MISS OLGA ROMAN TAKES THE LEAD IN MAIL-HERALD'S VOTING CONTEST

Contestants Are Receiving Good Support --- Many Subscriptions Paid at Office of Mail-Herald by Subscribers and Credited to Their Favorites

Miss Olga Roman by earnest endeavor has taken the lead in the Mail-Herald's contest. All during the contest and especially during the past ten days the candidates have been getting exceptionally good support from friends who call at the office of the Mail-Herald pay their subscriptions and vote for their favorite

Do not trust your friends to come to the office and vote for you. Go solicit their subscriptions. It is the surest way. Persistent work will win prizes as sure as fate. Those who keep at it until the end cannot fail of a full reward.

What do you tell your friends when they ask you how you are getting along in the contest? It is probably good policy to tell them that you are doing well but expect to do better, but there are lots of other contestants doing well. That's just what the average man is doing, just doing well.

Ever notice that those folks who have a job and are getting their salary regularly, are always doing well? They are satisfied and doomed never to do better. So pretty nearly all of the contestants are doing well. They are getting their votes every day, getting a subscription when they can and letting it go at that.

Wake up, shake yourself. Put the acid test on yourself once in a while and see how you stand it. Be a winner. Ge out and dig. Do better than doing well, and you've won, in or out of the contest.

ARE YOU REALLY SATISFIED.

How many votes have you been getting every day or every week? Now is the time to fight it out with yourself, right now. There are only three weeks more of the contest. Don't be one of those who will say, "well, if I'd of hustled just a little more, I'd have won."

Someone will undoubtedly lose on July 6th for the want of a few votes

Those who will win are not satisfied with their progress, you can depend on that. They are not wasting a single minute. Some of them probably wish there were more hours in the day.

In order to do anything above the average in this world, man or woman, must put every bit of energy possible in their work. It is said that genius is simply the ability to work hard. You never heard of a gengenius with the book worm. The talent cannot be let out on contract.

You can do what you set out to do If you don't succeed in what you attempt. It is your own fault. You have the talent if you only give it a chance.

Those who have entered this contest, and those who will are out to win. If you are in the contest what has happened since you entered, if you have given up the idea of winning. Think it over, and you will find that you began to have doubts of your ability, followed by discouragement, and sort of a mental giving up. You can argue yourself out of success in anything, If you have too many negative impulses in your makeup, your lost. Once in a while your positive side of your nature gets the upper hand and you wonder why you ever doubted your ability to win If you give your positive, your I'll-do-it-side a chance, you can keep the negative down.

Every minute in the day, you are one or the other. The one you favor most will keep upermost in your mind, and if it is the right one, you will become a success.

CONTEST IS REAL CONTEST.

The Mail-Herald contest resembles the battle of life to a great extent—IT IS A FIGHT, and it will be a long time before civilization will make life possible without fighting.

This article has been written with the text in mind, "get the votes." You are the master of your own destiny in this respect. No matter where you live, what you do, who you are, you can get them.

CONTEST MOTTO.

"Hustle, keep on hustling and then hustle some more."

Ladies' Auxilliary Report

The Ladies' Auxiliary to the Y.M.C.A. take much pleasure in presenting a report of the work for the past year, ending March 31st.

On April 11th, 1911, a banquet was held in the Y.M.C.A. gymnasium and from this the sum of $107.50 was realized, on June 3rd, candy and ice cream booth at recreation park, brought the sum of $89.00, and from turkey supper held Thanksgiving night was cleared $166.65, the total of the three making $369.75. Not only were these gatherings a great financial success but they proved a huge social success, especially the Thanksgiving supper when four hundred persons were present, this number included a number of persons of distinction.

During the year curtains have been placed on every beoroom window in the building, a book case has been placed in the reading room. New library table and two chairs have also been added to this room.

The officers are:—President, Mrs. T. Kilpatrick; Vice-President, Mrs. J. Lyons; Secretary, Miss Mae Corley.

The Schuman Club (pupils of Mrs. Herman McKinney) are giving a lawn recital on Wednesday evening, June 19th, from 8 to 10 o'clock, at 6the residence of Mr. G. W. Bell. Quite an elaborate program will be present ed by the pupils. Invitations for this recital are already out.

The Steam Laundry

Carrying on business quietly but steadily and building up an enviable trade is the local industry doing business in Revelstoke under the name of the Revelstoke Steam Laundry. It is a veritable bee hive of undustry The laundry building proper is 60 by 100 feet, with an addition 16 by 40 feet, while the boiler houses and engine room are in additions. The weekly pay roll embraces some sixteen people and the laundry plant has a daily capacity of 2500 pices per day.

Mr. Earl Banoclagh, the manager, has equipped this institution with most complete machinery of modern style, and is prepared to even enlarge his present extensive plant, as soon as his rapidly growing business warrants his still further branching out.

If this city had more local industries like the team laundry, it would help the general business conditions very considerably.

K. OF P. NOTICE.

A Special Meeting of Gold Range Lodge, No. 26, will be held on Wednesday evening, June 20th, at 8 p. m. Special Business. Election of Officers.

G. W. GARLAND, C. C.

PROGRESS CLUB IN ACTION

Plans for City Beautiful---Heads of Canadian Pacific Railway Interviewed re the Future of Revelstoke--- Five Dollars for a Slogan.

There was a good attendance of members of the executive of the Progress Club in the City Hall on Tuesday night, some forty being present.

Vice President B. R. Atkins occupied the chair. Minutes of past meeting were adopted as read.

COMMITTEES.

Mr. H. Manning, as chairman of the special committee to interview the editor of the Mail-Herald— We duly interviewed the editor, who promised that he would carry out our wishes. Several things had been in the way of the Progress Club receiving as much space as might otherwise have been the case, notably the present contest which has been commenced to increase the circulation of the Mail-Herald, and the editor promised to meet our wishes as far as possible; our conversation with him and the manager of the paper, was frank and outspoken and they promised to do everything they could to meet our wishes.

Report accepted and the special committee were thanked for their services and discharged.

Publicity Committee—The standing Publicity committee reported progress.

Finance Committee—Report received, held over for further discussion.

Civic Improvement committee—Mr. H. Manning, as chairman of the committee, reported the committee had an interview with the city council, and were informed the matter would be further discussed in the council and a reply would be given to the Progress Club delegation later.

Mr. Manning then read a letter from the council re the various civic improvements suggested by the deputation to the council.

Mr. Manning—I consider this letter leaves matters practically as they were, and I would like to hear from others on the subject.

