Lardeau Mining Review

The representative of the rich Lardeau country. Sent to any address for $2 per an. in advance.

VOL. 1 TROUT LAKE CITY, B. C., NOV. 18th 1904. No. 2.

The Famous Lucky Jack Case.

TANGHE WINS APPEAL IN THE POPLAR CASE AFTER WEARISOME LITIGATION.

After many days Tanghe has become firmly established in his placer claim located over a part of a lode claim at Poplar, the lode claim being the celebrated Lucky Jack. Tanghe has been described as a claim jumper, a holdup man, a blackmailer and a thief, obeying not the voice of the gold commissioner. Mr. Tanghe has had much difficulty in obtaining a title to his placer claim and has, incidentally, placed his name in the law libraries of the country, but at last he has the claim.

It was in September, 1903, that Tanghe located the placer claim over the Lucky Jack. The Lucky Jack was a lode claim that sprang into sudden fame as a modern El Dorado.

Mr. Tanghe heard and investigated. Evidently he found that in this case all was gold that glittered and so he staked a placer claim.

Mr Morgan of the Lucky Jack complained to the gold commissioner that Tanghe was jumping his claim and stealing his gold, and the gold commissioner ordered Tanghe to move his posts. This would have given Tanghe a new claim, but not the one he wanted. All the judges before whom the case has appeared, Mr. Justice Martin the trial judge, and Chief Justice Hunter, with Justices Irving and Duff of the full court, before whom the appeal was concluded this morning, all agreed that the gold commissioner had no power to do this.

After the civil action following the casting of Tanghe into prison by local J. P's Mr. Tanghe took the matter to the supreme court in December and it was tried by Mr Justice Martin. Mr. A. H. MacNeil fought for Tanghe and Mr. W. A. Macdonald, K. C., also of Rossland, defended the Lucky Jack from the inroads of the plaintiff. Mr. Justice Martin held that the title of Mr. Tanghe to his placer claim was perfectly good, so Mr. Morgan appealed, and the two parties have fought over the old ground before the full court here, the case ending before lunch in the dismissal of the appeal.

Their lordships decided that the claim located by Tanghe was a bona fide placer claim and that Tanghe located it in good faith as a placer claim and not as a blackmailing scheme.

Chief Justice Hunter added that the Placer Act should be amended so as to provide that no placer claim can be located over a lode claim except with the permission of the gold commissioner.

Act Should be Remedied.

The supreme court of British Columbia has given its decision in favor of Tanghe in the famous Lucky Jack case. We do not find fault with the honorable justices, for we believe they interpreted the law as they found it. It is unfortunate, however, that there should be such a looseness in the framing of the laws which leaves any doubts whatever as to the rights of the different classes of locators. Our country is young, and we of course cannot have all matters in a state of absolute perfectness. We must live and learn, and we have no doubt that the next legislature will enact laws which will obviate any difficulty along this line in the future.

There is no doubt in the present case it was a miscarriage of justice, although it is law, and that the decision will have a deterrent effect on the prosperity of the richest gold district in British Columbia. Under the decision it is practically impossible for a lode locator to do any business unless he placers his own ground which entails heavy costs and untold trouble. In fact we have known several locators who have staked ground and covered up the gold showings until such times as they can operate without danger of having their claims located as placer ground

We would suggest that a petition be framed and copies of it be sent all over the district for signature asking the Provincial government to change the present or enact new laws which would for all time to come settle this vexed question.

Ferguson Items.

Lew Thompson and Will Waller had a successful prospecting trip up Gainer creek this week. They report having staked an eye-opener.

In conversation with our representative this week, Jack Chism an expert mining man of some 26 years' experience gave it as his opinion that the Lardeau country had no equal in the world. Speaking of the Poplar camp Mr. Chism said that he had never seen anything to approach the mineral wealth of the Swede group. He was of the opinion that the whole of the province would flourish with the revision of the mining laws of the country.

A dance was held in the opera house on Saturday evening last and was very well attended. Miss Edwards thumped the ivories to the satisfaction of the devotees of the mazy waltz until the dawn of Sabbath.

Rev. E. K. Sharpe conducted service in the chapel on Sunday evening last and a fair-sized congregation greeted him.

Great activity prevails at the Ferguson saw-mills and some fine logs are being piled by Frank Lebeau.

There is no truth in the rumor that mayor Marshall has a permanent situation.

