VIGILANT, NOT DORMANT ONES WILL BE THE WINNING CANDIDATES

No Cause for Inactivity---All Have An Equal Chance In the Mail-Herald's Race---Now Is the Time to Enter

Those interested in the Mail-Herald's great voting contest are beginning to hustle for votes in earnest. From now on, each day will show an increase in the way of interest and in the number of votes cast for the various candidates. It is easy to secure votes if you are ambitious and have a desire to win one of the valuable prizes the Mail-Herald is offering. Go among your friends and tell them that you want to win and you will be surprised at the ease with which the votes are secured. The prizes will be given to someone. Why not you?

The voting in the contest up to the present has not been very heavy but from now on it may be expected to increase daily. Tell your friends you are out to win and that you want their votes. People help those who help themselves, and if you want to become owner of the player- piano which the Mail-Herald is offering you will do well to speak to your friends before someone else solicits their subscriptions.

Remember that contestants are in no way restricted where they shall go to secure votes. Subscriptions may be secured anywhere.

There is no cause for any contestant getting discouraged over his or her chances of winning one of these valuable prizes to be given in the contest. There is almost six weeks yet to pass before the winners will be decided. The contest is just starting and a new candidate could start in today and with very little effort, soon be at the top of the list. Candidates have no cause to feel dispirited.

If the contestants feel that their prospects are hopeless and are in a quandary as to what to do, they can come to the contest department and get all the advice and help they need. They will be told how to get into the race right, and a visit to the office may mean the winning of the race.

Timidity, hesitation and apathy disappear as chaff before the wind, if contestants sit down and reason calmly and sensibly over their chances. You will soon realize that all have an equal chance. No one is favored. No prize is won yet, and with equal work and enthusiasm you are as able to win as anyone. If a contestant thinks and appreciates fully, what one of these prizes will mean, there will be no hesitation.

VOTE ANNOUNCEMENT WILL APPEAR IN NEXT ISSUE

The first published vote standing of candidates in the Mail-Herald's $1800 voting contest, will appear in next Saturday's paper. The standing will be of interest to all citizens of Revelstoke as well as to the candidates, inasmuch as it will show who are the active contestants and the results they have already accomplished. Candidates should do their best to have a good number of votes to their credit by that time. It will not only show your friends that you are anxious to secure one of the valuable prizes in the contest but will be of much satisfaction to your self and encouragement to do better.

During the last few days a number of people have called at the Mail-Herald to pay their subscriptions. When a subscriber pays for his paper in this way, he is asked to name the candidate for whom he wishes to vote and the votes are credited as indicated by him. Subscribers need not wait for their favorite to call on them but may bring or send their subscriptions to the office. Votes are issued on all subscription payments. Candidates are requested to turn in their votes before Saturday's issue.

Watch for the standing Saturday, it may contain some surprises.

UNION LABEL

WEDNESDAY, MAY 29th, 1912.

The nomination of Mr. R.F. Green as Conservative candidate for the Kootenays during the approaching bye-election, as unanimously agreed upon at the recent Conservative convention in Nelson, is in accordance with the prophesy made immediately after the announcement of the vacancy by this paper, and will meet with the approval of all Conservatives and progressive Liberals throughout this section of the Kootenays.

Mr. Green is an old parliamentary hand, well acquainted with and financially interested in the Kootenays, and he will make a good candidate from the local as well as the Dominion point of view. It is not believed that there will be any opposition and present appearances point to his election by acclamation.

The city council, as will be seen from the report of their last regular meeting published in this issue, are getting down to practical business. The test of the power plant, which has been hanging fire for many months, has now been completed and found satisfactory, whilst a definite move has also been made in the direction of finally clearing up the sewerage muddle, which for years past, has been a stumbling block in the path of civic progress.

Revelstoke has suffered in the past from a policy of shuffle, there has been a tendency to allow matters which might have better been decisively grappled with, to drag on, to the detriment of Revelstoke and the ratepayers.