Mr. Howson—I consider as individuals we should all clean up ourselves and set an example to others as regards the sidewalks, we have difficulty as sidewalks cannot be laid in cement until the Improvement bye-law has been accepted by the householders and businessmen whose frontage is effected. The city are short of funds and the citizens are not believed to be favorable to a byelaw for improvements to the streets.

Mr. Manning—I think there are some matters which could be attended to without much extra expense to the city, such as for instance the boulevards and certain particular streets.

Ald. McKinnon—Cleaning up has been enforced in some cases with bad results, the citizens some of them members of the Progress Club refuse to stand for compulsory cleaning and the council cannot enforce such regulations in the face of opposition and the opposition comes as much from members of the Progress Club as from any one else. The influence of so many men belonging to the Progress Club, might be used to mitigate these matters by the force of public opinion. Without that influence we can do nothing along these lines, we have tried all these things, and failed.

Mayor Sutherland—I second Ald. McKinnon's remarks, we all realise you are a body which will be an assistance and we are anxious to help you. Some of your recommendations are under way; the hill is to be graded when the sidewalks are in, and the crossings will be fixed. The shacks cannot be removed without certain reasons and as Ald. McKinnon has said your influence is necessary here much more than any legal action which cannot be taken except on definite complaints.

Any assistance the council can give will be gladly tendered. The time is coming when money will have to be spent on these sidewalks; our policy is to put in all new sidewalks of cement, and the Progress Club can help by using there influence towards getting the citizens to pass the requisitions for cement walks. We are trying to make it an offence against the byelaw to spread ashes on the streets which would help to mitigate the nuisance complained of. All waste can be burned in the stove, that is the usual household garbage, and if you all would adopt this plan a lot of the trouble would be avoided

The whole difficulty is one of "lack of funds"

Mr. Miller—I think there is a misunderstanding, some of the council seem to imagine we were criticising.

Mayor Sutherland—No. no.

Mr. Miller—Also it struck me that there was a desire to run the council into expense. We do not ask for anything except that all possible be done to keep the streets as clean as possible, to look after the boulevards if the money is available. A printed request to all citizens to work with the council and Progress Club to work with us in cleaning and beautifying their property in the civic interest. We must work together do our own share and get others to assist in fostering a pride in civic cleanliness.

Mr. Horrobin—Would be advisable to ask the citizens to take a half day holiday, and have a clean-up day; this has been done in other cities with success. We should ask the support of the city council and of every citizen.

Mr. Bell— A clean-up day once a month would not be too much.

Civic Improvement Club to continue their work and report later. Report received and filed.

RAILWAYS AND REVELSTOKE

The Industrial committee reported as follows:—

Chairman Gibson—It is a matter for regret that we are not in a position to give a more definite report; but Mr. Bury's statement "that he hoped to have something good to announce for Revelstoke shortly" must be accepted as very satisfactory and that the C.P.R. view Revelstoke with a friendly eye.

UNION LABEL 341

SATURDAY, JUNE 15th, 1912.

The following article from the Vancouver Sun, shows that the coast people do not like the idea of the Columbia River Grain Route from Revelstoke to Portland:

"That the project advanced to the Revelstoke Board of Trade by the Portland (Oregon) Chamber of Commerce, calling for the dredging and establishing of locks and dams on the Columbia river, making this river thoroughly navigable from Portland to Revelstoke for the purpose of diverting the shipping of the huge grain crop of the prairie provinces from Vancouver to Portland by way of this waterway is an altogether impossible scheme, is the opinion of Mr. A. Erskine, president of the Vancouver Board of Trade.

"They have considered bringing the grain-loaded barges down the river, said Mr. Erskine, but have they considered bringing them back? Leaving the cost of the undertaking which would be many millions of dollars out of the question and take up the expense of towing the empty barges back through this swift waterway.

"The cost would be prohibitive. Personally speaking, I think that the whole scheme is merely talk, and when the facts of the case are looked into and the estimates drawn up it will be abandoned. However, I do not think that either Vancouver or New Westminster will take any action in dredging and improving the Fraser and Thompson rivers to Sicamouse, as suggested in the article, for this cost would also be prohibitive.

"Mr. W.A. Blair, the secretary of the board, is also of the opinion that this scheme is impossible, as he stated yesterday to a Sun representative, that it would be almost an impossibility to perform this work on the river. In some places years would be needed to make it navigable."

The Vancouver people at best, concede that we have the advantage one way—down stream.

In reply we might ask the pertinent question:—Will the grain barges be brought back empty? We think not—we think that they will be loaded to the guards with return freight—mostly Eastern Canadian and British goods coming through in bond to the port of Revelstoke, thence to be reshipped by rail to all points on the prairie. Thus Revelstoke will become a great railway and shipping centre.

The Secretary of the Progress Club has been in communication with the Portland Chamber of Commerce and the different chambers of commerce along with the different boards of trades in the cities that are most intimately interested in the Panama Canal scheme and in view of the important geographical centre and having such an immense water way in our city, which would have a great tendency owing to the short haul on the railways from the prairie provinces for grain to reduce rates, which is going over the Panama route. The Calgary Herald of June 13th, has seen fit to make an editorial of this which we reproduce on another page in this issue of the Mail-Herald.

If the Board of Trade and Progress Club of this city along with the council, will only continue their efforts in showing the greater advantage that we possess here over Vancouver or any other point that has been brought out,as yet, we cannot fail to see where Revelstoke at the head of navigation of the Columbia river, can be passed over, and in a few years hence we will be able to have on the banks of this mighty river a large city. In view of the important convention that is being held in Calgary in connection with this important scheme, it is up to our city to send down delegates from our city who are thoroughly conversant with the practicability of this route to the sea coast.

Elsewhere in this issue will be found a dispatch from Montreal with the important announcement that the C.P.R. is preparing to make an expenditure of some $60,000,000 in double-tracking the main line of the railway through the Rocky Mountains. This statement is the more important as it comes direct from the President of the C.P.R., Sir Thomas Shaughnessy. This statement should set at rest for all time the foolish idea that the railway company contemplate changing the main line to the Crows Nest Pass line.

This double tracking through the mountains will mean considerable for Revelstoke, and the suggestion of the committee appointed to interview Vice President Bury that General Superintendent Peters be interviewed with a view of obtaining certain railway consessions for Revelstoke, is a good one. Now is the time to move in this matter.

In view of the Publicity that Revelstoke is getting through the press of Canada and the United States, we should adopt some Slogan that will make Revelstoke's name a household word throughout the continent of North America.

