CANADA SOLVES PROBLEM

T. P. O'Connor Wants Canadian System in England

In a forcible and brilliant speech before the Vancouver Canadian Club this week, T. P. O'Connor, the Irish Home Rule champion, among other things said that home rule had long been regarded as a circle, but in reality, it was only the segment of a circle, a small portion of a vast problem. He came to Canada not merely for financial support, but he had come because they had reached that stage in the struggle in which the opinion of Canada had a special right to be heard and would be listened to as it had never been before. "I don't know," he said, "whether you realize it or not in Vancouver, but in London we have discovered Canada." The bold Columbuses who have done so for the present are mainly to be found within that square mile in which the city of London deals with the financial affairs of the world. I could wish that the discovery of Canada extended far beyond that so that many of the toiling millions of our people would realize the splendid Eldorado that this great west offers to men with sturdy hearts.

I am entitled to come to Canada and ask you to petition the parliament of England to do the same for Ireland as has been done for you, that the same beneficent results may come to Ireland as have come to Canada.

"I repeat that it is the opinion of everybody in the British Isles that Canada is the brightest jewel in Britain's imperial crown, and, therefore t believe that the voice of Canada will be heard today with an attention that might have been refused to it at a previous period. In the second place, it has a right to be heard because you have solved successfully the very problem with which we are face to face in the Britist Isles. You have shown the world that it is perfectly possible to combine together national unity with local self-government.

He continued that after his journey through Canada he understood the case for local self-government. Not only climate and geographical conditions, but even races and creeds in the various provinces were so diff erent, that Canadians had made up their minds early that it was impossible they should all be governed by one body. Whilst Canadian they were British Columbia also and as such wished to deal with the demands of British Columbia themselves.

"I think we all agree as to the difficulties. We differ only as to the methods by which they shall be met. I see only one. I ask the people of the British Isles to reshape their government on Candian lines. In the main our contention is that in justice to the four great nationalities in to which the British Isles are divided, they should be able to deal with their local questions by a body which each locality brings into existence. And on the other hand the imperial parliament should rise to its lofty destinies by denuding itself of these petty local questions, and devote all its wisdom and all its strength to the task of governing the empire in a truly imperial spirit."

NEW C.P.R. TIMETABLE

Goes Into Effect Sunday, October 30th

The C. P. R. winter time table will go into effect on October 30th, and the trains will arrive and depart as follows from Revelstoke:

WESTBOUND.

No. 1, arrives 6:45 a.m., departs 7:05 a.m.

No. 97, arrives 6:55 p.m., departs, 7:15 p.m.

EASTBOUND.

No. 2, arrives 12:30 midnight, departs 12:45 midnight.

No. 96, arrives 8:45 a.m., departs, 9:05 a. m.

South train leaves Revelstoke at 9 a. m., arrives Revelstoke 5:25 p.m.

Trains No. 5 and 6 will be discontinued.

The C. P. R. have now over thirty new engines on this division, being the heaviest in Canada.

Every passenger train is now installed with a portable telephone out fit that can be hitched onto the wires from the train at any place along the line in case of emergency.

Camp Mountain View, C.O.W.O.W. are completing arrangements to make the whist tournament on the 26th a success. Tickets may be had from the committee in charge, or the chairman, V. Woodland.

B. C. FIREMEN MEET

Revelstoke Chiefs Secure Two Offices

Cranbrook, Oct. 21.—The British Columbia Firemen's association in convention on Wednesday elected officials as follows: President, Chief McDougall of Fernie; first vice-president, Chief Morrison of Vancouver; second vice-president, Chief Latham, of Kaslo; treasurer, Chief Foote, of Revelstoke; secretary, Assistant Chief Brock of Revelstoke; executive committee, Chiefs Savage, Latham Wand and Carlyle. The next annual convention will be held in the city of Vancouver.

Representing Revelstoke were Assistant Chiefs S. Needham and G.H. Brock.

British Columbia's Surplus

Victoria, Oct. 21.—The British Columbia governemnt has a surplus of $2,750,000 for the year, which ended on March 31st last. The province is in a position topay off thewhole of the public debt if it were policy to do so. The expenditure has been greatly augmented dur ing the past few years, and, notwith standing, there is a balance of actual cash of two and three-quarter million dollars in the treasury of the province.

Y.M.C.A. Notes

The R. R. Y. M. C. A. have a well lighted reading room open to all men, who desirous of spending a few hours, also a cosy lobby where the men can congragate and have a social chat. In another portion of the building is an American billiard table and pool table for the use of the members at a small niminal fee.

The bowling alleys are now in excellent condition. Three new lignum vita balls and a set of bawley pins have been placed on the alleys, and the members at a small nominal fee.

