Boys' Knickers
Lion Brand

MOTHERS who are in trouble over Boy's Knickers should insist upon having THE LION BRAND. They are made from all-wool Cloths, with double knees and double sewn seams.

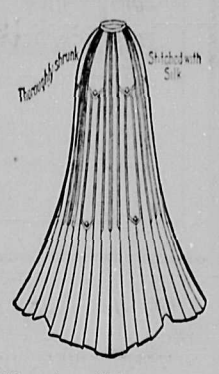
Then, again, the Buttons are put on in such a manner that they cannot come off. They are a Patent Button, and cost three times as much as the ordinary kind.

The Pockets are a heavy drill and will wear.

Then the price is no higher than what you pay for trashy goods.

Don't you think you ought to ask for the "Lion Brand?"

SPRING SKIRTS



We have a shipment of Spring Tweed Skirts that will interest you—they are beautiful goods, elegantly tailored, and they have been pronounced by those who have seen them, to be perfect in fit and finish. SEE THESE!!

VICTORIA BYE-ELECTION

Hon. Wm. Templeman, Minister of Inland Revenue, Elected Yesterday by a Handsome Majority.

[BY TELEGRAPH]

VICTORIA, March 7.—Hon. W. Templeman was elected yesterday by a majority of 694 over John L. Beckwith, conservative. His majority would probably have been even larger but for the third candidate. The poll was:

Templeman	1557
Beckwith	863
Marcon, socialist	309

The Minister of Inland Revenue will proceed to Ottawa at once.

SHOCKING STORY

Hanging of Man Reported as Innocent.

OTTAWA, March 5.—The report that Charles Hayward, for whose murder King was executed last summer, is alive, has created great interest in the Department of Justice. The government has notified the Mounted Police on the northern trails to watch carefully for any confirmation of the story. Many authentic instances of men having disappeared under similar circumstances and later been found alive are revealed. The eastern press is referring to the case as a blow at capital punishment. The conviction of King was circumstantial.

NAKUSP.

From Our Own Correspondent.

J. W. Malcolm, who has been in the employ of the Y. C. L. Co. here for nine years, has resigned his position, and is leaving for the North West where he intends to go into stock-raising. We wish John every success in his undertaking.

L. F. McDougald has purchased Capt. Forslund's gasoline launch.

E. J. Bangs, of Arrowhead spent a few days in town.

Thos. Sullivan has returned from a trip to Rossland and other points.

L. Borgat is receiving the congratulations of his friends on the arrival of a bouncing baby boy.

Mr. and Mrs. A. J. Thompson who have been spending some weeks at Victoria have returned home again.

C.P.R.'S SPLENDID INCREASE

The Canadian Pacific Railway Co.'s earnings continue to make a remarkably fine showing. The statement for this month of January and for seven months, July 1st to January 31st, shows that the net profits for the month of January amounted to $1,267,234 as against $422,668 for January 1905, so that the gain in net profits for the month amounted to $844,565 over the corresponding month of last year.

The net profits for the seven months amounted to $13,454,633, against $9,567,416 for the corresponding period last year of a gain of $3,887,217.

	January 1906	July 1 to Jan. 31 1906
Gross earnings	$4,422,690	$35,801,668
Working exp.	3,155,456	22,355,035
Net profits	1,267,234	13,454,633

ADVERTISING

The Commercial says:—The extraordinary growth of advertising is one of the phenomena of this marvellous industrial age. It is a new study, not yet completely fathomed or mastered, but enough has been learned of its underlying principles to permit of immense fortunes being rolled up by means of judicious publicity.

There are still a few copies left of the Christmas edition of the KOOTENAY MAIL, the finest illustrated paper ever published in Revelstoke. Price 50 cents. Order before supply is exhausted. Interior Publishing Company, Revelstoke, B.C.

Don't forget that the proper spring food is Johnston's Fluid Beef or Bovril on sale in any quantity at C. B. Hume & Co's.

PROVINCIAL LEGISLATURE

Estimates Passed—Government Victorious all Round—Kaien Island Committee Unable to Agree.

[BY TELEGRAPH]

VICTORIA, March 7.—The debate on the budget was concluded yesterday afternoon and the estimates were all passed at the night sitting. There was no division on the budget but several of the estimates were objected to. In each case the Government voted down the amendments.

The Land Act passed the third reading, and the Timber Act passed the report.

The Kaien Island committee were unable to agree on the report and will ask the Speaker if they can put in majority and minority statements. This will likely be refused.

BIG BEND

Big Pack Train Coming in.

It is reported that an East Kootenay packer will put a large pack train in the Big Bend this spring to handle promptly the freight from Downie Creek landing and other points to the various mines and camps. The head quarters of the new pack train will be at Boyd's ranch.

Last fall serious complaints were heard and it became necessary to import a pack train from Beaton to handle the freight from the boat landings and yet a considerable quantity of freight was left at Downie Creek for the winter.

It is proposed to put on an up-to-date service connecting promptly with the steamer.

RAILWAY WRECK.

BINGHAMPTON, March 7.—The westbound Erie train, carrying a load of emigrants bound for the west, was derailed this morning. Engineer Mason, pinned beneath the wreck, was so badly injured that his death is expected at any moment. Fireman Jackson was also much hurt, but his recovery is expected.

ARROWHEAD

From our own correspondent.

The new school house opened for school Monday morning.

M. J. Donovan has returned from a pleasant holiday in California.

L. C. Robinson, relieving agent left Tuesday.

Mr. and Mrs. Shook arrived recently from Spokane, where they have spent the winter.

