 China Hat Notes

Dog Salmon
In 1901 average weight of fish was 11 lb each taking about 200 fish to the ton. Average number of fish to the box was 36
In 1902 average number fish to box was 25
Cost of fish 2¢ each

Dimensions of salt dog fish boxes
Length inside measurement 3' 4" long
Width " " 1' 10" "
Depth " " 1' 0" "
all made of 1" board.
Weight of box about 40 lbs.

From Morris Aug 3rd 1904

| | |
|---|---|
| Average weight of box with fish | 425 lbs |
| " number of fish in box | 33 fish |
| " amount of salt used per fish | 4 lbs |
| " weight of fish dressed | 10 " |
| " cost of labor per fish | 1½¢ ea. |

To this is to be added cost of fish
" " " " " " steamer chgs 1st to Van.

Uchijamas instructions
Dry salted Dog salmon for Japan Shipment October & first ten days in November

| | |
|---|---|
| Quality. | Salmon to show red spotted skin |
| Weight per fish | From 8 to 10 lbs each |
| Packing | Average of 50 fish per box and salt must be put in at rate of 3 or 4 lbs per fish |

Nov 3rd/04.
Morris estimated cost of China Hat salted Dog salmon laid down in Van. was 10¢ per fish Sold for 13½ per fish
With 500 ton order cost would be considerably reduced

# Salted Dog Salmon Notes

Nov 1st/04

Chutter has 300 ton order at $35 per ton f.o.b. Seattle. Fish only to be slit sufficiently to remove larger entrails. Black blood and smaller entrails not removed.

Nov 1st/04

Evans says he has already shipped two lots of dog salmon to Japan. First lot was 500 tons. Second 1100 tons.

C.S.E. A.B.C.P.A. Oct 11/02

The fish wanted are first, - those with the reddish stripes on the body, second, - white bellied one, and third - those with blackish spots the latter supposed to smoke. Fish have been in river a long time. Each grade should be sorted and packed separately to realize the best prices.

The fish should weigh from 8 to 10 lb each - 8½ to 9 lb preferred - Heavy fish being avoided. The heads must not be split open, but the gills taken out. The fish are carried about and hung from the roof of nearly every Japanese house by a string passed through the mouth and the space left by the gills, from which place the fish is split down to the tail

Arrival is essential between the 15 of Nov and 10th December and in absence of special freight arrangements shipments should be made in small lots. The fish have to be in the shops before the New Year when they are universally used as presents from one Japanese to another

Gardiner's Canal Notes:

The Sockeyes here in 1903 were inferior in quality to Skeena River or Rivers Inlet fish. They are paler in color than regular Lowe Inlet run, have a dirtier appearance but possess more oil.
Gardiner Inlet Sockeyes averages 1½ to case

# Northern Cannery Notes

## 1905

4/7/05 Marsh says average advance as far as he can learn has been $5. per man, i.e., $10. per boat. He is trying to hold his men down to this but expects to have to pay more. Thinks advance may go to $20. per boat but hopes to hold it to $16. On the latter basis and figuring on men going up about March 15th and remaining on average for 5 months, the amount due on a basis of 75 boats (50 men) would be as follows by the end of the season

| | |
|---|---|
| 75 boats @ $16 per boat advance money = | 400. |
| Oilskins, boots, etc. for 75 boats @ $75 per boat = | 625. |
| General store @ C for 75 boats @ $100. per boat, being 50 men @ $10. per month each for 5 months = | 2500. |
| Japanese sauces, etc. for 75 boats @ $7 per boat = | 550. |
| Total outlay | $4075. |

This is equal to $163. per boat and is conservatively figured. A fair average, allowing for incidentals would be $170 per boat.

It will take 2000 fish at 8½¢ each to clear the advances per boat. In 1904 the average catch was about 2700 for Jap boats.

Receipt for mild curing Salmon

Take 10 lbs of sugar (what is know as "bar" sugar preferred as it dissolves readily) and mix with 100 lbs finest Dairy Liverpool salt. Use this same proportion for any size mixture. Take an American salmometer showing a scale in hundredths and make a pickle of this salt and sugar until the salmometer registers 68 degrees. If a German salmometer is used with a scale of 44 to 1 then the register should be 17 degrees.

Before pickling take the fish in sides and rub it all over lightly with a mixture of 1/8 saltpetre to 7/8 Dairy Liverpool salt. Then put a layer of salt & saltpetre on the bottom of a trough. On this place a layer of fish alternating salt and fish until the pile of fish is 10 or 12 deep. Leave in this dry salting for 36 hours then put them in tierces with the above mentioned pickle

N.B. Quite a large number of first class packers refuse to use any saltpetre or other chemicals in curing their fish

Forward Dec 3/02

German buyers of mild cured salmon are

Klevenhusen Geo Bremen
R. Kanzow Hamburg
C. Waldmann Koeslin (Maryan Wojtaszewski)
Gottfried Friedricks Hamburg
Ernest W. Kahn "

# General Notes

Propositions submitted independent canneries at time Amalgamation.

St. Mungo

Offered them through Brymner $14500 cash 28000 stock at Anderson to have charge fresh fish part of business at $1500 per year on 3 year contract.

Industrial

Windsor submitted written offer to sell for $35000 cash. Offer was declined without discussi

Federation

Offered them through Brierly an English shareholder and had proposition endorsed by Deville and Parker $ 36666 cash and 917 shares of stock for B.C. properties and holdings, and $13700 cash and 143 shares of stock for Columbia Fisheries Co. In addition agreed to pay cash for materials belonging to both companies.

Todd Bros

Todd would not give option but if company was formed agreed to sell on following terms;-

| | | |
|---|---|---|
| Inverness | 40000 | |
| Beaver | 36000 | |
| Richmond | 29000 | |
| Good will, brand, etc | 40000 | Total $ 145,000 |

above included 10 acres of land at Sooke which cost $1077
Todd acquired on basis 1/3 cash 2/3 stock
In addition was to be paid in cash $2000 for new plant being installed at Beaver. Invoice cost of all new plant being installed at Inverness and cash for materials on hand at all places.
The new plant at Beaver included a new

# General Notes

boiler value $1250. Two new cheap boxes $550
new China House $700 New Jap House $300. Total $2800
at Inverness improvements included 100
coolers $275. Colder machine $200. Jap Houses $500
New Wharf, say $600 Capper $775. Other machinery $750
20 Boats at Inverness $2500. Total say $5100.
Also take over the selling agents Geo. Stanway & Co
Toronto and W.S. Goodhugh & Co Montreal. Has
contracts with managers as follows:-
Ross at Beaver. Expires 1902
Gosse " Richmond " 1904
Macdonald " Inverness " 1902 Salary $1200.