The result of last Wednesday evening's game, J. B. C.'s vs. C. P. R. was a win for the boys. C.P.R. total 1846, J.B.C's total 1866. Friday ev ening, Oct. 21, Business men vs. Corley's, total scores: Corley House, 1851; Business Men, 1983. Monday evening, Oct. 24, J.B.C. vs. Dent's.

Something Special

One of the best selected programs of moving pictures yet seen at the Edison theatre was shown on Thursday night to a crowded house. The pictures were of artistic as well as educational interest, all being excellent photographs. "On the Riviera" was particularly beautiful, showing the picturesque cities at this great European fashionable resort. Especially interesting to the children is a tour of the Berlin Zoo, showing the various animals. Another charming picture reveals wild birds in their native haunts, the films being daintily colored. The feature of the whole is the "Flower of the British Navy," showing some of the English Dreadnoughts, cruisers, and torpedo crafts. The whole program which is instructively interesting to young and old, will be produced again tonight, while for the matinee was held this afternoon. benefit of women and children, a Two performances will be given tonight at 8 and 9:30.

C. N. R. New Route

A survey party of fifteen engineers and assistants has been camped adjacent in the town of Lytton for the past month. The party is engaged in surveying a route for the Canadian Northern railway on the north side of the Thompson river and west side of the Fraser river, as an alternative to the route previously located by the Canadian Northern surveyor, which is on the same side of the river as the Canadian Pacific.

The latter railway company appeared to the board of railway commissioners objecting to the Canadian Northern railway running its lines immediately below theirs on the steep side hills on account of the sliding character of those hills. So the commissioners decided to employ an independent engineer who was to makesurveys and report on the merits of the two routes. Mr. C. E. Cartwright, consulting engineer, of Vancouver, was then selected by the two railways and the above party is in his employ.

Jeanne Russell and her high class company at the Edison on Monday for a week's engagement.

Gramaphone records and machine needles, etc., a big supply to choose from at Macdonald's Drug Store.

Regular shipments ham and bacon, stock always choice at McIntyre's.

THE NEW BOY

Revelstoke Amateurs Score Another Success

Seldom has the Revelstoke Amateur Dramatic Club made such a decided hit with the public during their long existance in the city as they did last night at the Edison theatre over the production of the comedy success "The New Boy." We went to see the play with the full intention of giving a sharp criticism over the work of the actors, for although they are all local and amateurs, and it is not usually good policy to crit ize them too much, whether they are good or bad, yet even an amateur who is really interested in his work and wants to excell in it, will have no objection to a fair criticsm when he knows that it is for his own good. We repeat that we want to criticize, but found very little that deserved disapproval.

The characters were well cast, and the general make-up excellent, while each showed that they had paid careful attention to detail and stage deportment. The only drawback was the rather mechanical acting of several of the company and a self-consciousness that, we admit, is difficult for an amateur to shake off, when before the public. "The New Boy" was a difficult piece to play, in that the dialogue was much interrup ted which gave a rather jerky tone to many parts which might have been attributed to hesitation on the part of the actor. As a matter of fact the play was rather dragged at times, the cues not being picked up sufficiently quickly.

As Rennick and Freddy, W. J. W. Brown made a decided hit, and acted his part excellently, his portrayal of the new boy being really clever. His make-up was good and we have never seen him to better advantage.

As Dr. Candy, D. M. Rae was as usual up to the mark and acted his part with the ease and attention that always characterized him on the stage, showing that he is quite at home there and lacking of the amateur's self conscious manner which stamps the old hander at the game.

As Felix Roach, W. M. Lawrence had a splendid make-up and did well although we have seen him do better before, his dialogue on this occasion being too hesitating.

C. W. Gordon, as the Frenchman, played his part with all the eccentric vim of the excitable "Crapaud," his accent and manner being very realistic.

R. H. Sawyer, as Bullock Major, lacked the correct make-up and costume, although he acted the bully very well, with the exception of a few long pauses caused by not being word perfect.

J. Donald, as Stubbes, was an ideal irascible farmer.

Mrs. D. M. Rae, as Mrs. Rennick, had a long difficult part, but played it exceedingly well, if a little mechanical at times, but her prompt picking up of cues and handsome stage appearance are worthy of special credit.

Mrs. S. Crowe, as Nancy, made her theatrical debut last night and acted most creditably, looking the part well. Mrs. Crowe deserves much encouragement and we hope that we shall see her again before the footlights.

Miss Cassie Fraser, as Susan, was also a debutante and although her allotted part was small, yet she looked most charming and showed much promise.

The scene set was artistic and handsome being the work of R. R. Copeland, and the whole play greatly enjoyed by the large house. The amateurs are very popular here and have a good reputation of high class work.

Jeanne Russell on Monday

On Monday night the Jeanne Russell company of high class players will commence a week's engagement at the Edison theatre. This company has a repertoire of excellent plays and during their tour have always drawn large houses. A peerless orchestra will provide the music for the performances. The opening bill on Monday will be the "American Girl," and will be followed during the week by some of the finest plays of today.

