SUPREME COURT

The Fall Sitting Opened at Donald on Monday, October 25th--Two Cases Against one Man--A Light Sentence.

(Before His Lordship Judge McColl.)

The quarterly assize of the Supreme Court was held at Donald as above.

The following were sworn in as the Grand Jury: J. Hart, J. McGinnis, T. Baker, T. Forrest, W. S. Ruttan, J. Edwards, J. Lee, C. Baines, A. E. Colpitts, W. A. Walker, J. McRae, W. Newman, J. Gilmour, S. H. Bolton. Mr. Baker was elected foreman.

CHARGE TO THE JURY.

His Lordship said there were only two cases to be heard against a man named John Vandell, who was a prisoner and attempted to break away, and while doing so he rather seriously assaulted some of the officials. They would have to enquire into this matter and if they found there was a charge to come before the Petty Jury they would bring in a true bill.

The Grand Jury later returned a true bill against the prisoner Vandell on both charges. The jury delivered the following presentment:

PRESENTMENT

We the Grand Jury, take this opportunity of welcoming Your Lordship to Donald once more and also to congratulate you on the lightness of the docket at this session of the Court of Assizes

We beg to inform Your Lordship that we have, according to custom, inspected the Donald gaol and the premises thereto, and found them in excellent condition.

We find that its a matter of congratulation to all to know that our district is so orderly and so ably administered.

His Lordship thanked the jury for their kind references to himself and said he would forward the presentment to the proper quarter.

ATTEMPT TO BREAK PRISON.

John Vandell was charged with having broken prison at Golden.

Accused pleaded "not guilty"

The following common jury was empannelled:

H. Parson, A. S. Vye, T. H. Dunn, J. Lansdell, W. Clarke, F. Whaley, H. Williams, M. Otto, J. Jonergan, J. Cullen, T. Brundett, H. R. Moodie and W. Avery were challenged and had to stand aside.

T. H. Dunne was elected foreman.

Mr White, as Crown Prosecutor, explained to the jury the circumstances of the case and called the following witnesses:

F. C. Lang, constable, gave evidence as to sending out W. C. Miller as special constable to McLaughlin's camp to arrest accused on a warrant. Prisoner was brought in and asked for bail. Witness promised to ask Mr. Warren, J.P. to come down when he sent his supper. He did so and on Mr. Warren coming in accused gave him a number of names. Mr. Warren, not approving these, told prisoner he would stop there. Witness asked him several times to return to his cell, but he replied he was going to get out, and came forward. Witness, who had him by the collar, tripped him on the corridor to put him back. Prisoner then jumped up and struck witness in the face. He then attacked Mr. Warren and apparently endeavored to choke him. Witness then struck accused with his batton. Mr. Warren called to witness to strike him on the head, which witness did. Prisoner struck at witness, and getting his head down tried to chew his neck with his teeth. Witness got clear. Prisoner then said he would show what clubbing was, and made for the woodpile. Prisoner picked up a chair, but witness managed to trip him, and he and Mr. Warren held him down. They endeavored to put the prisoner back in his cell, but in their endeavor to do so broke the bar of the door. They had to leave him there and locked the outer door. Prisoner had evidently been under the influence of drink.

Prisoner: Did I try to hit you?

Witness: Yes.

Prisoner: Did I try to break goal?

Witness: Yes, as I have described it.

C. A. Warren said he was a Justice of the Peace and went to the goal to see the prisoner about bail. Prisoner gave him three names which he did not consider sufficient. Prisoner said he was going up town to see these people himself. Witness told him he could not do that. Witness turned away, and the next thing he knew was that the prisoner was on the ground. Prisoner then got witness behind the door and he called on the constable to hit him. Prisoner subsequently struck and kicked at witness, but did not hit him. Prisoner got down and they held him there, and tried to place him in a cell, but could not manage it. They then shut the outer door and left him there.

To His Lordship: Prisoner had been in the prison about half an hour when this occurred.

Prisoner said he was arrested by Mr. Miller, who told him he would get bail, and then appear before the court and be fined. He wanted to see Mr. Warren about it as he passed the store, but meeting Mr. Lang there he insisted on his going down to the lock-up. He had been drinking but knew what he was doing. Lang came down with Warren a short time after. They opened the door, called him up, and he stood with his back against the wall. He talked to Mr Warren about getting bail. He asked Mr. Warren how much bail he wanted and he replied $200. Prisoner said if they would loosen him up he would get it. He gave Mr. Warren several names and he said they were not reliable enough. Prisoner then asked to go up to see these people but they told him that he must stop there. Lang tried to choke him, and then he hit him, and hard too. The next thing was another man got hold of him and he was hit on the head with a club. He made a couple of kicks at Warren. He got another blow with a club which sent him staggering. To stop himself he caught a chair, when he got another blow. They both jumped on him and held him till he got his senses. He was hit again and knocked into the cell. He put his feet into the door. They pressed the door against him and they could not get his feet out. They clubbed him on the feet. He had no more intention of breaking goal than he had of breaking from there that day. He knew he was going to get it hot there. If he had wanted to get out of the goal he could have walked out of it, but he did not want to go out of this country as he was making good money here.

The Crown Prosecutor said that even if they did not find him guilty of breaking goal, they must at least find him guilty of an attempt to do so. Accused from his own statements brought this trouble on himself. The constable did nothing more than he was called upon to do.

His Lordship said this was a very simple case. It was an offence for a man to break goal. It would be a very difficult thing to get constables if every constable was to be exposed to assault without the protection of of the law. They had heard the story of Lang, who occupied the important position of Recorder, and also of the Justice and the prisoner and it was for them to say which they believed. If they believed Lang and Warren the prisoner attempted to get out and was reckless as to the means he adopted. It was a miraculous thing that neither of these men was killed, and it was very fortunate that none of these men had been injured more. That prisoner assaulted these two men there was no doubt. The only reason appeared to be that prisoner was angry with Warren for not accepting the sureties offered. He had been drinking but admitted that he knew what he was about. It was not Mr. Warren's duty to go there at all, but a kindness on his part. The proper course when a man was arrested, was to hold him till he could be brought before a magistrate, so that he did not seem to have any reason for conjuring up a grievance against Warren. The law required a Justice not to accept bail unless he was satisfied that the sureties were good enough for the money. They found a very serious assault on the magistrate and on the constable and the only reason that had been suggested for this was that it was brought about by the desire of the prisoner to escape.

