Lardeau Mining Review

The representative of the rich Lardeau country. Sent to any address for $2 per an. in advance.

VOL. 1 TROUT LAKE CITY, B.C., SEPT. 28, 1905. No. 47.

Trout Lake Victorious !

Wins the Widdowson Gold Medal for the Finest Specimen of Ore Exhibited at Nelson Fair

OUR SUPERB EXHIBIT OF LOCAL ORE

Also Secures the Award for the Finest Collection of Ores Exhibited From Any District. Trout Lake Mining Division Topped the Lot.

The mineral exhibit sent to Nelson by the Trout Lake Division secured the Widdowson gold medal for the best mineralogical specimen and the silver medal for the best all round exhibit from any one division. The gold medal was secured by a specimen from the

Lucky Jack,

and loaned for the exhibit by Geo. M. Yuill. The general collection consisted of specimens from the Silver Cup, Triune, Nettie L., Noble Five, Cromwell, Lucky Jim, Old Gold, Fidelity, Primrose, Copper Queen, Lucky Boy, Copper Chief, Baltimore, I.X.L. (Swede), O.K., I.X.L. (Milloy), Silver Bell, Rambler, Winslow, Big Five, Silver Plate, Ruffled Grouse, Horse Shoe, Willow Grouse, and in fact nearly every property in the division.

Copper, silver, lead and gold were all there, and for diversified mining the exhibit certainly showed the Lardeau to be a good country.

J. W. Westfall accompanied the exhibit, and feels highly satisfied at securing the medals, but more so by the general interest displayed in the exhibit. It was the intention to have the exhibit sent to New Westminster, but matters could not be arranged. It will, however, be sent to Spokane Fair early next month. The Nelson News editorially says:

> "The enterprise of the mine owners and others of the Trout Lake mining division in getting together such an excellent exhibit of the ores of that district and in sending it down to the Nelson Fair in charge of Mr. J. W. Westfall, has occasioned a great deal of favorable comment upon the part of visitors. The exhibit in itself was a magnificent one, but its value as an advertisement of the mineral resources of the Trout Lake district, was materially enhanced by the presence of Mr. Westfall, who was on hand every day of the Fair to answer questions and to tell the enquiring public all about the mines and prospects of the Lardeau. The enterprise thus shown cannot fail of profitable results, and the example given may well be taken to heart by other districts and acted upon in the coming years."

In speaking of the fruit and vegetable part of the exhibit, Mr. Westfall said that the showing made by the Kaslo riding, which includes Trout Lake, was magnificent. Unfortunately the vegetable exhibit from Wm. Adams and Adams Bros. of Trout Lake, did not arrive in time through some error, and the exhibit along the vegetable line lost what would undoubtedly have taken first honors.

Fred. C. Elliott went to Revelstoke on a business trip during the week.

A tree fell across Kinman's logging engine at Three Valley last week and put it out of busines until new parts arrive from Seattle.

A. N. Vars is in town on business from Camborne.

The Lanark mine at Laurie, purchased over a year ago from the old Horn-Payne Co. by J. W. Westfall, F. C. Elliott, Dr. W. E. Newcombe and Ole Sandberg, has been bonded for a good figure to Messrs. Nelson, Mason & McDonald, of Revelstoke, who will organize a local company to develop it.

The other day an Ottawa street car conductor found an ownerless grip containing $40,360 on his car. The owner subsequently turned up in a terrible state of mind and upon recovering his property handsomely rewarded the honest conductor by handing him a $2 bill. The con. immediately sent the $2 to the Review for his annual subscription.

The provincial government has decided to make a display of fruits at this year's exhibition of the Royal Horticultural Society in London, England. About twelve tons will be sent on October 1st the C.P.R. carrying it per fast express free of charge to Montreal.

Midway is not what it is cracked up to be. So thinks Geo. N. Taylor, who left here a few weeks ago to participate in the "good times" there. After spending a short time there and sizing up the situation, Mr. Taylor has gone to Spokane, where we learn he has struck a paystreak.

