VOL. 1 TROUT LAKE CITY, B.C., JULY 7, 1905. No. 35.

CELEBRATION DOMINION DAY.

ATHLETIC SPORTS. FOOTBALL MATCH AND GRAND CONCERT.

TROUT LAKE EN FETE

A Day to Be Remembered By The Children.

There was something like a crowd in Trout Lake last Saturday. Patriotism full and unbounded welled in the hearts of both old and young and particularly the latter, for at an early hour the juveniles formed themselves into procession and paraded the town with waving "Jacks" and standards with drums rolling the while.

Royal weather prevailed throughout the day, and at 3 p.m., the time the first event was scheduled, the sports venue presented a gay and festive appearance. The judges of the various events were that veteran sprinter, Andy Craig, and A. Vars. J. J. Atherton officiated as starter, but modesty forbids bouquets in that direction. Space will not permit of a detailed list of the winners, suffice it to say there were 21 events, and three prizes in every number. There were races for the babies, races for the boys, races for the girls, and the events were interspersed with novelties such as a threadneedle race, stone picking race, sack races, etc., etc.

At the conclusion of the sports a treat was given the children in the nature of a scramble, and as the outcome we believe every youngster participating carried away a portrait souvenir in relief of Edward VII's most kingly majesty. Cheers were given for the king and the donors of the prizes, immediately following which adjournment was made to the football ground, where teams representing Ferguson and Trout Lake were in readiness for the fray. This was the second meeting of the teams this season, and as Trout Lake ran out winners the previous occasion on their opponents ground by 1 goal to nil, it augured well for the return match at Trout Lake. The highest hopes panned nit, as Ferguson not only played sterling football but flattered their supporters by winning out by two goals to an egg. For the first time the officials of the Ferguson combination tried Sandy Laughton in the forward line, and he favored their selection in no small manner. For the first ten minutes of the game the home goalie was called upon to handle several splendid shots negotiated by Sandy. Another great factor in the victory of the visitors was the good combined work of the forward string, and special mention must be made of the good work of young Bob Kirkpatrick on the right. Barber and Baskett were impregnable at back, and as usual Alex Cummins as centre half checked attacks and fed his forwards in a clean way. For the home team Oswald Woods and Ralph Higginson were the stars. If more support had been given to the former by his fellow forwards the result would perhaps have been different. Ferguson won because they were the best aggregation on the day's play, and the victory was not begrudged. The spectators greatly enjoyed the exciting movements of the game. Ted Saunders made an efficient referee.

In the evening a big crowd assembled in the Oddfellow's Hall to attend the Grand Concert. The programme was made up of local talent, and the various numbers showed that Trout Lake can easily hold its own in this direction with any town in the Interior. The audience were not sparing with their applause and recalls prevailed. Special mention must be made of the selections by the town orchestra. The proceeds of the concert were devoted to the debt on the skating rink.

At the conclusion a dance took place on the well-polished floor, and some forty couples participated until midnight. Thus ended a most enjoyable day. Long live the king!

School Report.

At the examination held in Trout Lake school at close of term, the grading of the pupils stood as follows:—

5th Class: Alex McPherson 519, Grace McPherson 440, Lulu Hollenbeck 391.

4th Class: Willie Atherton 522, Lena Vipond 383, Gordon McPherson 383, Marjorie Fraser 284.

3rd Class: Edna Hollenbeck 484, Alice Murray 383, Lilian Cornelius 379, Naomi Vipond 343, Lotus Griffith 279, Carson Murray 207, Martha Johnson 195, Charles Haner 171, Willie Johnston 154.

2nd Class: Ernest Atherton 210, Edith Abrahamson 203, Catherine Vipond 158, Pearl McPherson 115, Frank Abey 83, Tommy Johnston 60, Olive Abey 45.

The Rolls of Honor given by the Department were awarded as follows:—

Proficiency: Edna M. Hollenbeck.
Deportment: Edith Abrahamson.
Punctuality: Rossland Murray.

Farewell Dance.