R. Gibbens was in Revelstoke last Sunday.

Miss Lawrence, of Revelstoke, spent a few days in town, the guest of Miss Thomas.

Capt. and Mrs Fraser have returned to their residence in town.

Gordon and Maurice Cook have gone to visit friends in Parry Sound, Ont.

The bowling alley has changed hands and is now under the management of W. Parton. The A. L. Co. team won an easy victory over the B.B.L.Co. team in the last contest.

RAIL AND STEAMER.

The Great Northern propose building into Greenwood.

The C. P. R. will lay out a townsite on their Nicola branch.

The C. P. R. has secured control of the proposed electric railway from Westminster to Chilliwack and will shortly build the line from Agassiz.

As indicating the big increase in freight traffic expected by the C. P. R. this year the number of engines on the Shuswap and Mountain Division, with headquarters at Revelstoke, will be increased by 20. Of these additions will be made to the number of "pushers" employed at Rogers Pass and Field.

The best time to bring children to the Stamp Studio is in the morning.

FIGHTING JOE AT OTTAWA

The C. P. R. Argument Turned Down—Britain's Defence Bill—Women Fight a Duel With Pistols.

[BY TELEGRAPH]

OTTAWA, March 7.—Joe Martin, on behalf of Coast cities, put up a vigorous fight before the Railway Commission yesterday on the freight rates issue. He successfully combatted the argument of Hon. A. G. Blair, who appeared for the C.P.R., that the Commission had no jurisdiction to hear this especial complaint.

Commissioner Killam decided that the Board was competent, and then suggested that a traffic officer of the Commission take an expert officer and report. An adjournment was taken till eleven o'clock to-day to allow the parties to consider the suggestion.

LONDON, March 7.—The Army estimates brought down last night remain at the conservative Government figure of $148,000,000. The Nation's Defence Bill now is $330,000,000 a year.

MIDDLESBORO, Ky., March 7.—In a duel yesterday between Mrs. Alice Moore and Mrs. Lucy Tucker, Frank Madden, a bystander, was killed. The women could not shoot straight. The duel arose out of a love affair.

LONDON, March 7.—"Interesting, but untrue," is the foreign office comment on the Paris story to the effect that a formal alliance between Britain and Spain will promptly follow Alfonso's marriage to Princess Ena.

FIELD.

From our own correspondent.

F. Totten, C. P. R. electrician, has brought his family from Winnipeg to live in Field.

Mrs. Frank Hooley has returned from Calgary. Her sister, Miss Patrick, has come to live with her again.

Mr. Schafer, who has been braking on the Hill, has gone to Kamloops to run between there and Revelstoke.

W. H. Humphreys has come to Field to take a position at the C. P. R. shops.

The Ladies' Aid Society of St. Stephen's Church purpose giving the second of the series of "At Homes" in the Buckham Hall on Thursday evening, Mar. 8th. A good programme consisting of musical and literary selections and games is being prepared.

FRANCE READY FOR WAR.

PARIS, March 6.—The Minister of War said in Assembly today that France is prepared to mobilize troops on the shortest notice.

THE MINES.

During the last ten years antimony has advanced in price from $150 to $315 a ton, lead from $50 to $80; copper from $225 to $400.

A Boston report is to the effect that the Dominion Copper Co., is now making from $10,000 to $15,000 per month net.

The Camborne Miner says: It is apparent that before long two stamp mills of at least thirty stamps each will be pounding out the precious metal from the massive bodies of free gold quartz at that point.

It is reported that W. B. Pool is negotiating with New York capitalists for the sale of the Oyster-Criterion mine of this camp, and that a meeting to consider the proposition is to be held in Nelson on 15th March.

The Miner says:—Frank F. Fullmer, manager of the Beatrice Mines Ltd., was up to the mine this week on a tour of inspection, and is well pleased with the work that is being done by the contractors Messrs. Jas. A. Lade & Co. While at the mine Mr. Fullmer was taken sick and was forced to remain in bed for two days. He is now down from the property and feeling much better. Harry Anderson, secretary, is now at the mine.

Pleases every smoker—the "Marca Vuelta."

WEDNESDAY, MARCH 7, 1906

FOOL LEGISLATION.

The following clause in the Timber Bill, now before the legislature, should meet with the severest condemnation:

"Whenever a seizure is made of timber under the provisions of this act, the onus of showing that the timber seized is not subject to the provisions of this act shall be upon the owner, holder or person in possession thereof."

A clause of this kind lays on every purchaser the responsibility of investigating the title to all timber he may buy—a condition of things that would seriously interfere with sales of timber and would hamper the lumber industry which has already enough burdens to bear.

CAPITAL IN CANADA.

It is a matter of the deepest national regret that Canadians do not show more enterprise in the development of the Dominion. Canadians do not know or appreciate the value of the national wealth in their hands, and the result is American capitalists are snapping up most of the good things and making money out of them. Several of the chief capitalists of the Dominion are the worst enemies of, or at all events the most indifferent to, the development of their own country. They invest in railway, power, tramways, mines and other enterprises in Spain, Cuba, Mexico, China, and in fact the further from Canada they can send their money the better they seem to like it. Public opinion in Canada should denounce to the uttermost this treachery to the home land where these people have made their wealth. Canada affords the best field in the civilised world for enterprise and development. Rudolphe Forget, the Montreal financier, put the position well when, at a banquet given in his honor the other day, he said:

"We have everything needed to do so, or, at least, we are lacking only in one thing—confidence in our own greatness. I have always believed that in order to be productive money must be active, as immovable capital is nothing more or less than stagnation in business.