Judge Miller, we regret to state, has been down for the past few weeks with typhoid fever at his home in Seattle. He is now on the road to recovery, and hopes to return in a few weeks to the Lardeau, where he is certain he did NOT contract the fever.

The sawmill is doing business. The barge is loaded with 300,000 feet of fine lumber, and will be shipped next week. The lumber now going through averages 40 per cent No. 1 clear.

A large gathering of friends met on Thursday last to celebrate the sixth anniversary of the wedding of Mr. and Mrs. J. Q. McKinnon, at their residence at Ferguson. The rooms were beautifully decorated, the tables most bountifully spread, and a very enjoyable time was spent.

Services at Methodist church on Sunday morning at 11; evening at 7.30.

Wm. Cowan, of the Big Bend Telephone Co., came in last night.

Frank Fullmer of the Beatrice mine was in town Tuesday.

C. F. McHardy, of Nelson, put in a few days here this week.

Mrs. Hurst, our new school teacher, has arrived from the coast and will begin her duties Monday next.

Al. Housten returned from the Boundary Wednesday.

Communications

[To the Editor.]

Dear Sir,—In your editorial of the 14th under the headline "The Reasons Why," you refer at length to the difficulties frequently encountered by mining men in making a deal on any proposition, owing to the number of partners holding interests in the same, and also in getting them to sink their jealousies and mutually agree on terms and price that will be not only satisfactory to themselves, but that will also permit a conservative mining man (and they are the people we must expect to do business with in the future) to take a chance on.

The good old days when a prospector could sell his undeveloped claim for a cash, or a substantial initial cash payment down, leaving the investor to go ahead and develop it to see whether it was worth anything or not, have, I fear, gone from the Lardeau never to return, and if we wish to interest capital to invest in our mines in future, it will perhaps be useful or necessary to place ourselves more in accord with the investors' idea, viz.:

You have a claim or group, have some ore, more expectations, perhaps 20 or 25 feet of tunnel or open cuts. You need two or three hundred feet of work done before any accurate estimate of value can be placed on the property. I will take a bond on the property at a certain price, do the work, and if development justifies it, take up the bond, but make any initial payment on that showing I will not. If you won't take it, alright; go ahead and develop it yourself, or let it lay there.

This, I take it, Mr. Editor, is the line of argument we must accustom ourselves to hearing henceforth and be prepared to meet. Circumstances alter cases in mining the same as in other industries. Your showing may be such as to justify you in asking and the investor in making a preliminary payment, or there is always the remote possibility in the dullest time of catching a sucker or wildcatter.

A PROSPECTOR.

Trout Lake, Sept. 28, 1905.

Dear Sir,—I notice in your issue of 22nd inst. that Mr. F. Mills while prospecting for the Chestnut Hill Mining Co., by whom he had been employed to thoroughly prospect their ground, had made a lucky strike on the claim of James O'Donnell. I would ask you to correct the statement as regards the Chestnut Hill Mining Co.

That company has employed no one to do any prospecting for them in B.C., and I as manager of the L.B. group will say that I have employed no one to prospect those claims. Yours very truly,

THOS. E. EHREHART.

Trout Lake, Sept. 26th, 1905.

Local Mining Conditions.

OF INTEREST TO THOSE WATCHING THE PROGRESS AND DEVELOPMENT OF THE RICHEST MINERAL SECTION OF THE PROVINCE

The work of driving the 200 feet tunnel in the Black Warrior is going ahead fast. The lessees hope to have a good body of ore opened up before long.

Dave Morgan has received instructions from the East to proceed with the development of the Surprise group. This looks encouraging, and it is now almost an assured fact that the deal will go through. This deal is one which means much for the Lardeau. The property is a low-grade proposition and requires large capital to work it. The people negotiating for it intend if they secure the property to build a road up the North Fork and install a reduction works.

A. B. Ernst, of Seattle, paid a flying visit in last Friday. He speaks hopefully of putting through a couple of deals for property in this division, and which will mean much for the prosperity of the camp. He will return in a couple of weeks, when he expects to put matters in shape.

The development of the Old Gold is proving very satisfactory. Some fine ore was brought in from there during the week which was opened up in the lower tunnel. A blind lead has been struck at a depth of 250 feet, which enhances the value of the property largely.

