Minister of Marine to Investigate into Recent Disaster of Tug Chehalis.—Douks Again on the March.

TORONTO, July 25—T. G. Blackstock died last night after a long and painful illness.

OTTAWA, July 25.—The Minister of Marine has issued an order for a full inquiry into the Chehalis disaster at Vancouver.

YORKTON, July 25.—For weeks the inhabitants have been in a state of shame by the night marchings of Doukhobors. In semi-nude condition they took entire possession of the streets, singing, kissing and yelling. On Monday the leaders were rounded up by the Mounted Police and a number were sentenced to imprisonment. It is absurd to say these people are improving in their habits, they are getting worse.

MOSCOW, July 25.—Police today attempted to capture all the delegates of the workmen's council. They succeeded in getting only fourteen.

ST. PETERSBURG, July 25.—War to the knife with the revolution, was the proclamation to-day by the Russian government. The Imperial manifesto virtually appeals to all old school Russians to rise and smite progressive classes. The authorities are prepared for the worst outbreak in the Empire's history.

ST. PETERSBURG, July 25.—Proclamations announcing the death sentence on the Emperor, General Trepoff and others, have been scattered all over Peterhof by terrorists.

BRUTAL MURDER

Mary Dalton, Aged 22, is Foully Slain—Robert Featherstone is Arrested on Suspicion.

NANAIMO, B. C., July 24.—Robt. Featherstone, head sawyer of the South Wellington Lumber Co., is in jail charged with the murder of Mary Jane Dalton, the 22-year old girl who was found Saturday in her father's residence with a bullet through her head. Featherstone had been on a spree for some days. On Featherstone was found a loaded revolver The murderer fired three bullets into the victim. Featherstone absolutely denies any knowledge of the affair. Marks around the woodwork of the room showed that more shots had been fired, and the condition of the body indicated a struggle. Her wrists showed marks of violence. Featherstone was found in his room, lying on a bed in a drunken stupor. He vehemently protested his innocence. A bloodly handkerchief and an empty revolver were found on him. The inhabitants of Wellington are aroused, and a demonstration was made against the prisoner. Cooler heads, however, prevented violence.

A despatch from South Wellington says A gruesome sight met the gaze of Richard Dalton when he opened the door of his residence at South Wellington upon his return from Nanaimo at four o'clock Saturday afternoon, when he was horrified to see the dead body of his daughter, Mary Jane, with a bullet hole through her head. Every thing indicated that a terrible murder had been committed. A man acting strangely had been prowling around the neighborhood all the afternoon carrying a revolver, and it is alleged he insulted several women. This man has been arrested on suspicion. The girl was alone at her residence at the time the tragedy occurred.

LATER.

NANAIMO, July 25.—The post-mortem examination on the body of Mary Dalton, the girl who was murdered on Saturday, discloses the fact that each of the three shots the murderer fired into her body was fatal. One bullet of 38 calibre was found in the body. Featherstone, who appeared for preliminary hearing yesterday, was remanded until Thursday.

Against Featherstone the evidence looks very black indeed. There are marks on his face and hands, which one medical man who saw him said might have been caused by the girl's nails and teeth. On a handkerchief he carried were what appeared to be bloodstains. Earlier in the day he had entered the house of Mrs. Dick, entering her bedroom and making some remarks about the Dalton girl. According to the report he asked the way to the Dalton house and certainly he displayed his revolver freely during the day. He had been drinking heavily The prisoner will not talk of anything that occurred on Saturday afternoon. He looks wild and haggard, as though he had at last realized his condition.

A remarkable feature of the case is, why was he allowed, a drunken, raging brute, to roam around the village with a loaded gun?

DEPARTMENT OF MINES.

Ottawa, July 23.—The administration of the Geological and Mines branches has been transferred from Hon. Mr. Oliver, Minister of the Interior, to Hon. Mr. Templeman, Minister of Inland Revenue, and the Cabinet representative of the great mining province of British Columbia. The transfer has been made by Order-in-Council. It was understood, when Mr. Templeman was given a portfolio, last year, that British Columbia's importance would be further recognised by the creation of a Department of Mines of which the Geological branch would form the basis, and of which Mr. Templeman would be made the head. A Government bill for the creation of the Department of Mines will be introduced at the next session, an Act of Parliament being required for the purpose in the meantime it has been thought well to give Mr. Templeman the administration of the existing Geological and Mines branches, that he may become familiar with the existing machinery, and be in a better position to organise the mining department, as soon as the necessary legislation has been secured.

DEATH AND DESTRUCTION

Great Northern Flyer Carries Seven People to Death Near Spokane, Wash,---Many Are Injured.

Spokane, Wash., July 24.—At least seven lives were lost, seven persons were seriously injured and a score of others sustained cuts and bruises in a wreck of the fast mail train on the Great Northern, about a mile east of Camden, Washington, 35 miles east of Spokane, late yesterday afternoon, when the locomotive, mail, baggage and smoking cars left the rails on emerging from a tunnel and, plunging over a 70 foot embankment, were submerged in the waters of Diamond Lake. Spreading rails is given as the cause. The dead are:

N. Edward Munson, engineer, of Hillyard, Wn.; Frank Bell, fireman, Hillyard, Wn.; Chas. Danner, mail clerk, Spokane, Wn.; George R. Strickland, express messenger; Geo. Howard Curtis, Spokane, lumberman; T. J. Jollow, Spokane; an unknown man at Buchanan's undertaking rooms, has a brown mustache and wears an Oddfellow's pin.

SPOKANE, July 25—It is now earned that the victims of the wreck on the Great Northern, near here, numbered nine dead, fifteen injured, one missing.

NINE LIVES WERE LOST

Tug Chehalis Run Down in Vancouver Harbor.

VANCOUVER, July 23.—A shocking accident occurred Saturday afternoon on Burrard Inlet, the harbor of Vancouver, by which nine persons lost their lives. The drowned are:

Dr. H. Hutton, of London, England.
Mrs. R. H. Bryce, of Vancouver.
Hilda Mason, aged 10, Vancouver.
Barnet Benwell, aged 9, Vancouver.
P. J. Chick, Vancouver.
William H. Crawford, deckhand of tug Chehalis.
Two Japanese firemen.
One Chinese cook.

The tug Chehalis had been chartered for a three-weeks' trip to Blunden harbor on the southern coast of British Columbia, where there are oyster beds. The party of 15 on board comprised the owners of the oyster beds, including R. H. Brice and P. J. Chick, and also Dr. Hutton, an expert sent out by English capitalists to examine the oyster beds with a view to purchase. P. G. Shallcross of Vancouver, representing the British syndicate was also a passenger When she entered the narrows at the entrance to Burrard Inlet, the strong incoming tide swung the Chehalis across the channel. The steel steamer Princess Victoria bound for Victoria and Seattle, following close behind, crashed into the Chehalis and cut the tug in two before the speed of the steamer could be checked.

The Princess Victoria was going at the rate of about 19 knots and the Chehalis was travelling about eight knots when the collision occurred. The Chehalis was struck amidships, was cut clean in two, and the afterhalf of the little vessel sank at once, precipitating all on board into the water.

The Princess Victoria immediately stopped, threw over life preservers, and lowered five boats which cruised about for an hour picking up six survivors, namely:

Captain Howse, master of the Chehalis; J. O. Benwell, commission merchant of Vancouver; C. A. Dean, engineer of the Chehalis; P. G Shallcross, R. H. Bryce and R. N. Rich.

SUDDEN DEATH AT NELSON.

