T. P. O'CONNER VISITS B. C.

Mr. T. P. O'Connor, M. P., one of the most forcible and prominent speakers in the British House of Commons and champion of the Irish party, passed through the city on Monday in a special train en route for the west. Few there are, who have not read T. P.'s Weekly, one of the leading weekly journals in England, of which Mr. O'Connor is editor and proprietor, containing many brilliant articles on live every day topics.

In a brief interview, Tay Pay told tke representative of the Mail-Herald that this was his first visit to the west and that he could not describe in words what he thought of Canada and her possibilities. He was touring Canada on behalf of the Irish Home Rule party, and during his many visits to Canadian cities he had received strong sympathy and support. The only drawback, he said, were the Orangemen in some parts and even some of them had sided with him in his policy. Mr. O'Connor briefly touched on the political situation in England, affirming that Home Rule for Ireland would soon be consummated. He asked a number of questions regarding conditions generally in the west, and took great interest in the description of Revelstoke and her many industries and resources

Mr. O'Connor will make a brief stay on the coast, where he will lecture before the Canadian Club, making his return through the United States.

Noted Pugilist Shot Dead

Springfield, Mo., Oct. 18.—Stanislaus Kiecal, better known as Stanley Ketchel, middleweight champion pugilist, the victor of many fistic battles, was shot and fatally wounded on a ranch five miles out of Conway, Mo., where he was recuperating at 6:30 o'clock Saturday morning by Walter A. Hurtz, a quarrelsome ranch hand.

The shooting took place while Ketchel was eating breakfast at 6:30. There were no witnesses and as Ketchel almost immediately lapsed into unconsciousness the exact events leading up to the shooting could not be learned.

Hurtz was recently employed by Mr. Dickerson and little is known of him. Hurtz and Ketchel exchanged words last night. Hurtz retired in an ugly mood, but nothing was thought of the matter. This morning Ketchel was seated at the breakfast table alone, when Hurtz entered the ranch house and pointing his rifle at the fighter, demanded:

"Throw up your hands."

Ketchel was taken by surprise, but apparently remained cool. Instead of complying he arose. His back was half turned toward his assailant, when Hurtz, but a few feet away, fired.

The bullet struck Ketchel below the right shoulder blade and, as it developed later, ranged upward, entered his right lung.

Ketchel fell to the floor. A moment later Charles Bailey rushed in from another part of the building. Hurtz was just disappearing through the doorway.

"He shot me," said the prostrate fighter, as he feebly pointed in the direction taken by Hurtz, After relating briefly the details of the affair, Ketchel laksed into unconsciousness. Hurt(disappeared from view in a heavy timber along the Osage river bottoms.

Later—Walter A. Hurtz, who shot and killed Stanley Ketchel on Saturday was captured Tuesday at the home of Thomas Haggard, one mile from Niangua, Mo. Hurtz was taken to the Webster County jail at Marshfield, where he is being closely guarded. After being placed in his cell the prisoner made a confession in which he declared he shot Ketchel in self-defence. He said he ordered the prizefighter to throw up his hands and fired when Ketchel refused to obey.

Hurtz, in telling the story of the shooting, asserted that Ketchel made insulting remarks to Goldie Smith a cook employed at the farm. He said the words which passed between Ketchel and him demanded that the pugilist throw up his hands. When the champion refused to do this, Hurtz declared he was so frightened knowing Ketchel carried a revolver, that he fired, and, without fully realizing what he had done.

Goldie Smith, the woman in the case, has been taken to ehe Webster County jail and will be held pending an inquest, which will be held during the day.

Funeral services over the body of the fighter were held at the Elk's club here and the corpse will be taken to Grand Rapids, Mich., the home of Ketchel's parents. The pugilist died in the Springfield hospital, to which he had been rushed from Conway on a special train.

NEW POWER PLANT

Full Statement of Cost will be Made Public Saturday

The work at the new power house is being pushed forward as rapidly as possible so as to have the new plant in operation at an early date. The new generators and other machinery has arrived at the power house siding and is being unloaded, the engineers stating that the entire new plant will be in operation in about thirty days.