Todd did not carry out this agreement and in interview with Jarvis about May 20th 1902 agreed to sell as above if paid in cash for ch "Florence" and Sooke land. Directors to say whether they accepted offer and if so Todd to wire back confirming sale on those terms. At meeting next day directors authorized Jarvis to agree on their behalf, but Todd then deviated from his promise wiring back would only sell if paid half cash, half stock. The directors refused to permit alteration in terms agreed upon, and sale fell through.

-18th 1908.

Industrial In 1905 Evans foreclosed on the mortgage he held on this cannery and sold the property to Peter Birrell Ltd for $14100 - the amount of his claim. It afterwards developed that Evans personally owns 45% of the stock of Birrell Ltd. and Mr Birrell himself told me he had not put up any money, Evans financing him against certain securities. They made over $22,000 in 1905 and have since received $7750 for railroad right of way and option money.

# General Notes

## Munn's Amalgamation scheme
### June 1902.

Munn proposed amalgamating the outside companies and to start operations when he had secured the United Canneries, J.H. Todd & Son, B.C. Can. Co., Federation and Carlisle.
He valued the 25 outside canneries (outside B.C.P.A.) at $1,050,000 to be paid for half in preference half in common stock of the new company.
The authorized capital was to be $3,000,000 of which $1,500,000 was 7% preference and $1500,000 common stock. The dividend on the latter was for a time at least to be limited to 10%
Munns commission was to be 5% on each issue of stock according to the amount issued when company was formed (?)
Presuming all 25 canneries joined plan would work out as follows;

| | |
|---|---|
| To Canners 525000 – 7% pref. stock issued at 80.00 = | 656250.00 |
| " " 525000 – Common " " " 80.00 = | 656250.00 |
| Paid to canners for plants | $1,312,500. |
| To underwriter for working capital for proposed company $750000 – 7% pref stock @ 80.00 | 312500. |
| Munns Commission to be paid in stock as follows | |
| 5% on equivalent of 525000 Common at $80 = on 656,250 = | 32817 |
| 5% " " " 775000 Pref. stock at 80 = " 968750 = | 48436 |
| In treasury as reserve 7% Preference stock | 482814 |
| " " " " Common " | 810938 |
| | $3,000,000 |

Out of the net profits 25% was to be put away at rest for betterments and improvements until a fixed sum of $300,000 is obtained
Munn's plan contemplated control of the northern S.S. lines as freight-

# General Notes

This plan continued
so as to give him an advantage over competitors
and compel co-operation from them.
Munn visited England with his proposition
but it was not considered favorably and fell
through. Its greatest weakness was in expecting
capital to underwrite preference stock at $80. when
the same stock was to be issued to canners also at
$80. Moneied men knew their cash had a fixed
value but they naturally hesitated about agreeing
that canneries which they personally knew nothing
of, also had the same value as their coin. His
scheme was also weakened as far as Canadian
capital was concerned by the knowledge that he
had been a valuator for the B.C.P.A. and knew both
what they valued outside cannery properties at
and that they hoped eventually to absorbe them.
His action therefor subjected him to distrust
and considerable adverse criticism.

he holding company to receive a commission of
%on all sales, and in addition such brokerages as
ey may have to pay in effecting such sales.
under this arrangement no merger of the constituent
ompanies was contemplated. Present methods of
independent administration to remain practically
unaltered.
he Holding Co would absolutely control the marketing
f pack, would do all financing, make all sales,
uy all supplies and act in an advisory capacity
with respect to the economical management of the
affairs of the constituent companies.

In March 1903 the PPM Co went into the
hands of receivers

# Cassiar Pkg Co Notes

1908

Cannery was started in 1903 with a capital stock of $12,000 which was held as follows:- D. M. Moore $2400. Chas Peck $2400. Oscar Brown $2400. A. Wallace $2400. Jno. D. Scott $1200. and Ed Morrow $1200. The company did well from the start and besides enlarging their plant and equipping it in 1st class style have paid their shareholders in dividends more than they originally put into the concern.

## Directors report notes

Extraordinary meeting held on March 10th 1903 to consid
report for year ending December 31st 1901.
To finance for packing in 1901 the Directors and
two of the large shareholders gave bank personal
guarantees involving a total of £29000. As a resul
of the poor season the guarantors are now called
upon to pay a considerable sum.
A scheme is presented by which the Debentures an
the amounts for which Guarantors are liable will b
paid off by the creation of Pre-preference shares.
Resolution submitted — (and carried)
That the Capital of the Company be increased to £133000 by
the creation of 33000 new shares of £1 each, 15000 there
to be called "A" Pre-preference Shares, 12000 thereof to b
called "B" Prepreference shares, and 6000 thereof to be
called "C" Pre-preference shares, and that the provisions
following in regard thereto shall have effect, that is t
(1) of the said new shares the said "A" Pre-preferen
Shares shall carry a fixed cumulative
preferential dividend at the rate of 6% per an
on the Capital for the time being paid up there
and the said "B" and "C" Pre-preference Shares
shall carry a fixed preferential dividend at
the rate of 10% per annum on the Capital fo
the time being paid up thereon respectively, o
which 6% per annum shall be a cumulativ
and 4% per annum a non cumulative div
idend.
(2) Each of the said three classes of new
shares shall rank for dividend in prior
to the now existing Preference and Ordinar
Shares of the Company (whether already
issued or not) but the holders thereof shal
not be entitled to participate in the profi
of the Company, except to the extent of t
said fixed dividend.

Canadian Canal Co 1901 

ontinued

3) Each of the said three classes of new Shares shall in a winding up be entitled to rank as regards re-payment of Capital in priority to the now existing Preference and Ordinary Shares of the Company (whether already issued or not), but the holders thereof shall not be entitled to any further participation in the assets of the Company on a winding up.

(4) Of the said new Shares the said "A" Pre-preference Shares shall rank both as regards dividends and re-payment of Capital in priority to the said "B" Pre-preference Shares and the said "B" Prepreference Shares shall rank both as regards cumulative and non cumulative dividends and as regards re-payment of Capital in priority to the said "C" Pre-preference Shares.

(5) Each of the said new Shares (of whichever class the same may be) shall upon a poll confer three votes upon the registered holder or holders thereof for the time being thereof.