A farewell dance was tendered Mr. and Mrs. F. Hooker on Wednesday evening last. The family will leave on Monday for Vancouver. Mr. and Mrs. Hooker have been with us for a long time, and their absence will be sorely felt in social circles. The Review joins with a large circle of friends in wishing the family bon voyage and success in their new home.

Monte and Henry Morgan are up at the head of Brown creek doing assessment on the Cromwell and Mabel.

Arthur Evans and Harry Jones are leaving to do some development on their property on the Arm. The claims are within a short distance of Beaton, and the surface showings are extremely rich. Being so near transportation the property should prove a most valuable one. A tunnel will be driven to get under the rich showings.

Johnny Kennedy intends to get things moving at the Jewel. The property is on Hall creek, Duncan slope. He left on Friday to see what supplies had been left there and also to examine the state of the trail.

J. T. Lauthers has been pushing development work on the Immense group on Silver Cup slope. A crosscut tunnel is now in 145 feet, it is expected another 100 feet will have to be driven to get under the ore, which taps the lead at 125 feet depth. The lead is known as the George Windsor, and some very rich ore has been taken from the surface. The property is owned by J. T. Lauthers, E. G. Moyer and W. R. Hollenbeck.

Return From The Ootsa Lake Country.

THE MUCH-TALKED-OF AND MORE ADVERTISED COUNTRY TURNS OUT TO BE ANYTHING BUT A LAND OF PROMISE.

Mosquitoes & Mountains

The Principal Attraction In The Bella Coola Valley.

This week for the benefit of those who have been yearning to join the rush to the Ootsa Lake Country we publish an interview the REVIEW obtained this week with Mr. Stanley Menhinnick, who has returned to Trout Lake after visiting the land of "milk and honey." The interview should prove a good object lesson, as Mr. Menhinnick is well known throughout the Lardeau and is no sinecure or sycophant. His remarks to the scribe go to prove that the map recently issued accompanying Bulletin 9 by the Provincial Bureau of Information is very inaccurate, and in many cases wholly misleading. Mr. Menhinnick pointed out to us on the map several trails which had no existence in real, and others which were miles out of their existing latitude.

Mr. Menhinnick said: "I left Trout Lake April 23rd to visit the Ootsa Lake Country via Bella Coola. My object was to ascertain what chances there would be to do a little steam navigation on the Ootsa and its rivers in case the country was opened up. As you know, Steve Woods of this town accompanied me. We left Bella Coola on May 16th, and striking the Valley trail we reached the Lake on June 5th. I should judge distance by the trail to be 250 miles. The trail was in very bad shape, and the feed for our horses was very scarce. The summer trail is very much shorter, but is open for only a short time each season.

While crossing the Ootsa we were overtaken by some well-known Lardeau men, Eli and George Edge and D. Blaney, with whom we proceeded on the trail via Cheslata around to about the centre of the north shore of the Ootsa, where we camped for seven days on what was described as "the best land in the Ootsa country." While there we made daily excursions through the surrounding country and made many observations with a telescope from the hill-tops. I saw many small patches of fairly good land among aspen trees, but no large areas of good land. The country is by no means an open one, being badly broken up with hills and rocky ridges. On the south shore of the lake there appears to be no land of any value. From information obtained from two men who had wintered there, and from the Indians, I judge the lake to be frozen for six months of the year, and there is patent evidence to show that the average snowfall is fairly large.

"I do not wish to pose as an authority on land, but from information obtained from many parties that were in the Ootsa country in search of land, I think I am safe in saying that nine-tenths of those men will be of the opinion that the reports which have been so much in circulation as to the areas and quality of land and climate in the Ootsa Lake country are, to say the least, very misleading. I think, however, it is quite possible for that country to come to the front by the discovery of mineral. A well-equipped party of prospectors from Vancouver, with whom are Messrs. Starkey and Allen, late of Fish Creek, are operating on the hills to the west of the Francois and Ootsa Lakes this summer.

We returned to Bella Coola by the mountain trail in 8 days, and were the first party by that trail this season."

Death's Sudden Call.