NELSON, July 24.—F. L. McNab of Winnipeg, fell suddenly dead last night while registering at the Central hotel. He had just asked the rates, and on being informed, reached for a pen, but that instant toppled over and was picked up dead. The inquest shows death to have been due to heart failure. The deceased was an engineer for the Waterous Company, and a resident of Sault Ste. Marie. He had come to Nelson for the purpose of erecting some machinery for the Canadian Pacific Timber Company.

FOUR KILLED IN WRECK

On the Nelson and Fort Sheppard Railway, South of Nelson, on Saturday Afternoon.

One of the most frightful accidents that has occurred in years in railway circles in British Columbia happened at ten seconds past five o'clock Saturday afternoon at Beaver Falls, a narrow canyon about seven and a half miles above of Waneta, on the N. & F. S. branch of the Great Northern Railway, between Nelson and Spokane. As a result there are four dead and several severely injured.

The killed are: Judge W. B. Townsend, formerly of Rossland; "Phoebe" Smith, bartender of the S. S. Kaslo; M. D. McKinnon, purser of the S S. Kaslo; unidentified man.

The injured are: Mrs. W. B. Poole, Nelson, passenger; Miss Wragge, of Cranbrook, passenger; Louis Bergeron, of Stillwater, Minn,, passenger; Chas. Summers, colored, porter on buffet car; Edward Jones, colored, cook on buffet car; conductor Ingerham; brakeman Paden.

The regular passsenger train left Spokane Saturday morning for Nelson and consisted of a combination baggage and smoker, a first class day coach and a buffet car. The train was in charge of engineer Chas. Smith, fireman Birdson, conductor G. F. Ingerham and brakesman E. A Paden, all of whom are residents of Spokane.

The trip was uneventful until Beaver canyon was reached. Here the frightful calamity occurred. For some unexplained reason the buffet car left the rails and the coupling with the day coach holding, both cars went over the trestle. The combination car stayed on the rails with the engine.

The day coach made one complete turn and fell right side up. In it were about half a dozen passengers, the conductor and brakesman. All the passengers received severe bruises, but the most seriously injured in this car was Miss Nellie Wragge, of Cranbrook. She received a nasty cut across the head and her shoulders were injured. Notwithstanding her injuries, she assisted the conductor and other passengers in attending to the more seriously hurt.

The buffet car went right down the canyon and finally rested on end. Smoke was issuing from the upper end when the passengers from the other car reached it and it was at first thought that the car was on fire, but the smoke proved to be from the overturned cookstove and it was soon smothered out.

CORRESPONDENCE.

Stumping Powder.

Editor MAIL-HERALD:

SIR,—Referring to an item in your issue of the 18th inst., regarding stumping powder, the following is a copy of a circular letter which was sent out to all secretaries of Farmers Institutes, (the secretary of the West Kootenay Farmers' Institute is at Nelson, in which district is Revelstoke.)

Victoria, B. C., March 8th, 1906.

Sir,—"I have the honor of informing you that the Government has purchased a car load of stumping powder from the Hamilton Powder Company, which is delivered in quantities to suit at their magazine at Victoria or Nanaimo, at the rate of 10½ cents per pound, equal to $5 25 per case, on condition that the powder required is paid for at the office of the company in Victoria before delivery with the addition of the freight and charges. As to freight charges, the Canadian Pacific Railway have agreed to convey stumping powder in 6,000 pound lots at car-load rates, which is first class"

Besides this general notification publicity has been given to the matter in the public press and through the delegates to the Central Farmers' Institute The Farmers' Institute report, now in the hands of the printers, contains a full account of the negotiations and final arrangements. This report will be distributed as soon as issued.

A large quantity of stumping powder, on the terms mentioned has been already supplied to farmers for clearing land, and is available at all times on the terms mentioned, for that purpose.

J. R. ANDERSON,
Deputy Minister of Agriculture.

DEL REY TO OPERATE.

Operations are about to be resumed on the Del Rey under the foremanship of Thos. Wills. An upraise will be driven a distance of 300 feet to surface for ventilation after which the drifts will be continued on either side of the crosscut tunnel. These drifts are now in quite a distance and show a good grade of ore. Work will be conducted continuously from now on and new ground will be opened up as operations progress. Judge Averill, of Indianapolis, a director of the Northern Mines, Ltd., which owns and operates the Del Rey, was here recently and after examining the property decided on the work above stated.—Camborne Miner.

A full line of Heintz's Pickles, Sauces and Pork & Beans in stock, at C. B. Hume & Co's.

Every kind of fancy parlor furniture at John E. Wood's.

EXPRESS CHARGES.

The Laurier government is to be congratulated on putting through legislation securing control of the rates charged by express companies, and it is to be hoped the law will be strictly enforced. Of all public services the express service has been nothing but a highway robbery. In Britain and Australia the express charges have been kept in check by a liberal parcel post system, and Canada should have had a similar system. This country would have had it, too, but for the influence of the express companies, for unfortunately it cannot be denied that the influence of railway, express and other vested interests is so strong with all governments, whether Liberal or Tory, it is often difficult to get through legislation for the public good. We are informed, for instance, the Dominion Express Company makes profits of from 250 to 700 per cent. per annum. One thing that looks suspicious is that their balance sheets and dividends are not published for evident reasons. The Standard Oil outrage is not in it with the express companies.

The results of the appointment of the Railway Commission have been very disappointing and unsatisfactory. There is no section of Canada that suffers more from excessive and unfair railway charges than the interior of British Columbia. The matter has been represented to the Railway Commission again and again without any relief. Is the Railway Commission another graft devised to blindfold and humbug the public?

The announcement that Lord Elgin and Winston Churchill may visit Canada this fall is interesting, but not very reliable. The country would be pleased to welcome the first Canadian-born Colonial Secretary, and even his under study would receive a hearty handshake, though he has not done anything startling since taking over his present job.

CHANGES IN RULES OF PROCEDURE IN HOUSE OF COMMONS.

Important changes were made in the rules regulating the procedure in the House of Commons, in the closing days of the session. The most important is that which requires a member to have the support of twenty members when he moves the adjournment of the House. A motion to adjourn is frequently made to enable a member to introduce some matter to the House which is possibly quite irrelevant, and the discussion of which is nothing more or less than a waste of time. Like many another special privilege, it has come to be greatly abused, and the requirement that in future twenty members shall act as sponsors, as it were, should reduce this objectionable practice to a minimum.

Another change provides that the House shall always rise at six o'clock on Wednesday—no evening session that night. On this day the House shall meet at one o'clock instead of at three.

Bews sells preparations to prevent vent mosquitoes biting, also to relieve the irritation of the bites. Try a bottle.

Nothing better than "Our Special.

Windermere is one of the prettiest places in the province. Situated on the shore of a beautiful lake, surrounded by a park-like country with fertile soil and a fine climate, it is just the sort of place that will form a favorite summer locality in the near future, where rich people will have charming homes, where boating, driving, fishing, hunting, may be had to the heart's content, and where the bracing air of the mountains infuses new life and energy. Ten milet south of Windermere are the Fairmont Hot Springs, where Brewer keeps a splendid stopping place, and Mrs. Brewer is a remarkably fine hostess. Mr. Brewer is arranging to enlarge his house so as to provide more accommodation for visitors.

Sixteen miles north of Windermere are the Sinclair Hot Springs, another coming health resort, though as yet no accommodation is provided. At Windermere itself a commodious and well furnished hotel is conducted by J. E. Stoddart, and those preferring private accommodation could no doubt secure it at R. A. Kimpton' palatial residence overlooking the lake.