Notes on Balance Sheet submitted.

This shows a loss on 1901 of £ 11387.1.4.
with an adverse carry over from 1900 of 1470.9.8

In assets are included advances for salmon traps amounting to £ 953.15.0 This should have been written off the 1900 a/c as in reality it represents the loss – irrecoverable – of operating the traps during the 1900 Season.

# Union Steamship Co. of Bc Ltd

July 22nd 1902 Dun

Incorporated in 1890 with an authorized capital of $500000 divided in 18000 Ordinary and 2000 Preference Shares of $25. each. 25 March 1st 1894 the number of shares taken was 8096 represent a Capital account of $202,400. The principal shareholders reside in the old country altho a fair amount of stock is held by local parties of whom Evans Coleman & Evans c numbered. The company have had good opportunities for success but seem to have been unfortunate almost from the commencem and have been in more or less litigation and trouble since that time. Their position at this time is a complicated one and very hard to define. A year or so ago lost one of their boats the "Cutch" entailing considerable loss. On August 27th 1900 gave a Debenture Trust Deed for £15000 to Gordon Legg as Chairman, covering stock, chattels, plant, machinery, buildings, etc.

Nov 8th 1902

The Company now seems to be doing very we They have improved and added to their fleet and have inaugurated a regular fortnightly service to Northern Bc. port.

S. Aug 13th 1904

- committee report re reorganizing submitted the following plan. Incorporate new company, with $2,000,000 capital of $500,000 preference 8% cumulative dividend stock and $1,500,000 common stock. Creditors to receive $1,400,000 in common stock in full settlement, same being at rate of 40¢ on the dollar. (Creditors also include note holders and debenture holders) $100,000 common goes as bonus to those putting up the $500,000 cash for working capital against which is issued all the preference shares. The preference shares are redeemable in 5 years or under at discretion of directorate upon payment of 10% premium. Directorate to consist of 5 Frisco men 2 New Yorkers and 2 from Seattle all of whom are to represent the preferred shareholders. Common stock to have no vote until all the preferred stock has been redeemed. Main office to be in S.F. where the plan is supposed to originate from. The S.F. men are prepared to subscribe for $300,000 pref. shares provided $200,000 is subscribed east and the proposition assented to by 90% of the creditors.

The proposal does not seem to have been favorably received

Oct 1904

Nothing having come of the reorganization scheme Kerr applied to Judge Hanford to order the properties sold at public auction on November 10th 1904. It was so ordered.

# General Notes

Lord says cost ABC Pkg Co's improvements to Skeena river plants - including cost new boats was $45000 in 1903. Preparing in 1904 for 50000 c/s. If fill all cans expects to make $2.50 per case and his personal returns will be over $3000

Lord says cost of nets per case in 1904 was about 34¢ for Sockeyes against nearly 3 times as much for 1903. Japs are most destructive of all fishermen but do much better. In 1904 the General average for the BA & NB canneries were Japs 2900 fish to boat whites 1750 Indians 1350.

Brewster said his Japs also averaged 2900 but that his Indians were close seconds. He fished Masset Indians

# General Notes.

Sept 1905

General Notes

assaan Bay Fish & Mining Co

May 10th/04. Kittredge reports bonds outstanding and which will mature in 3 years are for $77000 with 6% interest. Receiver in charge & expects to sell at plant on May 26th two parcels one containing land, mill, buildings machinery, boats, nets, etc. the other all cannery material, salt, barrels, & 1,000,000 feet lumber. K's plan is to outbid bond holders and secure property to put up pack this season of 5000 c/s reds (estimated profit $1.20 per case) 15000 c/s pinks (estimated profit selling at 65¢ per dozen 40¢ per case) Profit $11000. His associates are J. Scott & ? Carroll and he thinks can raise $15000 which will probably see them through although $20000 would be surer. Has already made sure of $10,000 will finance for pack through Kelley Clark & Co. If years results unprofitable can default on mortgage interest and in any event are not prepared to take up property at end of 3 years.

Material on hand is valued at $15000. If cannery is bid in supplies can be obtained for not to exceed $7500

Inventory in part consists of 81 tons salt, 4000 c/s 1# tall cans, 98 boxes tin plate, 832# tin, 1221# lead, 1198# solder, 10 carboys acid, 318# zinc, 9 bbls lacquer, 690 gallons Lacquer thinner (enough lacquer for 20,000 c/s) 3/4 drum Caustic Soda 1,000,000 labels, 7130 bbls, 610 ½ bbls, 65 Fierces 300 lb ea, & 1,000,000 feet lumber, also scows, tugs, nets, boats, etc.

Cannery sold May 26th 1904 subject to payment of bonds mentioned above. Following were prices obtained Cannery & saw mill $13500 Karta Bay plant $2,600 Str Vigilant $1000 100000 ft logs $900 Launch Eagle $350. 4000 c/s cans $550 Mose & office fixtures $1100. All bought by J D Carroll 7100 salmon barrels $1008 by A E King. Schooner Earl $160 by Indian Later. Money not having been put up sale fell through.

# General Notes.

May 15th/04 Hortmann says Amur river runs principally dog salmon and springs. No sockeye in commercial quantities. The rivers in Siberian waters farther north are good red fish rivers with heavy runs but Russian government prohibit fishing in the rivers themselves. Catching out in salt water is unprofitable and catches are small.

Hortmann says where you find plenty of ice you should find plenty red salmon. Drysdale says their Australian & New Zealand trade averages 75000 c/s annually. This will be practically cut out by the new British preferential tariff. Most of their sales in this market have been under their "Scroll" brand.

June 7th Maryan W — says Chinook salmon are marvellously plentiful in Amoor river and that dog salmon also abound. The Chinook are inferior in quality to Columbia river but about equal to Puget Sound springs. They average about 16 lbs in weight. One German house has annually since 1902 sent a vessel there to pickle a cargo of these fish and has taken them to Germany where they found a ready sale. The cost of raw fish was less than 1/4¢ per lb.

# General Notes.

June 7th Pickling Salmon

Naryan W— says to take the salmon as it comes from the water, remove head, tail, entrails, and annal and back fin. Then with a sharp knife cut bone out making a clean smooth cut. When bone removed press knife along the sides and gradually move it toward where backbone was thus expelling any blood which may have remained in the veins.

When fish is thus cleaned put it for 1/2 to 3/4 hour in fresh water very cold but not quite enough so to freeze. The object is to thoroughly chill the fish through and through thus expelling all remaining animal heat which would cause deterioration if allowed to remain.