"Millions and millions would be necessary to develop the great industrial and commercial industries of this country and he appealed to the capitalists of the country to give all attention to these questions. By so doing they would reap profit and merit well of the Dominion. Strong arms were also necessary, and he appealed to his young friends to give more attention to solid commercial and technical studies, instead of seeking the already over-crowded professions. Our young country, he said, requires sure financiers, intelligent manufacturers, and competent agriculturalists in order to properly develop Canada's unlimited natural resources.

"Mr. Forget then spoke with energy against what he called a system of disparagement and belittling, which he said existed amongst his compatriots. Let any man undertake a great enterprise and immediately he is accused of all kinds of unworthy motives, and held up to public condemnation.

"He deplored the fact that foreign capital had to be called in to develop our industries. Confidence was more needed than either capital or population, though these, too, were a patent necessity."

TOURIST ASSOCIATION.

The Tourist Association is marking a new era in the history of Revelstoke and that is an era of improving the attractions of the city, making known the great natural beauties of the tributary country, and advertising the advantages of the city from a commercial, industrial, and residential point of view. This Association, by its publicity work, will be able during the next two years to make Revelstoke and district better and wider known than during all the years that have gone before. This city occupies the unique position of being located in the heart of the Switzerland of America, and ought to become the headquarters of the great tourist traffic of these mountains, as from this point travellers and tourists can radiate east, west, north and south, choosing the classes of scenery and sport in which they are most interested, whether climbing high mountains, negotiating glaciers, studying the grandest of physical features, boating on the lakes and rivers, hunting big game or fishing the charming streams of the mountains. The Revelstoke Tourist Association deserves the heartiest and best support of the people of the city and district, for it is doing the grandest and best work of a practical character that has yet been done in the Interior.

C. P. R. SHOPS.

The biggest industry in the city of Revelstoke is the C. P. R. shops and the city should appreciate it. Calgary gave the C. P. R. a big bonus to have the C. P. R. shops moved from Canmore to that town and has not regretted it. Edmonton now offers the C. P. R. a bonus of $25,000 towards locating in that city shops to handle the plant of the C. and E. branch. It may be asked how this affects Revelstoke? Well, this way. This city is asked for no bonus, but is asked to furnish the C. P. R. shops with power on a business basis. The discussions on the matter in the press, at the Council table and in the Board of Trade show the city has the power available and that an expenditure of $20,000 will not only put in the increased plant necessary to supply the city with power, but will provide the steam auxiliary plant necessary to prevent the plant being shut down by frazil ice in winter. The city never has had and is not likely to have again a chance like this and we believe it is in the interests of the city to do it, and that as soon as possible. The supply of power will aid immediately in the industrial development of the city. Everybody knows what a profitable investment electric light has been to the city, and the supply of electric power would utilise the water power now running to waste and just about double the revenue and profits of the city from its power plant.

GRAND TRUNK PACIFIC.

The news that the Grand Trunk Pacific will enter the Rocky mountains by the Jasper Pass, west of Edmonton, is important news for Revelstoke, as it means the railway will come out on the west end of the Rockies at Tete Jaune Cache, within 180 miles of Revelstoke. This will ensure the opening up of the whole of the country between the Fraser river and Revelstoke. Revelstoke is the most convenient and accessible point to Tete Jaune Cache and it is up to Revelstoke to secure a share of G.T.P. construction business. This can be done if the business men of this city are alive to the occasion and will push before the government the construction of a tramway past Death Rapids and the placing of a steamer between the upper terminal of the tramway and Canoe river, from which a good wagon road can be opened to Tete Jaune Cache. The fact that the Grand Trunk Pacific has let a contract to pack in 50 tons of supplies to the Jasper Pass, shows there will be something doing there soon.

A COMPLIMENT.

The Nelson News remarks: "The excellent showing made by the Hon. R. G. Tatlow in his budget speech yesterday is a matter for sincere congratulations not only to the finance minister, but to every resident in the province. Whilst the pleasing improvement in the revenues is undoubtedly due to the satisfactory expansion of the industries of the province, as stated by the minister in his speech, it is only fair to accord the honorable gentleman a large share of the credit due for a financial condition of affairs upon which the whole province is to be congratulated."

The position of the mining industry in the province has never been better and the outlook is full of hope. The Le Roi has resumed payment of dividends, and has to date distributed $1,380,000 among its shareholders. The St. Eugene, Slocan Star, Lucky Jim and other Slocan mines have paid big dividends. The Granby mines is now a steady dividend paper, and takes first place in the world's copper mines. Britannia stock has shown an immense rise in value. The Tyee and a Van Anda property are dividend payers. The Centre Star and War Eagle are in a position to join the dividend list. The prospects of the Ymir mine ensure its being again a dividend payer. On Fish Creek the Eva is being profitably operated, and with a larger mill could pay steady dividends. There is probably no mineral country making a better showing considering its age and development, than British Columbia to-day.

SMALL FRUIT GROWING.

Geo. R. Lawes, writing to the Vernon News, said:

"A medium crop of

STRAWBERRIES

clears up $100 per acre over expenses and skill on the part of the grower and a good situation may increase this up to an incredible figure. There are a few points in reference to strawberry growing which are essential to know if you would succeed. First, for successful long distance shipment no irrigation is possible. The fruit must be grown upon bench land and be supplied only with natural moisture. As an illustration, this past season many of my berries were sent 250 miles beyond Winnipeg and opened fresh and good.