FRUIT GROWING

is at present attracting a lot of attention in the Windermere district due to the success of Mr. Brewer's orchard at Fairmont, where have been successfully grown such hardy varieties of apples as Snow, St. Lawrence and crabs. Windermere people even got the idea they could rival the Okanagan Valley for peaches and actually tried it, but so far without success, as all the peach trees planted have been frost killed. There is no doubt the district will grow to perfection the hardier varieties of apples, pears, plums and cherries, and for small fruits it cannot be beaton. The field is therefore big enough and the growers feel that with their convenience to the Northwest market, once the railway is built, they will be in as good a position as any part of the province to supply the prairie market with fruit.

R. R. BRUCE,

of Paradise mining fame is doing wonders in the way of farming and fruit-growing to which he has turned his attention. Purchasing the Harris property, probably the finest ranch in the upper Columbia Valley, he has increased his holdings to about 1,100 acres of land. He has successfully tried growing winter wheat. He intends planting 100 acres in fruit trees and has put in the first lot of three and a half acres this spring. He is getting his land well cultivated and in readiness for its future crop of fruit. The soil is well suited for fruit-growing, a gravelly soil with good water supply. This spring Mr. Bruce put in 200 apple trees, all Baldwin and Sutton Beauties, thus showing that he understands the value of having few varieties and large quantities of each variety. He intends planting out five-acre blocks of each variety he adopts so that he will be able to make large shipments of one kind and thus command the best market. In addition to the apples, some plums, pears and cherries, and a quantity of small fruits have been planted out.

This season Mr. Bruce has 150 acres under crop—100 acres under wheat and oats and 50 acres in timothy for hay, and his crops are looking splendidly. He is doing extensive improvements, having put up a lot of new fencing and a barn and stable 26 feet by 35 feet, and two storeys in height is being built. Other out buildings will be erected shortly.

B. MORISEAU

has also planted out a lot of fruit-trees. In apples, Wealthy, Yellow Transparent, and Oldenburg are doing well. He has also plums, pears and cherries which promise well. He considers better success could be attained than usual for the first season or two by getting the fruit-trees in the spring, heeling them in for that season and planting out early next spring.

R. A. KIMPTON

is the most enterprising farmer and fruit-grower in the upper Columbia Valley at the present time. He has acquired over 800 acres of land right behind the townsite of Windermere, and the Brown property, which fronts the lake shore west of the town, is one of the prettiest places in the valley. In a wide, well-sheltered cooley behind Windermere, he has planted out about eight and a half acres of fruit-trees, and is adding another 3,000 trees this spring. He has done an immense amount of clearing, and cultivation, and has brought in water by a well-built ditch taken from Windermere creek. Being new at the business, Mr. Kimpton acknowledges he made the mistake of planting out too many varieties, but this gave him an opportunity of learning and selecting those which would do best. He has up-rooted the others and will now limit his orchard to the following varieties, which he finds do best in that section, namely Wealthy Macintosh Red, Ben Davis, Astrachan and Yellow Transparent, in apples. In plums he thinks the Lombard the only plum that will do really well. In cherries he is trying the Montmorency and English Morello. In pears he finds the Bartlett doing well.

Mr. Kimpton's orchard is a picture and well worth a visit. It is kept in

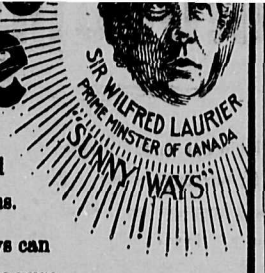
28. Commencing at a post marked "Gus Lund's north east corner," about 4 miles below McCullough Creek,

Sunshine Furnace

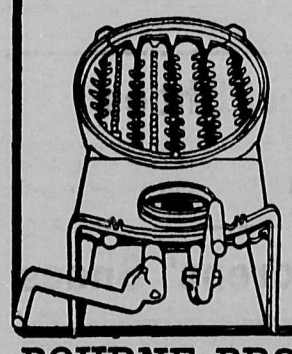


The "Sunshine" furnace and "sunny" ways are synonymous.

The cold, dreary winter days can be made cheery and warm with a pure, healthful heat if you have a "Sunshine" furnace.

Is easier to operate, cleaner, uses less fuel and "shines" in many other ways over common furnaces.

Two shakers are used to shake the heavy, triangular-shaped grates. This just cuts the work of shaking-down in half, besides being easier on the furnace than the old one-shaker style.



Sold by enterprising dealers everywhere.

Booklet free.

Notice is hereby given that 60 days after date we intend to apply to the Chief Commissioner of Lands and Works for permission to purchase the following described lands, situate near Tete Jaune Cache, Cariboo district, B. C.:

Commencing at a post planted on the Fraser River near Tete Jaune Cache and marked "N. T. Edwards' and R. A. Blackmore's south west corner post," thence north 80 chains, thence east 80 chains, thence south 80 chains, thence west 80 chains *to point of commencement*, Containing 640 acres more or less.

Dated 18th June, 1906.

N. T. EDWARDS,
R. A. BLACKMORE.

Certificate of Improvements.

NOTICE

Adventurer, Iron Duke, Watchman, Outlook and Sunshine mineral claims, situate in the Arrow Lake Mining Division of West Kootenay District.

Where located:—On the north side of Pingston Creek, about 5 *miles west of Arrow Lake.*

Take notice that I, John Drummond Anderson, P.L.S., of Trail, B. C., agent for Thomas Abriel, F.M.C. No. B95244; Richard Smith, F.M.C. No. B95245, and Elizabeth Scott, F.M.C. No. B95263, intend, sixty days from the date hereof, to apply to the Mining Recorder for Certificates of Improvements, for the purpose of obtaining Crown Grants of the above claims.

And further take *notice that action, under section* 37, must be commenced before the issuance of such Certificates of Improvements.

Dated this 28th day of June, 1906.

HOBSON & BELL,

GROCERS, BAKERS AND CONFECTIONERS

most of the trees leaves no doubt as to the ultimate success of the experiment. As an observant gentleman who was visiting the district remarked to us:—"I can see in sight an income of $7,000 to $8,000 a year to Mr. Kimpton from that orchard he is raising," and things certainly look that way.

Mr. Kimpton has also a considerable area of land in potatoes, grain and hay, and his farm and orchard are a credit to his industry and perseverance. He intends starting a nursery which will be a boom to the district as it will secure a supply of home grown stock, practically acclimatised, and growers can depend upon being supplied with varieties best suited to the district.

The Church of England here is one of the best equipped and furnished churches in the diocese, the books and furnishings having come from old St. Paul's, London, England, and form an interesting relic in church history. They were supplied by London St. Paul's on the representations of a brother-in-law of Rev. A. St. G. Smythe, who is connected with St. Paul's. Mr. Smythe was instrumental in the organisation of the church and successfully conducted the affairs of the parish in the face of many difficulties.

ATHALMER.

C. Cartwright, who used to conduct McMurdo House at Carbonate, south of Golden, is doing well as landlord of the Athalmer House. He is as big a rustler as ever. He recently sold a fine farm on the west side of the lake to Mr Goepel, the Government provincial auditor, who was struck with the beauty of the location, and fertility of the soil and looks forward to enjoying himself in this locality at some future time. Mr. Cartwright is now clearing sufficient of the Athalmer townsite in which he is interested to make a race track, and it is intended to have a race meet there shortly. Mr. Cartwright contemplates putting up a new hotel building at Athalmer.

Joseph Lake conducts a general store business, and is a great favorite with the people in the district. He has purchased a ranch about seven miles down the lake on the west side and is making a beautiful place of it.