The fish also wants to be scored 3 times through the skin so as to facilitate penetration of pickle.

When fish has been thoroughly chilled remove from water and place in tanks back or skin side down with each layer of fish laid in diagonally opposite directions. First sprinkle bottom of tank with a thin layer of salt and also cover each layer as it goes in, thus using 10 lb of fine Liverpool dairy salt for every 100 lb of salmon.

When tank is full add sufficient pickle to cover completely and leave in pickle for 10 to 14 days in a storage room with temperature from 30 to 32°, never more than 35°

The pickle for this first processing is to be in strength from 90 to 100° measured by an American salmometer.

After fish has been cured as above remove from the tanks and wash off in similar

pickle which has previously been chilled. In washi
use soft bristle brushes which will not roughen
or tear the flesh. If any portion of the fish
seems inclined to soften rub into the spots
a little dry salt.
When fish have been thoroughly washed, pack in
tierces in a pickle of 65° to 70° American and
keep in room of 30 to 32° temp. until ready to
ship.
Shipping to N.Y. put in refrigerator cars two
tierces high and put quite a lot of ice at each
end of car. This will keep fish properly durin
transit which will take 14 to 18 days. Minimum
car is 20 tierces of 800 to 850 lb net weight or abou
1000 lbs gross. Freight rate is 90¢ per lb equal to
11½/r ¢ on net weight.
Shipping from Ekeena or similar place
where refrigerator chamber not available
put the tierces for 2 days previous to shipment
a room of 25° to 28° temp. The extra cold
absorbed will last the journey through.
Cost of refrigeration plant is about $3000 and
15 h.p. engine is sufficiently large
On the Columbia M.W. allows packers 7½¢ per lb
over actual cost per lb of raw fish. This covers
waste in fish, labor, freezing, tierces and all incidn
charges also freight to N.Y. Outside of waste in fish
these costs are covered by 3¢ per lb & on the Columb
the waste would be equal to about 2¢ per lb, thus
leaving 2½¢ per lb to represent profit.
Puget Sound fish do not sell as high as Col.
river but as cost of raw fish is also lower
the profit averages at least as much.

# General Notes

1/14/04
Chutter says any degree less than 38 is unnecessary cold for mild pickled fish. He keeps his temperature at about 40°

---

Jan 7th/04 Barker says only 2 canneries on Columbia, the Elmore and Kinney plants have 3 lines machinery Booth, Megler, and others have two lines while some few are only 1 line. Found best results were obtained by 3 line plants the packing capacity of which they consider as only 7500 cases per day. This is very low average.
The lines machinery really do not express packing capacity this being dependent upon number of chinese guaranteed and canners cannot afford guarantee to full machinery capacity. Man for man however American Chinaman do more work than Canadian Chinamen hence the 4 line A.P.A. Cannery at Point Roberts will put up more cases in big year than will the Imperial.

---

Dr Jordan says the following books are authorities on fish.
"Guide to the Study of Fishes" 2 vols by D. S. Jordan.
Introduction to the Study of Fishes" by Gunther. Price 5.
Garrison Woods on the Commercial Fishes of Australia
Day's "Fishes of India" Day's "British Fishes"
Reports of U. S. Census Bureau

---

A.P.A. have agreed to pay during 1905 the same price that ruled in 1904 in Western Alaska i.e., 2½ & 4 per fish. Adding ½ for year would make cost 3¾ & 4 each.

---

United Canneries of Bc Ltd

Oct 12th/04
Went through Scottish Canadian cannery. Have 5 retorts, 3 steams boxes, 1 finger solder machine 1 chain machine 2 rotary crimpers, 2 L&B washe 2 L&B cappers. Have 6000 c/s cans now in net lo Insurance rate 1 3/4% Plant lighted by acytele stored in building
Gulf Georgia equipment same as Scottish Canadi Insurance rate 5% Plant lighted by acyelene stored in building.
Notes on Balance sheet Dec 31st 1902, (see page 217)
The $22,197.79 representing additions & improvement should be a offset for depreciation for which no allowances have been ma The real estate values are at least $40,000 over estimated
Labels $2069.62 no value as goods sold unlabeled.
Investments $401.80 are practically without value
Fishermens balances $1057.13 probably worth 50% to 75% less.
Under date Sept 26th/04. the Imperial Bank demanded payment by Oct 17th of their a/c amounting to $117,598.0 plus cost. The amount named covers principal & interest. Payment not being forthcoming property is advertised for sale Nov 18th 1905 to cover bank cla
Oct. 1904
Windsor says Gulf of Georgia cannery cost Malcolm and himself $90,000 to build

When balance sheet of Dec 31st was produced it was ow to Imperial Bank requesting individual shareholders to guarantee it against further loss on 1903 packing to $35,000. This the BCPA refused, and brought suit to have U.C. Ltd declared insolvent on ground that balance sheet exhibited fictitious values an in reality Company's capital was impaired to an extent exceeding 75% of the issued capital For decision see Scrap book.

United Canneries of B.C. Ltd

18/04

The bank having their claim still unpaid to-day sold the properties by public auction Malcolm Cannon & Co were the buyers at $119500. Frank Burnett at $50000 was the only other bidder. The price paid represents the amount of the banks claim they being the only creditors.

| B.C.P.A. | 30000 | " to Australia Price not yet known |
| Do | 10000 | " " Canada subject opening prices |

June 24/05 Canadian prices for 1905 as announced

| | |
|---|---|
| Horseshoe, Maple Leaf or equal | 5.00 per case |
| Skeena quality Sockeye | 4.85 " " |
| Rivers Inlet or equal " | 4.65 " " |
| Spring Salmon | 4.40 " " |
| Cohoe " | 3.75 " " |
| Humpback " | 2.75 " " |

# Market Prices Conditions

02 BCPA's selling prices for Australia this year were

| | | |
|---|---|---|
| Rivers Inlet | Falls | 20/- |
| Do | Flats | 22/- |
| Skeena | Falls | 21/- |
| Do | Flats | 23/- |
| Fraser | Falls | 21/6 |
| Do | Flats | 23/6 |

03 BCPA's selling prices for Australia this year were

| | | |
|---|---|---|
| Fraser | Falls | 22/- |
| Do | Flats | 23/6 |
| Do | ½ " | 28/6 |

For 1904 prices see page 227.

