ARE GETTING RESULTS RE FREIGHT DELAYS

Divisional Freight Agent at Vancouver Investigating Cause of Delays at Arrow Lake Points

The question of the serious delays in shipments of freight from Revelstoke to Arrowhead and other points on Arrow lakes which was recently taken up by the Board of Trade and reported at length through the columns of the Mail-Herald, appears to be getting good results. Secretary Laing of the Board of Trade, is authority for the statement that the Divisional Freight Agent of the C.P.R. at Vancouver has already taken the matter up and promises an immediate investigation so as to ascertain where the blame lies for these long delays in freight shipments to various Arrow lake points. It is now practically a certainty that this matter will be satisfactory adjusted.

The Board of Trade did good work in this connection and it is subjects similar to this one that can only be handled properly through an organization of this kind. To the Mail-Herald also some credit in this connection is due as this paper was the only one in the province to publicly register a kick of the bad freight service furnished by the C. P. R. to Arrowhead points.

It can be depended upon that the Mail-Herald will not be found lacking in registering kicks in any public questions that may need remedying.

UNION LABEL

WEDNESDAY, DEC. 20th, 1911.

During the past week several complaints have reached the Mail-Herald regarding the bad manners displayed by schoolboys of Revelstoke when returning home from school.

On one occasion several ladies were snowballed on First stree west of the post office, and the guilty boys when remonstrated with, answered with profane language, whilst on another occasion a similar case occurred near the post office.

It would be a good thing if parents and others in authority over the youth of the city would warn their charges against such conduct, as such ill behavior is calculated to bring undeserved disgrace upon the whole of the children of the city. The parties who registered these complaints requested the editor to draw public attention to same in the hope that a word to the wise might prove sufficient, and thus avoid more drastic steps being taken to put down this nuisance.

Every year in America many children and adults are burned to death by fire originating from Christmas candles and other decorative lights, and some of the most terrible holocausts of history, have thus occurred at the festive season of the year. Light, inflamable decorations aid the starting and spreading of these fires, and in nearly every instance, children are involved with the most disastrous and heart rending results. We take this opportunity therefore, of uttering a timely warning to our readers, be careful of fire, and by so doing avoid the possibility of our city being the scene of any of those Xmas holiday horrors, which are sure to take place unless this precaution is taken.

Take all reasonable precautions against fires at Xmas time and you will save yourself a lifetime of useless regrets.

$10 Given Away At the Edison

The management of the Edison theatre, commencing tonight (Wednesday) will give away a coupon with each ticket purchased at their moving picture show every night until Saturday, Dec. 23rd. HIGH SCHOOL CONCERT AND EXERCISES

Unparalleled Success--The Edison Theatre Crowded With Appreciative Audience

The Edison theatre was packed to the doors on Friday evening last, by a appreciative audience of parents, and friends of the children, gathered to witness the fifth annual high school opening exercises. The whole program was carried through without a hitch and the affair was an unprecedented success.

At 8:15 p.m., the curtain rose, Miss J. J. MacKenzie occupied the chair; whilst Mr. Paterson filled the onerous position of director of school choruses.

The opening choruses by the high school "O, Canada," and " Viva la Compagnie," went with a swing which was a forecaste of the evening and brought down the house. Next followed a piano solo by Miss Alice Bell, for which the artiste was loudly applauded. A vocal solo by Mr. Ralph Lawrence, rendered in his usual finished style, was followed by a piano solo by Miss Hobbs, excellently executed and greatly appreciated by the audience.

The oratorial contest now began, Alfred Tapping speaking on the Canadian Naval Question, which subject was cleverly and fully handled. Miss G. Urquhart charmed her listners with a speech on "The Marvel of Vancouver," Fred Fraser ably expounded "The Awakening of China," and Miss L. Moran vividly portrayed "Early Days in British Columbia." The program continued with a piano solo by Miss Lawson, vocal solo by Mrs. Dent, piano solo by Miss D. McCarter, all of which artistes being loudly applauded.

The pupils of the high school then again took the platform; "Federalism in Canada and the United States" was ably dealt with by Harold Gordon, The Panama Canal" by Miss K. Simonds, "New Developments in Scientific Botany" a very difficult subject, by Leon Coursier, and "The Wonders of the West", were excellently described by Miss I. Procunier.

A-ter the interval there followed a vocal duett by Miss Lawson and Mr. Lawrence, and a well executed piano solo by Miss R. Sibbald.

The orators of the high school again claimed attention, Miss M. Field spoke on "Our New People", Henry Johnson on "The Indians of B. C.", and Miss L. Brock, "The Conservation of Our Forests". Each subject being dealt with in a manner worthy of the highest praise.

An artistically rendered piano solo by Miss Corson and a violin solo with piano accompaniment by the Tuxedo Orchestra, loudly encored, brought the program to a close

Whilst the judges of the oratorial contests were deliberating, the presentation of medals won at the departmental examinations took place. The successful students being, Miss Muriel Fleetham, Edith Abrahamson, Kate Simmonds, Muriel Porter, Tannis Patrick, and Master Leon Coursier.