The present council, as they become better acquainted with the duties and responsibilities of their office, are displaying a laudable tendency to get something done. The decision to proceed with the preparation of the tax sale notice for sewer and general taxes for the year 1910, has been arrived at only after mature consideration, and as the only practicable step out of the present difficulty. The public of Revelstoke, who realise the damage done to the city by the existing uncertainty regarding this sewer question, will, we feel sure, applaude this decision, and support the council in their projected policy. Once the sewer matter is disposed of the council be able to place the finances on a proper basis, and to proceed with those other important matters which demand at least a fair share of their attention.

The controversy regarding the admittance of two Hindu Women, ordered deported from British Columbia for having entered this province contrary to the Dominion Immigration Acts, and concerning which so much gallery play has been indulged in by certain parties claiming to stand for a White British Columbia, has at last been settled; in spite of the Deportation orders, and promises that the laws of Canada would be enforced these two women are to be allowed to remain!

In the opinion of the editor of this paper, such a back down on the vital question of the right of Canada to enforce its Immigration laws and protect the White people of British Columbia against the influx of unassimilable Asiatics, is a great mistake, and a very weak move on the part of the Dominion government.

These Hindo women, the so called wives of two Hindo agitators, who had come themselves uninvited into this White Man's Province, were brought over to Canada, in defiance of the laws of our country, and with the express purpose of making a test case as to the validity of the measures taken at the wish of every White settler in the province, to exclude the racial problem for ever from our midst. And, here we have the Dominion government, in face of such a situation, abandoning their guns, ignoring the wishes of the people of this province, and going back upon their own Immigration laws, for the sake of catering to two undesirable Hindus.

It is a mistake which has always been made by Dominion governments that they persist in catering to the most undesirable elements of the population. For years past the Japanese fishermen and coolies in this province, had been kow-towed to by Ottawa officials, whilst on the prairies, vast sums of public money have been squandered in trying to induce Dukabors and other offal of Europe, to transport themselves and their troubles at the public expenses to Canada. Agents were actually sent over to Russia, to promise these class of people free lands and transport, and bonuses paid to steamship companies, in order that such scum might be off-loaded into this country

It will be the hope of every loyal Conservative, that the present government will not continue this stupid policy of making pampered pets of the most undesirable classes, but the rather, that they will carry out the wishes of the people of British Columbia and of Canada, by setting a firm foot upon the pretensions of Asiatic and other undesirables, whose only ideal in entering this country, is to bleed Canada of its money and to establish here, the same rotten conditions of subsistence which they have already created in their native famine stricken lands.

The farms and fields of Old Ontario and Quebec, and the British stock of our Anglo Saxon fathers, is quite capable of supplying all the population Western Canada needs; it is an outrage upon the sons and daughters of the men who laid the foundations of Canadian National Life, to suggest that they are unable to populate this country, and to carry on to a triumphant finish, the work ably begun.

Time of game 5:15; umpires O'Brien and Gifford, on bases; scorer, Brennan.

The Kamloops team were managed by Mr. Frest. At 2:35 the teams were lined up, Mr. T. Kilpatrick threw the first ball opening the season, and amid cheers from the rooters for both sides, the game commenced.

The first innings was very uneventful, neither side scoring, but in the second, Revelstoke began to get busy Munroe made a hit and got to first, Houser also found the ball, and both men held the bases, Warner took the bat, made a hit, the pitcher stopped the ball, but made a wild throw to third, who fumbled, and Munroe got home. McInerny followed at the bat, sacrificed, and Houser got home. Score at end of second innings, 2—0 in favor of Revelstoke.

In the third innings, the Revelstoke pitcher, Estridge, began to demonstrate his superiority which continued to the end of the game, the Kamloops batsmen could not find the ball even with three men on bases they failed to score, whilst on the Revelstoke side, Houser continued his good work with the bat and the visitors were fortunate in saving themselves by good work in the field.

In the fifth Revelstoke made a neat double play, Munro to Houser, puttingting out base runners at first and second, and the end of the fifth innings saw the score still standing at 2—0.

In the sixth, the Kamloops players fell off considerably in the field, as a result of errors, Wilson and Munro got home for Revelstoke. Kamloops made a spurt in the sixth, getting one man home, acore at close of sixth, 4—1 in favor of Revelstoke.

After the sixth innings the play deteriorated on both sides, several long arguments took place between the umpire and the players, and a noisy crowd of spectators, children and dogs added to the confusion by encroaching upon the field of play. Everyone who thought they might lose two bits, considered it their duty to rag the umpire, and a large population of small boys sat on the base line where they would be able to help the catcher to miss the ball.

