WORLD'S NEWS IN BRIEF.

Bad Times in South Africa—Lord Rosebery Again.

McGovern-Corbett Fight—An Alpine Disaster.

Lord Minto attended the banquet given by the Montreal Board of Trade to Sir Edmund Barton, Monday night.

Nuns recently expelled from France are going to Rat Portage to operate a hospital. They will bring complete appliances with them.

Callander, of Toronto, a former champion quoiter of the Dominion, won the Woodstock club medal and cash prize, defeating Errington, of Glanworth, the Canadian champion, by 61 to 16 at Woodstock.

According to a Capetown dispatch immigrants are faring badly in that place. Work is scarce and the parks are filled with penniless sleepers. Beggars are increasing and robbery and violence are on the increase, but are not being reported in the Capetown press. British soldiers are charged with being the offenders in many cases.

Pretoria dispatches contain disquieting reports as to the sedition brewing in the Transvaal, where the Dutch clergy preach of the "rebuilding of Zion," and such men as the "National Scouts" are denounced from the pulpit as "unsuitable stones." It is stated that there must be at least two rifles hidden for every ex-burgher.

I. N. Ford, cabling to the Tribune from London, says that M. R. Parks, M.P., a prominent Wesleyan, and one of Lord Rosebery's most ardent supporters, is urging nonconformist voters, through a manifesto, to take an active stand against the education bill and to contest every Tory seat at the general election. He advocates the abandonment of the Irish home rule question, and urges a Liberal reunion under Rosebery, with an alternative education policy.

Remo, where he will spend the winter with some of the Boer leaders.

At a land sale at Dereingham, near the Prince of Wales' new estate, several plots of land which will be used for game rearing purposes, were sold at over $500 per acre.

The efforts made by Midland iron masters to induce the railway companies to modify their recent regulations with regard to railway rates have not realised the success hoped for.

Mme. Isacesque, the Austrian lady swimmer, has arrived at Dover with the object of making her third attempt to swim the Channel from the English side.

Major Leroy Ledurie, who refused to bring a detachment of his regiment to Douarnenez, in Brittany, to aid in the expulsion of the sisters there, is to be tried by court martial.

Miss Olga Netherscle is a guest just now of the Duke of Richmond, at Gordon Castle, where she spends a portion of almost every day fishing in the Spey.

The Kaiser intends to create for the Crown Prince the new title of Prince of Alsace Lorraine. The idea is excellently received by the people of the two provinces.

Count Tolstoi wishes to leave Russia, but has been prevented by the authorities, who have refused to issue a passport to him.

Now that the Coronation is over, the 16,000 men of the Metropolitan police are taking their holidays in turn. Thirteen days' leave is the period of rest given to the men.

It is feared another disaster on the Wetterhorn, Switzerland, has occurred. Two brothers named Pearson, Englishmen, left there on Tuesday with two guides to make the ascent, and have not come back yet. Great anxiety is felt and a party of 30 men has left to look for the missing mountaineers.

The Liverpool Post's London correspondent writes: I understand that special attention will be given by the War Commission to the condition of our field artillery. During the South African war our guns were notoriously out-ranged by those of the Boers. We obtained from Germany many pieces which had to be patched up before they could be made effective. There is, I learn, a good prospect that before long our field artillery will be supplied with a weapon superior to any in existence. It has a longer range than our 15 pounder, the muzzle velocity is greater, and the projectile is more formidable. Should this gun fulfil all that is claimed for it, the sooner it takes its place in our batteries the better.

LIFE IN JOHANNESBURG.

Letters from Johannesburg indicate that the cost of living has increased enormously, and soup kitchens will be in demand before Christmas. One writer states that after a month's experience in a boarding house at 10 guineas per head per month he and a friend succeeded in renting a house at $45 per month in advance. The best hotels are charging $5 to $25 per day. Milk costs 18 cents per bottle, paraffin $2.20 per gallon tin, bread 12 cents for a two pound loaf, butter 48 cents per pound, and eggs 8 to 12 cents each. One shilling buys three pounds of potatoes, carrots cost 3½ per bunch of three, whiskey is 6s. a bottle, and Bass' ale and Guinness' stout, small bottles, 15s 6d. per dozen. Laundries charge 18 to 20 cents for washing shirts, 4 to 6 cents each for handkerchiefs, and fail to recognize any claims for damages. Coal only is at a reasonable price, selling at $6.25 per ton.