After the interval there followed a testents being so evenly matched, Gladys Urquhart was awarded the first prize of a ten dollar gold piece given by Dr. McLean, Miss Kate Simmonds won the second prize, three bound copies of the poets, donated by Mr. W. Bews, and in the boys contest the first prize, a gold medal, given by Mr. H. N. Coursier, was carried off by Leon Coursier, and the second, a five dollar gold piece, donated by Mr. Lefeaux, was won by Fred Fraser.

The closing chorus, "On the Old Columbia Strand," brought the audience to their feet and the curtain fell after the most successful exercises in the history of the high school

Miss Lawson, as pianist, charmingly accompanied the school choruses, and Mr. G. R. Lawrence; while Mr. Watson in his finished style, played for the duet by Miss Lawson and Mr. Lawrence.

In conclusion, we must speak of the new feature of the evening's entertainment, the oratory contests. The whole audience was amazed with the ability shown by the youthful orators, boys and girls alike. We feel safe in saying that not one person in ten could acquit himself one half as creditably as both boys and girls did and especially the three leading boys, Leon Coursier, Harold Gordon and Fred Fraser, whom we would back to win against any high school boy in the province. Great credit is due Miss MacKenzie who has spared no pains in developing this latent ability in her pupils. We have a high school to be uroud of, and the students are receiving a training in public speaking that will be of inestimable benefit to them in after life, and enable them to take the place in public life they are otherwise fitted for. We hope to see our high school make the oratory contest an annual affair.

CANADA BORROWING TOO MUCH

Declares British Expertse--C.N.O. Issue a Fiasco

London, Dec. 18—The Observer, referring to what it describes as the Canadian Northern Ontario Loan fiasco, says,"Canada as a whole and not merely its government has been over-borrowing. Values in lands and most other things are inflated. We are glad to see there is a growing spirit of caution. Some municipalities have shown something akin to bolting beyond all the bounds of caution."

In connection with the above it is interesting to note that a prominent London financier, D.D. Coath, holds a similar view. As quoted in a special cable to the Winnipeg Free Press, he says:

"Having recently made an extensive tour of western Canada, permit me to say the Dominion generally is not receiving as much benefit as it might from the huge expenditure on railroad building now going on, for instance west of Kamloops.

"All along the Thompson and Fraser rivers, about 200 miles in the most difficult country, entailing much tenneling and rock cutting, the Canadian Northern has thousands of men employed making a new line, separated only by the river from the existing Canadian Pacific.

"It is surprising that instead of

"It is surprising that instead of expending time and money in duplicating such a costly and unrenumeratic section, the existing line was not made use of by obtaining running powers as is usually done in such cases in England, and the capital applied to making much cheaper and more renumerative lines for which there are ample scope elsewhere.

"The Canadian Northern could have got desired access to Vancouver much more cheaply by running powers as suggested over the existing railway track. As it is, the money expended on duplicating the section referred to will bring no benefit to anyone. Healthy rivalry no doubt is a good thing to encourage, but ought to be tempered with common sense."

MY TRIP TO FRISCO

A Story of Life and Adventure by the Sad Sea Waves

(Continued From Last Issue)

San Francisco is a great town, and the Friscans, or the Friskey ones as they could be more correctly named, certainly know it. Likewise are not above telling people all about their greatness, and especially when they can get hold of an unsophisticated stranger within their gates! In this respect they resemble the boosters of Vancouver and Seattle.

San Francisco is the most striking example of a city making a good start along the right road, and subsequently going astray, that it has ever been my good fortune to encounter in my travels round the world of citydom, it provides the classical illustration of that old maxim, "Train a youth up in the way he should go, and when he gets old he will GO IT." Foiled by the baffling fogs which perpetually hang around the entrance to the noble harbor, Drake and his Swashbucklers passed by the entrance on their first trip round the world, and it remained for the Franciscan Fathers, a pious and God fearing crew, to penetrate into the anchorage, and discover the hilly site of San Francisco Town, Thus Frisco started out right, but alas it fell upon evil days the wild oats sowed at this international stopping place, by successive generations of saucy sailormen, grew up into a tempestuous crop, and the only evidences left to this later day, of the earlier piety of the place, are the huge stone crosses which grace the hill tops, and the old Mission Gardens, for the modern Frisco, even as the Frisco before the fire, is the gayest town on the continent, the Paris of America, run wide open in every sense of the word, for seven days in the week and fifty-two weeks in the year. The heavens that once resounded with the strains of the pious fathers, now echo with the sounds of revelry by night as well as by day, rising, a confused babel of songs in many tongues, from the glittering dance halls and amusement palaces centering on the Barbary Coast.