The long tunnel is the one theme of gossip in Ferguson now. All sorts of conjectures are on foot as to the exact point of commencing the great drive. Certain it is that when operations are fairly under way this will be a veritable land of milk and honey. The disgruntled pessimists returning to town are seized with a species of stage fright at the magnitude of the deal

The lower tunnel on the Mohican is in 80 feet.

There's a fellow in town who has such a love for a cayeuse that he takes it to bed with him. This may come as a surprise to everyone, but there's no cause to be dubious.

A huge boulder lying across the road just below the main road bridge was removed by Andy Daney's men last Friday.

Mr. W. Gunterman and family were in town on Sunday last visiting Mrs. Needham at the hospital.

Through falling down a shaft at Nettie L. mine on Tuesday last, a man named Convery sustained a broken wrist and a severe bruising. He is being well cared for at the Miner's Hospital.

At Five-Mile houses are still going up.

Mr. J. W. Bennett, yard foreman at the Silver Mill met with a very painful accident whilst at work on Saturday last. He was supervising the haulage of some lead concentrates from the buddle floor to the exterior of the building, an elevating tramway by horse power being the mode of transit. By some means his left hand got under the wheels of the car, and two of his fingers were severed, and a third one badly contused. Mr. Bennett has the sympathy of all who know him, and especially is this the case at the Five-Mile camp, where he is very popular.

Business in Ferguson has brightened up considerably the past few days. There is a feeling locally that busy times would come with the first fall of snow. Indeed, this prophetic notion is proving a recognized truism. The stores report great activity. Every man in town has lots of jobs confronting him, and the prospects look exceedingly rosy for the winter. The mill has now a full staff of men, the Silver Cup, Nettie L., Triune, Surprise and several smaller mines will be fully employed all winter, and good times will predominate.

My "Lady of the Snows" spread a hoary three-inch mantle over our peaceful city after "curfew tolled the knell of parting day" on Wednesday last. Pedestrians, riders and drivers will welcome the icy clutch of Jack Frost on the king's highway, as the latter is now a veritable sea of mud. The local kids had a great time among "the beautiful" on Thursday morning, and many a pater had to rejuvenate with nail and hammer a sleigh which had done good service for the kids in previous years.

Hats off to the promoters of the Ball held in the Alexandria Opera House on Thanksgiving Day. 'Twas a glorious giddy success. Some twenty-five couples graced the polished floor to music supplied by Miss Edwards on the pianoforte and As. Pool with violin. Basil U. Smith as master of ceremonies was all that could be desired. The party dispersed at an early hour highly delighted with what must be voted a successful night

After November 1st 1904 the Sunday trips of the steamer Geo. F. Piper between Comaplix, Beaton and Arrowhead will be discontinued until further notice

Poplar Creek Pars.

Billy Jost has quit Poplar and gone back to the cattle ranges of Wyoming territory.

George Matthews and his crew are down from the Spyglass mine which closed down for the winter.

Lardo has not fully recovered from the effects of the wedding celebrated there on Wednesday, 26th ult.

E. L. Morand left Monday for a pleasure trip through the Okanagan, via Trout Lake and Arrowhead.

The Poplar saw-mill has closed down for the winter. Low price of lumber in the Northwest is the cause.

John Y. Cole struck ore in the tunnel of the Mother Lode on Thursday and reports the property steadily improving with development.

The Handy group is now being worked by contract, Paul Blanchard having been awarded the first 150 feet of tunnelling during the past week.

Halloween was celebrated by a surprise party to Gust at the Grand. Dancing was kept up until 4 or 5 a. m. and all thoroughly enjoyed themselves.

Lake Localets.

Joe Murray was down from the Beatrice mine during the week. A force of ten men are working on the property. Supplies have been taken in and work continued throughout the winter. The vein averages two feet of clean ore samples of which give an average of over $100 per ton.

FOR SALE:—Lots 35 and 36 block 47, Trout Lake. Apply to Mrs. J. H. German, 605 University St. Seattle, Wash.

Alec Crawford was in from Beaton Tuesday attending the sheriff's sale of mill property. He went home after becoming the purchaser of the horses and harness.

Malcolm Matheson and Charlie Copp have imitated the bear and holed themselves up at the Triune for the winter. Unlike bruin, however, we expect them to come out in the balmy spring PHAT in body as well as in pocket.

