CANYON CREEK.

Porphyry and Iron Hill Claims.--A Promising Country for Prospectors.--A Copper-Gold Belt.

It was with pleasure that we recently paid a visit to Canyon Creek and were agreeably surprised at what we saw there. Lying right at the door of Golden as it were is one of the most promising portions of the district from a mineralogical point of view. The country is practically unexplored as yet and there is no better field for the prospector in East Kootenay than Canyon Creek and its vicinity. The country is open and for the most part readily accessible. Numerous ledges may be seen crossing the country and the formation is eminently favorable to mineral deposits, with its dykes of porphyry and trap. The country rock is for the most part a talcose schist, though we also found felspathic schist and serpentines, while the float along the trail presents strong evidences of a mineralised belt. The sands of Canyon Creek too show prospects of gold along the entire length of the stream and the Messrs. Mitchell-Innes, Messrs. Moody and Estelle, and Mr. D. J. Macdonald hold placer claims along the canyon towards the mouth of the stream.

A trail runs from the Columbia River Lumber Co.'s mill at Golden over the summit to the head of the north fork of Canyon Creek. From the Columbia river to the summit is a distance of five miles and the trail is of comparatively easy grade over this length, to where it crosses the summit, at a point 5000 feet above sea level, or 2,550 feet above the Columbia river. A waggon road can easily be made from the river to the summit. Arrived at the summit the trail runs along the side-hill almost at a level grade, till it reaches the junction of the north and middle forks of Canyon Creek, where there is an unnecessary climb over a hill, whereas the configuration of the country permitted a level trail being made for the entire distance. From the summit can be seen the south fork of Canyon Creek, and at its head, about five miles distant, is the location recently made by A. Maclean, of a very promising outcrop of chalcopyrite, carrying gold, the assays having given something like 30 per cent copper. At the junction of the middle and north forks, and between the two, is the find recently made by H. Estelle. Here there are two claims recorded by the discoverer. The first,

THE PORPHYRY AND IRON HILL,

was located on an outcrop of a lead carrying chalcopyrite, and the Eagle Cliff is an extension on the southern boundary of the former claim. The trail to the property branches off from the north fork trail, and crosses the middle fork above the junction. Here there is an excellent camping ground and feed for horses is abundant during the time when the ground is clear of snow. The point at which the trail crosses the north fork is 100 feet lower than the summit, or 4,900 feet above sea level. A trail has been made by Mr. Estell from the camping ground up to the mine, which is on the hillside facing the middle fork, and at a point 675 feet above the bed of the stream where the trail crosses the north fork, The mine is thus only about 5,500 feet above sea level, and is thus one of the most low lying mines in the district. Timber and water are abundant in the vicinity, and a first class wagon road can be made right to the mine from the Columbia river at comparatively small cost. The lead is in a porphyry dike, running due north and where it is exposed through the dike the lead has a strike of 20 degrees east of north. The dip of the lead appears to be about 48 degrees to the east. The lead has been broken into and exposed at various points over a length of about 200 feet, and at these points ore is shown. Two cuts, 20 and 26 feet in length respectively, have been run along the lead, each presenting a fine showing of ore, and Mr. Estell informs us that he has traced the lead for a distance of 600 feet, and that it shows ore all the way. At the longest cut the lead has been opened for a distance of 12 feet. It is impossible to say what the width of the lead is, as the footwall has not been exposed, but on the hanging wall there is about 4 feet of ore and the lead is exposed for a width of 7 feet. There are about five tons of ore on the dump, and the lead here presents a magnificent showing. The assay of the ore ran 30 per cent. copper with a trace of gold.

In a draw just within the boundary of the Eagle Cliff claim the lead appears to be cut off by a band of slate 100 feet in width, but shows up strongly again on the other side. The property is well situated for mining and is exceedingly convenient for transportation, as mining properties go in the district. Shortly after the discovery the Hon. F. W. Aylmer was so well pleased with the ore that he purchased a half-interest in the discovery claim, and now proposes to put on a force of men with a view to getting out a trial shipment for the smelter.

We wish the owners all success in the development of this property, and trust that it may prove a bonanza to them. Certain it is that this discovery will draw attention to a part of the country hitherto neglected, and that with every prospect of good results being achieved.

Chronic Diarrhoea Cured.

This is to certify that I have had chronic diarrhoea ever since the war. I got so weak I could hardly walk or do anything. One battle of Chamberlain's Colic, Cholera and Diarrhoea Remedy cured me sound and well.
J. R. Ginns, Fincastle, Va.

I had chronic diarrhoea for twelve years. Three bottles of Chamberlain's Colic, Cholera and Diarrhoea Remedy cured me.
S. L. Shaver, Fincastle, Va.

Both Mr. Gibbs and Mr. Shaver are prominent farmers and reside near Fincastle, Va. They procured the remedy from Mr. W. E. Cooper, a druggist of that place, who is well acquainted with them and will vouch for the truth of their statements. For sale by all druggists, Langley & Co., wholesale Agents, Victoria and Vancouver. 521

Economy and Good Government.