The Secretary of the Progress Club would like to receive further Slogans so that the Progress Club could decide on the most appropriate one and for which a prize of $5.00 is offered for the one used. Every citizen who has the interests of the city at heart is eligable to send in Slogans.

Funeral of Late Mr. W. Jolliffe

One of the largest funerals ever held in Revelstoke took place last Sunday afternoon when the remains of the late W. H. Jolliffe were laid quietly to rest in the public cemetery. The funeral took place from the home of the deceased on First street as per previous arrangements.

As the deceased was a Forester and also an Oddfellow, as well as belonging to the brotherhood of Locomotive Engineers, each of these three strong organizations were represented. The Foresters pall bearers were, W. F. Cameron and A. W. Connolly, while the Oddfellows were R. D. McDonald and James Mathie, and the Locomotive Engineers were represented by L. Patrick and Fred. Crick.

Numerous beautiful wreaths and crosses were laid on the coffin, sent by the different orders and friends of the deceased. At the grave the last sad rites were performed by the Rev. Mr. Procunier.

The deceased was 32 years of age and unmarried, leaving his father Mr. C. Jolliffe, who is foreman of the painting gang on the C.P.R., besides Mr. Jolliffe senior, the mother and family of brothers and sisters of the deceased were among the chief mourners at the funeral.

The late W. H. Jolliffe was born at Arnprior, Ont., 32 years ago and moved to Revelstoke 10 years ago, where he started in the employ of the C.P.R. as a wiper in the round house. Prior to coming to this city he had filled a position as fireman at McLarenes Lumber mills at Barnet, British Columbia.

The family of the deceased can rest assured that in sheir sad bereavement they have the full sympathy of the community.

WARNING

WATER FOR LAWNS, ETC.

City Water may only be used for Lawns, Etc., between the Hours of 6 to 9 a.m. and 6 to 9p.m.

This Order will be rigidly enforced, and all offenders prosecuted.

By Order,
BRUCE A LAWSON,
City Clerk.

NOTICE

Big Bend travellers please take notice that my place at Carnes Creek, on Big Bend Trail, has been closed indefinitely.

Dated June 4th, 1912.

J. P. KELLEY.

PROGRESS CLUB IN ACTION

(Concluded from Page One)

Dr. Hamilton—I have never heard Mr. Bury speak so confidently as to the future of Revelstoke; your committee who were instructed to take up this hotel as the main feature, were somewhat on the wrong track, as the hotels are managed entirely by another department; Mr. Bury said we must put forward our claims to Mr. Peters and we would receive due consideration; the C.P.R. have spent $60,000 in surveys and we are absolutely convinced this is in connection with the double tracking through Revelstoke and which is bound to benefit our city. I think a special invitation should be tendered to Mr. Peters and he should be taken round our wonderful district. Mr. Bury treated us as a deputation with the greatest courtesy and kindness, and was enthusiastic in regard to the future of Revelstoke.

Report unanimously adopted.

The Entertainment committee reported progress.

MT. REVELSTOKE RESERVE.

A letter was read re the reserve on Revelstoke mountain, from the Hon. Thomas Taylor, acknowledging letter from the secretary and promising his support of the same.

C. R. Macdonald—We find on investigation the plans that the Water Reserve does not touch the National Park Reserve of Mount Revelstoke, and the two matters will have to be handled separately.

Chairman Atkins—It seems to me that this national park is a matter which might be referred to our Dominion member Mr. R. F. Green.

Dr. Hamilton—I have seen Mr R. F. Green en route from Nelson, and he will be here shortly to meet the Progress Club, when all these matters can be put before him, and he will be only too pleased to assist us as he so assured me.

H. J. McSorley—I think we should have an engineer make a survey, so we will know just what we want and can put same before the government accordingly.

Letter from Hon. Thos. Taylor received with thanks and referred to committee.

The Portland, Ore., Chamber of Commerce acknowledged receipt of news matter from "Mail-Herald" re Revelstoke and Panama and offered their assistance and support.—Letter filed

SLOGANS

On motion the time for receiving Slogans was extended for one week, same to be judged by the Publicity committee.

Finance Committee—The finance report was then considered:

Vice President Gordon—I favor some points of this report, and disagree with others; we have done very well so far without Mr. Miller of Calgary or any other paid advisor and I do not agree that we require his services. Also I think a mistake has been made in asking the council for money when expenses are being reduced by that body. Our object is as a club to encourage the citizens to do the work themselves, and not rely on others, we have tonight had some excellent advice from certain members of the city council, they have thrown these things back upon our shoulders where they rightly belong. Any extra funds we need will thus be small and easily raised amongst ourselves. The recommendations made in the latter part of the report are along these lines and are sound.

T. W. Bradshaw—Our idea as a finance committee, in approaching the council for money, was to enable us to secure a paid Publicity agent to push the club. The final recommendations re the increase of membership were intended to assist in the general progress of the club.

Mr. Lyons—The city council are the only persons who can deal with absentee owners and certain other causes of lack of beaty on our streets, and lanes.

C. B. Hume—When it came to a proposal to have a paid publicity man the only way to get contributions from everyone, who will benefit by such expenditure, would be thru' the city council. Our idea in increasing the membership was to get a greater interest among the general citizens. An increased membership would enable us to meet practically all our expenses from our ordinary revenue, provided we do not get a paid publicity commissioner. The best advertising would be a large membership who on all occasions would speak well of our city and its resources.

Ald. Howson—I endorse loading the expense on the city as whole, but we are anxious to keep down our expenses, a mill on the rate would produce $1400 and I am not in favor of this step for the balance of the present year. I suggest we get up a picnic, a monster Progress Club picprofit of $1 on every ticket, or abprofit of $1 on every ticket, or about $500 for the Progress Club.

Chairman Atkins—I have been requested to write a letter describing the attractions of Mount Revelstoke for submitting to Mr. Usher, general passenger agent of the C.P.R., and I submit this to the Club for their endorsation, or otherwise.

On motion Vice President Atkins was unnanimously requested to write the description referred to.

BRITISH MANUFACTURERS.

Secretary Horrobin—The British manufacturers touring Western Canada will shortly be passing through Revelstoke, about July 3rd, and I consider this party should be met and persuaded if possible, to stay off for a few hours here.

Mr. Miller—I support this suggestion.

Mr. McKinnon—They will have to be met before they get to Glacier or they cannot stop off.

A delegation was agreed on to carry out the wishes of this suggestion such delegation to be appointed by the executive.