Simpson says: I never drink behind the bar but I sometimes smoke a good cigar, Royal Seal.

The management of the Mill Co. have evidently made up their minds to do the right thing. We are informed that the men who had accepted the eighty cent compromise are having the other 20 cents sent them. We are always willing to give credit where it is due and the company is to be congratulated on accepting the situation and going further than they were legally bound to do.

Will Abrahamson has had a survey made and plans prepared for a new road extending, from the piece built this summer, through his addition and connecting with the main road at a point about the bottom of the hill. The plan has been submitted to Government Agent Chipman and a grant will be asked for the grading out of next year's grant. We think it would be a big improvement to the town to have the work done.

We have to congratulate Mr. and Mrs. Noah Abrahamson on the arrival last Sunday of a son and heir. Notwithstanding his rheumatics, Noah is as lively as a kitten, and has a gigantic smile for everybody that drops in. Say! the first boy is not to be sneezed at. We've experienced that joy.

Grand Values.

A Shipment from Lucky Boy goes $170 to the Ton.

The shipment of ore sent from the Lucky Boy a week ago returned values of $170 a ton. Mr. Ehrehart the manager was agreeably surprised as the shipment was not of what might be termed their best grade of ore. Between 15 and 20 men are employed on the property and the development work is progressing very favorably. No ore is being taken out only what is necessary in furthering the plan of development. When there is sufficient snow to put the rawhide trail in good shape stoping will be commenced and good substantial shipments made.

Work on the adjoining property, the Horseshoe, was resumed this week under lease to Alex McLean and L. McLellan. The ore is of the same grade as the Lucky Boy. Last winter the owners Messrs. Craig & Hillman worked the property and shipped quite a quantity of ore which gave an average value of $160 per ton. We wish the lessees all kinds of success.

The ball given by the rink people on Thanksgiving night was a grand success so far as enjoyment went but financially will not be of much assistance in putting in the needed improvements. The directorate of the rink extend their hearty thanks to the ladies who so bountifully provided the refreshments also to the musical director Mr. G. W. Carothers and floor manager, Mr. Jack Smith.

D. McLelland, George and Eli Edge were in from Camborne on Thanksgiving day.

George Lux, the model rancher of Beaton was a visitor Thursday.

At the sheriff's sale of logs at the mill on Friday nearly a million feet of logs were sold to E. L. Kinman. The lot of piles were knocked down to Will Abrahamson. The sale of the rest of the goods advertised was postponed for one week.

Frank Hooker wishes to announce his retirement from the partnership existing between himself and William Schnell. Frank will however be found in the same place and fulfilling his duties as heretofore.

Don't forget the concert on the evening of the 22nd in the Odd Fellows hall. We were all young ourselves and looked forward to the Xmas tree as the event of the year. Everybody get in and help provide a good time for the children by potlatching four bits for the concert. You'll enjoy the program.

Andy Craig pulled off a successful shoot for chickens on Thursday Competition was keen and the shooting good the outer ring of the target being shot almost to pieces. A revolver match was the event of the day the contestants being such well known shots as Fred Elliott, Jack Chism, Ed. Morgan, Ed. Vipond and Jack Crawford. With the exception of Jack Crawford, who never held a revolver before all the rest were well known as crack shots and great interest was centered in the event. Jack's shot was seen to hit the outer edge of the target and of course he was immediately told that he was out of it. The rest of the marksmens shots could not be distinguished and it was of course supposed they were all embedded in the black spot representing the bull's eye. On close inspection, however, with a microscope divil a mark was there at all and Jack went home champion revolver shot and the possessor of the chicken.

A. G. Fraser has ordered a nice variety of Toys and Christmas goods. Don't send to sweat shops until you see his stock.

The polling booth for Tuesday next will be upstairs in the reception room of the Oddfellows hall, Trout Lake.

When you want good fresh churned butter ask Masterson, Griffith & Co. for Wild Swan.

Malcolm Beaton, after whom the town of Beaton was named was a visitor this week.

NOTICE.

I hereby give notice that at the meeting of the Board of License Commissioners of the Ainsworth License district, to be held at the Mining Recorder's Office at Trout Lake on December 15th, 1904, I shall apply for permission to transfer my license for the Commercial Hotel, Poplar, to Charles Hanson.
Dated November 16th, 1904.