To the Editor of THE GOLDEN ERA;

SIR,—In a district like this where so much is needed for development, is it not to be regretted that magistrates have it in their power to put the Province to several hundreds of dollars expense because some poor individual helps himself to a feed of potatoes, an offence which could have been adequately punished by a couple of days labor on the streets or roads round Fort Steele. It is to be hoped that these matters will receive a little attention at the hands of our new and thoroughly practical Attorney-General; and at the same time the new government, whose motto ought to be "Economy and Good Government," would do well by carefully revising the list of officials and seeing that they are in touch with their superiors, and not, as is well known in this district, in direct antagonism, and doing all in their power to discredit the new Government, which every well wisher of the country has helped to bring into power. Yours, etc.,
OLD TIMER.

Golden, Oct. 7th, 1898.

Golden School.

Good Enough to Take.

The finest quality of loaf sugar is used in the manufacture of Chamberlains Cough Remedy and the roots used in its preparation give it a flavor similar to that of maple syrup, making it very pleasant to take. As a medicine for the cure of coughs, colds, la grippe, croup and whooping cough it is unequalled by any other. It always cures, and cures quickly. For sale by all druggists, Langley & Co., wholesale Agents, Victoria and Vancouver. 521

Despatches to the Daily News from Paris say that the peace commission may break up without having arrived at any decision, Senitor Sagasta having ordered the Spanish commissioners not to yield on the question of the Philippines.

A. E. Forget, Indian commissioner, of Winnipeg, has been appointed lieutenant-governor of the Territories, Hon. David Laird will succeed Forget as Indian commissioner.

IN HUMANITY'S CAUSE.

Heart Full of Song Because South American Rheumatic Cure has Healed Her.

"For the benefit of suffering humanity I consider it my duty to inform you of the great and lasting benefit I have received from the use of South American Rheumatic Cure. I was a great sufferer from rheumatism for a number of years—all remedies I tried failed to cure until I commenced to use this wonderful preparation. It worked a great cure. I trust other sufferers may follow my example with as satisfactory results." Mrs Bates, 71 Gloucester Street, Toronto. 512
Sold by C. A. Warren.

Miners! The way for you to succeed is to make known the resources of your camps. The way to do that is to send news of your finds to the GOLDEN ERA. Subscribe yourself to the ERA and send it to your friends. The ERA will tell them all about it better than you can.

ROUND ABOUT THE MINES

T. Goad has shown us some excellent samples of copper ore from the Robin Hood claim at Field, in which he and Mr. Carlin are interested.

In the Hall Mines the experience has been that with depth the yield of copper has diminished. In the case of the Le Roi the condition is exactly the reverse.

Referring to the mica deposit at Tete Jaune Cache, the Winnipeg Free Press says: "This should stimulate the search for other mica deposits in the Rockies, as such mines as these mean fortunes for the lucky finders."

The Mining Record for this month contains a photograph and description of the mineral collection made by F. C. Lang at the Recorder's office at Golden. The Record acknowledges its indebtedness to E. A. Haggen for the photograph and particulars.

Mr. Logan informs us that the development work in connection with the recent copper finds on the Vermont sleigh road, near the Columbia river, has resulted in a much better showing than had been anticipated. W. G. Mitchell-Innes went up to inspect the property the other day.

Mr. Robertson, Provincial Mineralogist, arrived in Golden on Monday, and left for the Donald district on Wednesday. During his tour through East Kootenay Mr. Robertson took in all the country from Steele to Bugaboo. From Carbonate he took in the middle and north forks of the Spillimachene as far as the Crown Point, but owing to the quantity of snow he was unable to examine this mine or the Bennison. He intends to return early in the spring to finish up this part of the district. When at Donald Mr. Robertson will take in the Bald Mountain property. While Mr. Robertson has been pleased with much that he has seen, he is naturally disappointed at the small amount of systematic development work done in the district, and this does not of course give him much field for investigation. Mr. Robertson will make a report to Parliament on what he has seen, and this report will be eagerly looked forward to.

NEWS IN BRIEF.

Navigation is closed on the Yukon.

Colorado Springs, Col., has been partially destroyed by fire.

Snow is reported as having fallen in Boissevain and Deloraine.

Rich gold discoveries are reported from Bear Lake, B.C.

To Indians are reported to have been drowned in Rainy river.

An epidemic of yellow fever is reported from Jacksonville, Florida.

The Crow's Nest railway has been completed as far as Kootenay lake.

The Dominion Alliance will urge upon the Dominion government the enactment of prohibitory legislation.

Hacket beat Johnson of Vancouver quite easily in the boatrace at Rat Portage yesterday.

A Kingston boy stabbed his companion in a dispute yesterday over some nuts.

Wm. Deloraine of Ottawa was yesterday charged with the murder of his wife.

The Canadian Pacific railway have decided to establish a line of steamships between Vancouver and Vladivostock.

It is now believed that a sub committee of the privy council will investigate the charges against Yukon officials.

The arrangements for holding a peace congress based upon the proposals of the Czar of Russia are in progress.

General Kitchener reached Fashoda only just in time to save Marchand the French General from falling into the hands of hostile natives.

Aguinaldo says that the United States government ought to adhere to the Munroe doctrine in its dealing with the Philippines.

It is reported that an understanding has been arrived at between Russia and Great Britian on the Chinese question.

In a drunken brawl at Winnipeg a man named McKay was shot in the leg and it is feared that he will be subjected to amputation of the member.

DOCTORS IN LINE.

Prejudices all Vanish and They Prescribe Dr Agnew's Ointment Because Its Virtues Demand Recognition.