The stranger in Frisco, is not long in discovering that there are three outstanding features in the life of the place. The first is the great earthquake and fire in 1906, the second is the Barbary Coast, and the third is the forthcoming Panama Pacific World's Exhibition of 1915. It was not my privilege to be present at the great disaster, and I can therefore speak only as an ear witness. In my opinion, a great deal of sympathy has been wasted upon San Francisco, and a lot of hot air expended in glorifying the pluck of the people of that city for their rebuilding after the fire. As a matter of cold blooded fact thanks to the conservative policy and gigantic reserve funds of the old established British Fire Insurance offices, who were practically the only offices to pay their losses in full, the business men of Frisco, right after the fire, found themselves in possession of more ready cash than was ever possessed by any town in the history of the States. A great portion of the risks had been carried by British Houses, and millions of European gold, poured into the city. It was this money which enabled the miracles of re building to be worked, and like the Phoenix, a new and greater city rose as if by magic, from the ashes of the old town .

Thanks to a policy of judicious silence on the part of the newspapers, and the inhabitants, enormous portions of the losses actually suffered through the quake, were thrown upon the shoulders of the insurance companies. The death roll was placed at approximately 126, as a matter of truth, owing to the fact that the town was built upon filled in ground where no foundations for buildings could be secured, most of the buildings collapsed inwards, and the actual loss of life was very heavy. Spectators of the subsequent ruins declare that for weeks after the disaster, it was almost impossible to work among the debris, owing to the stench from the dead bodies of humans and animals buried in the ruins In a city like Frisco, with a huge alien and transient population, the unidentified dead would be uncounted and unsung, and the real number of lives lost must have been away up in the thousands.

The disinterested spectator, watching the building of the new steel structures of the renovated city, upon sand and soil foundations, will be sceptical of the official figures of the past disaster, and will hesitate to accept the rosy statements as to the stability of the town if ever revisited by a similar quake. During the flow of British Gold, the unions held Frisco in a grip of iron; even the beggars on the streets were organized, and while they did nat refuse to accept alms from scabs, they took steps to bar out all new members by means of an enormous initiation fee. Then came the famous Burns disclosures, and the downfall of Union Labor Mayor "Schmidt." But to clean Frisco up completely, would result in stopping th? income of easy money which is one of their principle assets, and this is too much of a mouthful, even for the so called reform administrations. Hence, although the coarser elements are not so prominent as in the previous days yet the wide open policy is adhered to by the present regime. In every wealthy country like the United States there is a certain proportion of the population with too much money, and imbubed with sporting proclivities, which later they are determined to gratify heedless of cost or results. Under the open town policy Frisco has become the Mecca for all these rag time sporting pilgrims and from the entire continent they flock to the Golden Gate. It has been estimated that during the season, ten thousand transients daily pass into the town, many of them to fall hopelessly by the wayside in Frisco, whilst others pass on to the pleasure zone of Southern California.

All night long the glittering gold passes to and fro, but mostly to, over the counters of the resorts centering round the Barbary Coast. The dance halls of Frisco are famous throughout the American continent, and are frequented alike by the wicked and the just; the former presumably in search of pleasure, the latter merely looking on and familiarising themselves with those terrible places, to subsequently have the satisfaction of smacking their lips with disgust, whilst warning their untravelled acquaintances and the youths of the New England villages against the wickedness and temptations of the Wild and Woolly West. Good Americans go to Frisco for the same reasons that the Puritans of Britain go to Paris; each and all contribute their full quota to the bulging pockets of the masters of the under world in this respect the net falls alike upon the just and upon the unjust. Whether you are sight seeing or frisking, the drinks cost you just the same on the balcony of the Belle O'Union, the Alahambra or the Midway, and lemonades are no cheaper than beers or whiskeys. If the so called good government party really wish to close down Frisco, all they have to do is to perform their part by keeping away from the coast, and instead of spending their money there invest the same in some good Temperance Society. Alas, they continue to prefer to vote Good Government by day, whilst they patronise the Coast at night, doubtless to the great peace of the their consciences, and certainly to the vast profit of the underworld of the Coast. A very curious instance of this cross argument occurred during my visit. Some light toed person with a genius for contortion, invented a new dance known as the "Texas Tommy" it became all the rage in the dance halls, and the favorites ol the floors performed the same nightly before thousands of their admirers to the strains of rag time, beneath the glaring lights. This went on for months, and after the good people of Frisco had all thoroughly and personally investigated, a movement was commenced to bar the famous dance, as an immoral exhibition. The "Morality squad" visited the halls, not once, but several times, to gather evidence upon the subject; they watched at close quarters the sinuousities of Tomy, and declared the Texas Rag to be an obnoxious and dangerous amusement. So there are two parties in Frisco, the reformers, who having seen the famous dance are now in favor of banning same from the floors, and the new comers who are still unsatiated with Texas Tommy. Six months from now, when the dance is worn out, the matter will come up before the City Fathers Maybe Tommy will disappear forever but by that time, some other equally interesting exhibit will have taken the spot light on the floors, and no one will miss him.