The company are all talented and the plays are elaborately staged. The Jeanne Russell company are considered to be one of the best on the continent. Seats are now on sale at Macdonald's drug store.

The annual meeting of the Ladies' Hospital Guild will be held in the City Hall, Tuesday next, the 25th, at 3:30 o'clock.

Just opened a choice line of writing papers and envelopes, the newest out at Macdonald's drug store.

Heaters

UNION LABEL 341

SATURDAY, OCT. 22ND, 1910.

One of the proposed devices of the French government for meeting increased expenditure is taxing on a higher scale the estates of persons leave fewer than three children or descendants. The scheme has been repeatedly endorsed by the Chamber of Deputies, although the Senate hitherto has rejected it. It is now reported that the Senate will give its approval to the proposed taxation. This scheme has another value in its being an incentive to maintain the birth rate. On the other hand it will work a great hardship on those who cannot afford to maintain a large family.

The policy of the Provincial government in the development of the country by means of good roads will meet with general approval for no better factor in the ultimate settling up and the prosperity of the province can be had. With an extensive system of roads connecting with the main interprovincial trunk road, settlers as well as towns people will be afforded a means of cheap and easy access in and out of the different localities. The development of B. C. means increased population, the opening up of new districts and the consequential wealth derived from the vast natural resources which make British Columbia the objective of the capitalists as well as the settler.

In Iowa forty-seven Methodist ministers have left the ministry because the salary of $500 a year is not sufficient to enable them to bring up their families properly, according to a recent statement made by the Toronto Mail and Empire. No one will blame the pastors for thinking of the flock at home in preference to that flock which looks for spirituel food and refuses to pay anything for it. With the clergy leaving the pulpit and the young men refusing to become students owing to the deprivations to which they will have to submit if they become clergy men, the outlook for the church in the future is not bright. Nor will it be a good thing for the nation if the efficiency of the churches should become impaired.

It seems that the people of New South Wales, Australia, have at last realized that the rule of the labor government with a big majority is not conducive to prosperity or to the best interests of the state. The recent election shows only two of a majority for the labor government and another election is the next step The plicy of the laborites has not been one which can be said to have materially assisted the working man but rather had the effect of laying a heavier burden upon him, as well as driving away intending investors in the country. Such policy has been the cause of very great dissatisfaction in the state and it is now hoped that a new regime and condition of affairs will allow the country to again make the great strides in commercial prosperity that were impossible under the labor party.

CLOSE UNION NECESSARY

Facts and figures show more plainly than anything else the strong relationship between great Britain and Canada and how necessary the two countries are to each other. One has population and capital and the other acreage and want of capital to exploit its natural wealth. It is significant to learn that during the last five years some $650,000,000 has been received by Canada from Great Britain for investment and during the past years Canada has received from London alone $150,000,000 for investments. This confidence in Canadian securities demonstrates that the English capitalists realize that their money can be quickly and safely turned over in Canada and that the many resources of this country are even more vast than have been yet shown. English capital will help Canada and Canadian wealth developed by that capital will give a liberal return, consequently a close relationship between the two countries is to be sought for Canada does not encourage imigration of inexperienced men, but rather those who have been educated and have practical knowledge and experience in all industries, for it is this class that will do more to draw into closer union the Mother and her eldest daughter, Canada.

UNNECESSARY DELAYS.

In regard to the general clamor throughout B. C. for adjustment of the land resistry offices, the Kamloops Standard says editorially:

"Every little hole and corner in the interior is howling for a registry office, and the excuse for the howl seems to be that the Kamloops registry office is three months behind with the work. If some of those who are unreasonably asking for the establishment of new offices were compelled to do business in Vancouver, where they are over a year behind, or in any other offices where they are from five to seven months behind, they might have some reason for their kick. As it is, the Kamloops office, badly undermanned as it is, has kept nearer up to date than any of the others in the province. The trouble simply lies in the system itself, which is bound to cause delays whenever there is any unusual rush of business."

We do not know anything about he condition of affairs in the registry office in Kamloops, although the Standard seems to admit that there is cause for complaint there, but there is never smoke without fire and the complaints of the provincial public are fully justified. As we said before we do not know what Kamloops is doing, but if all the holes and corners who have registry offices were to carry out their work in a business like manner, there would probably be nothing to complain of. As for the system causing delays if that is so, then those responsible for it should see that it is put right