Dr M Barkman, of Binghampton, N.Y., writes: "Send me 12 dozen more of Dr Agnew's Ointment. I prescribe large quantities of it in my practice. It is a grand remedy for tetter, salt rheum, eczema and all skin diseases, and a never-failing cure for piles." The strongest evidence of its virtue is that doctors can so highly recommend it. One application relieves. 542
Sold by C. A. Warren.

RANCHING AT GOLDEN.

R. Love, who runs the first farm on the west side of Golden, informs us that his crops this year have been very satisfactory. He has put up from 35 to 40 tons of oaten hay and about 50 tons of timothy. A crop of two acres of potatoes has also been grown, but as the crop was not irrigated it is somewhat light. Mr. Love's reason for not irrigating is that he was afraid of starting a second growth, but he is more than ever convinced of the desirability of a proper use of the irrigation ditch. The only dairying done on the farm at present is that three cows are kept for home use.

Messrs. Campbell and Robson have gone into dairying, and are supplying the townspeople with milk, the dairy having a capital manager in the person of Mrs. Robson. The dairy is well equipped, and is kept with scrupulous cleanliness. Mrs. Robson intends going in strongly for raising poultry. She has already 100 fowls and has decided on increasing the number to 300. Excellent crops have been grown this season, including an acre and a half of potatoes and swede turnips that will yield at the rate of 30 tons to the acre. About 15 tons each of timothy and oaten hay have been put up. A strawberry patch has been planted out and is doing well. Messrs. Campbell and Robson have also one of the finest crops of cabbages that we have seen in the district. Fruit growing is proving a success on the farm and the apple trees which have come into bearing had a magnificent crop this year, the fruit ripening well and being of excellent flavor.

S. E. Hambly, of the Blaeberry Ranch, has had a very successful season. He had an acre in potatoes and fifteen acres under oats. The former is one of the best crops of potatoes we have seen in the district and the latter has been cut for hay. In addition, between 30 and 40 tons of slough hay have been put up. Mr. Hambly is draining a portion of the ranch, and expects as a result to put up double the quantity of hay hitherto put up. This season a trial crop of wheat was grown and proved a great success. Fine crops of garden stuff have been produced. Strawberries have done well, and in the way of fruit Mr. Hambly had an excellent crop of crabs this season from two-year old trees.

A new settler between Golden and Donald is Mr. Bergipholme, who has taken up a piece of land on this side of Moberly and is busy clearing the homestead site.

THE LAST GASP

Of the Heart Sufferer is not Too Late for Dr Agnew's Cure for the Heart to Cure—Never Fails to Give Relief in 30 Minutes.

One dose of Dr. Agnew's Cure for the Heart relieves the most acute form of heart trouble, when the Grim Reaper has all but counted the sufferer as his. This is not idle boasting. What Dr Agnew's Cure for the Heart has done ten thousand times, it will do again ten thousand times. It absolutely knows no failure. It is not a cure-all, but it is a heart cure. 512
Sold by C. A. Warren

A special despatch from Bombay says: A ferry boat capsized yesterday while crossing the Indus at Nitkund-Kote, a town of the Punjab on the west bank of the river, and that 109 passengers were drowned.

The London Standard says in an editorial this morning that it is convinced that England could confidently reckon on the United States and Japan rendering assistance in the carrying out of the necessary reform measures in China.

NEW HOPE FOR THE DYSPEPTIC.—Dr Von Stan's Pineapple Tablets are the Dyspeptic's haven of rest and cure. They contain no injurious drug or narcotic, won't hurt the most delicate and sensitive stomach, aid digestion, stop fermentation of the food, good for the blood, good for the nerves, good for the brain, make flesh increase, cure the stomach. 35 cents. 542

The Golden Era

FRIDAY, OCTOBER 7, 1898.

THE GOLDEN ERA AIR LINE.

The railway along the Columbia Valley from the American boundary to the Yukon is fast taking shape. When the GOLDEN ERA began advocating this line last year it was pooh-poohed by many of our contemporaries, who jokingly called it "The Golden Era Air Line" and the name has stuck to it since. The line is now one of the topics of the day among London investors, as will be seen from the following excerpt from a Rossland paper of a letter from London dated Sept. 9th: "We still live in the quietest of times and not even the accepted fact that fully $15,000,000 will come out of the Yukon this season has stirred the public. It is expected that a good deal more has been gathered but the royalty is causing hoarding and we cannot hope to get at the true figures. I learn this afternoon that the C.P.R. will restore passenger rates at competitive points on September 25. It is evident that the company has been compelled to give in. Moreover its monopoly in Kootenay has been threatened, for a new line from Fort Steele to the Upper Columbia river is sufficiently advanced (that is the plans, etc.) for London promoters to talk about it."

The Nelson Economist revives the story that Mr. Bostock is to lead the Liberal party in British Columbia in the event of an election on party lines. This is evidently a canard. Mr. Bostock was asked by Liberals all over the Province to come forward as the leader of the the party at the late election, and while he would always be willing to sacrifice his own interests in the public good, it was considered by his friends that he was doing such excellent service where he was that it would be a mistake to abandon federal for Provincial politics. That view determined Mr. Bostock to remain where he is, and at the present time he has no intention of entering Provincial politics.

The new Dominion franchise law promised before the last election is now in existence and, in addition to saving the country $200,000 a year in revision expenses, it may be relied upon to give a fair opportunity to the electorate to pronounce their unbiased opinion, which is all that any Liberal Government has ever desired.

