Lardeau Mining Review

The representative of the rich Lardeau country. Sent to any address for $2 per an. in advance.

VOL. 1 TROUT LAKE CITY, B.C., OCT. 12, 1905. No. 49.

The Fair At Spokane.

J. W. WESTFALL IS ON THE GROUND WITH THE LARDEAU EXHIBIT. WRITES THAT OURS IS THE BEST DISTRICT EXHIBIT.

J. W. Westfall writes us from Spokane: "To-day (9th) is the only fine day we have had since I came, and the city is apparently full of people. I was just around among the principal hotels, and the people were lined up to register, reaching out on to and down the sidewalks. The exhibits are nearly placed, and will be finished by to-morrow morning. I have ours in fairly good shape, and have the best location in the building for ore. It would do you people good to see the crowd at our location and hear the praise our ore gets and the interest taken. There are two reasons for this. First, the exhibit is general, that is, so many different properties from one division. Second, I am present to explain and converse with the people. If the crowd is small I hold them just as long as I can. To day at different times during the lulls I have had as many as 30 people engaged at once, while there would not be over five at any other exhibit. During the rushes I would rush the crowd by. It is easy when you know how. We have the best district exhibit on the ground, and have heard strangers say the same thing. There is a fine lot of ore here, but it is so poorly arranged that strangers do not get the information nor understand the merit or values of the displays on exhibit. I cannot give you any idea of other exhibits, as I have not had time to look around to-day. I understand the farmers are taking more than usual interest, if so, the fair will be a grand success with favorable weather."

After Ore and Producers.

Bruce White came up from Nelson on Monday. He reports the deal on the Pilot Bay smelter has been completed, and the Canadian Metal Co. now has possession and will commence operations at an early a date as possible. The company are, however, buying ore, and while here Mr White examined a couple of good properties on their behalf. Nothing of a definite nature was done, but we trust to be able to chronicle the completion of a deal on one of them in a short time.

Ed. Vipond is packing ore down from the Copper Chief.

Mrs. A. G. Fraser, who for some weeks has been severely ill, has, we are pleased to say, entirely recovered. Her many friends are congratulating her and Mr. Fraser on her recovery.

H. Jacobson is doing assessment on the Yam hill.

The Ladies' Aid of the Methodist church gave a very enjoyable social entertainment at the residence of J. T. Lauthers on Wednesday night. A goodly number were present and a pleasant evening spent.

Ed. Masterson, of Poplar, was a visitor for a few days this week. Arrangements have been made whereby the old-time popular merchant will take charge of the business of his old-time partner, J. A. Griffith.

Good Returns From Smelter.

BLACK WARRIOR, A GRASS-ROOT SHIPPER, NETS $96 PER TON FOR THE LUCKY LESSEES.

The Black Warrior shipment returns came to hand this week. The ore ran remarkably well, giving 94.50 ozs. of silver, $1 in gold, and 77.3 per cent lead, a total value, including bounty of $96 per ton.

The shipment amounted to 63,347 lbs. The property is now under lease to S. Shannon and associates, who are at present running in on the lead, and are under agreement to run 200 feet. The indications are, however, that the ore body will be encountered before they have driven half that distance. The great drawback to this property as well as others in the same vicinity is lack of transportation. This, however, it is hoped, will be remedied soon by the building of a wagon road up the North Fork to Circle City. The Surprise group, the Old Gold, Primrose and Guinea Gold would also be in position to ship should the road be built.

Lucky Billie.

"It is better to be born lucky than rich" is an old, but true saying. This was exemplified during the week by Otto Billie who was the lucky holder of a quarter interest in the capital prize of the Swedish lottery. The prize is worth 100,000 crowns, and the quarter interest will give Otto close to $7,000. A brother was also the lucky winner of 12,000 crowns. We congratulate the boys on their luck.

Mrs. J. D. Kennedy came in from Revelstoke Monday.

Jack Scott, one of our old-time boys left on Wednesday morning for Midway. Jack goes to take charge of one of the stores being established by J. A. Griffith at Midway. We are all sorry to see Jack go away, but trust his new field will prove productive and that he will strike a paystreak four feet wide.

Miss Alma Thomas and Mrs. Alec. Cummins returned during the week from the New Westminster fair. They report a good time but say there is no place like home, especially when home is in the Lardeau.

Word received during the week informs us that Walter Wilkie has passed his examinations successfully for Provincial Land Surveyor.

