Lardeau Mining Review

VOL. 2 TROUT LAKE CITY, B.C., March 15, 1906 No. 20.

Swept By Fire.

FIRE FIEND GETS IN ITS DEVASTATING WORK AT FERGUSON.

WINDSOR HOTEL TOTALLY DESTROYED TUESDAY MORNING.

On Tuesday, a few minutes after one o'clock, p.m., fire broke out in the Windsor Hotel at Ferguson, and completely destroyed this famous hostelry. The cause of the fire is supposed to have originated from a spark from the front parlor chimney, but no accurate knowledge is obtainable. Some of the schoolboys noticed the smoke on the roof and at once gave the alarm.

The local fire brigade were soon on the spot, but owing to the high wind and the dryness of the building there was no possible chance of saving it. Efforts were then directed to the saving as much as possible, and some furniture and the piano was taken out. Short time was allowed, however, in the work of salvage, as fifty minutes after the fire was discovered there was not a stick left. So clean a job did it make that a person driving past would never notice there had been a fire.

Mrs. O'Connor is completely prostrated A Review scribe called and in a short interview learned there was $5,000 insurance on a total loss of $12,000. In all probability a new building will be put up as soon as weather will permit.

FIRE SPARKS.

Dad Black says Misery likes company.

Sandy Laughton and Steve Slinger are going to consolidate and draw lots as to the next.

Bill the barber made the best time on record from one end of Ferguson to the other.

Joe Kirk directed his attention to the protection of the Big Tunnel office.

Soapy Smith says he could have saved the building had he been there in time with sufficient water.

Frank Lebeau worked like a powder monkey, as he saw in sight a cut in the electric light revenue.

Alec Cummins tried to telephone for the Trout Lake fire fighters, but the fire beat him and cut the wires.

Thos. Leavall came in last Saturday to resume operations on the Placer ground. The few days of cold weather has interfered somewhat with the proposed work, but he expects to get down to good business in a few days.

Post office store is the place to buy toilet articles, proprietary medicines, stationery and school supplies.

Miss Dewar, who has been confined with a bad attack of la grippe in the Ferguson hospital has recovered and is recuperating in Rossland.

Fire hydrants are now in place, but they will be of little use unless a supply of hose is purchased. Trade's Committee, take notice.

More Ore in Broadview.

BIG STRIKE MADE IN DRIFT OF THREE FEET OF GALENA ORE.

100 SACKS OBTAINED FROM ONE ROUND OF SHOTS THIS WEEK.

Last week we reported ore being found in the drift in the Broadview. A Review representative visited the property during the week and found that the strike was of even more importance than at first reported. The work being carried on is a continuation of the drift at the 60 foot level, and a body of ore has been opened up which eclipses anything yet found on the Great Northern hill.

From one round of shots over 100 sacks or between five and six tons of ore was put up. There is a good three feet of clean ore, and while the grade is not as high as the average Lardeau ore, it is of sufficient value to pay a handsome profit. We said some weeks ago that the output would soon reach 5 tons per day, and we can now claim a realization of our predictions. There is no doubt now left in the minds of the most pessimistic but that the Broadview is a mine and will be a big factor in the prosperity of the Trout Lake mining division.

For many years the ore deposits on the Great Northern hill were advertised and outside capital solicited, but it rested with a few local men to take up one group and go at it in a business like way, with the result that enough ore is in sight to insure a success to the venture. To demonstrate the value of the Lardeau the project is of paramount importance, as it shows that when local men have faith in the ultimate results, outsiders will soon get in and drill.

NAUGHTY BILLY ON THE WARPATH.

As our old friend and stand by has not been heard from since he left for Calgary in the fall, one of Bill's numerous admirers wrote to the authorities to learn if he were dead or alive. The appended answer was forthcoming. Save up your coal oil cans.

Office of Chief of Police,
Calgary, Alta.
March 11th, 1906.