Veteran smokers say that when they light up "THE PROVINCE" cigar.

LADYSMITH PUBLIC SCHOOL.

This community is confronted with a most serious problem, namely what to do with the 500 children of school age resident here, until the new school building can be prepared for their reception. We are informed on what we take to be good authority, that the building will not, can not, be ready before Christmas.

If there is any truth in that we do not envy the school trustees the time that is immediately ahead of them at the hands of the indignant parents of this town. One thing is very clear—something has to be done to accommodate the school children, somewhere; for the unfortunate children must not be made to suffer because arrangements have been badly made by somebody. It is not a pleasant contingency to contemplate, this of half a thousand school children wandering about the public streets because there is no school accommodation for them.

It has been suggested that some of the numerous public buildings in town should be hired for their accommodation and that a start be made at once in holding regular classes. No doubt some relief could be secured in this way; at all events, something should be attempted.

The time lost now will be hard for many of the scholars to make up later on, and it does not give the young people who are at a critical period of their studies a fair chance in the competition to which they are inevitably exposed nowadays in trying to push themselves forward.

We hope that some move will be made in the direction of hastening on the building of the school or opening temporary schools, so that the work of education can be carried on somehow.

DID OUR BEST.

Thanks to the broad public spirit of the executive of the Ladysmith Board of Trade, and more especially of its worthy president, Mr. P. H. Marshall, the visiting British journalists were not permitted to pass Ladysmith's door without stopping to break bread with us. They will without doubt cherish pleasant recollections of the half hour spent in the newest and most enterprising city of the Great West, and we hope will not fail to give our fair little town a good "write up," in the influential newspapers which they represent.

It was just like those fellows down the line to waste the time of the visitors as they did so they should have none for more important places like Ladysmith, but we made the best of a bad job, and it was a feather in our cap to get them to stop off here at all.

We shall keep a shining eye upon the the various Old Country papers which come this way and any reference to Ladysmith will be duly chronicled.

The editor of this paper is personally acquainted with two of the party, with one of them particularly well; old comrades of the pencil; and it was most unfortunate to be "under the weather" at such a time.

There can be no question that those gentlemen will do British Columbia simply incalculable good with their facile pens. They will probably turn a stream of sturdy British immigration into the Northwest and this Province, and send here many a man who will be a tower of strength to his adopted country.

Those jaunts by intelligent and cultured journalists are splendid things for opening the eyes of the people of widely-separated portions of the Empire as to how the people in other portions live.

One is amazed that human beings can cling to such a hell on earth as Martinique, after what has happened. It is a good example of the fact that hardy human nature can get used to anything.

We should like to ask Mr. Ralph Smith, M.P., if he knows what has become of that Dominion Government official who left Ottawa some months ago to examine Ladysmith harbor as to lighting. We would like to know if he failed to find the place or went astray in the mails.

VOICE OF THE PEOPLE.

CAVE CANEM!

Editor Leader:—Along with others I heard of the wonderful device that gained applause and second prize in the procession at Nanaimo on Labor Day and have also heard it called an insult to our own town, but perhaps there are two things which we forget, first, that Nanaimo is in the position of the fox who said "The Grapes are Sour," when he could not reach them and secondly, they may have applauded the fact that when Ladysmith is incorporated she will have a good revenue from the dog-tax, as it is unquestionable that for every person who has come from Extension to Ladysmith we have had three dogs, and the prospects are favorable for a large addition shortly, therefore we can be generous with our friends and forgive the applause given to a cur.

OBSERVER.

NOT SHOT TO CITIZEN.

