Preserved Fruits!!

Persons having to buy Preserves would do well to secure one particular Brand, known as
WAGSTAFFE'S.
They are put up in Glass Jars and are as near to HOME-MADE as Preserves could be.
The following are a few of the different kinds:

WAGSTAFFE'S PRESERVED PEACHES
" " RASPBERRIES
" " STRAWBERRIES
" " GOOSEBERRIES

We also have Jellies in the same Brand such as Black Currant, Red Currant and Crab Apple Jelly. Now, whether you intend purchasing or not, you should not fail to see these Fruits as they are very tempting and worth anybody's while to see the perfection that can be obtained.

Vast Quantity of Logs Scaled

The grand total of logs scaled on the British Columbia coast during the year 1907 has just been announced, the amount being 407,065,223 feet the average scaling per month being 33,922,102 feet. The greatest measurement of logs scaled in one month of the year passed through the hands of Mr. Andrew Haslam, supervisor of log scalers, in July, when no less than 47,764,544 feet were measured by the provincial government officials.

In January of last year there were scaled over 13,000,000 feet; that amount has been nearly reached so far this month, and it is probable that the total of scaling for the present month will be in the neighborhood of 20,000,000 feet.

Chamois Vests, chest protectors, all sizes, at C. K. Macdonald's.

PROVINCIAL LEGISLATURE

Thomas Taylor of Revelstoke, and J. H. Schofield of Ymir, Open Debate in Reply to the Speech from Throne.

The provincial legislature met on Friday at 2 p.m. T. Taylor of Revelstoke rose to move the address in reply to the speech from the throne. He reviewed the history of the movement to correct the invasion of the people of the east, commenting upon the reasons for disallowance advanced by Ottawa that B. C. lacked jurisdiction in the premises. He referred to the situation at Ottawa attending the development of the treaty with Japan, saying that the Dominion Government had failed to make good its promise of restriction, hence the large influx of Japanese. He commented upon Mr. McBride's mission to England for better terms, and his success, saying that the province had never received back in a fair ratio what it had paid into the Dominion treasury. He reviewed the financial record of the government and the surplus that had been produced. In speaking on timber and forestry he said that the government had taken a wise step in the conservation of the forests of B. C. which would prevent any further alienation of this valuable asset. He referred to the action of the government in granting lumbermen and millmen a security of title of timber berths covering a period of 21 years, instead of the methods of renewing licences year by year, which policy was unsatisfactory to all timber and mill men. He reviewed the mining industry as being prosperous saying that a record of a thirty million dollar product of metalliferous mines had been established. He commented on the increased coal output and touched on the good progress of the fruit industry. In discussing the civil service he said qualifying examinations would benefit the service and a superannuation would redound profitably.

Speaking further with reference to the administration of the timber lands. Mr. Taylor observed that under the present act that before the millmen began cutting they were obliged to make a survey. The millmen did not object to this. But there were cases where unsurveyed strips occurred between the surveyed acres, and he thought some arrangement should be arrived at with the millmen with respect to these unsurveyed strips, which if not operated upon would become a prey to forest fires. He suggested a change also with regard to the cancellation and renewal of licenses, contending that it was unfair that millmen operating large plants, and contributing a large annual revenue to the province, should be subject to the possibility of having their licenses cancelled if the fees were not forthcoming immediately upon lapse of tenure, as a default might occur through a clerical error or some unwitting inadvertence. The millmen, he thought, were entitled to some concession on this point.

Mr. Taylor then moved the reply which was seconded by J. H. Schofield (Ymir), who dwelt on the question of irrigation and topographical surveys.

RICH GOLD STRIKE

Stampede from Hazelton, B. C. to Finlay River.

HAZELTON, B. C., Jan. 21.—Far up near the confluence of the Ingenica and Finlay rivers, almost midway between the Canadian Rockies and Cassiar mountains, comes a report of a gold strike, the most important of any from northern fields for years. A stampede from here has followed the receipt of the news, and a large party of prospectors has now outfitted and gone to the scene of the new strike. More will follow. Two of the discoverers are with the party which left to-day. They had been in the district for two years and came out for an outfit.