TRAFALGAR DAY

Yesterday was the anniversary of the great battle of Trafalgar, when in 1805, Admiral Lord Nelson won the glorious victory over the French fleets, but sacrificed his life for his country. It is such deeds of empire that have secured for England her greatness and built up a vast heritage through the prowess of her sons. Although we cannot all be Nelson's, Wellington's or Wolfe's, still we each and all of us have our part to perform and do our share, no matter how small, for the building up, strengthening and expansion of the British Empire. It is not only the brilliant achievements, such as was celebrated yesterday that make an empire and a nation, but the many small acts of loyalty, progress, enterprise and right living on the part of the millions of British subjects, who, scattered in every corner of the globe, go to make up the whole. It is the unity of action along lines of development and commercial enterprise that in these modern days tends to increase the power of the British nation, and greatness and excellence in learning, and invention, the results of scientific research and study and the indomitable courage and aggression of the race that will win laurels for England, when the might of arms and sheer muscle in the good old days laid the foundation of our wonderful empire. England must perforce maintain her mastery of the sea and the high standard of naval and military excellence which is the emblem of her power, but much can be done by peace and diplomatic skill, by the development of British brain, a high sense of morality, and the healthy stock of our race, and by the undivided loyalty of all the integral parts of the empire to their sovereign.

A KILOWATT HOUR

What Electrical Power will do in Revelstoke

A Kilowatt Hour oiuytr ere ee

With the completion of the new power dam and the installation of the new electrical machinery, which with a three phase system, will provide the city with a continuous service of light and power day and night. Revelstoke will have a lot of cheap power to sell when the new plant is in working order, and the people will do well to study this and see how they can utilize electrical energy in their homes with economy and convenience.

The following is a little list showing Revelstoke citizens what one kilowatt hour which costs anywhere from 3c. to 15c., will do for them. We think that the list we have prepared will give the people a good idea and of bringing home to them the versatility of electrical power. In view of the fact that this power will be available all over the city shortly, and that the city council are trying to get the people to use it, the table below will be useful.

A kilowatt hour of electricity will:
Saw 300 feet of timber (deal).
Clean 5,000 knives.
Keep your feet warm for five hours
Clean 75 pairs of boots.
Clip five horses.
Warm your curling tongs every day in the year for three minutes and twice on Sundays.
Warm your shaving water every morning for a month.
Give you a 1250 imkressions on a Bremner royal printing machine.
Run a mechanical sieve for two hours.
Run an electric clock for ten hours
Iron 30 silk hats.
Light 3,000 cigars.
Knead eight sacks of flour into dough.
Fill and cork 250 dozen pint bottles.
Supply all the air required in an ordinary church organ for one service
Pump 100 gallons of water or other liquid to a height of 25 feet.
Run a plate-polishing machine for 28 hours.
Run an electric piano for 10 hours.
Lift 3½ tons 75 ft. in four minutes.
Give you three turkish light baths.
Keep your domestic irons in use for an hour.
Keep you warm in bed for 32 hours.
Warm all the beds in the house by warming pan for a fortnight.
Give you a fire in your bed room for an hour while you are dressing and undressing.
Boil nine kettles, each holding two pints of water.
Cook fifteen chops in fifteen minutes.
Run a small ventilating fan for 6 hours.
Keep your breakfast warm for five hours.
Run a sewing machine for 21 hours
Carry your dinner upstairs every day for a week.
Carry you 30 times from the bottom of the house to the top, 80 feet each journey.
Keep your coffee pot warm at the breakfast table every day for a week
Carry you three miles in an electrical brougham.

A Capable Company

On Friday, November 4th, Shakesideal comedy "Twelfth Night" will be presented here at the Edison theatre by Manager C. P. Wlaker's company of English players, including William Yule and Violet Eddy. This organization toured the west last season in "As You Like It" and made such an impression that their return in the new comedy is sure to be greeted by a crowded house. Mr. Yule is one of the leading Shakespearian comedians, while Miss Eddy has won many admirers by her charming portrayals of the immortal bards dainty heroines. A massive scenic equipment has been provided for the comedy, which will be staged in five acts and sixteen scenes.

Moving Pictures to-night.

Moving pictures tonight.

JEANNE RUSSELL and ETHEL BARRYMORE
Two stars made popular by "Cousin Kate."

Kootenay Logging Camps

Nakusp, Oct. 21.—Two large logging gangs have started work on opposite sides of the lake close to Nakusp. The Crescent Bay Orchards have a gang under Mr. Vipond, of Nelson, getting out some two million feet of logs and many thousand telegraph poles and ties from their own property two miles south of the town. Mr. Symons, of Pingston Creek, is equally busy on the west shore with similar work. The output from the local sawmills and pole yards have been very heavy during the last few months and the demand for lumber locally is very heavy, the wharf at Nakusp being littered daily with shipments to points along the lakes.

Wireless Record

Breaking all records for wireless communication on the Pacific ocean the Canadian-Austra,ian liner Makura, which arrived at Vancouver this week, spoke to the wireless station at San Francisco while 2,600 miles off the Golden Gate, and two days away from Honolulu. The previous records for Pacific wireless intercourse is that established by the Marama, which on her last trip from the Antipodes, spoke the Sitka station, 2,500 miles away, while lying in the harbor at Honolulu.