The jury after a brief retirement, brought in a verdict of "not guilty."

ASSAULTING THE POLICE.

J. Vandell was then charged with having assaulted F. C. Lang as a constable while in the execution of his duty.

The following jury was empanelled: P. Hooley, W. Lynes, H. W. Caldwell, R. Davis, J. Jarnagan, R. Bookhout, W. Williams, W. A. Brown, J. Shaw, J. H. Lyons, J. Atkinson, and J. Nelson. W. Caldwell was appointed foreman.

W. Avery, H. R. Moodie, F. Jaynes, A. Grainger and C. E. Hamilton were challenged by the Crown.

Prisoner pleaded "not guilty."

F. C. Lang gave evidence similar to that in the previous case.

To the Crown Prosecutor: Witness bled very much from the wounds inflicted.

To the foreman: The prisoner was under the influence of liquor.

To His Lordship: The prisoner knew perfectly what he was about.

C. A. Warren also gave similar evidence to that in the former case. He saw the blood streaming down Mr. Lang's face and remarked to him "you are bleeding like a pig."

To the foreman: Prisoner struck at me but did not hit me. I saw him strike at Mr. Lang but did not see him hit him.

To His Lordship: There was no way in which Mr. Lang could have been injured except by blows from the prisoner.

Prisoner also made a similar statement to his previous one, but said he hit Lang only once and that they tried to kill him.

The Crown Prosecutor then addressed the jury.

His Lordship summed up. He said it was the duty of a constable to resist an attempt at escape by force, and if force was used he was bound to use force to retain a prisoner, and even to kill if necessary. He considered

Continued on page 4.

ROUND ABOUT THE MINES

Mr. Mitchell-Innes is getting out half a ton of ore from the pretty Girl claim on Horse Thief Creek for a smelter test.

The Alberta and Kootenay Company have closed down work on their Copper Creek properties for the winter months. The tunnel is now in 64 feet.

The Bald Mountain Company evidently intend pushing on development work during the winter. They have arranged to put in three month's supplies.

E. Kenny has now driven 30 feet into the lead on the Bald Mountain Co's property and is not yet through it. He says it is the biggist thing in the country.

On Monday Mr. Keyser completed a deal whereby he purchased from Hon. F. W. Aylmer and J. White their interest in the Ellen D. claim in Cariboo Basin.

Owing to the snow Mr Lindsay was unable to examine the Bluewater claims bonded by Mr. Knowlton, but it is the intention to start development work as soon as the snow goes off in the spring.

A petition has been prepared asking the Provincial Government to build a wagon road up the Beaver Valley so as to give a means of access to the mining locations in that part of the country. With a good road several of the properties up the valley would be worked. The petition lies at the ERA office for signature.

The only record made at Donald lately is the bond over the Bluewater claims, by which T. Knowlton, in consideration of 9/16 interest, undertakes to spend $2 500 in development work on the Little Brother, Akela and Mowgli claims the property of Messrs. Moodie, Conner, and Dr. Taylor; also an agreement giving Mr. Lindsay one sixteenth interest in the said claims, and the transfer of such interest to T. Knowlton.

The following new claims are recorded at Goldon: Oct. 25th, Roberta, by H. Moodie, on Haskin's Creek; Ottertail; 26th, Bermondsey, by A. St-G. Hammersley on No. 2 Creek; Southwark, same locality by the London and Vancouver Development Company; 27th, Laura, by H. Estell and C. Hatch, at Ottertail; Columbia, Kootenay and Dominion, by C. E. Hamilton, W. Clemens and J. Dolmage respectively, on Carbonate Basin; Jumbo, by N. F. Johnson, at head of Copper Creek.

The following deals have been recorded at Golden: Black Prince, sold by W. Logan to T. A. Knowlton for $4000; Bryan and Lincoln, sold by J. Henderson to W. C. Tillson; Ellen D., sold by J. White and F. W. Aylmer to L Keyser for $3,000; tranfers of Mitcher, Silver Tip, Cinnamon Bear, Polar Bear, Amy, Black Bear, Norma, Rachel, Barbara, Ethel, Ellie, Acme, Omega, and Lake View claims from A. C. Mitchell-Innes to the Golden-British Columbia Limited.

G. Willis, manager of the Channe Mining Company, of Vancouver, informs us that the company have a crew of men developing the Tiger and other claims held by the company at Fort Steele. The Tiger is looking well. A deal is pending. Mr. Willis has just sent to Vancouver 100 pounds of magnificent ore from the claims bonded by the company on Ice River. He says this is some of the finest grey copper he has seen in this country. Mr. McGraw, the company's overseer, is now developing the Copper King and Copper Queen, 12 miles from Cascade, and it is a fine copper ore of its kind. At Fifteen Mile Creek the company have closed down for the winter owing to the snow, but the reports from the foreman are very satisfactory as to the work done. The ore chute was struck in the tunnel and although the men drove 15 feet into it yet they did not get through.

THE RE-STAKING EVIL

With regard to the question of re-staking that has been discussed in our columns, the Hon. F. W. Aylmer makes the following suggestions: "If the assessment work is not done within the 12 months allowed by law let the locator be required within six days after the expiration of such period to file his intention of doing his assessment work forthwith. Provide a penalty of a stated sum for failure to do the assessment work within the 12 months prescribed by law, and require that he shall also deposit with the recorder a certain amount at the time of his filing his declaration as a guarantee that he will perform the assessment work forthwith, and that the locator shall then be given 30 days from filing such declaration in which to do the work.

"If the locator should fail to do his work within the time so extended then any free miner shall for 30 days have the right to file his intention of doing the work and taking up the claim.

