See D. Sutherland 12.5.74

F.O. May 13. 1874. B.14

Dear Miss Nightingale,
All I know about the conference on cholera, (or rather, as it was put to me, on epidemics generally,) is that a proposal to hold one has been addressed to F.O. by the Austrian Government, which is stated to be anxious on the subject. I have referred the matter to the departments more

immediately concerned, and which the Crown.
I shall inquire that the choice of a representative, if one is sent, will rest with me, but I will take care that your recommendation of Dr. Cunningham is not lost sight of. This is all I can do, and it is done very willingly.

Believe me always
Most sincerely yours Derby

re Dr Cuningham:
Vienna Cholera Conference

B.14

Please return
to Miss Nightingale.