"If the holders of land in this town could but realize the fact that strawberries from here will stand this shipment they might easily make a good living. Only one or two varieties are of any value for successful shipment, and the berries should be grown in the hill system. The yield may be less than by other systems, but the size and color are greater and shipment safe. I ship quite a lot but have never had complaint of a single crate.

"I wish I could impress upon the people of this district the obvious fact that if they would gain a wide reputation in the export of fruit, they must confine themselves to a few of the best known varieties of small and tree fruits. Their financial success rests upon being able to offer large shipments of these fruits, that will certainly arrive at their destination in prime condition. Small quantities of heterogeneous varieties are not wanted for export even to the North West.

"The growing of

RASPBERRIES

is also profitable, but only one or two varieties are equal to shipment. All small fruit however is profitable if you have a local consumption. Personally, I have gone into the shipping, and have to follow certain very definite lines to be successful. I find the same rules apply to the growing of

Apples grown under irrigation are neither so highly colored, so full flavored nor so heavy as those grown without. And here again I believe the grower of the future will earn a high reputation for his fruit by confining himself to one or two varieties. In fact, all growers of the valley should co-operate to this end and, like the Hood River growers, make the valley famous for some one or two varieties only. They will never realize fancy prices any other way."

PROVINCIAL LEGISLATURE

Victoria, B. C., March 1, 1906.

THE MASTERS AND SERVANTS ACT

Took up a considerable part of the House's time this afternoon. Hawthornthwaite (Nanaimo) and Macdonald (Rossland) supported it strongly, but many of the members on both sides of the House objected to the penal clause and argued that the measure would work an extreme amount of hardship on the very classes it was intended to protect. It was generally felt that, while the intention of the measure was good, in so far as it aimed to secure the payment of employee's wages, it was drawn up so clumsily and showed such a lamentable lack of comprehension of conditions, such a complete ignorance of and inability to cope with the varied circumstances under which labor is employed in this province, that the pruning-knife would have to be heavily applied before it could be accepted as practical legislation. It eventually passed its second reading, with the understanding that it should be so handled in Committee that it might assume some form of commercial and industrial sanity—a feature which at present it assuredly does not possess.

NEW BILLS

The bill to amend the Municipal Elections Act was referred back to Committee.

The Land Registration Act and the Benevolent Societies Act passed their third readings, and the Land and Timber Act passed through Committee

The adjourned debate on the Columbia & Western Railway Subsidy Bill was then resumed by Henderson (Yale), who was replied to by Bowser (Vancouver.)

With regard to the

COLUMBIA WESTERN

matter and to enable your readers to judge the merits of the case for themselves, a brief synopsis of the actual conditions in this affair may not be out of place here.

To commence with, this bill, now before the Legislature for its second reading, has for its object the conveyance of 800,000 acres of land, which were earned by the construction of the Columbia & Western line under the terms of the subsidy act of 1906.

The Opposition argue the fact that the line was not completed from Midway to Penticton, as originally intended, absolves the province from carrying out the terms of the subsidy act.

In his speech on Wednesday, Premier McBride dealt at great length and very comprehensively with the peculiar series of incidents which produced the present situation and necessitated the introduction of the measure. The arguments of the Premier were that, owing to the various alterations which a succession of short-lived governments had made in the conditions, the Columbia & Western could not in justice be held responsible for the non-completion of the line beyond Midway.

The Premier's speech pointed out that, in 1898, the administration of Hon. J. H. Turner entered into a contract with Messrs. Mackenzie & Mann by which this firm was to construct the V. V. & E. from Midway to the coast. The result of this contract was to relieve the Columbia & Western from their obligation to build the last two sections of the road authorised under the act of 1896, and this company accordingly discontinued operations.

Now, towards the fall of 1898, the Semlin government came into power, that administration changed the terms of the agreement entered into and executed in due form by the Turner government, because it disapproved of land grants, and entered into an agreement with the Columbia & Western by which they were to pay twenty cents an acre, not only for these particular lands due the company for having built section three, but as well for section four, notwithstanding that section five had not been built.

But, before it could carry out this agreement, the Semlin government were hurled from power, and neither of the two administrations immediately following it brought the matter to a satisfactory conclusion, though the Dunsmuir government got as far as issuing the land grants, but the grants did not cover lands contiguous to the railway as set out in the Subsidy Act, and were afterwards cancelled, and rightly so, by the now famous Bill 16.

Now, the stand taken by the present administration is that the whole matter has been hanging fire long enough, and that, for the financial credit of the province, the Columbia & Western should be fairly and equitable dealt with according to the terms of their subsidy act. The company has justly earned the subsidy for the portions of the road completed, in accordance with the terms of the contract. The province is under a legal and moral obligation to carry out the terms agreed upon, and nothing can affect the equity of the matter in the slightest. A corporation is quite as much entitled to have its bargains treated with respect as is an ordinary citizen.

THE KAIEN ISLAND COMMITTEE

Completed its labors this morning, with an enquiry into the private lives of Messrs. R. F. Green and E. V. Bodwell. Nothing was elicited. It is likely that two reports will be made, one a minority report.

Victoria, B. C., March 2, 1906.

A heavy and very acrimonious debate took place this afternoon when discussion was resumed on the

COLUMBIA & WESTERN

Subsidy Bill, over a lengthy amendment introduced by Henderson (Yale) that the Columbia & Western Railway Company is not entitled to any further aid.