From the discoverers, it is learned, the prospects are of the best, the gold brought out by them being extremely coarse. The diggings are reported shallow.

All the old-timers of this district are preparing to make a rush to the new fields.

Why use old dishes when you can buy a *full dinner set* for $10 at C. B Hume & Co's.

Ladies' and gent's visiting cards, the right shape to use. Sold at C. R. Macdonald's

THE LATEST TELEGRAMS

The Legislature—Sikh Temple Anarchist Plot — Dominion House—Costly Blaze—Electrify C. P. R.

VICTORIA, Jan. 22.—In the House yesterday, J. A. Macdonald, leader of the opposition, speaking to the address in reply, moved a vote of censure on the government for accepting the responsibility of the lieutenant-governor's action in refusing his assent to the Natal act, by their failure to resign.

The premier, in reply, argued that the lieutenant governor, when he was sworn in, received instructions from the governor-general to act on his own prerogative.

NEW WESTMINSTER, Jan. 22.—Over 200 Sikhs, resident mostly of Milleside, attended the opening of the Sikh temple at Vancouver yesterday morning.

RIO DE JANEIRO, Jan. 22.—The Brazilian police have discovered an anarchist plot here having as its object the destruction of part of the American fleet now lying in the harbor. The conspiracy, while centering in Rio de Janeiro and Petropolis, has ramifications in San Paulo and Minas Geraes.

OTTAWA, Jan. 22—Three resolutions were discussed in the Commons yesterday, on the abolition of the Senate, reform of the Senate and the Referendum.

SANTIAGO, Chili, Jan. 22.—A great fire at Temuco, a flourishing city in the south of Chili, has destroyed twenty blocks of buildings. The loss is more than $300,000. There is great distress among the poor.

DUBLIN, Jan. 22.—Lord Curzon of Keddlestone, ex-Viceroy of India, yesterday received a majority of the votes cast in the election to fill the vacancy among the Representative Peers of Ireland, caused by the death in November of Lord Kilmaine.

MONTREAL, Jan. 22.—Mr. William Whyte, second vice-president of the C.P.R., says that the electrification of the mountain section of the road has been under consideration for some time. Mr. Whyte is of the opinion that the idea is perfectly feasible, and that it will be carried into effect before very long. The first section that will likely be changed will be the Boundary section of the Crow's Nest Pass division.

New Theatrical Enterprise.

Messrs. Willis and Cosgrove, lessees of the Calgary Lyric theatre and Edmonton opera house, and proprietors of several Edison Theatre Parlors throughout the Territory, will open in Selkirk Hall next Monday evening.

There will be an entire change of pictures and illustrated songs on Monday and Thursday evenings of each week. Messrs. Willis and Cosgrove beg to assure the amusement loving public of Revelstoke that they will cater to the ladies and children particularly, and patrons need have no scruples in attending these performances as the class of pictures will be instructive as well as amusing. In Calgary and other places, running under their management, it is difficult to obtain even standing room, so great is the popularity of this class of entertainment.

The performances will start at 7.30 p.m. and continue till 10.30 p.m., making three continuous shows, so people may come and go at any time. The price of 15c. for adults and 10c. for children, will be within the reach of all.

Messrs. Willis and Cosgrove have been identified with the Bonnie Brier Bush, We Are King, Geo. Howard Stock Co., and several others, having a half financial interest with Mr. C. P. Walker of Winnipeg, in promoting these attractions for the territory.

The bookings in the near future are The Beggar Prince Opera Co. and the Montreal Maids, two excellent musical companies, which are booked at the Revelstoke Opera House.

