TREMENDOUS FIRE

VANCOUVER, June 4.—With his camp reduced to ashes and forced to retire with his men from the island for fear of their lives being endangered, Mr. Dave Esson, who operates a logging camp on Knox Bay, Thurlow island, arrived last night on the Cassiar and reported the largest fire ever known up coast. All the valuable timber on the island is being licked up by the flames.

RAIL AND STEAMER

The s.s. Revelstoke is doing her regular running from the landing above the canyon.

The inventor of the air brake, one of the greatest public benefactors of this day and generation is dead, and *but for the invention of the late Mr.* Clark the speed of railway trains would have to be limited to the extent implied by effective control under given circumstances. Mr. Clark is deserving of a suitable monument.

THE LATEST TELEGRAMS

Distinguished Visitors — Irish Bill Dropped — The English Derby—Libel Case.

OTTAWA, June 5.—Duke D'Abruzzi will arrive in Quebec with the fleet of Italian warships he commands, about June 20th, and will begin a tour of the principal cities of Canada.

LONDON, June 5.—The Irish Bill was formally dropped by the Government this afternoon, with scant ceremony.

LONDON, June 5.—The Blue Ribbon of the English turf, which is held for over the mile and a half course at Epsom, will be run today, for a big purse of $32,500

FREDERICTON, N. B., June 5.—James H. Crockett, editor of the Fredericton Gleaner, recently arrested on a charge of defamatory libel preferred by Hon. H. R. Emmerson, ex-Minister of Railways, was committed for trial at the next term of the York County Court, which opens June 18. He was admitted to bail.

PENSE, Sask., June 4.—A distressing incident has occurred here, four children of Mr. and Mrs. Boltrain having died of diphtheria. The druggists in Regina refused to supply anti-toxine, because cash did not accompany order.

GREAT ALASKAN MINING SUIT DECIDED.

JUNEAU, Alaska, June 5.—Judge James Wickersham yesterday handed down a decision confirming the right to the waters of any mining stream by appropriation as against the rights of riparian landowners. The decision, which will protect the big ditch companies against extortion by jumpers, is the most important ever handed down by Alaska courts.

The finding was made in the suit of Thorndyke vs. Alaskan Perseverance Mining Co. and grants the mining corporation a title to the waters of Lurvey Creek, which Thorndyke attempted to appropriate under his *rights as a riparian landowner.*

Judge Wickersham holds that the mining company having appropriated the waters of the creek for ditch purposes, is entitled to first possession under the mining laws of Alaska. The company, proceeding in good faith, will be protected against all other claimants for the amount of water appropriated for its ditch. The decision applied to ditch companies throughout Alaska will affect an investment estimated to be $8,000,000.

FOLLOWS HUSBAND TO LAND OF REST.

VICTORIA, June 5.—MRS. J. V. Haskins, whose husband was taken ill on board the steamer Princess May as the vessel was leaving Vancouver two weeks ago, and died shortly after returning to shore, was found dead in her room at the Balmoral Hotel on Saturday. It is believed that her death, like that of her husband, was due to heart failure.

Mrs. Haskins was seemingly in good health on Friday. Saturday morning she did not come down to breakfast as usual, and at 9 o'clock Mrs White, proprietress of the hotel, became alarmed, fearing the deceased lady was ill and unable to come down. When she went to investigate, Mrs. Haskins was found lying dead. She had evidently been attacked with heart trouble during the night, and had fallen from her bed.

The deceased was well known in Revelstoke having lived there up to the time of her marriage.

WIRELESS FOR C.P.R. BOATS

VANCOUVER, June 4.—Mr. Yardley, the representative of the Marconi Wireless Telegraph Company, is in the city, having arrived here from Victoria. His particular business at this time is to carry out the work of establishing stations on the northern coast and fitting up some of the Canadian Pacific Company's vessels with the appliance necessary to enable them to send and receive messages by wireless telegraphy. These vessels will be the steamers Princess May, Princess Royal and Amur.

It is not unlikely that the Company *may establish a station at some point* on Queen Charlotte Islands, as at present that part of the Province has no means of telegraphic communication with the outside world.

BUFFALO ARRIVE IN CANADA

Consignment Purchased in Montana Reach Calgary.