Patterson (Islands) stated the railway company had put itself out of court by not completing the terms of its agreement, which it had technically violated. He would oppose the second reading.

Carter Cotton, president of the Council, remarked that, if he had ever had a doubt as to the advisability of paying this subsidy, the speech of the member for the Islands would have removed it. (Laughter.) He then showed that the non-completion of the original contract was not the fault of the railway company, and warmly denounced as a piece of sharp practice the Opposition's attempt to take advantage of a technicality to repudiate the grant.

Oliver (Delta) rose at once stating the Government was the slave of the C.P.R.

Dr. King (Cranbrook) moved the adjournment of the debate. But the House was interested and amused, and turned the motion down by a vote of twenty to thirteen.

Brown (Greenwood) supported Henderson's amendment.

As the first night sitting of the session was due for 8.30, the Speaker saw six o'clock when the member for Greenwood sat down, and the House adjourned to get its dinner.

Resuming at 8.30, the adjourned debate on the Columbia & Western was at once taken up by J. H. Hawthornthwaite (Nanaimo), who spoke for an hour and a half. He supported the second reading of the measure, and in doing so raked up the history of John Oliver and the Olalla company. "You have called this Government the creatures of the C. P.R.," he thundered, "but what shall we say of the relations between the Liberal party and the Grand Trunk Pacific Railway?" Then he proceeded to unfold the latest story that the Grand Trunk Pacific Railway, with the aid of the Liberal party in Ottawa, were trying to force from the province of British Columbia that 15,000 acres per mile which the McBride government refused to the big company and their Dominion Government agents last session.

Then the Speaker put the motion for the second reading. It carried by a vote of twenty to fourteen, and, after a few minutes of routine business, the House adjourned to meet tomorrow (Saturday) as the wish of the members is to despatch their business now as quickly as possible.

Victoria, B. C., March 3, 1906.

With the exception of the Budget Speech of the Hon. Capt. Tatlow, Minister of Finance, proceedings in the House to-day were confined to routine matters of non-contentious character.

BUDGET SPEECH

The Budget Speech, however, though space forbids any attempt at extended review of it here, deserves more than a passing notice—the more so as it has attracted the most favourable comment already, even among political enemies. The Finance Minister handled his subject well, speaking with the blunt direct simplicity of a straightforward business man, with none of the rhetorical fire-works and clap-trap of the professional politician. The contents of the speech were, as a whole, of a most gratifying nature, reflecting no little credit on the administration which, in the face of enormous difficulties, is steadily improving the province's financial condition and credit There is space here, perhaps, to quote one sentence of the speech, which may be taken as typical of its whole tenor:—

"I am glad to-day," said the Finance Minister, "to be able to announce for a second time that we have not only been able to live within our income during the past year, but have also been able to bring forward a good surplus of revenue over expenditure, amounting to $268,265. (Applause.) In considering this surplus, the first question that naturally arises is as to how it is arrived at; and I am happy to be in a position to show that it was entirely due to expansion of revenue caused by improved industrial conditions." (Loud Applause.) And the applause didn't all come from one side of the House, either.

NEW BILLS.

The following bills were introduced and passed their first reading:

"An Act to amend the Water Clauses Consolidation Act, 1897."

"An Act to amend the Bush Fire Act."

"An Act to provide for the Establishment of a Provincial Stock-breeders' Association, and for the Introduction, Exhibition, Improvement, Purchase and Sale of Pure Bred Live Stock."

"An Act to amend the Liquor Licence Act, 1900."

"An Act to amend Chapter 18 of the Revised Statutes, 1897."

The Land Act, the Timber Scaling Act, and the Vancouver General Hospital Act passed their third reading.

The House went into committee on the Municipal Clauses Act, a number of amendments being introduced and progress reported.

The Health Act passed through committee, and the North Vancouver Incorporation Act passed its second reading, as did the Royal Plate Glass Insurance Co. Act and the False Creek Foreshore Act.

The House adjourned at 5 30 p.m.

THE MAN IN THE GALLERY.

SYNOPSIS OF REGULATIONS GOVERNING THE DISPOSAL OF DOMINION LANDS WITHIN THE RAILWAY BELT IN THE PROVINCE OF BRITISH COLUMBIA.

A LICENSE to cut timber can be acquired only at public competition. A rental of $5 per square mile is charged for all timber berths except those situated west of Yale for which the rental is at the rate of 5 cents per acre per annum.

In addition to the rental, dues at the following rates are charged:—

Sawn lumber, 50 cents per thousand feet B.M.

Railway ties, eight and nine feet long, 1 1-2 and 1 3-4 cents each.

Shingle bolts, 25 cents a cord.

All other products, 5 per cent on the sales.

A license is issued so soon as a berth is granted, but in surveyed territory no timber can be cut on a berth until the licensee has made a survey thereof.

Permits to cut timber are also granted at public competition, except in the case of actual settlers, who require the timber for their own use.

Settlers and others may also obtain permits to cut up to 100 cords of wood for sale without competition.

The dues payable under a permit are $1.50 per thousand feet B.M., for square timber and sawlogs of any wood except oak; from 1-2 to 1 1-2 cents per lineal foot for building logs; from 12 1-2 to 25 cents per cord for wood; 1 cent for fence posts; 3 cents for railway ties; and 50 cents per cord for shingle bolts.

Leases for grazing purposes are issued for a term of twenty-one years, at a rental of two cents per acre per annum.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres may be acquired by one individual or company.

Royalty at the rate of 10 cents per ton of 2000 pounds is collected on the gross output.

Entries for land for agricultural purposes may be made personally at the local land office for the district in which the land to be taken up is situated, or if the homesteader desires, he may, on application to the Minister of the Interior at Ottawa, the Commissioner of Immigration at Winnipeg, or the local agent for the District, within which the land is situated, receive authority for some one to make entry for him.

A fee of $10 is charged for homestead entry.

A settler who has received an entry for a homestead, is required to perform the conditions connected therewith under one of the following plans:—

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be required instead of cultivation.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of the Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of the Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of the Act as to residence may be satisfied by residence upon the said land.

Application for patent should be made at the end of three years before the local agent, sub-agent or a homestead inspector.

Before making application for a patent, the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

W. W. CORY,
Deputy Minister of the Interior.

Vancouver will be represented at the meeting of the Alpine Club to be held at Winnipeg and a meeting of the Tourist Association will be held tonight to elect a delegate to represent Revelstoke.

St. Patrick's Concert, March 17th. The programme is made up of readings, recitations, vocal and instrumental music by the best local talent. Fancy drills by girls in costume a special feature. Don't miss it.

The Firth-Eaton Co., who played to a big audience in the city two years ago, will appear again on Saturday, March 31st next. This company made a decided hit when here before and no doubt will receive good support on this their second appearance.

The merchants of Calgary have resolved to accept no more Straits Settlements money except at half its face value. An organised gang is at work importing this money and attempting to circulate it at full face value when it is worth only half on the Canadian basis of coinage.

A meeting of fruit-growers was called by R. Tapping for last night to hear an address by Mr. Beandrith, of Victoria, secretary of the B. C. Fruit Growers Association. The lecturer did not turn up, and so few knew anything about the meeting that only two or three were present though great interest is taken by fruit-growers in a movement of this kind, and the matter dropped for the present.

A sensation has been caused in Idaho by the statement of a man named Orchard, who was connected with the "inner circle" of the Western Federation of Miners, that they had planned and carried out 21 murders. Adams, another member, confirms Orchard's story. Boyce, the former president, at the time some of these murders were stated to have been planned, may be arrested.

Social and Personal

Mrs. Temple leaves today for Vancouver.

Mr. and Mrs. E. Corning leave tonight on a trip to California.

F. Morgan has returned and taken a position with Bourne Bros.

J. D. Sibbald is expected back from his eastern trip about the 15th inst.

J. O. Bradley has gone to Nevada as the representative of mining investors.

G. F. Curtis, formerly of Revelstoke, is taking his final examinations in his medical course.

Miss Nesbitt, the newly appointed matron of Revelstoke Hospital, will arrive from the east to enter on her duties about the 15th.

A social under the auspices of the Epworth League will be held at Mrs McIntyre's on Thursday evening to which the young people are invited.

Miss Hislop, B.A., of Revelstoke City school, has been appointed supervisor of an examination to be held in Revelstoke on account of Manitoba University. Rev. J. R. Robertson, B. A., of Knox church, Revelstoke, will write for the degree of D. D. at this examination.

On Monday evening, at the Union Restaurant, Mrs. McKitrick gave a banquet to the members and friends of the Melrose Stock Company, the following being the guests: Mrs. and Miss McNiven, Mr. and Mrs. Teague, Mr. and Mrs. Melrose, Mrs. Anderson, of Beaton, Miss Holtner, Messrs. W. Chambers, T. Hudson, Carl Kid, Frank Lund, Fred Burke, W. F. Ogilvie, Robt. Tallon. The guests were afterwards entertained with a musical programme.

J. P. McLennan will re-open on Monday next the dry goods store which he has purchased from the A. E. George Company. He returned Saturday from the coast where he made extensive purchases of new goods for the re-opening.

James W. Davidson, brother of the president of the Canadian Pacific Irrigation-Colonization Company, has purchased a half interest in the Staples Lumber Company.

TO SUBSCRIBERS.

The MAIL-HERALD will be delivered to any part of the city, or mailed to any address within the postal union for $2.50 per annum, payable in advance. The clubbing arrangements with other papers will remain in force for those who prefer to have their subscriptions that way.

COUNTY COURT

Judge Forin held a sitting last night. There were only two cases.

W. Fleming v. L. Cashato—Claim $51, goods supplied. G. S. McCarter for plaintiff, W. I. Briggs for defendant. For the defence it was contended the claim had been settled by notes given by L. Cashato. Judgment for plaintiff with costs.

A. C. Fleishman v. Gates—Claim $35 for watch. G. S. McCarter for plaintiff, F. C. Elliott for defendant. The defence was the watch would not run and that defendant was under age. Judgment for plaintiff, but on application of Mr. Elliott defendant was authorised to bring suit for breach of warranty.

In Chambers G. S. McCarter, as Official Administrator, was appointed administrator of the estate of the late Jennie Kyohara, who was murdered on Front street, Revelstoke, a year ago.

Don't forget "The Colleen Bawn," at the Opera House, March 23rd.

LATE ARTHUR BRADSHAW

We regret to have to chronicle the death on Saturday night of Arthur Bradshaw, brother of T. W. Bradshaw, C. P. R. agent at Revelstoke. Deceased had been confined to the hospital for two weeks with typhoid fever, and though his condition was recognised as serious he rallied on Saturday and was reported as showing a good recovery, so that the end came unexpectedly.

Deceased was the first patient in the Revelstoke hospital on its being opened and has had a succession of accidents and illnesses. He had been employed on the C. P. R. as brakeman for the past four or five years. He was highly esteemed by all who knew him. Deceased parents live here. He was 29 years of age. Much sympathy is felt with the sorrowing relatives in their bereavement.

The funeral took place yesterday from the residence of T. W. Bradshaw, and was very largely attended. It was under the auspices of Gold Range Lodge No. 26 K. of P. Rev. C. A. Procunier held a short service at the residence, when the funeral procession was formed headed by officers and members of Gold Range Lodge No. 26 K. of P., and officers and members of the Brotherhood of Railway Trainmen. The chief mourners were the father and brothers of deceased. The Rathbone Sisters and Ladies Auxiliary of the B. of R. T. also attended.

The pall-bearers were:—Bros. A. J. Howe, J. B. Scott, G. H. Brock, representing the K. of P., and Bros. L. G. McLeod, A. McLeod and A. McGee, representing the trainmen. Rev. C.A. Procunier conducted service at the grave. The ritual of the K. of P's. was read by Bro. Bennett.

The coffin was buried in beautiful wreaths sent by the following:—

Knights of Pythias, wreath; Brotherhood of Railway Trainmen, broken brake wheel; Order Railroad Conductors, Division 267, wreath; Brotherhood of Railroad Firemen, broken wheel; Rathbone Sisters, Triangle; Ladies Auxiliary to B. of R. T., Anchor; Mrs. Cormier and Miss McKinnon, Anchor; Mr. Sadler, Vancouver, heart and spray; Mrs. Forde, spray; Mrs. Cross, spillies; Mrs. Cook, Vancouver, spray; Bradshaw family, Vancouver, wreath; Mrs. Spering, Vancouver, spray; Miss Bradshaw, Vancouver, spray.

This is the first breach by death in the membership of the Gold Range Lodge K. of P.

K. OF P. NOTICE.

A special meeting will be held on Sunday evening at 7 p.m. (sharp), to attend memorial service at the Church of England, in memory of our late Bro. Bradshaw. A full attendance is requested.

m10 E. W. B. PAGET, C. C.

CARD OF THANKS.

To the members of Knights of Pythias, the Brotherhood of Railroad Trainmen and other kind friends, we wish to extend our sincere thanks for their kindly aid and sympathy in the loss of our dear son and brother.

Mr. and Mrs. H. Bradshaw and family.

CORRESPONDENCE.

That Petition.

EDITOR MAIL-HERALD.

SIR,—A short time ago a petition was actively circulated in Revelstoke with the object, as soon as sufficient signatures had been obtained, of its being presented to the City Council with the request that gambling be suppressed. Might I ask whether this petition was ever taken to the Council and if not what has become of it?

I understand that the petition in question was the cause of an order being issued, by which slot machines were removed from tobacco stores but were still allowed to remain in saloons. May I ask if this is the truth and if so what was the reason for such discrimination? I am, etc.,

A. SIGNER.

Revelstoke, March 5, 1906.

[The petition was presented to the Licensing Commissioners who acted on it as you say.—ED. M.-H.]

CITY OF EDMONTON.

TO LUMBER MERCHANTS.

TENDERS are requested for lumber for 1906. Specifications and Forms of Tender may be obtained on Application to J. H. Hargreaves, City Engineer. Sealed tenders addressed "City Commissioners," Edmonton, to be delivered to me not later than 31st. inst.

Lowest or any tender not necessarily accepted.

GEO. J. KINNAIRD,
Secretary-Treasurer.

Edmonton, March 2nd, 1906.

PATRIOTIC INSURANCE CO.

Mutual Life Assurance Caters Profitably to Home Business.

Nearly 6 per cent., 5.09 in fact, was the rate of interest earned by the Mutual Life Assurance Company of Canada on its investments last year, as shown by the 35th annual report presented at the meeting just held at Waterloo. The policy-holders are congratulating themselves on new business for the year to the extent of 3,452 policies, amounting to $5,048,168, all of which, except $30,000, was done in Canada. The total assurance in force is upwards of forty million dollars, a net increase for the year of $2,889,419. The directors have a preference for the Dominion risks, whose quality is more certain and cost much lower. The death claims for the year were only 41 per cent of the amount expected, and the expenses and taxes fell one per cent. below the previous year.

The investments of the company are principally in mortgage loans on farm and city property, in bonds and municipal debentures. The total assets were $8,220,530.45, of which $7,794,098.35 were cash.

The surplus was of the most satisfactory character, being over a million dollars by the Government standard. The earnings of the company for the year were $254,103 60.

At the annual meeting the retiring directors, Sir Wilfrid Laurier, Mr. A. Hoskin, K. C., Mr. Justice Garrow and Mr. E. P. Clement, K. C., were re-elected. Mr. Robert Melvin was also re-elected President, Mr. Hoskin, First Vice-President, and Mr. Justice Britton, Second Vice-President. The substantial character of the company and the advantages it offers have insured a constantly expanding patronage.

Messrs. Kincaid and Anderson are agents for the Mutual for Revelstoke and district.

CANADIAN METAL COMPANY

Adds Another Operating Smelter to British Columbia's List.

Excellent progress is being made at the Pilot Bay smelter by the Canadian Metal Company. So far the work done is mainly lead separation on the ores of the Blue Bell mine.

G. O. Buchanan, lead bounty commissioner, says the work at Pilot Bay is the most important and interesting of all recent developments in the mining industry in the Kootenays. He considers the volume of the work and its value are at least equal to what is being accomplished at the Sullivan mine and the Marysville smelter.

C. Fernau, interviewed on the subject, said that the product of the smelter is now about 100 tons of lead concentrates a day, averaging about 78 per cent. Improvements are being made constantly and the output will probably be increased in the early future. A very interesting feature of the work is a new process adopted by Mr. Fernau for separating iron from other ores. It is somewhat simpler than the Ding machine used in G. Alexander's separator at Kaslo and is believed to be equally efficient.

In the Ding process iron is extracted from the stream of ore flowing down the table by a wheel with attached bars magnetised by an electric current, revolving rapidly just above the table. Particles of iron are attracted to the bars and deposited at the side where the magnetic current does not operate.

Mr. Fernau's arrangement substitutes coils of magnetised wire along the sides of the table for the revolving wheel. As the pulverised ore runs down the table the iron in it is drawn to the sides, while the other ore, lead or zinc, goes down the centre.

LOG SCALING.

In consequence of the Mountain Lumbermen's Association requesting the government to legalize the Doyle scale in the district east of the Cascade mountains, in preference to the British Columbia scale, which works unsatisfactorily for logs of smaller diameter, though good for the larger logs of the coast district, J. A. Macdonald, leader of the opposition, raised the question in the house.

Hon. R. F. Green, chief commissioner, in replying to Mr. Macdonald, gave assurance that the pending measure for the measurement of timber would not affect the district east of the Cascade mountains, until such time as the scale question was gone thoroughly into, and legislation dealing with the same was enacted.

Bargains for Friday and Saturday only on Fried Sardines only 5c. per tin at C. B. Hume & Co's.

C. P. R. HOTELS.

Company will Spend $500,000 on Enlargements this Year.

The manager of the Canadian Pacific railway hotel system, Mr. Hayter Reed, who is at present in Winnipeg, has announced that the company's expenditure on the hotel improvements and enlargements now in progress or about to be carried out in the mountains will amount to $500,000.

At the company's popular and recently enlarged hotel at Banff, extensive alterations are being made to meet the wants of the ever-growing number of tourists who make that mountain rendezvous their summer resort. Changes and additions of a more important character than will be undertaken this spring are in contemplation there, and this year's work will be carried out with a view to the enlargements of the future.

The other mountain hotels, such as the Lake Louise Chalet, at which the accommodation will be doubled, and Mount Stephen House at Field, and the hotel at Glacier, are having new wings that will provide much additional accommodation and render an extension of dining-room and other facilities possible.

THE LARDEAU.

(Mining Review.)

It is reported on good authority that the Great Northern Mines Co., owning the Oyster Criterion of Camborne, and Lucky Jack and Swede groups at Poplar, are now in possession of ample capital to push work systematically.

The Laclede Mining Co., operating the Mother Lode of Poplar, is getting in shape to resume active operations at an early date.

The ground between the 700 ft. level and the 300 ft. level in the Silver Cup is being thoroughly developed and ore blocked out. It has been demonstrated that the ore bodies are continuous and permanent throughout the whole distance with the exception of about 30 feet. The grade is even better than that above the 300 ft. level. Only what ore is met with in development is being shipped, it being the policy of the management to block out and thoroughly open up the ore reserves.

The Broadview is getting out its usual quantity of ore (two tons per day.) Another crew was added this week to drive from a lower point in the shaft to intercept the ore at a greater depth. It is estimated that on the completion of this drift the output will be increased to 4 tons per day.

At a special meeting of the Guinea Gold Mines of B. C., held at the office of C. A. Cooper, sec.-treas., St. Cloud, Minn., a few days ago, funds were raised for the pushing of work during the summer. There is a good amount of high grade ore in sight which will be shipped and the lower levels developed.

The Prince Mining and Development Company,

LIMITED LIABILITY.

TO THE SHAREHOLDERS OF THE PRINCE MINING AND DEVELOPMENT COMPANY, Limited Liability.

Revelstoke, B. C., Feb. 10th, 1906.

Notice is hereby given that the Annual Meeting of the Shareholders of the Prince Mining and Development Company, Limited Liability, will be held at the Company's Office, First Street, Revelstoke, B. C., on Wednesday, the 14th day of March, A. D., 1906, at the hour of two o'clock in the afternoon, for the purpose of electing officers for the ensuing year, and for all other purposes relating to the management of the Company.

The Transfer Book of the Company will be closed during the fourteen days immediately preceding such meeting.

Dated at Revelstoke, B. C., this 10th day of February, A. D., 1906.

W. M. BROWN, President. J. M. SCOTT, Secretary.

NOTICE.

NOTICE is hereby given that, 30 days after date, I intend to apply to the Chief Commissioner of Lands and Works for a special license to cut and carry away timber from the following described lands situated on west slope of Halfway Creek running into Arrow Lake in West Kootenay district:—

1. Commencing about ½ of a mile north from E. G. Burridge's south west corner post and marked "A. Edgar's north east corner post," thence south 80 chains, 80 chains west, 80 chains north, 80 chains east to point of commencement.

2. Commencing at a post planted about 18 chains south of E. G. Burridge's north west corner and marked "A. Edgar's south east corner post," thence north 80 chains, west 80 chains, thence south 80 chains, thence east 80 chains to point of commencement.

3. Commencing at a post planted about ½ of a mile west from H. McCormack's south west corner and marked "A. Edgar's," running north 80 chains, west 80 chains, thence south 80 chains, thence east 80 chains to point of commencement.

Dated this 5th day of March, 1906.