Alec. Dodds, of the Triune, has gone to the coast for a trip, leaving the mine workings under the supervision of Chas. Copp. The lower tunnel is being prospected by cross cuts to locate the ore body. The usual force is being employed in the upper workings getting out ore.

The machinery of the Big Tunnel is now working in good shape, and good headway is being made driving.

Alex. McLean and Sid Graham of the Noble Five aggregation were in town this week. There is ten inches of clean ore, galena, zinc and grey copper in the bottom of the drift. Four men are employed on the property.

Tony Lindgren and associates are pushing work on Canyon creek on the Linsen View and Grand Solo properties. Both of these properties have good ore in sight, and it is the intention of the owners to get out what is possible this winter.

From reliable information received during the week, the resumption of work on the L.B. group is assured, and will begin within ten days or two weeks. This is Trout Lake's banner property, and has shipped a large amount of ore. For reorganization purposes this mine was closed down last spring, and its resuming work will be pleasing news to all interested.

The work on the Copper Chief is producing good results. If possible the owners intend to keep up development all winter.

Jim Jenkins and W. Phelan are making good headway on their properties at the foot of the lake.

Jack Chism came up from Rapid Creek Monday night. Work on the Hecla is going ahead fine. The shaft is now down 30 feet, and the values are getting better. The lead is between 20 and 25 feet in width, and the shaft is being sunk in the middle and will be crosscut when a depth of 60 to 70 feet is attained. Jack is elated over the prospects, and if the values continue even as they are, the Calumet and Hecla will be undoubtedly crushing ore through their own mill next spring.

Pete Culkeen is working on his claims on Gainer creek above 10-Mile.

Jim Livingston is meeting with good success on the Rambler.

It is said that a prospector is a man who finds things which make some men rich and rich men richer.

Alec Crawford has now covered in stages for the conveyance of passengers between here and the Landing.

Steve Slinger, one of Ferguson's popular hotel men, took in the Nelson Fair. Steve thinks that the advertisement obtained from the Lardeau ore exhibit should have permanent and good results.

Mrs. Anderson, of the Beatrice Mines, Ltd., was in town on Wednesday.

Mr. and Mrs. D. R. McLennan and family have gone to New Westminster to visit the fair.

Oswald Woods and Charlie Dulmage are spending their holidays at the coast.

Alec. Dodds, supt. at the Triune, left Monday for Portland.

A. H. Gracey is relinquishing the management of the Oyster-Criterion mine.

"Twenty thousand dollars are to be expended on the Beatrice mine in development before a pound of ore is taken out." This coming from an authentic source is pretty good proof that the Beatrice Mines Ltd. intend to make the mine a permanent ore producer. This week Messrs. J. Lade, A. Gunn, E. Graham, J. Otto and Jack Cameron, who secured the contract to drive 300 feet in the No. 2 tunnel of the Beatrice mine, commenced work on the contract.—Camborne Miner.

Archdeacon Beer will hold services in the Anglican church next Sunday, morning and evening.

We are sorry to report the severe illness of Mrs. A. G. Fraser. As we go to press, however, a turn for the better has set in and we look hopefully for her recovery within a few days.

Carson Murray left Monday morning for Vancouver, where he will attend school during the winter.

The Lardeau Express Co. are getting their rigs in shape for the taking over the mail contract between Beaton, Ferguson and Trout Lake.

At Beaton on Tuesday, the 26th inst., the arbitrators appointed to settle the dispute between the Arrowhead Lumber Co., of Arrowhead, and A. G. Fraser, of Trout Lake, met, and after going thoroughly over the ground settled the dispute satisfactory to both parties. The arbitrators were Fred. Fraser of Revelstoke and J. C. Murray of Trout Lake.

Charming Wedding.

NUPTIALS OF A. E. FOWLER AND MISS VIPOND A BRILLIANT AFFAIR. LAVISH FLORAL DECORATIONS A FEATURE.

