a considerable extent an unfailing quality—nerve.

After the applause had subsided Mr. Bowser the Attorney General arose and addressed the audience. Mr. Bowser—My purpose in visiting this part of the province in which I have the honor to be Attorney-General is to familiarize myself with the people and the conditions under which they live. The great Conservative Party has been in power eleven years, and have secured the confidence of the country each successive year and at the last election out of 42 memebers, 40 were Conservatives and 2 Socialists. In order to perform my duties creditably I found it necessary to come to the people in order to enquire into their needs. The Grand Trunk Pacific will be operating through trains early this fall and I may say here that the Government, as soon as the route of the G.T.P. became known palced a reserve on all lands along the railway to enable pre-emptors to locate on land that was accessable by railway. My most important reason for coming to Fort George is to go into the question of incorporation with you. I have received petitions from the three towns desiring to be incorporated seperately, but thought that it would be advisable to wait and incorporate the three towns as one city for the responsibilities are very great, and the city would have to support its own schools, and finance itself and all its requirements, such as water and sewerage systems, roads etc. and it behooved the people to study the question well, in a sane and sensible manner You have opportunities here for a large city in the near future and this is more reason why you should pause in the beginning and make sure of the steps you take. If you were to incorporate now the townsite of Prince George could not have a representative sitting on the aldermanic board because it is against the law for any person to hold a municipal office unless he held a registered transfer to property in the municipality. This can be remedied by a special act and as the House meets in January I would advise waiting until then. The G.T.P. has also to be considered, the Government entering into an agreement with them to exempt them from taxation until 1921.

The Government has been criticised to a great extent for guaranteeing the bonds of the C.N.R. through British Columbia and also the bonds of the Pacific Great Eastern. Let me explain the B.C. Government holds a first mortgage, and the Federal Government hold a second in the case of the C.N.R. therefore if British Columbia wanted to foreclose the Federal Government would have to pay her off in order to protect her own interests. In the case of the G.T.P. the B. C. Government holds the personal guarantee of Mr. Foley, Mr. Welch and Mr. Stewart for the amount guaranteed and I feel safe in saying that it is first class security.

The Government have made provision for traffic on the G. T.P. bridge over the Fraser and also on the P.G.E. bridge over the Nechaco river to be built shortly. This will bring to Fort George all the trade of the surrounding contry.

The Liberals of this province have been asking how it is possible to have a credit balance in the bank of eight million seven hundred and fifty thousand dollars in 1911 and have a debit balance of nine millions now and still want to borrow ten millions for the carrying on of future work. This is also easily explained. The budget speech in 1912 called for the expenditure of $2,844,000; that of 1913 for $6,000,000.00 and 1914 for $7,500,000.00 totaling an expenditure of over $16,000,000.00 in three years and yet the debit balance did not exceed $9,000,000.00. This shows a considerable saving. I intend to visit Prince George and Central Fort George tomorrow and then proceed up the Nechaco river and on to Prince Rupert from where we willl take the boat to Victaria.

Mr. Bowser took his seat amid great applause. Mr. McInnis the Socialist member for Grand Forks being present addressed the meeting very briefly, speaking in the main of the Election Act, Mr. Bowser arose in reply explaining the act in all its phases for the benefit of the meeting.

Mr. Neil Gething acted as Chairman of the meeting.

FURTHER MINING DEVELOPMENT

We are glad to learn from a reliable source that a company is in the process of formation for the development of one or more of the claims recently staked and showing good mineral indications.

The board and officers selected are all well known members of this district and this fact should assist the company in their endeavor to prove the mining possibilities of the district hereabouts.

LUNCHEON IN HONOR OF MINISTERS

A luncheon was given on Wednesday by the Prince George Chamber of Commerce in the Ritts-Kifer hall in honor of Hon. W. J. Bowser, Attorney-General and Hon. Wm. Ross, Minister of Lands.

The luncheon opened with a selection by the orchestra 'The Maple Leaf Forever" followed by a toast to the King and the singing of the national anthem. After the good things had been partaken of the following speakers were listened to with interest by the large number present: Mr. J. A. Shearer, subject: "Transportation and Colonization," Mr. A. M. Hunter, subject: "Industries," Dr. Evans, sub.: "Natural Resources," Mr. F. W. Crawford, subject: "Publicity," Mr. Manson, M.P.P., Mr. J. A. Fraser, M.P.P. and Hon. President of the Prince George Chamber of Commerce. Hon. Mr. Ross, Minister of Lands, Hon. W. J. Bowser, Attorney-General, G. A. McNicholl, Colonization Agent for G.T.P., Mr. Powell, K.E. of the Dominion Inland Waterways Commission and Messrs. Hansard and Meighen of the G.T.P. Mr. Murdoff acted as Chairman.