W. HANSON.

A Service of Song will be given in Ferguson on Sunday evening at 7.30. There will be duets by the children, and selections by the choir, and everyone is cordially invited.

Open Letter from Union Officials.

Rossland, B. C.,
Nov. 2, 1904.

Dear Sir and Bro.

On account of certain influences being brought to bear to work up a feeling against the Conservative candidate for this riding, Mr. C. H. Mackintosh, we beg to inform you that Mr. Mackintosh was the only friend we had during the late strike here, and that he used his influence on our behalf not once, but a dozen times; and, furthermore, his whole career as a public man proves that he at any and all times has stood up for the rights of organized labor, and on that account the members of the Rossland Miners' Union are almost unanimous in supporting him for parliament; and we appeal to you to do the same. Please read this letter in your meetings.

Signed: J. C. SCOTT, F.S.
C. B. DUKE, PRES.

These People are Backing Galliher.

A. C. Galt of Rossland, counsel for the Centre Star Mining Company, wants Frank Woodside put in jail. Mr. Woodside was a member of the executive of the Rossland Miner's Union, against which the Centre Star obtained judgment for $12,000 from Mr. Justice Duff. That executive does not seem to have had much property since the judgment was obtained, and on October 1st Mr. Galt secured an order for the examination of Mr. Woodside in connection with this. This examination took place on November 5th, and Mr. Galt claims that Mr. Woodside's answers were unsatisfactory. On this ground Mr. Galt applied to Mr. Justice Morrison, in supreme court chambers in Vancouver on Saturday to have Mr. Woodside put in jail.—Tribune.

Galliher the Enemy of Labor.

Following up the allegation that W. A. Galliher had signed a petition received by the Department of Mines at Victoria, asking for the Repeal of the Eight-Hour Law, we append the following in reply to Mr. Galliher's flat denial of signing such a petition:

"J. B. McArthur, Chairman Liber-
Committee, Rossland, B. C.

"Sir:—The undersigned, having at your request investigated the truth of the charge made by John McKane, Liberal-Conservative candidate, at a meeting held in Rossland on the 16th day of November 1900, to the effect that W. A. Galliher had signed a certain petition to the Minister of Mines, dated April 1st, 1899, REQUESTING THE SUSPENSION THE EIGHT HOUR LAW, beg leave to report as follows:

"That on the 29th of November, 1900. Mr. Dickson appeared before us and submitted statutory declarations of himself and George S. B. Perry; that Mr. W. A. Galliher was present and also made a statement.

"Having heard the above declaration and Mr. Galliher's statement we are of the opinion that Mr. Galliher signed the petition referred to by Mr. John McKane.

(Signed) "J. F. McCRAE, Lib.
"Alex. DICK, Lab.
"A. H. MacNEILL,
Con.

Save up your cash—money saved is money made On and after the 1st day of December we will have all of our goods in the store marked down to rock-bottom prices, and from that time on will sell for cash only.—MASTERSON, GRIFFITH & Co.

MURRAY & ATHERTON Publishers

HONOR VERSUS PAP.

On Tuesday next, the 22nd, the free and independent voter will exercise his supreme right of franchise. It seems presumption that newspapers and stump orators should attempt to instruct voters of this enlightened era. Every elector should be credited with intelligence enough to exercise that right without dictation from men who assume a superiority because they happen to be in a position to practically force their opinions on us. In our own district we have the Liberal press calling all men fools and lacking good judgment because they fail to see that Galliher should be returned by reason of the Laurier government being sustained. If the Liberals are so devoid of honor that they would sacrifice principle to be with the winning side—and expect for no other reason that all the electors should do the same—we can inform them that Conservatives are made of better stuff. We are informed there will be no favors given to this riding if Mackintosh is elected; that he will not be able to get as good appropriations as if the Liberal member is returned. Is not this corruption, lock, stock and barrel? What manner of people do they imagine us? Evidently a shoal of grafters seeking government pap! We do not want one cent of money from the Dominion authorities unless we are justly entitled to it. When the latter is the case, we want, and shall demand our rights no matter who sits in the high and mighty seat of the pap distributor.

BIG BILL AND THE BIG "I."

Galliher says he deserves the support of the voters because he secured a daily mail for us. After fighting for two years, and having finally to go over that honorable gentleman's head, we got what was coming to us. And Galliher comes in on the home run and tells us: "I" (big eye) DID IT."

BIG BILL'S "BIG PULL."