Secretary Horrobin—Certain other important visitors, including their Royal Highness the Duke and Duchess of Connaught will shortly be passing through Revelstoke and something might be done to get these distinguished persons to stop off here.

C. B. Hume—I am in favor of us trying to get all these personages to stop off at Revelstoke.

Chairman Atkins—We must have some function arranged and same is a fitting matter to be referred to the city council.

Mr. Miller—We have missed these opportunities in the past and we might follow up these things more vigorously in the future.

On motion the secretary was requested to inform the city council as to the approaching visit of their R. H. the Governor General and his Gracious Lady, to the west, with a view to suitable action being taken.

TREASURY.

The Treasurers report showed an increase of membership and a substantial balance in hand.

Chairman—This report is before us from the Finance committee, shall we stand behind it in all particulars including the request to the council, for an extra mill for Progress Club publicity purposes.

Mayor Sutherland—I am afraid this year the estimates are made up and there is not much chance to do so; we do not know whether same would be legal; we have given quite a lot this year through the Board of Trade for advertising and we felt we were not over stepping the mark.

C. B. Hume—The first thing is to decide as to whether we need a publicity man, if not and I am not in favor of same this year, then this rate would not be asked for. With our land question unsettled and the late time in the year, I think we had better let this matter go for a time.

Dr. Hamilton—We, the committee, only asked the council to state if they could do anything to help us provided we would wish to put a Publicity commissioner in here. The council were very reasonable, I do not think the city council are in a position to put a mil on the tax rate this year, I know same would not be legal. We can do a big work in the matter of land settlement, park reserve. etc., without any paid publicity commissioner.

H. J. McSorley—We should secure some building or place of meeting for this club.

Chairman Atkins—The membership question is the most important matter in this report, and some scheme for getting a larger membership should be given to the Finance committee.

C. B. Hume—We, as a Finance committee thought we would all get together at a luncheon or meeting and get every member to pledge himself to bring others into the club.

On motion Clause 1, of Finance Report suggesting the inviting of Mr. Miller to Revelstoke, was laid over.

Clause 2, of finance report, re raising funds by means of ball game. etc was adopted as read.

Clause 3 of finance report, re membership, was referred to Entertainment committee.

Clause 4 of finance report re the requesting of mill rate from city council was laid over.

The finance report as adopted was then received and referred back to the committee.

Meeting adjourned at 11 p.m.

Closing Out

We have decided to close out our business in Revelstoke, and intend to dispose of all the stock we possibly can in the next 30 days.

Right now, at the beginning of the Summer season, you will be able to supply your hot weather needs at remarkably low prices, and you will find some splendid bargains.

Y.M.C.A. ANNUAL REPORT

The annual report of the R.R.Y.M.C.A. was held on Thursday evening, June 6th, in the Gym, luncheon was served by the ladies, after which reports of the year's work were presented. Mr. W. H. Morrion and Mr. D. M. Thomson, gave some very interesting words about the Association work as it is being carried on in other points. Reports as printed below will give some idea of the work being accomplished by the Association.

Annual Report offthe Railroad Young Men's Christian Association from April 1st, 1911, to March 31st, 1912:

Gentlemen:—

In presenting the sixth Annual Report of the Railroad Y.M.C.A. of Revelstoke, it is with delight and thankfulness for the work that we have been able to accomplish during the year that has past.

April 3rd, 1911, the annual gymnasium exhibition took place, the boys were in splendid form, and 350 citizens availed themselves of the opportunity of watching the boys perform.

April the 11th, 1911, a banquet was held in the gymnasium for the purpose of bringing the members together and to create greater interest; Supt. Kilpatrick occupied the chair, and addresses were given by Mr. J. M. Graham of Vancouver, and Mr. J. M. Dudley of Montreal; the Ladies' Auxiliary had charge of the banquet.

During the month of May two events took place; the annual meeting of the Association and a lecture given by Mr. C. Adams of the Henry George Association.

June 3rd was red letter day. The Association held their annual Field Day on the recreation park— three outside teams were brought into town and a large crowd assembled to enjoy the sport. The ladies of the Auxiliary served refreshments on the grounds.

The biggest event of the year took place on Thanksgiving Day when the ladies served a Turkey Supper in the gymnasium. Over 400 people sat down to supper and the members of the City Band favored us with some musical selections, and Lord Desboro was our honored guest.

On October 9th, 1911, the Board of Directors signed an agreement with Messrs Foote and Pradoloni, contractors, to erect an addition and to make alterations to the present building. The work was carried on at a smart pace under the supervision of Mr. W. W. Wallace, architect and the building was completed by the end of the year and the opening day was January 1st, when performances were held afternoon and evening, under the able leadership of Mr. Percy F. Gifford, physical director.

The new addition has given us larger dormitory space, more lobby space and a splendid billiard room; also new heating plant has been installed and fire protection to two points in the building thus making our Association one of the best in the Interior.

The $8,500 received from the C.P.R. company on mortgage for building purposes was carefully handled, although the addition and improvements cost $8,846.35, leaving a deficit of $346.35, which to raise to clear us of debt..

Through the kindness of Mr. F.M. Black, treasurer of the P. Burns & Co., Calgary, we were successful in securing $500 from Mr. P. Burns;$250 having already been received. A letter of thanks was forwarded to Mr. P. Burns for his generous gift, which will enable us to pay part of our present indebtedness amounting to about $400.

The fire insurance on the building has been raised from $9,000 to $13,000. Interest on the present loans in banks have been paid for the last quarter.

One of the most needful things in connection with the Association is now well in hand, that of a circulating library, all arrangements have been made with the circulating librarian at Victoria (government) to forward one hundred books to Revelstoke Y.M.C.A., for the use of the public, under special rules; it is also suggested that we appeal to the members to give a donation of one book so as to fill the entire book case which has been erected in the board room for that purpose, which the ladies paid over $50 for. Let us show the ladies how we appreciate their good work by filling the large book case which will hold 500 volumes.

The CfP.R. employees made splendid use of our Directors room for their First Aid work.

Our physical work for the year has been encouraging, the classes being well attended, under the direction of Physical Director Gifford.

The religious work of the Association is worthy of note:—thirty-one meetings held for seven months, attendance at some 1230. Boy's Bible class—Sessions held, 24; attendance, 223.

We would like to see this department of our work for the coming season well organized, as the men enjoyed the services and we ought to aim to invite every man to come and take part in the work.