The first successful luncheon of the Prince George Chamber of Commerce was closed by singing "He's a Jolly Good Fellow" and "God Save The King."

AMERICANS CELEBRATE JULY FOURTH

Saturday the 4th of July was celebrated by the local Americans. All sorts of sports were participated in, including the standing broad jump, the running broad jump, tug-of-war, water melon eating contest, and the climbing of the greasy pole. The last named was the most enjoyable of all and attracted the attention of all the towns people. The sports were held on Hammond street, the prizes being donated by the local business men.

LATEST IN DIVING APPARATUS BROUGHT FOR EMPRESS WORK

Four Bodies Brought Up From Hulk Yesterday—One Identified

Quebec, July 4.—Of the four bodies brought up from the Empress of Ireland yesterday one, that of a man, was identified by a bankbook. He is one of the Salavation Army contingent and is Mr. Simper. One of the women recovered should be easily indentified, as she carried an Imperial bankbook numbered S. O. 52. In addition to this, she was wearing a necklace and no less than six rings. When the sister ship to the lost Empress of Ireland, the Empress of Britain neared Rimouski early yesterday, she slowed up to allow the divers to board her and take such notes of her construction as might guide them in their work on the Ireland. She also brought out diving gear of the most modern kind from England and it is expected with this quick results in the way of recovering more bodies will be achieved from now on. The side of the Ireland will probably be cut open with compressed air, near the purser's office, in the neighborhood of which the bullion is stored. It is also stated that the idea of raising the ship has in no way been abandoned yet.

RECOGNIZE CARRANZA

General will be Given Title of "First Chief"

Saltillo, Mexico, July 5, via Laredo, Texas July 6.—The division of the North, Villa's army has agreed to acknowledge the authority of General Carranza as "First Chief", and General Villa will remain commander of the division of the North, as a result of the conference in Torreon between representatives of Villa and Carranza, according to news received here.

Attorney-General Bowser, G.T.P. Representative, and Business Men Discuss Incorporation

G. T. P. REPRESENTATIVE SPEAKS OF CARSHOPS FOR THIS CITY AS A CERTAINTY

Mr. Bowser introduced Mr. Hansard and explained that he had recommended to the committee that instead of incorporating at the present time by order in council, that incorporation be arranged be a private bill to be passed at the next session of the legislature. He stated:—Our decision is that we appoint some competent man to assess the whole area to be incorporated and validate this assessment roll at the next session early in January, and start out with this assessment roll which would qualify people to vote on money by-laws; also to send a government engineer to go over the whole matter, and report on permanent sewerage, street improvement, waterworks etc. which would be handed over to the city. The committee wishes to discuss the matter with you before taking further steps, and ascertain what concessions you would ask.

Just before you came in I explained that we had struck out the name of Prince George from the registration plan, there is a certain amount of sentiment and historical value to the name of "Fort George". My suggestion to the committee is that there might be a good compromise if the city were called "George".

In reply Mr. Hansard said:—For the sake of finance it would be well to get away from the word 'Fort'. The Grand Trunk Pacific is not wedded to the name 'Prince' George or anything of that sort. Your statements are very satisfactory to the Grand Trunk Pacific; but I would like some of you gentlemen to place yourselves in my position and look at the situation from a railway standpoint. You have your interests and they may seem to be antagonistic to the railway standpoint. There is one thing of paramount importance to the railway company and that is this, that this place of Fort George, Prince George or what ever we may call it shall be a city and the bigger the better. The railway company is after the traffic, that is how it lives. The Bigger Fort George becomes, the more we will get out of it from the traffic standpoint.