An Automobile Car

Railway officials on the Lake Superior division of the Canadian Pacific railway will hereafter make their trips of inspection in an automobile car. It is the first of its kind to be operated in Fort William. It has a buggy top. Gasoline is the motive power, and a speed of from 50 to 60 miles an hour can be obtained. It has seating capacity for eight.

Piping Hot Water Always Ready

for every occasion, with the Kootenay Steel Range, without "driving" the fire or wasting fuel. The generous firebox is built so that the water heats very rapidly as it passes through the water front, and gives a plentiful supply. One bath usually empties the boiler heated by an ordinary range with the result that the rest of the family must wait for more water to heat. Not so with the boiler attached to the water front of a

KOOTENAY Steel Range

because the Kootenay never fails to heat as much water as is required and as fast as it is used. The nearest McClary Agent will make clear to you the reasons why you ought to own a Kootenay. 56

Feb. 10—The Lyceum Players and Signor Romanilli, an Italian harpist, direction of C.P. Walker Edison Theatre.

DRUNKENNESS CAN BE CURED.

Old Fallacy That Drunkenness Cannot Be Cured Exploded.

Many men drink who desire to stop the habit. Whisky, however, has undermined the constitution and created a craving that is not to be denied, and the man must have whisky or something that will remove the craving and build up the system and restore the nerves.

Samaria Prescription stops the craving, steadies the nerves, builds up the general health and makes drink actually distasteful and nauseous. It is tasteless and odorless, and can be given with or without the patient's knowledge, in tea, coffee or food. It is used regularly by Physicians and Hospitals. It has cured thousands in Canada, and restored happiness to hundreds of homes.

Read what Mrs. G——, of Hull, says of it and what it did for her:

"It is four months to-day since I started to use your Remedy. I followed the directions, and had the best of results. One week after I started using your Remedy the patient stopped drinking, and has not drunk a glass of liquor since. I hope you will accept my heartfelt thanks. Hoping God will bless your Remedy whenever tried, I remain,

Mrs. G——, Hull, Que.
(Name withheld by request.)

Now, if there is anyone in your town who needs this Remedy, tell them of it. Practical philanthropy can take no better form. If you have a husband, father, brother or friend who drinks, help them help themselves. Write to-day.

A FREE TRIAL PACKAGE of Samaria, with Booklet giving full particulars, directions, testimonials, price, etc., will be sent in a plain sealed package to anyone mentioning this paper. Correspondence sacredly confidential. The trial package alone has often cured. Write to-day. The Samaria Remedy Company, 46 Jordan Chambers, Jordan street, Toronto. Also for sale by C. R. Macdonald, druggist, Revelstoke. x

Did Peary Reach the Pole

Professor Andres Galle, German astronomer, has announced his conviction that Commander Peary did not reach the North Pole and that the proof he substituted in support of his contentions were insufficient.

The methods used by Peary in reckoning his position in the Arctic, according to Professor Galle, were wholly unreliable.

"Under such conditions, even if Peary did reach the Pole, he would not have known it," asserted Professor Galle.

Shiloh's Cure

LIQUOR ACT, 1910.

(Section 42)

NOTICE is hereby given that, on the first day of December next, application will be made to the Superintendent of Provincial Police for a renewal of the hotel license to sell liquor by retail in the hotel known as the Hotel Beaton, situated at Beaton, in the Province of British Columbia.

Dated this 14th day of Oct, 1910.

JOHN A. THEW,
Oct. 15 Nov. 17 Applicant.

Hoboes and the Snowsheds

Up among the separated peaks of the Sierra the Central Pacific Railway company is trying to solve the problem of the age in making suitable disposition of the ubiquitous tramp.

From the picturesque town of Blue Canyon to Truckee is forty-three miles, and with able strategy the railroad generals have picked this section of the road as the battleground. The ultimatum has been issued that stealing rides on trains passing through the snowsheds must cease, and to walk through might result in a fire that would tie up trans continental traffic.

The smoke grimed wooden tunnel begins at Blue Canyon and ends on the heights above Donner lake.

Through the heart of the Sierra the sheds stand out in bas relief. A mighty monument it is to the energy nd constructible genuis of those giants of the early days. Crude were the tools—it was the day of black powder blasting—but the completed work stands typical of the dauntless courage of its creators.

Having decided that all beating of rains must stop, the company placd two officers at the Blue Canyon ortal. Both these men are of ried courage. In one month of May hey took vagrants off the trains and marched them up to the ticket ffice and compelled them to purchase tickets—the net results being a sale of over $250. The officers are commissioned by the Governor of California, but are paid by the company and wear the star and uniform of State Police.

So where the camp fires glitter from coast to coast the alarm has been sounded: 'The snowsheds are losed; its dig up or hike.'