(To be Continued.)

Much nonsence has been appearing in the world press, regarding the atrocities committed on both sides, by the combatants during the present war in North Africa.

A lot of this "cackle from the front" obviously emanates from the pencils of weary correspondents, who denied by the censor the privilege of telegraphing war items, are endeavoring to earn their salaries by writing home accounts of bloodcurdling massacres, by Turk or Italian. What do the public expect to happen in a war, but bloodshed and massacres. The deadly game of killing your opponents is not exactly carried out on pink-tea party lines and fighting at the front, as the editor is well aware is a very different job from sitting a table drawing up rules at a Hague convention. Massacres take place in all wars; when the sword is drawn in any country, hell breaks loose; the weak and innocent suffer more than the strong and guilty, wounded men are buried alive and prisoners starve to death because no one has time to bother about the "living", all are too busy killing other people and getting their hands on the loot. The smoke of burning homesteads ascends to heaven, justice is forgotten whilst a drum-head court martial takes the place of the "civil court." Savings of years vanish in a single day, commercial nations waste their substance in murdering their own best customers; Christian communities fall down and worship the most ignoble of human passions. War is inevitable, and all this is inevitable in war, hence it is surprising that the reading public should be even interested in the stories of massacres in Tripoli. War is amassacre anyway, and it would indeed be news, not that the massacres are occurring but that anyone should ever have been so ignorant as to imagine the contrary.

MALAKWA NOTES

Jack Allan and Bert Tehman are catching a great many beaver this season.

E. Ericson, J. Johnson, A. Johnson, Oscar Lundstrum and Mrs. Anderson paid a visit to Revelstoke last Friday.

From present appearances a rising town will start in the immediate future at Malakwa, among the many businesses already started and under contemplation in the valley of the "Garden of Eden", is the general store of Mr. J. W. Chandler and the blacksmith shop of F. X. Winternberg, while Mr. R. A. Cappock supplies the weary travellers with meals and beds.

Tige the trick dog of J.J. Johnson is coming in the lime light very rapidly for his clever tricks which greatly amuse travellers.

L. M. Jolueson made a flying trip to Revelstoke by Saturday morning's early train,

The government is doing good work putting in a wing dam and doing a great deal of mattressing work to change the current of the river which work will cost thousands of dollars. This work is being done on Mr. Embons farm on the river front.

Malakwa makes good use of her 24x40 town hall in which dances and public meetings are held. The school children, which number twenty-five, are busy now practicing for their Xmas entertainment.

The poultry industry is a live issue at Malakwa. Mr. B. F. Sutherland is making a specialty of White Leghorns.

To the angler the "Garden of Eden" offers many inducements, as Eagle river is famous for the beauties, which river runs through this valley.

We wonder what Loyd Johnson was doing in Revelstoke Saturday.

Buckingham Palace at Malakwa is now regarded by visitors very highly The young hosts never failing to make any unexpected guests feel perfectly at home. It is likely that this hospitable home will be the boarding place for the new school teacher after the New Year.

Mr. Cass of Washington, who has been visiting at the Leeham home in the east end for some time, has decided to locate here and will bring his family up in the spring.

A delightful concert was held at the Eric Ericson home Sunday eve in honor of Mr. and Mrs. Andrew Johnson. Mr. and Mrs. Johnson were married in Revelstoke last Friday. Mrs. Johnson was formerly Miss Anderson recently of Sweden.

Mr. and Mrs. Alfred Martin are comfortably settled in our midst. Mr. and Mrs. Martin were recently married in Kamloops and are here to spend the winter where Mr. Martin is employed on the government work.

John Swanson left last week for his old home in Sweden.

B. R. Bruhn spent Sunday in Salmon Arm.

Miss Selma Johnson returned to Revelstoke Tuesday morning, after a short visit at the home of her sister Mrs. Eric Ericson.

We would like to know where everybody is going Christmas.

Mr. Alfred Martin and Miss May Sereidner of Notch Hill, were married in the English church at Kamloops on Monday last. The couple arrived at Malakwa on Wednesday morning, to make their home here for some time. Their many friends wish them a happy journey through life.

Mr. Andrew Johnson of Holyburn, and Miss A.J. Anderson, were married at the residence of Mr. A. Carlson by the Rev. C. A. Procunier, on the 15th inst, and arrived at Malakwa on the 16th. An enjoyable evening was spent at the residence of Mr. E. W. Ericson, J.P., on Sunday evening, about forty young people were present. The bride and groom received many presents with good wishes for their future welfare. They will leave for their home in Hazelton where Mr. Johnson has farm and property as soon as possible, but it is understood they cannot get in until spring. Miss Selma Johnson, sister of the bridegroom, was out here from Revelstoke on a visit.