There is considerable sensation in diplomatic circles over the report that the Emperor of China has been murdered because he was going in for reforms.

His Life Was Saved.

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverence from a frightful death. In telling it he says; "I was taken with *Tyhoid Fever, that ran into Pneumonia.* My lungs became hardened I was so weak I couldn't sit up in bed. Nothing helped me. I expected to soon die of Consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and now am well and strong. I can't say too much in its praise." This marvellous medicine is the surest quickest cure in the world for all Throat and *Lung Trouble. 50 cents and $1.00,* at any Drug Store: every bottle guaranteed.

No Right to Ugliness.

The woman who is lovely in face form and temper will always have friends but one who would be attractive must keep her health. If she is weak sickly and all run down she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and a wretched complexion. Electric Bitters is the best medicine in the world to regulate stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion, It will make a good-looking, charming woman of a run down invalid. Only 50 cents at any Drug Store.

Says the Lillooet Prospector: "According to the statement of the Hon. Jos. Martin, attorney-general, in an interview at Winnipeg, the provincial house would not meet before the end of January. Quite a few government employees have been dismissed from the service and probably a few more will go shortly. There is no doubt but what a number of employees needed it. Competent men will hold their positions in all probability."

The Winnipeg Tribune says of the Hon. Jos. Martin's visit to the East: "The unexpected application of Hon. Joseph Martin to have the Yukon district brought under the jurisdiction of British Columbia offers an effective although hitherto unthought of, solution of the Yukon problem. The career of Mr. Martin as an administrator in Manitoba is an earnest that no man would be appointed by him to an office, merely because he should happen to be a useful heeler, and election "worker," or a dangerous and troublesome "white elephant." We would pledge our reputation for sound judgment that if Mr. Martin had control of the Yukon administration, official and other scandals would quickly die out."

Volcanic Eruptions.

Are grand, but Skin Eruptions rob life of joy. Bucklen's Arnica Salve, cures them, also Old, Running and Fever Sores, Ulcers, Boils, Felons, Corns, Warts, Cuts, Bruises Burns, Scalds, Chapped Hands, Chilblains. Best Pile Cure on earth. Drives out Pains and Aches. Only 25 cts. a box. Cure guaranteed. Sold by all Druggists.

The Hon. J. Fred Hume, Minister of Mines, has issued instructions barring Gold Commissioners, Mining Recorders and their employees from dealing in mineral claims of any sort. The only condition under which an exception will be allowed is in the case of mineral properties already owned by the officials to be affected by the new rule. The officials affected by the new ruling will not be permitted to hold miners' licenses except to protect the properties they already have at the time the ruling went into effect. Gold Commissioners will not be permitted in future to act on the affairs of any Company in which they, or any of their employees, hold shares. This will prevent a repetition of the complaint made at Windermere last year.

There is implanted in every man a love of life strong enough to make him tremble and kneel before death when he thoroughly recognizes its approach. The trouble with men is that they do not recognize death unless it comes in some violent or rapid form. Consumption kills more men than wars, famines, plagues and accidents, but its approach is insidious, and men do not realize that they are in its clutch. While consumption is a germ disease, the bacilli will not invade sound and healthy lungs. The lungs must first be in a diseased condition.

First a man feels a little out of sorts. *Probably he is overworked and has given* too little time to eating, sleeping and resting. His appetite falls off. His digestion gets out of order and his blood does not receive the proper amount of life-giving nutriment. The liver becomes torpid and the blood is filled with impurities. These are pumped into every organ of the body, building up unhealthy, half-dead tissues. The most harm is done at the weakest spot, and most frequently that spot is in the lungs. A slight cold leads to inflammation, the bacilli invade the lungs and we have a case of consumption.

Ninety-eight per cent. of all cases of consumption are cured by Dr. Pierce's Golden Medical Discovery. It is the great blood-maker and flesh-builder. It restores the lost appetite, makes the digestion perfect, invigorates the liver, purifies the blood, builds new and healthy flesh and drives out all impurities and disease germs. It cures weak lungs, spitting of blood, obstinate coughs and kindred ailments. No honest druggist will recommend a substitute.

Mrs. Ursula Dunham, of Sistersville, Tyler Co., W. Va., writes: "I had a pain in my side all the time, had but little appetite and grew very thin. The 'Golden Medical Discovery' promptly cured the pain, restored my appetite and increased my weight."

Paine's Celery Compound Saves a Life after failures with other medicines.

Mr. McMullin says: "Paine's Celery Compound Worked Miracles for Me."

The only safe Medicine for Sick and Diseased People.

WELLS & RICHARDSON CO.

Gentlemen:—For over four years I have been in poor health, and received treatment from two doctors besides using seven kinds of patent medicines. I also sent to New York and got a month's treatment of a special medicine but no good results came from it. I was run down, suffered terribly, could not rest at night, and every morning had a severe pain in my back, dizziness in my head, and vomited bitter green matter, and I had no appetite. I heard of Paine's Celery Compound and decided to give it a trial, and am happy to report that it worked wonders. The pains are all gone, I rest well at night, my appetite is good, and my health is now splendid. Paine's Celery Compound has worked miracles for me. I recommend it to all sick people as the best medicine.

ROBT. McMULLIN,
544 Camden, N. S.

THE SANITARY CONDITION OF GOLDEN.

Report by Captain Wolley.

