THE LADYSMITH CHRONICLE

With Which Is Amalgamated the Ladysmith Standard.

VOL. I. Ladysmith, B. C., Saturday, April 3, 1909. No. 63.

Meeting of Citizens' League

There was a very interesting meeting of the Citizens' League at the city hall last Thursday evening. The discussions included a wide range of subjects, all of more or less importance to the citizens of Ladysmith.

In the absence of the president when the meeting was commenced, Mr. V. B. Harrison occupied the chair.

The minutes of the previous meeting were read and approved.

Mr. Theodore Bryant reported the result of the visit of the delegation to Victoria to investigate the septic tank question. The ground was fully covered by Mr. Bryant's report to the council some weeks ago. Mr. Bryant remarked incidentally that the council expected the League to select an engineer to make the tests required by the Provincial Board of Health.

Dr. Dier stated that he believed it was fully the intention of the council to install the sewerage system without a septic tank, and he believed that this was the reason why the tests had not yet been made.

Mr. John Stewart referred to the recent formation of a branch of the Vancouver Island Development League in Ladysmith. The suggestion to form the branch came rather suddenly, and those present at the meeting realized the necessity of early affiliation with the Vancouver Island Development League. For many reasons it now seemed as if it would be desirable to merge the Development League into the Citizens' League.

Moved by Mr. T. Bryant and seconded by Mr. T. McIntyre that the local branch of the Vancouver Island Development League be merged into the Citizens' League.

The motion was carried.

Secretary Wilson asked Mayor Nicholson if the council had done anything with regard to the planting of shade trees.

Mayor Nicholson replied that the League had not decided on the variety of trees to be planted.

Mr. Bryant said the school board was going to plant trees at its own expense. There would be 5 trees needed, and the intention was to get them out of the neighboring woods.

Secretary Wilson was under the impression that the mayor had promised that the trees would be supplied to the citizens free.

The mayor had no recollection of having made this promise, and if he had made such a promise he had no authority for doing so.

The matter will in all probability come up at the next meeting of the city council.

The members of the League then discussed in a formal way the suggestion of a park. Every member present contributed to the discussion. The general impression seemed to be that the property inside the city limits known as the market square would never be used for the purpose for which it was laid out. Several of the speakers pointed out that at the present time it was an eyesore to the city, and that something should be done to turn it into revenue.

The necessity of the city securing some land for park purposes was also urged by one or two speakers.

The mayor explained that the market square could only be sold on the consent of the land owners of the city, and it would be necessary to secure their consent before anything could be done.

It was moved by Dr. Dier, seconded and carried, that a petition be presented to the ratepayers asking for power to dispose of the city market square, and that a portion of the revenue to be derived therefrom be used for park purposes, and the rest for general municipal improvements.

While this motion was under discussion it was pointed out that the lots should be sold under certain municipal restrictions, and that a good class of buildings should be erected on the grounds thus disposed of.

Dr. Dier brought up the matter of the Alaska-Yukon-Pacific exhibition. He had been appointed one of the committee to look after the excursion, and it was suggested that the council and Citizens' League should work in harmony. He believed that there should be a demonstration worthy of the city.

During the discussion it was pointed out that the Ladysmith brass band intended getting up an excursion for the occasion, and the opinion was freely expressed that the council and the League should waive their rights and assist the band. The question will be discussed later on.

After reading two communications of an unimportant character, the meeting adjourned.

The provincial government is to pay one-third of the cost of the new school building at Revelstoke.

It is claimed that Vancouver receives and sends out nearly twice as many sea-going vessels as Montreal.

The Edenbank Creamery Co., of Chilliwack, has distributed over $57,000 profits from last year's operations. The company made almost a quarter of a million pounds of butter in the year, the average selling price being 29½c.

E LOWE,
Secretary.

"WALK."