ALARMED OVER KING'S SAFETY

Fear That He May Be Assassinated While in India

London, Dec. 18—Apprehension for the the safety of King George in India is voiced openly in official circles The rumor of the king's assassination on Friday was the natural outcome of the fears felt in London and showing how keenly the nerves were on edge of those whose material interests would be affected.

Every effort was made to persuade the king to abandon his visit. He was obdurate in the face of the evidence of unrest in India, which was seeking an opportunity such as the royal presence would afford to demonstrate its strength.

Those whose advice he did not heed now feel justified in saying, "I told you so."

An appreciation of the danger of the situation is shown by parliament in its present treatment of the announcement of the removal of the capital from Calcutta to Delhi and the readjustment of the baundaries of Bengal and Assam.

This in a measure stifled criticism on account of the desire not to reflect on the king emperor, but the main consideration which was best amplified by Bonar Law, the leader of the opposition in the house of commons, is that it would be dangerous to the king's safety to agitate the subject while royalty is in India.

While reports that the burning of the Durbar tents was caused by incendarics have been discountenanced by the press, the belief is widespread that they were purposely set on fire as a protest against British rule. The ministry will breathe a sigh of relief when the Indian excursion passes into history.

Great Slaughter of Game

Fernie, Dec. 18—The open season for deer closed in this part of the country and it marks the close of the greatest slaughtering of deer ever known in this section of the country.

One packer, Wm. Birney, who lives at Elko and runs a livery business, having brought out from the south fork of Elk river 160 carcasses, and other packers have brought out at least 40 more, making a total of 200 deer killed by white hunters, and the Indians have been as active, perhaps securing even more than their white rivals. Four hundred deer killed in one valley during the short open season is a record, though not one of which to be very proud. Where such a large number of the finest animals have been captured many must have been crippled and left to die or to be torn to pieces and eaten by the wolves.

The south fork of the Elk is an ideal hunting ground and has been visited annually by the Indians of the country for many years. The largest catch by any one party this season fell to a party of six Fernie boys who came in with 21 carcasses, 18 of them being fine bucks. Other parties from Fernie and from Cranbrookbrought out large killings, running from five or six to nineteen.

Hunters report large numbers of deer still in that valley where so many have met death from the deadly bullet of the common enemy, the human hunter.

That so many parties have visited that neck of the woods without giving the press man the usual opportunity of recording the usual mistaken identity and consequent killing of some one of the killers is a fortunate matter for the hunters, however unremunerative it has been for the scribe.

An explanation of the cause of this year's crop of vension lies in the fact that the early November snow storms which covered the higher hills and mountains with four to six feet of snow, brought down the deer much earlier than usual, giving the Nimrods a much longer time in which to pursue their murderous pastime.

As a result of this great slaughter an agitation has been started by the Fernie Rod and Gun club, to have the open season for deer cut shorter having it close by the first or fifteenth of this month, as now provided by the British Columbia game regulations.

Pictures Not Liked by Italians

Montreal, Dec. 17—Moving picture films that have been causing trouble in various parts of the United States arrived in Montreal yesterday and promptly caused a small-sized riot. The pictures depict the war in Tripoli and represent the Italian soldiers as guilty of all the barbarity of which they have been accused, besides giving the Turks the best of the actual fighting.

The proprietor of a moving picture show on St. Lawrence Boulevard this evening exhibited the pictures for a short time. As soon as the Italian population got word of what was going on a crowd of young Italians rushed the theatre, tore down all the advertizing signs depicting scenes of the war, routed the ushers, and fought their way to the proprietor, forcing him to stop the performance.

The indignant Italians will also ask the Italian consul here to take the matter up, and they threaten to return tomorrow night and wreck the theatre if the pictures are again exhibited.

GERMANY IS NERVOUS

Suffering from Paroxysm of Fear of Dynamiters

Cologne, Dec. 18—The Rhenish story of an alleged discovery of a plan on the part of Great Britain to blow up Wilhelmshaven. The Zeitung professes to have received its information from one of the best informed officials, who said that the postal authorities becoming suspicious of repeated money orders in favor of deck officers and chief mates, finally seized some of the letters passing through the postal department. This showed that the plans of the entrance to Wilhelmshaven war harbor as well as the plans of the water supply and the contents of the secret code book, which had been betrayed to the British admiralty.

Berlin, Dec. 18—The alleged discovery of a British plot to blow up the naval harbor at Wilhelmshaven, publish in the Rhenish Westphalian Gazette, is regarded in official circles in the light of newspaper nonsense. While the Essen newspaper story is not denied, it is considered as a product of the prevailing espionage man in in Germany and England. Espionage certainly existed, but it took less fantastic forms than that related in the Gazette.

Manning's toys are now open, call and make your choice early. We will be pleased to put them away for you.