The department of the water and light of the city council have informed us that a full statement of the cost of the new development of water and power derived will be made, which we will publish in next Saturday's issue, which will also show the revenue to be derived from the new plant. It is only fair that the public should know just where their money has been expended and the exact nature of the new plant, and what has been done, as it is probable that another appropriation will have to be made to complete the work.

Distingsisked Visitors

A distinguished party passed thru' here last week en route for Vancouver, consisting of His Highness the Crown Prince of Hess, a relative of the Kaiser, and his suite.

He is travelling incognito es Baron Godendorf. His party comprises Baron Schenck, an aide-de-camp to the Emporer of Germany, who especially delegated him to accompany the prince on his foreign trip, Baron Riedessel, Mr. L. Garbau and Mr. L. O. Armstrong, colonization agent of the C. P. R.

It is understood that one result of their stay in the Columbia River Valley near Windermere will be the investment of considerable capital in a large tract of land. The deal has not yet been closed.

The Crown Prince of Hess and his friends expressed themselves as delighted with the glories of the interior of British Columbia. In all their travels they saw no scenery to ival the views they feasted their eyes upon for days in the Columbia River Valley south of Golden. They were also impressed with its possibilities as a ranching and fruitgrowing region. Members of the party enjoyed a successful hunt, shooting a large bear and two goats. They ascended a peak which is situated 10,300 feet above sea level and obtained a view of a series of snow-capped mountains stretching in the distance of sixty or seventy miles.

Much enthusiasm was expressed at the fine scenery in the vicinity of Revelstoke.

Starts in Dirigible

Atlantic City, N. J., Oct 18.—The long delayed attempt of Walter Wellman, journalist, aeronaut and explorer, to cross the Atlantic in a dirigible airship was begun on Saturday morning at an early hour when his balloon, the America, disappeared to the easteard in a heavy fog. At 11.05 the wireless dispatch from the America was received here. "Headed northeast," it said. "All well on board; machinery working fine. Good-bye. J. Irwin."

New York, Oct. 19.—A wireless message to the New York Times from Capt. Dowd of the Royal Mail steamer Trent says that the Trent picked up Wellman and the crew of the dirigible balloon America at 5 o'clock yesterday morning. The airship had been abandoned. The rescue was made in latitude 35.43, longitude 68.18.

CITY COUNCIL

A meeting of the city council was held on Friday night last. Among the principal matters taken up was a request from the Board of Trade, in regard to the conservation of the city water supply and asking if anything had been done. The city clerk was instructed to reply thgt the city engineer would attend to it at once.

The Cummings Transfer Co. asked for a crossing on Second street into their stable.—Granted.

H. S. Clark, of Cranbrook, ask?d for information as to the advisability of his starting a machine shop in Revelstoke.

Mrs. F. Julian asked for a porch light at her residence.—Granted.

C. R. Skene asked for a light near his premises. The council agreed that he should put the light in himself, as it was for lighting his stable and chicken house.

A. McRae, postmaster, offered to put a night clerk in the post office, if 6the council would supply light free. The council were of opinion that owing to the double service being kept up all the year round, the local business men would be greatly benefitted by the inauguration of a night postal service, and decided to grant the request.

The city will instal 200 wat Tungsten lamps at the C. P. R. station, also 250 watt Tungsten over the road west of the station.

Arrangements were made for T.F. Sinclair to go ahead with the work of sewering the Y. M. C. A.

A sum of $230 was apportioned for fixing and clearing the streets in the vicinity of Campbell avenue and McKenzie avenue.

The following accounts were passed

General	$11,054.89
Water and light	1,585.12
Debenture K	6,014.23
Debenture T.	5,297.58
Debenture U.	11,578.82

Included in the general account is an overdraft for $7,000 for expenses in the new water pipe line, taken out of the current revenue until the money from the debentures for that work is available.

Mine Rescue Station

Victoria, Oct. 18.—R. F. Tolmie, deputy minister of mines, with H. Shepherd, the chief inspector, has left for the Crow's Nest mining fields to establish at Fernie the first of three government rescue stations in connection with the operating collieries of British Columbia. Upon the return af the officials to the coast arrangements will be made for the installation of the Nanaimo and Cumberland stations.

All the apparatus for the three stations is now en route. It is the intention of the mines department also to instal a central station at Middlesboro in the Nicola country to support colliery installations as required by the Coal Mines Regulation Act.

Build Roads Over Province

Victoria, Oct. 18.—Interesting announcement of the governemnt's trunk road building programme in the province was made at the Board of Trade quarterly meeting here yesterday by Mr. C. H. Lugrin, who stated he had been informed by the Minister of Public Works that not only would transprovincial roads be constructed so as to make continuous highway from the coast to Alberta, but also a north to south transprovincial road would be built. The latter will be a continuation of the old Cariboo trail, which will follow the east bank of the Fraser river to a point opposite Fort George, thence by the Nechaco valley to the divide separating the Nechaco valley from the Bulkley valley as far as Hazelton.

The north and south road would be between 500 and 600 miles in length. The provincial trunk road building policy involved construction of over a thousand miles.

UNION LABEL

WEDNESDAY, OCT. 19TH, 1910.

It is interesting to note that ex-President Roosevelt has placed the seal of his approval on the "Boy Scouts of America." The Colonel beleives in the movement with all his heart and soul. In a letter to Sir Robert Baden-Powell, commander of the Boy Scouts of Breat Britain, he points that the General's aim is to make boys good citizens in time of peace, and incidentally to fit them to become good soldiers in time of war, although the latter inevitably follows, being what might be called a by-product of the former As advocated in the columns of our last edition, the establishment of the Boy Scout movement would be of infinite benefit to our youths in the West.

STRONG CRITICISM

An article in the London, Eng., Saturday Review, critizes in strong terms the action of Captain Kendall of the Montrose, in sending out dispatches to the press:

"The captain of a ship is in the position of commander, judge, magistrate, even of king, to every soul on board. For a judge on the bench, or a governor of a prison, or a general in the field to send reports of his doings to a newspaper would be no more improper than for a ship's captain to do what this captain has done. In addition, he was in a way the protector of this wretched pair, So long as they did not offend against the discipline of the sea he had no quarrel with them. They were flying from justice, it is true; it is also true that one of them was possibly flying to his death, and drawing nearer to the gallows with every turn of the screw. Think, if you can bear to, of the dire tragedy of the relationship; the smiles that had to be kept up outside, the terrors and tears of the cabin; the embraces mingled with the sense of impending doom and destiny; the counting of the days and nights, and ultimate sunset, ultimate daybreak, ultimat? kiss or whispered word that might be the last they would ever share—and then think of Captain Kendall and the Daily Mail and the thing that was "too good a thing to lose."

"Captain Kendall's messages to the Daily Mail are a disgrace to the mercantile marine and to the profession of the sea. They are an insult to the King, of whom the commander of a British ship is direct representative, to the law, whose powers are vested in him, and to every sailor. What his temptation may have been I do not know; the responsibility for that lies with the Daily Mail's editor and with its principal proprietor, Lord Northcliffe. But he proved a sufficiently apt tool."

Revelstoke, B. C., Oct. 18, 1910.

To our patrons—I wish to convey my heartfelt thanks for the liberal patronage I have received at your hands during the past thirteen years in which it has been my lot to conduct a place of amusement in this city, and as I am giving place to Mr. F. C. Buttler, an esteemed entertainer, whom I heartily recommend to our citizens as the Opera House manager, and trust that you will accord the same patronage to Mr. Buttler as you have given me in the past. Yours very truly,

R. TAPPING, Manager.

An Elaborate Production

When William Yule, Violet Eddy, and their supporting company of Shakespearean players appear here, at the Edison Theatre, November 4, in the ideal comedy "Twelfth Night" theatre-goers will see probably the most elaborate and complete scenic production ever handled on the local stage. Manager C. P. Walker has furnished with a lavish hand an equipment sufficient to supply five acts, divided into sixteen scenes. Every inch of scenery, every piece of furniture, every platform and stage brace is carried by the company, together with special lighting effects. The scenery has been built especially for this territory and can be readily adjusted to any stage. Manager Walker is particular in his instructions to his stage carpenters and insists that the scenery be used in each and every town.