Up the dusty road from Denver town
To where the mines their treasures hide,
The road is long, and many miles
The golden store and town divide.
Along this road one summer day
There toiled a tired man,
Begrimed with dust, the weary way
He cussed as some folks can.
The stranger hailed a passing team,
That slowly dragged its lead along,
His hail raised up the teamster old,
And checked his merry song.
"Say stranger, ken I walk behind your load
A spell on this yer road?"
"Wal, no, you can't walk, but git
Up on this seat and ride, up here."
"No, that ain't what I want, ...
For it's in yer dust, that's like a smudge
I wan't to trudge for I deserve it."
"Well, pard, I ain't no hog, and I don't
Own this road afore or hind,
So just git in the dust and walk
If that's the way yer inclined.
Gee up, go long," the driver said,
The creaking van moved on,
The teamster heard the stranger talk,
As if two trudged behind his van,
Yet looking back could only spy
A single, lonely man.
Yet heard the teamster words like these
Come from the dust as from a cloud,
For the weary traveller spoke his mind,
His thoughts he uttered loud.
And this the burden of his talk:
"Walk, now yer —— fool, walk,
Not the way yer went to Denver,
Walk, —— —— yer walk,
Went to the mines and made yer stake,
'Nuff to take ye back to the state
Whar yer were born.
Whar in smoke's yer corn?
Wall, walk —— yer, walk.
Dust in yer eyes, dust in yer nose,
Dust down yer throat and thick
On yer clothes. Can't hardly talk,
I know it, but walk —— yer, walk.
What did yer do with all yer tin?
Yes, blew every cent of it in!
What did yer do? What didn't yer do?
Why, when you were there yer gold dust flew,
Yer thought it fine to be opening wine,
Now walk, you son-of-a-biscuit, walk,
Chokes yer this dust, well that ain't the wust,
When yer get back to whar the diggins are,
No pick, no shovel, no pan, Wal, yer're a healthy man,
So Walk, —— yer, walk,"
The fools don't all go to Denver town,
Nor do they all from the mines come down,
Most of us all have in our day,
In some sort of shape, some kind of way
Painted the town with the old stuff,
Dipped into stocks, made some bluff,
Got caught somehow, in something,
And walked, yes, how we walked.
Now don't try to yank every bun,
Don't try to have all the fun,
Don't think real estate won't fall,
Or that anything else is a certain haul,
And don't think you know it all,
For if you do
You can bet your sweet life you'll walk."

(The incident referred to in the skit entitled "Walk," did not occur in Denver, but is an actual incident of 40 years ago, and yet applicable.)

DEBENTURES SOLD.

Late Wednesday evening before the expiration of the option held by George Stimson & Co. on the electric light debentures, word was received from that firm through their representative here authorizing him to purchase debentures at 94. This is considered a good price, and will be accepted by the city council. There should not be any delay in getting to work on the installation of the electric light plant, and Ladysmith should be lighted by electricity same time early this autumn.

Nothing is done without enthusiasm. It is heart that wins, not head, the round world over.

Do not aspire to be King of the Bellinakers—there's too much competition for that place.

Local and General News Notes

Mr. John A. Blair, Ladysmith, is registered at the King Edward, Victoria.

Eugene Heinel will start a roller rink at Chilliwack. He left for that town this morning.

The residents of Duncan will hold a public meeting to discuss a proposal for incarporation and a system of sewerage.

Leonard Norris, government agent at Vernon, has in his possession one of the $20 gold pieces coined at New Westminster in 1862. He has been offered $700 for it.

It is understood an effort will be made to secure a few lots of the grounds recently cleared for the erection of a new Anglican church.

There was a report that a man had attempted suicide early yesterday morning in Ladysmith. There does not seem to have been any ground for the rumor.

The gravel being taken out for the foundation of the new Nicholson block is being spread over Gatacre street, and will add greatly to the appearance of that thoroughfare.

Manager Ward, of the Telephone Company, has installed a new apparatus for use in the Ladysmith-Vancouver telephone line. It is now possible to hear the speaker at the Vancouver end as plainly as if he were in the same room.

Mr. J. E. Smith received a telegram from Vancouver announcing the death of Mrs. M. Gibson to-day. Mrs. Smith left for Vancouver last night on the transfer, and presumably reached there in time to be at the deathbed of her mother.

The Vancouver News-Advertiser referring to the appearance of the Williams Jubilee Singers in that city says: "The concert given by the Williams Jubilee Singers in the Orange Hall was a great success. Every member is a good star, and every number good."

The Chronicle is in receipt of the first copy of the Evening Post, the new daily paper printed and published at Victoria. It is a sixteen-page paper, carefully compiled, well printed, and with due attention to the news requirements of modern daily papers. Its first issue contains a large amount of advertising matter, a very important factor in the success of any paper.

Good crowds attended the Opera House this week and the pictures were good. "Ingomar," the old old Greek story, was especially enjoyed by those who have seen the play, and the operator's lecture explained it nicely to the audience. On Monday night there will be no pictures as the stage will be occupied by the Jubilee Singers but Tuesday night there will be a change of programme.