PLANS NEW METHOD OF UNIFORM

Col. Sam Hughes Impresses Importance of Uniformity

Ottawa, Dec. 17—Col. Sam Hughes has succeeded in prevailing on his colleagues the importance of a plan to improve the methods of uniforming the militia. The cloth will be manufactured expressly for militia. A standard and shade for cloth for uniforms will be fixed, and contractors for clothing before securing contracts will have to give a guarantee that this specially made material will be used. Steps will be taken without delay to bring the proposed innovation into effect. The present system of uniforming the militia has been unsatisfactory in many ways, and at every gathering of the militia which has been held more than one regiment participating has had a great variety of shades of color, as well as a great difference in the quality of the cloth, in having the uniforms made up by various contractors.

FIRE AT COMAPLIX

Heroic Work of Local Fire Brigade Keeps Fire in Check

What might have been a most disastrous fire occurred the fore part of last week at Comaplix, when the residence of Chief Young was reduced to ashes. The government buildings were also badly damaged. It is considered a marvel and a clever piece of work on the part of the Comaplix fire brigade that they, by rapid fire fighting, confined the fire to the residence destroyed as other buildings were quite close.

The noble work of the fire fighters was, however, greatly aided by the fact that there is an excellent water supply at Comaplix. A. E. Kincaid returned on Saturday from Comaplix where he went in the interests of his company to adjust the fire losses.

DELAY IN MAIL SERVICE

In Kootenay Lakes--Mr. Goodeve Talks

F. W. Laing returned home last Sunday from the south where he gave lectures on the poultry industry and poultry culture at the following places:—Nelson, Toghum, Slocan Junction, Shoreacres, Harrop, Willow Point, Boswell and Proctor.

The meetings were all well attended our southern neighbors all taking much interest in the poultry industry. While on the s.s. Kuskanook on Kootenay lake Mr. Laing met A. S. Goodeve, M. P. In conversation with Mr. Goodeve it was learned that nothing could be done in the Arrow lake mail service till spring, so there will be nothing done in the winter service via Slocan lake.

Mr. Goodeve was on his way to his home in Rossland to spend the Xmas vacation.

Oil Locomotives in Mountains

Winnipeg, Dec. 12—Following the announcement made recently by the Canadian Pacific Railway that in the near future the company would use crude oil as fuel on their mountain sections, it is learned that the first section to be thus equipped will be the Shuswap and mountain subdivisions of the first district of the British Columbia division. The places selected where the oil storage tanks will be built are Field, Golden, Rogers Pass, Revelstoke, Sicamous Junction, Notch Hill and Kamloops.

The only change necessary in the locomotives will be the insertion of jet burners in the fire boxes. The tenders will also have to be changed to hold oil instead of coal. It is the intention of the company to make these changes just as soon as possible and the system will gradually be extended over the entire mountain division.

News from Bourne Bros.

A great sale of Crockery now on.

We never had such a large variety or such good values in Carving Sets and Table ware as this Xmas.

Skates and Hockey Sticks are going at reduced figures, they make very suitable presents.

Did your hubby buy you that new Kootenay Range yet? If not get him to do so in time to cook the Xmas Dinner. There is no stove sold in town to equal the Kootenay, and our price is at least $20 below their value.

New shipment of Wagstaffes' Jams, Jellies and Mincemeat, Comb Honey, Tartan Brand Currants, new Figs, Cocoanuts, Chestnuts, etc., now in.

Order your Jap Oranges and other Fruits and Nuts early and get the best.

Train Dispatching by Telephone.

The entire Canadian Pacific railway, west from the Great Lakes to the Pacific coast, will be equipped with a telephone train dispatching system within a short time, and before a few weeks have passed that portion of the line between Swift Current and Field will be operated by telephonic train dispatching apparatus.

At the present time all the dispatching on the main line between Calgary and Field, B. C., is being done by telephone. The system is working splendidly and it is the intention of the company to project the telephone lines east to Medicine Hat where it will connect up with the link now in operation between that place and Swift Current. Other links are now in operation in British Columbia, and the line between Swift Current and Winnipeg are being connected up, according to General Superintendent Price.

The telephones now in operation on the Canadian Pacific lines here are of the usual sort. A headgear with two transmitters, one for each ear, similar to those used by operators in manual telephone switchboards, and having the same sort of receiver, are used by the dispatcher. He operates his own switchboard and can talk to anyone along the line at any time A great deal of time is saved as compared with the old telegraphic system.

Especially in this dry climate, where there is the minimum of "wire trouble," telephones for train dispatching are proving much better than telegraph lines.

In the eastern provinces, where the air is damper, where fogs are frequent and other atmopheric disturbances interfere with the electrical currents in telephone and telegraph lines telephones are said to have been less successful for train dispatching.

One great advantage of the telephone over the telegraph for train dispatching is that the dispatcher may talk directly to the engineer or the conductor of the train to which he wishes to give orders without the third person medium indispensable where the telegraph key does the work.

Has Record Year.