Membership — Although we have made several attempts to raise our membership to 500, we have not accomplished that end, as we have only practically 365 paid up members; yet we have not given up the effort, and we appeal to every member present to arouse himself, and get ready for the new scheme which will be launched early next fall, just think for a few moments and go over the young men you know that don't belong and write them down and when the campaign is getting prepared, come with the names and jump into the game and assist in gathering them in, the Association is what the members make it, let us make our Association "the best."

In closing, we appeal to every young man and boy in Revelstoke to come and secure a visitors ticket given to those who wish to partake of the privileges for one week without charge, so as to see for themselves what inducements the Y.M.C.A. is giving for the betterment of men and boys.

Again thanking the members for there interest and subscribers for their financial aid in assisting the Association.

Yours respectfully,
ROBERT HOWSON,
Chairman.

Annual Report of the Physical Department for the year from April 1st, 1911 to March 31st, 1912.

The work of this department was under the supervision of Mr. H. B. Monroe, and many successful events took place.

April 3rd a large number of citizens assembled in the gym to see their daughters and boys perform at the annual exhibition.

May month brought the baseball enthusiasts out and a preliminary schedule was drawn up, all games were played and 289 men participated. On June 3rd our annual field day was held on the recreation park, the entire day being taken up with athletics, and three outside teams were brought in to create greater enthusiasm, viz, Kamloops, Comaplix and Vernon. Ladies served refreshments on the grounds.

July, August and September, were quiet months.

Mr. H. B. Monroe tendered his resignation early in July and was accepted. After some negotiations with several of the leading associations, the secretary was enabled to get in touch with Mr. Percy F. Gifford, of Fort William, and at the summer camp closed the deal. Mr. Gifford commenced duties about the 18th of September, 1911, the classes were then organized, and the boys put to work.

Mr. Gifford is doing splendid work among the boys, two junior classes being formed, and a boys Bible class being held every Sunday morning enrolled 22.

Occasionally a free-for-all day has been promoted, that of giving the boys in town that do not belong, a chance to run around in the gym for an hour or two, the boys certainly enjoy them.

Another new scheme was presented by Mr. Gifford to the directors, that of an arts and crafts exhibition. Every boy in the city was given an opportunity to make something and put it on exhibition. The exhibition was held in April when some splendid work was shown in the gym, although we were disappointed in the number of boys exhibiting.

January 1st, 1912, open day, two performances were given, splendid work was done, and a good game of basket ball was played between the J.B.C. and Intermediates. Twenty two snowshoe tramps were held, and a Junior sleigh ride was given.

February every boy was taught to swim. Snowshoe tramps, one bike, and one free-for-all day.

March month, Dr. Brown, of the Physical department of the International committee of New York, gave a splendid address of the work in connection with the Physical department, at a luncheon given him in the board room, twenty men were present, and were sent home with a greater vision of the association work in general.

All round championship tests were held in the gym and swimming pool.

This brings the report of the Physical department to a close, and we trust that we shall be enabled to do greater work this year, and that we may take a greater interest in the work to build men and make them clean.

Chairman, Physical Department

Annual Statistical statement for the year from April 1st, 1911, to March 31st, 1912:

	Total	Av.
Attendance at rooms	30,542	83
Rest rooms, time used	4,614	12

IT WAS STONE IN THE BLADDER

GIN PILLS PASSED IT

"Five years ago, I was taken down with what the doctors called Inflammation of the Bladder—intense pains in the back and loins, and difficulty in urinating, and the attacks, which became more frequent, amounted to unbearable agony. I became so weak that I could not walk across the floor.

My wife read in the papers about GIN PILLS and sent for a box. From the very first, I felt that GIN PILLS were doing me good. The pain was relieved at once, and the attacks were less frequent.

In six weeks, the Stone in the Bladder came away. When I recall how I suffered and how now I am healthy and able to work, I cannot express myself strongly enough when I speak of what GIN PILLS have done for me". JOHN HERMAN, Hamilton, Ont.

Regular size, 50c. a box, 6 for $2.50 —at all dealers. You can try them free by writing for a free sample to National Drug & Chemical Co. of Canada, Limited, Dept. W Toronto. 88

NOTICE.

Canadian Pacific Railway Company,
Vancouver, B. C.

There are no dead flies lying about when

WILSON'S FLY PADS

are used as directed. All Druggists, Grocers and General Dealers sell them.

Just Hold the Gillette Naturally

Shaving with the GILLETTE is not a fine art, nor does it require skilled labor. You may be "no good with tools," yet you can shave yourself easily and well with the Gillette Safety Razor.

Hold it lightly, as illustrated, and it falls naturally into the right shaving position, blade edge just touching the skin. Then draw it across the face, not hoe fashion, but with the Angle Stroke shown, and the keen GILLETTE blade will cut smoothly in any direction—with the grain, across it, or against it.

If you want a light shave, or if your skin is tender, screw the handle tight.

If you want a close shave, loosen the handle about a quarter turn. This allows the blade to spring away from the guard a little and take more hold. Buy a GILLETTE and forget your shaving troubles.

Standard Sets, $5. Pocket Editions, $5. to $6. Combination Sets, $6.50 up. 366
At your Druggist's, Jeweler's or Hardware Dealer's.

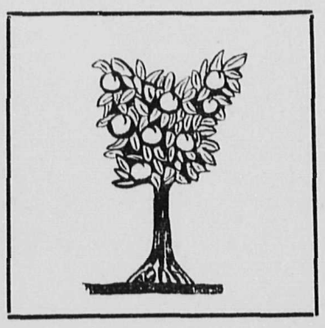
MALAKWA NOTES

Parties desiring information regarding the Valley of the Garden of Eden, can obtain same free of charge by writing to Mr. J. H. Johnson, Malakwa, B. C.

(Continued from last Issue.)

In quicker time than it takes to describe it, the enemy was made to lick the dust. His carcas was then triumphantly carried to a suitable open space where several photographs of the victorious band were taken by Mr. Coppock and Mr. L. Johnson — two gentlemen who in no small degree have lately distinguished themselves in the useful art of photography.

When the bear party disbanded it was the unanimous opinion that the sport of the day had been a source of mutual enjoyment, pleasant diversion and social intercourse—a welcomed break in the ordinary routine life of "the trivial round and the common task." Laboring, as they do, in this promising part of British Columbia, where ardorous toil is of the first necessity in order to publicly bring to view its latent natural resources and many agricultural advantages, the settlers of Malakwa are all the more needy and deserving of healthy sports and wholesome pleasures, for which this valley supplies abundant scope, and those who work the hardest know best of all how to enjoy themselves. We would emphasise for the benefit of prospective buyers and intending settlers that this charming valley is by no means a place of "all work and no play" for on all sides there is demonstrated both the "dignity of labor" and the "social instinct"—in fact every part of man's complex nature can find a plenteous source of ministration and satisfaction in the Valley of the Garden of Eden.