B. C. Fruit Growers

At Victoria the B. C. Fruit Growers Association held its annual meeting this week, the following officers being elected:

Pres.—J. Johnston, Nelson.
1st. Vice-Pres. — S. Bartholomew, Summerland.
2nd. Vice-Pres.—A E. Gale, Keating
3rd. Vice-Pres.—A.B. McClenaghan, Golden.
4th. Vice-Pres.—T. Wilson, Vancouver.
Sec.-Treas.—W.J Brandrith, Ladner.
Executive—R. M. Palmer, Victoria; H. Kipp, Chilliwack; S. Bartholomew, Summerland; J. Johnston, Nelson; W. J. Brandrith, Ladner.

THE BOARD OF TRADE

Annual Meeting—Matters of an Important Nature Were Discussed.—Election of Offi- and Executive.

The general annual meeting of the Revelstoke Board of Trade was held last night with a good attendance C. F. Lindmark, as president, took the chair.

Minutes of the last meeting were read and adopted.

H. T. Jaffray, manager of the Imperial Bank, and Dr. W.H. Sutherland were unanimously elected members of the Board.

Communication in connection with improved C.P.R. train service, excursion rates and postal arrangements were read and filed.

In regard to the letter from W. J. Devitt, chief provincial constable at Nelson, re the losing of a man in the Columbia recently and the necessity of having a boat in readiness for emergency, the secretary was instructed to inform him that several boats were available for this purpose.

E. A. Haggen and the secretary were instructed to prepare articles on the financial condition of the district, advantages of the desirable locations for factories in this section, the same to be sent to the Monetary Times and also that the Board of Trade notes should be included. E. A. Haggen said that active steps be taken to open up the upper country, since the Grand Trunk Pacific were shortly coming through; he said it was a great opportunity to get in and advocate for direct communication from Revelstoke to tap the G. T. P., incidentally opening up a large area of rich land. The route from here was suitable in every way and only 180 miles separated Tete Jaune Cache from this city. The opening of the upper country would pay the government. This was very important and would increase Revelstoke's business.

G. S. McCarter in following along the lines suggested, said that the attention of the Grand Trunk Pacific should be called to the fact that the route from Revelstoke to Tete Jaune Cache is by far the most convenient of any for the transport of supplies since it was only 180 miles of a route altogether and with the construction of a tram round Death Rapids and a steamer on the upper river for another forty or fifty miles there would remain only about 40 miles of road construction or of a tram line to the seat of their operations at Tete Jaune Cache. The route as compared with that of Quesnel, Fort George and the Skeena river, was more practical and would cost considerably less, being more than half again as short. The G.T.P. should be advised as to all these particulars, especially the cheapness of obtaining power in that section.

A committee, consisting of Messrs. McCarter, Haggen and Gordon, were appointed to secure maps and data and to advise the G. T. P. of the suitability of the route from here and the great advantage for securing supplies for their construction operations.

The matter of the traffic bridge was discussed, the Board agreeing that the necessity for this was very urgent and would go a long way towards the development and opening up of the districts north of the city. It was pointed out that nearly every other city has one, and Revelstoke as chief city of this riding and one which brings in considerable revenue to the government, deserved this special grant. Representations had been repeatedly made to the government but as yet nothing had been done. Petitions had been largely signed and they should at once be submittid to the government and the necessity for a bridge pointed out.

A resolution was passed that a very urgent wire be immediately sent to T. Taylor, M.P.P., and the Premier, requesting that Mr. Gamble, provincial engineer, be sent to Revelstoke at once with a view of surveying a site for a traffic bridge over the Columbia, and of having an appropriation for this work included in the estimates for the year.

It was also resolved to complete the petition and forward it to the government.

F. Fraser said that the government should take steps to complete the mattress on the river bank; 500 feet more are required and heavy damage next high water will result unless this is done. The matter was left in the hands of the Government Agent to take up when Mr. Gamble came here.

The following officers were elected for the year:

President—F. B. Lewis.
Vice-Pres.—E. A. Haggen.
Secretary—H. Floyd.