He shall also deposit a certain sum in proof of his bona fides and should he fail to do the assessment work undertaken within 30 days then the claim shall revert to the Crown."

We shall be glad to hear further suggestions on this important subject.

MAUD S. AND STANDBY.

The development work being done by Messrs. Jolliffe and Stracey on the Maud S. and Standby claims is progressing well. On the Maud S. the tunnel has been run for 110 feet along the hanging wall of the vein, and it is proposed to extend this tunnel another 155 feet to strike a strong cross lead. When this is completed it is intended to take out a certain amount of ore. On the Standby the tunnel, at a distance of 85 feet, has struck the ledge, which carries gold, silver, copper and lead. This ledge is being cut across, and then a shaft will be sunk 50 feet on it. The ledge is four feet wide where it has been struck. From the proposed shaft drifts will be run for 30 feet and 20 feet respectively on either side. A shaft has been sunk 21 feet from the surface where it struck a vein which yielded on assay 7 dwts gold, 29 ozs. silver and 16 per cent lead. This ledge is an enormous one and since striking it the shaft has been extended to a depth of 32 feet, 11 feet of which have been sunk in the lead and they are not yet through it. As soon as the fifty feet level is reached it is intended to drive 100 feet along it and then a quantity of ore will be got out from the various strikes. This work will develop the property very well, covering as it does some 700 feet of shafting and tunnelling. Messrs Stracey and Jolliffe are to be congratulated on the vigorous and thorough way they have done their development work, and this work has gone to prove that this property is probably one of the best prospects in East Kootenay.

NEW MINING COMPANY

Who Intend to Develope East Kootenay Mines -- Headquarters at Golden.

The Golden-British Columbia Mining Company Limited has been formed in London and registered in the Province. The head office of the company in London is at No. 6 Queen Street Place, and the head office in British Columbia is at Golden, W. G. Mitchell-Innes being the attorney for this Province.

The directors of the company are the Right Hon. Lord Ribblesdale, and Messrs. A. C. Mitchell-Innes and John Taylor, M. Inst. C. E., of London, England. The bankers are the Union Bank of Scotland, and the secretary is Mr. F. W. Williams. The Company has been formed for the purpose of acquiring mining interests in East Kootenay and for the development thereof. This is the company that was floated as the result of the visit of Mr. W G. Mitchell-Innes to London last season, and that gentleman will represent the company in British Columbia.

Carrier arrested at Ottawa for having designs on Sir Wilfrid Laurier's life is a well known maniac of St. Luce.

Farmer named Villeneuve murdered near Sudbury. A neighbour has been arrested and now suspicion rests on his wife.

THE SILVER QUESTION.

The news that the British Government has refused to aid the efforts *that have been made for the restoration* of the free coinage of silver will be received throughout the Empire with feelings of regret. We believe we are as loyal to the traditions of the Motherland as any, but when it comes to the great powers of the nation lending themselves as tools to the gold bugs of Lombard Street, it is time for those who have studied this problem to raise a warning voice. We feel sure that if the British Government maintain a policy which can only bring ruination to many colonies it must lead to the dismemberment of the Empire, and those great capitalists who are using their power to this end, that it may increase the value and power of their gold, have a great responsibility. The Australian Colonies are large silver producers. Aust alians have given this silver question a foremost place. India was all along a silver country so far as its currency and hordes of the people went, until the Government recently closed the mints to protect British exports, and thereby *caused untold destitution.* British Columbia has a future that depends more on silver than gold, and with its immense mineral wealth this Province bears every evidence of becoming the great prospective market for the eastern producers. The silver question is as much a Canadian question as a Provincial one. Yet we find the Canadian Banker's Association gave the prosperity of this country one of the most treacherous stabs in the dark that could have been given. Without any publicity, so that the voice of the people might have been raised in protest, this association secretly sent to England endorsing all opposition to bi-metallic measures. Let us hope that the action was taken in ignorance, rather than from the point of view tha the association should be a mere tool of Lombard Street and a traitor to Canada. We *notice in the* New Denver Ledge an interview with Mr, Clouston, General Manager of the Bank of Montreal, and it will be a fair proposition to take his view as that of the Banker's Association. Mr. Clouston said: "Oh! free silver is a practicable impossibility; one of those financial heresies that will come forward at times; something similar to the system of finance which under John Law made France rich for a few years in the early part of the eighteenth century." Now such a statement either shows gross ignorance on the part of the banker or else an intention to deliberately mislead. *In Barclay's work on "The Silver Question and The Gold Question"* there is a very complete table showing that up to the demonetisation of silver by Germany and the United States in 1873, *free silver was a solid fact,* and would have been till this day, but for Legislative interference and the bribery and corruption of Lombard Street to bring about the demonetisation of silver. Mr. Barclay gives the fact in these words: "For seventy years prior to 1874 (and for an indefinite time also before the beginning of that period, though less perfectly) bi-metallism was practically in force for all the purposes of international commerce." Mr. Clouston then went on to say that they might as well try to regulate the price of wheat by act of Parliament as to regulate the price of silver. Mr Clouston *must know, if he knows anything,* that it is the law that fixes the price of gold at the English mint, and that gold conforms to that price all over the world. If the price of gold can be fixed by law, so can that of silver. If the price of silver, so the price of wheat. If the law required the Dominion Government to give a certain price for all wheat delivered at Ottawa, the price of wheat would be regulated thereby all the world over, the only differences being those caused by the expense or difficulty of delivering wheat at Ottawa. We admit at once, when Mr. Clouston came to speak of the currency of this country, that he expressed sound views and doctrine, but we do not agree with him when he says that the currency *of this country is sufficient.* We do not think it is. The currency is only $8 a head, whereas in the most prosperous periods of the world's history it was $50 a head. If currency is short it stagnates business and causes commercial troubles. We have reviewed the position on this great question at some length because of its immense importance to this country, and we hope it will cause those who have not thought about it to do so. The action of the Bank of England in endeavoring to bring silver back to the position it should hold as a monetary metal, ought to meet with the support of all the Empire. The Bank of England has as its guiding stars the ablest financial men of our time, and while it is fighting against the prejudices of the great gold bug capitalists it is adopting a policy that will do *more than all else to consolidate the* Empire by bringing about a stable condition of affairs commercially and financially. The Bank of England has always been a progressive institution. More than once it has come to the rescue of the nation amid the howls and ravings of the great capitalists, and its policy has proved in the end to be the right one. We believe today that the Bank has inaugurated a movement which will be second in importance to none of the previous phases of its policy and we can only urge those who may come within our "sphere of influence" to do all they can to steer public opinion along with the advance guard of the bank in this great reform, which will do more than any present day problem to advance the interests of the Empire as a whole and particularly of our own Province, so richly endowed by nature with the white metal.