Kamloops got a man home in the eighth; in the ninth innings, the game fell to pieces, no less than five of the Revelstove team getting safely into port. Kamloops in a last spasm scored two, making the final total 9—4 in favor of Revelstoke.

The game was won by Revelstoke on the superiority of their batting and the good work of Pitcher Estridge. The Kamloops team did some good work in the field, but their batting was very weak, and they appeared to lose heart too early in the game.

The conduct of the spectators demonstrates that the public of Revelstoke need educating in the rules of the game; Umpire O'Brian did good work in a very difficult position, but he might have displayed more authority in ordering that the field be kept clear, and that the numerous but-in-skeys be confined to their proper place outside the ropes.

PREMIER GIVES GOOD ADVICE

London, May 25—Hon. Richard McBridem Premier of British Columbia, was kept very busy after his arrival in London. He found time, however to grant a few interviews. Discussing the question of investments in British Columbia he said:

"I have always tried to emphasize the necessity of investors either examining the properties themselves or taking particular care to get them examined by the most respectable and reliable local men. Some disappointment has been caused because a certain lumber concern failed to measure up to all the statements which I believe led to its organization here. This is a most regrettable incident. The world knows that we have perhaps the most extensive and valuable timber reserves in existence, and it has been most clearly demonstrated that with proper management the the business can be made to pay handsomely.

"Let it be well understood," the Premier added with emphasis, 'that we do not want a single dollars unless it is invested on right lines."

"The financial position of the province," he continued, "is very sound. We are carrying a tremendous surplus. Our guarantees to railway companies are not at all large compared with those of other provinces, which moreover, have not control of the Crown Lands within their boundaries as we have; and we get excellent security. There is more railway construction going on in British Columbia than in any other part of the Empire today; the various companies' plans for the next four years involve an expenditure of £15,000,000 or £16,000,000. It should also be said that this year the provincial legislature has voted upwards of £300,000 for wagon roads and bridges."

On the question of the prices asked for fruit lands in British Columbia, Mr. McBride said that as compared with such neighboring fruit districts as Wenatchee and Yakima, just over the frontier in the United States, these prices were by no means out of the way. Men who really threw themselves into the business and took proper care of it had made lots of money from their orchards.

Casey Jones

Oliver Labadie's latest comedy success which will be seen under the management of Norton & Andrew at the opera house, Saturday, June 1st, is a comedy of character types and is distinguished by an abundance of wholesome humor, energetic action, breezy repartee and sympathetic touches of human emotion, interspersed with numerous singing and dancing numbers.

Ollie Mack of Murray and Mack fame, will be seen in the role of the

jovial, typical Celt, "Casey Jones" who finds the romance of his life at Rosie O'Brien's villa.

Pearl Golding, formerly of Ziegfeld's "Follies of 1910", is well qualified to impart those quaint touches of romance and realism so pertinent to the part of Rosie O'Brien.

Marcia Harris, who was identified with Weber & Fields productions for three successive seasons makes notable the role of Miss Merrifield the spinster, who when asked if a long stocking would hold her most desired Xmas gifts, replied, "No, but a pair of socks would."

Had Learned His Lesson

It was the final examination of the medical students, and there was much subdued excitement.

"Now, suppose a man came to you evidently a well-to-do person." The examiner asked one bright young fellow, "and gave you a long list of symptoms. Say you sounded him and found absolutely nothing the matter what would you do?"

The bright young fellow dropped his left eyelid knowingly.

"Tell him he was very bad, and send him straight home to bed, and then visit him every day for a month," he replied succinctly.

The examiner made a mark on the paper before him.

"Passed with honors," he commented. "You're wasting your time here, my boy. Go away, and get your brass plate up as soon as possible."

Sikh Women May Remain

Ottawa, May 24—The wives of the two Sikhs who were detained at Vancouver for deportation because they had violated the immigration act and whose case has been under consideration by the government and before the courts for several months, will be allowed to remain in Canada. This has been decided upon by Hon. Robert Rogers, minister of the interior, as an act of grace and as the husbands of these women are now in Canada, but without establishing a precedent. In view of the decision the proceedings will be dropped.