New Liberal Organ

A deal has been completed at Prince Rupert this week by which he Liberal party takes over the Optimist newspaper, formerly owned by G. W. Morrow. Following the visit of Sir Wilfrid Laurier and party this summer to Prince Rupert, a move was made to secure a local organ for the party in line with the general plan to represent the province.

A Musical Success

One of the finest exhibitions of horal singing and unique of its kind will be given at the Edison heatre on Saturday night, Novemer 12th, by the Royal Welsh Ladies Choir from Cardiff, Wales. This aggregation of musical and vocal alent is without exception the best hat has ever visited Canada, and he Revelstoke people are fortunate nough to have the opportunity of hearing them.

The choir in the ensemble work ings with the precise perfection of an organ under a master's touch, evry section nicely balanced, and the oices carefully selected so that they blend as though all part of the ame instrument. At the same ime they sing with a verve and abandon rarely heard. In fact, although there are only twenty voices n the churos, they produced a volme of sound that fairly makes the all ring. The sopranos are particularly fine, with the bright, clear oices that are seldom heard apart rom the Old Country choirs, while hey are balanced by an exceptional ollection of contraltos.

The programmes of the chorus are afficiently varied as is also the cheme of costume, which is the quaint old time Welsh consisting of ed cloaks, aprons and high hats, vening dress being worn in the econd half of the programme. The oncert on November 12th will be a new feature for Revelstoke theatre oers and one which cannot fail to lease, the choir being highly traind in accent and precision, the whole eing the rarest treat of the present musical season which can be vouched or by Revelstoke people who have een fortunate enough to hear them.

Last of the Buffalo

Wainwright, Oct. 21.—The last hipment of buffalo for Wainwright ark arrived last night. There were 8 head, under Supt. Howard Douglas, the commissioner of Dominion parks. This shipment closes the ontract between the dominion government and Michael Pablo. The otal number is now in the park.

Sir Thos. Shaughnessy, president of the C.P.R., when passing through the city last week said that the matter of electrifying the company's mountain division is occupying their attention. In regard to extensions, all he would say was that the C.P.R. was prepared to extend its lines wherever business warranted.

Up to Date Emigration

London, Oct. 18.—The "ready made farms" which the Canadian Pacific Railway are now offering for sale are attracting a lot of attention from people intending to emigrate. An account of his experiences has been received from Mr. Hal Carleton, who writes from Strathmore, Alberta, Stratnore is on the main line of the C. P. R. sbout 30 miles east of Calgary, in the centre of the irrigated lands of the railway company. Mr. Carleton advices any one wishing for the free oken life of the West to go out and take up one of these farms. He says that ant one purchasing a farm and going out in April will find on his arrival a house, barn and well, his land all fenced and a crop of some 50 acres growing up, which will be ready to cut in August. All the cast is capitalized and is to be repaid by ten yearly install ments. He says that it can be done with a minimum capital of £200 in addition to the cost of the passage out. The company has a demonstration farm of a thousand acres close to Strathmore, where, under the guidance of a professor of agriculture one can learn, free of cost.

cost, everything that is required. It is not necessary, therefore, to under stand farming if one has brains and the capacity to learn and work.

Moving Pictures for Mothers

Boston, Mass., Oct. 18.—Education al possibilities of the motion picture world appeal to Dr. Martha Lovell, a physician and social worker of the South End district, and she has begun a campaign in favor of films which she declares will prove ehe foundation stones of a new phys ical uplift.

According to Dr. Lovell's plan one series of pictures would show how to wash a baby; another how to dust a room, how to dress the little one properly, and also what to do in case of accidents, such as cuts and minor injuries. On the screens at all the pictures will be displayed from time to time such admonitory mottoes as "Keep the windows open day and night." "Breathe through the nose, keeping the mouth shut," and "Work, but do not worry."

"I feel sure," explains Dr. Lovell, "that more actual good would be de rived from a week of instruction through the films in schools or civic centers than from a year of lectures, which the mothers can most infrequently be induced to attend.

"Motion pictures would reach the public under the best possible circumstances. A few minutes of instruction, interspersed with the ordinary run of approved films, would be readily assimilated, and, indeed, by most mothers thankfully received."

Highest Peak of Rockies

Montreal, Oct. 18.—Where are the highest peaks in the Selkirk Mountains?

It has always been supposed that they are in the vicinity of Glacier House on the C. P. R. In fact, Mr. A. O. Wheeler, president of the Canadian Alpine Club, and late chief of the field department of the Dominion Topographical Survey, has positively stated that there are no peaks south of the Dawson Range over 10,000 feet high.

This claim is now contested by Mr. Herbert W. Gleason of Boston, Mass., who has just returned from the Windermere district of British Columbia, which is south of the main line of the C. P. R., and near the Kootenay district.