Speaking from the railway standpoint, we must have some shops somewhere, there are three places at which we can place these—the place is here. We can place them, at McBride or Endaco, but we shall ask in connection with any shops that they will be exempt from taxation, because they will bring a lot of people into the city, and we will also ask exemption from taxation for our railway lands. We do not see how we could have consented to incorporation at the present time otherwise. We want to start from the bottom and see that everything is right because that is where you base your financing for a city. If we are back of this town and you see that we are going to do alot of work here, it will enable you to borrow money more easily and a Private Bill incorporating this city will also be a great aid in this respect, especially when borrowing from the older countries. Any committee you may appoint I will get in touch with and draft the agreement and get it ready for your consent. You must be reasoaable for as you know taxation is a big railway item today, and the exemption of the C.P.R. from taxation may account for the large dividends they pay yearly. We are in a position where we have to develop the country in order to pay bond interest.

Many questions were asked Mr. Hansard by Messrs. Hood, Perry Shearer, Gillett, Carney and Crawford and elicited the following information:—That the G. T. P. lands that were used for railway purposes was the only railway property exempt from taxation according to their agreement with the government.

That they wanted total exemption from taxation for their carshops, and a fixed assessment for their subdivided city property.

On questioned by Mr. Carney as to the possibility of drawing up a draft of an agreement Mr. Hansard replied:—I will discuss the situation with Mr. Donaldson and Mr. Bowser and on my return from Prince Rupert submit a proposition to you.

The meeting closed soon after and the committee was well pleased with the promise of an early settlement of affairs.

UNEMPLOYED MAY BE DEPORTED

Believed to be Only Solution for Out-of-Work Problem

MONTREAL, July 4.—That thousands of unemployed in Montreal are in imminent danger of being deported to Europe as a solution of the out-of-work problem was frankly admitted by the immigration authorities here yesterday. The drastic measures which W. D. Scott immigration superintendent at Ottawa, has adopted, namely, to deport all foreigners of less than three years' residence in Canada, who are out of work and are charges or have been charges on the community, has been especially inaugurated for the benefit of Montreal and other large cities The local immigration agent states that he will probably round up the hordes of unemployed in this city and they will be deported holus bolus.

There will be a meeting of the Prince George Chamber of Commerce on Wednesday evening the 15th inst at eight o'clock in the Ritts-Kifer hall, Prince George.

It is no longer necessary to send to mail-order houses for your ladies' wear, The United Ladies'wear Stores Limited are carrying a complete line of ladies' wear and will be pleased to show you their stock.

A MAN SHOT

While walking rapidly down Hamilton Avenue the other day, a man quickly shot into The Cariboo Pool Room for Cigars, Tobaccos, Pool and Billiards and to listen to the new Player-Piano.

THE CHURCHES

Church of England

Rev. M. Sadler, pastor, next Sunday the following services will be held: Matins 11 a. m., Evensong 7.30.

A special Vestry Meeting will be held at the Vicarage on Tuesday 21st July, 1914, at 8 p.m. Parishioners (both ladies and gentlemen) are earnestly requested to be present.

Presbyterian Church

Rev. A. C. Justice, pastor, Services: 11 a. m. and 7.30 p. m. Gospel service.

The Prince George Builders Company Limited are erecting two bungalows in the block at the corner of Ottawa and Bowser streets, these homes when finished will be strictly first class and any newcomer to this city would be wise to inspect these before deciding where to locate, we understand the builders are prepared to rent to a responsible tenant.

SPORTS

BRAMPTON FAILS TO LIFT MANN CUP BY FOUR GOALS

Vancouver A. C. Wins Second Game 6 to 2 and Round 10 to 7—New Players Back in Lineup and Defenders Perform Brilliantly.

After Lally's Scalp

Vancouver, July 6.—Another challenger is awaited for the Mann cup, the V.A.C. defeating Brampton at Athletic park before 5,000 people by six goals to two, turning the adverse margin of one of the first games into a three-goal lead on the series.

A couple of years ago it would have been a joke to talk of five thousand people attending an amateur game of lacrosse. The attendance Saturday was a very gratifying sign that, though the professional game is down in the dumps, the national game has still a big enthusiastic following, and the same old-fashioned way of stick-handling, still comes second to no other form of sport on the coast.

A great deal of enthusiasm was shown during the game and at the conclusion of it The Brampton Excelsiors could not be regarded with the complacency which has been felt when other challengers had made their first bow. Instead of being smitten, Brampton has done the smitting, and it looked as if the silverware was about to be carried back to the place of its origin—the east, Naturally, the jubilation was reasserted the [illegible] western lacrosse.