Executive committee:—T. Kilpatrick, A. E. Kincaid, W. H. Pratt, C. F. Lindmark, J. P. McLennan, H. Cunningham Morris, G. S. McCarter, A. Johnson, W. M. Lawrence.

Mr. Lindmark resigned his chair to the new president, who said that he appreciated the honor conferred on him and that he would do his best for the board. He urged good attendance from the members and asked for their hearty co-operation in the work. He said that members must pay their dues and the board finally agreed that notices of arrears will be sent out to all members, and if not paid by a certain time, will be followed by a draft, which if not accepted, will be an acknowledgement that such members do not wish to remain in the board and will be cut out.

A committee of Messrs. Kincaid and Cunningham Morris was appointed to secure photos of Revelstoke scenery and industries for illustrative purposes in Colliers Weekly, New York. The meeting then terminated.

Bible Society Meetings

The annual Bible Society meeting under the auspices of the local branch took place last evening in St. Andrew's Church. The attendance was not large, but the meeting was of a very interesting character. The Revs. Procunier and Freeman, owing to engagements elsewhere, were unable to be present. The addresses of Rev. T. W. Hall and Rev. J. R. Robertson were of an exceedingly excellent character and much appreciated by those present. The collection amounted to $16 70. The proceedings were brought to a close by the benediction pronounced by Rev. T. W. Hall.

Keeping Well Supplied
Is a wise practice in every well regulated household, and in nothing does this rule apply more than in Groceries which are daily needed in every home. Think over what you want in the way of Coffee, Tea, Cocoa, Sugar, Flour, Jams, Jellies, Fruits, Nuts, Cheese, Butter, Spices, etc. We have the finest qualities procurable.

There is so much bad in the best of us,
And so much good in the worst of us,
That it hardly behooves any of us.
To talk about the rest of us.

WEDNESDAY, JANUARY 22, 1908

THE CANADIAN FLAG

The proposal to fly a flag over each public school in British Columbia has caused some astounding statements to be made in the press and by Boards of Trustees all over the province. The provincial Minister of Education aas urged the adoption of the Union Jack or the Jack-of-the-Union, as the official emblem and points out that this flag and no other can be recognised by the government, at the same stating that the so-called Canadian flag—the Canadian merchant service ensign, with the Canadian coat of arms in the lower right corner, has no official status outside the merchant service. We understand that the eastern provinces are about to adopt the Canadian merchant service flag as the one to be put in general use over their schools and that Dr. Young has written the officials of these provinces urging the adoption by those in the east of the Union Jack. We would point out that while the Union Jack, which is the real national flag of the Empire, and as such can only be flown by the government, army, navy and imperial dependencies, is the flag that ought to wave over our schools and is the official emblem of the government yet at the same time there is nothing to show or demonstate to our children and the rising generation that Canada, their homeland, is represented. Although we are born and reared under the shadow of the Union Jack, still every branch of the Empire naturally wishes to have its respective emblem in conjunction with that of the Imperial escutcheon, so that we may feel that in a Canadian flag we can be reminded of the allegiance due by us to the Motherland and to the land of our adoption, and also that with the emblem waving over our heads we may see "Canada," and thus honor and tevere the colors which are the significance of her greatness. With the official recognition of a real Canadian Flag that may be used throughout the Dominion, loyalty both to the crown and to our own land would be far more largely demonstrated. The Union Jack cannot be used by any British subject, and every flag of that kind that is flown must bear some mark or border which distinguishes it from the official Union Jack as used by the Government. We as Canadians then may not use the correct Union Jack, and since every true Canadian loves his country and its emblem there is no reason why Canada should not have a flag officially recognised which she and her people may use to demonstrate their loyalty both to the Imperial sovereignty as well as to the bond of true Canadianism.

A PUBLIC DUTY.