H.H. Stevens, M.P. for Xancouver, was in Ottawa on Thursday and interviewed Mr. Rogers on the question Mr. Stevens urged that under the circumstances, the government exercise its clemency under the statute. Mr. Stevens has all along believed such cases should be dealt with on their individual merits and suggested that this be done in the case. This compared favorably with Mr. Rogers' own views and as a result, this action was decided on.

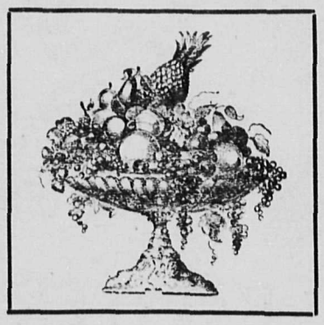
MALAKWA NOTES

Parties desiring information regarding the Valley of the Garden ol Eden, can obtain same free of charge by writing to Mr. J. H. Johnson, Malakwa, B. C.

A well known Winnipeg publication in a recent issue devotes considerable space to a special article on Fruit Growing in British Columbia. After going into details to substantiate its claims that fruit growing does pay well, it concludes.

"An instance of the big profits to be derived in this way is that of an owner of a small tract ofland in the famous Garden of Eden Valley in British Columbia, at Malakwa station on the main line of the C. P. R: Sticking to his work in a near by town, his wife and son worked the land, breaking two and a half acres the first year. The next season it went into vegetables and that year it showed a net profit of $1,500. It was only the other day that this Eden Valley settler refused a handsome figure for his land.



The Valley of "The Garden of Eden"

Situated at MALAKWA AND CRAIGELLACHIE, B. C.

Just 32 Miles West of Revelstoke, and Extending between Sicamous Junction to Three Valleys Station

Area of First-Class Land---20,000 Acres

Character of Land Principally Level.

Character of Soil Bench Lands, Clay Loam and Vegetable Mould, while on Lower Lands Black Loam Prevails.

No Irrigation Positively no irrigation is needed as Valley is sub-irrigated, and many creeks supply water for Domestic purposes.

This Land is specially adapted for Large and Small Fruits, as well as Hay and Vegetables.

Moderate Climate Freezing is Average Winter Weather.

PRICES OF LAND REASONABLE

For Further Particulars About This Garden Spot of B. C., Watch This Page of the MAIL-HERALD Each Week

"Another instance of the prolific growth at the Valley of the Garden of Eden, it instanced by a settler, who on an eight acre tract had one and a half acres planted in small fruits. At the end of the second year he had shipped 750 crates, which brought him an aggregate of $1.80 or $1,350."

The above are only two instances out of many others who are now making money in the Garden of Eden Valley at Malakwa, and if any one has doubts as to whether fruit farming in small or large fruits will pay or not, they have only to make a trip among the happy settlers of the Garden of Eden Valley and see for themselves.

By establishing high standards and the practice of high ideals both in the quality of their products and business methods, the fruit growers of the Valley of the Garden of Eden, should have a large share in building up the commercial character of this fair province, which like the golden beams of the summer twilight sheds its influence over the great Dominion of Canada.

NEWSPAPER BUSINESS

Of all the businesses or professions on earth it is probable there is none of which so many people who know nothing about it are so confident they could run it better than those engaged in it, than that of the news paper business.

I have wondered many times why it is that people think they know more about running a paper than the man qualified by experience and training to do it. Men who would never dream of asking a lawyer why he did not enter such and such a pleading in such and such a case, or of asking a doctor why he did prescribe thus and so for a certain patient, have not the slightest hesitation in querulously asking an editor why he did not pursue a certain course under circumstances. It never occurs to these men that their questions addressed to an editor are quite as impertinent and deserving of the same treatment as similar questions addressed to a doctor or a lawyer would be.

Then there is the class who think a newspaper exists as a medium for the exploitation of private ideas or for the pursuit of private feuds. In such cases these people of course expect the newspaper to take full responsibility for anything they may write anonymously. They seek shelter or try to, behind a pseudonym so that they can exploit topics upon which they would not dare to express themselves in public nor over their own name. Recently a man was quite indignant with me because I refused to publish a letter attacking a certain class of the community unless he signed his own name. It is a rule of this publication that all letters must be signedby the writers and this rule is being generally adopted by the reputable press of the country. That gentleman was quite willing to give offense to a large number of people in this city but he did not want to stand up and acknowledge his work. He wanted the paper to take the responsibility for it.