The Valley of "The Garden of Eden"

Situated at MALAKWA AND CRAIGELLACHIE, B. C.

Just 32 Miles West of Revelstoke, and Extending between Sicamous Junction to Three Valleys Station

Area of First-Class Land---20,000 Acres

Character of Land Principally Level.

Character of Soil Bench Lands, Clay Loam and Vegetable Mould, while on Lower Lands Black Loam Prevails.

No Irrigation Positively no irrigation is needed as Valley is sub-irrigated, and many creeks supply water for Domestic purposes.

This Land is specially adapted for Large and Small Fruits, as well as Hay and Vegetables.

Moderate Climate Freezing is Average Winter Weather.

PRICES OF LAND REASONABLE

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each applicant must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to the Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

COLUMBIA RIVER GRAIN ROUTE

Columbia River Grain Route (((((((

We reproduce the following article from the Calgary Herald, which may be of interest to our readers :

"The people of Revelstoke, in cooperation with the Portland chamber of commerce, are agitating to have the navigation of the Columbia river improved so that the grain and other products of the great plains of Alberta and Saskatchewan may be floated down its broad waters in barges from the head of navigation at Revelstoke to tide-water at Portland, Oregon, there to be transferred to ocean vessels and taken through the Panama canal to the markets of the world.

"This means that the people of Revelstoke will intercept the grain and other products of Alberta and Saskatchewan while in transit to the ports of the Pacific coast and divert it down the Columbia river water route, and thus effect a saving to the Alberta farmer of $3.30 per ton in freight and $1 per ton in (free) tolls through the canal, or a total of $4.30 equal to nearly 13 cents per bushel.

ONLY ALTERNATIVE.

"It means that in order to meet the cheap water route competition of the Columbia river the people of Vancouver and other coast cities will have to combine and in self-defence, develop a waterway of their own. The Fraser and Thompson rivers will have to be improved by a system of dams and locks, so that barges can be taken from tidewater away up into the interior—to Revelstoke or as near Revelstoke as possible, say Sicamous—and then by offering a shorter route and cheaper rates endeavor to offset the advantages possessed by the Columbia river route, and thereby capture at least a fair share of the trade of Alberta and Saskatchewan.

"It means that unless the Canadian coast cities bestir themselves and at once improve their own water route so that barges may be taken from tide-water, via the Fraser and Thompson rivers, to Revelstoke— or near Revelstoke, say Sicamous—that much of the trade of Alberta and Saskatchewan will not come further west than Revelstoke, and will be lost to Vancouver and other coast cities."

And when the grain laden barges come down the Fraser river, will they stop at New Westminster or be towed around from the mouth of the Fraser river, through the stormy water of the Gulf of Georgia to Vancouver? We think not—we think that the barges will be towed thru' the sheltered channels of the coast Islands to the harbor at Victoria, and there loaded on to the big 1000 ft. ships drawing 46 ft of water and which cannot be safely taken to either Vancouver or Westminster, on account of the cross-currents, tide-rips and dangerous shoals that exist in the narrow channels on the way to Vancouver and New Westminster. Then there are the delays from fogs, the extra insurance risks and the pilotage dues to be taken into account, thus Victoria, will become the only safe deep-water port on the Canadian Pacific coast.

COMING EVENTS

June 24—For one week, National Stock Company, Empress theatre.

October 7—Managing Mildred Opera Co., Empress theatre.

See the Revelstoke Hardware Co.'s advertisement for bargains in screen doors and windows.

WATER NOTICE.

Notice is hereby given that William Blair Robertson, of Revelstoke, B.C. will apply for a license to take and use (15) fifteen Miners inches of water out of Cariboo Creek, which flows in a southerly direction through T. B. 39373 and T. B. 43026, and empties into Downie Creek, about two miles from its mouth, Columbia River. The water will be diverted at a point 1½ miles north of Downie Creek, and will be used for domestic purposes on the land described as Lot 10499, Revelstoke Land District.

This notice was posted on the ground on the 4th day of June, 1912. The application will be filed in the office of the Water Recorder at Revelstoke, B. C.

Objections may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C.

WILLIAM B. ROBERTSON.

Per Andrew Kitson, Agent.

GETS HIGH-WAYS MEDAL

New Westminster, B.C., June 11—After an exhaustive examination lasting over two weeks the judges selected to award the prizes in the Canadian Highway Association Essay Competition on "What Good Roads Mean to Canada" have today submitted the report to President W.J. Kerr, donor of the gold, silver gilt, and silver medals.

The winner of the first prize is S. Cleman, of 262 Major street, Toronto whose paper is exceptionally good for a boy under eighteen. The second prize winner is Albert Watson (17) of New Westminster. David Teviotdale (14) 32 Bellamy street, Edmonton, and Christine Lanoville (under eighteen of South Vancouver, tied for third place, and will each receive a silver medal. Next in order of merevnor it came Mable Eyres (15) 860 Grosvenor avenue, Winnipeg, Gladys Guild, (14) 529 Sinclair street, Edmonton, Leonard Murchison (16) Harriston, Ont., Velma Welch (16) 842 7th avenue, west, Vancouver, Bessie Fraser (15) 264 Eleventh street, Edmonton, Annie Shore (15) North Vancouver.

The interest taken in the competition exceeded all expectations, no less than 462 essays being received from Canada, and quite a number from England, including nine from the Park street school at Brighton.

The majority of the essays reached the office of Secretary P.W. Luce on May 14 and 15, some of the papers coming in by express, others by parcel post. Several schools sent in from ten to thirty essays, evidently the best of a number written by the students of that institution.

The judges were Messrs. J.W. Bunningham, B.C., editor of the British Columbian, a graduate of Toronto University, and for several years a teacher in Ontario schools; Mr. Chas. A. Sutherland, a newspaper man of many years experience, and P. W. Luce.

A large number of essays were thrown out on the first reading, and they gradually dwindled down until about 70 papers remained. These were carefully considered by the judges, and the best eleven picked out. Mr. Cleman's essay was easily first among these, but the difficulty arose in awarding the second and third prizes. Each paper was critically examined, and the judges finally decided on the awards as above mentioned. In addition to the medals, President W. J. Kerr announced some time ago that he would give a silver souvenir pin to every entrant whose essay attained a certain standard of merit. Seventy of these pins will be awarded, including one to the youngest essayist, Master Thomas Bird, who has been nine summers on the west coast of Vancouver Island.