The new city council has been duly sworn in and have all signified their intentions of getting down to hard work for the interests of the community. We are all still citizens of Revelstoke and as such must each do our part in the carrying out of city business and give the new council our heartiest support for the advancement of the city's interests. It is alright to get out and make a fight in a civic campaign, in fact the keener the competition the better and more sure the result, but when the contest is over, drop it; let there be no post mortems, but rather let all get together, both winning and defeated candidates alike, those who voted for the winners and those who voted for the losers; let there be no hard feelings and let us all get down to study what is best for our city, her furtherance and advancement. There is lots of work to do and every one should do his or her share in helping to make Revelstoke brighter, better and more progressive day by day. Some of us perhaps cannot do much but everybody can get in and do their bit. The council to carry out the wishes of the people whom they represent must use a firm, impartial policy and have the confidence of the electors, for there is as much for the community as a whole to do as lies in the hands of their council and a citizen's duty does not by any means cease after he has polled his vote.

CANADA'S SOUND CONDITION

The policy which marks a great corporation like the C.P.R., says the Montreal Standard, is indicative of industrial and commercial conditions.

The shareholders of the company met the other day for fifteen minutes and sanctioned the issue of $24,000,000 of new stock, to be used. as the president, Sir Thomas Shaughnessy, remarked, on the improvement of the property of the stockholders.

Sir Thomas was in an optimistic mood. He saw, in his mind's eye, the continual growth of the Dominion, which must be met by the company by increased expenditures. Sir Thomas is known to be daring, but he is also eminently cautious; and when he speaks hopefully of the immediate future it is a stimulus te Canadians.

A great corporation like the C. P.R. which employs forty thousand men, and which in its operation effects the life, more or less directly, on the entire population, may be regarded as a business barometer. When it reaches out and plans for extensions and the spending of many millions, it may be fairly assumed that the general condition of the country is healthy, though temporary shrinkage and restriction may hint themselves here and there. There can be little fear of bad times when a great corporation is willing to spend $24,000,000 upon extensions.

AN APOSTROPHE

An Unwelcome Visitor in Revelstoke Causes Trouble.

This is the season when the grip fiend is abroad and running amuck in the city puts many unsuspecting citizens under the weather. This unseen and invidious foe has already many victims and there is nothing we dread more. The following from "Colliers" gives an interesting eulogy on the all prevalent germ:

Hail, Grip-germ! We who are about to die (unless you do it first) salute you! You rule the roost. You are the easy boss of everything from destiny to five-o'clock tea conversation. When you emerge from your secret lairs upon a stricken world our vaunted medical science lies down and grovels. Well has Scott sung you, O Bacillus:

"When pain and anguish wring the brown,
A red-hot, ring-tailed demon thou!"

and Gray melodiously moralized

"The purse-proud doctors wends his weary way,
And leaves the germ to quinine and to me."

"What boots it that spectacled wisdom, in laboratories, has put you under the microscope, isolated and described you, "mugged" you for its Rogues' Gallery, and painted your horns pink for further identification? What avails it that the wise doctors bump their learned degrees together in conference over your displeasing apparance and character, the while you romp abroad in our fevered veins, and practise fell dexterities upon our sneezing apparatus? What we want is not description and measurement of you, O genius of a thousand pangs. Handsome is as handsome does. Our crying need, in a very literal sense, is a cure, and a quick one; and we don't much care whether it comes in the form of pill, powder, amulet, or sudden death. Like the late Lord Tennyson, who, under similar delirious conditions made himself an awful nose of Dawn, "We can but hope that somehow good will be the final goal of pills," and, patiently awaiting the worst, with the afflicted Tentmaker:

"Sneeze, for we know not whence ye come nor why!
Sneeze, for we know not when ye go nor where!"

And so, exalted above all lesser topics such as New Year's pledges, high finance, dementia Americana, civic elections, we salute you, bacterial prodigy. Once more, hail. All ha—Where's that handkerchief.

Pulp Manufacturing

By next September the works of the Canadian Pacific Sulphite and Paper Company at Swanson Bay will be in operation according to the plans of Mr. J. M. MacKinnon, resident director of the company as expressed today. Everything of course depends upon the delivery of the machinery, but it is expected that the full plant will be installed and ready for running by September.