05 Selling prices for Australasia this year were

| | | |
|---|---|---|
| Fraser | Falls | 22/9 |
| | Flats | 24/6 (later reduced to 24/-) |
| | ½ " | 28/3 |
| Skeena | Falls | 22/3 |
| | Flats | 24/- |
| | ½ " | 27/9 |
| Cohoes | Falls | 17/3 |
| | Flats | 18/- |
| | ½ " | 21/10 |

# Market Prices & Conditions

Apr 12th 1904
Packers reported at meeting had following unsold salmon on hand

| | | | |
|---|---|---|---|
| 1901 | pack | 5856 c/s | |
| 1902 | " | 19999 | |
| 1903 | " | 47747 | |
| 1903 | " in B.C. | 8068 | 81670 |
| all others in U.K. combined | | | 65000 |
| in U.K. (subtracting 8068 in B.C.) of | | | 146000 |

making tot the smallest carry over in years.
Prices lately obtained have been 26/6 for 1902 flats 29/ to 31/- for 1902 ½ flats. 32/- for 1903 ½ flats all Fraser 25/6 for 1903 Rivers Inlet 1lb Talls

June 14th 1904
B.C.P.A. as per letter to R.W. & Co have set the following prices for Australia for 1904 pack
Cif. Australia Talls Sockeye 26/6 Flats 28/- N. Flats 32/-

June 23rd 1904
B.C.P.A. sold B.C.C.Co named following prices for Canada

| | Talls | Flat | ½ Flat |
|---|---|---|---|
| Spiesna Red Springs | 5.00 per case | | |
| " Sockeye | 5.65 " " | 6.15 | 6.90 |
| Rivers Inlet " | 5.35 " " | | |
| Cohoes | 4.00 " " | | |
| Horseshoe, Maple Leaf Sovrign Clover Leaf & other equals. | 5.75 " " | 6.25 | 7.00 |

Humpbacks not listed but 2.80 talked of as probable figure.
Bell-Irving thinks prices too low & so won't offer at figures stated. Federation & Alberni have already sold Springs $4.50 subject to pack

Market Prices & Conditions

ov. Evans purchases of Rivers Inlet fish is for Australian shipment. He supplies the labels to packers. These labels all distinctly state "Skeena River" Sockeye

Ford says most of their Skeena Sockeyes go to Australia very little but ovals going to U.K. Their springs are sold principally in Maritime provinces. Their trade in springs is good for 20000 cs principally in St John

---

g 31st/04

Evans figures for selling charges ex quay Liverpool

| | | | |
|---|---|---|---|
| Talls or Flats @ 27/- | @ 4.80 for 3 months draft = | | $6.48 |
| Freight at 35/- | = | .78¢ | |
| Insurance | = | .04 | |
| Quay Charges | = | .06 | |
| Sundries at 1/2 of 1% | = | .03 | |
| Reclamations 1% | = | .06 | |
| Commissions 2 1/2% | = | .16 | .63 |
| Net price realized at Vancouver | | | 5.85 |

London has no quay charges but as a rule that is offset by a difference in freight to London. Difference is generally 2 to 3¢ per case.

---

Whitehead Oct/1904

On consigned sales agents in England now telegraph proceeds of sale instead of remitting draft. This saves 15 days interest as telegraphic exchange is no more than ordinary exchange

On direct sales draw for 90% at 90 days time. When draft is due the remaining 10% is telegraphed out.

---

ade Journal April 1905

Chas. A. Baldwin & Co, Boston, Mass advertise themselves as "New England agents Columbia River Packers Association"

 Market Prices & Conditions

1904

ABC Pkg quoted New Zealand (see letter Reid & Reid & RW & Co)
Blo Salmon 1# Falls 20/6 cif VE.
" " 1# Flats 26/- " "
" " 1/2# " 32/6 " "

ABC Pkg Co quoted New Zealand (see letter Neill & Co & RW Co)
Rivers Inlet Sockeyes 23/6
Fraser River " 27/6

Collins quoted New Zealand (see letter Riding & RW Co Sept 1st)
500 c/s Rivers Inlet 24/4 (Our quotation was 25/5)

Nov 1st/04 Evans says B.G. & Co informed him A.P.A. only sold 100000 c/s of 1903 U.K. shipments out of entire quantity exported. Price obtained 20/. B.G. & Co had placed the entire lot at 22/- but A.P.A. declined, holding out for 22/6. The difference is estimated - considering interest and carrying charges at $200,000

Nov 2nd/04 Evans says he to-day purchased 50 shares A.P.A. stock at $98. plus commission. He also bought the Venture to day

Nov 2nd/04 Ainsworth says according to his recollection the Orca pack 1901 cost $3.60 per case.

Nov 2nd/04 Kelly says the Chatham Cannery cost $90000 including tug P.J. Kelly which cost $27000. The "Davenport" worked in connection with this plant is worth about $4000.

1905
March 18th. Evans says B.C. Packers have just sold some red springs (1904) at 5.00 per case. As to the new seasons goods Canadian prices would probably not be named until late so as to give dealers a chance to dispose of past season's high priced purchases. When prices are named they will probably be on the basis of $5.25 for Maple Leaf, Horseshoe and similar brands.
Malcolm Cannon Co have already sold 20000 cases for England at 21/- for talls and 23/- for flats.

Apr 15th W.A. Ward offered 21/- ex ship Liverpool for 5000 c/s 1# talls Skeena Sockeye 1905 pack on Alaska Pkrs Ass'n terms, with 90 day draft on buyer and 3% commission to him.

May 17th Barker said Buttimer & Dawson had sold 10000 Fraser sockeye flats for England at 4.80 net at cannery and were offering additional at same price. Barker's own idea is 25/- for Fraser flats.
Ker said Todd had sold to England some Skeena 1/2 ~~lb~~ sockeyes at ~~about~~ 29/6 Exact quantity ~~& price~~ not accurately known.
Barker read letter from George saying they had sold all their Point Roberts pack at prices to be named - which he expected would be 1.35 for talls 1.35 for flats. In N.Y. alone they have sold 46000 cases. They have sold their Point Roberts Chinooks 1# flats at 1.45 per doz.
George also said the Col. River Pkrs Ass'n had sold 95000 cases Col. river chinook at regular prices and had withdrawn offers feeling they had contracted for a sufficient quantity to sell in advance

905 continued on page 223

Nov 8th Ewen
Contract for Brittania for 1905 is made already at
55¢ for flats 85¢ for half flats and 130¢ for ½ ovals
Nov. 8th Lee Coy
Contract for B.C. Cannery (ABC Co) for 1905 is made already
at 47¢ for talls, 49¢ for flats 84¢ for ½ flats.
Nov 8th Ewen
Contract for Ewen cannery for 1905 is made already at
46¢ for flats 78¢ for ½ flats
Contract for Balmoral Cannery for 1905 is made already at
48¢ for talls or flats and 80¢ for ½ flats.