"Last year," said Mr. Gleason today, "I was the guest of Earl Grey at his camp in tne valley of Toby Creek, and I went with him to the Earl Grey Pass, the divide between the Columbia valley and West Koote nay. From this pass we looked on a panorama of lofty peaks and magnificent glaciers such as we had never before seen. These peaks, I am convinced must be 12,000 or 13,000 feet high. This summer I organized a climbing party to explore this little known region. An ascent was made to Mount Hammond, which found to be 12,125 feet instead of the 10,000 as previously estimated. Mr. C. D. Ellis of Windermere, was the man to reach the summit, which is probably the highest point in the Selkirks yet reached by the foot of man. From the summit he noted eight or ten other peaks, which were obviously much higher than the one on which he stood."

The question now arises whether the highest peak in the whole of British Columbia is among the ones Mr. Ellis noted. According to present records, Mount Robson, near the Yellowhead Pass, is the highest peak in that province. Its altitude is 13,700 feet.

Mr. Gleason added that an automobile road was being built over the Sinclair Pass from Banff to Windermere which would prove one of the most magnificent automobile roads in the world. The C. P. R. was also building a railway up the Windermere Valley, from Cranbrook to Golden.

Beware the Scourge

The authorities of the immigration department acted with promptitude in notifying the quarantine officers at the various ports of entry to pay special attention to immigrants rom central Europe and quarantine without hesitation any suspicious cases of sickness so long as cholera rages in Russia and the Danubian re gion. It is to be hoped that the officers on the Pacific coast will be duly impressed with the dnager from that quarter also. Most of the immigrants from Russia come to the Atlantic seaboard, but there is a good deal of travel now across the Siberian steppes, and some of the travellers reach America by way of Vancouver, Seattle and San Francisco. The cholera outbreak in Russia is assuming very great proportions. Canada gets every year now many thousands of Russian Jews and other settlers who might easily bring the pest with them. Yesterday's cables announce that large areas in Siberia have been declared within the cholera zone, while in St. Peters burg itself there have been 670 cases and 219 deaths during the past two weeks. The utmost viligance must be exercised at every port, both on the Atlantic and Pacific.—Toronto Globe.

REID & YOUNG

LOCAL AND GENERAL

Robert Gordon, Frank Young and Chas. Holten have been appointed to represent the B. C. government on the board of the Revelstoke Hospital Society.

Remember the Hallowen Dance in Selkirk Hall under the auspices of the L. A. of B. R. T., Monday, Oct. 31st. Ladies' tickets 50c., gent's tickets $1.00 td

The hull for the new Arrow Lakes steamer for the C.P.R. is arriving in sections at Nakup from Toronto. The new vessel will be when completed one of the finest passenger steamers in the Interior.

All the young ladies interested in the evening classes at the Y. M. C. A. gymnasium are kindly asked to send in their names to H. B. Monroe, the Physical Director, or call at the office at the building any evening.

The postponed sitting of the Supreme Court will be held on Tuesday, October 25th, at the Court House at 11 a.m, and a sitting of the County Court of West Kootenay will be held on Friday, Oct. 28th.

The usual annual High school opening exercises will be held on Friday evening, Oct. 28, in the Oddfellows' hall; a good program is being prepared; the medals won at the Mid summer examinations will be presented to the successful candidates; Mr. J. S. Gordon, inspector of High schools, is expected to give an address.

Mayor Taylor, of Vancouver, has entered suit against Walter C. Nicol, proprietor of the Province newspaper, claiming $50,000 damages for alleged libel contained in four editorials in which it is claimed charges of graft were made against the mayor. Owing to pressure of business in the courts it will probably be some months before the case can reach a hearing.

Owing to the fact that A. McConnel who has been holding the liquor license for the Underwood hotel at Chase, Lake Shuswap, has not been residing on the premises where the license was taken out, it has been cancelled and the matter cannot be considered by the Government for a renewal till January next. The people of Chase think they have been badly treated and are taking steps to rectify the difficulty.

Steamboat Mountain, near Hope, B. C., where gold was struck some three months ago, promises to become one of the richest mining fields in the entire Province. A large area has been staked already, and it is the general opinion that a stampede of at least 5,000 men will take place in the spring. A townsite has been surveyed and the building of a good road is planned.

Active preparations are being made for the first annual winter poultry show under the auspices of the Revelstoke Poultry and Pet Stock Association is to be held on January 12 and 13. A large number of entries are being made and a first-class exhibition is anticipated. Local poultry breeders are busy making their coops and are getting ready to fatten up their stock and get them in first class condition.

Kootenay Agencies, Ltd.
Successors to Kincaid & Anderson

Rev. R. J. McIntyre will preach at the Methodist church at Enderby on Sunday.

First-class repertoire of plays at the Edison next week by the Jeanne Russell Co.

The regular meeting of the Select Vestry of St. Peter's church will be held at the Rectory on Wednesday, Oct. 26th, at 8 p. m.

Mr. Evans, who is in charge of the Boys' Brigade of the Methodist church, reports excellent pregress, the boys turning out well and taking keen interest in the work.