The annual statement of The Canadian Bank of Commerce as at 30th November last which has just been published reflects a record year in the history of that institution, the net profits—after providing for bad and doubtful debts and deducting all expenses of management— amounting to $2,305,409, the largest in the history of the bank and an increase of $467,344 over 1910. The progress of the bank during the year has been most marked as will be seen by comparing their 1910 and 1911 statements Some of the more important changes during the year are as follows:

Deposits,	increased	$19,000,000
Total Assets,	"	25,000,000
Loans & Discounts	"	15,000,000
Gov., Mun., Sec.	"	3,000,000
Reserve,	"	2,757,820

During the year the bank also increased its capital $2,000,000, and when this is paid up the capital will then stand at $12,000,000 and the reserve at $10,000,000.

The increase in loans, discounts and securities held by the bank is ample verification of the reputation they have long enjoyed that they have a full appreciation of the needs of the country in general.

Province to Control Belt Lands.

Ottawa, Dec. 16—Hon. W. R. Ross, of the British Columbia government, left for Victoria tonight after a series of conferences with the Federal Ministers respecting the railway belt question. Mr. Ross came to Ottawa from Chicago, where he had attended the Irrigation convention.

The proposal of the B. C. government that the province be allowed to administer the railway belt pending an investigation by a commission to determine upon a fair price for its transfer back to the province, will come before the Federal cabinet within the next couple of days, and an announcement favorable to the province is expected by Monday.

Lower Express Rates.

Toronto, Dec. 11—Toronto business men are much pleased at the railway board's ruling which goes into effect with the new year, reducing express rates from 20 to 25 per cent.

The rule extends from Halifax to Vancouver, said a representative of the Dominion Express Co. today, and means a reduction of between 20 and 25 per cent. on the average rates on business between exclusive offices.

About the only complaint from the public was in connection with the double charge on packages when carried by two companies and the order wipes out the double charge.

THE CITY IN BRIEF

I Say—Do not hesitate about investing in Vancouver through a firm that has a reputation at stake.—Lefeaux—Revelstoke and Vancouver.

See "The Sergeant" at the Edison tonight.

The nurses at the hospital will not receive on Friday, the 22nd inst.

Call at Mac's Gallery at least once in holiday week.

Mrs. Jack Hume will not receive on Thursday, Dec. 21st.

NOTICE—Hair Work made from combings.—Apply Mrs. Hanson.

Mrs. J. K. Johnson and son arrived on Sunday last from Toronto.

Manning wishes you to particularly note the cheap prices of his toys this year.

The Royal Templars have arranged to hold their meetings regularly from this on in the Oddfellows Hall, where they have rented a lodge room for one year.

The silk scarfes won by Miss Vera Bell at the Catholic Bazaar, were donated by Mrs. Matz, not by Mrs. Lonzo, as was inadvertently stated in our report.

Tea served by the Girls Auxiliary of the Hospital from 3 p.m. Wednesday and Thursday at C. B. Hume's store; Friday and Saturday at the "Sugar Bowl." See posters!

Tea served by the Girls Auxiliary of the Hospital from 3 p.m. Wednesday and Thursday, at C. B. Hume's store; and Friday and Saturday at the "Sugar Bowl." See posters.

W. A. Snider, son of W. Snider, will arrive in Revelstoke on Thursday of this week to spend Christmas here. Mr. Snider represents the Berlin Machine company of Hamilton, Ontario.

In order that the Mail-Herald staff can have a short vacation, the Mail-Herald will only be issued on Saturday of the Christmas week and Saturday of the New Year's week, dispensing with the Wednesday issue of those two weeks.

The annual Christmas treat to the Church of England Sunday school, will be held in the opera house on Dec. 23, from four o'clock in the afternoontill 7:30 in the evening. All interested in Sunday school work please bring refreshments and help give the children a good time.

The Young Ladies' Auxiliary of the Hospital, are raising funds for the purpose of furnishing a children's cot in the Revelstoke hospital, and will serve tea on Wednesday and Thursday at C. B. Hume & Co.'s store and Friday and Saturday at the Surgar Bowl, from 3 p.m., to assist with this laudable object.

YOUR XMAS FRUITS

KOOTENAY AGENCIES LIMITED

See the splendid program at the Edison tonight. World's championship baseball game.

R. W. Hume and Mrs. Hume, of Florenceville, N. B., arrived in town yesterday and will spend the winter visiting their sons here.

In our next issue we hope to publish a report of the Presbyterian church concert, which is held over for lack of space.

Secretary Smythe of the Poultry show, states that he has received a very handsome silver medal from the Kootenay Agencies of this city.

The Revelstoke Hardware Company are now getting settled in their new store in the Howson block, and have a complete stock from a baby's bath to a big steel range.

Chief Dispatcher C. A. Cotterill left Sunday last on a two months trip east. He will visit New York and other points. J. H. Armstrong is acting chief dispatcher during the absence of Mr. Cotterill.

Next week the Sunday school of St. John's church will hold their annual sleigh ride and Christmas tree social. After enjoying the ride the children will meet in the basement of the church, where refreshments will be served.