SHIFT IN LINEUP

This result was achieved by three changes in the V. A. C. team, all of which seemed to make for strength, and much improved condition. There is not the least doubt that the Brampton team stepped on the field in the first game in far better shape than the western lads, but they had little over the V.A.C. on that side of the account in this game.

Vancouver gave a brilliant display, clearly outplaying the challengers in the last three quarters. The total goals on the series were: Vancouver 10, Brampton 7. Two new players, members of the team last year, got back into the V.A.C. lineup and performed brilliantly.

Vancouver officials announced yesterday that they will immediately take steps to have Joe Lally deposed as Mann cup trustee. All the western lacrosse organizations are indignant at Lally's action.

A FINE AGGREGATION

Victoria, July 6.—"It was a great disappointment for us to lose the second game after making such a splendid showing in the first, but we are thoroughly satisfied with the treatment on the coast," was the manner in which Coach Jack Carmichael of the Brampton Lacrosse Club summed up the recent Mann cup series. "We thought that our speed would enable us to pull through a win in the series, but here we were mistaken. The only thing left for us to do is go after the C.L.A. honors once capture the cup in a second trip to the coast."

The Brampton Club are considered on the coast the finest, amateur aggregation ever sent out from the east. The phenomenal work of Davis in the Vancouver nets alone saved the cup for the coast club, for the challengers had everything their own way, and better than an even share of the play until Davis broke their hearts because of his wonderful showing The visitors refused the offer of the Victoria Lacrosse Club to play an exhibition game in the capital and they will take their team returning home. Several of the team have decided to hang up their sticks after this trip, but Coach Carmichael will endeavor to keep the 12 intact for another trip after the cup.

CARPENTIER GETS OFFER

$20,000 Proposition Given Him To Fight Jimmy Clabby

Sydney, N.S.W., July 6.—Georges Carpentier middleweight champion of France, was cabled today an offer of $20,000 to meet Jimmy Clabby of Hammond, Ind., claimant of the middleweight championship of the world.

Clabby's latest victory was July 4, when he won from Ed. WeGooty of Oshkosh, Wis., on a foul in the eighth of a scheduled twenty-round fight.

Tom Flanagan Says Two More Weeks Would Make Him Perfect

Toronto, July 6.—Tom Flanagan, who trained Jack Johnson in his fight with Jeffries at Reno, and who was in the champion's corner in his recent bout with Moran in Paris, comments on the fight today as follows:

"The big champion was as fast as lightning on his feet. He lifted that terrible uppercut of his with the force of a pile driver. He wasn't as good as ever, but all he needed was two more week's work. That would have made Johnson as good as he ever was in his life. That is how close he was to being perfect.

"'Why didn't Johnson put Moran out? Well, the Pittsburg man was in as perfect condition as any man could be—a big, powerful man, trained to the second, all bone and muscle. He took a terrible beating and stood up under it though he was staggering and groggy a dozen times. There was no arrangements to make the fight last twenty rounds. Johnson told me the night before to wire home that the fight would not go more than twelve rounds. It went 20, but it was because Moran was as tough as hickory.

"As to the interview spread broad-cast over the country that the fight was fixed and that I was a party to it, all I have to say is that it is a lie pure and simple.

THE UNSINKABLE SHIP

A recent issue of the Scientific American contains an article on "The Great Lesson of The St. Lawrence Disaster," in which it emphasizes the necessity of safe guarding against the frailty of the human element by making such catastrophes mechanically impossible. "The alarming fact in this case," the article points out, "is that this comparatively new and fine ship went to the bottom in fourteen minutes after the collision." With this point in mind the article argues that the transcending consideration is that a vessel carrying thousands of people should be practically unsinkable. In this connection the writer says:

"It is perfectly certain that if no restrictions of a commercial kind were imposed upon him, the designer, realizing the priceless value of the human freight that was to be committed to her care, would see to it that her construction was such as to render her practically unsinkable by any of the accidents of ocean travel."

The writer compares the present style of steamship with the Great Eastern and asserted that the modern steamship builder has eliminated many of the structural elements which made the pioneer mammoth liner so safe. The double hull which she had has been abandoned, the multifarious divisions and sub-divisions of watertight compartments are eliminated in favor of larger spaces served by bulk-heads, and longitudinal bulk-heads are omitted, and also the watertight decks.