Rev. D. W. Scott will preach at Camborne on Sunday morning at 11 am.

Service at the Mothodist church next Sunday both morning and evening at the usual hour. Morning service conducted by Mr. Moyer; evening service by the pastor, subject, "The search for a Man."

J. Q. McKinnon and family left on Monday morning for a trip to the Spokane fair.

John Johnson, is visiting his family this week. He returns to the Rambler-Cariboo to resume his engineering duties.

Fred Elliott left on Wednesday for a business trip to Nelson.

Mining at Beatrice.

FRANK FULLMER TALKS OF PLAN OF DEVELOPMENT. ELEVEN HUNDRED FEET OF TUNNELING.

Frank Fullmer, of the Beatrice Mines, was in town Monday. In conversation with a Review man he stated that the company was being financed by Messrs. S. S. Benson and E. Coovert, of Portland, Ore.

During the fall and winter about 1,100 feet of work will be done, consisting of drifts and raises. When completed the three levels will be connected, thus thoroughly ventilating the mine and adding largely to the facilities for development and extracting ore. The third level at its objective point will have a vertical depth of 425 feet. There is about 60 tons of high grade ore now sacked. It is not the intention of the company, however, to ship any until the property is thoroughly developed, when if conditions warrant some system of cheap transportation will be installed.

Surveyor Wilkie has been engaged to make a survey of the workings as well as the surface, and it is thought that by driving 1,500 on the third level, the Ferguson slope will be reached and the ore brought direct to C.P.R. landing at Trout Lake. However, this is only a matter of conjecture until the survey lines are run. In the meantime two baby trams, 1,500 and 2,000 feet, will be put at the present workings.

Jack Stauber is out on a hunt after cariboo. On his return there will be an assemblage of old timers at his palatial cabin to help him dispose of it.

The Lardeau Brewery is fast gaining a reputation for its beer and porter. Their goods are made on the latest scientific methods by men who thoroughly understand their business. Special attention is given to sanitary conditions, and it is only a matter of time until the whole district will be using their product.

Oswald Woods and Chas. Dulmage returned Monday from the Westminster fair. The boys report a good time with lots of moisture.

D. R. McLennan and family returned from New Westminster fair Wednesday. Dan reports having a good time with old friends on the coast.

Newman Taylor is leaving for Midway to take charge of one of J. A. Griffith's stores along the line of the G. N. R. construction We wish him all kinds of success.

Mr. Craig, of the sawmill, who had his eye injured last week, has partially recovered and able to attend to his duties.

Al. Housten returned Wednesday from the coast.

Jim Scott left this morning for Vernon, where he will put in the winter.

Fleischmann, the jeweler pedlar, is in town.

We have a few pairs of snowshoes for sale at your own prices to clear. Ii you want them get after them quick. Review store.

Placer Co. Resumes.

WORK ON LARDEAU CREEK AGAIN BEGUN. 600 FEET MORE FLUME TO BE CONSTRUCTED.

J. Wagner and T. Levall, of the Spokane Falls Placer Mining Co., of Spokane, Washington, came up on Monday's boat. It is the intention of the company to at once resume operations on their placer lease on Lardeau creek. 600 feet more flume will be built, for which an order for 35,000 feet of lumber has been placed with the local mill.

The company is in good shape financially, and will push the work as rapidly as possible. Placering in the creek has been carried on spasmodically for a number of years by local men with moderately good results. The work, however, was done without any systematic methods being adopted. The company now holding the lease intend to drain the bed of the river and go at the proposition in a business like way, and judging from the results of the crude work done in the past, their efforts should be productive.

Accident to Jack Chism.

A serious accident befell Jack Chism on Wednesday. He was working in the tunnel at the Hecla, and whilst engaged in fitting the fuse into a dynamite cap the latter somehow exploded, and blew the index finger off his left hand and caused other injuries. He was immediatly taken to Gerard, but the train having just pulled out, a hand-car was requisitioned, and he was taken to the Kaslo hospital, the boat waiting at Lardo two hours for him. Everybody is exceedingly sorry to hear of this misfortune to Jack, as he is a very popular fellow. Some of his friends are promoting a smoking concert for his benefit to be held in the near future, so that his lay-off will not so seriously financially embarass him.

At Beaton and Hillman's logging camp 22 men are now employed, and more are to be put to work. Billy Adams took down a heavy load of spuds, etc., Monday.