# Trap Notes

Report on Straits of Juca trap locations

Site A. "W.B. English"
This is not good as it now stands but by moving toward site "B" can get good depth for trap. As it stands water is too deep

Site B. "W.A. Washams"
This is a very good location and good bottom for driving. It cannot be shut off except by a trap on site A.

Site C.
This site is very good and can get plenty of lead average depth of water seven fathoms for fifteen hundred feet or more. Bottom good

Site E.
This is best location on the beach. It cannot be shut off below by other traps and extends out beyond anything else. The tide is good and easy has seemingly a sand and shell bottom and can be held easy with proper gear

Site H.
This is very good location but will have a short lead probably about fourteen hundred feet off shore. Has good flood tide

Site M.
This is very good and cannot be shut off from below. The water is too deep to the westward. Can get long lead and good bottom for driving

Site L
This is a very good location but short. There

is a good flood tide and good bottom for driving
fish hit the beach plentifully this should be a
good location.

Unique Cannery

When erected by Windsor in 1905 plant consisted in part of

2 Iron Retorts
2 - Steam boxes
1 L&B Capper
1 " Washer
1 Finger Solder Machine
1 Power Gang Knife (low)

# Capitol City Can Co

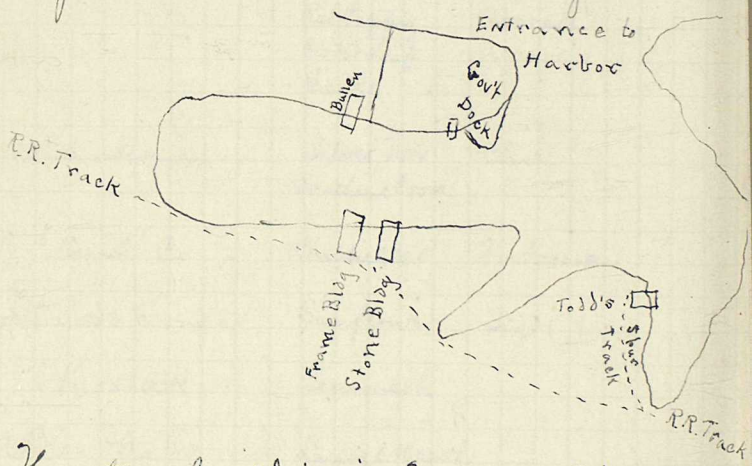
Mch 16th 1905 Leary.

Company has 3 Trawls 1 at Muir Creek, 1 half way between Muir Creek and Sheringham Point and 1 just west of Sheringham Point. This latter is the "Kineman" location.

Company has 9 years lease of Hudson Bay buildings at Esquimalt. Annual rental of $500. Have option to purchase for $

Property can be supplied with water from Esquimalt Water Co and with electric light by light Co, both of which are located at nearby or adjoining property.

The buildings are located directly across harbor from Bullen's marine works. Both from on water extending out for an equal distance. Plan is as follows



The stone building is 2 storeys 50'x90'
" frame " " 2 " 50'x100'
There is 85' between the two buildings which could be connected by a building and would leave a large wharf space for coolers.

A wharf formerly stood in front of building

extending 75' outward. For canning purposes a 50' width of wharf would suffice.
There are 5 acres of land included in property and there are two outhouses, one suitable for mess house and one for kitchen for China mess house.
Cost is estimated as follows:-

| | |
|---|---|
| Traps 3 @ $10000 each = | $30,000 |
| 1 line L&B machinery fully complete = | 7,000. |
| Steamer - Charter for 75 days = | 3,000. |
| 10 Scows (?) @ $500 each = | 5000. |
| New wharf, including gut shed = | 2500. |
| China Mess house, etc = | 2500. |
| | $50000. |
| Fin 20M cases pack @ 25c per case advance | 50000. |
| Total estimated amount required | $100,000. |

At present company includes D. Campbell, R. Hall, E.B. Marvin, Capt Cox, Capt Grant, Kinsman and one or two others. They are fighting amongst themselves and are at a standstill. Property was offered to H. L&B for $5000. and had Mess' endorsement but was turned down by old country directors. Todd also trying to secure it, but not anxious have either Todd or H. L&B. secure as of the 3 trap sites one each were sort of taken from those parties.
Can probably now be secured for $5000 and Campbell is willing put up $10000 in a new company. Hall, if wanted, could also put up $5000. Balance wanted capital for = $35000. Bank B.N.A. has offered finance for full pack requirements and would also finance for whole thing if Campbell would endorse for company. Including $5000 for buying out present owners think a total of $60000 should be had to start in with.

Clayton Cannery Skeena

July 1st/05 Plant contains
1 L&B Power Knife, 1 L&B Capper, 2 Wipers L&B, 1 L&B Finger Solder machine, 1 chain solder machine, 1 weigher, 4 wood steam boxes 2 old style retorts, 1 Pelton wheel.

Nov 15th/07 Cold Storage building is 42 feet wide by 165 feet long & 2 storeys high. Upstairs has a corridor running across the building into which an elevator, with a capacity of 5 boxes of fish, is placed. Balance of floor consists of 2 rooms running the length of the building (less corridor space).

# Carlisle Cannery Skeena

Inventory December 1904 shows following values;-

| | | |
|---|---|---|
| Nets, twines & fittings, etc | 4689.46 | |
| Boats, scows, rope, tents & fittings | 7143.52 | |
| Plant & Machinery, including tank blacksmith's outfit, small tools, coolers, bathroom fittings &c, &c | 8848.20 | |
| Building & wharves | 17000. | |
| Land | 2000. | $39681.18 |
| Cannery Stores | 3515.72 | |
| Merchandise in Store | 2548.33 | 6064.05 |
| | | 45745.23 |
| Steamer "Clive" | | 6000. |
| Total | | 51745.23 |

1898 to 1902 average gross profit $8437. This is the difference between cost at the cannery and gross realizations.

The cannery was built in 1895 and is fully equipped with one line of machinery. Boiler is in fair condition being allowed 80 lb steam. Clive is best boat on Skeena. Average pack from 1898 to 1902 was about 10000 c/s. Freight from cannery and marine insurance to Vancouver would cost 10¢ per case and if sold in England the additional charges would be about 63¢ more. In any event it is safe to say the net profit for the years named would not exceed $2000 if it averaged even $1500. In both 1903 and 1904 losses were sustained, so that cannery may be said never to have paid present owners.