Lady Lectures

The government is sending Miss Margaret A. Stewart, a Calgary poultry expert, to lecture at Revelstoke at the poultry show time. She will either deliver lectures in cooking using eggs and poultry for demonstration purposes, or will give a lecture entitled "A Woman's Experience in the Poultry Business."

BUSINESS LOCALS

Smythe got 3rd pullet, 2nd pen in Barred Rocks; Buff Rocks, cockerel 2nd, 1st and 2nd pullet and White Rocks, 3rd cock. Mr. F. W. Laing, took all awards in Rose Comb Buff Leghorns. Fred Fleetham took all awards in Silver Laced Wyandottes and Rhode Island Reds.

Phone for Train Dispatching

Last Tuesday at midnight the use of telephones for train dispatching to points west of here was commenced, while phones have been in use for train dispatching east of here for some time. In fact phones are in use from Kamloops to Winnipeg now for train dispatching purposes.

The phone system is claimed to be very satisfactory, as the dispatcher can give his orders direct, without the intervention of a third party. It is, however, very confining for the dispatcher, as he has practically to be at the phone all the time.

LATEST NEWS

Regarding Mail Service on Arrow Lakes

From the following letter it will be seen that the prospects of mail service on the Arrow Lakes is even brighter than as published elsewhere in this issue:

Winnipeg, Dec. 11th, 1911.

F. W. Laing, Esq.,
Secretary Board of Trade,
Revelstoke, B. C.

Dear Sir, Your letter regarding accommodation for mail clerk on the Arrow Lake steamer reached me, and in reply I have to state that it is not the intention of the Post Office Department to put a mail clerk on the run until January 1st, and Mr. Macleod, the Superintendent of the Railway Mail Service at Vancouver, has stated to our General Superintendent there that it would be satisfactory so long as we provided accommodation by that time. The necessary plans have been prepared and Mr. Busteed will go over them with Mr. Macleod so that the work may be taken in hand and completed before the end of the year.

I trust that this will make it clear to your mind that the Railway Company has not failed. ff

Yours truly,
GEORGE BURY,
Vice President and General Mang.

Rev. Mr. Robinson

Rev. F. A. Robinson of Toronto occupied the pulpit of the Presbyterian church at both services last Sunday and delivered two able addresses In the morning he took as his subject, "The Feeding of the Five Thousand," and showed very clearly and sympathetically how even those with few talents might be of great use in the world if only they would devote their powers to the service of their fellow men. The speaker said that his own life had been greatly influenced by an uneducated but devoted Sunday school teacher. In the evening Mr. Robinson spoke on Pilate's treatment of Jesus. Only one course was open to him, but because of cowardice, he allowed a man, whom he believed innocent, to be put to death The man who rejects Christ today, in the face of all the evidence in his favor is practically doing what Pilate did. The quartette sang, "Take Me O My Father" during the offertory. In the afternoon Mr. Robinson addressed the men's meeting at the Y.M.C.A., where his message was greatly enjoyed.

The Late Frank Holten

We regret to have to chronicle the sad death of Mr. Frank Holten, who passed away at Revelstoke on the 18th inst. The deceased was 37 years of age. For a number of years the late Mr. Holten was a miner and prospector in the Lardeau and had a host of friends all over the district, to whom the news of his death will come as a severe shock.

The funeral will take place from the residence of Mr. Charles Holten, tomorrow, Thursday, December 21st, at 2:30 p.m.

Progressive Citizen

Mr. R. Tapping, licensed bill poster of this city is nothing if not progressive, he has just purchased ten thousand feet of No. 26 galvanized non-rustable sheet steel iron. Mr. Tapping says that ere the advent of spring he expects to have one of the most up to date advertising plants in the upper country right here at Revelstoke.

Mr. Tapping has been a keen observer in the progress of Revelstoke for the past twenty-five years and has unbounded faith in the future growth of this city.

12 Lots Only $250.00 Each

Only Two Miles from Post Office
Quarter Down, Balance in 3, 6, 9 and 12 Months

A glance at the statistics showing the marvelousdevelopment taking place in Saskatoon will readily convince you of the great possibilities of this city as a real estate investment. The average increase in Saskatoon Realty for the last three years is 562 per cent. What better interest could you want on your money?

Saskatoon	has grown from 3,000 in 1906 to 20,000 in 1911.	Saskatoon	has nine operating lines of railway.
Saskatoon	for 1911 has doubled the building permits of 1910.	Saskatoon	distributes to 184 thriving towns and villages.
Saskatoon	has over one hundred wholesalers located there.	Saskatoon	will have a Street car system operating next Spring.

The starting of the Street Car System more than doubled in value suburban property in Calgary 2½ years ago. The same thing is bound to happen in Saskatoon next Spring. These lots we are *offering are well situated being close in, adjoining the City Park* and are such exceptionally good value at $250 that we are safe in predicting that they will be worth $400 each in one year's time.
