Lardeau Mining Review

The representative of the rich Lardeau country. Sent to any address for $2 per an. in advance.

VOL. 1 TROUT LAKE CITY, B.C., OCT. 26, 1905. No. 52.

Silver Cup Development

IL GIVING UNBOUNDED SATISFACTION. HIGH GRADE ORE IN BIG BODIES IN ALL THE WORKINGS.

The Silver Cup has now passed beyond the possibilities and is entitled to be called a mine. For some years the property has been worked under different managements, and clean ore to the value of over half a million dollars shipped to the smelter. A large quantity of low-grade or concentrating ore has also been treated at the company's plant, the value of which is not known.

The depth attained for the production of this ore was about 300 feet. In the summer of 1899 what is known as the long Sunshine tunnel was started, which when completed would give a depth of about 700 feet. Work on this tunnel was carried on spasmodically until the present management took charge, when all other work was closed down and the tunnel work pushed to completion. At a distance of 1,650 feet from its portal a crosscut was driven to the blind lead, which parallels 60 feet distant the Silver Cup lead on which the long tunnel was driven.

Ore of a high grade was encountered in this crosscut. An upraise was then started to connect with a winze sunk 150 feet from the upper workings. 40 feet has yet to be driven to make this connection. In the winze sunk from the 300 ft. level the ore is exposed for 100 ft., and in the upraise the workings have been in ore for nearly the whole distance.

The blind lead is now being worked both ways from the upraise with good ore in both drifts, about 120 feet each way. The Cup lead has been pushed in over 1,700 feet, and a body of clean ore opened up two feet in width. This gives ore in every point of the lower workings with 400 feet of virgin ground to stope out. The grade of ore is equal to if not better than anything in the upper workings.

About 25 men are at present employed in the mine, which number will be added to as the ground is opened up.

The development of this property means the making of the Lardeau, as it effectually puts a stop to the old cry of the ore not going down. It is there at 700 feet better than the surface, or at any intervening point, and we can reasonably assume that by virtue of the leads and ore body being stronger at this depth, they will be found still better at a still greater depth. Mr. F. G. Merry has charge of the workings.

Service in the Methodist church Sunday morning and evening. In the morning conducted by Mr. Moyer, and in the evening by the pastor. Subject of the evening sermon, "Thanksgiving." Mr Scott will also preach at Camborne at 11 a.m., and Beaton at 2.30 p.m.

No. 1 Vol. 1 of the Montreal Standard is to hand. Its advent marks the beginning of another epoch in Canadian newspaperdom. Seldom have we seen such a magnificent collection of illustrations by the half-tone process, and the general get up and contents entitles it to be designated as a high-class production.

We are pleased to see Mrs. J. B Manross has now about entirely recovered from her recent serious illness.

Local Mining Conditions.

OF INTEREST TO THOSE WATCHING THE PROGRESS AND DEVELOPMENT OF THE RICHEST MINERAL SECTION OF THE PROVINCE

Jno. Simpson went down to the Calumet and Hecla on Monday He reports work on the contrac going on in good shape, and the lead holding out in values. Some samples brought up in which there was no visible gold even through a strong glass, was panned out by a Review representative, and streaks of colors varying from one to four inches obtained. It is evident that a stamp-mill is all the property requires to make it a paying proposition.

Ralph Higginson, who has the contract for packing ore from the Mammoth, was in town Wednesday looking for men to assist in getting down the ore.

A strike of some importance has been made in the big tunnel of the Reward Co. A body of iron and quartz was encountered, and while in itself does not give values sufficient to warrant the handling, it is a good indication of the near proximity of a good body of pay ore. Fifteen men are employed and 300 feet has been driven. Two drills are now at work on the face of the tunnel and good progress being made.

The Placer Co. are going ahead rapidly with the flume. As many men are employed as can be work-ek to advantage. It is expected that sluicing will be started within the next ten days.

County Court Sitting.