A MONSTROUS PROPOSAL.

The Canadian Bankers Association has made a frightfully cheeky proposal to the Government. It is that the Government should permit the banks to deposit their gold with the Government and that the Government should pay them three per cent interest for gold that it doesn't want, and should give the banks in exchange a note issue which they could relend to the public at interest also. The banks would thus draw interest twice on the same money—first of all from the Government on *the gold and in the second place from* the public on the notes which would represent the same gold. We can conceive of no more despicable attempt to rob the public than this suggestion, *and we say at once that no honest* banker would make such a proposal. We admit the system is in vogue in the United States, but that it should be adopted in that land of corruption and bribery is no argument for its adoption in Canada. The people of the United States have cried out long and bitterly against the operation of such an unjust system in the States, and that very outcry ought to be a warning to our own Government. The Canadian Government can get all the gold it wants by operating a branch of Circulating Department of the Treas-Treasury in the Yukon, and buying the gold from the miners, giving them Dominion currency in exchange, and such gold would not cost the Government a dollar in interest, or in fact anything beyond the cost of printing the Dominion currency and managing the circulation office. We confess we are utterly surprised at the monstrosity of the suggestion made by the Canadian Banker's Association.

The Toronto Globe wants an insolvency law. An insolvency law is a repudiation law—a renunciation of honest debts—and non such law is wanted in a civilised country. This is one of Editor Willison's new-fangled notions. The insolvency law in England or the other colonies has made a *mighty lot* of mischief. It has taught people to be rogues, and to deprive creditors of their due. It has created a lot of new crimes which should not exist on the statue book. *It has proved a fruitful* source of litigation and has been a means of multiplying needy and unscrupulous lawyers. If Editor Willison cant learn any thing better than the advocacy of such mischievous principles by visits to England he ought to weather under the seaming and more honorable sunshine of Canada.

THE SUPREME COURT CASES.

The verdicts of the juries in the cases heard at Donald on Monday were very extraordinary. A prisoner makes a charnel house of the lock-up, assaults the constable and magistrate, giving as his reason that he is not going to stay there. The constable is bound by law not to let his prisoner go, but to take his life if need be in the attempt to keep him in safe custody. Yet in spite of these facts a Donald jury says the prisoner neither attempted to break gaol, nor injured a constable in the discharge of his duty. The foreman of one of the juries became counsel for the prisoner and, evidently with a view to proving that he did not hit the constable, asked the Justice whether the constable was not wounded by falling, or whether he saw the prisoner strike the constable, when the defendant himself admited that he hit him and "hit *him hard too.*" *Such* were the verdicts of Donald juries and their methods of doing business The judge made matters worse by blaming the Justice for not going to the assistance of the constable, whereas the constable says that the Justice gave him all the assistance in his power. As a matter of fact a Justice has nothing to do with the use of physical force, but is rather enjoined against it. If this is how justice is going to be administered we shall find the men of the police force who are any good resigning their positions, as the salary is hardly enough to cover the pounding which Donald juries seemed to think they should take quietly and even gratefully. No man with any self respect will act as Justice of the Peace under similar circumstances. A man may paint the town red and a Donald jury *may be sworn in to say he was* "a jolly good fellow." As an American citizen said to us after these cases, "Don't talk to us any more about the administration of justice on the other side."

His Lordship Justice McColl is evidently a man who desires to dispense justice with the strictness fairness and impartality. The sentence which he imposed on Vandell was clearly a strict application of the verdict of the jury. As his Lordship remarked, he himself took a much more serious view of the matter and so will the more intelligent section of the public, but he did not allow that to weigh in the judgement. From what we have seen of his Lordship's dis*charge of his duties at the last two* sessions of the Supreme Court at Donald we feel sure that in his appointment, although a recent one, the Supreme Court Bench of British Columbia has secured a judge of great ability, and of the strictest integrity in his desire to administer justice with an impartial hand.

Complaint is made in the East of a shortness of currency to meet the demand. It is a first duty of the Gov*ernment to see that the currency re*quired for the bona fide monetary transactions of the country is sufficient. We suggest to the Minister of Finance that this is one of the first things to which he should give his attention on his return to Canada.

Vanity in women is forgivable. It was Nature's intention that woman should be vain of her personal appearance, and the woman who fails of this fails of her full womanhood. No woman should be satisfied to go through the world with a complexion made hideous by unsightly blotches, pimples and eruptions. No woman should be satisfied to have a sallow, sickly complexion.

The remedy for these conditions does not lie in cosmetics. Skin disease is caused by impurities in the blood, and by nervous disorders due to weakness and disease of the distinctly feminine organism. Doctor Pierce's Golden Medical Discovery is the greatest of all known blood-purifiers. It not only drives all impurities from the life-stream, but fills it with the rich, life-giving elements of the food. Dr. Pierce's Favorite Prescription acts directly on the delicate and important organs that bear the burdens of wifehood and motherhood. It makes them pure, strong, well and vigorous. A course of these two great medicines will transform a weak, sickly, nervous, despondent woman, who suffers from unsightly eruptions of the skin, into a healthy, happy, amiable companion, with a skin that is clear and wholesome. These medicines are made from herbs and roots, and contain no minerals of any description. They simply assist the natural processes of assimilation, secretion and excretion. Medicine dealers sell them.

It is a druggist's business to give you, not to tell you, what you want.