SOVEREIGN BANK

Absorbed by Others—Institution in Liquidation.

The Sovereign Bank of Canada, one of the newer of Canadian banking concerns, is in liquidation. Vancouver bankers, who are thoroughly familiar with the subject of the bank's failure, were not only not surprised at the announcement of this, but declare that the incident is without significance at the present time as reflecting financial conditions in Canada. The important feature of the failure is that its causes all occurred a year or more ago.

"The management of the bank has been above reproach since the change of management many months ago," said a well known financial authority in Vancouver. "But what transpired before that time resulted in the institution going into liquidation.

The second important feature is that other Canadian banks will absorb all of the seventy-nine branches of the bank throughout Eastern Canada. All depositors will be paid in full or become depositors in other banks if they see fit. Interest from a financial standpoint centres on the point of how good or how poorly the shareholders will fare.

CANADIANS START BANKS

Vancouver and Spokane Capital Join in Banking System

SPOKANE, Jan. 22—The British-American Bank has been formed here to operate six banks in Eastern Washington, headquarters to be at Spokane. A. C. Flummerfelt, of Vancouver, president of the International Coal Company, is president.

H. N. Galer, of Spokane, a wealthy coal mine operator, is vice-president, and D. M. Rogers, a Canadian coal mad, is also heavily interested. The capital will be $1,000,000.

The cities where the banks will be established have not been made public. The banks will be started in April and will use the Canadion system of banking.

LEGION OF FRONTIERSMEN

Plan Big Scouting Manoeuvers for Early Spring.

Preparations are quietly under way for scouting manoeuvers by the Legion of Frontiersmen as soon as fine weather begins. A rumor, though denied from some sources, has it that the Legion is waiting for official recognition from the Dominion government, but whether this recognition comes or not, it is presumed by the members here that scouting work will be organized in the spring

The Legion of Frontiersmen has now fifty members in Vancouver. It is a British institution organized in Great Britain and all the colonies and consists of former army men, skilled in the arts of war, who will train themselves to all the trails of the districts in which they live so as to be of immediate service in case of war to any commander who may take charge of the forces in the field, but be ignorant of geographical conditions. The necessity of such an organization was practically demonstrated during the South African war.

Bert Blythe of Arrowhead is the organizing officer of this district.

Ideal Mayor

One of the principal requirements of a mayor in Germany is unqualified honesty, for in the municipal administration of that country "graft" in any form would not be tolerated; in fact, it is unknown. To become the mayor of a city like Berlin, according to a United States Consular report from that city, the applicant must have established his reputation for efficiency in governing other German communities. His career is carefully scrutinized by the members of the Town Council who select him, for not only must he be competent to perform successfully the duties of his high position, but he must still be young and likely to remain competent for many years, for a mayor in Prussia is elected for a term of 12 years, and if not re-elected after that period is entitled to a life pension of half the amount of his salary. After a service of six years his pension is one-fourth of his salary, and after serving twenty years two thirds. He need not necessarily be a resident of the city whose mayoral chair he fills; in fact, the mayor is usually chosen from the residents of other cities.

SIGNS OF THE TIMES

$50,000,000 Will be Spent on Railway Construction in 1909

A supposed authoritory states that $50,000,000 will be spent on railway construction in Canada the present year. If such extensive building is carried out, and it is not improbable, there ought not to be any general recession in business, says Toronto Saturday Night. It would mean the importation of a large amount of capital in the shape of building material and general merchandise, and while the expenditure continued times naturally would be good. The trouble would come later, but with average weather the fertile lands of the West would bring wealth which would greatly more than compensate for the outlay

Shifting C.P.R. Superintendents

MEDICINE HAT, Alta., Jan. 21.—Although no official announcement has been made, it is generally understood that the superintendents in this and some of the other adjacent divisions of the C. P. R. are to be shifted around in the near future. Superintendent Lawrence, it is rumored, goes to Saskatoon, being replaced here by Superintendent J. G. Taylor of Fort William. Superintendent Browlee of Moose Jaw is supposed to be slated for Cranbrook, while Superintendent Erickson of that district is to be moved into another branch of the service.