CIVIL ACTIONS DEALT WITH BY JUDGE FORIN. NO CASES OF GREAT IMPORTANCE THIS TRIP.

The County Court sitting was held at Trout Lake on Tuesday last, His Honor Judge Forin presiding. The cases were disposed of by 9 p.m. the same day.

Burrell vs. Smith. The plaintiff claimed $120 for meals supplied. Order to pay $15 per month Elliott for plaintiff.

Houston vs. McIntosh. Hanson vs. McIntosh. Elliott for plaintiffs, Hamilton for defendant. Dismissed with costs. These actions were wage claims for work done for the Lucky Jack Mining Co. The evidence produced could not, however, put the liability on McIntosh, who it seems was only a shareholder and director of the company.

O'Donnell vs Davie. This was a claim for wages for assessment work done on a mineral claim. Judgment for plaintiff, $50 and costs. Elliott for plaintiff, McCarter for defendant.

Langford vs. Grant. Adjourned to Nelson. Elliott for plaintiff, A. M. Johnson for defendant.

Brown vs. Bowman Lumber Co, A claim for wages in which there was a dispute. Judgment given for plaintiff at the rate of $6 per day and costs. Elliott for plaintiff, McCarter for defendant.

Orr v. Lepard. Claim for board account. Judgment for plaintiff. Elliott for plaintiff.

Mr. T. Madden and family, of Nelson, are visiting Mrs. Robert Madden of the Lakeview.

Great Northern Mountain

Will Shortly Be the Scene of Great Activity. Immense Amount of Ore.

Broadview Bonded, Substantial Payment Made

Work to Begin at Once. Other Deals on Same Mountain Pending.

One of the most important deals made in this section for some time has just been closed between A. L. Houston and the owners of the Broadview. This group of nine crown-granted claims is situated on Great Northern hill, and during the 90's was worked by the Horn Payne Co., but as the prices for silver and lead were then very low, and the cost of production, freight and treatment were high, the property was closed down and has been idle since, although there is an excellent showing on the property and considerable ore in sight, both in the shaft and drift, and many were the covetous ones. It was left, however, for a syndicate of Trout Lake's enterprising people to demonstrate their faith in that mountain by putting up the necessary money to secure a bond and further its development.

A crew of men will at once be put to work, and more added as opportunity is made.

From this mine several substantial shipments were made, the official returns from which were $64.00 per ton, but at the present price of silver, lead and copper would be much better. Supplies will be hurried in with a view of pushing development also shipping considerable ore soon as rawhiding will permit. If the standing and business ability of the men who compose this syndicate goes for anything, it means that they will operate along conservative and legitimate lines, all of which augurs well for the undertaking, and one that is reasonably sure of success.

Other deals are pending on the same mountain with outside capitalists.

The O.K. barber shop is to have a new owner-artist. Next week G. A. Cheeseman, who hails from London in the smoke, proposes to show us how a stubbly chin can be converted into a smooth dutch cheese while the average Yankee barber is stropping his razor and fixing the fly-papers. He will remove the surface croppings quicker than you can drop a hot plate, even though the birds have mated. Baths by the wet or dry process, the latter being a novelty performed with the aid of ink eraser. He will be on deck from early morn to dewy eve. and expects spot cash for all operations. His memory is not too elastic, therefore to be on the safe side a notch will be cut in the ear of every client who expects tick. Those are his only tick terms. Cheeseman is here to do business. Same old price, same old stand, but a different smile.

O. W. Abrahamson met with a severe accident Thursday. While doing some work on W.S. Andrew's house he was using a hand axe and his foot slipping, the blade caught his thumb, splitting it from the top near to the wrist. Doctor Abey put several stitches in the wound, and barring blood-poisoning no serious results are looked for.

The Lardeau Brewing Company are covering the whole district from Lardo to Arrowhead, Camborne, etc. Their goods are made of the best material and by experienced workmen.