"About four years ago," writes Thomas Harris, of Wakefield Station, Sussex Co., Va., "my daughter Helen was afflicted with eczema in a distressing form. Dr. Pierce's medicines cured her after all other remedies had failed."

In sending for a free copy of Dr. Pierce's Common Sense Medical Adviser, enclose 21 one-cent stamps, to cover customs and mailing only, if a paper-covered copy is desired, or 50 stamps for cloth-binding. Address Dr. R. V. Pierce, Buffalo, N. Y.

A SCIENTIST SAVED

An Interview With a College President

His Many Duties Caused his Health to Break Down—Dr. Williams' Pink Pills Restore Him to Activity

From the Republican, Columbus, Ind.

The Hartsville College, situated at Hartsville, Indiana, was founded years ago in the interest of the United Brethren church, when the state was only a wilderness, and colleges were scarce. The college is well known throughout the country, former students having gone into all parts of the world.

PROF. ALVIN P. BARNABY.

A reporter recently called at this famous seat of learning and was shown into the room of the President, Prof. Alvin P. Barnaby. When last seen by the reporter Prof. Barnaby was in delicate health. Today he was apparently in the best of health. In response to an enquiry the Professor said:

"Oh yes, I am much better than for some time. I am now in perfect health, but my recovery was brought about in rather a peculiar way."

"Tell me about it" said the reporter

"Well to begin at the beginning," said the professor, "I studied too hard when at school, endeavoring to educate myself for the profession. After completing the common course I came here, and graduated from the theological course. I entered the ministry and accepted the charge of a United Brethren church at a small place in Kent County, Mich. Being of an ambitious nature I applied myself diligently to my work and studies. In time I noticed that my health was failing. My trouble was indigestion, and this with other troubles brought on nervousness.

"My physician prescribed for me for some time, and advised me to try a change of climate. I did as he requested and was some improved. Soon after I came here as professor in physics and chemistry, and later was financial agent of this college. The change agreed with me, and for a while my health was better, but my duties were heavy, and again I found my trouble returning. This time it was more severe and in the winter I became completely prostrated. I tried various medicines and different physicians. Finally I was able to return to my duties. In the spring of 1896 I was elected president of the college. Again I had considerable work, and the trouble, which had not been entirely cured, began to affect me, and last fall I collapsed. I had different doctors but none did me any good. Professor Bowman who is professor of natural science, told me of his experience with Dr. Williams' Pink Pills for Pale people and urged me to give them a trial, because they had benefitted him in a similar case, and I concluded to try them.

"The first box helped me and the second gave great relief, such as I had never experienced from the treatment of any physician. After using six boxes of the medicine I was entirely cured. Today I am perfectly well. I feel better and stronger than for years. I certainly recommend Dr. Williams' Pink Pills to similar sufferers and overworked people. 209

A WOMAN'S TRIUMPH

She Managed her Work so Well That it Equalled the Efforts of Professionals

While it is well known that any woman of intelligence can do as good work with the Diamond Dyes, and at less than half the cost charged by professional dyers in city steam dye houses, yet there may be some people who doubt the statement. The following extracts from a letter written by Mrs. J. Gardner, of Owen Sound, Ont., prove that Diamond Dyes are unequalled:

"There was a man in our town going from house to house taking orders for a Toronto dye house for the dyeing of all kinds of garments and clothes. I had just taken off the line some goods that I had dyed with Diamond Dyes, and showed him that I could do as good work as any dye house. He honestly admitted that I was right about my work with Diamond Dyes.

"Having a large family I use Diamond Dyes to economize. I have always the best of success with your dyes, and must say that I am more than delighted with your colors for dyeing cotton." 208

The National Matte Smelter.

A practical, cheap and simple method of matting sulphide ore, such as nickel, copper, gold, and silver ores. In localities where lead ores and fuel are scarce and almost unattainable our pyritic water-jacketed Matte Smelter has been recognised with highly satisfactory results, and has been thoroughly tested on various pyritic, sulphide, and arsenide ores, in capacity of two to 80 tons per day It is the simplest method of gold and silver ore matting and concentrating that is known today.

It requires no extraordinary skill, no lead ores, no fluxing material, and no fuel for the smelter after it is started. The sulphur in the ore is its natural fuel only, and its cost has no comparison with any other process of concentrating.

We are prepared to furnish any size or capacity plant complete to substantial mining people, set it up and furnish our men to run it for them on easy payments. Prices and specifications, with references and testimonials, on application.

Lives in Danger

The Time for Action and Great Care

Paine's Celery Compound Should be used this Month

Our changeable Autumn weather brings fear to the hearts of thousands of rheumatic sufferers who are unable to go to warmer climes. The present month with its wet, cold weather and chilling northeast winds will, without doubt, increase the agonies of those who are afflicted with acute, chronic, inflammatory and sciatic rheumatism. The uric acid in the system, which the kidneys have not removed, is poisoning the blood, causing stiff and swollen joints, twisted legs, arms, fingers, and contracted cords. When it reaches the heart it generally proves fatal.

Rheumatic sufferers, why remain in agony and peril? There is a sure cure and a new life for all if the proper agency is made use of, Paine's Celery Compound has triumphantly met hundreds of cases far more subtile and dangerous than yours; it will surely meet your troubles. It is for you to determine this day whether you shall be free from suffering and take on a new life, or remain in a condition of helplessness and torture that may drag you to your grave at any time.

Bear in mind that Paine's Celery Compound cures all forms of rheumatism, and does the work so well that the disease never returns. Mrs. M. J. Vince, of Barrie, Ont., says:

"I am happy to say that I have taken Paine's Celery Compound with great results. I had sciatica so badly that I could not turn in bed or walk without help; and for a period of three weeks was helplessly laid up and suffered pain that was at times unbearable.

"I tried many medicines, but all in vain. I was afterwards recommended to try Paine's Celery Compound. I used six bottles, and am entirely cured and enjoy good health. I take great pleasure in recommending the valuable medicine that cured me." 207

A clerical crank at Richmond, Va., prayed that two young women, who smiled during service, might be struck dead and go to hell.