The Columbia River Lumber Company have built big stores and warehouse here for supply of their lumber camps operating on Toby and Horsethief Creeks and back of the lakes.

R. S. Gallup has a pretty home on the lake shore, but intends going in for ranching and has purchased 2000 acres of excellent land from the C. P. R. on the north side of Horsethief Creek.

Another pretty location on the lake shore is that of J. H. Taynton, who combines ranching with brick making. His brick making plant is very complete, including a dry press, and he turns out an excellent article from clay on the lake shore. He is also going in for fruit growing and has planted out an orchard which looks well and gives promise of good returns. In apples the varieties grown are: Yellow Transparent, Duchess of Oldenburgh, Wealthy, Bismarck and Siberian crabs, and Tetoffsky, a Russian apple. In pears, the Koonce, a Russian variety. In cherries the varieties grown are: Vladimir, Ostheme and Montmorency. Mr. Taynton thinks the Montmorency will prove the best cherry for this section, and fears a success cannot be made of the growing of sweet cherries in that section. In plums, Mr. Taynton is growing Moore's Arctic, Lombard and Wild Goose. He thinks the Blue Pearmain will do well in this district. To our astonishment Mr. Taynton is making a success of growing the quince, the variety in his orchard being the Champion. Gooseberries, raspberries and currants do well. He urges that water be kept away from fruit trees in fall and considers many fruit trees are injured by want of this precaution.

Pleases every Smoker—the "Marca Vuelta."

DIED.

EDWARDS—At Revelstoke, B. C., on Sunday, July 22, 1906. Mrs. C. Edwards, aged 63 years.

Local and General.

Miss Bourne has accepted a position in the Red Cross Drug Store.

G. M. Clark is arranging to build a house on Second Street, next the Drill Hall.

Mrs. Dunn, wife of Thos. Dunn, formerly of Comaplix, died at Vancouver last week.

Ald. Tapping returned Saturday from a business trip through East Kootenay.

Russell Sage, the New York millionaire, died on Sunday. He left a fortune of $75,000,000.

Owing to absence of members the band will not play its usual open air concert on Friday night.

The man arrested at Comaplix last week for criminal assault on a little girl of six years will come up for trial today.

Billy Pulcifer was yesterday sentenced by Police Magestrate Gordon to one year's imprisonment for forgery and theft.

A bowling match was played last night between teams representing the C. P. R. and the C. B. Hume Co., the former team winning by 396 pins.

Miss Olive Robinson, the 16-year-old daughter of Mr and Mrs J. E. Robinson, of Chilliwack, committed suicide by taking a large dose of laudanum on Sunday afternoon.

An order-in-council was passed Saturday, awarding to the British Columbia Marine Railway Company, of Esquimalt, the contract for the construction of the hydrographic steamer to be used on the Pacific. The contract price is $143,000. The tender of the Victoria Machinery Company was $191,000. The tender of the Polson company was over $202,000.

The worst electric storm of the season passed over the city on Sunday. During the afternoon the mountains were a sight to see. The lightning flashed through the dark clouds hanging around the peaks. The lightning struck in six different places on the mountain above the power house and in each case set fire to the trees, which were soon ablaze. On the side of Mount Begbie the lightning set fire in a number of places, and a flash put out a fire on Mount Victoria. The rain following the electric display put out the fires before any damage to timber had been done.

Leave your orders early for Apricots and Peaches for preserving, as the supply is not expected to be very large this season—C. B Hume & Co.

Rev. Dr. Neill of Westminster Church, Toronto, to a Calgary Herald reporter a few days ago said: "I am impressed with the fact that Canadians do not make enough of their flags. The Americans emphasized theirs, and he believed that the new elements which were coming into Western Canada should know the flag and the free institutions which it represents. There was nothing to him in the eastern gossip about the annexation of the West. The Americans were satisfied under our flag, and they liked Canadian institutions."

A report comes from Yorkton, Sask, which goes to indicate that the Doukhobors have again broken out of their settlement, forsaken their homes and belongings, and set out on one of their fanatical pilgrimages. The authorities, who were doubtless well prepared for such a move, lost no time in showing the Doukhobors that they must abide by British law in order to become British citizens. Thirty-eight of the ring-leaders found themselves corralled by the Mounted Police, and subsequently were sentenced to a year's term in the penitentiary.

We understand that Chinamen are getting from $1.50 to $2.00 per day in our logging camps. If that is the case there is little wonder that farmers find it impossible to get help to look after the crops, and no wonder that the Chinese hold up employers of labor for big wages. Thousands of men in the eastern provinces are working for $1 and $1.25 per day and keeping large families. We do not believe in low wages, but we do believe that white men should have the preference over Mongolians every time, and something must be done to get the white man to put this country ahead. Every citizen and every employer of labor should look into this all important matter and use every possible influence to bring white emigrants here.—Cowichan Leader.

An alarm was turned in from Box No. 7 about one o'clock this morning to No. 2 Fire Hall, which aroused the neighborhood. The Brigade boys were prompt in turning out and were soon on the scene of the fire, which proved to be Hobson & Bell's Bakery, where smoke was seen issuing from the building, the cause being some wood which had been left in the oven over night catching fire.

Says a Nelson despatch: It is now rumored in political circles that the next provincial election will be rushed after a short session of the Legislature held early in the year to come. Candidates on both sides are being freely named, Dr. Hall and S. S. Taylor on the Liberal side, the latter probably being mentioned as a possible independent, while the Conservative choice is R. S. Lennie, or possibly Fred Starkey. The Socialist candidate will be George Fleming, a well known and prominent rancher.

Social and Personal

Mrs. J. Graham, of Calgary, is in the city on a visit to relatives.

Geo. S. McCarter returned last night from a business trip to Nelson.

T. B. Baker, manager of the Arrowhead branch of the Imperial Bank, is in the city in charge of the bank's branch here during Mr. Phipps' absence at the coast.

Mrs. McKittrick, Mrs. Melrose and Mrs. Matson, of Indianapolis, and Mrs. Lasley and daughter, of Mansfield, O., left on Monday morning on a trip through the Lardeau.

A. E. Phipps, manager of the Imperial Bank, left on Saturday night for Vancouver. Mr. Phipps' nephew, son of J. O. Benwell, of Vancouver, was one of the victims of the accident to the tug Chehalis on the narrows at Vancouver on Saturday afternoon.

Business Locals.

Try Bews' mosquito bite cure.

Pleases every smoker—the "Marca Vuelta."

Use Bews' Insect Powder to kill mosquitoes.

Wall paper, window shades and curtain fixtures, at C. B. Hume & Co.

Good discount for cash on all furniture at John E. Wood's.

A choice line of Lace and Tapestry Curtains at C. B. Hume & Co's

Headquarters for carpets, linoleums, floor oils, at John E. Wood's furniture store.

Carpets and Linoleums, choice colors and designs, at C. B. Hume & Co's.

We have still a few go-carts left which you can have at a bargain at John E. Wood's.

Just received at R. Howson & Co. Furniture Store a shipment of Linoleums; pretty patterns.

Bargains in Men's Oxfords, Patents and Dongola kids at $2.75, all sizes, C. B. Hume & Co., Ltd.

A line of new up-to-date summer neckwear and soft collars at C. B. Hume & Co's.

J. M. Doyle, of P. Burns & Co., is on a business trip to Trout Lake City.

THE LATE MRS. EDWARDS.