W. R. Hollenbeck left for his new location on Wednesday morning.

Chas. Bonter, representing the Hamilton Powder Co., is up from Nelson on a business trip.

Jack Smith, now of Comaplix, one of our old-timers, was a visitor during the week.

Kaslo has organized a brass band, and so far there has been no protest on the part of the citizens

---

Jack Doyle, accountant for the P. Burns Co., was in during the week on his regular tour of inspection.

Jack Knowles, one of the '97 boys came in from Olalla Wednesday night to renew old acquaintances.

Will Skinner and Charlie Foote were hunting for big game last week. They returned with a fine caribou.

A parlor social was held on Monday night at the Methodist parsonage. An enjoyable time was spent.

Sandy Laughton, one of the dispensers of free drinks at Ferguson was in town Tuesday looking after delinquent bibs.

T. B. Baker, the popular manager of the Imperial Bank branch here, had a good time among the grouse one day this week.

Ed. Baillie, manager of the Mammoth, came through Sunday. He reports good progress being made along development lines.

McKinnon & Sutherland got in a car of fine Ashcroft potatoes this week. The spuds of that district are gaining an enviable reputation

---

At the Revelstoke County Court last week, before Judge Forin, the case of the Trout Lake Townsite Company v. E. L. Kinman was heard. The claim was for $200 balance of purchase of land at Trout Lake. J. M. Scott for plaintiff, and G. S. McCarter for defendant. It appears defendant had paid $200 for an option on some lots, and a balance of $200 was required to complete the transaction. Defendant put in a counter-claim for refund of the $200 he had paid. His Honor decided the transaction was closed as it stood, and refused to give judgment for the plaintiff on the original claim, and for the defendant on the claim for refund of deposit, without costs to either side.

W. M. Walker, travelling auditor for the C.P.R., came in on Monday night to check up the local office.

Andy Ward and Jack Stauber have a trapping contest on. A Stetson hat is the wager. Both are old trappers, and the Lord help the fur-bearing animals.

Rossland's Mayor.

Chas. Hamilton, mayor of the golden city of Rossland, was a visitor this week. In conversation with the Review man he expressed himself well satisfied with the progress made in mining in his city. He stated that the large companies operating were all in good financial condition and in a position to do business along the most economical lines. He predicted a great future not only for Rossland, but for the whole of the Kootenays

The Lardeau, he said, was very favorably spoken of, and it was only a matter of a short time until it would be better appreciated. The winning of the trophies at Nelson and Spokane would, he thought, have quite an effect in making our magnificent resources known. The effects of past wild-catting were now being gotten over and legitimate work being done, and the results are proving encouraging.

Mr. Hamilton was delighted, notwithstanding the rainy weather, with Trout Lake and its surroundings, and intimated his intention to run up at a later date and enjoy some fishing and shooting.

Great Northern Mines.

The Great Northern Mines, Ltd. have called an extraordinary general meeting at their offices in Nelson, for Friday, Oct. 27th.

The shareholders will be asked to pass a special resolution authorizing the company to borrow the sum of $10,000 with interest thereon at 7 per cent. Such sum to be payable on demand, from any person or persons, who will be willing to advance such sum; such advance to be secured by a mortgage on the assets of the company, and in case any person is found willing to advance such sum to authorize the proper officers of the company to execute such mortgage.

2. To pass a special resolution authorizing the Company to borrow the sum of $200,000 by way of debenture mortgage, secured by the assets of the company. Such mortgage to bear interest at 7 per cent for the term of 5 years

3. To pass a special resolution authorizing the proper officers of the company to execute such debenture mortgage to James Murray Lay, Esq., of Nelson, B. C., to be named as trustee for the debenture holders.

That if such resolutions be passed an Extraordinary General Meeting will be held at the office of the company on Saturday, Nov. 11th, to confirm such resolutions.

Some More Reasons Why.

ANOTHER CONTRIBUTOR IS OF OPINION THAT SWINDLING IS BEING OPENLY PRACTISED.