British Canadian Wood Pulp and Paper Co.

LIMITED.

313 Cordova Street, Vancouver, B. C.

We have established the townsite of Port Mellon on Howe Sound, 25 miles from Vancouver and secured the water rights of Rainy River, which is capable of developing from 2,000 to 5,000 horse-power, for the location of our mammoth plant for the manufacture of newspaper, building paper, wrapping paper, etc., the plant to have a capacity of 450 tons of finished paper per week; the company hope to have the pulp plant in operation by November 1, 1908.

We now offer for subscription the balance of the first allotment of Preferred Stock in blocks of 100 at $1.00 per share each 100 Shares entitled to a bonus of 25 Shares of Preferred.

SPECIAL NOTICE!

In the event of the first allotment is over-subscribed the Company reserves the right to reduce any or all subscription to an amount satisfactory to themselves.

The preferred stock is entitled to a dividend of 7 per cent. commencing November 1, 1908. The 7 per cent. dividend is due and payable before any dividend is paid upon the common stock. After 7 per cent. has been paid upon preferred both stocks thereafter participate equally. There is no good reason why the preferred should not pay from 25 to 50 per cent. dividends.

The books of the corporation are open at any time for the inspection of the general public. There is no watered stock, no inflated values, no ground-floor plan, or huge promoters' projects in the enterprise. Unlike most corporations, instead of allowing 15 to 25 per cent. for advertising, and sale of stock, the entire commission, literature, newspaper advertising, brokerage, office expenses, etc., is limited to 10 per cent.

The public are cordially invited to visit our demonstrating plant, 313 Cordova street, and witness the manufacture of pulp and paper from refuse material, such as slabs, discarded shingle bolts, etc., that is now being burnt at the local mills.

Patronize Home Industry. Smoke Revelstoke Cigars.

CITY COUNCIL

First Meeting and Appointment of Committees.

The first meeting of the newly elected city council was held on Monday night with Mayor Lindmark and Aldermen Sawyer, McCarter, Foote, Stone, Woodland and Lefeaux present.

Police Magistrate A. M. Pinkham, prior to the opening of the meeting, performed the necessary requirements for the swearing in of the new board.

The minutes of the last meeting were read and adopted.

The principal business at this the first meeting was the appointment of the various committees, the following aldermen being on the several boards:

Public Works—R. H. Sawyer (chairman), W. A. Foote, J. J Woodland.

Fire, Water and Light—J. J. Woodland (chairman), J. A. Stone, W. A. Foote.

Finance—W. W. Lefeaux (chairman) G. S. McCarter, J. A. Stone.

Health and Bylaws—J. A. Stone (chairman), G. S. McCarter, J. J. Woodland.

A resolution was passed arranging for the council to meet on alternate Fridays, commencing Friday, Jan. 24.

The mayor then suggested that the council should recommend to the government for appointment, Alderman McCarter as licence commissioner and Alderman Sawyer as police commissioner.

Alderman McCarter said that the government has the right of making such appointments through the recommendation of the local member of parliament only and the council had no right to butt in and court a turn down by the government. He pointed out that the council had better leave it alone since it was not the custom to make a recommendation of any sort. The matter was then dropped

The Mayor in a few words briefly stated his intentions for the year of managing the city's business, pointing out that there was a lot of work ahead and that he in his responsible office would work for the best interests of the city and would try and carry out a beneficial and progressive policy. The council might differ in personal matters, but as a council they should pull together for the city's interests and success. Important issues needed close attention and finances must be placed on a sound basis.

The aldermen then, individually, signified their intention of getting down to hard work and attested their desire to do all in their power for the city's interests.