The minister of works stated yesterday that it was about decided to use ferro-concrete piles for the Prince Rupert wharf as it is impervious to the teredoes, which make short work of the ordinary piles. This decision is being arrived at after correspondence with the Antipodes, where such piles have been successfully used both in Australia and New Zealand. The wharf will be 600 feet long, 80 feet wide and two approaches each 40 feet in width.

Preparations are already under way for a grand celebration in Alberni on May 24th, and the indications are that there will be a programme of sports that for variety and interest will surpass anything yet witnessed in that district. One of the main events will be a five-mile race for which a silver cup has been donated by E. M. Whyte. A number of long distance runners have commenced training, and competition promises to be lively. It is likely that Frank Baylis, of Victoria, will be present.

The statement that Ald. Dier suggested at the last meeting of the council to raise another $10,000 for the completion of the sewers, should be considered in connection with the suggestion made at the board that it might be necessary to use a portion of next year's current revenue to complete the sewers. This was the very thing Ald. Dier desired to avoid. He feels like many others that it would not be wise to encroach upon next year's revenue, nor would it be just to embarass next year's council in the way of a burden that should bear equally upon the ratepayers for the next twenty years.

There was a good attendance at the Novelty Theatre every night this week. There are a number of pretty pictures presented, the best being "His Own Son." The songs were of the usual high order of merit. Beginning Monday night, there will be a number of attractive pictures presented. The list includes: "Army Dogs," "A Trip Through France," "The Boundary," "Susceptible Youth" and "The Walls of Sing Sing." The last picture will be one of the most thrilling yet presented at this house. Joe Sanderson will sing two new songs, "Swing Me Higher, Obadiah," and "If Those Lips Could Only Speak."

A Woman Writes on the Nurse Question

Some people seem to think that nurses are not made of flesh and blood, but are a kind of mechanical apparatus that will work as long as they are paid, a sort of continual penny-in-the-slot affair, and "take your pennyworth out as you go." It hardly seems possible that any living human being should become so selfish as this; but one little nurse told me that a nurse she knew was sent for to go to an old lady who was very ill. The nurse arrived early in the morning and nursed the old lady all that day and all night, the invalid requiring constant and unremitting attention. The following morning after nearly twenty-seven hours' work she felt incapable of doing any more.

As the old lady seemed much easier nurse said, "Now I think you will be all right, if I put this bell beside you, and I will go and get a sleep.

"A sleep!" repeated the old lady in evident wonder, "why I thought you were a trained nurse."

"I am," said the nurse drily, "but, unfortunately, we are not trained to keep awake."

My nurse only once has had an equally inconsiderate doctor, and he had the excuse that his apparent lack of kindness was entirely due to anxiety for his patients. She was nursing in a house where two children and their nurse were all ill with scarlet fever, while the lady of the house was ill with a "sympathetic" throat. The servants could not come up further than the drawing-room floor, and the nurse was worked to straining point. At the end of three days, her predecessor having caught the disease and gone away, she developed a very bad throat and severe pains in her head. On reporting to the doctor he looked at her throat and then said impatiently and with much irritation: "Oh! bother that —— Street Institution, why can't they send me a nurse who won't get ill?"

To which nurse replied, with much aptness, "Let me see, doctor—which Institution is it where they are fever-proof?"

On the whole, of all professions open to women I think I should choose a nurse's last. We have only to be really ill ourselves to see what a life of toil it is. It seems to me to be full of monotony and weariness greater far than its change and variety, with a constant change of house and patient, and the chill of meeting new people who may or may not prove kind or grateful, but it is a life that is beautiful, because devoid of self and entirely free from fear. If hospital nurses do not always come up to our high standard of what an ideal nurse should be, it would be well for us to pause before condemning them and ask ourselves one simple question—What do the nurses think of us? Do we come up to their ideal of consideration and gratitude, and have we done our share of life's work by showing them that, while exacting our full and just due of willing service, we, too, can be patient to those who are doing their best to lessen our burden of pain?

I think the poor are more apt to appreciate nurses than we are. Nurse told me that she was very busy at the hospital once, and being very tired she supposes she sighed rather deeply as she handed something to a sick woman, for her patient looked up at her with an encouraging smile and whispered hoarsely, but with real love and understanding, "Never mind, Nuss, you may 'ave to wear a cap 'ere, but you'll be shore to 'ave a crown in 'Eaven." Another time she and three other nurses having an evening off, were waiting outside the Haymarket Theatre to get into the pit of a soon-to-be crowded house, when a young policeman said to some men who had evidently come much earlier, "I wonder if you fellers would make room for these ourses—they don't get many outings?" The young men, bless them, made room at once, and my nurse said as she thanked the policeman: "You're very thoughtful for nurses," to which he replied: "Ah! and well I may be; I've just come out of the hospital, and so I know what they are."

Football Match To-morrow

Instead of A and B teams playing to-morrow, as previously announced, there will be a match between the Winnipeg players, now residing here, and the old Ladysmith team. The game has been talked of all season, and at one time there was talk of playing for $500. The match, however, did not come to a head, but to-morrow's game promises to be a good one, as considerable good-natured rivalry exists between the two teams. The Winnipeg players are unfortunate in having lost the services of Crawford, the full back, but that position is ably filled by Bob Cozier, and if he and Rogers play the game they did last, they should keep the Ladysmith forwards busy. As will be seen by the line-up below, both teams are evenly matched and should give a good account of themselves. One thing is certain the ball will not have many dull moments. The Ladysmith team is almost the same as played against Calgary last year, and the forward line is just the same. The game starts at 2:30 sharp, and Andy Hailstones has been mutually agreed upon as referee. Andy says he will have no dirty play, and for any such offense the offending player after a warning will be asked to leave the field. Below is the line-up of the teams:

Ladysmith.

Goal—Hartley.
Backs—Christian, Worrison.
Halves———, ——nley, Wynne.
Forwards — Provins, Sanderson, Adam, Graham, Grainger.

Winnipeg.

Goal—Dougan.
Backs—Rogers, Crozier.
Halves———, Smith, Fletcher.
Forwards — McDowell, McGuire, Brass, Warburton, McLeod.

The general admission fee will be 25 cents.

Word was received here yesterday from Vancouver about the All-Star California soccer team. The players are well rested after their trip, and were out in a little friendly bout at the Recreation Park on Thursday. Their team is a good one and should be able to give a good account of themselves in their series of games. The California team play in Vancouver to-day and Nanaimo to-morrow, and will be seen in action on the Sports Grounds, Sunday, April 11th.

The big International football match—England vs. Scotland—is being played to-day. The game always causes lots of comment, and the local followers of the teams are waiting patiently for the result. The game takes place at Crystal Palace.

Nanaimo United.

Goal—Bailey.
Backs—Graham Wilson.
Halves—Thackery, Farmer, Harley.
Forwards—Mitchell, Cruickshanks, Johnny, Mossey, Blundell.

All-California.

Goal—McFarlane.
Backs—Hunter, Smith.
Halves—McKinnon, Grant, Perkins.
Forwards—Pike, Munro, Elliott, Donohue, Walters.

The above teams will meet at Nanaimo tamorrow afternoon on the Cricket Grodnds at three o'clock and the struggle should be well worth witnessing. As champions of the Pacific Coast. Nanaimo has a reputation to live up to and it is safe to say the all-star Callifornia aggregation will have its hardest fight of the tour when they meet the champions in a fight to a finish.

There Will Be No Strike at Fernie

Fernie, March 31.—The Crow's Nest Pass Coal company's mines were idle here from Friday until yesterday discussing the new working agreement. Much of the heated discussion here was over Nos. 1 and 9 mines. Balloting on this resulted as follows for the new agreement: Fernie, 364; Michel, 459; Carbonada, 2; against 195, 288, 66.

The district officials signed up the new agreement yesterday for two years. It is understood the price list for the above two mines will be fixed later. The agreement is practically the same as the old one. The prices are the same, but the miners get better conditions in working coal which is claimed in some places to amount to 10 or 15 per cent. advance.

General satisfaction is felt here amongst tradespeople, who will now proceed with building operations. A large number of men did not vote, some not being in the union. Development work will proceed rapidly, and it is exoected a few hundred more men will be employed shortly.

J. D. Hurd, general manager of the company, has given out that he intends to raise eight thousand tons of coal per day here in the near future and build one thousand additional coke ovens. The intention of the management is to open up No. 8 mine here.

Reception to Rev. Dr. Robson

Vancouver, April 2.—A banquet in honor of Rev. E. Robson, D.D., who celebrated the fiftieth anniversary of his arrival in British Columbia, was tendered last night and there gathered around the banquet board many distinguished persons and friends of the aged missionary. There were touching sentiments expressed in every toast, and kind words in appreciation for the grand missionary in every response in the great gathering in Pender hall last night.

When Dr. Robson arose to his feet at the close of the toasts, he was greeted with an ovation which will long be remembered. He thanked those present for their good wishes and goodwill expressed in their addresses, and said that in reality it was not his jubilee they were celebrating but the jubilee of Methodism in British Columbia. He spoke of the pleasant relations that had always existed between the pioneer missionaries and the representatives of other churches, and how at various times they had united to promote the moral interests of the country. He said he had never in all his experience been a party politician, but frequently found it necessary to interest himself in politics. In this connection he recited many humorous instances and referred particularly to the marriage laws of the early days.

Nanaimo Herald Gives Good Advice

The Nanaimo Herald has the following sensible remarks with regard to the recent visitation by smallpox:

"It now looks very much as though the coming week would see the end of the epinemic that has unfortunately made its visit to Nanaimo. There has been much injury done to business in general, travel has dropped off almost altogether, and even ships have, it is said, in some cases cancelled their regular trip to Nanaimo for coal, because word had gone out that the city was quarantined on account of a contagious disease. It will soon, however, be a thing of the past, smallpox chicken pox, or pustulaus la grippe—whatever the disease may be, and when doctors disagree who knows? The question will soon cease to interest, and we will find some other subject to discuss. In justice to the health authorities, for they have been criticized by many, we do not see what else they could have done except take the course they have taken. They did not put the city under quarantine regulations, until it was found to be highly advisable to do so, and the officials have, so far as we can see, done their bounden duty well and thoroughly. It is quite the thing far people to complain at restrictions of any kind, and to find fault without being able to suggest anything better than is being done, and this has been the case during the past month, but not that we can see with reason. It is true, and very fortunately so, that the contagious disease for which some twenty or more houses have been quarantined, has been very light, and no deaths have occurred—in fact, in many cases the patients have suffered very little in their general health, but it might have been different, and light as the attacks have been, no one will dispute the fact that the disease is most readily communicated from one to another, and while so far we have been fortunate, it often occurs that as the season advances, an epidemic becomes more severe. Fortunately this has not so far proven the case in Nanaimo, and we now have little to fear of such proving the case. So far as our city and provincial health officers are concerned, having accepted the responsibility, they are entitled to say when the regulations shall be withdrawn, and no hysterical shouting or attempts at dictation should influence them in the course which they as medical men, decide to do in the interest of the general public.

All the available space not needed for play should be put into school gardens, and if the school grounds prove of insumcient extent an effort should be made to obtain the use of a vacant lot nearby. Each child should have a plot for its own, and should be protected in such ownership. Not only must the children be taught to care for their own, but they must learn to respect and protect the rights of others. So general has become the interest in school garplaces to get teachers trained in the work. Children should not be deprived of play time, but every encouragement should be lent to carry some of the work on in the home garden, and there or at the school yard do certain garden work on Saturdays. Either at school or home, or better still, at both places, the juvenile should be kept in touch with gardening throughout the year.

$1,400

will purchase a first-class lot and two-storey building in the heart of the business portion of Ladysmith.

Editorial Comment.

The suggestion emanating from the Citizens' League that the property now held for market purposes and known as the market square should be turned to some practical use is one that will meet with the unqualified approbation of the majority of the citizens. The market square is an eyesore, and there is no likelihood that it will ever be put to the uses for which it was laid out. If cut up into town lots it would realize a considerable amount to the revenues of the city, and a portion of the money thus obtained could be utilized in securing a park that would be of some benefit. The citizens of Ladysmith should not delay in securing a park; a few years hence it might prove too expensive an undertaking. The resolution of Dr. Dier will result in getting the opinions of the citizens on these questions so that the council will have something to guide it when the matter is brought up for further consideration.

The loyal and patriotic citizens of Vancouver seem to have grown hysterical over the navy problem and the Board of Trade of that city has fallen a victim to the interrogation nuisance. A dispatch has been sent out by that institution askinb the boards of trade of neighboring cities if they are in favor of British Columbia presentinb a warship to England. It may be that the question was prompted by patriotic motives, but there are a good many people who believe that the real object is to help the McBride government to dispose of its surplus. Whatever assistance is given by Canada should be through the Dominion government, and it now looks as if both Liberals and Conservatives at Ottawa were prepared to deal with the situation in a sensible manner.

If recent reports from Klondike prove true, that territory may once more take its place as one of the greatest gold-producing camps in the world. A dispatch from Dawson dated April 1st, says the north is much excited over the remarkable strikes of free milling gold in the quartz formation at the Dome, where the mother lode of the Klondike is believed to be located. Some of the assays have gone as high as five hundred dollars per ton.

There is a greater demand for British Columbia timber lands now than at any time during the past two years, and it is noticeable that there is a gradual stiffening in the lumber market. Many of the British Columbia sawmills that have been closed for the past two seasons are making preparations to start up again.

