Lardeau Mining Review

The representative of the rich Lardeau country. Sent to any address for $2 per an. in advance.

VOL. 1 TROUT LAKE CITY, B.C., FEB. 3, 1905. No. 13.

The Winslow Bonded.

FREE GOLD PROPERTY ON SILVER CUP SLOPE TO BE DEVELOPED.

Bruce White Takes Hold

Of this Group Which is Thought by Experts to be a Grand Free-Milling Proposition.

Word was received here yesterday from Jim Grant, who at present is at Nelson, that the Winslow had been bonded by Bruce White. As Mr. Grant is heavily interested in the property in question there can be no doubt of the accuracy of the information. The bonding of this property is another step in the development of the Silver Cup mountain. It is also gratifying to many who know the property that so capable a man as Mr. White has secured control, as it guarantees the property being worked in a manner which will, if at all possible, make a mine out of it.

The bond is for between $45,000 and $50,000. The owners of the property are Wm. Bennett, P. H Murphy, W. Davey, Neil O'Donell, and J. Grant. The property was located four years ago, but it was not until the fall of 1903 that the rich strike was heard of. Then a mild rush to the spot occurred and the snow coming earlier than usual the world was not to learn until the following Spring what the property was like. By the irony of fate the mining industry was undergoing a severe strain at this juncture all over the Province, and no one with money could be induced to investigate the property from which they were obtaining gold assays from $26 to $1000. A tunnel has been driven for a distance of 60 feet.

Changes at the Bank.

While the citizens of Trout Lake and Ferguson have no complaint to make of the treatment given them by the Imperial Bank authorities in financial matters, we have a grievance against the "powers that be" of that institution for the way in which they switch their managers. Mr. W. Macdonald, the first representative, had no sooner won the confidence of the people than he was transferred to Alberta, and Mr. E. K. Boultbee was installed in his place. It is now learned that Mr. Boultbee will be removed to Arrowhead, where he will look after the big financial transactions which are going on there.

We take this opportunity of expressing not only our own, but also of everyone who has had any dealings with Mr. Boultbee either of a social or financial nature, regrets that he is obliged to leave Trout Loke. For nearly a year he has been with us, and in that short time has won the regard and esteem of all those with whom he has come in contact. We wish him all prosperity in his new location, and congratulate Arrowhead on its receiving into citizenship a man who is alive to the necessities and requirements of a growing place. Mrs. Boultbee's absence will also be felt both in church and social circles.

Mr. T. B. Barker, who at present is on the Revelstoke staff, will assume the management on Mr. Boultbee's retirement.

Ferguson Items.

George Parker was down from the Silver Cup mine on Saturday.

Mr. Porter was in from Camborne on Tuesday on a visit to his wife, who is an inmate of the hospital.

Will Skinner has gone on a visit to Cranbrook. He will return in a few days with his daughter.

Wal. Archibald, Jim Lindley, and Dan McRae came down from the Nettie L. on Tuesday for a day.

Fred Johnson went up to the Silver Cup on Wednesday.

Lee Chism, an old-timer in the camp returned from Sandon to dig here. Lee says the Lardeau looks good to him.

Ed. Ward has joined the mining gang at the Nettie L.

Fred. Fraser, gold commissioner, paid an official trip to the town on Tuesday.

Rev. D. Jeannotte, Sandon, said mass in town on Tuesday morning. The reverend father is making his usual periodical visit to his large pastorate.

Hosts Powers and Gunn, from Camborne, were visitors to our rink on Tuesday with their better halfs. The former was accompanied by a rig full of little Powers'.

Johnny Morgan returned to his old stamping ground on Friday night. He has for the past two months been testing the curative qualities of the dip at the Arkansas Springs. He returns full of vigor to tackle the unfinished work at the Tonowanda tunnel.

There is a man in Ferguson who will lay 2 to 1 that Porteous can beat any skater in the Lardeau over a two-mile course. With the ice on the lake in good condition, what's the matter with finding an opponent and letting the two speed merchants have a cut here on Carnival Day?

The bi-weekly meetings of the choral society continue to be well patronized. Last Sunday a Service of Song was well rendered.

George Proulx has joined the culinary corner at the Nettie L.