The following essay won 1st prize, and was written by a Toronto lad under 18 years, we reproduce it here with:—

"WHAT GOOD ROADS MEAN TO CANADA."

The Carthaginians were the first people to make systematic practice of road-building, but no nation derived so many various benefits as that of Rome. Great and wonderful are the monuments that perpetuate the name of Rome and everything connected with it, but none are so famous as her roads. Rome's military, commercial and imperial success was due, primarily, to her splendid system of highways, the relics of which extend from the Pillars of Hercules to the Temple of Jerusalem. But the Roman road-makers have a far more important lesson for Canada. The world will, for all time, remember the message of Christ, which was delivered to humanity through the medium of the Roman roads. There are thousands of people existing in hamlets scattered throughout Canada, who are awaiting religious instruction. They will not emerge from their semi-barbarous state until the "Good Roads Movement" has won its way into every nook of this new country.

The attendance to the rural meeting place is diminishing; the attendance to the school-house is dwindling friendship is being severed with the neighbor living a short distance away; and with the person to whom you regularly send a letter; and the village preacher is being discouraged. What is the reason for this? Impassable roads and nothing else. Country communities are not going to wade through mud to post a letter, to go to school, to go to church, or to visit a friend, neither will they suffer their horses to attempt it. They will not be pestered with doctor's bills because the road is transformed into a quagmire. Rural inhabitants are being degraded educationally, socially and morally, country folk are not migrating to cities because they don't like rural life, but because the roads, if they may be called so, are impassable. These people are intelligent enough to see that all the discomfort and prevention of social enjoyment is due to the lack of good roads. Here lies the greatest lesson of the Roman road-builders. You cannot estimate in dollars and cents the national loss entailed by the constant withdrawal of labor from farms, and by the fading of the influence of the character-building institutions of the country.

Bushnell, a great American thinker says:—"If new ideas are abroad, new hopes arising, you will see it by the roads that are building." Simultaneously with the movement for the need of good roads arises one far-reaching idea, even more profound than the enhancing of land values. It is the social betterment by which Canada is playing a distinguished part in the uplift of the world.

Now we turn to the meaning of roads in the economic sphere. Is it a good business policy? Canada's manufacturers, men of commerce and business admit that Canada needs such a policy, but because they cannot see any solid, unrestricted and available gain that would accrue, they don't care. The cost of a breakfast roll would be trifling did it not cost the farmer eighteen cents a bushel more to transport wheat nine miles to a railway station than it did from New York to Liverpool, a distance of three thousand one hundred miles. The cost of a boiled egg is the payment of transportation from the hen to the household. The intrinsic value of the egg is a mere trifle compared with the expense of carriage through two feet of mud.

Over the deep-rutted roads, as they exist at present, a farmer can haul, on an average, six hundred pounds in five hours with two horses. If good roads were constructed, however, it has been calculated that one horse could draw twelve hundred pounds and more in two hours. Not only would the farmer save time, conserve his energies, make better use of his vehicles and horses and thereby save money; but the consumer, too, would receive his needs at lower prices. And as Canada's agricultural production is annually increasing by leaps and bounds, a greater proportion of money would be saved by all classes of people year by year; and, probably, the high cost of living in the urban districts would recede to the normal.

"It costs the average Canadian farmer two dollars a ton to haul his produce to the market town, to the railway station or lake port. It is known that the production of field crops alone amounts to about 40,000,000 tons a year. It would be moderate to estimate that 25,000,000 of this tonnage is hauled over roads one way or another; so we have $50,000,000 as cost of teaming field crops by the farmers. This cost could be reduced if we had first-class roads, to $20,000,000, a saving of 60 per cent leaving $30,000,000 as a saving on one class of product alone."

The building of good roads would increase the value of taxable lands not only in the vicinity but also in the most remote parts. Stupendous amounts could be collected in taxes and the assets of the nation as well as the landlord would increase. New towns would spring up; new railway branches would be built; and Canada would be settled and developed at a miraculous rate.

Our convicts could be profitably employed building roads. Of course, it is useless to have them constructed unless carried on in a systematic and scientific way. The roads must be "graded, topped and rolled.." They should be constructed so that water will quickly drain off and so that the greatest applied pressure will not force upon the foundation and cause mud to ooze up and ruts to be renewed.

Well-constructed roads shorten distances by reducing the time to travel. They would give rise to a further exploration of sparsely settled districts and would result in the discovery and shipping of more mineral and timber wealth.

I feel confident that smooth hard roads would mean more to Canada than any other project. I believe that a remarkable awakening, a renaissance would take place. The economic and national advantages that would ensue are incalculable. The energetic settlement and development of Canada would sell the treasury and the country would enjoy an era of prosperity unequalled in its history. Good roads in Canada would mean a higher standard of citizenship; a people pervaded by education and good morals, and a better understanding and a mutual sympathy between the diverse peoples in the Dominion.

S. CIEMAN.

REID & YOUNG

BORN

WATKINS—To Mr. and Mrs. William Watkins, on the 13th inst, a daughter. This was the first colored child born in Revelstoke. The child will be named Cecil Revelstoke Watkins.

THE CITY IN BRIEF

Oil stoves, the best makes, buy one and avoid the hot kitchen in summer. A choice assortment at Bourne Bros.

Cable advices from England give, among the King's birthday honors, the Premier of British Columbia and the Premier of Manitoba, who have both been knighted—Sir Richard McBride and Sir R. P. Roblin.

Mr. C. B. Paget has returned from Beaton, where he was visiting his son E.W.B. Paget. Mr. Paget says that the rain has worked wonders in the Beaton district. Mr. Paget junior, has 300 acres of land at Beaton.

As P. LeBlanc, was driving his team through an alley in the city one day this week, his mare had the misfortune to fall into a cess pool. This is a practical proof that at least one cesspool in the city is not in a safe condition.

At St. Peter's church tomorrow, Rev. J. A. Miller, of Riverdale church, Toronto, will speak both morning and evening. At the evening service Mrs. H. W. McLeod will sing "Abide With Me" and Mr. Allan Thomson will sing "Drifting."

Quite a stampede to French Creek is now on, the result of the news by three prospectors which are reported to have found gold in one of the channels of French Creek. The pay is reported to be $50 per day for three men, and the pay streak is within 18 feet to bed rock.

The Kootenay Agencies are exclusive agents for "Claralta" subdivision, Calgary. This valuable property will be offered for sale for a few days only. See the oil painting in their window, this is a truthful portrayal of Calgary, showing the location of the lots for sale and their relation to the heart of the city. Many Revelstoke residents have seen this property and over two hundred lots already sold in this city.