Last year Captain Wolley visited Golden for the purpose of reporting on the sanitary state of the town. The following is his report:

Golden, with a population of about 600, is located at the entrance of Kicking Horse Pass, on the river of the same name. This river divides the town into East and West Golden. It is about 350 feet wide with an average depth of about two and a half feet, and at the town runs with a rapidity of about five miles per hour. It is a mountain stream with low banks, which in the spring time are submerged. It empties into the Columbia river about a mile below the town. Except in spring the water is clear and fit for domestic pureoses.

The Rocky Mountains foothills rise on the north side of the town, while between these and the Selkirks on the south is a level stretch of about a mile through which runs the Kicking Horse and Columbia rivers. This bottom, an old river bed, is sandy and gravelly. Golden West lies on the south side of the Kicking Horse river, between it and the Columbia River, and contains what is called the Government townsite.

During high water this portion is flooded to a large extent, remaining in that condition for about three weeks. The soil, however, soon becomes dry on the recession of the water, and no bog spots are left.

Golden East, between the Kicking Horse and the foothills, contains about half of the population and is the business portion of the town.

The soil also is gravelly and stoney with sand, while about 15 feet below the surface hard pan is found. A dyke built by the Government along the river bank prevents this portion of the town from being flooded. During the summer months the temperature is high, but cool at nights, while no low damp soil is found in the neighbourhood. In winter the thermometer drops to 35 or 40 below zero at times, while the average depth of snow is about three feet.

The use of privy pits in both divisions of the town is generally in vogue. There are but two exceptions, the Hospital, which is under Dr. Norman Taylor's charge, and one private house. These use dry earth closets. The privy pits were said to have been cleaned out during the spring, the sewage matter having been taken and spread on a piece of waste land about three quarters of a mile below the town.

Garbage, slops and sink water are thrown, some into privy pits, some into the river, and some on the soil in the neighbourhood of the houses. The space between the above mentioned dyke, which is 500 feet long and five feet high from low water, and the river bank is the receptacle for refuse, manure, etc., from the neighboring houses, and from there pollutes the water of the river. Soakage from privy pits also contaminates the water of the river.

The water supply is almost wholly obtained from wells which have an average depth of 20 feet, while in many places privy pits are contiguous.

Under such conditions, with such a soil, I cannot therefore see how contamination of drinking water can be avoided and thus jeopardize the health of the people.

The inhabitants of this town, like those of many others similarly situated at high elevations owe very much to the dry pure air for their immunity from disease.

Dr. Taylor reported an epidemic of diphtheria about three years ago, consisting of four cases, all save one being imported. These were treated in an isolated hospital—the old Government building—the exceptional case being the nurse who contracted the disease while attending other patients.

The Hospital also received a typhoid fever case from up the line on the C.P.R.

With such a water supply, and the common use of privy pits and the present methods of disposal of refuse and liquid wastes, all that Golden needs is an imported case of typhoid to originate a serious epidemic. Diphtheria at any time may make its appearance.

This is a place in which an active Sanitary Inspector is greatly needed, and I do not believe any improvement will be made until such an officer is appointed.

A report should be made by a competent engineer as to the best method to be adopted for a water supply.

The Government Agent being absent I carefully went over the Sanitary regulations with Dr. Taylor, and strongly urged that they be put into effect, dry earth closets to be at once introduced.

There is but one slaughter-house, situated about 250 yards from the buildings in the town.

On an average, eight head of cattle per week are slaughtered, the entrails being fed to hogs or thrown into the river.

It was reported to me that neither the building nor its surroundings were kept in a clean condition, in the hot weather the mal odor being very pronounced. This matter should receive the immediate attention of the Government Agent.

The cemetery is about two acres in extent, and is situated about a half a mile from the town, on a high sloping ground of gravel. The average number of burials is about 5 per annum, of which no record is kept.

There were eight cases of typhoid, it was said, within the period of four years, all of which came from outside places. I visited the Golden Lumber Co.'s Mills with Dr. Taylor, the surgeon. There are about 75 men employed. The manager, Mr. Carlin, and Dr. Taylor were busy perfecting the sanitary arrangements in connection with the premises of the employees.

The plebiscite just taken throughout Canada on the prohibitory question has resulted in a majority of 40,000 to 50,000 declaring in favor of prohibitory law. There was a majority in favor of prohibition in every Province excepting Quebec. Nova Scotia gave a majority of 17,500; Manitoba a majority of 10,000; New Brunswick 15,000, Ontario 5000, and British Columbia a majority of 500. All the large cities, excepting St. Sohn, Halifax, and Winnipeg gave majorities against prohibition.

Feathers to Stockings.

Economical Suggestions for Women and Girls.

The hat and bonnet, with its trimmings of feathers, ribbons or velvet, the silk neck scarf and tie, the cape, jacket, blouse, waist, skirt, sash and stockings, are all outward articles of feminine attire costing considerable money, and demand close attention, so that daily neatness and good taste be maintained from day to day.

When articles of everyday wear such as we have mentioned become faded and dingy, they are usually cast aside by the inexperienced and careless, who forget that the garments are still whole and yet serviceable. A few economical suggestions at this time will be useful.