We regret to announce the death this week of Miss Ruth Valentine, which took place on Saturday last at Portland, Oregon. Miss Valentine is the sister of Mrs. A. Craig and Miss L. Valentine of this town, and of Mrs. Tomlinson of Revelstoke. The deceased young lady was spending her vacation at Portland in company with Mrs. Tomlinson, and were visiting their mother, who resides there. The fair was visited, and while in the grounds was taken sick. She was taken to the Cottage Grove hospital, where she expired in a few days from typhoid fever and nervous prostration. The deceased has been associated with the Revelstoke branch of the Canada Drug and Book Co. for seven years, and her loving disposition had made her a popular favorite. The Review extends heartfelt sympathy to the relatives of the deceased.

A Trout Lake Paragon.

It is not generally known that we have, and have had for some time, in our midst an artist of undoubted ability. Though bent with age, and eyes dimmed with years of close contact with her beloved canvas and palette, Mrs Fanny Hammond has just concluded a painting of the "Glacier," 3 ft. x 2 ft., which will hang as a witness that in her declining years her right hand had not lost its cunning. Mrs. Hammond's name is so well known in art circles that it would seem superfluous to breathe a word in praise of the talented lady were it not for the truism that "no one is a prophet in their own country." A Review scribe was ushered into the artist's studio recently, and while in no sense endeavouring to pose as a critic, admits he was most profoundly amazed at the creations of the grand old lady. There were studies of real life, animal life and nature; choice bits of local mountain and lake scenery; copies of old masters in oils, water colors, crayons and Indian ink; there were sprays of roses and other exotics, and in fact all those sweet subjects which a painter dwells so long and lovingly upon. Of late Mrs. Hammond has been engaged in executing photo enlargements in Indian ink for several local families, the success attained meriting highest commendation. Mrs. Hammond will be leaving shortly for Pincher Creek, Alta., but the studio will be open for exhibition for several weeks longer. Mrs. Hammond is the mother-in-law of our esteemed citizen, W. F Dunphy, and the studio will be found at his residence.

Some eastern parties are expected in to take over the Copper Mountain group. J. T. Lauthers went up to the property Monday.

Bill Baty has finished his assessment on the O.K. at 5-Mile point. We learn that gratifying experiments have been made, and as a result further developments will be proceeded with.

Poplar Creek.

The fourth of July was celebrated by a ball which was held in the assembly hall of the Royal Hotel. The floor was in excellent shape and the hall was beautifully decorated. The music was supplied by Ward's orchestra to the satisfaction of 20 couples C. Schomberger made an efficient floor manager. The dance was followed by a banquet.

John Keen arrived in town last Monday.

A son of E. Ward who has been schooling at Pulman College, Wash. arrived to spend his vacation last week in company with class-mate Robertson.

Geo. Munro is still digging gold on the Hecla.

Tony Hanson brought down the news on Sunday that ore had been struck in the face of the Mother Lode tunnel. This tunnel is now 350 feet in. The property is owned by the recently formed Laclede Mining Co. Mr. Hanson brought down some samples of the ore.

Ralph Higginson has purchased the packing and transfer business of Geo. Chataway. We wish R.H. the best of good luck.

J. Moore, Kaslo, superintendent of roads and trails, is supervising the construction of a trail from the railroad to Cascade creek. This trail will materially assist many property owners, and its completion is eagerly awaited. Whilst working on the trail recently some rich galena ore was struck. We have yet to learn whether the property was staked or vacant.

The Hampton has six men at work on the property. A pack train with supplies went up Wednesday. E. Ward has charge of mining operations.

On the Smith and Rogers property six men are at work. F. J. Eitzle will return from Seattle about the 15th, and the tunnel will then be started.

The Triune.

Work on this famous high-grade producer is proceeding steadily. A full force of men are employed. E. Vipond brings down from the mine to the wharf about 3½ tons of ore daily. In the lower tunnel they are now about under the ore and they expect to be among it at every shot. Snow is fast disappearing from Triune basin.

Silver Cup.

A crew of men are engaged driving the Sunshine tunnel. We learn that some nice ore is being taken out of this tunnel, which is being driven to connect by crosscuts and an upraise with the upper workings. Mr Alexander returned to the property early in the week. The piping for conveying air into the tunnels is now on the ground and being put into position.

George Proulx has gone up to cook for the crew.

Reward.