"Where the lives of a whole townful of people are concerned," concludes the paper, "the ships that carry them should be made fool-proof. This can be done; it is a mere matter of mechanics and construction. Certain it is that the human element and all the risks which come with it can never be eliminated. When two ships, such as the Empress of Ireland and the Storstad, which sighted each other some two miles apart and were in constant conversation during a passing fog-cloud, through well understood signals, nevertheless blunder into an inexcusable collision, surely it is time for the public to demand that the ships in which they trust their lives shall be made fool-proof.

"Throughout the whole of the official investigation which will be made of this terrible calamity, for Heaven's sake, let everybody, from Lord Mersey down, bear in mind the fact that the great lesson of the calamity is that we must safeguard against the frailty of the human element by making such horrors as this mechanically impossible."

OPENED NORTH SHORE SECTION OF P.G.E. JULY 1

Line Runs Through Beautiful Scenery Out to White Cliff Hourly Service From North Vancouver

Six miles of new railway track, the section of the Pacific Great Eastern Railway extending from Dundarave around the north shore of English Bay to White Cliff on Howe Sound, was opened on Dominion Day by the construction department of the railway.

Two trains, one drawn by a gasoline motor car and the other by a steam locomotive, hauled several thousand holiday-makers out to White Cliff in the morning and brought ... the evening.

The new section opened yesterday makes a total of 13 miles now in operation by the railway on the north shore. It is one of the scenic lines of the province, short as it is, and extended up Howe Sound to Squamish, it will undoubtedly become famous as traversing one of the most beautiful sections of the coast district.

The line to Dunarave has been under operation since the first of the year. The White Cliff extension was opened on July 1 in accordance with the agreement made with the municipality of West Vancouver in exchange for a free right-of-way.

After leaving Dundarave, one of the pretty little centres in West Vancouver, the track passes through a very heavy cutting. At Altamont, east and west bound trains cross and a few blocks further west the first heavy rock work was made. From Altamont right through to the present terminus of the line one gets splendid views of English Bay and the mountains on Vancouver Island while the scenery along the shore itself is strikingly beautiful. In places the track is near a hundred feet above the wash of the surf on the long, narrow beaches.

Altamont, Cypress Park, Horseshoe Bay and White Cliff are the principal points along the new line. The service yesterday was at times disorganized by reason of extraordinarily large crowds which the two trains were forced to carry. But with the exception of a few minutes' delay the service was conducted on an hourly schedule. The run from North Vancouver to White Cliff will ordinarily take forty minutes. The train will be operated on an hourly schedule, leaving North Vancouver on the hour.

BELIEVES OPENING OF G. T. P. ABOUT AUG. 15

Collingwood Schreiber and R. B. Kelliher Make Offcial Tour of Road

"I believe the official opening of the Grand Trunk Pacific will be about August 15th," said Mr. Collingwood Schreiber, Chief Engineer of the Dominion of Canada, who is here, accompanied by B. B. Kelliher, Chief Engineer of the G. T.P.

Mr. Schreiber thinks the Duke of Connaught will drive the golden spike, but if he cannot perform the ceremony it is probable that Premier Borden will do it.

Mr. Schreiber has just made his first through trip over the road and is pleased with its construction. The shoe-flies around the uncompleted cuts in the interior are now being removed and gangs are busy all along the line between Priestly and Fort George ballasting the road bed.

Mr. Schreiber is accompanied by his wife. Their party leaves today for the South—Prince Rupert News.

Hillcrest Investigation

Board of Five Men to Inquire Into Disaster—Canadian Pacific Decides to Close Hosmer Mine

Lethbridge, Alta.—The Canadian Government have appointed Judge Carpenter and four other officials to investigate the Hillcrest mine disaster of last Friday, in which 199 miners lost their lives. Only 1 body remains in the mine.

After donating $20,000 to the relief fund today, the Canadian Pacific Railway announced that it would immediately begin dismantling its mine at Hosmer, B. C., on which large sums have been expended. One thousand men will be thrown out of employment.

The Hosmer mines have been a disappointment from the start and the development work has been going on at a heavy loss in hopes that something would materialize. It was finally decided to close the mine, as it could only be worked at great loss.

The abandoning of Hosmer will make the second deserted town in that district, the town of Morrissey being the first to be abandoned, owing to the failure of the mines to pay. Much money was spent in trying to relocate the coal deposit at Morrissey, and, it is understood almost as much was lost by the Canadian Pacific Company.