Dear Sir,—William Baty is very much alive and says he is going to Trout Lake next week. I think he has been making too much money out of real estate here to leave Calgary. Besides other attractions, there is a very large (and said to be very rich) widow lady here from P——, Ill., U.S.A., which I believe has something to do with Mr. Baty tarrying so long; so you had better get busy and ready to give Mr. Baty a very large bundle of ribbons, feathers, silks and satins and a grand send off, as it is only a matter of time before poor Bill is landed.

Yours, &c.
T. English,
Chief of Police.

Bandmaster Brown left Monday for a business trip to Arrowhead.

Steve Slinger returned Monday from Revelstoke.

Lardeau Beer and Porter is second to none.

Local and General.

A really first-class entertainment will be given in the Odd fellow's hall next Saturday night, St. Patrick's Day, and we shall be surprised if the capacity of the auditorium is not taxed to its utmost. Irish songs, Irish recitations, Irish duets and Irish dialogues will be rendered by the best local talent. A laughable farce entitled "Betsy Baker" will be immensely enjoyed. The characters are: Marmaduke Mouser, in love with his wife, J. J. Atherton; Mr. Crummy, Mouser's partner with a plot, F. E. Groffman; Betsy Baker, in the plot with Crummy, Miss Susy Cummins; Mrs. Mouser, Mrs. Atherton.

T. H. Evans was down from the Nettie L. on Tuesday.

Mrs Burrell had the misfortune to break a small bone in her arm last Sunday, caused by falling heavily on the slippery sidewalk near her house. We wish "mother" a speedy recovery.

Services Sunday morning in the Methodist church conducted by Mr. Moyer; in the evening by the pastor.

Now is the time that a good pair of rubbers are appreciated. The Maple Leaf is the best.

Every metal on the market advanced Tuesday. On the London market lead gained five points from Friday's close. Silver recovered two points on both markets and is now 62 7-8 cents an ounce Copper has risen again to 18 cents.

A big crowd followed the hockey team to Ferguson last Saturday night to witness the twin cities once again do battle. Last year Ferguson retired with a margin of three wins to their credit, and Saturday's game again going to Trout Lake had the effect of evening up the number of victories, and the deciding game will be played in Trout Lake next Saturday night.

The line up was as follows:

Ferguson.		Trout Lake.
Smith	goal	Christie
Baskett	point	Parisian
Cummins	cover point	Vipond
Lebeau	rover	Woods
Robinson	centre	Rady
Shannon	rightwing	McLean
Garrett	left wing	Schulze

Referee: George Weir.

A fast game throughout. The Ferguson defence was very strong, but the attacking division lacked energy. The Lake forwards broke through twice in the first half and scored on both occasions, whilst the Ferguson team notched a point before the whistle sounded. In the second half Trout Lake put on another goal and secured the well-earned victory of 3 to 1.

Jake Schmidt, one of our old-timers returned on Wednesday night. Since he left over a year ago he has been ranching in Oregon, but had to return to look after the interests of the late J. W. Westfall.

FACTS AND FANCIES.

[BY OBSERVER.]

Revelstoke has queer notions of gambling! It is reported that one of the town laws reads thus: "All games of chance shall be deemed gambling except draw poker." Think of that you cold-deckers and sure thing men. You may draw to a bobtail flush and reach out for a stack of blues, but you musn't squint at a ace in the hole. You can go bust with four kings or make a stab at a jackpot with no openers, but you may not show your hole card or rake in a white chip. Revelstoke city fathers in their wisdom have passed the Rubicon, which decision is equal to: "Stud is gambling, black Jack is gambling, but draw poker is a sure thing." Exactly, but who is it a sure thing for? Would it be any surer if the rake-off was abolished? And speaking of raking off, would it not be a wise venture on the part of the Revelstoke city dads to open up a "draw chamber" in the city hall? We feel sure it would be a draw, and as municipal ownership is becoming very fashionable, the town's taxes would be thus lightened and everybody satisfied. Then advertise the project and put R. A. Upper behind the dummy, with an official croupier to bear him company and scratch in the authorized rake-off. Seriously, it is worth consideration. It would advertise the town, and be known as the Monte Carlo of Canada. Thousands would flock there, and the Deutschman Cave as an attraction would be as a white chip. An occasional suicide would crop up, but that would help to advertise the town more and give the sky pilots a show. Then again, the Y.M.C.A. could run a game of draw in their splendid building as an elevating counter-irritant to marbles, mumble-peg and such sinful games. A business man in Trout Lake received the following communication from a friend in Revelstoke on Monday, and he is at a loss to know its meaning:

Revelstoke, B. C.
Sunday, 11th.

Dear J—

Do you know of any good Sure Thing Man who wants to take the draw game in the Y.M.C.A. here?

Yours truly,

Fires and rumors of fires! A breathless messenger with scared face, dilated eyes and distended nostrils almost fell into the printing emporium this week, and with jerks he announced that d-d-d-d—that is to say old man Brown's shack was blazing. Now, Trout Lake boys have a fire-fighting reputation second to none, and as is usual on cold days, a large crowd of, er—"men about town"—were huddled around our stove, watching Joe sling type, and at the same time keeping the heat of the stove from the icy fingers of that long-suffering automaton, besides doing their level bests to extinguish our fire with tobacco juice. In a second the office was deserted. George Yuill's feet scarce touched the crust as he made for the fire alarm, which he pounded mercilessly in his usual manner. Frank Groffman, although handicapped by his yellow leggings, did record time to the Methodist "triangle" and beat a solo, while he yelled "Murder" by mistake. Everybody did something. The banker snatched a couple of pails and was followed suit by a dozen more. All the ladders were dragged out and the whole cortege rushed helter skelter to the reported outbreak followed by every mongrel dog in town. Arrived at Brown's cottage that worthy was discovered in the heat of steam which emanated from the washtub—wrangling with a refractory shirt. The question arises,—was the volume of steam responsible for the alarm, or was it, as is more reasonable to suppose, caused by a log burning a mile distant in the bush? The alarmist, however, is not to be found, which is perhaps good for him. A humorous turn was given to the event by the arrival of the citizens struggling with ladders of a length that would reach to Helen gone. Everybody knows this cottage, and the curious part of the ladder business is that in the winter the cottage door is best approached by way of the roof. Everyone went home perfectly happy.

Kaslo will hold its first annual fruit fair next September. The exhibition is to be held in the Drill hall. The city council will give a grant, and the finest fruits exhibited will be sent to the Nelson Fair as a collection. Kaslo claims to be the oldest incorporated city in the Kootenays, so will celebrate on Victoria Day (May 24). Kaslo is waking up! Kaslo has a brass band! Kaslo is "goin' some."

Observer was privileged to attend a rehearsal of "Betsy Baker" one day this week, and he advises everyone to see it on St. Patrick's night. Some new talent has been unearthed, and we congratulate—but, there, wait until Saturday.

A fellow citizen who shall be nameless, but who knows a whole lot about ranching, and whose ancestors were ejected from the Garden of Eden for swiping apples, recently answered an advertisement of a young woman who badly wants a husband. Our citizen is just the gent the damsel was looking for, at least, so says the answer received from a matrimonial agent at the coast, and a request is also made for $5.00 to be forwarded as a guarantee of good faith. Why, it's cheap! $5 down, and the fair one and her fortune securely packed and forwarded c.o.d. (Sub rosa.—The party at this end will send the money next week. — Um, yes, perhaps not!)

One of our hockey stars whilst playing against Ferguson last Saturday was playing to the gallery in more than one sense. Every so often whilst the battle raged a wistful look would be cast at a certain spot in the gallery, and a smile of encouragement was as often returned. And it so happened that a bit of punk play found our hero on his "bitter end" a little later. Needless to say there were no more wistful glances to the gallery, and no more encouraging smiles.

Steve Woods returned from the coast this week.

A meeting of those interested in getting up a Basket Ball club for the coming season will be held at Mrs. Will Crawford's next Thursday afternoon. This notice is intended as an invitation to all who wish to participate.

Jack Nesbit left Monday to resume work on the Morning and Homestake on Rapid creek. There is some good ore in sight, and it is the intention to get out a sample carload. Arthur Gowing of Camborne has purchased an interest.

KAIEN ISLAND INQUIRY.

We publish herewith without comment press opinions on the report of the committee appointed to investigate the Kaien Island transaction:

Nelson Economist: "The report of the select committee on the Kaien Island land grant was presented in the House last Wednesday. It completely exonerates all the members of the Government from any suspicious dealing, and finds that the bargain was for the benefit of the Province. The general consensus of opinion is that the Opposition would have acted wisely had it never asked for the appointment of this committee. So far as connecting the Government with wrongdoing is concerned, the report shows that the evidence given before the committee was not capable of such construction."

Victoria Colonist: "Consistency is a jewel, even in political warfare. The Opposition members and the Opposition press have repeatedly complained during the progress of the Kaien Island investigation that the Government were delaying the inquiry and postponing the revelations of those scandalous details with which their lively imaginations had invested a strictly business-like transaction. Now that the utmost skill of the leader of the Opposition has failed to discover anything that would justify these imaginings or lend the slightest color to the charges so insistently preferred, he has lost all his anxiety for haste, and yesterday, when the Government report was ready to be laid on the table, Mr. Macdonald asked for delay as the minority report was not ready. Of course, the courtesy was extended, but at the cost of the reputation of the leader of the Opposition for consistency."

Vernon News: "The Opposition having utterly failed to show that the bargain was anything but a good one, or to place a finger upon a tittle of damaging evidence, has fallen back upon innuendo and slander, and the inferences which they would have the public draw from these despicable attacks are of the sort which appeal only to prurient gossips and lack the foundation upon which any decent, honorable or gentlemanly politician should stand."

Phoenix Pioneer: "An exchange asks most pertinently, if it will not be in order for the taxpayers to ask why all this investigation into private characters in the Kaien Island inquiry, that has been going on at the coast. It is a dead sure thing that the leader of the Opposition, J. A. Macdonald, of Rossland, has not accomplished anything worth while by all this fuss except to stir up matters in which the Government has no particular concern. In short, as far as mixing the Government up in a graft, as was expected, is concerned, it has been a dismal failure."

TROUT LAKE CITY

THERE have been fortunes made by judicious investment in Real Estate, and more fortunes will be made than ever the next two or three years. The one who reaps the harvest is the original investor, for he has his money on a certainty.

Now let us point out to you that there is no better spot on the Continent to buy Real Estate than TROUT LAKE.

Trout Lake is the prettiest spot in the Kootenays; as a pleasure resort it has no equal. Boating and fishing may be indulged in the year round; while big game in abundance is to the found on the hills. Its climate is superb, there being no great extremes, it being mild in winter and cool in summer. It can boast of some of the finest hotels and residences in British Columbia. Its streets are well laid out and graded. There are two excellent general stores, and a glance at the advertisements in this journal will show that all trades are fairly well represented. IT has never had a "boom"—its growth has been steady. It is the head of navigation, and the terminal of the Lardo branch of the C.P.R. All roads (in the Lardeau) lead to Trout Lake. It is the commercial centre of the richest mineral district on the continent, and has banking facilities provided by the Imperial Bank of Canada; first-class school accommodation under the direction of S. Shannon, B.A.; a good water system; government offices; County Court sittings; Methodist Episcopal and Anglican churches and cottage hospital.

There are valuable ranch lands on the outskirts awaiting settlers. Its lumber resources are magnificent, and a band saw mill with a capacity of 60,000 ft. per day is at the head of the lake. The mines tributary are proving out bigger producers every year, with new prospects opening up rich bodies of ore.

There will be a big rush this year, so if you would know more, write at once to either of the agents at the addresses below.