Thrifty, wise and economical women and girls know just what to do when confronted with such a problem. They have a full knowledge of what can be done with the wonderful Diamond Dyes, those marvellous money savers, and they act accordingly. They use Fast Black Diamond Dyes prepared specially for feathers, which give a deep, rich and lasting black, makes the feathers equal to new ones. Their dull and lifeless silk ties, scarfs, sashes and gloves are quickly made new creations by the Diamond Dyes. The faded jacket, cape, blouse, skirt and stockings are magically transformed to suit the taste of the wearer.

Wise women know well that failures are impossible when the popular Diamond Dyes are used, as the manufacturers provide a special black dye for feathers, and special dyes for silk, wool and cotton, and for every make of mixed or union goods. 545

Alpine Guides for the Rockies.

Mountaineering is undoubtedly to be one of Canada's national sports. Nowhere can the superb mountain scenery of British Columbia be surpassed, in fact in the Himalayas alone may it be rivalled. Each summer an increased number of United States, European, Asiatic and Australian tourists visit Banff, Glacier House, North Bend and other points of interest along the C. P.R., and an ever growing proportion of them climb some of the peaks adjacent to the railway. The company has realized this, and to encourage climbers to "bag" peaks they could not otherwise hope to scale, has sent an official to Switzerland to secure Alpine guides, who will be brought to Canada and established at points in the Rockies and Selkirks.

RICH MICA DEPOSITS.

Golden Era Air Line Produces the Best grade Ever Found.

S. Winter, a stove and furnace manufacturer, of Moncton, New Brunswick, has returned from a trip to north-eastern Cariboo, whither he went to examine some extensive mica deposits. Starting from Kamloops he went to Tete Jaune Cache, a point more than 200 miles north of Kamloops, and situated between the Fraser and Columbia rivers. He found the deposits to be from 40 to 80 feet thick and brought out more than 600lbs. of specimens. These samples are of excellent quality, being very transparent and of unusual size. Careful tests show it can stand greater heat by 40 volts more than any other mica yet tested. Tested for transparency it is whiter than the best North Carolina, Wyoming and Montana mica. Mr. Winter has bonded the property and will probably form a company to develop it.

Bismark's Iron Nerve.

Was the result of his splendid health. Indomitable will and tremendous energy are not found where Stomach, Liver, Kidneys and Bowls are out of order. If you wan't these qualities and the success they bring, use Dr. King's New Life Pills. They develop every power of brain and body. Only 25 cents at any Drug Store.

AN ENTERPRISING GOVERNMENT.

Hon. Joseph Martin's Proposals.

An eastern telegram says:—The Hon. Joseph Martin has gone west again apparently well satisfied with the result of his representaions to the Canadian commissioners. He discussed at length every issue in which British Columbia is interested. He also had a private conference with Lord Herschell.

But Mr. Martin had another mission. He formally made application, on behalf of his government, to the federal government for the transfee of the Yukon or Klondike to the territorial sovereignty of British Columbia. There is not, however, much reason to belive that this proposition will be acceptable to the government or to the people, although he says that British Columbia would abolish the royalties.

A TRAGIC STORY,

Party of Klondikers Disappear.

A man who has come out from the far north tells the following story of a missing party:—"A party of seven men left Los Angeles, Cal., last fall intending to go over the Canadian Pacific Railway to Edmonton and then to head for Dawson City by the much-talked-of overland route. They picked up five more prospectors on the road and the 12 men with a band of 60 horses well loaded with provisions, clothing and feed, left Edmonton together for their long and perilous journey. They struck the Mackenzie river in safety and loaded their belongings on the barges there for hire. They reached the Porecupine river, but at the point on that river from which the portage is made to Forty-Mile river all traces of them disappeared. Whether they were drowned on the Forty-Mile river, starved or frozen, I nor no man else can say. It is one of the many mysteries of the vast frozen solitudes of the great north land.

LOCAL AND GENERAL.

President Sir William Van Horne is on his western tour over the C. P. R.

The Chinese factions at Victoria are at war.

A Chinese cook at Vancouver attempted to stab his mistress.

A sitting of the County Court will be held at Donald about the 20th inst.

P. Genelle intends erecting 38 cottages at Revelstoke to accommodate the railway employes.

J. Grier, formerly of Golden, has started business as builder and contractor at Cranbrook.

Ven. Archdeacon and Mrs. McKay are at present guests of Mr. and Mrs. S. E. Hamby at Blaeberry Ranch.

Archdeacon McKay has determined that he will not now return to the Yukon till the spring.

Further reports of destrctive forest fires are coming in from Wisconsin and Colorado.

Terrible fires have been experienced in Minnesota and Wisconsin, towns being wiped out, farm homesteads burned, lumber mills devastated, and children roasted alive.

In St. Paul's Church, Golden, Sunday next, Oct. 9th, will be observed as the Harvest Festival Day. The services will be at 11 a.m. Morning Prayer and celebration of the Holy Communion, at 7:30 p.m. Evening Prayer and sermon.

Two accidents occured on the C.P.R. at Kamloops last week. A mining man named A. Hicks had his right arm amputated by falling beneath the wheels, while an emyloyee named Aitkins had his right leg fractured and his left ankle and shoulder dislocated from a similar mishap.

The pain of a burn or scald is almost instantly relieved by applying Chamberlain's Pain Balm. It also heals the injured parts more quickly than any other treatment, and without the burn is very severe does not leave a scar. For sale by all druggists, Langley & Co, wholesale Agents Victoria and Vancouver. 521

We congratulate the Vancouver World on having reached its tenth birthday. While we have frequent occasion to dissent from the views of the World, that does not blind us to the fact that our contempory is conducted in an able and enterprising manner, and that it has done much for Vancouver, and for the mainland generally. The World is always up to date and as a newspaper is hard to beat.