Was purchased by Buttimer & Dawson in Sept 1905 for $30000. This did not take in Str "Clive" and most of the cannery stores which were previously disposed of to other parties

# Price raw fish 1902
## Fraser River
### Circular "To Fishermen"

The following uniform prices for Sockeye Salmon for the 1902 Season, have been agreed upon by all the Canners on the Fraser River, without exception

| | | | | |
|---|---|---|---|---|
| up to a pack of | 200000 | cases, | 20¢ | per fish |
| Over 200000 cases and up to | 250000 | " | 18¢ | " |
| " 250000 " | 300000 | " | 16½¢ | " |
| " 300000 " | 350000 | " | 15¢ | " |
| " 350000 " | 400000 | " | 13½¢ | " |
| " 400000 " | 450000 | " | 12½¢ | " |
| " 450000 " | 500000 | " | 11½¢ | " |
| " 500000 " | 600000 | " | 10½¢ | " |

The pack on the river will be ascertained either from the Bath Room returns or the sworn returns made to the government.

Should fishermen desire payment before the actual pack is ascertained, they will be paid 10½¢ per fish on account, any balance to be paid to the fishermen or order within one week after the end of the Sockeye season.

Trap or outside fish not to be included in the pack

# Notes re Pearse Island Site
## Lizard Bay

For sketch see notes re "Outside Canneries" in box
On Sept 10th put up 4x4" post with following notice
"Notice is hereby given that 60 days after date I intend to apply to the Chief Commissioner of Land & Works for permission to purchase the following described land situated on Pearse Island Coast District. Commencing at a post marked W.A.W. S.E. Corner said post being on the shore about one mile westerly from Lizard Point and about one eighth mile westerly from the Stone house; thence westerly 10 chains thence northerly 20 chains, thence easterly 10 chains, thence southerly following the sinuosities of the shore to the point of commencement. Containing 80 acres more or less.

Dated at Pearse Island this 10th day of September 190
(Signed) W. A. Watkins

This is a fine big well sheltered bay about 12 mile below the Naas proper. There is a fine large creek with abundance of water. Good sandy beaches with water only 9 fms deep almost at entrance and gradually shallowing to 1 fm at 100 ft off shore. The land is low and fairly timbered. To the west of creek is plenty of fine hemlock suitable for piles. The bottom of the bay seems a good driving one of sand.
In 1902 the Wales Island cannery maintained a camp here for 5 boats. They caught over 2000 fish each and only fished part of the season. The location is the best to be found for Naas river fisheries

# Dimensions of Canneries

Aug 1907

## North American Cannery Anacortes

Main building 84 x 350 feet with warehouse 60 x 300 feet
Can loft 30 x 300 feet Capacity of loft 60000 c/s cans
Plant has 3 lines. Strs Victor & Callendar, 2 Pile drivers, etc
Originally cost $300,000 of which $230,000 covered trap locations Johnson & Anderson's being $25000. Sold by receivers for $80,000 including everything

## A P A Cannery Anacortes

Fish wharf building 100' wide by 280' long from front to where retorts stand.
Boiler house
Warehouse 100 x 280 feet with L 100 by 200 feet
Can loft over warehouse 100 x 200 feet
Space between buildings 80 feet
Total wharf area 300 x 400 feet.
Space given to each complete line 25 feet width
Capacity of cleaner 30 fish per minute
Plant has 4 lines

## Pacific American Fairhaven

Main building 260 x 350 feet with warehouse 184 feet wide by 280 ft long on one side by 360 ft on other side. Capacity of warehouse 300000 c/s
Plant consists of 9 lines machinery working into 17 retorts and 14 steam boxes.

 Dimensions of Canneries

Aug/1908

Washington Cannery Fairhaven (Seaborg)

One building 200 ft wide by 260 feet long one storey high
Plant consists of three lines of machinery with 6 retorts and 5 steam boxes

---

Nov 1st 1904

San Juan Fishing Co Seattle (Dudder)

Cannery building poorly lighted and low. Badly cut up. Warehouse in separate building. Plant is 1 line including washer Schaake capper chain solder machine, rotary cumper, Smith fish cleaner, three wooden steam boxes and 2 retorts.
Cannery operated 1904 under name of W.P. Doherty & Co

---

1898

Alaska Fishermens Pkg Co. of Astoria, Ore.

Capital stock $70000 in 140 shares of $500.00 each

Cannery located at Nushagak. Estimated capacity 50000 c/s. Value as estimated by Brimbrook $175000.

General Notes

Brunbrooks figures re Behring Sea Canneries
Dec 9th 1903.

| Plant | Location | Estimated Pack | Plant Valuation |
|---|---|---|---|
| Naknek Pkg Co | Eugashik | 35000 c/s | $65000 |
| Do | Naknek | 50000 | 50000 |
| Red Alaska S. Co | Eugashik | 35000 | 90000 |
| North Alaska S. Co | Egagik | 35000 | 90000 |
| Do | Kogguung | 80000 | 275000 |
| Do | Nushigak | 30000 | 75000 |
| Col River Packers | " | 40000 | 100000 |
| Alaska F & P Co | " | 50000 | 175000 |
| Alaska Salmon Co | " | 35000 | 90000 |
| Alaska Portland P. Ass | " | 60000 | 175000 |
| A. P & N. Co | " | 100000 | 750000 |
| Total | | 550000 | $1335000. |

Notes

All are well equipped except Neknek Pkg Co property. Outside of A P & N plant Brunbrook estimates cost of operation not to exceed $3.00 per case including marketing. On selling price of 4.00 per case profit would equal 18 1/2 % profit on valuation stated.

A.P.&N. plant includes cannery at Port Alexander on left bank Nushigak river together with floating property at cannery the ship America, str Mary D. Hume, three cannery sites on the Kogguung & one on Neknek river. Cannery was built in 1899 Capacity, when worked in connection with fishing station on Kogguung, 100 000. Estimates value floating property alone at $90000. This includes besides boats mentioned pile driver, lighters, fishboats, etc. In the $350000 mentioned as purchase price is included $50000 worth of canning material.

Columbia River Pkrs plant is on Clarks creek. The capacity of machinery & plant is 50000 c/s. Buildings are well built & situation good for handling cargo and fish. Price named includes floating property.

Alaska F & P Co's plant is near Port Alexander. Building

and equipment in good condition. Price includes floating property.