He claimed the paper did not need to assume responsibility for it and pointed out that some papers expressly disclaim any responsibility for letters from correspondents. No paper can dodge its responsibility for what is published in it. The laws of libel do not recognize any such immunity. Then why should an editor claim it for matter which while it might not be libelous, is still offensive? If a newspaper is liable for the insertion of libelous matter published as a letter from a correspondent it cannot shirk responsibility for giving currency to matter that is not libelous. Personally, I never refuse to admit responsibility for the publication of everything that goes into this paper whether I see it or not before publication. Someone is responsible to me for it and I therefore cannot evade mine. Nor will I permit anyone else to assume it.—Sunset.

HEAVY DRINKER CURED

Samaria Cured Him, and He Helps Others

A man who has been released from the awful cravings of drink, and whose first thought is to help others, shows the spirit of true brotherhood and philanthropy. Read his letter:

"The Samaria Remedy Co., Toronto, Ont.:

"Will you please send me book on drink, also circulars relating to your valued remedy for the drink habit? I wish to hand these to a friend who is going to ruin through drink. You will remember that I have taken your remedy, and I find it all you claim it to be. I never think of taking or using strong drink in any way, as all desire for it has left me. I cannot speak too highly of your wonderful remedy. You may use my name in any way you wish in public.

"H. Lilywhite, Brigden, Ontario."

Samaria Prescription is tasteless and odorless, and dissolves instantly in tea or coffee, or can be mixed with food. It can be given with or without the patient's knowledge. It removes the craving for drink, builds up the system and restores the nerves. Drink becomes distasteful and even nauseous.

Drink is a disease, not a crime. One drink of whiskey always invites another. The inflamed nerves and stomach create a craving that must either be satisfied by more whiskey or removed by scientific treatment like Samaria Prescription. Samaria Prescription has been in regular and successful use by Physicians and Hospitals for over ten years.

If you know of any family needing Samaria Prescription, tell them about it. If you have a husband, father or friend that is drifting into drink, help him save himself. Write to-day.

A FREE TRIAL PACKAGE of Samaria Prescription, with booklet, giving full particulars, testimonials, price, etc., will be sent absolutely free and postpaid in plain sealed package to anyone asking for it and mentioning this paper. Correspondence sacredly confidential. Write today. The Samaria Remedy Co., Dept. 46-49, Colborne street, Toronto, Canada. Also for sale by C. R. Macdonald, Druggist, Revelstoke, B. C.

FOR SALE CHEAP—Five year old driving Mare, rubber tyred buggy, cutter and single harness, all in good condition. Owner leaving the city. Box 914 City.

CITY COUNCIL

The city council met for regular business on Monday evening, May 27 Mayor Sutherland took the chair, present Alermen Bourne, Abrahamson and McSorley, City Clerk Lawson.

Minutes of last meeting adopted as read.

The assessment roll was read as follows:—Total amount for taxation, as per 1912 roll, amounts to $1,466,-805. Rate on this amount at twenty five mills the tax would amount to $36,670. The school tax amounts to $1600 making a grand total of $38,-270. Interest on sinking fund to be paid out of the general revenue amounts to $18,481.12, equal to 12½ mills on a tax rate of 25 mills. A discount of 1-6th upon a general rate of 12½ mills would amount to $3190, and the tax roll would stand as follows:

Gross Taxes	$38,270.00
Discount	3,190.00
Net	$35,080.00
Allowed as per estimate	$32,000.00
Arrears	3,080.00
	$35,080.00

The discount mentioned would offer a fair incentive to pay taxes and would in all probability bring in the amount required as per the estimates.

It is now in order to fix the date of the court of revision and name members, etc., as required by the Municipal Act.