It is announced that some 40,000 of the 2,000,000 acres set aside by the legislature as endowment for the provincial university has already been chosen. The land is chosen on a basis of one section in three, the other two sections being reserved, one for pre-emption and one for sale.

ESCAPED GARBED AS ATHLETE

At an early hour on Thursday morning last when the milk carts were making their rounds of Glasgow, a scantily dressed figure was noticed speeding along Duke street. Apparently an athlete, little attention was paid to him by the drivers, tramway men or even policemen who took the man to be a local Marathon athlete out for a morning spin.

One little boy, sharper than his elders rang the bell of the Duke street prison and informed the authorities that "one of yer prisoners has escaped and is running along to Cumbernauld." "Awa' hame tae yer bed" was all his thanks for disturbing officials at such an early hour.

By the time the boy's story was found to be true the prisoner, Edward Toye, had got safely away and no trace of him could be found.

It appears that the warder, in making his rounds of the prison, entered the corridor in which the man's cell was situated. He is positive that he locked the gate behind him. On reaching Toye's cell he had just opened the door when his attention was directed to another matter at the farthest end of the corridor. In a moment Toye, who is only five feet in height, and as wiry as a squirrel, threw off his prison garb and in his underclothing made for the locked gateway, through the bars of which he successfully wriggled himself.

A drop of 20 feet landed him in the courtyard, where he lay across the axle of a goods-laden lorry, the driver of which, in all ignorance, drove him to freedom right under the eyes of the prison staff.

Toye was under sentence of three years penal servitude, and was to have been removed to Peterhead convict station the following day. He is 29 years of age, and since he was a boy of 10 has been known to the police as an incorrigible thief.

Local and General

At Ladysmith on March 30, to the wife of Thos. Penman, Roberts street, a girl.

Try Na Dru Charcoal Tablets for Dyspepsia. At the Drug Store. *

Revelstoke will add a $16,000 wing to its new hospital. The government grant will equal half that sum, and the other half is in the bank.

Fine English Pork Pies, fresh made daily Hooper's, Gatacre street. Try one. *

The Ledge of Greenwood, will be moved to Nelson. The Ledge is owned by R. T. Lowery, who is known as the Brete Harte of the Canadian west.

WANTED.—Table boarders. Apply to Mrs. Jas. Gilchrist, Baden-Powell street. *

The choir of St. John's church assisted by other local talent, will render Stainer's "Crucificion" at the church on Good Friday, 7:30 p. m. Those taking part have been very diligent in practice for several weeks and the rendition is likely to prove a treat to all music lovers. Come and encourage local talent. Admission is free. A collection will be taken up to defray expenses.

FOR SALE.—Bedroom Suite and extra bed and sundry household furnishings. Apply A, Ladysmith Chronicle office. *

It is the intention of the C. P. R. to build a new station at Duncan to the north of the present one. When this is done it will go far to give the town a better appearance. At the chief stations along the E. & N. railway the C. P. R. has decided to beautify the grounds by laying out garden plots. The first garden to be made will be at Duncan. Native shrubs and plants are to be used.

The William's Jubilee Singers, who will appear at the Opera House Monday evening, April 5th, will render a lengthy programme consisting of a wide variety of negro melodies. Speaking of the singers, the News, Glenwood Springs, Colorado, says: "The male quartette was perfection personified, while the singing of the lady members was all that the most exacting music lover could ask." The entertainment will be under the auspices of the public school, and is in aid of the school library.

John Colbert & Co., of Victoria have been awarded the contract for installing the heating apparatus in the new postoffice. On account of this firm's plant and building having been destroyed in the recent fire at Victoria, installation work will be delayed. The furnace is already here. It was supplied to the Government by Cluff Brothers, of Toronto. It is a type of furnace that has been well tested and proved most satisfactory. It is for the hot water system and the rooms will be heated by radiators.

As will be seen in the advertising columns, the Plimley Automobile Co., of Victoria, are offering to the public the greatest snap in automobiles that has been known in the history of the pastime on this Island. It is not a worn-out, second-hand, obsalete class of car they are offering, but a swell little machine of well- tried staying power and durability. The Rever Company long ago made a great name with their 6 h. p. runabout, and wherever these cars have been tried they have not been found wanting. Here on the Island, one of these same cars was driven by a lady, Miss Pither, from Victoria to Alberni in the Victoria Automobile Club's run in 1908. That journey involved the climbing of two summits, and the Rever car tackled the job without a check and got through in capital shape. The cars now offered by the Plimley Co. are not being sacrificed on account of any defect in material or design. The engines are in a state of perfect repair and good running order, and the upholstery and paint-work are good and bright. They are being offered to the public at a give-away price for the sole reason that room has to be found in the well-known garage for two-car-leads of this year's machine.