The daughter of a very prominent Liberal statesman is telling this story against herself, says the daily Sketch. She was footling around the links North Berwick way, accompanied by an elderly outspoken caddie. "Do you think I'm improving in my game at all, Sandy?" she remarked casually "No, I wid na' go sae faur as to say that, leddy, bit ye've got a guild grip o' the language."

Canadians in Empire's Capital Celebrate National Holiday

Hon. George H. Perley Has Abiding Faith in Destiny of Canada

London, July 2.—Dominion Day was generally celebrated in the Canadian colony here yesterday. Hon. George H. and Mrs. Perley gave a reception this afternoon and the customary dinner in the evening was attended by about 500 persons Hon. Mr. Perley presided. The principal guests were Prince Alexander of Teck, Rt. Hon. L. V. Harcurt, Mr. Henri Bourassa, Sir Thomas Skinner, Lord Emmott aad Mr. John Stanfield.

In proposing the toast to the Dominion., Mr. Perley claimed that Canada had passed through a period of depression as well as any other part of the world.

"I stand up for Canadian business honesty and probity as being as great as anywhere in the world, but at the same time the investor should exercise his usual wise care and caution before deciding what he had better invest in. If you buy town lots in outside subdivisions or make purchases of oil shares, you are really entering into a speculation rather than an investment and the country should not be blamed if it turns out wrong.

"With regard to the future and the pessimistic suggestions which I understand are put forward by some here that our growth has been too rapid, I only wish everyone could travel through Canada and see the country for himself. Our immense natural resources are still there, unaffected by any financial conditions.

"There have been reports lately of lack of employment in Canada but these reports are a good deal exaggerated. At the same time we feel for the present it is not well that any should emigrate without means

"We all have temporary difficulties but I have abiding faith in Canada's future development, and investments wisely and carefully made must in the long run bring in good returns."

JOSEPH MARTIN WILL RESIDE IN COAST PROVINCE

Will Become Partner in a Leading Law Firm In British Columbia

London, July 6.—Joseph Martin, M.P., sails on the Aquitania next Saturday to reside permanently in British Columbia, where it is understood he will become partner in a leading law firm. He was recently much in consultation with E. P. Davis, K.C., during the latter's visit to London. Mr. Martin retains his seat in the British Parliament for East St. Pancras until the general election, but will not return to London. The government prefers to lose his vote rather than risk the loss of the seat by holding a by-election.

Windermere.

500 PROSPECTORS IN THE BEAVER LAKE GOLD FIELD

850 Claims in Gold Quartz Field North of Prince Albert Have Been Filed

Prince Albert.—Since the reports reached the city in the early part of the year that gold-bearing quartz exsisted in large quanities in Beaver Lake 850 mineral claims in that locality have been filed at the local office for Dominion lands. This figure represents an acreage of 44,200, or about 70 square miles and incidentally means that over two townships have been staked by prospectors who have actually registered.

Besides these are claims staked in the locality which are never officially registered at any office and of which the registration office here received no intimation beyond hearsay. Staking is still proceeding rapidly and there are reported to be well over 500 prospectors even now in the field.

Mr. G. F. Hartford and Mr. Riddel Elliott of Willow River were in town this week on business.

CANCELLATION OF RESERVE

NOTICE IS HEREBY GIVEN that the reserve existing upon Crown lands in the Cariboo and Cassiar Districts, notice of which was published in the B. C. Gazette on the 12th of September, 1907; also the reserve existing upon Crown lands within the Land Recording Districts of Cariboo and Lillooet and the Kamloops Division of Yale Land Recording District, notice of which appeared in B. C. Gazette on the 4th of April, 1911, is cancelled in so far as the same reserves the said lands from lease under the provisions of the Land Act.

SELLING AT COST

No business can be conducted on the "SELLING AT COST" plan. Firms claiming to transact their's on these lines are either deceiving the public or are in business for the sport of the thing—the latter is hardly probable.

Anyone with a grain of common sense will agree with us when we make the statement, that in order to sell goods a firm must bear a certain amount of expenditure such as Insurance, Taxes. Salaries of Clerks Etc., Etc. People engaged in the mercantile business are not mere philanthropists; they MUST get a certain amount of interest on the capital they have invested, AND THEY DO.

So Beware of 'SALES AT COST', They Are Fakes.

The secret of selling is buying right. In this we excel and it places us in a position to sell you the highest quality of goods (not junk) at the lowest possible figure and still make a LEGITIMATE PROFIT.