CRICKET AT KAMLOOPS

The cricket match between the Kamloops cricket club and Revelstoke club played at Riverside park yesterday in delightful weather drew a large number of spectators and resulted in a win by 7 wickets for Kamloops. Kamloops lost the toss and Revelstoke decided to bat first, putting up a good total of 140 runs, obtained through bad bowling and errors in the field. Kamloops replied with only 75 runs, A.C. Longbourne, Pain and Pearse making 50 between them, Revelstoke fared badly in their second attempt, only compiling 63 runs, leaving Kamloops 129 runs to get to win, with only an hour and a quarter before drawing stumps. Excitement ran high during that time, Kamloops obtaining the necessary runs in one hour for the loss of only three batsmen, thus winning by 7 wickets. A. C. Longbourne batted brilliantly making 50 not out, while Godby, Savile and Pearse played dashing cricket. The bowling went to Field, Yolland and A.C. Longbourne, who bowled well throughout the match.

J. W. Chancellor Dies

J. W. Chancellor of Malakwa, British Columbia, a former Portagite, died May 17 in a hospital at Revelstoke, B.C., after an operation for cancer of the stomach.

Mr. Chancellor was born in Portage Jan. 20, 1855. He resided in this city until two years ggo, when he moved first to Spokane, Wash., and then Canada. His health had been failing several years, and he hoped the change of climate might bring relief. He was proprietor of a general store at Malakwa, a small village on the Canadian Pacific railroad.

During his residence in Portage Mr. Chancellor served as assistant postmaster under the late Capt. C. C. Dow in tne '80's. He was a justice of the peace in this city during a part of the '90's. Mr. Chancellor for a time was editor and proprietor of the Portage Advertiser, a weekly newspaper of long ago.

Mr. Chancellor is survived by his wife, a son, Myrl W., and two daughters, Carol and June.

Mr. Chancellor was buried at Revelstoke, last Sunday.

The family will move back to Portage during the coming summer. Mr. Chancellor sold his store and business at Malakwa the week before he died.—Portage Press.

Hard Luck and Success

Luck is the result of work, endurance and determination. The sooner a person who does their work with half hearted effort and who wastes their time waiting for something easy to turn up, realizes this the sooner they will be on the road to success. The person who banks on the future without making the most of the present is bound to be a failure. Dissatisfaction will be their's for chances come only when one is ready for them. Continued growling at fate creates a mental bomerang. It puts you in the down and out class with little hope of ever getting to the front.

The putting off until tomorrow is one of the shortest routes to failure. The thing put off until tomorrow is never done.

Progress is attained only by constant effort. The person who stands still has only himself to blame for lost chances. Only cowards accept failure without trying. Confidence in ones power, not conceit, is a valuable asset. If you are not sure of yourself, how can anyone else be sure of you. There is no need of one person allowing another to step in front of them, when with the exercise of their ability, they could hold their own.

Work one has not tried always looks bigger at a distance.

Blaze at Arrowhead

Early Monday morning fire broke out in Lightburne's hall at Arrowhead. The fire spread before a stiff lake breeze, which soon destroyed P. Burns & Co.'s meat market, also the C.P.R. freight shed. The town was fortunately to windward of the fire, otherwise nothing could have saved it from destruction.

The C.P.R. in respose to a wire, dispatched a special train with 100 men from Revelstoke. Three large box cars belonging to the C. P. R. were also consumed. A novel feature of this conflagration is the fact that quarter of a ton of dynamite was burnt up but did not explode.

Captain Johnson of the Arrowhead fire brigade, as well as the volunteer firemen, deserve great credit for the manner in which they fought the fire fiend. The total damage done is estimated at several thousand dollars, partly covered by insurance.

The Gibbons saw mill on the opposite side of the lake is nearly ready to start operations

The new mill, which has just been rebuilt to replace the one destroyed by fire, contains the very latest machinery with increased cutting capacity.

Trolling in the lake has resulted in some fine catches of trout during the last few days. The largest fish tipping the scales at 9 lbs., although the fishermen claim that one or two that "got away" were much larger.

The hotel is looking very smart now, having been entirely renovated outside and in, this spring, and the popular host and hostess, Mr. and Mrs. Boyd, are kept busy catering to their numerous guests.

One of the latest arrivals is Joey, who, to all appearances, has decided to take up his permanent residence here. Joey is a black bear cub, cute and playful as a kitten, and has made friends with everybody.