Some One Has Said

Being happy is largely a matter of not having toothache, Light Shoes, Etc.

However true this may be, we have the remedy for the Shoe part of it.

We have a large stock of Spring Shoes and we are conceited enough to think we can fit any person in town.

We have 2 or 3 nice lines of big Misses' Shoes with Low Square Heels, regular Girls' Shoes in Womens' sizes, just the thing for that big girl of yours, in sizes 2½ to 6.

Also a big new range of Classic Shoes for Children.

New White Canvas Shoes for Easter Confirmation.

DEPARTMENT OF MINES.

Coal Mines Regulation Act.

NOTICE OF EXAMINATIONS.

Notice is hereby given that Examinations will be held for 1st, 2nd and 3rd Class Certificates of Competency, under the provisions of the "Coal Mines Regulation Act," at Nanaimo, Fernie, Cumberland and Coutlee, on the 6th, 7th and 8th days of April, 1909, commencing at nine o'clock in the forenoon.

The subjects will be as follows:

First Class Candidates.	Second Class Candidates.	Third Class Candidates.
Mining Act and Special Rules. Mine Gases Ventilation General Work Mine Machinery Surveying.	Mining Act and Special Rules. Mine Gases Ventilation General Work.	Mining Act and Special Rules. Mine Gases and General Work

Application must be made to the undersigned not later than Saturday, March 27th, 1909, accompanied by the statutory fee, as follows:—

By an applicant for First Class Examination $10 00
By an applicant for Second Class Examination 10 00
By an applicant for Third Class Examination..... 5 00

The applications must be accompanied by testimonials and evidence stating that:—

(a.) If a candidate for First Class, that he is a British subject and has had at least five years' experience in or about the practical working of a coal mine, and is at least twenty-five years of age:

(b.) If a candidate for Second Class that he has had at least five years' experience in or about the practical working of a coal mine:

(c.) If a candidate for Third Class, that he has had at least three years' experience in or about the practical working of a coal mine:

(d.) A candidate for a Certificate of Competency as manager, Overman, Shiftboss, Fireboss, or Shotlighter, shall produce a certificate from a duly qualified medical practitioner showing that he has taken a course in ambulance work fitting him, the said candidate, to give first aid to persons injured in coal mining operations.

Dated at Nanaimo, B. C., December 18th, 1909.

By order of the Board.

FRANCIS H. SHEPHERD,
Secretary.

DEPARTMENT OF WORKS.

Notice to Contractors.

SEALED TENDERS, superscribed "Tender for School-house," will be received by the Honourable the Minister of Public Works up to noon of Thursday, the 15th April, 1909, for the erection and completion of a large one-room frame Schoolhouse at Courtenay, Comox Electoral District.

Plans, specifications, contract and forms of tender may be seen on and after the 15th day ff March, 1909, at the office of the Government Agent, Cumberland; of R. Carter, Esq., Jr., Secretary of the School Board, Courtenay; and at the Public Works Department, Victoria, B. C.

Each proposal must be accompanied by an accepted bank-cheque or certificate of deposit on a chartered bank of Canada, made payable to the Honourable the Minister of Public Works for a sum equivalent to ten per cent. of the amount of the tender, which shall be forfeited if the party tendering decline to enter into contract when called upon to do so, or if he fail to complete the work contracted for. The cheques or certificates of deposit of unsuccessful tenderers will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelopes furnished.

The lowest or any tender not necessarily accepted

EDWARD MOHUN,
Assistant Engineer.

Public Works Department,
Victoria, B. C., 6th March, 1909.

Ladysmith, B. C., 29 Feb., 1909.

THE WOOLLY APHIS.

A correspondent of The Chronicle who takes a deep interest in fruit culture supplies the following information:

This familiar louse confines its attacks almost exclusively to the apple. Its presence on trunk or branch is very noticeable, owing to the white woolly matter which is excreted from the body. One not familiar with this insect might think that these fluffy masses were nothing more than flakes of wool or cotton that had accidentally lodged on the tree. An examination, however, would show that under these masses colonies of small, pinkish-colored lice were located, having their beaks inserted in the bark.