Peterson's location on the Kogguing at Graveyard Point. This site has a building 50 x 120 feet ready for installation of machinery, 1 mess house, bunk house and 15 fishing skiffs complete. Location considered best on river being centrally located for fishing & handling cargo. Best used as fishing station to supply Nushigak plants although buildings ready for immediate installation machinery. Location, buildings, and boats valued at $15000.

Kogguing is 80 miles from Nushigak. None of the last three mentioned properties have deep sea steamers or ships.

st 11th/04
Pacific Northern Cannery, Observatory Inlet
has a finger solder machine, 2 steam boxes, 1 retort
One of the steam boxes is iron but is only equal to a
wooden box.
all boats are round bottom. Str "Nagasaki"

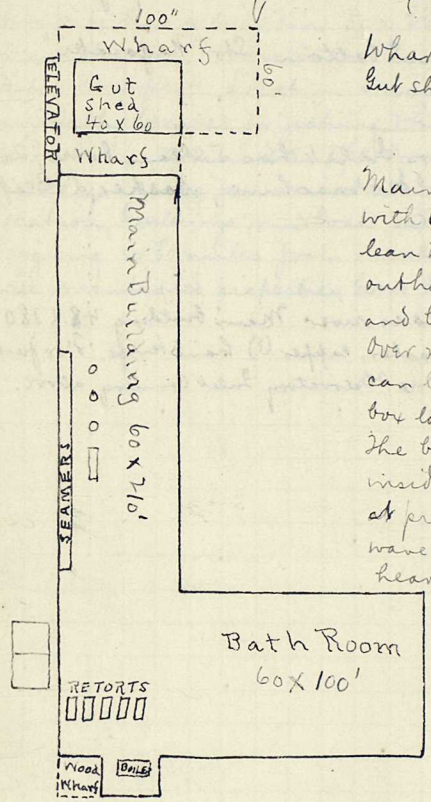
ct/04
R.J.C. Cannery Rivers Inlet has 5 steam boxes, 2
retorts, finger solder machine, washer, L&B capper,
+ chain crimper.

ly 2nd/05
Wallace Cannery Naas river Main building 48 x 180'
Return tubular boiler, washer, capper (?) hand knife. For further
equipment see note re Observatory Inlet Cannery above.

# Wales Island Cannery

Sept 12/04

## Cannery building



Wharf is about 60 x 100' with Gut shed on it about 40 x 60'

Main building about 60 x 210 with L 60 x 100' and smaller lean to shed for boiler. Small outhouse on side is oil house and blacksmith shop. Over main building is a large can loft. Over Bathroom is a box loft.
The building is in need of inside bracing having none at present. There is a slight wave in building owing to the heavy weight of 190 2 pack and lack of braces. Buildings are all of fir lumber. All D.D. lumber D.G. & Rustic

The boiler is brick yard 16 x 60 made by Reid of Fairhaven and seems first class. Also 1 small vertical boiler.
There are 3 wooden steam boxes and 2 L & B new style retorts
1 Seamer Fire Pots } clarke kerosine burner system
1 " Frames }
1 L & B Capper 1 L & B Washer 1 Rotary Crimper
1 Ringer Solder Machine 1 Fine 70 H.P. Engine 1 Fish Elevator
10 bbls Lacquer about 200 Coolers about 100 cds wood
about 8 purse seines, lines & all complete

# Wales Island Cannery

4 Scows 14 x 45' crowned decks
3 " Small " " for about 4000 Sockeye
1 " camp
Very large China house
" good Mess "
" " store "
2 " " dwelling "
Rows of Indian shacks
3 good Round bottom boats
8 Seine boats

Pack since erection in 1902.

| Year | 1902 | 1903 |
|---|---|---|
| Sockeye | 2485 | 2981 |
| Coho | - | 534 |
| Hump. | 15,150 | 31302 |
| Total | 17635 | 34817 |

# Notes re Skeena Lumber Co

Stroman October 1904.

| | |
|---|---|
| Value Mill buildings, outbuildings, mill boom etc. Say | $ 3000. |
| " Machinery (all paid for) | 4475. |
| Total Assets | 7475. |

| | | |
|---|---|---|
| Due Simon Leiser & Co | $3000. | |
| " Labor | 1500. | |
| Total liabilities | 4500. | 4500 |
| Excess assets over liabilities | | 2975 |

Daily capacity about 10 M feet cut
Nominal " " 15 " " " daily
Power is sufficient for " 25 " " " "
The edger in use belongs to plant, but the planer is a small one loaned by Heaps.
The land the mill is situated on does not belong to the Skeena Lumber Co

Lothian Nov 5th 1904

Wages for running mill full capacity would cost $20 per day, everyone included. Oil & sundry suppl would be about $2. per day extra
Has good return flue boiler 130 lb working pressure allowed. Cost $1300 One engine 60 HP fairly good condition worth $400 One " 60 " has broken piston heads. Might sell for $100.
Average daily capacity in boxes is 1000 boxes. It takes 10' lumber per box.
Mill would only shut down 2 months through weat
Has edger ($100) box saw $100) & all carriages tracks etc for 10 M ft capacity ($2500) Say all worth $2700. Value mi & out buildings $1500.
Would require top saw & planer with belting etc about $100
" " warehouse for box lumber double floored — 50
" " scows for delivering lumber — 50
Total new expenditure necessary outside present out 200
Property as it stands will probably bring 20

Lothian continued

Claims for labor — for which writs have been issued — about $2000. Simon Leiser also the other creditor is about $3000 — unsecured. Could probably sell 150M ft lumber at say 13^00 = $1950. and 32000 boxes @ 12½¢ = 4000. Say a total of $6000. This would require 480M ft lumber costing $3 per M delivered at mill = $1440
Labor for ten months say 240 days @ $20 per day = 4800
Oil & sundries for - 240 - - - - 480
Total estimated operating cost say $6720.
This would show a loss unless more business could be secured or above output obtained in less time thus cutting down operating expenses. Lothian thinks could easily obtain order for 50M boxes when Naas & Lowe inlet considered. If so on above estimate a profit of $1000 could be realized.

Lothian says Cunningham mill has lost money steadily owing to bad management and expensive cost of operating. Mill has daily working capacity of 75000 ft and would employ about 30 men running full time. Lothian says ordinary mill hands — labs — get about $1.75 per day. About 8 men would run S.L. Co. plant full capacity. Boxes at less than 12½¢ each could not be produced profitably.