A wide circle of friends will regret the announcement of the death of Mrs C. Edwards, which occurred at the residence of Mr. Chas. Holten on Sunday morning. The deceased lady has been a great sufferer for some time, and while her death was not unexpected, the announcement that she had passed away on Sunday morning was received with keen sorrow by the many friends here. The late Mrs Edwards has been a resident of the city for many years, and is well known throughout the town and district. By her lovable nature and kindness of heart she endeared herself to many friends here, who will long cherish her memory for the many noble qualities she possessed. To the bereaved sons and daughters the MAIL-HERALD joins with the many friends here in extending to them their sympathy in their hour of sad bereavement.

THE FUNERAL.

The funeral of the late Mrs. C. Edwards took place this morning from the residence of Mr. and Mrs. Holten to the cemetery, where the remains were laid to rest beside that of her husband who had predeceased her eight years ago. Rev. C. A. Procunier preached the funeral service both at the house and the grave. There was a very large attendance of citizens, among them being many old timers, friends of the deceased, who knew her in the early days of her residence here and who were there to show their respect and esteem to one whom they learned to honor and love for her many womanly qualities.

Over and around the casket were piled in great profusion the wreaths from many friends, a marked evidence of the high esteem for the deceased lady.

The pall-bearers were Messrs. T. Kilpatrick, W. Cowan, F. Fraser, J. G. Barber, W. Morris, F. B. Wells.

CLEAN THEM OUT.

A number of arrests have been made of vagrants within the city limits the past week, who are up before the magistrate today to show cause. With the enormous demand for laborers effort to keep them within decent bounds. Vigorous action should be taken by the authorities to rid the country of this class and where possible the limit of the law should only be considered when they are brought up for trial.

NAKUSP.

From Our Own Correspondent.

The work train has arrived in town and will resume work near Nakusp.

Mr. and Mrs. F. Wensley and family who have been on their ranch at Box Lake, have returned to town.

Miss Logan, who has been visiting Mrs. E. J. Bangs, has left for the coast.

A crowd from Nakusp spent Sunday at Halcyon and report an enjoyable time.

Rev. Mr. Brown of New Denver exchanged pulpits with Rev. Campbell.

NOTCH HILL.

From our own correspondent.

Some good crops of hay are being cut this year and every available man is being employed to finish the work before the weather changes.

An electric storm of exceptional violence burst over the lake last Sunday evening. Heavy banks of ominous looking clouds had been gathering during the day and the smell of ozone was distinctly noticeable in the air. The storm burst at 7 p m. and raged for several hours, raising a heavy sea on the lake. Morris Bros.' motor boat battled against it for some time until a leak in the gasoline pipe necessitated the beaching of the boat through the surf, which was accomplished safely. Several trees were struck by lightning which was very vivid and close to the earth.

Funds are being raised by the Roman Catholic denomination for the erection of a church.

C. Jardine's fine new barn is completed and makes a very imposing show.

WHAT APPLES TO PLANT.

Mr. Maxwell Smith's Advice to Fruit Growers of the Province.

In a circular letter just issued, Mr. Maxwell Smith, Dominion Fruit Inspector, says:

I am frequently asked what variety of apples I should advise planting in the Okanagan Valley and other districts in British Columbia having similar climatic and soil conditions, that I have prepared the following list, and while there are, of course, a number of other good varieties, I can, with a reasonable degree of confidence, recommend the following as money makers:

Duchess of Oldenburg, Wealth, McIntosh Red, Gravenstein, Cox's Orange Pippin, Fameuse, Northern Spy, Escopus-Spitzenburg, Jonathan, Delicious, Stayman, Winesap, Yellow Newton Pippin

Of these twelve, eight are highly colored varieties of rare beauty, viz, Duchess of Oldenburg, Wealthy, McIntosh Red, Fameuse. Escopus Spitzenburgh, Jonathan, Delicious and Stayman Winesap, but the other four viz., Gravenstein, Cox's Orange Pippin, Northern Spy and Newton's Yellow Pippin possess such excellent qualities, and are so well known in the markets of the world, that I hardly think we can leave them out of the list. I should like to point out also that the keeping qualities of these 12 varieties are fairly well indicated by the order in which they are named; beginning with the Duchess of Oldenburgh, which does not keep successfully longer than the end of September, and ending with the Yellow Newton Pippin, which, under proper conditions, may be kept over till May.

There are four of these varieties, viz., Cox's Orange Pippin, Escopus Spitzenburgh, Stayman Winesap and Yellow Newton Pippin, concerning which particular care should be exercised to give the proper name when ordering, as there are inferior varieties bearing similar names; that is to say, there are Orange Pippins, Spitzenburgh, Winesaps and Newton Pippins which are of very inferior quality to the Cox Orange Pippin, the Escopus Spitzenburgh, Stayman Winesap and Yellow Newton Pippin.

While I submit the names of twelve varieties, I should not advise any one grower to plant more than four of these, and for convenience I should recommend dividing them into three groups, about as follows:

Group 1—Stayman Winesap, Johathan, Wealthy and Duchess of Oldenburgh.

Group 2—Delicious, Escopus Spitzenburgh, Fameuse, McIntosh Red.

Group 3—Yellow Newton Pippin, Northern Spy, Gravenstein and Cox's Orange Pippin.

In planting an orchard I should strongly advise against planting a large block of any one variety. The reason for this is the advisability of getting different varieties in close proximity, so as to render effectual the operation of interpollination by the action of wind and honey gathering insects.

NOTICE.

NOTICE is hereby given that 60 days after date I intend to apply to the Hon. Chief Commissioner of Lands and Works for permission to purchase the following described lands in the West Kootenay District, Galena Bay, east side of Upper Arrow Lake:—

Commencing at a post planted at the north east corner of Lot No. 2110, thence east 40 chains, south 40 chains, west 40 chains, north 40 chains to place of commencement.

Dated this 21st day of July, 1906.

BRUCE A. LAWSON.

OUR MIDSUMMER SALE

To-morrow we begin our First Clearance Sale of Summer Goods. We want all the room in our Store for our large stock of Fall and Winter Goods, which will begin to arrive next month, and from now until Saturday, August 11th, we will give you some genuine bargains on all lines of Summer Goods. We can only quote a few prices here, but you will find all Bargain Goods MARKED in plain figures.

Hosiery

In Hosiery we have some great bargains. We have the best line in town, and are selling Cotton Hose, Black and Tan—regular 25 cent lines—at 15c. Gauge Lisle Hose at 25c., Lace Hose, Black and Tan. Regular 60c., now 25c.

Wash Goods

Great Savings here in Seasonable Goods—Mercerised Goods—White grounds with colored dots and figures. Regular price, 35c. Now 25c.

Wash Muslins—A large variety. Regular 35c. to 50c. Now only 25c.

Japanese Crepe—Regular 25c. Now 17½c.

Prints—A big line. Regular 12½c. Now 10c.

White Cotton—9c. for 6c.; 8c. for 5c.

Wash Blouses

All Our Muslin Waists at One-Third Off. Colored Waists, 50c. each.

Handkerchiefs

For this Sale we have bought 15 dozen Hemstitched Linen Handkerchiefs. They come ½ dozen in a box and we are selling them at 40c., 50c., 60c. and 75c. per box.

Shoes, Shoes

Our Fall Stock is now on the way and we must have room for them. See our table of $2.00 and $3.00 Shoes. They sold from $3.00 to $5.00.

Childrens' Shoes

The odd lines of these must go and we have some snaps for the early comers.

TATLOW IS OPTIMISTIC

Foresees Population of Million a Decade Hence—Presents Figures of Wealth Production of B. C.