A pack train heavily laden left for the Black Warrior claim last Tuesday.

At the long tunnel of the Reward Co. operations are being pushed. A little better than 6 feet a day is being driven.

To Some of our Subscribers.

We are this week putting through our bank for collection sight drafts for unpaid subscriptions. As we have said before, we find this manner of collection is preferred by our patrons. It saves them buying post-office or express orders, writing letters, etc.

We are trying to give authentic news of the district, and it costs money to run our business. Don't overlook the fact that $2.00 looks small, but when we have one or two hundred of them they collectively amount to quite a sum to us.

Thanking you in anticipation for honoring our draft, we are,

Yours respectfully,

LARDEAU MINING REVIEW.

Right Spot Is Here.

NELSON TRIBUNE ARTICLE ON SAWMILL CAUSES US TO PUBLISH OUR VIEWS OF THE SITUATION.

In the Nelson Tribune of the 7th inst. appears an article, presumably from a resident of Trout Lake, regarding the operation of the saw-mill. It is a good article, and with the exception of one or two clauses, has our hearty approval.

The remark, however, that the mill should have been built at Gerard instead of Trout Lake we think decidedly wrong.

Prior to the building of the mill Messrs. Barton (who we believe is now practically the owner) Ward and Cowan, of the Canadian Timber and Sawmills, Ltd., along with their general manager, J. B. Henderson, thoroughly investigated the proposition, and by special boat visited Gerard and spent the best part of the day looking over its advantages. These gentlemen unanimously decided that Trout Lake was the logical place for the mill and forthwith built it there, and we can see no change in the situation to-day.

There are many advantages to be gained by operating the mill at this point over Gerard.

1st. There is a good profit to be gained by the operation of an electric light plant here, a profit which will increase as the town grows.

2nd. The refuse, such as slabs, could, if handled right, be turned into money, which would add materially to the dividends of the future.

3rd. Log booms at the head of the lake are absolutely safe, whereas at Gerard there would always be the danger of breaking loose and taking the river route for Kootenay Lake.

4th. For the successful operation of any manufacturing concern it must have for its employes good steady men. To secure these there must be church, school, and social advantages. At Trout Lake these are to be had, at Gerard they are not.

5th. The largest and best part of the timber limits are situated around the head of the lake in close proximity to the present mill.

It is claimed that the lumber can be more cheaply handled at Gerard. We think this idea erroneous. If the mill is at Gerard then the company will be compelled to put a tug on the lake to handle the logs. The company have already a car barge built, and we claim it would be much cheaper to handle the finished product to Gerard than it would be to handle the raw material.

Again, it is said that at Gerard lumber could be loaded direct into the cars. The same thing could be done at Trout Lake at the small cost of putting a slip in at this end. If empty cars could be had at Gerard they could be had as easily at Trout Lake.

Again, the amount invested in the concern would be largely increased by the moving of the present plant. Dividends on the company's stock are regulated entirely by the amount invested. The earning power of the mill is limited, but the cost of construction and expenses connected therewith are only limited by the deepness of the investor's pocket, and the issuance of debenture bonds. If these bonds eat up the profits,

Continued on page 2.

J. A. Griffith Says Farewell

GOES TO MIDWAY TO OPEN TWO STORES. GENERAL REGRET AT HIS DEPARTURE. SURPRISE PARTY LAST NIGHT.

A large number of citizens gathered last night to bid adieu to Mr. and Mrs. J. A. Griffith, who left this morning for Midway, B. C. Mr. Griffith has been in business here for a number of years, and has always been to the front in any plan which would further the interests of the town. Townspeople in general are sorry to see him and his family leave, and wish him all kinds of prosperity in his new field of operation.

In an interview with the Review Mr. Griffith said: "You can tell the good people of our city that I am going to Midway, and that Mr. E. L. Masterson, of Poplar, will from now on manage the business of Masterson, Griffith & Co.

"I wish to thank our many friends for kind favors in the past, and I can assure you I have never been in a city or among a lot of people in my past experience in business who tried as hard to do right and uphold the merchants as our many patrons have done in this city. I am free to say that the people here have always extended a willing hand to assist us in any way within reason, and this we most highly appreciate.

"While I may say in every case in the store business we find it impossible to please every one—man does not live that can do it—however, we have had our ups and downs, but we are glad to say in most every case our differences have been adjusted and made right, and to-day I feel sure this firm has the good-will of every one, and I am also sure the public will find Mr. Masterson every ready to attend to their wants, pleasing in his manner and honest in his dealings.