The celebration of the nuptials of Mr. Albert Enoch Fowler, eldest son of the late Richard Fowler, of Port Angeles, Wash., and Miss Ethel Margaret Vipond, eldest daughter of Mr. E. R. Vipond, of Trout Lake, B.C., which took place at the Methodist church, Trout Lake last Wednesday morning, was a very notable event, charming in all its detail, and witnessed by an assemblage representative of the host of friends of the contracting parties and the elite of the town.

The auditorium was beautifully decorated with white chrysanthemums, palms, and grouped around with ferns. A bell of garlands and choice exotics was suspended from the chandelier, while an arch with garlands of clematis trailed to the carpet of the nave and transept, forming an exquisite canopy. The decorations were planned and carried out by the Mesdames Murray and Elliott, and they are to be congratulated upon the success of their efforts.

At 7.30 the bride entered with her father, and was met in the vestibule by her attendants. The bride looked beautiful in a gown of white crepe-de-chine over white liberty silk, demi-train, the bodice with deep lace collarette. She wore a chaplet of orange blossoms in her hair. The bridal veil, which was silk net veiling fully feather stitched, fell over her in graceful folds from head to white satin slippers.

The bridesmaids were Miss Lena Vipond, sister of the bride, and Miss Marjorie Fraser, who looked fascinating in creations of Nile green and liberty silk, trimmed with pink satin bebe ribbon and white lace.

Mr. Alex. McLean supported the bridegroom as best man.

The Rev. Scott performed the rites, and at the conclusion of the ceremony the "Wedding March" was played by Miss Hollenbeck, and the procession passed down the festooned aisle and home to the residence of the bride's parents, where the reception and breakfast was held.

The house was a mass of flowers. The dining room was a perfect bower of beauty, with masses of gladiolas, dahlias, scarlet geraniums and ferns arranged about. The bride received her guests in the drawing room, which was also lavishly embellished with flowers and foliage.

After the reception the newly-married pair left for their honeymoon. The bride wore a travelling suit of rich brown broadcloth, with hat to match. Before leaving, the happy couple had to pass before a blizzard of rice, and ere embarking on the s.s. Procter were the recipients of hearty congratulations from the crowds of friends who had assembled on the quay to wish them bon voyage.

Before returning to take up residence here they will visit Seattle, Portland and California.

Alec Crawford and Mrs. Crawford are paying the New Westminster Fair a visit.

Mrs. Newman Taylor is leaving shortly for a trip to Honolulu.

A GOOD ADVERTISEMENT.

The result of the sending of an ore exhibit to Nelson is proving of vast benefit in so far as advertising the district is concerned. In every business the secret of its success lies in judicious advertising All of the merchant princes of the world acknowledge this fact. As it is in mercantile or manufacturing life so it is in a larger way with countries. If you want the purchaser to buy what you have for sale you must advertise what line of goods you carry. We in the Lardeau have mining properties to sell, and the better we can advertise that fact the more purchasers we will have. It is now proposed to send the exhibit to Spokane. It requires funds. One dollar from each would amply cover all expenses; many can afford and have given more. Such an exhibit as we have now will, and must create favorable comment from the press. Many will see it at Spokane who never knew of the Lardeau and its immense possibilities.

In our issue of 21st inst. we made some strictures on the Nelson press. We had no intention of including the "News," and it was through an inadvertance that we made the article general. We differ politically with the "News," and ofttimes take issue with that journal along political lines. As a newspaper, however, we candidly say that we know of no other that more consistently and vigorously pushes our district and advertises our resources than the "News" As a newspaper it publishes news, and is a credit to journalism. The city of Nelson is to be congratulated on having a man at the head of their leading newspaper like Brother Deane.

Our recent remarks on "The Reasons Why" is being commented on freely by our readers. We appreciate this, and are anxious to have many more letters on this subject. We believe it to be a live subject for discussion and will prove beneficial. Now, readers, don't be backward; express your ideas fully and freely. Criticise, but do it fairly, and we will take it kindly.

Why not make the exhibit of ores sent out for exhibit purposes a permanent exhibit for Trout Lake division? We are certain Messrs Elliott and Westfall would be pleased to have it in their offices, which are centrally located. It would be a nucleus around which could be built a show of specimens which would be invaluable as an advertising medium.