Editor Leader:—In regard to "Citizen's" anxious wish for the "fat fellow" to explain his ticklish position on Labor Day, I will try to explain. In the first place I am just as much a citizen of Ladysmith as the sore-headed fellow who signed himself "citizen." I am one of the useful men who make good citizens of any town, as you know that it is the workingman that is needed to make a good town. How long would this town stand if it was filled with men all following such useless occupation as my "citizen" friend? afraid I think of manual labor. I am a member of a union; as my friend should know there is a teamsters' union in town and as a teamster I, with others, went to Nanaimo to celebrate and help others to do the same. I did not go to find fault with how people enjoyed themselves whether from Nanaimo or Ladysmith. One thing more I will tell you "citizen," the majority of us "skinners" are natural-born citizens of this country; we are not emigrants or imported useless tramps, we are not afraid of hard work or even ashamed to see any of our names in print, we are too manly to attack any man behind a nom-de-plume. One thing this "fat fellow" would like to know is how many houses in this town do you own? I am certain you own not one as big as that one on the buggie. Hoping, Mr. Editor, I am not taking up too much space I will not answer "citizen" unless he comes out under his name. I know him but the public don't know "citizen."

THE BRITISH JOURNALISTS.

Ladysmith Welcomes and Entertains Them for a Few Minutes.

Last Friday the party of British journalists who are touring Canada, left Victoria on the steamer Yosemite, bound for Crofton and other points along the East Coast of Vancouver Island. They were accompanied by the Hon. Col. Prior, minister of mines; Mayor Hayward, of Victoria; Mr. G. L. Courtney, of the E. & N. Ry.; and other distinguished people.

The party spent so much time viewing the operation of lumbering at Chemainus camp and mills that very little time was left in which to visit Ladysmith and Extension mines as had been arranged. Half the party boarded the Yosemite and went direct to Nanaimo, whilst the remainder came up here by special train from Chemainus.

They were received here by the executive of the Board of Trade, headed by Mr. P. H. Marshall, president. So pressed for time were the party that it was only Mr. Marshall's most hospitable invitation that induced them to land and repair to Mr. Marshall's residence, where Mrs. Marshall assisted by Mesdames Scriven, Kiddie, Freel and Jessop, had provided a sumptuous luncheon. A very pleasant half-hour was spent and an excellent impression was made upon the visiting newspapermen as to Ladysmith's hospitality. The strangers departed expressing great regret that they had not been able to inspect Ladysmith closely.

The thanks of the citizens are certainly due to Mr. and Mrs. Marshall for the manner in which they sustained the reputation of this town on that memorable occasion, and THE LEADER actuated by a lively sense of the obligation under which it has been placed by them, and also by the Board of Trade executive, most cordially extends its individual thanks.

The newspapermen went on to Nanaimo on the special, arriving there about 6 o'clock. They went down the coal mines, and saw the other lions, under the auspices of the Board of Trade, then went to Vancouver on the Yosemite to catch the eastbound express to Montreal.

There is little doubt that Ladysmith will receive at least mention in the articles which will be written about this portion of the trip, but it is a pity that more time was not allowed here.

THAT LICENSING COURT.

Applications Are All Withdrawn Until Further Notice.

Not much business was done by the licensing court for South Nanaimo district on Saturday in Nanaimo city, as the following item from the Free Press of that place will show:

"A session of the licensing court was advertised for 2 p.m. today, but no court was held because there was nothing to come before the commissioners. Applications had been made by Hugh Bates, John Tha, August Dindouffe and Geo. Johnstone, of Extension, for transfers of their licenses to Ladysmith, but these applications were withdrawn before the hour appointed for the court to open. These applications will be filed again in the course of a couple of days. F. McB. Young is acting for the applicants.

THE LEADER has not been able so far to learn why the applications were withdrawn. It is understood that the next meeting and all subsequent meetings of South Nanaimo licensing court will be held in South Nanaimo district.

DECREASE OF KLONDIKE GOLD OUTPUT.