Mrs. Lake commenced business last week in the premises lately occupied by J. McMillan. The stock consits of an excellent assortment of ladies' hats and bonnets, millinery, ladies, and children's clothing, of the latest and choicest styles and designs. With her extensive experience in this business Mrs. Lake is in a position to fit out the ladies of Golden and district in the most approved style.

The Harvest Home services in the Presbyterian Church last Sunday were well attended both morning and evening. The church was tasetfully decorated with flowers, vegetables and grain, kindly furnished by members of the congregation for the occasion, while on the wall appeared the mottoes: "Thanks Unto God," and "Harvest Home." In the morning Rev. Mr. Wright preached a sermon appropriate to the occasion, and in the evening a song service was held, suitable music being rendered by the choir.

A correspondent writes that the other day a would-be sport hied out from Golden to make slaughter amongst the feathered tribe on the river. He plodded on without seeing anything to shoot till suddenly he came upon a lot of decoys that a well-known local sport had laid in one of the sloughs. Reckoning that he had struck a bag at last, the sport crawled cautiously along, so as to avoid disturbing his quarry, and when he got pretty close he opened fire, making a record that has not been beaten in Golden, for as not a duck rose the sport concluded he had killed every one on the spot and proceeded to wade into the water to bag his game when, to his disgust, he found that he had spent his shot on his neighbor's lifeless decoys.

When they put a man in jail, he cannot follow is natural inclinations. He cannot eat what he wants to—he is limited to a very frugal diet. Is it not equally true of a dyspeptic? For all of the real enjoyment he gets out of life, he might as well be in jail. He cannot eat what he likes, nor enough. He suffers much, gets little sympathy. At first perhaps a little heaviness in the stomach, a little sourness, windy belchings and heartburn; headaches and billousness and a foul taste in the mouth in the morning. Chronic constipation is almost inevitable, and means that the body is holding poisonous, impure matter that should be gotten rid of. The poison is being re-absorbed into the whole blood and the whole body. Impurity in the blood may lead to almost any disease. Constipation, is the start of all. Dr. Pierce's Pleasant Pellets cure constipation, cure it so it stays cured. No other remedy in the world will do that.

Send 31 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 1008 page COMMON SENSE MEDICAL ADVISER, illustrated. 543

Vigorous Old Age.

MR WM ELLIOTT TELLS HOW TO OBTAIN IT.

He has been Subject to Fainting Spells and Cramps--Was gradually growing Weaker and Weaker.

From the Echo, Plattesville, Ont.

Dr. Williams' Pink Pills have attained a most enviable reputation in this community. Probably no other medicine has had such a large and increasing sale here. The reason is that this medicine cures. Old and young alike are benefitted by its use. Recently we printed an account of a remarkable cure of a well known lady of this place through the agency of Dr. Williams' Pink Pills, and since publishing that we have heard of another similar case. Mr. Wm. Elliott, a farmer living near Bright, is a well known figure there. Although an old man he almost daily walks to the village, a distance of nearly a mile, for his mail. Many years ago he came from Scotland to the farm on which he now lives and cleared it of forest. In conversation with him, he related to an Echo reporter the following: "I am 78 years of age and strong and healthy for an old man. Mine has been a vigorous constitution and up till six years ago I hardly knew what it was to have a day's illness. But then my health began to fail. I became subject to cramps in the stomach. I was treated by doctors but received no benefit. I gradually grew weaker and as I was past the three score and ten I thought my time had come. Next I took fainting fits and often I would have to be carried back to the house entirely helpless. The doctors said my trouble was general weakness due to old age and advised me to carry some stimulant with me to use when I felt a faintness coming on, but this I refused to do. I had read in the papers of Dr. Williams' Pink Pills and thought they would be specially adapted to my case. I tried one box but they did not seem to help me. In fact I though I felt worse. I decided to continue them, however, and after taking four boxes there was a marked improvement. My strength returned and I was no longer troubled with fainting spells. In six months time with this treatment I gained fifteen pounds, taking in all eight boxes of the Pills. To day I am a well man and I owe my complete recovery to Dr. Williams' Pink Pills."

These pills cure not by purging the system as do ordinary medicines, but by enriching the blood and strengthening the nerves. They cure rheumatism, sciatica, locomotor ataxia, paralysis, heart troubles, erysipelas and all forms of weakness. Ladies will find them an unrivalled medicine for all ailments peculiar to the sex; restoring health and vigor, and bringing a rosy glow to pale and sallow cheeksr There is no other medicine "just as good." See that the full name, Dr. Williams' Pink Pills for Pale People, is on every package you buy. If your dealer does not have them, they will be sent post paid at 50 cents a box, or six boxes for $2.50, by addressing the Dr. Williams' Medicine Co., Brockville, Ont, or Schenectady, New York, 546

Hutchison--Bielby.

A quiet little wedding took place at the residence of R. P. Pettipiece, Second St., last Monday evening at 8 o'clock, when Rev. S. J. Thompson united in the holy bonds of matrimony, Robt. Hutchison of Golden, to Miss Alice Bielby of Fletcher, Idaho, sister of Mrs. R. P. Pettipiece. The bride was prettily attired in a combination of cream satin duchesse and batiste with ruche of mousseline de sail, outlined by machlin insertion, the bridal costume being made by Miss Austin. Miss L. E Pettipiece was bridesmaid, while W. Brennan acted as groomsman. After the ceremony was over a few intimate friends sat down to a sumptuous wedding dinner, and a pleasant evening was spent by those present.—Revelstoke Herald.