A resolution was passed that the financial statement of the past year should be published in the MAIL-HERALD for three weeks and copies printed for circulation.

The meeting then terminated.

FINANCIAL

Money More Plentiful and Stocks Rally.

The Columbia Agencies report:

The week has seen the fulfillment of recent optimistic predictions. The Bank of England has reduced its rate to five per cent, the banks of France and Germany have followed suit, the premium on American currency has disappeared and payments resumed hoarded money is flowing back to the banks, the American bank deficit has disappeared and is replaced with a surplus, remedial measures to prevent a recurrence of existing conditions are planned by an additional bank circulation of $250,000,000 and the guarantee of deposits in the National banks standard stocks haxe rallied to rather over the point at which they stood before the crisis. The year thus opens well, and there is no occasion for pessimism.

At the annual meeting of the Bank of Commerce, President Walker foreshadowed brighter conditions in world-wide finance and great prosperity for Canada. Pierpont Morgan says the year's outlook is of a substantial character.

Silver has risen to 58¾, and copper also shows improvement. The world's supply of gold, which is now $90,000,000 per annum, is likely to be increased this year by improved conditions in South Africa, where dividends of 10, 12 and 15 per cent are now the rule. The famous Homestake is again paying dividends after nine months cessation.

In Canada the mining situation is better. At Cobalt Nipissing shipped ore to the value of $1,375,000 during the year and has about as much in sight, with the result that shares are again up. There is also more activity in British Columbia mining stocks. Granby is a leader, having risen to 99. This mine is xpected to produce this year 270,000,000 lbs. of copper at a cost of 9c., and a dividend is expected in April. North Star has declared another dividend of 2c

It is felt that the valuable privileges accorded the chartered banks are given not for their benefit, but for the accommodation of the public. The banks are not regarded as justified in meeting the financial stringency with a single eye to their own interests and without a sense of duty to the public.

With a margin of eleven and a half millions and the danger past there is no excuse for the further refusal of loans on unimpeachable security.

It remains for the banks to restore necessary confidence in it to recognizing the stability of commercial conditions and responding to the needs they are expected to meet. The large cash reserves, accumulated for safety, should not be retained in financial pride to the further detriment of the business community.

Basket Ball.

An exciting game of basket ball will take place tonight at 9 o'clock, when the Uppercrusters meet the C.P.R. Shops and Offices in "deadly" conflict. This is the Uppercrusters last chance of making a league showing, and they will doubtless put up a tiff game.

The league standing is as follows:

	Played	Won	Lost
C.P.R. Road	2	2	0
C.P.R Shop-Offices	1	1	0
Gym. Team	3	2	1
Uppercrusters	2	0	2
Shamrocks	2	0	2

The medals which go with the championship are presented by R. N. Doyle, and are on exhibition in his jewelery store window. They are of a handsome design and should make the teams keener than ever to play good ball. The public are invited.

Just opened a big shipment of throat lozenges, ju-jubes and cough drops, any kind you wish for at C. R. Macdonald's.

RESOLVED—WE ARE MAKING A POINT OF STYLE AS WELL AS QUALITY! WE HAVE MADE OUR MARK BUT WE ARE MARKING DOWN NOW
BUSTER BROWN

A Pointer.
WE HAVE MADE OUR MARK IN THE CITY BECAUSE WE HAVE ALWAYS TRIED TO GIVE OUR PATRONS MERCHANDISE THAT IS GOOD. WE BELIEVE IN ASKING ONLY A FAIR PRICE FOR GOOD MERCHANDISE AND NOT SELLING POOR STUFF AT ANY PRICE.
JUST NOW YOU WILL SAVE MONEY BY COMING TO OUR STORE, FOR WE HAVE A LOT OF LINES WE DO NOT WISH TO CARRY OVER AND ARE MAKING REDUCTIONS THAT WILL MAKE YOUR MONEY HATE A LONG REACH.
Come and See Our Mark-Downs. Here Are a Few of Them:
