January 7th 1904

Geo. D. Brymner, Esq.
New Westminster, B.C.

Dear Mr Brymner;-

Enclosed please find share certificates No.s 205 to 278 both inclusive covering 600 shares of common stock of the B.C. Packers Ass.n It was my intention to take these over to morrow, but Mr Seymour told me he had been informed you were leaving town for a few days, and I therefor decided to mail them.

There was one matter I had intended mentioning to you the other day relative to my conversation, at the Chamber of Commerce banquet, with Mr Wilson. In speaking of the expenditure and Mr Sweeny's gloom over the future outlook he said "Doyle one trouble with you is that you are too good hearted. Now why don't you put the responsibility for the plant expenditure on the architect. What is the good of taking the blame yourself when you have him to fall back on" Henderson was the architect he referred to but I do not consider he was in any way to blame and told Wilson so. His estimates were all within the mark and any increased cost was due to changes we made for insurance and other purposes, or else they were occasioned by circumstances over which Henderson had no control.

I mention this because it is possible Wilson blamed Henderson in talking to Sweeny and

if allowed to rest without contradiction might do Henderson an injustice. As he is a friend of mine, and in view of all that has occurred, my recommendations might not be considered impartial, but you know him as well as I do and if you have any opportunity I think it would be only fair to Henderson's business future to correct any false impressions concerning him which may have been given.

Yours sincerely

Henry Doyle

P.S. Of course I have not said anything to Henderson about this matter, but as he is connected with the new hospital building and McSweeny is Chairman of the hospital directorate I am afraid that he may be labouring under a handicap which he is not deserving of H.D.