The Quadrille Club held their first dance in the Selkirk hall Thursday night. There was a good attendance and everybody reports a good time. The Club will hold their dance fortnightly in future.

A Scotch inventor has perfected a sled-like machine which when drawn over a road accurately records on a paper covered cylinder all irregularities in the road's surface. We venture to say that were that machine used in Revelstoke, the sketch on the cylinder after about ten minutes' work would be more like a drawing of the Selkirk mountains than anything else.

W. J. Law brought in some fine specimens of late strawberries and blackberries grown in his garden, some of a second crop raised this year. The berries are of excellent quality and taste and demonstrative of the wonderful fertility of the local soil and equable climate found in Revelstoke. Mr. Law hopes to have several boxes this week provided the rain keeps off. Strawberries in October are somewhat of a luxury and grown right at home are even more delightful.

We regret that the Fire, Water and Light Department of the City Council have been unable to prepare a statement of the expenditure of the money of Debenture F which is for the dam and power plant, in time for publication in to-day's issue. This, we hope will be done before our next issue, when we will publish the same. In reference to the output of the plant, however, when it is completed, it will be 750 k.w. without taking into consideration the extra power that would be obtained from the gas plant. By taking a load factor of 30 per cent. at 4 cents per k.w. and allowing 15 per cent. loss by transmission, the result would be about $68,011 increase per year although this estimate is very conservative.

The popular Jeanne Russell players will open a week's visit at the Edison on Monday night.

Keen interest is being taken on the bye-election in Fernie as the polling takes place to-day. Reports announce that the Roman Catholic vote will be practically solid for Hon. W. R. Ross, owing to the stand. Mr. Bennett's paper has taken on religious matters at various times. On the other hand the Labor and Socialist vote is strong for Mr. Bennett. Both candidates are popular men. The election is all the more interesting as Mr. Bennett was a resident of Revelstoke for some years. The Socialist party are very active and are hard at work in their candidate's interests.

Much activity in all lines of progress is taking place at Nakusp. Over 150 men are now being employed by the C.P.R. dock yard while a large gang is now at work on the fine new C.P.R. steamer being constructed there. The sawmill is running full capacity while all branches of business report good trade. A large number of tourists and sportsmen have visited Nakusp this season and the traffic in that direction is by no means over. Mrs. McKitrick of the Leland hotel, was a visitor to the city this week and stated that the upper floor of the Leland was being furnished and decorated to accommodate the increased volume of tourist traffic. Mrs. McKitrick purchased a large quantity of handsome furniture from R. Howson & Co. while here.

SOCIAL AND PERSONAL

T. H. Dunne of Arrowdead is renewing old acquaintances in the city.

W. Fraser and Rand Gibbons of the Gibbons Lumber Co., Pingston creek, are visitors in the city.

E. A. Bradley has returned to the city from a business visit to the United States.

F. C. Elliott, of Victoria, is a visitor to the city for a few days. Mr. Elliott who has valuable mineral claims on Queen Charlotte Island, states that the property is doing remarkably well.

Mr. Thos. Meredith, managing director of the Canadian Pacific Lumber Co., of Vancouver, was in the city on Wednesday evening en route to Winnipeg on a business trip. During his stay he visited the Gibbons Lumber Co.'s plant at Pingston creek, which has recently merged into the Canadian Pacific Lumber Co.

BUSINESS LOCALS

Chamois vests and protectors, any size you want at Macdonald's drug store.

Bell and Chili peppers at 10c. per lb. at McIntyre's.

Any new books you want look into Macdonald's drug store, they will likely have it.

After Supper Sale

NO. 42

You will not want to miss our "After Supper Sale" to-night, for the lines we are putting on sale are goods that everyone wants at this season. The goods are the best and the prices are lower than you could buy cheaper qualities for. Our Saturday night sales are a big saving chance. These prices rule from 7 p.m. till closing, neither before nor after.

Kid Gloves

Once before we offered this line and have often been asked if we were going to put it on again. Well, here it is! Perrin's and Fownes' guaranteed gloves, all colors and sizes, regular $1.50 TO-NIGHT—$1.00 Per Pair.

Drawn Linens

You all know the large variety we carry in these goods. To-night we will put out a lot of Lunch Cloths, Shams, etc., at half their regular prices. There are some beautiful patterns among them.

Neckwear

A lot of people were sorry that they missed the sale of Neckwear last week, so to-night we will give them a chance. Your choice of anything in collars, (plain, fancy or embroidered), jabots, bows, etc., at half price.

Silk Waists

We have a lot of new waists in silk and net, in black, ecru and the new shades. All sizes. Reg. prices from $5 to $6.50. We are going to clear them out to-night at $3.00.

Besides these, we have lots of other lines of seasonable goods priced for quick selling. You will save your money by spending it here.