Dear Mr. Editor,—There is one reason, it may be an indirect one, but nevertheless a good one, why people fail in making money out of their mining investments, and consequently get cold feet and discourage other probable investors. In magazines, mining journals and even in reputable daily and weekly newspapers, we see advertisements as follows:

"Dividend Paying! Dividend Earning! A limited number of shares at 5c. per share."

"Ore vein six feet wide. Average $100 per ton. Shares only 5c."

"Buy shares in the 'No Good Mining Co.' to-day at 3c. Will surely be advanced 1st of month to 15c."

These are only a few of the catch-penny highway robbery schemes advertised to draw the money from the investor's pockets, and which ultimately prevents money from being put into reputable conservative mining projects.

Any person with ordinary horse sense when offered a dividend paying stock at 5 cents per share ought to know that he is being buncoed, for the palpable reason that if a mine is in shape to pay dividends there is no earthly reason why stock should be sold by the company operating.

Again, buying stock at 3 cents on the promise of the seller to advance it to 15 cents is like buying fog for future delivery. If the goods are in sight to make stock worth 15 cents, then any sound business concern would not think of sacrificing it at 3 cents, and if the goods are not in sight, it is impossible for any man to say they will be at a certain date. Think for yourself. If you are a farmer, will you sell your wheat to-day for 25c. if you know absolutely you will get $1.25 for it 30 days after? If your farm is paying you good profit and worth $100 per acre, would you sell part of it for $5 an acre? Yet this is exactly what these unscrupulous schemers are trying to make you believe they are doing with mining property.

Handle mining investments with the same care and on the same business principles as you do your ordinary business, and the result will be the wiping out of these fraudulent schemes and the building up of legitimate enterprises.

The Ladies Guild of the English church will give an At Home in the Oddfellows' Hall on Halloween night, Oct. 31st. Everybody welcome. Refreshments served.

Harry McIntosh, manager and proprietor of the Halcyon Hot Springs, paid his first visit to the camp this week. Harry says it cost him $150 for his trip, but that he was well repaid by the meeting of old friends and the enjoyable trip in from Beaton. Harry is one of the most successful business men of the interior. Coming to Rossland in '96 practically broke, he has by energy, good judgment and ability put himself on easy street. We wish him every success in his new undertaking.

Dave Orr has been feeling so very lonely of late that nothing but a trip to Trout Lake would satiate his hunger for company. Dave came up from Camborne on Tuesday for a change, and it goes without saying that he got it. Dave keeps, or rather we should say, the Camborne Hotel keeps him—busy we hope.

THE LARDEAU MINING REVIEW.

Is Printed at Trout Lake City, and Published at Ferguson and Trout Lake every Thursday

The Editor does not hold himself responsible for the opinions of correspondents expressed in its columns

All locals will be charged at the rate of 10 cents per line, first insertion, and 10 cents per line each subsequent insertion.

Terms for Transient and other advertising will be made known on application at office Subscription $2.00 a year, in advance.

Madame Calve, the celebrated soprano has contracted to appear in several cities in Canada. Everyone would like to hear the divine Calve, but that privilege will be afforded but comparatively few. The next best thing to do is to hear her best efforts on a Berliner gramo-o-phone. Murray sells the machines and records.

"If I were to give you an orange," said a judge, "I would simply say, 'I give you the orange,' but should the transaction be entrusted to a lawyer to put in writing, he would adopt this form: 'I hereby give, grant and convey to you all my interest, right and title to said orange, together with its rind, skin, juice, pulp and pits; and all rights and advantages therein, with full power to bite, suck or otherwise eat the same, or give away with or without the rind, skin, juice, pulp or pits; anything hereinbefore or in any other deed or deeds, instruments of any nature or kind whatsoever to the contrary in anywise notwithstanding."

Eureka! There is yet hope of eternal reward for delinquent subscribers. One in forwarding a 2-spot this week says his conscience was troubling him. At last we have found a dink with a conscience! Contemporaries, please stand off; we found the specimen and he is ours.