Galliher claims by reason of his "big pull" at Ottawa to have forced the government to pay the Lardo Railway laborers. We know that as a firm of solicitors Galliher & Wilson had the collecting of the accounts, for which they were paid in the same manner as any other law firm, "for professional services rendered." Notwithstanding his boasted "pull" and predominating "I, ME," everyone knows that it took so long for the government to get action, that 90 per cent. of the men had left the country and had to dispose of their time checks as low as 15 cents on the dollar. As a matter of fact in Trout Lake one man was seen to tear up his check after trying in vain to get a week's board on something over $100 in time checks. Good work on our member's part, wasn't it? Three days was sufficient for our Conservative member for the provincial house to do practically the same thing with the Mill Company.

BIG BILL'S WATERLOO.

When the strike was on in Rossland a great many men were imported from Missouri to take the place of the strikers. The Miners' Union asked the Dominion government to send their representative out to enquire into the affair and prosecute under the Alien Labor Act. The representative came, did NOT interview the Miners' Union, but climbed the hill and hobnobbed with the high and mighty, and came to the conclusion that he could do nothing, and then returned to Ottawa. Not to be knocked out, one of the officers of the Union took individual action and secured convictions, leaving himself open to heavy costs had he failed to make the charge stick. It was the duty of the government to push the charge, but the influence of the "hill" was greater than that of the men who were striving for their rights. Mackintosh, on the other hand, did all he could for the men; talked for them; worked for them, and stayed with them to the finish. Where was Galliher all the time? He must have been pushing for the $2,000 for Duncan River improvements.

BIG BILL'S BIG BLUFF.

It hits a sore spot when we accuse Galliher of putting off the elections in Kootenay riding until after the general elections. The Kootenay Mail, Camborne Miner, Rossland Miner, and the rest of the Liberal press evade the question in the same manner in which their candidate evades it. They say that it was impossible for the returning officer to visit in seven days each polling sub-division, appoint his agents, and deliver the ballot boxes. We assert this is a direct evasion and a misrepresentation. John Boultbee, the returning officer, has H. P. McCraney as an assistant, and as a matter of fact and beyond dispute, the deputy returning officer was appointed and the ballot box sent into Trout Lake by a messenger. The returning officer DOES NOT HAVE TO VISIT EACH SUB-DIVISION. W. A. Galliher DID in the House of Commons speak against the election being held simultaneously with the rest, at the same time stating before a representative body of men that the district which he represented was a howling wilderness, and could be traversed only with great hardship and a loss of valuable time.

A vote for Mackintosh is a nail in the coffin of boodleism. If we send Mackintosh to the Commons we may rest assured of our interests being advocated. If Galliher will cease blowing and tell us what he CAN'T do, Mack will set about accomplishing it if it tends towards advancement of the Kootenays.

Vote for Mackintosh.

Two school teachers were on the car just after the classes had been reformed, and they were talking interestingly to themselves about things generally in the departments in which they were engaged, and the number of children in their classes. Opposite to them sat a rather old and neat woman, who had a large basket on the floor beside her.

"How many children have you?" asked one of the teachers of the other.

"I have forty-seven."

The old woman looked up with look of bewilderment rather than surprise. "How many children have you?" asked the other teacher.

"I have sixty-five."

A look of deeper surprise came over the face of the woman with the basket, but she did not say a word until she reached her destination. While getting out of the car she turned her head and said in a loud voice:

"I do not know who you are or where you come from, but I think you are a slick pair of liars."

With the price of London lead at £13, and with the price of copper at 14 in the United States, the mining men of the Kootenays should be in good spirits. Silver keeps a little below 60, but the tone of the market is firm and strong, and indicates a rise in the near future. After a long dull period it looks as if good luck and good times were coming this way to stay for a while.

A MINING MAN FOR A MINING COUNTRY. VOTE FOR C. H. MACKINTOSH.

Christmas in coming on apace, and you will be buying presents for the old folks miles away and for the little ones at home. Just a word on the subject. Don't send back east for your presents; your local merchants can do as good, or even better for you. If you doubt this, call on your favorite storekeeper and talk the thing over. If he has not the goods on hand you require, let him get them for you. Be loyal to your local tradesmen, for they are ever ready to support with an open purse any improvement to their own town. Tim Eaton won't dip down to help your town build new sidewalks, nor will Simpson help us out in any shape or form.