At Portland, Ore., a customs collector seized beer and whisky, which was being shipped to Alaska, it being labelled "Cumberland Homemade Catsup."

Croup Quickly Cured

MOUNTAIN GLEN, Ark.—Our children were suffering with croup when we received a bottle of Chamberlain's Croup Remedy. It afforded almost instant relief.—F. A. THORNTON. This celebrated remedy is for sale by all druggists. Langley & Co., wholesale agents, Victoria and Vancouver. 187n8

Saves Thousands of Lives.

Four years ago Jacob Dewitts, of Hay Island, was dragged to the verge of death by dreadful heart disease. He was given up to die. From vigorous manhood he had gone to a broken despondent wreck. He procured Dr. Agnew's Cure for the Heart, used it faithfully, and to-day weighs 218 pounds, and lives to bless the day the great remedy was recommended to him. It relieves in 30 minutes.—24.

5 Prizes of	10.00 each	..	50.00
10 Prizes of	5.00 each	..	50.00
			$500.00

To the Twenty people who solve this Puzzle, if there are so many correct, we will give the above Prizes IN CASH.

SEND NO MONEY

With Your Answer.

If more than Twenty should be correct, every correct one will (in addition to the Money Prizes) be awarded our famous "Faithful Timekeeper Silver Watch," of which the net factory price is $10. If preferred, the winner can choose a genuine Gold-cased Watch of the same value.

F - - TH - UL	A word here meaning "True to the Time."	The qualities of our Watches which are acknowledged to be the foremost in the English and American Markets.
F - R - M - ST	Our Proud position in the Watch Trade.	
& END - R - - G	A word which here means they will last a life-time.	

As this wonderful offer is only made to advertise our far famed Silver Watches, every Competitor must read the following conditions and comply with them.

1. Send your answer on an "International Post Card," which can be bought at the post office (price 2 cents) There is no entrance fee or charge whatever.

2. In addition to the Cash Prizes, everyone who sends the correct answer will thereby win one of our "Faithful Timekeeper" Silver Watches which we sell in England for $10 each, and which could be sold retail in America for $15 to $28 each.

3. Every winner of the Watch is required to purchase one of our SPLENDID VALUE inexpensive Solid Silver Albert Chains to wear with the Watch, as per our unprecedented offer which we will send. These Chains are Hall-marked on every link by the English Government. If the same Watch is required with Gold filled case instead of Solid Silver, a chain to match may, if desired, be chosen.

4. With our Watch and Chain you will receive our mammoth Catalogue quoting Wholesale Factory Prices for Jewellery, Plate, etc. The First Prize will be given to the one who solves the Rebus, receives the Watch and Chain, and orders altogether the largest amount of goods from the catalogue; the Second Prize to the winner who orders the second largest amount, and so on. If not more than twenty win and receive the Watch and Chain, and if these do not buy anything from the catalogue, the whole of the prize money will be equally divided among them, giving $25 each. All amounts in this advertisement are taken at the exchange of $5 to £1.

5. A form will be sent free to you which must be filled up and forwarded to reach us by December 25th of all goods ordered on account of these Prizes.

6. The names and addresses of the cash prize winners will be printed in the Times, Daily Telegraph and Standard, of London, on Dec. 31st next, and subsequently in the New York Herald. Drafts for the Prizes will be posted same day.

7. Write your name and address in full every time you write to us to avoid mistakes.

8. Orders for these Prizes may be sent in separately from time to time and you will be credited with the total of all when you send in the report form as above.

9. When sending Orders please remember that the letter postage to England is 5 cents per half ounce, and if insufficient postage is used the letter is liable to go astray.

Send your answer at once! You are sure to win a Prize if correct, while even if not correct it costs you nothing.

F. P. Armstrong, Manager.

How is Your Printing?

LOCAL AND GENERAL.

A. Stewart, chief engineer of C. P. R., has died of cancer.

W. G. Mitchell-Innes leaves for London about the 20th of next month.

Sample copies of the GOLDEN ERA will be mailed free upon application.

Mr. Wells intends opening another camp up the Beaverfoot in connection with the Palliser mills.

A. M. Taylor has been appointed to take charge of H. G. Parson's branch business at Fort Steele.

T. J. Walton has been appointed foreman of the Golden Lumber Co's camp known as Bubar's

Messrs. Fullmer & Kerfoot intend putting on several teams this season to do freighting between Golden and Steele.

Messrs. Fullmer & Kerfoot's stage was upset near Spillimachine on Tuesday night but fortunately the passengers escaped without injury.

The Columbia River Company have decided to remove the steam sawmill at Beaver mouth to Noberly, where it will be in operation all winter.

Sir William Van Horne told the people of Vancouver that the C. P. R. propose to put on a line of steamers between that city and some point to the Yukon.

The presentment of the grand Jury at the Supreme Court on Monday was a great compliment to Sheriff Redgrave, who is is charge of the gaol at Donald.

Fowl stealing seems to have been a favorite pursuit in Golden of late. J. C. Greene recently lost a lot of his poultry and now J. Gibson reports a serious raid on his yard.

On Thursday week the marriage was celebrated at Calgary of E. Plowright to Miss Moodie of Golden, the ceremony being performed at the church of the Redeemer by the Rev. E. Perrin.

At the Supreme Court at Donald, on Monday, the Fort Steele cases against S. Collins and N. C. Kerrigan, partly heard at last sittings, were withdrawn Mr. White appeared for the Crown and Mr. Spragge for the accused.

We have received the first number of the Trout Lake Topic. We congratulate the proprietor, J. J. Langstaff, on the newsy little sheet he has turned out, and such an able representative in the journalistic field can hardly fail to do much to advance the interests of the Trout Lake district.

Mr. McDonald, Dominion Land Agent, informs us that as soon as a map of the Golden lands is received from Ottawa, and the price of lots fixed by Mr. Pearse, Dominion officer of Calgary, the department will be prepared to deal definitely with applications for the remaining town lots in Golden that belong to the Government.

