Lardeau Mining Review

The representative of the rich Lardeau country. Sent to any address for $2 per an. in advance.

VOL. 1 TROUT LAKE CITY, B.C., AUG. 4, 1905. No. 35.

Speaks Up For Lardeau.

GIVE US RAILWAY FACILITIES, GIVE US CAPITAL, AND WE WILL ASTONISH THE WORLD WITH OUR SHIPMENTS.

Every week we send out a large number of exchanges, in which the REVIEW is freely copied. The following from the Rossland Miner can be no doubt attributed to the reports published in this paper:

"The development of the great silver-lead deposits of the Lardeau country is a matter deserving the serious consideration and enthusiastic support of both the provincial government and transportation companies. The Lardeau is one of the richest and most extensive mineral fields in southern British Columbia. All that is necessary to make it produce an enormous tonnage of high-grade galena is the building of railways, roads and trails. The district is as rugged and mountainous as any in the west, but it is intersected with several valleys along which railways can be constructed with comparative ease. The building of wagon roads and trails from the railway to the mines would be followed by widespread industrial activity, and the steamers on the Columbia river would be taxed to their full capacity transporting ore down the river to Trail. The country generally would greatly benefit by the inauguration of such systematic development, and it is to be hoped the C.P.R. and the provincial government will cooperate and do something at an early date to give the Lardeau a chance to take its rightful place in the front rank of ore producing districts in Kootenay."

Three Good Properties.

Jack Rady came down this week from Haley creek, where he has been working on the Good Luck, Black Jack and Jack Pot. The vein has been opened up by a drift of 65 feet, another of 20 feet, and a 24 foot open-cut, showing it to be from 6 to 20 feet wide. A thorough assay test gives values in gold from $7 to $9. John Stauber and Andrew Abrahamson are partners with Jack in the group.

Wedding Bells.

A quiet wedding was celebrated on the 26th inst. at St. Peter's Church Revelstoke by the Rev. C. A. Procunier. The contracting parties were Miss Jessie Clara Fish, of Thornton Heath, Surrey, and Arthur Peel, of Trout Lake, but late of East Dulwich, London, Eng. The young lady arrived the previous evening from the old country, having made a quick passage across the Atlantic on the s.s. Tunisian. After the nuptial service was ended, the happy couple left for Trout Lake, where they have taken up residence in the villa lately occupied by Harry Godsoe. The REVIEW extends to them congratulations and best wishes for a long and prosperous life.

Sadie Madden, who has been spending her holidays with her uncle Bob, left for her home in Nelson on Monday.

"Aren't you aware," said the kind lady, "that there is something dignified about honest labor?"

"Yes, ma'am," answered the unlaundered hobo. "I've heard uv fellers wot stood on their dignity, but I'm satersfide t' set on mine."

Silver Cup Is a Peach.

ANOTHER RICH STRIKE HAS BEEN MADE IN THE 700 FOOT LEVEL — RICHEST ORE IN THE HISTORY OF THE FAMOUS MINE.

The recent strike in the crosscut of the Sunshine tunnel of the Silver Cup property has been followed by another in the upraise.

The management state that this is the richest ore ever found on this famous Lardeau property. The strike shows 20 inches of clean ore. To get an idea of the value of the strike, we need only say that the operations now going on are at the 700 foot level.

To test the dip of the vein, a winze was sunk from the upper workings for a distance of 150 feet. The winze proved to be in ore all the distance, and this being ascertained, a drift was run on the Sunshine ground for a distance of 1700 feet. At this point a crosscut was made where the first ore was encountered. An upraise was then started which will connect with the 150 foot winze. The distance between the bottom of the winze and the point where the upraise has been started is about 250 feet. This gives 400 feet of practically virgin ground, with ore demonstarted to work on. In addition to the clean ore found below, there is also a considerable quantity of concentrates.

Dr. Newcombe Goes to Midway.

Dr. W. E. Newcombe left this morning for Midway, where he will take a position on the medical staff of the Great Northern Railway. The doctor came to Ferguson nearly five years ago, and has held the positions of medical health officer for the Province and coroner. Since his arrival the Miners' Union built and equipped a first-class hospital at Ferguson, of which he has had charge. Dr. Newcombe has made hosts of friends since his arrival in the Lardeau, and his friends while wishing him all prosperity in his new venture are all sorry to see him leave.