Mining operations at this property have ceased pending the arrival of a compressor plant. The ground has been cleared and the foundations nearly constructed for the reception of this plant. It is considered that the long tunnel which the company is driving to tap the various known leads at depth will be run at a much cheaper and quicker rate by this means.

Ferguson Briefs.

Dad Black has returned from the Hot Springs feeling good.

C. M. Nesbitt left for Revelstoke on Wednesday. He expects to remain there for the residue of the summer.

Jim Comerford is down from the Triune and has gone on a prospecting trip on the long hill.

Jim Livingston is still at the Rambler, which property is looking particularly good.

Andy Daney's new rig is the proper caper for rain or sun. There's no truth in the rumor that Andy keeps the hood up to protect his complexion.

A. J. Gordon and Bob Burns are reported to have struck it rich on Gold Gulch.

The Ryan Boys have returned from their North Fork properties. Returning through the tall timber they ran up against a snag in the form of brambles. They were followed into town by two bares.

Operations at the Oregon group continue to give every satisfaction. In the long tunnel indications go to prove the close proximity of ore. The crew came down to-day for further supplies.

Mrs. Glenn will be leaving in a few days to join her husband at Bella Coola, where he has gone on a land-seeking tour.

There will be a big crop of wild berries this year.

There was an exciting football match played here last Monday night between scratch teams raised about Ferguson and Trout Lake. At full time neither side had a goal to their credit, and the captains agreed to play on until a goal was scored. At the end of an extra 47 minutes play Ferguson bundled the goalkeeper and ball through to the plaudits of the scoffing multitude and everybody went home perfectly happy.

We are pleased to note that Gordy McLennan is improving in health. Gordy has had a spell in the hospital with inflammatory rheumatism.

They say love is like the measles—all the worse when it comes late in life. Dame Rumor, the fickle jade, whispers that Ed. Bell is leaving the country to get married. Oh! Ed., Ed., at your tender age and in spite of repeated warnings. Once married and the game's u.p. When they're maids they're as mild as milk; but once make 'em wives, and they lean their backs against their marriage certificates and defy you.

One or two pairs of shoes have been left behind by Dad Langstaffe. Will the owners please call for them with the price of repairs.

MURRAY & ATHERTON Publishers

Local News.

Mr. and Mrs. Tomlinson of Revelstoke visited Mr. and Mrs. Craig this week.

Jack Scott is taking a trip to the Lewis & Clark Fair.

Alec Oliver is getting ready to start for his property at Gold Hill

On Sunday, July 2nd, services at the Methodist church were conducted wholly by the children. It was a success, and these services will be repeated every month. Children's practice every Wednesday afternoon.

Dad Langstaffe left for Enderby this week. He has gone to join his son-in-law, Jim Dagg. The old gentleman has reached four score and four years, and he told us before taking his departure he felt good enough for another 20 Dad has held down the cobbler's bench in town for four years, and he contemplates opening up at Enderby. We wish Dad all the good luck he deserves.

O. B. N Wilkie had completed a survey for Crown grant of the Embro near Rapid Creek.

Whilst clearing the Andrew Abrahamson addition to the townsite this week the fire got away from the men employed there. A large force of volunteers fought the flames for a day, and as we go to press we learn that the fire is now under control.

Fred Mummery is going to the Second Crossing (Poplar) to work on his property.

The American boys in town let the world know their patriotism to the stars and stripes is not affected by dwelling across the border, for on the "glorious fourth" they made the hills reverberate with the roar and rattle of artillery.

Robt. Scott came in from Three Valley this week to spend a few days with his family.

Stanley Menhinnick has gone on a prospecting trip on Fish Creek.

A. W. Edge and F. Landrian returned from the Mollie Mack on Gainer creek last Monday.

Steve Woods has arrived home.

Ed. Baillie came up rom Poplar Wednesday.

Rose, Blanche and Clara, three daughters of F. L. Morand, of Poplar, passed through this week on their way to Lumby, B.C., where they are entering the high school there.

Mrs. Geo Johnson and daughters are spending some holidays at Revelstoke.

Cashier Spohn of the Imperial Bank here has gone to Edmonton to spend vacation.