There is some danger of the river bank opposite the recording office being washed away, which will endanger the whole of the property lying adjacent. The Trades Committee should take the matter up and investigate. If necessary, the government should be approached, and a breakwater similar to the one further down be built. No use locking the stable after the horse is stolen. Take the matter up in time and both ground and money will be saved.

Stay with your town! Don't get weak in the back at a time when your pluck and endurance is most needed. Prospects for the division were never brighter. Deals are now in progress which will make the towns of Ferguson and Trout Lake the busiest camps in B.C. This is not bunkum. We are not at liberty to say much at present, but—keep a stiff upper lip and—don't knock.

Hugh McPherson - - Supt.

"There is a land that is fairer than day." During the past two weeks we cannot claim this for the Lardeau. It has been juicy, very juicy, but it don't hurt our crops—one advantage of living in a mineral country. As a general thing, however, many people who have visited the Lardeau were of the opinion that they had reached that land so beautifully exemplified in that sweet old hymn "In the Sweet By-and-Bye."

We were nearly forgetting it! "Rub-a-dub dub, pay up your sub."

TROUT LAKE CITY

THERE have been fortunes made by judicious investment in Real Estate, and more fortunes will be made than ever the next two or three years. The one who reaps the harvest is the original investor, for he has his money on a certainty.

Now let us point out to you that there is no better spot on the Continent to buy Real Estate than TROUT LAKE.

Trout Lake is the prettiest spot in the Kootenays; as a pleasure resort it has no equal. Boating and fishing may be indulged in the year round; while big game in abundance is to the found on the hills. Its climate is superb, there being no great extremes, it being mild in winter and cool in summer. It can boast of some of the finest hotels and residences in British Columbia. Its streets are well laid out and graded. There are two excellent general stores, and a glance at the advertisements in this journal will show that all trades are fairly well represented. Write with confidence to Agents.

Then call on or write to

IT has never had a 'boom"—its growth has been steady. It is the head of navigation, and the terminal of the Lardo branch of the C.P.R. All roads (in the Lardeau) lead to Trout Lake. It is the commercial centre of the richest mineral district on the continent, and has banking facilities provided by the Imperial Bank of Canada; first-class school accommodation under the dicertion of S. Shannon, B.A., a good water system; government offices; County Court sittings; Methodist Episcopal and Anglican churches and cottage hospital.

There are valuable ranch lands on the outskirts awaiting settlers. Its lumber resources are magnificent, and a band saw mill with a capacity of 60,000 ft. per day is at the head of the lake. The mines tributary are proving out bigger producers every year, with new prospects opening up rich bodies of ore.

There will be a big rush this summer, so if you would know more, write at once to either of the agents at the addresses below.

IN THE MATTER OF THE "COMPANIES' WINDING UP ACT, 1898, AND AMENDING ACTS," AND IN THE MATTER OF THE SILVER CUP MINES, LIMITED NON-PERSONAL LIABILITY

The Silver Cup Mines, Limited Non-Personal Liability, has gone into voluntary liquidation under the above Act, and has appointed Erland G. Hadow, of the town of Ferguson, B.C., accountant, its liquidator, for the purposes of such winding up.

The creditors of the above Company, which has its head office in said town of Ferguson, and all others having any claims against said Company, are required on or before the first day of September 1905, to send to Harvey, McCarter & Pinkham, solicitors for said liquidator, at their offices, First Street, Revelstoke, B.C., their names and addresses and descriptions, and the full particulars of their debts or claims verified by oath, and the nature and amount of the securities, if any, held by them, and the specified value of such securities, and if so required by notice in writing from said liquidator or his solicitors, to come in and prove their said debts or claims in the usual way, at such time and place as shall be specified in such notice.

After the said first day of September 1905, the said liquidator will proceed to distribute the assets of the Company among the parties entitled thereto, having regard only to the claims of which he then has had notice, and the liquidator will not then be liable for the assets or any part thereof so distributed to any person of whose claim he had not notice at the time of the distribution thereof.

Dated this 10th day of July, 1905.

ERLAND G. HADOW,
LIQUIDATOR.