CALGARY, Alta., June 4—The special train carrying a consignment of 300 buffaloes has arrived here. On board in addition to the buffaloes, were Howard Douglas, the Banff Park superintendent and five Mexicans. The story of the gathering of the buffaloes, as told by Mr. Douglas, reads more like a book of Fennimore Cooper's than a prairie tale of the twentieth century

"It took us no less than six weeks *to gather in the herd,"* said Mr. Douglas. "Out of 500 we obtained 300, and the residue will be gathered in and brought up during the fall. Forty bulls got away from us altogether, and of this number we caught no less than *twenty in one day. Twenty-two Mexi*can cowboys rounded up the buffaloes, and each man changed his mount once every two hours.

"The herd was scattered about on the mountains of Montana, and the point from which this train started was Ravalli, in the Flathead reservation. The entire work was brought to a conclusion without any serious accident in Montana, and this in spite of the fact that the corralling of the animals occupied nine days. The herd is being taken to Lamont, east of Edmonton, where they will be enclosed in a pasture of 10,000 acres."

LAW ON GRUBSTAKE

SAN FRANCICO, June 3—The grubstake, one of the most honored of institutions, has met a reversal in an American court decision. Ever since 1849 the system of grubstaking by prospectors for the privilege of sharing in whatever he finds had been in vogue, and more than one great fortune has come to homestayers who have outfitted mine-hunters. In the case just decided a miner, John Gates, who, on a grubstake of $1000 found a fortune of $750,000 has won a verdict declaring that the grubstaker cannot collect.

The United States court of appeals rendered the decision sustaining the district court of Alaska in a suit brought against him by Isaac L. Marks of this city. The action was instituted to recover $150,000 on agreement made by Marks and Gates in Seattle on April 27, 1902. The agreement was that in consideration of $1,000 paid by Marks to Gates the latter was to transfer to the former 20 per cent of all property which should be acquired either by location, purchase or otherwise in Alaska by said Gates.

LOGGING CAMPS TO CLOSE

Puget Sound Operators Already Commenced to Curtail Output.

BELLINGHAM, June 4.—According to the statement of a prominent lumberman of this city, all members of the Loggers' Association have curtailed the output of logs by one-third. The action took effect Saturday night, and will be followed by another reduction of one third of the output on June 15. July 1 the entire output will be shut down until September 1. The reason advanced by the loggers for this action is that the price of logs has declined and that it is desirable to suspend operations during the open season for fires. It is said that certain Bellingham buyers are paying $2 off the list for logs.

A local millman states that the real reason for the action of the loggers in tightening up on their output is the fact that the market is overcrowded All of the mills have more logs than they can possibly cut and consequently the market is not very active.

REPRESENTS LUMBER CO.

VANCOUVER, June 4.—One of the *lumber companies doing an extensive* business in this province is the British Columbia Timbers, Ltd., the western general manager of which is now in the city. E. Stewart, who has charge of the firm's affairs was formerly superintendent of the forestry department of the Dominion government, a position which he resigned to engage in commercial life. The head office of Mr. Stewart's company is in Montreal. —Province.

Don't forget that the Lawrence Hardware Co., Ltd, are prepared to handle all kinds of electric work, house wiring, installing chandeliers, etc. First class work guaranteed.

ARROWHEAD

From our own corrspondent.

At a meeting on Monday evening it was decided to hold the usual celebration on Dominion Day. A committee was appointed to arrange a program of sports. The Knights of Pythias are making arrangements for a ball in the evening

Mrs. F. Giles and Miss Aldana Giles returned on Saturday from Bellingham, Wash.

Mrs. Lightburne is visiting friends in Revelstoke.

H. Stevens is in Nelson.

Mrs. Warner and Mrs. Stevens were in Revelstoke Saturday.

G. Dalgleish left Sunday for Calgary.

Miss Connie Roman has come to to spend the summer in town.

W. Rosworm and Harry Kirk spent Sunday in Comaplix.

Miss Sharp has been chosen as matron of the hospital to fill the vacancy caused by the resignation of Miss MacLean.

A concert and dance will be given in Lightburne's Hall on Friday evening by the congregation of All Saints' church. A good time is anticipated.

GALENA BAY

(From Our Own Correspondent)

A. Albury tried his new motor boat for the first time on Monday last, and the result was very satisfactory.

Mr. and Mrs. Geo. Newman and party, of Arrowhead, were the guests of Mrs. J. Shaw on Sunday last.

Now that a goodly number of settlers have located homes in the immediate neighborhood, there is urgent need of a post office here. One or other of the ranchers close to the lake might probably supply facilities for carrying the mail to and from Arrow*head. Such a move, too, would be* appreciated by the employees of the lumber companies doing business here.

As an evidence of the faith the local ranchers have in the fruit growing facilities of the district, a large quan*tity of apple, plum and cherry trees* have been planted out this spring.