Masterson, Griffith & Co.

A. G. FRASER - - - TROUT LAKE.

Camborne.

Bob Gunn has taken over the Coronation hotel. The Imperial, vacated by him, will be closed for a time.

Andy McKay is now receiving medical treatment in New Westminster.

The Mammoth has a tremendous amount of ore in readiness for the rawhiders. The wagon road from town to Ruby Silver creek is now completed. A bridge across Fish river has also been constrnctcd to facilitate the hauliug of ore from the Mammoth.

A concert by the school children was given yesterday (Thursday). We learn that a nice round sum was raked in, and Santa Claus will lavishly bestow his Xmas presents accordingly. The entertaiment by the tots was a complete success, and the performers gave promise of histrionic merit, a tribute to those responsible for the organization of the entertainment and the tuition bestowed upon the children.

The last gold brick from the Oyster Criterion mill prior to the closing down was of the value of $2,800. Nothing definite is yet known as to when operations will be resumed, but it is thought a short time will see the mill pounding away again with an additional 10 stamps. In the meanwhile the affairs of the Great Northern Mines Limited are being straightened out.

The Eva Mill co. are having pipes hauled from the Landing for their contemplated compressor. The tram will be completed shortly, and the mill will be in active operation in another week or so.

At the Silver Dollar a number of men have made much progress with development work, and the ground is being cleared for the sawmill.

Voters. At the present moment it is imperative that a mining be sent to the Commons. There is NOT ONE MINING MAN at Ottawa. There are SHOALS OF LAWYERS, and the sensible elector will realize the jobs they are seeking. Let us put A MINING MAN at the top and help out our country. Vote for Mackintosh.

Beaton Paragraphs

Mr. and Mrs. W. Gunterman and son Harry left yesterday for Seattle, Wash. It is their intention to remain there with friends until shortly after Xmas, when they will migrate to 'Frisco, returning to this favored country "when the summer comes again."

Billy Boyd intends to give a grand dance and gigantic welcome at the formal opening of the Prospectors' Exchange hotel. May we be there to see. Excellent progress has been made the past week with the interior, and when completed it will present a very pleasing appearance.

The lumber industry around Beaton is in a flourishing condition at the present time. Alex. Crawford has a vast quantity of splendid logs piled at his camp, and he is filling orders as speedily as possible. At the Burr & Bush logging camp the dam being constructed near Thompson basin is well nigh completed. Here, too, some excellent logs are to be seen, and a large force of men will be employed among the timber this winter.

The dredger which is cutting a channel from the lake is now in about a quarter of a mile. The channel when completed will be of immense service to the town of Beaton, and the hitherto inconconience experienced at low water will be obviated.

A vote for Mackintosh is a bullet fired into the Commons on behalf of the working classes.

Mackintosh has been proved a friend of the worker. Galliher has "been tested and found wanting."

Notice of Seizure and Sale.

Notice is hereby given that under and by virtue of certain warrants of execution issued out of the Supreme Court of British Columbia in several actions wherein E. L. Kinman, C. C. Cleveland and G. F. Cleveland carrying on business as J. L. Goodhue & Co., Boyd, Burns and Company, Limited, The Vancouver Engineering Works, Limited, Northern Machinery Company, Albion Iron Works Company, Limited, are respectively plaintiffs and the Canadian Timber and Saw Mills, Limited, are defendants and to me directed against the goods and chattels of the said Canadian Timber and Saw Mills, Limited, I have seized and taken in execution the following described goods and chattels, namely:

NOTICE TO CO-OWNERS.

To Z. Gordon Goldberg and to L. Goldberg or to any person or persons to whom they may have transferred their interests.

Take Notice, I the undersigned co-owner with you in the Little Robert and Little Robert No. 2 mineral claims situated at the extreme head of the north fork of Lardeau creek in the Trout Lake mining division of West Kootenay district and province of British Columbia have done the required work on the above-mentioned mineral claims for the year 1903 in order to hold the same under section 24 of the mineral act, and if within 90 days of this notice you fail or refuse to contribute your portion of such expenditure for work done, together with the cost of this advertisement, your interest in the said mineral claims will become the property of the subscribed under section 4 of the Mineral Act Amendment Act of 1900. Dated at Trout Lake this 7th day of October, '04.

J. C. KIRKPATRICK,
Oc.7'04 Co-owner.