We are informed that through unforeseen difficulties in the tote road over the Crow's Nest Pass the C. P.R. will not be able to carry out their intention of taking in their supplies for the winter over that road. The original plan will now be adopted of taking in supplies from Golden. This town will therefore be a very busy point during the winter months and the freighting on the Fort Steele road will consequently be very heavy.

Can any reader of the GOLDEN ERA describe the "Family Herald and Weekly Star" premium picture for this season. It is entitled "It Fell From the Nest." The publishers of the "Family Herald and Weekly Star" offer $50.00 in prizes to those who can best describe the picture from the title. The GOLDEN ERA and the "Family Herald" one year, and the beautiful picture "It Fell From the Nest" all for $2.75.

D. J. McDonald has done excellent service since he was appointed to the Dominion Land Office. He has had a lot to do in straightening up the tangle into which the affairs have got generally with the selectors of Dominion Lands. This week he devoted his attention to the Dominion interests in Golden and vicinity and his visit has been productive of much good, the appointment having been favorably commented on by the farmers generally as meeting a long felt want of an officer to visit selectors and attend to their requirements.

J. Vandall, who created the disturbance last week, was brought up before Mr. Griffith S. M. on Saturday morning on a charge of assaulting Mrs Langie He pleaded guilty to the offence and said he was not sorry he had done it. His worship imposed a month's imprisonment with hard labor. Prisoner asked his worship whether he would not accept a fine in lieu of imprisonment, but was told that could not be done. On the charge of assaulting the police and attempting to break gaol, the accused was committed for trial at Donald.

Those who believe chronic diarrhoea to be incurable should read what Mr. P. E. Grisham, of Gaars Mills, La., has to say on the subject, viz.: "I have been a sufferer from chronic diarrhoea ever since the war and have tried all kinds of medicines for it. At last I found a remedy that effected a cure and that was Chamberlain's Colic, Cholera and Diarrhoea Remedy." This medicine can always be depended upon for colic, cholera morbus, dysentary and diarrhoea. It is pleasant to take and never fails to effect a cure. For sale by all Druggists. Langley & Co., wholesale agents, Victoria and Vancouver. 187n8

C. A. Warren has inaugurated a system of presenting his cash customers with a piece of silverware.

Thos Lee, who has been so long stewart on the Duchess, has opened a restaurant in Gibson's building Golden

P. Milward, the well known rancher of Canal Flat, left on Tuesday for a trip to England, where he will remain six months. We wish him a pleasant holiday.

An entertainment in aid of the funds of the Presbyterian church will be held to night. A good programme has been prepared and will be commenced at eight o'clock.

Owing to the late accidents the C. P. R. shops at Donald are specially busy at the present time. There are four of the big road engines and two rotaries undergoing repair.

"William Templeman of the Times is undoubtedly the choice of the Liberals of the Province for Lieutenant-Governor. His honest work in the Liberal cause and worth as a man has earned any of the good things going."

The Bishop of New Westminister will hold service in St. Paul's Church here on Nov. 7th, prox., at 7 30 p. m. and a meeting of the church members will be held in the church on Monday 8th, prox., at 8 p.m. to appoint a lay delegate to the synod at New Westminister.

The Pacific division of the C. P. R. is at present in charge of Mr Beasley, Superintendent of the Kootenay section. Mr. Beasley is one of the best officers in the company's service, and a gentleman who is likely to make many friends for the company amongst the public.

On the occasion of the official visit of Deputy Grand Master Wilson to Donald on Thursday night the Mountain Lodge of Masons had a gathering at which Bro. Wilson delivered an interesting lecture. After the meeting an adjournment was made to Bro Duune's hall where a banquet was held to welcome the D G M The proceedings proved most enjoyable W M Bro Mcleod presided at the gathering

"Let parents not live for their children but with them." The mother should allow no false modesty to stand in the way of her daughter's knowledge of herself, of her possibilities, of her perils. For over 30 years Dr. Pierce has used his "Favorite Prescription" as a strengthener, a purifier, a regulator. It works directly upon the delicate, distinctly feminine organs, in a natural, soothing way. It searches out the weak spots and builds them up. A woman who would understand herself send 31 cents to the World's Dispensary, Buffalo. N. Y. for Dr Pierce's Medical Adviser, a book of 1008 pages.

The Kootenaian says "In the general elections of '96 Mr. Turner's Government worked tooth and nail against evrey Liberal, Mr. Turner himself even going into the field and proclaiming his Government to be a Conservative Government and urging his friends to vote for John Andrew Mara and the other Conservative candidates; and now Mr, Turner and his friends have the face to say that the Liberals should not introduce party lines into Provincial politics. If the Government is to be a working force in Dominion elections, the Liberals of British Columbia should see to it that that Government is made up of Liberals, not Conservatives."

A few weeks ago the editor was taken with a very severe cold that caused him to be in a most miserable condition. It was undoubtedly a bad case of la grippe and recognizing it as dangerous he took immediate steps to to bring about a speedy cure. From the advertisement of Chamberlain's Cough Remedy and the many good recommendations included therein, we concluded to make a first trial of the medicine. To say that it was satisfactory in its results, is putting it very mildly, indeed. It acted like magic and the result was a speedy permanent cure. We have no hesitancy in recommending this excellent Cough Remedy to anyone afflicted with a cough or cold in any form.—The Banner of Liberty, Libertytown, Maryland. For sale by all druggists. Langley & Co., wholesale agents, Victoria and Vancouver. 187n8

The Concert Stars

The people of Golden and surrounding district will have the opportunity of a great treat on Tuesday, Nov. 9th, when the Concert Stars will give an entertainment in the Alexander hall. These talented ladies have just made a tour west from Toronto and everywhere they have given a concert they have been welcomed by large and appreciative audiences. No better entertainment has ever been given in Golden than that with which these gifted ladies favor their audience. Miss World is ably supported by Miss La Dell, who is a wonderfully clever elocutionist. Of her that great pulpit orator, Dr. Talmage, says: "I have heard you and may say that I will wait with utmost impatience for your return that I may again enjoy your delightful and artistic programme of recitations." The Daily Mail and Empire supports this high encomium by saying: "This young woman is rapidly rising in the art of arts—oratory. She is justly termed the most versatile and popular entertainer before the Canadian public." Reserved seats may be secured at Warren's store.