"On account of business being quiet at Poplar and Trout Lake Mr. Masterson and myself decided one could run the two places and the other one could look for a new field to operate in, and the latter undertaking fell on myself. After a little running around the country I decided to locate on the G.N.R., which is building out of Midway to the coast, and have now purchased goods enough to open up two stores in that location. One of these will be looked after by Mr. Jno. Scott, and the other by Mr. Newman Taylor, both of this town.

"It is my opinion that this district has in her bounds a large quantity of the finest ore in B. C. The fact that there are a great number of properties that contain this high-grade ore which are just coming to the front, and that this district is so enormously large and rich proves that it has a great future, and that the time is not far away when we will see Trout Lake a flourishing town with good payrolls.

"The first thing to take into consideration is that properties here are practically undeveloped, or, in other words the owners only know they have large rich deposits of ore shown up. So far as they have developed their properties this, of course, is a pleasing feature, and proves without a doubt that the Trout Lake district will be one of the best in B. C.

W. Burrell has moved to Ferguson and taken up his residence over W. Schnell's barber shop.

WE WANT NONE OF HIM,

The rumored appointment of the Hon. G. W. Ross, of Ontario, to the governorship of British Columbia is an outrage on the people of the province. We have known men who were accused of crookedness in politics being returned to power by the votes of the people, in which case the people themselves had to stand the consequence, but to take a man who was turned down by the people of one province because of the rottenness of his politics, and make him the representative of the Crown in another province is an act of Premier Laurier's we cannot comprehend Have we not a man in the province capable of filling the gubernatorial chair? Of course he must be a liberal, but has not the party of Blake-Mackenzie-Brown-Mowatt a man in B. C. who is more than equal to a discredited politician from Ontario? If not, then let us send to the home government for a man who, although he may be a stranger, will be clean.

QUITE ANOTHER STORY.

The B.C. Mining Record has somewhat altered its charge made in the August number against W. B. Pool. They now acknowledge that the ore shown to Provincial Mineralogist Robertson by Mr. Pool was ore from the Lucky Jack claim, but that it never came from the lower workings as claimed by him. We have no fault to find with the Record in its campaign against fraud wherever it may be found, but we would ask them to be a little more careful and make their charges exact. We are not mind readers, and must take what the editor of the Record writes and not what he means to write. Pool and the Record can, however, fight the matter out between them. We, however, must have something to say about the property in question.

The original finds were not exaggerated either by this or other interior publications, as charged by the Record. The lower workings of the Lucky Jack for a distance of 90 feet show free gold both in the quartz and schist, and it is not because of any fault of the property that a stamp mill is not now in operation turning out gold-bricks. Unfortunately the numerous lawsuits in which the Great Northern Mines Ltd. were involved in have temporarily put them in an embarrassed condition financially. The Record can get after Pool if they please. He is of age, and can look after his own interests, but we must ask them in all fairness to give the district a square deal. They must remember that the interior has just as good mineral showings, and are as heavy producers as the coast, and we have as much right to boost, legitimately, for our properties as the Record has to talk about Cariboo-Hydraulic

---

The re-opening of the Pilot Bay smelter means business for the Lardeau and Slocan Already the smelter representatives are out looking for ore and ore producers. Properties that run high in zinc which have heretofore lain idle by reason of the penalty exacted by other smelters will now be able to market their product at a good figure.

It looks as if John Houston has quit Nelson for keeps. His wife has left to join him at Goldfields, Nevada, and their residence and furniture at Nelson are advertised for sale. Stands Nelson where it did! It is now easy to understand that the McBride government had the erratic traits of John sized up accurately, and they are to be commended for their foresight in keeping such an undignified bluff out of the cabinet. The opposition press has had many pokes at the personel of that body, but we have good reason to be thankful that John Houston is not a member.

The rain has gone, the moisture has lifted, and the snow-clad peaks overhanging the town are sparkling under a summer sun. Once more we raise our voices in praise of heaven's reflex: "Picturesque Lardeau."

Owing to Messrs. Griffith and Taylor leaving for Midway, our Trades Committee is now without a president and secretary. It is hoped that a meeting will be called as soon as possible and the officers elected.

Right Spot is Here.