Prophecying a population of a million for British Columbia within ten years, and announcing that the wealth production of the province during the past year was over $50,000,000, Hon. R. G. Tatlow, provincial minister of finance, has issued a statement in which he details the remarkable progress made by the province in the twelve months which closed with the fiscal year. Speaking to the Victoria Times, Capt Tatlow said:

"I am satisfied that every industry in British Columbia is only in its infancy We have forests illimitable for lumber, land in millions of acres for agriculture and the seven thousand miles of shore line are washed by seas teeming with fish.

"To comprehend the future one must study the past. In order to do this with some correctness I had statistics prepared covering the past financial year and was surprised at the splendid showing. The total production of the province for the year ending June 30th, was over $50,000,000. As the population is in the vicinity of 200,000 including Indians, Mongolians, women and children I think it safe to say the total number of able bodied white men is not more than one-fifth of this, or 40,000. Dividing the total value of provincial products by this number it appears that for every white man there was produced considerably over $1,000 during the past year. I do not think any place in the world can equal this.

"Details of this production should be of public interest. Taking, first, the lumber industry the actual receipts were slightly over the estimate I gave at the end of June. The actual revenue from this source was $508,000 or within a fraction of double the estimate which was $325,000. In value the lumber cut exceeded all expectations. As closely as I can ascertain it reached over $7,500,000. And, best of all, it was manufactured in the province. The government did not reap all the benefit derived from the forests as would have been largely the case if export in a virgin state were permitted. Probably half of this large sum went into the pockets of the thousands of workmen employed in the industry.

"As you know in 1905 the mineral output of the province was $28,461,325. This was an extremely high figure for an industry only a few years old to reach and the most satisfactory feature about it is that practically all was not only mined but smelted here. There are now eleven smelters and one refinery in active operation with a combined capacity of 7,500 tons a day, and very little goes out of the province in the form of ore. Should at any time an inclination be apparent to ship much mineral from British Columbia before smelting, I should be in favor of a similar course to that taken regarding lumber and prohibit such exportation.

"Agriculture also advanced in common with every other line of work during the past year. This province has always been a great purchaser up till the present, but now the tide has turned. The most promising feature, I think, regarding this industry is the fact that our imports of this character are decreasing rapidly. Last year the produce of provincial farms and orchards reached the sum of $6,500,000, and there was a decrease in the value of such goods brought in of $500,000. If this rate is continued in a short time local produce will fully supply local markets. Mixed farming has done much to even things up. There are splendid opportunities for this in many sections of the province. The best evidence of this is the fact that we exported butter, eggs, poultry and cheese to the value of nearly $2,000,000.

"Horticulture is rapidly coming to the front. It is becoming one of our most important industries. The great success obtained at exhibitions, such as those in London and Winnipeg, will not be ephemeral; it is a sign of actual growth. In 1891 the acreage under fruit was 6,500; ten years later it had reached 7,500, but advancement has since been phenomenal. A year ago there were 22,000 acres cultivated by orchardist and fruit growers, and I fully believe that by the end of 1906, there will be 40,000 acres used in this manner.

"In time the growth of local nurseries will take the place of imported stock, but I may mention that already, during the present season, the provincial inspector has examined 1,250,000 trees. At present the growth of nursery stock is small, but next season should see 750,000 local trees placed on the market and the following year 1,500,000. In a few years we will commence to export.

"Fishing of course has long been an important item in the commerce of the province, but even this industry shows signs of great expansion. Improved methods of catching salmon will certainly enlarge the amount canned, but I refer particularly to the new factors recently introduced. For instance, the Nanaimo herring fisheries are developing with great rapidity, and I expect in the near future to see similar institutions started at other points. The oyster traffic is only in an experimental stage, but I see no reason that it should not become important. And, although whaling can hardly be termed fishing it is allied to it. This entirely new branch of commerce is too well known to people in Victoria to need comment from me, but I mention it to show the new lines in which the people are branching out. Mild curing of salmon is also comparatively new, but every fish put up has found a ready market, and the purchasers are clamoring for more. I look to see the wealth of our fisheries exploited in the near future much more than in the past.

When one considers these facts, and remembers that from the industries mentioned last year the province produced a value of $44,250,000, which other items increased to over $50,000,000 can there be the slightest doubt that the present prosperity will be maintained. Ten years from now a million population will be no idle dream, but probably an accomplished fact.

"There is room enough for all to come. New regions in the central interior of great fertility are being settled rapidly. Fresh discoveries of minerals are made every day; the surface of our mountains has hardly been scratched. Many parts of the world are looking to British Columbia for lumber, and there are countless millions of feet to meet this demand. Our fisheries are being developed more and more with the utmost success. We have the protection of the British flag and are an integral part of the empire. Such being the case I venture to state that ten years from now British Columbia will have attained the prominent place in the world that is her's by right."

FATAL FIRE AT VAN ANDA

VAN ANDA, July 24.—By the burning of a residence here on Sunday morning a little girl lost her life and a family have lost all their effects.

Mrs. Summer, wife of Harry Summer, arose a little before 6 o'clock to prepare breakfast. Her husband and two little children she left still asleep. After lighting a fire she went over to her sister, Mrs. Raper's, to obtain some eggs, and on her return found that her home was in flames. Her screams for help aroused her husband who rushed out of the house with the eldest child. The heat from the burning building was so intense that despite heroic attempts he was unable to rescue the younger girl until a change in the direction of the wind made the flames less threatening. The distracted father finally managed to reach his two-year-old daughter Annie, but she was so severely burned that she expired shortly after being taken from the building.

FIELD.

(From Our Own Correspondent).

Mrs. A. Blackburg and her children have returned to thei home in Revelstoke, after spending a week at the home of Mr. John Anderson, road master.

Miss Garvin, of Revelstoke, spent a couple of days with Mrs. Lynes on her way east.

"Dad" Allen, one of the old timers at Field, spent a few days in town last week. He has gone to live at Enderby in the Okangan valley.

Mrs. L. A. Warner has returned from her visit in the east and will live in Field.

Our electrician, Mr. Salmon, has brought his family from Vancouver to live in Field.

D. C. Frazer, brother of J. Gordon Frazer, druggist, spent Saturday and Sunday in town on his way to his home at Shoal Lake, Man.

Miss McEachron, who spent last summer at the Mount Stephen House, passed through Field last Sunday to take a position at the C. P. R. Chalet at Lake Louise.

Mrs. J. H. Newett and Mrs. Howard Macrae spent Tuesday up at Lake Louise.

On Saturday last a little daughter came to the home of Mr. and Mrs. Wm. McPherson.

W. O. Bunday was compelled on account of sickness to leave his work here and return to his home in Vancouver.

TROUT LAKE

J. R. Bottorff Closes Deal for Purchase of Broadview.

From our own correspondent.

About a year ago the Broadview was taken up by Trout Lake parties, more development work done and 13 cars of ore shipped during the winter months. Last week Messrs. Bottorff and Emmens, of the Elwood Tinworkers Mining Company, now operating the Silver Dollar, visited the property and were so well pleased with it that next morning a deal was put through by which they arranged to take hold of it on a working bond with a good buying price attached. The deal was closed at F. C. Elliott's office, Trout Lake. The new owners intend to get to work on the property at once. Mr. Emmens, the company's mining engineer, will take up his residence at Trout Lake, probably taking Mr. Baker's residence.

P. McGeorge, M. E., arrived this week to examine the Lucky Boy for the Philadelphia people interested in the property. He expects to spend some time in the district. Other visitors are also after mining property and the outlook is good.

THE LATEST TELEGRAMS

Britain Must Continue to Maintain Strong Navy—Jury in Dalton Murder Case give Verdict Against Prisoner.