Consul H. W. Brush reports to the State Department:

Mr. George H. Hees was recently sent to Dawson by the Canadian Manufacturers' Association to make a thorough examination into the business prospects of the Yukon Territory. He has issued his official report, and it is decidedly pessimistic. The total yield of gold last year in the Klondike was $24,000,000. The production of the coming year, according to the government estimates, will not exceed $14,000,000, a falling off of nearly one-half. No new discoveries have been made for over a year, although since 1897 thousands of prospectors have been exploring every creek and mountain in the country. At Dawson Mr. Hees reports 10 applicants for every job; yet boatload after boatload of men continue to arrive, the transportation companies keeping up the illusion abroad that Dawson is the needy-man's paradise.

TYEE SMELTER PROGRESS.

Machinery Now Being Installed and Buildings Finished.

Although there remains yet a good deal of solid hard work to be done before the the Tyee Copper Company's smelter here can be blown in, the work is being pushed ahead as fast as possible, and the prospects are favorable for a start on smelting operations not very far from the date hoped for by the management. All the big work has been done. The massive character of the work now being done has to be seen to be appreciated properly; it is not the kind of work that can be "rushed" successfully.

The labor, for instance, of clearing the tracks of the two spurs of railway line which run in from the main line of the E. & N. railway to the smelter buildings, was one of great difficulty, owing to the tough nature of the ground, the immense number of deep-rooted stumps and the quantity of boulders that had to be removed. This work is now well forward and trains will be running up and down in a day or two

DASTARDLY TACTICS.

On Monday night Nanaimo Free Press printed what it called "a rumor on the street," purporting to be a statement that the sheriff had taken possession of Extension mines on behalf of a Mr. Shepherd, representing the Pacific Improvement Company.

It is not necessary for THE LEADER or any other paper to take the trouble of investigating this extraordinary story; the Free Press itself in the same article does all that, showing conclusively that there was not even the shadow of ground for the malicious yarn. It was contradicted wherever authorities were consulted.

Yet, such is the dearth of news in Nanaimo and of common sense and common decency in the Free Press office the falsehood had to be used, or the suffering readers of the Free Press would have had to peruse another half-column of sixty cent plate matter. If the Free Press would stick entirely to plate matter and not wander into the dangerous ground of original composition it would find it much more comfortable, and (the sine qua non with the Free Press) far cheaper, and its readers would be much more edified.

TELLUS IN TROUBLE.

Collides In a Fog and Breaks a Propellor Shaft.

Shortly after leaving San Francisco on her present trip to Ladysmith the steamer Tellus, Capt. Pedersen, ran into a dense fog. Feeling her way through slowly with the horn going, she suddenly went smash into the schooner O. N. Kellogg, bound for 'Frisco. The Tellus' iron prow sliced the schooner down to the water's edge, and for a time things looked dubious. A hawser was passed aboard the schooner, the Tellus standing by for a while. The Kellogg's captain after reckoning damages and finding he had not changed his destination from 'Frisco to Davy Jones' locker, cast off the line and sailed off. The Tellus then came north under forced draught and unluckily broke one of her propellor shafts. She sustained no damage in the tête-a-tête with the Kellogg, except some paint rubbed off her bows.

AN ENTERPRISING MERCHANT.

Mr. W. H. Lively, the First Avenue jeweler, certainly hit the popular taste to a dot when on Saturday night last he sprung upon them his new gramophone with a battery of lively tunes of the most popular variety. The crowd around his store during the concert, showed how much the treat was enjoyed and how much the novelty was appreciated. Mr. Lively has distinguished himself on more than one occasion lately with his public spirit, and he cannot fail to reap his reward in popular approval, for the public believes in enterprise. It is generally hoped that Mr. Lively will not grow weary with this kind of well-doing. THE LEADER believes he contemplates still further pleasant shocks for the amusement-loving public of Ladysmith, and is already preparing a Christmas surprise, which will eclipse all former efforts

PERSONAL.

Ald. Planta was in Ladysmith on business Saturday.

Judge Harrison was a passenger to the capital Saturday morning.

Mr. Ralph Smith, M.P., on Saturday, gave Ladysmith a call.

Mr. Thos. Kitchin was down Saturday on his usual business trip.

Mr. J. H. Simpson, Nanaimo barrister, was a passenger to the Capital Sunday evening.

Mr. A. R. Johnston, paid Ladysmith a business visit Saturday.