Smokers' supplies in great variety.

COMFORT AND WEAR DEPEND ON FIT.

A KEY that nearly fits a lock wont quite open it.

A shoe that nearly, but not quite, fits a foot wont give complete comfort, nor full wear.

A loose shoe chafes — a tight shoe pinches.

An ill-fitting shoe breaks where it wrinkles and wears out where it stretches.

Comfort, and economy, therefore demand shoes that fit "just right."

And fit depends upon the shape of the lasts, as well as on large variety of sizes, half sizes, and widths.

There are 14 up-to-date shapes of Slater Shoes.

In each shape there are 11 half sizes and 6 widths.

This means 924 chances of fitting your feet perfectly.

No other Canadian shoe is made in such large variety of shapes, sizes and widths.

No other Shoes, of any kind, are carried, by the Retailer, in such full assortment of shapes, sizes, and widths, as "The Slater Shoe."

Because "The Slater Shoe" is sold to only one Retailer in each town, who must contract to carry a full representation, in order to secure the Agency.

When you buy "The Slater Shoe" you get more than sure-value every time up to the Makers' price stamped on each pair.

You also get 924 chances of perfect fit against 200 chances of shoes made in the usual limited scale of shapes, sizes and widths.

This is only one of a dozen reasons why three times as many pairs of Slater Shoes are sold, as of any other single make in Canada, at $4.00 or $5.00.

Look for the slate-frame trade-mark, and the Makers' price stamped on the lining.

CANCELLATION OF RESERVE.

NOTICE is hereby given that the reservation established in pursuance of the provisions of the "Columbia and Western Railway Subsidy Act, 1896," notices of which were published in the British Columbia Gazette and dated 7th May, 1896, and 5th June 1896, respectively, are hereby cancelled.

Crown lands situated within the area embraced by the said reservation will be opened to sale, settlement, lease and other disposition under the provisions of the "Land Act" three months after the date of the first publication of this notice in the British Columbia Gazette; provided, however, that in all cases where lands are so sold, pre-empted, leased or otherwise alienated by the Government, and are subsequently found, upon the survey of the Columbia and Western Railway Company's blocks, to lie wholly or in part within such blocks, then the persons so acquiring such lands shall acquire their title thereto from the Railway Company, who have agreed to deal with such purchasers, pre-emptors, lessees, etc., on the same terms and conditions as the Government would under the provisions of the "Land Act," except in respect to timber lands on the Company's blocks, which shall be subject to the regulations issued by the Company relative to the cutting of timber on the Columbia and Western Railway Land Grant.

TROUT LAKE CITY

THERE have been fortunes made by judicious investment in Real Estate, and more fortunes will be made than ever the next two or three years. The one who reaps the harvest is the original investor, for he has his money on a certainty.

Now let us point out to you that there is no better spot on the Continent to buy Real Estate than TROUT LAKE.

Trout Lake is the prettiest spot in the Kootenays; as a pleasure resort it has no equal. Boating and fishing may be indulged in the year round; while big game in abundance is to the found on the hills. Its climate is superb, there being no great extremes, it being mild in winter and cool in summer. It can boast of some of the finest hotels and residences in British Columbia. Its streets are well laid out and graded. There are two excellent general stores, and a glance at the advertisements in this journal will show that all trades are fairly well represented. Write with confidence to Agents.

H. McPherson

IT has never had a "boom"—its growth has been steady. It is the head of navigation, and the terminal of the Lardo branch of the C.P.R. All roads (in the Lardeau) lead to Trout Lake. It is the commercial centre of the richest mineral district on the continent, and has banking facilities provided by the Imperial Bank of Canada; first-class school accommodation under the direction of S. Shannon, B.A.; a good water system; government offices; County Court sittings; Methodist Episcopal and Anglican churches and cottage hospital.

There are valuable ranch lands on the outskirts awaiting settlers. Its lumber resources are magnificent, and a band saw mill with a capacity of 60,000 ft. per day is at the head of the lake. The mines tributary are proving out bigger producers every year, with new prospects opening up rich bodies of ore.

There will be a big rush this summer, so if you would know more, write at once to either of the agents at the addresses below.