Smelter Wants Gypsum.

The Hall Mining and Smelting Co. is on the look out for a deposit of gypsum, and would be glad to investigate any property of the kind with a view to purchase. Gypsum is a hydrous sulphate of lime, generally occurring in foliations that are transparent or nearly so. It resembles calcite in appearance, but may be distinguished from it easily as it is less heavy, 2.3 against 2.7, less hard 1 1-2 -2 against 3, and does not effervesce with acid.

This announcement was made last Tuesday by J. J. Campbell, manager of the Hall Mines Co. It will probably be of interest to prospectors, as gypsum is not a rare mineral, and has probably been often passed over in the quest of more valuable deposits.

One Day More.

G. O. Buchanan has returned to Nelson from Kaslo, where he will remain until the end of the week. The date fixed by the dominion government for closing lead bounty claims for 1904-5, August 15 next, makes it imperative that all claims be presented to the commissioner by Saturday, August 5, at the latest. There are still about 50 claims outstanding, most of them for small amounts.

Local Mining News Items.

Colonel Brayton, manager of the Lardo-Duncan Mining Co., is doing $1,000 worth of work on the Cariboo creek properties of the company.

A Nelson paper reports that Bruce White is making preparations for commencing operations on the Spyglass group.

Jack and Ernest Crawford are making a small shipment from the Silver Grey on Trout creek.

A. G. Street, has returned to Camborne to install the compressor at the Silver Dollar.

The Camborne Mining Co., of Calumet, Mich., is a new company formed with $1,000,000 capital to operate and develop the Goldfinch property at Camborne. It is proposed to add another ten stamps to the mill.

The lesees of the I.X.L. are sacking ore right along. At present they are working on 18 inches of clean ore.

Sid Graham left Monday morning for the Noble Five group to do some prospecting

Messrs. Vipond and Fowler left Monday for the Mammoth on Fish creek with 17 head of pack horses to commence on their contract of getting ore from that property to Beaton.

George Windsor left Wednesday morning for a prospecting trip down the lake.

George Carothers is doing assessment work on the Dewey on Murray creek.

W. Waller, J. Morgan and Charlie Smith, who are working some properties up the North Fork, are striking some nice ore.

The Copper Chief boys are sacking some high-grade galena and grey copper.

Colonel Brayton is doing $3,000 worth of work on the Hampton group at Poplar The group is owned by the Lardo-Duncan Co.

Bill Baty and Jim Hunt brought down some very nice samples of galena and grey copper obtained from a drift on the O.K. this week.

John Morton, manager of the Reward Mining Co., and foreman Andy Garrett left Monday morning for Rossland to arrange for the shipping of a compressor plant to be installed at the long tunnel workings.

A Present and a Surprise.

Everybody envied Bill Schnell the other day when they saw the express man struggling into the O.K. barber shop with a prodigious box. The rubbernecks saw Bill potlache a dollar for express charges, and saw him with feverish haste rip open the box. At this point Billy had sniffed mischief, for he pulled down the shop blind. Our prize rubberneck, however, negotiated the keyhole, and this is what he saw:—Billy on his knees extracting from the box about the worst apology for a dog it is possible to conceive. Around the dog's neck was tied a succulent hambone, and to his tail was pinned a cheque for $3,000 and the following poetic "doggerel":

"Billy, Billy, use me kind;
I'm old and sick and very blind.
If you can't keep me then I hope
You'll stew me down for barber soap."

Frank Smelter After Zinc Ore

SALE OF THE UNITED MINE OF AINSWORTH MARKS BEGINNING OF AN EXPANDING INDUSTRY. HOPE FOR LARDEAU ZINCS.

The following from the Nelson News would indicate that the zinc furnace at Frank is getting down to business. The zinc-lead industry of the Ainsworth and Lardeau districts will eventually be a big factor in the upbuilding of these districts. In the Lardeau there are many zinc propositions which by virtue of this venture of Mr. Fernau, can be worked at a profit which have hitherto lain idle.

"The United Mine of Ainsworth, one of the largest Kootenay lake zinc-lead showings, has passed to the control of C. Fernau of the Canadian Metal company, of Frank, Alberta. This deal marks the beginning of an industry for handling zinc ores that cannot but soon expand into one of the very largest of the country's industries. The property was developed in the early 90's to a depth of 150 feet, and was at that time mined exclusively for lead and silver, but the zinc penalties coupled with the lead duty on ores going into the United States, so operated against the success of the work, that the property was closed down and has remained closed until the present.

Mr. Fernau is now in Ainsworth making arrangements for the immediate commencement of work on the property, and it is confidently expected that Ainsworth will take her place as a big producing camp. Mr. Fernau, jr., will have charge of the mining operations.

Alec Crawford met with a heavy loss on the Camborne road a few days ago. While working on the road, recently burnt out, a tree unexpectedly fell across the road, killing one of his best teams. The driver, Jack Quarrie, narrowly escaped. The loss to Mr. Crawford is $500.

Norman McLennan, an old-timer, came up on Monday from the south and went through to Camborne.

Rev. Mr. Scott is paying Rossland a visit this week. He will return in time for Sunday services.

Rev. Father D. Jeannotte made one of his periodical trips to this section of his circuit this week. On Saturday mass was celebrated at Ferguson, and on Sunday low mass was said at Trout Lake. In the afternoon the rev. gentleman gave religious instructions to the little ones, and in the evening conducted service. Prior to his leaving on Monday's steamer he celebrated mass at an early hour. All the services in town were conducted at the residence of Mrs. R. Madden, and at Ferguson at Mrs. O'Connor's.

Gold Commissioner E. E. Chipman visited this part of his division the latter end of last week. Owing to an indisposition his private secretary, Arthur Goodenough, did not accompany him. Immediately his arrival in town was known, he was up against it, and those wanting trails, roads and other matters under his control kept him busy until the departure of the steamer on Monday morning. With his usual diplomacy however, he, as far as we know, satisfied all, and went away as "happy as a clam."

Consolidated Officials

INCLUDING JUDGE MILLER, DR. C. S. DUDLEY AND H. L. ARCHER WITH EXPERT GARDE VISIT OLD GOLD AND OTHER PROPERTIES.

Judge J. M. Miller returned to camp Tuesday night with a party of Consolidated Co. people who are heavily interested on the Duncan. The party consisted of Dr. C. S. Dudley and H. L. Archer, of Minneapolis, who are officers of the company, R. C. Morgan, of the Great Northern Railway, Spokane; A. C. Garde, of Nelson, mining engineer; W. B. Christy, of Chillicothe, Mo., and F. T. Zimmerman, of Auburn, Ind. The party went up the Duncan from Hawser Lake and came over the "Divide" to Trout Lake on their return trip.

In conversation with Dr. Dudley he said that the company would in all probability confine their operations to the Old Gold and Primrose this year, and if the development proved as good as the indications, a wagon road would be built next year up the North Fork and Surprise creek. He spoke very highly of what he had seen, not only on the properties controlled by his company, but of the country in general.

A. C. Garde, who has an enviable reputation as an M.E., and who was up with the party to expert their holdings, was, of course, not at liberty to express himself on these particular properties. He said, however, that the result of this trip as well as many others paid to this country, impressed him favorably. The surface showings, he said, were hard to beat, and it was only a matter of development to determine the value at depth. He was pleased at the result of the deep working of the Silver Cup and Triune, and felt that it would give confidence to others operating to get down to depth. The day had passed, he said, when a surface showing could be sold for any large amount. He was satisfied that the Lardeau had a great future, but it could only be attained by judicious and systematic development.

Paddy Murphy's liver spaniel is increasing in value every day. Pat has been teaching his canine pet several pretty little tricks, his piece de resistance being the tossing of a coin placed upon his soft nose high into the air and catching it between his teeth. As American silver predominates in town just at present it is supposed Paddy's pet has got familiar with the taste, for while exhibiting the dog's antics to to a select assemblage this week he put up his crowning trick for the edification of his audience. He also placed a half-dollar on the the dog's sneezer, but it was a good Canadian one, and before you could say "Winslow" it was in the dog's interior. Paddy was so nonplussed for the moment that he rushed to ring the fire alarm, but before reaching there he thought a visit to the drug store for an emetic would be more applicable.

W. S. Stout, general manager of the Dominion Express Co., came through Trout Lake on his annual tour of inspection of agencies. He was accompanied by R. Helm, divisional superintendent, S. T. Stewart, of Vancouver, and his son, W. S.

Old Gus Anderson has been in the hospital for several weeks.

Thinks C.P.R. Must Build.

ENCOURAGING WORDS FROM A GOVERNMENT RAILROAD OFFICIAL. SAYS WE HAVE AN IDEAL HOLIDAY RESORT HERE.

W. McCarty, government railroad inspector, paid an official visit to Trout Lake on Wednesday. Interviewed by a REVIEW man he said:

"I had no idea you had such a pretty townsite. You people are certainly slow in not advertising Trout Lake as a holiday resort. The scenery is really magnificent. The residences, too, are far ahead of anything I had imagined. If the town were on the main line you would have thousands of visitors yearly."

Speaking of transportation facilities Mr. McCarty said: "There will be a railroad running through here sooner than you people may expect. I don't mean to infer that that this will be done to cope with local traffic, but you must know that the C.P.R. are in a quandary all the time with their main line freight traffic. To successfully cope with the ever-increasing freight and the competition of opposing companies, they have to find a new freight route. They have no choice in the matter, they simply have to do that. This country has all been surveyed with that object in view, and the C.P.R. know that this is the only route with a one per cent grade. You will see all the westbound and eastbound freight passing through this country, and you will have a large and thriving city."

"We only hope," ventured the scribe, "that your prophecy will come to pass."

"I am sure of it," returned Mr. McCarty, "and you will find I am correct at no distant date.

Poplar Hotel in Flames.

The Dominion Hotel, Poplar, owned by W. Schmock, was completely destroyed by fire last Thursday morning. The proprietor and his wife were out berrying at the time the outbreak occurred, and in less than an hour the whole edifice was completely consumed. The cook was engaged in preparing breakfast at the time, and during his temporary absence from the kitchen some bacon which was left frying on the stove caught fire and the flames therefrom ignited the ceiling. A plentiful supply of water in the kitchen proved unavailing, and the willing workers were beaten back. The fire spread with great rapidity to other parts of the hotel, and in a few minutes the building was enveloped in flames. The total loss is estimated at $6,000. The insurance carried is unknown.

Jack and Jim Scott have returned from the Lewis and Clark Exposition at Portland. The boys report spending a good time, but say that Trout Lake looks good to them.

As we go to press we learn that a very big strike has been made on the Baltimore. The property is one of a group of eight claims on the North Fork, about a mile and a quarter up the wagon road. The strike is said to consist of a tremendous body of rich concentrates.

W. B. Strathern, fire warden for the Slocan and Kaslo ridings, was here on official business on Thursday.

THE LARDEAU MINING REVIEW.

is Printed at Trout Lake City, and Published at Ferguson and Trout Lake every Friday.

The Editor does not hold himself responsible for the opinions of correspondents expressed in its columns

All locals will be charged at the rate of 15 cents per line, first insertion, and 10 cents per line each subsequent insertion.

Terms for Transient and other advertising will be made known on application at office. Subscription $2.00 a year, in advance.

COMPARISONS.

Many of the Liberal papers are making the result of the few Dominion bye-elections which have returned government candidates, a sure evidence that the policy of Sir Wilfrid Laurier is what the people of Canada want. We say with equal confidence that the result of the Alberni election for the provincial house proves that the people of that district at least have confidence in the Conservative government of British Columbia. For some time the Liberal press has been begging, practically, for an appeal to the people, stating flatfooted that the McBride government had not strength to carry it on. We trust the result of the recent bye election will effectually put a stop to such agitation.

PAY THEM.

Many letters are being published daily in all of the big city papers, and many of them editorially are scoring the Ottawa government, and, in fact, all of the Dominion representatives, on what they call the salary grab. We do not believe that the Premier gets one cent too much, nor do we think that it is wrong to pay the leader of the opposition a salary commensurate with the duties he has to perform. His position is just as necessary to the good government of the Dominion as the leader of the house. Our representatives are men of ability, and who in their private business make sacrifices, financially, compared to which their salaries look like a "white chip." Canada is prosperous; it is conceded by men who make it a study that our laws are equal to, if not better than any other nation; why then should we be "picayunish" in giving to men who have brought our country to this enviable position a salary equal to the responsibilty of the office.

DEVELOPMENT PAYS.

The opening up of the ore body in the lower workings of the Silver Cup mine both in the crosscut, in the Sunshine tunnel, and in the upraise, demonstrates that systematic and judicious development will and does pay. To tap this ore body a drift of 1,700 feet had to be driven, which would give a depth of over 400 feet below the upper workings. This was done, and success crowned their efforts. Its importance to the Lardeau in general cannot be computed. It instils confidence in others working along the same lines, as well as showing to the English shareholders (who own the bulk of the stock) that their investment is a good one. The Lardeau is a rich country, and it is slowly, but surely, being opened up, and it is only a matter of a short time until its production of the precious metals will be taking a place well up in the list.

The geological survey is of double service to the miner and prospector. In this and other countries it is mapping and describing the regions in which valuable minerals occur. It is also constantly contributing to existing information regarding the origin and occurrence of ore deposits, and in this way facilitating the work of the intelligent operator even in those districts where thorough geological investigations may not have been begun.

A representative of one of the largest copper producing interests writes in the Mining World: "The high level of copper prices will continue just as long as the present industrial prosperity of the world lasts."

Trout Lake Water Supply Co. Ltd.

By using Water supplied by this Company you are assured of absolute purity. Government Analysis to back up statements.

Hugh McPherson - - Supt

Thanks to the efforts of W. A. Galliher, M.P., the dominion government have arranged to have an expert investigation of the zinc resources of British Columbia and the best means of utilising them.

A platinum expert is in British Columbia to investigate the prospects of procuring a supply of platinum, as the Russian mines are not shipping much of the metal at present. The placers of Cariboo, the Fraser, and Similkameen are regarded as being likely to be the points of the experts operations.

Silver is at 59, copper at 15⅛ to 15¼, and lead at £13 17s. 6d. in London.

Colorado had a population of 600,000 in 1900. British Columbia had a population of less than 200,000 in 1900. In 1904, it is estimated that the total value of the products of Colorado, including gold, silver, lead, copper, iron, coal, cattle, sheep, oil, fruit, and agricultural products, was $47,000,000. Colorado, so it is said, has 100 millionaires. In 1904 it is estimated that the total value of the products of British Columbia, including gold, silver, lead, copper, coal, cattle, lumber, fish, fruit and agricultural products, was $35,000,000. British Columbia has possibly two people whose wealth may be rated at over $1,000,000. Which of the two, Colorado or British Columbia, is the better off?

A LESSON IN MINING.

A lode is a streak, as sure as you're born:
A dike is a pitch of the same;
A big bunch of rock that spoils the pay shoot,
Is called a horse in the vein.

A hanging wall's the top, you know,
Or roof, of leads in place,
The footwall's just the floor of them,
Or the bottom, bed or base.

An incline shaft is one that's sunk
Down on the lead's own pitch.
A straight one just don't seem to care
'Bout strikin' ore that's rich.

A crosscut runs to tap the vein
From a point that's picked as best.
A tunnel's about the same old thing,
So, we'll let that subject rest.

A drift is a tunnel that follows a lead,
Not down, but in on the level.
A stope's a hole where ore was mined;
Now, don't that beat the devil?

A winze is a sort of a shaft, you see,
That starts from a level below,
And why they picked that name for it
Is more, my friend, than I know.

A raise is made to connect two levels
Or to strike the shoot overhead;
And the face of a drift is the end of the thing
And so, we'll say, enough said.

CANCELLATION OF RESERVE.

NOTICE is hereby given that the reservation established in pursuance of the provisions of the "Columbia and Western Railway Subsidy Act, 1896," notices of which were published in the British Columbia Gazette and dated 7th May, 1896, and 5th June 1896, respectively, are hereby cancelled.