Mr. Thomas Dobeson and wife of Nanaimo, drove into Ladysmith on business Monday. They returned in the afternoon.

Mr. John Kiddie, civil engineer for the Tyee Copper Company, left Ladysmith this morning to resume his studies at Cornell University, New York. He was accompanied by his brother, Mr. Geo. R. Kiddie, who goes to New York to take up his art studies at the Art League of New York.

LADYSMITH SHIPPING.

Str. Tellus, Capt. Pedersen, arrived from San Francisco on Sunday and loaded her usual cargo of Wellington coal for the same port, sailing again yesterday morning.

Tug Mystery called Sunday for fuel.

The San Mateo, Capt. Fletcher, arrived Sunday for a cargo of Wellington coal. This is one of the regular Nanaimo-Port Los Angeles line.

RAMBLER'S NOTES.

The rail is all right, Tommie.

Rumors of a Liberal meeting next Saturday night.

Walter Jones went to Nanaimo on "Biz" last week.

Ralph Smith, M.P., was in town Saturday night, looking into postoffice matters. It is to be hoped he does the right thing; that is, if he cannot help, don't let him hurt a poor man. Some whispers of a change of postmaster. Petition said to be in circulation.

Said Ralph Smith has his eye on a building lot here and will go to work in Extension mines, if he can get a job.

If you're in Nanaimo this week

On Sunday a number of good-sized bush fires were going all around Ladysmith.

Quite a number of bush fires are raging along the E. & N. track, between here and Nanaimo.

The last of the pipe for the waterworks is expected to arrive here this week. Then for a wash!

If it is a nice clock you are looking for we have them from $1.00 to $18.00. W. H. Lively, Ladysmith's Leading Jeweler

An important meeting of the Ladysmith Liberals is talked of for Saturday night. Many think it is time to organize.

Mary had a little ring;
It shon with beauty rare.
She said it was her engagement ring
And was bought at Lively's store.

Numbers of local "sports" have derived great amusement from gaffing half-dead salmon, in a rotten state, running up the neighboring creeks. Those "sports" must be of the "dead game" variety.

Meet you Transfer wharf at 8 15 Sunday morning, to catch Joan for Vancouver.

The entertainment given by Miss Pauline Johnson and Mr. McCraye in Ladysmith Methodist church Thursday night, was not patronized so well as such a capital entertainment should have been. It was a treat such as is seldom enjoyed in Ladysmith.

Lively repairs all kinds of English, Swiss and American watches.

From the fragrance of the occasional whiff to be obtained during a stroll about town one could wager anything that the subject of typhoid fever will be up for discussion before the present summer comes to an end, if something is not done to prevent unsanitary conduct.

Mr. Peter Teusz, First avenue, was severely injured about the lower part of the body while at work in Extension mines Monday. He was caught between some boxes and the brattice. Mr. Teusz was brought to his home in Ladysmith, and yesterday morning was sent down to Jubilee Hospital, Victoria for treatment.

Several persons are reported as having suffered badly cut feet while bathing in the little bays opposite Ladysmith, due to broken bottles thrown into the water just where they would be trodden on by bathers. The punishment of the criminal-idiot who smashes a glass bottle and leaves it on a road or in shallow water should be left to some of his victims.

The Ladysmith Leader

JOB PRINTING PRICES.

THE LEADER Is ready to prove to anybody who wants to save money on Printing that this shop's prices are lower than those of any other office in the country. Having satisfied ourselves on this point we shall be pleased to compare notes with any who doubt.

The quality of THE LEADER'S job work is equal to anything produced in the Province.

THE LEADER employs only skilled union workmen, receiving the full union scale of wages; its prices and quality are always up to the accepted standard.

Ladysmith merchants and others who send to Victoria, Vancouver and other places for their job printing can save money, time, misunderstanding and annoyance by investigating THE LEADER'S statements as published here. When we cannot print certain classes of work we tell you so, we do not take your order, have it done elsewhere and charge you middleman's commission.

Our Motto Is:—"Square dealing; one price for all; our best work in every job." No trouble to estimate. Call and see us about that job printing work you are wanting and we will save you money.