There are two forms of this insect, aerial and subterranean. Representatives of the former are usually found where there is a wounded or rough place on the body or limb; those of the latter attack the roots and are the ones that do the most damage. They are especially injurious to nursery stock and to young orchard trees. The root form secretes but little of the woolly matter mentioned above. Both forms cause wart-like growths at the point of attack, which disfigure and seriously injure the trees. Roots are sometimes found that are covered with knotty excrescences. It is not unusual for such trees to die as a result of the injury. Others do not die, but become so impaired in vitality that they remain stunted and unprofitable. In planting young orchards all trees having badly-knotted roots should be destroyed.

Trees but slightly knotted should be root-pruned and dipped in lime-sulphur wash, or one of the soluble oils mixed as for spraying. When the lice became established in a young orchard, the soil about the roots of the trees may be removed and tobacco dust applied to the roots with good results. Kerosene emulsion, of a 15 per cent. strength, may be used instead of the tobacco dust.

The aerial form may very readily be destroyed by spraying with kerosene emulsion, of the strength just mentioned. It is necessary, however, to apply the spray with considerable force so as to penetrate the woolly covering.

GARDEN PESTS.

In every garden of size or note it is necessary to have material and equipment for fighting insect pests and plant diseases. It often occurs that both may be overcome with one and the same treatment which greatly simplifies the work of keeping the garden in a state of perfect health. The spray pump has become a necessity in all well-ordered gardens, more especially for warfare against fungous diseases by the use of Bordeaux mixture. An application of this mixture of copper sulphate and lime is not only a cure for, but a preventive of fungi in nearly all forms. Aside from its value in checking or preventing disease it appears to act as a tonic on many plants not in robust health. The only point that may be urged against its free use is that it adheres to the foliage for some time and is not of a particularly pleasing shade of color. Its benefits, however, far outweigh its unsightliness, and such materials, as a rule, need be used but once a year.

The only man who is safe and sane is the natural man, living a natural life, working with head, hand, and heart; laughing, loving, playing, striving, and hoping. Any other separates you from that which you know.

The Shoe Question

is always a delicate one even at the best of times.

It took us some time to get next to the good SHOES, but after years of careful buying we have succeded in getting some of the best lines on the MARKET.

The Walk-over SHOE for Men needs no introduction, and to-day we have as nice a stock as there is in the Country. Price $5.50 and $6.00.

The Canadian Gentleman SHOES are worn by all smart dressers and the popular price makes a good demand. Price $4.00, $4.50 and $5.00.

The James Muir Shoe for a low priced article, can't be beat. They have the style, Fit and Wear, and prices range from $2.50 to $4.00.

The Amherst Shoe, A reliable Working Shoe, with or without nails, guaranteed all leather. We carry this line, in boys and girls for school and for good rough wear, the best made. Try the Amherst Pit Shoe, $2.50 to $4.50.

For the Ladies We handle

The Walk-over Shoes at $5.00 a pair.
The Diamond Shoes at $4.50 a pair.
The Canadian Lady Shoes at $3.00 to $5.50 a pair.
The Quaker Shoes at $2.50 a pair.
The St. Regis Shoes at $3.00 a pair.

and other lines of which space won't allow us to mention.

A nice range of Misses' and Childrens' Shoes.
See our Boys Shoes.

BLAIR & ADAM

No Hospital for Prince Rupert

It is not likely a general hospital will be built at Prince Rupert in the near future, judging from the expressed opinions of members of the committee appointed to secure a site. When at Victoria, three weeks ago, John Houston secured for the hospital association a site of a quarter of a block with 150 feet frontage and 100 feet depth. The lots were to be selected in any of the blocks in which the provincial government had six lots in a district known as "Section 6," north of McBride street and west of Sixth avenue, and close to both water and sewers. Government Agent Manson was wired to aid the hospital committee in making the selection. The committee went over the ground and designated lots that suited them, but all of a sudden members of the committee wanted to consult the G. T. P. harbor engineer and get his views, also to see if he would not use his good offices with general manager Chamberlain (who may arrive in Prince Rupert within a month, as he left Montreal a week ago on Friday to make an inspection of the G. T. P. from Winnipeg to Prince Rupert) in securing the remaining lots in any block they may decide to build on. This action of the building-site committee is trifling with the objects for which the hospital association was formed. The railway hospital is run in such a way that few people care to go to it; but workingmen from whom contractors deduct a hospital fee of $1 a month, whether they work one day or twenty-six, if injured will be forced to go to a hospital that they openly call "The Morgue." Had the hospital-site committee acted as they were expected to act, the hospital building would now be well under way. As it is, the only thing that has been done since the first meeting was held on February 15th—40 days ago—is the peddling of hot air.—Prince Rupert Empire.