The Canada Gazette contains notice of the disallowance by the dominion government of the following Acts passed by the legislature of British Co-umbia: An Act to amend the Coal Mines Regulation Act; an Act to regulate immigration into British Columbia; an act relating to employment on works carried on under franchises granted by private Acts.

Judge Forin at the Court sittings Tuesday made the statement that he would always strain a point of law to give a man equity and justice, more especially when by the sweat of his body he had earned wages which he could not get. The applicants, he said, must, however, come with "clean hands." We are entirely in accord with his Honor along the line. Oftentimes justice and equity are over-ridden through some technical point of law, and we admire and honor a man who has strength enough in his own position to set aside quibbles and give a man what is due him.

The new school law comes in force 1st of the coming year. The ratepayers will then have the opportunity of expressing themselves on the important subject of the education of the young. Under the provisions of the new Act there is an allowance of $40.00 per month, and an additional allowance up to $100 to equal the amount put up locally. Thus our grant will amount to $580 per annum. It now lies within our own province as to whether when we get a good teacher we will be able to pay a salary that will keep him. In the past it was impossible to keep such a man, as the salary was totally inadequate and the result was Trout Lake was made a convenience of until a more lucrative position was open. Starting under the new system we look to see more interest displayed in school matters.

If the dimensions of the "lake" in front of the Review office assumes much larger proportions we intend to agitate to have it placed on the map.

TROUT LAKE CITY

THERE have been fortunes made by judicious investment in Real Estate, and more fortunes will be made than ever the next two or three years. The one who reaps the harvest is the original investor, for he has his money on a certainty.

Now let us point out to you that there is no better spot on the Continent to buy Real Estate than TROUT LAKE.

Trout Lake is the prettiest spot in the Kootenays; as a pleasure resort it has no equal. Boating and fishing may be indulged in the year round; while big game in abundance is to the found on the hills. Its climate is superb, there being no great extremes, it being mild in winter and cool in summer. It can boast of some of the finest hotels and residences in British Columbia. Its streets are well laid out and graded. There are two excellent general stores, and a glance at the advertisements in this journal will show that all trades are fairly well represented. Write with confidence to Agents.

Make your selection at once. :: ::

Then call on or write to

IT has never had a "boom"—its growth has been steady. It is the head of navigation, and the terminal of the Lardo branch of the C.P.R. All roads (in the Lardeau) lead to Trout Lake. It is the commercial centre of the richest mineral district on the continent, and has banking facilities provided by the Imperial Bank of Canada; first-class school accommodation under the direction of S. Shannon, B.A.; a good water system; government offices; County Court sittings; Methodist Episcopal and Anglican churches and cottage hospital.

There are valuable ranch lands on the outskirts awaiting settlers. Its lumber resources are magnificent, and a band saw mill with a capacity of 60,000 ft. per day is at the head of the lake. The mines tributary are proving out bigger producers every year, with new prospects opening up rich bodies of ore.

There will be a big rush this summer, so if you would know more, write at once to either of the agents at the addresses below.

NOTICE TO CO-OWNERS.

To James Grant, or to whomsoever he may have transferred his interest in the Cromwell mineral claims.

Take notice that we, the undersigned co-owner with you in the Cromwell mineral claim, situate on head of Brown creek, in Trout Lake mining division of W. Kootenay, have performed the necessary work and made the necessary expenditure on above-mentioned claim for the years 1904-1905, in order to hold the same under section 24 of the Mineral Act, and the year for which said work was performed having expired, I hereby give you notice that if within 90 days from the first publication hereof you fail or refuse to contribute your proportionate share of such expenditure and pay the cost of this advertisement your interest in the said mineral claims will become the property of the undersigned under and by virtue of section 4 of the Mineral Act Amendment Act, 1900.

Dated this 18th day of October, A.D. 1905.