Mrs. Lake

begs to announce to the ladies of Golden that she has begun business as MILLINER in the premises lately occupied by J. McMillan, opposite G. B. McDermot's store. Selected stock of the newest styles in HATS & TRIMMINGS. Choice lot of Ladies Under clothing. Children's clothing made.

INSPECTION INVITED.

THE CHANCE OF YOUR LIFE.

"The Family Herald And Weekly Star,"

OF MONTREAL,

—: AND :—

"The Golden Era,"

for the balance of 1898 for only 25cts.

To New Subscribers.

This is the best short term subscription rate ever offered. The publishers of the "Family Herald and Weekly Star" have been induced to make this offer, in order that the improvements in that wonderful paper might be more generally known. It is a marvel of cheapness.

THE GOLDEN ERA will supply you with all the local news and the "FAMILY HERALD AND WEEKLY STAR" will supply you with 20 pages every week of the most valuable and instructive reading matter, including the general news of the whole world. A marvel of excellence, and to say that its subscription price is low does not do it justice, for it is of such extraordinary value that it looks as if it were given away. The "Family Herald and Weekly Star" is the world's great newspaper success of the age.

SUBSCRIBE NOW.—This offer is good until October 10th, and is for NEW subscribers only.

The Leading Specialists of America

20 Years in Detroit.

250,000 Cured.

WE CURE STRICTURE

Thousands of young and middle-aged men are troubled with this disease—many unconsciously. They may have a smarting sensation, small, twisting stream, sharp cutting pains at times, slight discharge, difficulty in commencing, weak organs, emissions, and all the symptoms of nervous debility—they have STRICTURE. Don't let doctors experiment on you, by cutting, stretching, or tearing you. This will not cure you, as it will return. Our NEW METHOD TREATMENT absorbs the stricture tissue; hence removes the stricture permanently. It can never return. No pain, no suffering, no detention from business by our method. The sexual organs are strengthened. The nerves are invigorated, and the bliss of manhood returns.

WE CURE GLEET

Thousands of young and middle-aged men are having their sexual vigor and vitality continually sapped by this disease. They are frequently unconscious of the cause of these symptoms. General Weakness, Unnatural Discharges, Failing Manhood, Nervousness, Poor Memory, Irritability, at times Smarting Sensation, Sunken Eyes, with dark circles, Weak Back, General Depression, Lack of Ambition, Varicocele, Shrunken Parts, etc. GLEET and STRICTURE may be the cause. Don't consult family doctors, as they have no experience in these special diseases—don't allow Quacks to experiment on you. Consult Specialists, who have made a life study of Diseases of Men and Women. Our NEW METHOD TREATMENT will positively cure you. One thousand dollars for a case we accept for treatment and cannot cure. Terms moderate for a cure.

CURES GUARANTEED

We treat and cure: EMISSIONS, VARICOCELE, SYPHILIS, GLEET, STRICTURE, IMPOTENCY, SECRET DRAINS, UNNATURAL DISCHARGES, KIDNEY and BLADDER Diseases. CONSULTATION FREE. BOOKS FREE. If unable to call, write for QUESTION BLANK for HOME TREATMENT.

Nimble as a School Boy!

Ninety-nine Cases in a Hundred that is the Hearty Verdict for South American Rheumatic Cure.

Rheumatism is a dangerous disease—while stiffened joints and muscles—incessant intermittent pains in these parts are the common forms of this so common ailment—in its more acute forms it often attacks vital parts—such as the heart and brain with fatal results—unexpectedly so in many cases—and where death does not follow, the patient is liable to derangements which are absolutely incurable. No case of Rheumatism of too long standing to succumb to this wonderful treatment—the Great South American Rheumatic Cure. It is simple and harmless—relieves the pain and dispels the cause—Cures muscular, acute, chronic or inflammatory rheumatism, neuralgia and lumbago in from one to three days—it's an unfailing specific. Mr. J. D. McLeod, of Leith, Ont., says: "For seven years I suffered agonies from rheumatism. I was confined to my bed for months at a time. I was unable to turn myself in bed. I was induced to try South American Rheumatic Cure. Inside of 12 hours after I had taken the first dose the pain had all left me—three bottles cured me—and to-day I am as nimble as a school boy."

SOUTH AMERICAN KIDNEY CURE—The answer of science to the cry of the suffering—pre-eminent as a purifier—rich in healing is the every day testimony for this great remedy—it is a kidney specific—it dissolves and eradicates from the system all foreign matter—allays inflammation and pains in the bladder—relieves most distressing kidney and bladder disorders—Bright's disease—diabetes—gravel stone—dropsy and kindred ailments—relief in a few hours in most distressing cases—volumes of testimony.

SOUTH AMERICAN NERVINE—Cures diseases by removing the cause—tones the nerves—cures debility—creates healthy appetite—stimulates digestion—invigorates the liver—makes good, rich blood—gives strength to the muscles and steadiness to the hands—corrects the whole system and wards off disease—the greatest of tonics—a flesh builder—a perfect regulator—a boon to mankind and womankind.