After the match on Tuesday night several of our thirsty jubilants were escorted down the pike to the air of "The Candles are Coming."

The newly-wedded couple, Mr. and Mrs. W. Boyd, arrived at Beaton on Sunday night. The following night "surprise parties" were on the premises, and the chiv. was kept up until a late hour to the music (?) of the tin-can band. We hear there was enough champagne drank to float a ship.

Squire Thompson was up from Beaton the first part of the week. It appears that he had to siwash a local celebrity down there last week. We also understand that the judge was boomeranged.

There is enough ore on sight at the Nettie L. to keep the 5-Mile plant running a lifetime.

Mrs. Manross has taken up her residence in town for the balance of the winter.

Mr. and Mrs. J. Griffits, of the Ferguson laundry, returned last week end from Spokane, where they have been visiting for some five weeks.

Dr. Newcombe is kept busy officiating as referee in all the local hockey matches, which position he is filling to the satisfaction of all the players and the spectators.

The Ferguson Carnival.

Success crowned the efforts of the management of the Ferguson Skating Rink on Tuesday last. Throughout the day the mercury had hovered around the zero mark, so the ice was in good hard condition. A large crowd were up from Trout Lake, and a party made the trip from Camborne. The first part of the evening was given to the return hockey match between the Trout Lake and Ferguson teams, and by the time the teams lined up the holding capacity of the rink was taxed to its utmost. It was generally thought that the boys from the Lake would turn the tables on their opponents for the 4 to nil drubbing administered a week ago, but those who had foretold a "squeeze-home" victory for the Lake boys were out in their reckoning. The Ferguson team, which with one exception was the same which did duty a week previous, arose as one man to the occasion and kept their opponents on the losing side of the hedge till next they meet. The game in itself was very exciting, but there were not many of those scientific lapses which marked the first game. When Ferguson and Trout Lake meet in a friendly dust-up, things are generally spirited, but not a single instance of ill-humour or roughness jarred the meet, nor had the referee to assert his fencing powers.

Immediately on the signal for the commencement of play Ferguson secured and notched a goal. Everybody was struck with amazement at this lightning like opening, but for the next fifteen minutes Ferguson were kept mostly on the defensive. The shining light of the Lake team thus far was Oswald Woods, who effectually minced the combination of the home string. The Lake were having the better of the exchanges, but powder was lacking for the finishing touches. Lauder in goal never had much difficulty in keeping the puck out. A splendid check and break through by Cam Benson nearly did the trick again for the homesters as the whistle sounded the interval. Ferguson 1, Lake 0. Immediately on the resumption Cliffe scored for Ferguson, and the home supporters wore the "smile." On the game steadying down the Lake team showed a decided superiority at mid-ice work, and it was noticed they were gradually shutting the opposition in. From a clever bit of manœuvreing by Will and Jack Crawford, Toll was able to beat Lauder with a soft 'un. Fired by this success the Lakesiders fought like demons for the mastery. A few minutes later the cheers from the visiting supporters denoted that the city players had got through again, and even the ranks of Tuscany could scarce forbear a cheer. With the game at level pegging and but five minutes to go excitement ran high, and encouraged by the cheers of their supporters both sides put in all they knew. Ferguson had the useful knack of scoring when they beat the back division, and before the clock had ticked the requisite seconds the Payroll centre had put on two more goals, leaving them a well-earned victory of 4 to 2. For the home team E. Crawford, Porteous and Benson were conspicuously successful, whilst the Crawford boys and Woods were the pick of the visitors. Toll also played well, scoring both goals for his side.

Teams: Trout Lake—O. Woods, F. Schulze, D. McArthur, J. Crawford, J. Langstaffe, W. Crawford, and M. Toll.

Ferguson—E. Crawford, J Lauder, S. Slinger, E C. Benson F. Barber, W. Cliffe and H. Porteous.

After the match a merry crowd of skaters in fancy costumes kept the fun going till near midnight.

MISSING.

George Vincent, who left Lardo in February 1902, to go to work with a railway construction gang at Field, B.C., is missing, and his friends would feel grateful for any information as to his whereabouts. Communicate with John Gamble, 6 Paris street, Montreal, Que.

17 below zero was registered here this morning.

Cut this out. Wear it in your Hat.

Trout Lake Bonspiel

February 14th.

Tell Everybody. 'Spiel the Bonspiel.

A Win for Kinman.

Judge Forin, as local judge of the Supreme Court, has given judgment in favor of E. L. Kinman on the application made by Leslie Hill to be allowed to rank as a creditor for some $22,000 against the Canadian Timber and Sawmills Ltd The sheriff seized and sold under executions held by Kinman and others a lot of the company's loose property, and while the money was in the sheriff's hands, Hill settled with a number of the company's creditors at 80 cents on the dollar, paid the wage claims in full, and took from the creditors assignments to himself of the various claims, and notified the sheriff that he claimed as agent for Barton & Co. to share in the distribution of the money in the sheriff's hands, which claim, if allowed, would gobble up the greater part of the money realized by the sheriff. Kinman, however, contended that Hill in paying the creditors was acting really as the company's agent, and was the company's money that went to pay the claims and not the money of Messrs. Barton & Co., of London, as claimed by Hill. At the last sittings of the court here in January Mr. Hill was called upon to be cross-exnmined on his affidavit and to produce all his letters and telegrams which the judge has now held to show that he was acting for the company, and therefore Kinman gets the money in the sheriff's hands as against any claim by Hill, and Hill also has to pay the costs. Messrs. Whittaker & Wragge, of Nelson, represented Hill, and Kinman was represented by Geo. S. McCarter of this city.—Revelstoke Herald.

Silver still keeps above the 60 mark. Looks rosy for the Lardeau!

Lake Localets.

The crowd who visited Ferguson on Tuesday night to root for the local players returned (with one or two exceptions) in the small hours of the morning. The one or two exceptions fell by the wayside, but that's another story.

D. T. McTavish, representing the Scranton School of Correspondence, was in town on Tuesday attending to the needs of clients. He also journeyed to Ferguson and 5-Mile.

Sandy Laughton and Dad Black, two of Ferguson's popular hotel men were visitors during the week.

Pat Cantwell, who runs the Nettie L compressor came down on Thursday to see city life. He was accompanied by Jack Convery. Mr. Convery is the unlucky man who fell down a winze at the Nettie L mine some three months ago. We are pleased to report that he has fully recovered from his injuries, and will return to duty next week.

Billy McLean is hard at work getting the machinery installed in the new brewery, and also putting in his summer stock of ice.

The Lucky Boy shipped a car of ore this week. The average will run close to $150 per ton. Until navigation opens again their output will be stored in the C.P.R. freight sheds.

East Kootenay produced last year 540,000 ozs. of silver.

Jack Ennest came in from Camborne on Tuesday. He reports matters progressing favorably along development lines in the several properties operating there.

The production of coal and coke in the Province for 1904 exceeded that of 1903 by $2,000,000.

Acting on a suggestion made by the REVIEW a couple of weeks ago, a billiard tournament is being arranged for. About 30 names have been secured, and a meeting will be held at Mrs. Jowett's hotel next Monday evening at 8.30 o'clock to arrange matters. We trust there will be a big turn out of those interested.

Frank T. Abey, C.P.R. agent, received word last night to close up the agency until further notice. This is occasioned by the heavy ice at the foot of the lake, which has put a stop to navigation. This will be an hardship on all during the remainder of the winter but as we have no redress we will have to grin and bear it. We trust however, there will be no time lost in the spring in getting the steamer running again.

Rev. Father Jeannotte was up during the week. He is staying in the near district until next Monday. On Sunday mass will be said at the residence of Mr. R. Madden.

Frank and Mrs. Abey leave Sunday for a trip to the coast and California. They will be absent for about a month. We wish them a pleasant journey and a safe return.

Great interest is being taken in the approaching masquerade ball to be held on the night of the 14th February (St. Valentine's Day). There will be a couple of handsome prizes offered. Remember the date.

J. A. Griffith is fitting up the old post-office as a dry goods department, which will be a great improvement. The post-office is being installed between its own location and Abey's drug store.

17 below zero may be all very well in the much vaunted "banana belt," but it has no business around the Trout Lake thermometers.

A Rich Strike at Poplar.

FRANK MARCUS AND GEORGE GILBERT STRIKE A BIG SHOOT OF ARSENICAL IRON

Perseverance Rewarded

Both Men Have Stayed with the Camp and Are Hopeful of a Big Reward.

Two prospectors in the Poplar Creek district who have stayed there since the first discovery of gold in the valley have at last struck it rich, and every miner in the Larneau rejoices with them. The Marcus and Gilbert claims are known to all the Poplar mining men.

John Nelson, spoke to the Daily News man as follows:

"The strike was made on Wednesday at the 75 foot level on the Marcus and Gilbert mine, near the very spot where the first gold in the Lardeau was found. I didn't wait to learn the results of the assays, but I saw the ore. Like that of the Swede group, which it adjoins, it is free-milling gold, as fine as any I ever saw. I certainly liked the look of it. It is the same in appearance as the ore from other Poplar claims that assayed $1,400 to the ton. The strike is a big shoot of arsenical iron. They don't know the extent yet. They put in six shots far apart, and all were in ore.

"Marcus and Gilbert are two of the finest fellows in British Columbia. Marcus is an Iowa man, Gilbert an Englishman. Each has every confidence in the other. In fact, each generally has the other's power of attorney.

"They deserve their good luck. They have stayed with the camp all the time, whether prospects look good or bad. Last fall they refused a fair offer for their property made by Tacoma men. They have been willing at any time to give it under bond to people who could afford more capital for development, but they wouldn't stand for anyone holding it for a gamble. They preferred working it themselves. They also said that they knew they had a mine. Other people's confidence sank sometimes, but these two boys were always cheerful. They took turns at going out working for a grubstake. They have worked through several winters."

A Beatrice Shipment.

The Beatrice mine, owned by the Beatrice Mines, Ltd., has just shipped to the smelter 40 tons of their high-grade ore. Mr. J. Murray was in the city on Monday, and he told our representative that $150 would be a conservative estimate per ton for the shipment. Zinc ore would also prove a valuable asset of the company, 36 per cent. is the average for a very large body. There is a great showing of ore right through the property, grey copper running to a thousand ounces, and native silver in large quantities.

The increase in the production of gold in 1904 over 1903 amounted to $390,000, while silver was $377,000.

The lead production of 1904 was 18,500 tons, double that of 1903.

It's a great pity that some people are so blind that they cannot distinguish red from white. A midnight visitor to a white homestead came very near carrying away a chunk of lead one night this week.

THE ONTARIO ELECTIONS.

Following the overthrow of the Ross government, the Mail and Empire editorially says: "The verdict is really a declaration of Ontario that the people intend to rule. It is an announcement that artificial or criminal interference with the electoral rights is not safe. It is an intimation to all public men, and to all parties, that there must be honesty in the conducting of public affairs, and that the ballot must be treated as sacred. The judgment will be welcomed by independent and right-thinking men. It tells us that there is a public conscience and that the province is at heart sound."

In Search of Chas. Green

Charlie Green, who in partnership with C. L. Brush owns some promising properties at the head of 8-Mile, went up last October to do some work. Nothing has been heard of Mr. Green since, and his friends in town becoming alarmed, started out a relief party consisting of Frank Landriau and Morley Toll yesterday morning. The relief returned this morning with good news. Charlie is working on his property with a pet blue jay for a companion and is as happy as a sandboy. He is well provisioned, and he declares he will never leave it until he strikes it rich or his 'bacca supply runs short. Since he left town he has driven a tunnel 120 feet in the hard rock.

The Sheriff Seizes Again.

By reason of the decision given at Revelstoke this week against Leslie Hill, particulars of which will be found in another page, the lumber, logs, office furniture, etc., again reverts to the Canadian Timber and Sawmills, Ltd. Acting on a warrant of execution issued on behalf of E. L. Kinman, the deputy-sheriff to day seized the above mentioned stock.

Sandon Camp Flourishing

The first month of the year makes a good show for mining in the Sandon camp, says the Sandon Standard. Fourteen silver-lead shippers are represented and one dividend has been announced. The tonnage for the month is nearly 900 tons of silver-lead ore and over 2000 tons of zinc. The latter is all from the Lucky Jim with the exception of a car or two, and this mine paid a dividend of $8000. The main feature of the month is the sale by the Byron N. White company of the Slocan Star zinc to the United States Zinc company of Pueblo. The contract is for 2000 tons and shipping has already begun. From the present look of things zinc shipments will be heavy during the year. Many of the older mines are beginning to show large deposits of zinc, and all is of good shipping grade. There appears to be two classes of this ore in the camp, and the supply at present seems to be unlimited in both. There is one class that goes about 35 per cent in zinc, and carries high values in silver, and can be disposed of in Colorado; the other is a grade of from 48 to 55 per cent zinc, carrying low values in silver, and can find a ready market in Kansas or in Europe. There appears to be a large tonnage of both available, and a gratifying feature is that a market has been found for all that can be produced.

The hockeyists are trying to get a match on with Rossland.

Resignation.

As we go to press we learn that Mr. S. B. Campbell has tendered his resignation as school teacher.

Richest Producer in B. C.

Six thousand dollars a day is the amount of gold being taken off the plates of the Nickel Plate mine, a greater amount than that produced by any mine in British Columbia. In fact, it places this property among the big producers of the continent.

If you like the Review and you would do us a turn, give us the name and address of a friend who is interested in the country, and we will mail him a sample copy.

Miner Killed at Eholt.

While a miner named Jack Burns, employed at the Senator mine, a mile out of Eholt, B.C., was picking over the rock dislodged after the holes had been fired, his pick struck a missed hole which instantly exploded, killing Burns and injuring three others.

They Honor Our Curlers.

The curling rink which left here to do battle with "stane and besom" at the Nelson Bonspiel have all returned full of pride and loud in praise of the way they were treated by the Nelson curlers The condition of the weather prevented them showing their superiority on the ice, but the "Wet Test Competition" found them in good fettle and they succeeded in carrying off first honors. The prize presented was a handsome loving cup of the precious metal which predominates in the Lardeau, mounted on a weathered oak base, and engraved as follows: "Wet Test Competition. A. W. Edge, F. C. Elliott, J. R. Benson, A. Crawford, skip. Won by Trout Lake."

The cup, which holds about a gallon, was first primed with Scotch and speedily absorbed, then refilled with sparkling, extra dry Moet and Chandon. After all eyes had gazed into its crystal depths the flow of wit, logic, and humor which permeated the large dining hall of the Stratheona equalled anything ever heard even in the days of Demosthenes or Cicero.

Individual prizes were presented consisting of rabbit's feet nicely mounted in silver, and encased in tasty rosewood boxes, each box being accompanied with a carton of quinine, graded as to the capabilities shown by each individual in the contest.

Of the twelve Nelson rinks which competed against the Trout Lake boys, Frank Tamblyn, Fred Starkey, Jno. A. Turner, Pete Wilson, J. M. Lay, A. McQueen, Dudley Blackwood, Capt. Gore, A. T. Walley, and mine host Tompkins proved themselves giants both in the competition and the oratorical effusion with followed. Messrs. Edge, Elliott, Benson and Crawford all claimed that the vocabulary of the English language was too limited for them to express themselves in a way which would show their appreciation of the kindness extended them on their initial trip to Nelson, and said that the only way in which they could properly demonstrate their feelings would be for the Nelson curlers to make a trip to Trout Lake and accept of such hospitalities as could be afforded by one of the richest mining districts in British Columbia, and hoped that the Nelson rinks would have all kinds of success when the ice was in such condition that the "stane and besom" could be used to advantage.

5-Mile Defeat Ferguson.

The boys operating at the mill at 5-Mile demonstrated their ability to do something else besides extracting gold and silver from apparently barren rock, for on Saturday evening last at the Ferguson enclosure they met and defeated the home team in an exciting hockey match by 7 goals to 4.

Teams: 5-Mile—Lauder, Cliffe, Benson, Porteous, A. Peel, and Thomas.

Ferguson—Smith, E. Crawford, Slinger, Cameron, Barber, and Thompson.

Bruce White and associates are negotiating a deal to acquire the Mackenzie interest in the famous Alpha silver-lead mine at Silverton, the figures being around $100,000.

It is not the intention of President John Keen, of the Provincial Mining Association, to call a meeting this year.