Crown lands situated within the area embraced by the said reservation will be opened to sale, settlement, lease and other disposition under the provisions of the "Land Act," three months after the date of the first publication of this notice in the British Columbia Gazette; provided, however, that in all cases where lands are so sold, pre-empted, leased or otherwise alienated by the Government, and are subsequently found, upon the survey of the Columbia and Western Railway Company's blocks, to lie wholly or in part within such blocks, then the persons so acquiring such lands shall acquire their title thereto from the Railway Company, who have agreed to deal with such purchasers, pre-emptors, lessees, etc., on the same terms and conditions as the Government would under the provisions of the "Land Act," except in respect to timber lands on the Company's blocks, which shall be subject to the regulations issued by the Company relative to the cutting of timber on the Columbia and Western Railway Land Grant.

And further take notice that action under section 37 must be commenced before the issuance of such Certificate of Improvements.

Dated this 19th day June, A.D. 1905.

jun 23-05

NOTICE.

Zoolite and Byronodale mineral claims, situate in the Trout Lake Mining Division of West Kootenay district.

Where located:—South of Lardo River and East of and adjoining the Greater New York mineral claim.

Take notice that I, Fred Jacobs, agent for A. P. Johnson, free miner's certificate No. B83172, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of such certificate of improvements.

Dated this 15th day of June, A.D., 1905.

jun 16 FRED JACOBS.

NOTICE TO DELINQUENT CO-OWNER.

To D. R. McLennan or to whomsoever he may have transferred his interest in the Embro mineral claim.

Take Notice that I the undersigned co-owner with you in the Embro mineral claim situate on south side of Lardeau river between Rapid and Poplar creeks in the Trout Lake mining division of W. Kootenay, have performed the necessary work and made the necessary expenditure on the above-mentioned claims for the years 1904 and 1905, in order to hold the same under section 24 of the Mineral Act, and the years for which said work was performed and expenditure made having expired, I hereby give you notice that if within 90 days from the first publication hereof you fail or refuse to contribute your proportionate share of such expenditure and pay the costs of this advertisement, your interest in the said mineral claim will become the property of the undersigned under and by virtue of section 4 of the Mineral Act Amendment Act 1900.

Dated at Trout Lake this 5th day of July, 1905. FRED C. ELLIOTT,

July 7, 05 Co-Owner

Review Job Dept.

For High-Class Work.

NOTICE.

Morning and Evening mineral claims, situate in the Trout Lake Mining Division of West Kootenay district.

Where located:—On south side of Lardo River and close to and east of The Lynch mineral claim.

Take notice that I, P. L. Huffman, agent for R. I. Dilworth, free miner's certificate No. B87918, intend, sixty days from the date hereof, to apply to the Mining Recorder for a certificate of improvements for the purpose of obtaining a Crown Grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of such certificate of improvements.

Dated this 15th day of June, A.D. 1905

jun 16 P. L. HUFFMAN.

NOTICE TO DELINQUENT CO-OWNERS

To James Grant, R. G. Macleod and James Bouchier, or to whomsoever they may have transferred their interest in the Slate mineral claim.

Take notice that I, the undersigned co-owner with you in the Slate mineral claim, situate on South side of Lardeau river between Rapid and Poplar creeks in the Trout Lake Mining Division of West Kootenay, have performed the necessary work and made the necessary expenditure on the above mentioned claim for the years 1904 and 1905, in order to hold the same under section 24 of the Mineral Act, and the years for which said work was performed and expenditure made having expired, I hereby give you notice that if within 90 days from the first publication hereof you fail or refuse to contribute your proportionate share of such expenditure and pay the costs of this advertisement your interest in the said mineral claim will become the property of the undersigned under and by virtue of section 4 of the Mineral Act Amendment Act, 1900.

Dated at Trout Lake this 17th day of July, 1905. JAMES SNELL,

Co-Owner.

TROUT LAKE CITY

THERE have been fortunes made by judicious investment in Real Estate, and more fortunes will be made than ever the next two or three years. The one who reaps the harvest is the original investor, for he has his money on a certainty.

Now let us point out to you that there is no better spot on the Continent to buy Real Estate than TROUT LAKE.

