Dear Mr Payne: -

You wrote me on the 10th of last month concerning the early history of the Smith's Inlet fishery. I replied a week later and trust my letter was duly received.

Our postal service is very dilatory and sometimes letters sent air mail are lost in transit. Not having had any acknowledgement of my reply from you I am enquiring now as I would not wish you to think I had ignored or neglected to respond to your request for information.

Yours faithfully,