LONDON, July 28.—The presentation of the centre piece for battleship Dominion took place at Plymouth yesterday. Lord Strathcona made a brief speech after which Lady Howard made the present tion. On base of centre piece is the inscription "One life, one flag, one fleet, one throne." "Britain must continue to maintain strong navy," this was the burden of the speeches at the banquet last night of the Iron and Steel Institute at Guildhall.

ST. PETERSBURG, July 28.—Efforts of the revolutionary members of parliament to proclaim a provisional government came to an inglorious end last night, owing to the refusal, at the last moment, of the constitutional democrats to join the movement. Count Witte refers to the recent speech of Premier Campbell-Bannerman on Russia as very regrettable. He cannot believe that it expresses the true feeling of the bulk of the British people.

NANAIMO, July 28.—The coroner's jury in the Dalton murder case have returned a verdict to the effect that death was caused by shots fired by Robert Stiles Featherstone. Provincial Police Supt. Hussey says that every possible effort will be made to hang the man who committed one of the foulest murders ever perpetrated in Canada.

CITY COUNCIL.

The City Council held their fortnightly meeting last night and a large amount of business was transacted. His Worship Mayor J. McLeod, Alds. Howson, Caley, Abrahamson, Palmer, Tapping and the City Clerk, were present.

The minutes of the last meeting were read and several communications concerning municipal business. Accounts were read and passed.

A communication from E.A. Haggen Agent for the Revelstoke Realty Co., was read, re the purchase of rock for macadamizing roads. It was decided that the rock was not needed this year, and also that it could be obtained cheaper elsewhere. The matter was left over for further consideration. A communication from G. H. Brock and E. H. Lewis was read complaining of the nuisance of cattle wandering in 6th Street. As this was not the first complaint, a resolution was made to take the poundkeeper from the day to the night shift for a time. A city by-law permits cattle in certain portions of the city, but they must be under a herder's charge. Ald. Abrahamson stated that many of the herders were boys. A further resolution was made that owners of cattle found damaging citizen's property should be made responsible.

Ald. Tapping in a report from the Public Works committee stated that the grading for a sidewalk was nearly complete, except on Government street, between Hospital and Paget's residence; also that the earth on sidewalks should be removed to prevent the wood rotting. T. Anderson, the contractor for sidewalks stated that if four stringers were to be used on 8 ft. sidewalks the cost would be increased. It was resolved to draw up new specifications, and Anderson agreed to carry on the work and to receive a further sum if any extra grading was necessary.

It was decided to allow H. A. Brown, Lieut. of the Militia Company, light at metre rates and water at $6 a year in the Drill Hall.

An inquiry had been made by the Council for the purpose of finding out where the fines under the Canada Criminal Code should be paid. Letters from Kamloops, Vancouver and Rossland stated that the city received them. In Revelstoke these fines had been paid to the Government and amounted to over $700. Ald. Abrahamson moved that a full report of fines paid to the Government should be forwarded to them and a demand made for their return. The motion was adopted.

In new business, a letter was read from the Educational Department to define the limits of the city for school assessment. Ald. Tapping moved that application be made to extend the Revelstoke school district to include the outlying portions submitted to the Council. The motion was carried.

The river bank question was discussed and Ald. Howson moved that the attention of both Provincial Government and Dominion Government be called to the state of the bank mattresses and also that they should take steps to prevent the destruction of the bank. The motion was adopted.

The Council adjourned at 10:30 p.m.

Owing to the onslaught of wind and rain and during a violent thunder storm on Wednesday afternoon a large mass of rock and earth became detached and crashed down on the track at Three Valley, striking the engine of a freight train (Engineer W. L. Boyd) which was passing at the time. The huge mass derailed the engine and several freight cars, which were driven zig-zag across the line.

Canada Drug & Book Co., Limited

DIED.

EDWARDS—At Revelstoke, B. C., on Sunday, July 22, 1906. Mrs. C. Edwards, aged 63 years.

Local and General.

Miss Bourne has accepted a position in the Red Cross Drug Store.

G. M. Clark is arranging to build a house on Second Street, next the Drill Hall.

Mrs. Dunn, wife of Thos. Dunn, formerly of Comaplix, died at Vancouver last week.

Ald. Tapping returned Saturday from a business trip through East Kootenay.

Russell Sage, the New York millionaire, died on Sunday. He left a fortune of $75,000,000.

Owing to absence of members the band will not play its usual open air concert on Friday night.

The man arrested at Comaplix last week for criminal assault on a little girl of six years will come up for trial today.

Billy Pulcifer was yesterday sentenced by Police Magestrate Gordon to one year's imprisonment for forgery and theft.

A bowling match was played last night between teams representing the C. P. R. and the C. B. Hume Co., the former team winning by 396 pins.

Miss Olive Robinson, the 16-year-old daughter of Mr and Mrs J. E. Robinson, of Chilliwack, committed suicide by taking a large dose of laudanum on Sunday afternoon.

An order-in-council was passed Saturday, awarding to the British Columbia Marine Railway Company, of Esquimalt, the contract for the construction of the hydrographic steamer to be used on the Pacific. The contract price is $143,000. The tender of the Victoria Machinery Company was $191,000. The tender of the Polson company was over $202,000.

The worst electric storm of the season passed over the city on Sunday. During the afternoon the mountains were a sight to see. The lightning flashed through the dark clouds hanging around the peaks. The lightning struck in six different places on the mountain above the power house and in each case set fire to the trees, which were soon ablaze. On the side of Mount Begbie the lightning set fire in a number of places, and a flash put out a fire on Mount Victoria. The rain following the electric display put out the fires before any damage to timber had been done.

Leave your orders early for Apricots and Peaches for preserving, as the supply is not expected to be very large this season—C. B. Hume & Co.

Rev. Dr. Neill of Westminster Church, Toronto, to a Calgary Herald reporter a few days ago said: "I am impressed with the fact that Canadians do not make enough of their flags. The Americans emphasized theirs, and he believed that the new elements which were coming into Western Canada should know the flag and the free institutions which it represents. There was nothing to him in the eastern gossip about the annexation of the West. The Americans were satisfied under our flag, and they liked Canadian institutions."

A report comes from Yorkton, Sask., which goes to indicate that the Doukhobors have again broken out of their settlement, forsaken their homes and belongings, and set out on one of their fanatical pilgrimages. The authorities, who were doubtless well prepared for such a move, lost no time in showing the Doukhobors that they must abide by British law in order to become British citizens. Thirty-eight of the ring-leaders found themselves corralled by the Mounted Police, and subsequently were sentenced to a year's term in the penitentiary.

We understand that Chinamen are getting from $1.50 to $2.00 per day in our logging camps. If that is the case there is little wonder that farmers find it impossible to get help to look after the crops, and no wonder that the Chinese hold up employers of labor for big wages. Thousands of men in the eastern provinces are working for $1 and $1.25 per day and keeping large families. We do not believe in low wages, but we do believe that white men should have the preference over Mongolians every time, and something must be done to get the white man to put this country ahead. Every citizen and every employer of labor should look into this all important matter and use every possible influence to bring white emigrants here.—Cowichan Leader.

An alarm was turned in from Box No. 7 about one o'clock this morning to No. 2 Fire Hall, which aroused the neighborhood. The Brigade boys were prompt in turning out and were soon on the scene of the fire, which proved to be Hobson & Bell's Bakery, where smoke was seen issuing from the building, the cause being some wood which had been left in the oven over night catching fire.

Says a Nelson despatch: It is now rumored in political circles that the next provincial election will be rushed after a short session of the Legislature held early in the year to come. Candidates on both sides are being freely named, Dr. Hall and S. S. Taylor on the Liberal side, the latter probably being mentioned as a possible independent, while the Conservative choice is R. S. Lennie, or possibly Fred Starkey. The Socialist candidate will be George Fleming, a well known and prominent rancher.

Social and Personal

Mrs. J. Graham, of Calgary, is in the city on a visit to relatives.

Geo. S. McCarter returned last night from a business trip to Nelson.

T. B. Baker, manager of the Arrowhead branch of the Imperial Bank, is in the city in charge of the bank's branch here during Mr. Phipps' absence at the coast.

Mrs. McKittrick, Mrs. Melrose and Mrs. Matson, of Indianapolis, and Mrs. Lasley and daughter, of Mansfield, O., left on Monday morning on a trip through the Lardeau.

A. E. Phipps, manager of the Imperial Bank, left on Saturday night for Vancouver. Mr. Phipps' nephew, son of J. O. Benwell, of Vancouver, was one of the victims of the accident to the tug Chehalis on the narrows at Vancouver on Saturday afternoon.

A line of new up-to-date summer neckwear and soft collars at C. B. Hume & Co's.

J. M. Doyle, of P. Burns & Co., is on a business trip to Trout Lake City.

THE LATE MRS. EDWARDS.

A wide circle of friends will regret the announcement of the death of Mrs C. Edwards, which occurred at the residence of Mr. Chas. Holten on Sunday morning. The deceased lady has been a great sufferer for some time, and while her death was not unexpected, the announcement that she had passed away on Sunday morning was received with keen sorrow by the many friends here. The late Mrs Edwards has been a resident of the city for many years, and is well known throughout the town and district. By her lovable nature and kindness of heart she endeared herself to many friends here, who will long cherish her memory for the many noble qualities she possessed. To the bereaved sons and daughters the MAIL-HERALD joins with the many friends here in extending to them their sympathy in their hour of sad bereavement.

THE FUNERAL

The funeral of the late Mrs. C. Edwards took place this morning from the residence of Mr. and Mrs. Holten to the cemetery, where the remains were laid to rest beside that of her husband who had predeceased her eight years ago. Rev. C. A. Procunier preached the funeral service both at the house and the grave. There was a very large attendance of citizens, among them being many old timers, friends of the deceased, who knew her in the early days of her residence here and who were there to show their respect and esteem to one whom they learned to honor and love for her many womanly qualities.

Over and around the casket were piled in great profusion the wreaths from many friends, a marked evidence of the high esteem for the deceased lady.

The pall-bearers were Messrs. T. Kilpatrick, W. Cowan, F. Fraser, J. G. Barber, W. Morris, F. B. Wells.

CLEAN THEM OUT.

A number of arrests have been made of vagrants within the city limits the past week, who are up before the magistrate today to show cause. With the enormous demand for laborers effort to keep them within decent bounds. Vigorous action should be taken by the authorities to rid the country of this class and where possible the limit of the law should only be considered when they are brought up for trial.

NAKUSP.

From Our Own Correspondent.

The work train has arrived in town and will resume work near Nakusp.

Mr. and Mrs. F. Wensley and family who have been on their ranch at Box Lake, have returned to town.

Miss Logan, who has been visiting Mrs. E. J. Bangs, has left for the coast.

A crowd from Nakusp spent Sunday at Halcyon and report an enjoyable time.

Rev. Mr. Brown of New Denver exchanged pulpits with Rev. Campbell.

NOTCH HILL.

From our own correspondent.

Some good crops of hay are being cut this year and every available man is being employed to finish the work before the weather changes.

An electric storm of exceptional violence burst over the lake last Sunday evening. Heavy banks of ominous looking clouds had been gathering during the day and the smell of ozone was distinctly noticeable in the air. The storm burst at 7 p m. and raged for several hours, raising a heavy sea on the lake. Morris Bros.' motor boat battled against it for some time until a leak in the gasoline pipe necessitated the beaching of the boat through the surf, which was accomplished safely. Several trees were struck by lightning which was very vivid and close to the earth.

Funds are being raised by the Roman Catholic denomination for the erection of a church.

C. Jardine's fine new barn is completed and makes a very imposing show.

WHAT APPLES TO PLANT.

Mr. Maxwell Smith's Advice to Fruit Growers of the Province.

In a circular letter just issued, Mr. Maxwell Smith, Dominion Fruit Inspector, says:

I am frequently asked what variety of apples I should advise planting in the Okanagan Valley and other districts in British Columbia having similar climatic and soil conditions, that I have prepared the following list, and while there are, of course, a number of other good varieties, I can, with a reasonable degree of confidence, recommend the following as money makers:

Duchess of Oldenburg, Wealth, McIntosh Red, Gravenstein, Cox's Orange Pippin, Fameuse, Northern Spy, Escopus-Spitzenburg, Jonathan, Delicious, Stayman, Winesap, Yellow Newton Pippin

Of these twelve, eight are highly colored varieties of rare beauty, viz., Duchess of Oldenburg, Wealthy, McIntosh Red, Fameuse. Escopus Spitzenburgh, Jonathan, Delicious and Stayman Winesap, but the other four viz., Gravenstein, Cox's Orange Pippin, Northern Spy and Newton's Yellow Pippin possess such excellent qualities, and are so well known in the markets of the world, that I hardly think we can leave them out of the list. I should like to point out also that the keeping qualities of these 12 varieties are fairly well indicated by the order in which they are named; beginning with the Duchess of Oldenburgh, which does not keep successfully longer than the end of September, and ending with the Yellow Newton Pippin, which, under proper conditions, may be kept over till May.

There are four of these varieties, viz., Cox's Orange Pippin, Escopus Spitzenburgh, Stayman Winesap and Yellow Newton Pippin, concerning which particular care should be exercised to give the proper name when ordering, as there are inferior varieties bearing similar names; that is to say, there are Orange Pippins, Spitzenburgh, Winesaps and Newton Pippins which are of very inferior quality to the Cox Orange Pippin, the Escopus Spitzenburgh, Stayman Winesap and Yellow Newton Pippin.

While I submit the names of twelve varieties, I should not advise any one grower to plant more than four of these, and for convenience I should recommend dividing them into three groups, about as follows:

Group 1—Stayman Winesap, Johathan, Wealthy and Duchess of Oldenburgh.

Group 2—Delicious, Escopus Spitzenburgh, Fameuse, McIntosh Red.

Group 3—Yellow Newton Pippin, Northern Spy, Gravenstein and Cox's Orange Pippin.

In planting an orchard I should strongly advise against planting a large block of any one variety. The reason for this is the advisability of getting different varieties in close proximity, so as to render effectual the operation of interpollination by the action of wind and honey gathering insects.

NOTICE.

NOTICE is hereby given that 60 days after date I intend to apply to the Hon. Chief Commissioner of Lands and Works for permission to purchase the following described lands in the West Kootenay District, Galena Bay, east side of Upper Arrow Lake:—

Commencing at a post planted at the north east corner of Lot No. 2110, thence east 40 chains, south 40 chains, west 40 chains, north 40 chains to place of commencement.

Dated this 21st day of July, 1906.

BRUCE A. LAWSON.

OUR MIDSUMMER SALE

To-morrow we begin our First Clearance Sale of Summer Goods. We want all the room in our Store for our large stock of Fall and Winter Goods, which will begin to arrive next month, and from now until Saturday, August 11th, we will give you some genuine bargains on all lines of Summer Goods.