Trout Lake is the prettiest spot in the Kootenays; as a pleasure resort it has no equal. Boating and fishing may be indulged in the year round; while big game in abundance is to the found on the hills. Its climate is superb, there being no great extremes, it being mild in winter and cool in summer. It can boast of some of the finest hotels and residences in British Columbia. Its streets are well laid out and graded. There are two excellent general stores, and a glance at the advertisements in this journal will show that all trades are fairly well represented. Write with confidence to Agents.

IT has never had a 'boom"—its growth has been steady. It is the head of navigation, and the terminal of the Lardo branch of the C.P.R. All roads (in the Lardeau) lead to Trout Lake. It is the commercial centre of the richest mineral district on the continent, and has banking facilities provided by the Imperial Bank of Canada; first-class school accommodation under the dicertion of S. Shannon, B.A.; a good water system; government offices; County Court sittings; Methodist Episcopal and Anglican churches and cottage hospital.

There are valuable ranch lands on the outskirts awaiting settlers. Its lumber resources are magnificent, and a band saw mill with a capacity of 60,000 ft. per day is at the head of the lake. The mines tributary are proving out bigger producers every year, with new prospects opening up rich bodies of ore.

There will be a big rush this summer, so if you would know more, write at once to either of the agents at the addresses below.

F. B. Wells

General Agent

Revelstoke, B. C.

Job Printing of every description will be faithfully executed at the Review Job Dept.

FERGUSON.

Another big strike of rich ore is reported at the Triune mine, this time in the lower tunnel.

Sandy Laughton went over to Camborne early in the week on a a prospecting trip.

The strike at the Silver Cup and the Triune are making everyone feel happy.

Mrs Dr. Newcombe and mother left on Wednesday's boat for Portland.

Martin Lundin and Fred Johnson came down from the Old Gold property last Tuesday.

Mrs. Harry Carter left for Portland, Wednesday morning, where she will meet Mr. Carter.

Frank Barber, Ed. Bell and Neil O'Donnell are working on a group of gold properties on Winslow hill.

Mrs. C. M. Nesbitt and family left on Wednesday morning for Vancouver, where they will take up residence.

Joe Morette came in from Camborne early in the week. He is spending a few days at the Lake.

Mr. Merry, late of Salt Lake City, Utah, has accepted the position of resident superintendent of the Ferguson Mines, Ltd.

A. A. Stemarud and H. A. Stratte, of Minnesota, in company with Mr. E. C. Ward, superintendent of the property, visited the I.X.L. (Milloy) this week. Both of these gentlemen on their return spoke very highly of what they had seen in the way of mineral Two men are at present working the claims, which force will be increased at an early date. A number of others from Minnesota who have invested in the property are expected in during next week.

Fraser has something in the way of confectionery seldom seen in the interior. Last week a consignment of Batger's English "sweet" goods was received. The REVIEW sampled them when they were first opened, and now can't keep away from them.

IN THE MATTER OF THE "COMPANIES' WINDING UP ACT, 1898, AND AMENDING ACTS," AND IN THE MATTER OF THE SILVER CUP MINES, LIMITED NON-PERSONAL LIABILITY.

The Silver Cup Mines, Limited Non-Personal Liability, has gone into voluntary liquidation under the above Act, and has appointed Erland G. Hadow, of the town of Ferguson, B.C., accountant, its liquidator, for the purposes of such winding up.

The creditors of the above Company, which has its head office in said town of Ferguson, and all others having any claims against said Company, are required on or before the first day of September 1905, to send to Harvey, McCarter & Pinkham, solicitors for said liquidator, at their offices, First Street, Revelstoke, B.C., their names and addresses and descriptions, and the full particulars of their debts or claims verified by oath, and the nature and amount of the securities, if any, held by them, and the specified value of such securities, and if so required by notice in writing from said liquidator or his solicitors, to come in and prove their said debts or claims in the usual way, at such time and place as shall be specified in such notice.

After the said first day of September 1905, the said liquidator will proceed to distribute the assets of the Company among the parties entitled thereto, having regard only to the claims of which he then has had notice, and the liquidator will not then be liable for the assets or any part thereof so distributed to any person of whose claim he had not notice at the time of the distribution thereof.

Dated this 10th day of July, 1905.

ERLAND G. HADOW,
LIQUIDATOR.