Continued from page 1.

where does the investor get off? We believe the proposition is a paying one, and that the investors interests will be better conserved at Trout Lake than at Gerard

We do not wish to usurp the function of management of the mill business, but as this is a matter which affects us all, we trust that our remarks on the subject will be taken in the same spirit as they are written, which is, success and prosperity for all concerned.

CANCELLATION OF RESERVE

COAST DISTRICT.

NOTICE is hereby given that the reservation, notice of which was published in the B.C. Gazette, and dated 9th August, 1901, covering a belt of land extending back a distance of ten miles on each side of the Skeena River between Kitsilas Canyon and Hazelton, is cancelled.

Notice is also given that that portion of the reservation, notice of which was published in the B.C. Gazette and dated 27th December, 1899, covering a belt of land extending between the mouth of Kitimat River and Kitsilas Canyon, is rescinded in so far as it covers land lying between the Kitsilas Canyon and a point in the Kitimat Valley, distant ten miles in a northerly direction from the mouth of Kitimat River, and that Crown lands thereon will be open to sale, pre-emption and other disposition under the provisions of the Land Act, on and after the eighth (8th) day of December next: Provided that the right of way of any railroad shall not be included in any lands so acquired.

NOTICE TO DELINQUENT CO-OWNERS

To James Grant, R. G. MacLeod and James Bouchier, or to whomsoever they may have transferred their interest in the Slate Mineral claim.

Take notice that I, the undersigned co-owner with you in the Slate mineral claim, situate on South side of Lardeau river between Rapid and Poplar creeks in the Trout Lake Mining Division of West Kootenay, have performed the necessary work and made the necessary expenditure on the above mentioned claim for the years 1904 and 1905, in order to hold the same under section 24 of the Mineral Act, and the years for which said work was performed and expenditure made having expired, I hereby give you notice that if within 90 days from the first publication hereof you fail or refuse to contribute your proportionate share of such expenditure and pay the costs of this advertisement your interest in the said mineral claim will become the property of the undersigned under and by virtue of section 4 of the Mineral Act Amendment Act, 1900.

Dated at Trout Lake this 17th day of July, 1905. JAMES SNELL,

Co-Owner.

NOTICE.

Copper Queen mineral claim, situate in the Trout Lake mining division of West Kootenay district.

Where located: On Silver Cup mountain, about 1½ miles from Silver Cup mine.

Take notice that I, Frederick Charles Elliott, F.M.C. No. B88042, acting as agent for Charles L. Copp, F.M.C. No. B83186, Charles McNicholl, F.M.C. No. B78011, and John W. Westfall, F.M.C. No. B87964, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of Certificate of Improvements.

Dated this 11th day of Aug. A.D. 1905.

18-8-1905.

When looking for a place to spend your holidays, bear in mind that Trout Lake is an ideal summer resort. The scenery and climate are magnificent

TROUT LAKE CITY

THERE have been fortunes made by judicious investment in Real Estate, and more fortunes will be made than ever the next two or three years. The one who reaps the harvest is the original investor, for he has his money on a certainty.

Now let us point out to you that there is no better spot on the Continent to buy Real Estate than TROUT LAKE.

Trout Lake is the prettiest spot in the Kootenays; as a pleasure resort it has no equal. Boating and fishing may be indulged in the year round; while big game in abundance is to the found on the hills. Its climate is superb, there being no great extremes, it being mild in winter and cool in summer. It can boast of some of the finest hotels and residences in British Columbia. Its streets are well laid out and graded. There are two excellent general stores, and a glance at the advertisements in this journal will show that all trades are fairly well represented. Write with confidence to Agents.

Then call on or write to

IT has never had a "boom"—its growth has been steady. It is the head of navigation, and the terminal of the Lardo branch of the C.P.R. All roads (in the Lardeau) lead to Trout Lake. It is the commercial centre of the richest mineral district on the continent, and has banking facilities provided by the Imperial Bank of Canada; first-class school accommodation under the direction of S. Shannon, B.A; a good water system; government offices; County Court sittings; Methodist Episcopal and Anglican churches and cottage hospital.

There are valuable ranch lands on the outskirts awaiting settlers. Its lumber resources are magnificent, and a band saw mill with a capacity of 60,000 ft. per day is at the head of the lake. The mines tributary are proving out bigger producers every year, with new prospects opening up rich bodies of ore.

There will be a big rush this summer, so if you would know more, write at once to either of the agents at the addresses below.