On Nov. 10th the Concert Stars will appear at Donald.

SUPREME COURT

Continued from page 1.

Mr. Warren did not come to the assistance of the constable as he really should have done. If he had had a little more presence of mind and backed the constable the prisoner might have been overcome with less difficulty In the name of common sense what was Lang to do under the circumstances? They had either to accept the statement of Messrs. Warren and Lang as to the assault, or else the prisoner's statement that he acted as he did to prevent himself being killed by Warren and Lang. The prisoner wounded Mr. Lang, there was no doubt about that.

The jury returned a verdict of "common assault under great provocation."

His Lordship: I think I know what you mean. It is practically a recommendation to mercy.

The foreman: Yes.

In reply to his Lordship, prisoner said his home was in Quebec. He had been in Revelstoke this spring.

His Lordship: I took a more serious view of the matter than the jury, who evidently think that Warren and Lang did not act as reasonably as they might have done. I shall adjourn the court till tomorrow at 10 o'clock to consider the matter.

On the court resuming on Tuesday morning prisoner was asked if he had anything to say why sentence should not be passed upon him?

Prisoner replied that he should not be sentenced, as they had tried to kill him and he only acted in self defence.

His Lordship said he would caution the prisoner to be careful of his conduct in future. He was liable to two years imprisonment and he did not know but what the prisoner deserved the full penalty of the law. He would however take into consideration the verdict of the jury, and would sentence the prisoner to a month's imprisonment in Donald goal, to find sureties in $200 to keep the peace for 12 months, and in default of his finding sureties that he should be sentenced to a further term of three months imprisonment.

This closed the session of the Supreme Court.

Donald News

[From Our Own Correspondent.]

The instructor on air brakes for the C. P. R. is in town making arrangements to initiate engineers and brakemen into the mysteries of the Westinghouse brake.

Mr. Grindrod, inspector of the C. P. R. telegraph service in the west, was in town Thursday.

Miss La Dell, who is travelling with Miss World, vocalist from Toronto, was in town Wednesday and arranged for a concert to be given on Nov. 10th under the auspices of the Presbyterian church.

Mr. George Clark is confined to the house, having an attack of tonsilitis.

A service of song will be held in the Presbyterian church on Sunday next at 7.30 p.m. The choir are making an extra effort to excel all past records.

Boiler Inspector Lowe left for Vancouver on Wednesday.

Mesdames Knowdell and McLeod have returned after a holiday in Kamloops.

When the Hon Col Baker passed through Donald the Columbia Valley Road Commitee waited on him and asked that he should do his utmost to have the road opened up from Donald to Canoe River The Colonel agreed to to do so and we only hope he will be as good as his word on this occasion

At the Magistrate's court on Thursday, J. McKenzie was sent for and asked whether he had yet returned the stove as ordered by the court in the case brought by C. A. Warren. He replied he had not. His Worship told him he would give him three days in which to return it or he would be sent to prison. Mr. McDermot asked to be alowed to explain the matter, but His Worship told him that he could not permit him to interfere. The stove has now been returned and the trouble ended.

PROSTRATED, EXHAUSTED.

NO SLEEP—NO REST.

ALL do not appreciate the words of John G. Saxe, who sang, "God bless the man who first invented sleep!" But appreciation is not wanting to those who have suffered as Mrs. White, of Mara Township Ont., who became so ill with nervous troubles that, to quote her brother, Mr. Donald McKae, a well-known resident of that illustrious section of North Ontario: "My sister had not slept a night for over three months. She could not have stood this much longer, and it was only when death seemed imminent that South American Nervine became the good physician. After taking the first dose of the Nervine she slept all night, and gained in flesh until perfectly well, and has now no sign of nervousness." This is a wonderful medicine in the severest cases of nervousness, and the greatest flesh-builder to be found anywhere in the world.—83.

Sold by C. A. Warren.

SWANSEA

[From Our Own Correspondent.]

SWANSEA, Oct. 15.—A new town, and new notes from a new correspondent, so don't expect much.

The town is situated at the north end of Moyie Lake and is owned by the Crow's Nest Land Development Co.; President, H. Abbott, Vancouver; Manager, M. G. Bunyan; Superintendent, E. A. Morrisey; Accountant, H. J. Turner. The town will be on the market in 20 days, being surveyed by T. T. McVittie, P. L. S. and C. E., of Fort Steele.

Capt. Sanburn and associates are putting a boat on the lake, also two barges The dimensions of the boat are: Length over all, 55 feet; beam, 10 feet; depth of hold, 4½ feet. Capacity, 10 tons. The barges are 10 x 40 feet each.

We have a saw mill here and have half a million feet cut.

The railway survey is completed along the lake. There is heavy rock work for 12 miles, and one tunnel will be 500 feet long.

Several good strikes have been made this season. The St. Eugene is looking better every day, also the Queen of the Hills and Moyie.

Another Remarkable Recovery From Catarrh

Japanese Catarrh Cure

A Never Failing Remedy -- Cured when Catarrh Specialists Failed.

Joseph Little, mill owner, Port Essington, formerly of Vancouver, writes: — "Japanese Catarrh Cure cured me of catarrh which had troubled me for 25 years, during which time I had spent hundreds of dollars with specialists in Toronto and San Francisco, but obtained no permanent relief until using Japanese Catarrh Cure about eight years ago. Since that time I have been completely cured, and my catarrh has not troubled me in the least. It is truly a wonderful remedy; the first application relieved."

Japanese Catarrh Cure cures Cold in the Head in 30 minutes, and there is not a case of Catarrh which cannot be cured if Japanese Catarrh Cure is persistently used. Sold by all druggists; 50 cents. Mailed on receipt of price. Address W. A. Griffiths & Co., wholesale druggists, Vancouver, B. C. Sample free, enclose three cent stamp. 91tc