In the Baptist church on Sunday, Rev. E. J. Chave will speak on the following subjects:—Morning, "The Door into Life"; evening, "Phillip and the Eunich." Sunday school meets at 9:45 a.m. for the summer months. The pastor will give five minute addresses to the children at the beginning of the morning services. Next Sunday the first of a series on "Boys and Girls of the Bible" will be on "David, the Shepherd Boy."

SEEDING TIME

As the time has arrived when you must do your seeding, we wish to draw your attention to the fact that our seeds are all fresh and new stock—not any old ones left to sluff off. Our Onion sets are the best, either the Dutch Set or the Multipliers.

See our window of Meat snaps and Oil stoves. Hot weather specialties, Bourne Bros.

Sunday School Convention

Revelstoke District Sunday School convention will meet in this city on Wednesday evening the 19th inst, at St. John's church. On Thursday evening there will be a session in the Methodist church.

Rev. I. W. Williamson, general secretary for the province and Mr. W. C. Finlay of Vancouver, will be present and address the meeting, as well as several local speakers. There will be special music for each service, at the close of which a collection will be taken up, there being no admission fee. The Revelstoke district extends from Three Valley to Field, and from Revelstoke to Trout Lake. It is hoped that these outlaying districts will be represented at this convention.

It is also requested that each of the local Sunday schools will send delegates to this convention. No one can deny the great work that the Sunday schools are engaged in, this being the case let those interested in the good work make a point of being present at this important convention.

Panama Canal

The following editorial appeared in the Calgary Herald of the 13th inst:

AN INTERIOR WATERWAY.

Revelstoke is waking up to some of its possibilities. The people of the town are discussing the practicability of making the Columbia river navigable as a trade route to the United States to the south, and Portland, Oregon, is out to back the scheme, suggesting that the influence of the Panama canal on interior transportation throughout the continent is worth the attempt. Portland goes further and is enthusiastic. It argues that "it is possible to make the whole Columbia river navigable from the ocean to Revelstoke at no greater expense than has been incurred in making the Ohio navigable the year around for great fleets of coal barges. The wheat of Alberta and Saskatchewan could then be hauled by rail to Revelstoke and thence brought by boat to Portland, where it could be trans-shipped to ocean vessels for the foreign market. The canal will so reduce the distance between here and Liverpool that, although that distance will still be greater than from Montreal and the proposed ports on Hudson's Bay, the fact that Portland is ice-free while the Canadian ports are closed by ice during a large part of the wheat-shipping season would certainly secure to Portland a large share of the traffic of the Canadian wheat belt. Such an improvement would be in line with the policy of making railroads feeders to waterways which has been so powerful an instrument in the industrial development of Germany. Fleets of wheat barges would come down the Columbia which would match the coal fleets which descend the Ohio. The Canadian Northwest would be relieved of the traffic blockade which recurs in every year of good crop."

Calgary has not commenced one minute too soon its agitation for a Panama conference.

The Union Jack

Ottawa, June 6—There has been some controversy of late as to the actual flag of Canada. The matter is settled by the following dispatch received from the secretary of state for the colonies by his royal highness the governor general.

"Sir—I have the honor to transmit to your royal highness a copy of a letter in regard to the flag which should be used by private persons who are British subjects.

"I should be glad if you would be good enough to cause the public to be informed that the Union Jack is the national flag of Canada as of all other parts of his majesty's dominions and may be flown on land by all British subjects and that the red ensign with the arms of the Dominion of Canada in the fly is intended to be used only by Canadian merchant vessels."

Y.M.C.A. Athletic Meet

On July 1st the Sports Committee of the Y.M.C.A. intend holding a monster athletic meet, which will include baseball, football, tug of war, running, jumping, etc. It is the intention of the committee to spare no pains to make this meet a success the prizes will be the best that can be secured. The Revelstoke City Band will be in attendance.

Following is the list of events:

JUNIOR EVENTS.

100 yards, 100 yards final, running high jump, 220 yards, running broad jump.

SENIOR EVENTS.

Shot put, 100 yards, 100 yards final, running high jump, 220 yards, 3 mile handicap, pole vault, 440 yards relay, 4 men team, running broad jump.

An entry fee of 25c. will be charged for seniors, and 15c. for juniors. Entries may be had from Percy F. Gifford, Y.M.C.A., Revelstoke. All entries must be in by June 29th.

C.P.R. Double Track

Montreal, Que., June 11—Sir Thos. Shaughnessy this morning announced that plans are preparing and surveys are in progress for dauble-tracking the Canadian Pacific through the Rocky Mountains at an estimated cost of $60,000,000.

The above announcement by President Shaughnessy means, without a doubt, that the C.P.R. is preparing for the great business it expects to reap from the completion of the Panama canal. In connection with his statement that the line to the coast will be double tracked it is said the company contemplates the reduction of the grade and the elimination of curves on the present main line to a considerable extent.

WATER NOTICE.

For a License to take and use Water

Notice is hereby given that James A. Shields, of Revelstoke, B.C., will apply for a license to take and use Fifteen (15) Miner's inches of water out of Caribou Creek, which flows in a southerly direction through Timber Limits 39373 and 43026, and empties into Downie Creek about two miles from the Columbia river. The water will be diverted at a point about one and a half miles north of Downie Creek trail and will be used for domestic purposes on the land described as Certificate of purchase 413 Revelstoke Land District.

This notice was posted on the ground on the 4th day of June, 1912 The application will be filed in the office of the Water Recorder, Revelstoke, B.C. Objections may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C.

Others Are Making Money! Why Not You?

Just read of a few instances of how successful our clients have been in recent investments recommended by us. We made for one Revelstoke man in five weeks on

A Cash Outlay of $375; A Net Profit of $475

Another client, investing 120, made a net profit of $100 in four weeks, and two other men in six weeks on an outlay of $285 each, made a net profit of $265 each. We have made good money for the Revelstoke businessmen.

WE CAN DO THE SAME FOR YOU

Last week we sold out the balance of our 175 dollar lots in Moose Jaw and have secured a few more closer in at the original price of $200 each, which our sales manager, who has just returned from Moose Jaw, informs us is at least $50 under market value. Two new railroads, locating in the east end, are causing big advances and we are expecting a big price advance very shortly.

These Lots are Only One and a Quarter of a Mile East of Post Office.
They Are Recommended By Us As a Bargain

AT $200 EACH