J. Shaw has launched his new 22-foot gasoline launch, which is a credit to its owner.

The excellent bathing facilities to be had on the shores of this bay are without doubt the best on the Upper Arrow Lake. The gradual incline of the long sandy beach affords a safe and convenient practice ground for the would-be swimmer, besides giving ample opportunity for the tempering of the water by the summer sun.

A party of surveyors are at work defining the course of the proposed tramway shortly to be constructed by the Lamb Watson Lumber Co. as an aid to their logging business.

WEST KOOTENAY FARMERS' INSTITUTE

Meets on Saturday—Lectures by Prominent Officials.

The supplementary meeting of the West Kootenay Farmers' Institute will be held in the Court House on Saturday, June 8th. The business for transaction if of an important nature and three sessions will be held during the day. In the morning, will be the introduction of speakers and subjects for discussion. The judging of dairy cattle by students and an address by Dr. S. F. Tolmie, V.S., on live stock and other matters. At the afternoon session Mr. W. S. Fraser, of Bradford, Ont., will lecture on noxious weeds, selection of seed, and clover; the raising of sheep and hogs, and the cultivation of soil and under drainings. The evening session will be taken up with the discussion of general subjects of interest and Mr. J. R. Anderson, Deputy Minister of Agriculture, will lecture on fruit growing and general *institute matters. It is hoped that* the attendance will be large as the questions for discussion will be of interest and benefit to all and those who are engaged in fruit and vegetable growing will find that much valuable *information will be given. Admission* free, and ladies are specially welcome. Sessions will commence at 10 30 a.m., 2 p.m., and 7:30 p.m.

WOODMEN ATTENTION!

Members of Mountain View Camp and visiting Woodmen will attend at the lodge room at 6:45 o'clock on Sunday evening, June 9th, to attend divine worship at Knox church.

WEDNESDAY, JUNE 5, 1907

REVELSTOKE'S GROWING TIME

One of the things that must be carefully looked after is the handling of the city's finances and care and good judgment is necessary there. Revelstoke is advancing along the line of municipal improvement, and to carry out the scheme for this all important movement, money is essential and the judicious expenditure of the same requires careful attention. So long as this is exercised there is no danger to the city in a vigorous policy of public improvement. Revelstoke is bound to grow and will be able to take care of an indebtedness. The past few years have shown that money spent on municipal improvements has had direct benefit upon the city's welfare, except in a few cases where public works have been done which the time, occasion and location did not really warrant. Business of all kinds is expanding to a great degree, industrial enterprise is beginning to realize Revelstoke's advantages and many people are coming here induced by the city's attractions as a place of residence. This is Revelstoke's growing time, but what growth there has been up to the present is merely a forerunner of what the near future has in store. This is now the stage of Revelstoke's career and existence as a city where wise administration of civic affairs is of the utmost importance. Many council's have sat at the head of the city's affairs and much good has been done, while at the same time the usual mistakes have been made. What is needed is a liberal but not extravagant policy of public improvements on the part of the city council. A niggardly penny-pinching policy just now will tend to hold back the wheels of progress. The council while bearing in mind the importance of careful financing, should be an example in progressiveness to the rest of the community unnecessary work and waste should be carefully guarded against and where money can be spent to good advantage there should be no hesitation in spending it.

Revelstoke is now on the eve of making two of the most important and progressive moves that have been introduced into the city business, namely the auxiliary plant and sewerage system, both being necessities, hence the spending of the money. To make a success of these works and to come out at the end, right side up, will be the duty of the city council and a no light charge seeing that these works involve considerable expense even before they are actually commenced. But since the people have elected this body to represent them, the council will have to act up to that trust. The city council and the people should not look at the amount of money expended by the corporation during the next year or two, but at the manner in which it is expended. Progress and not stagnation on the part of the city council is what Revelstoke's interests demand at the present time, and "a city divided against itself will not stand," can be taken as a motto for all good citizens to ponder over.

THE COAL SUPPLY.

If the rate of consumption of 1905 were maintained indefinitely, without change, our coal would last approximately four thousand years, says M. R Campbell, but if the constantly increasing rate which has marked the consumption during the last ninety years, be maintained, our coal will practically be exhausted within one hundred years.

The question now remains, will this increasing rate hold? In order to answer that question we must analyse the present consumption to see whether all of the factors composing it will probably continue to increase in the future as they have done in the past.

A large part of the coal produced in this country is consumed by the railroads. According to an estimate prepared by the Interstate Commerce commission, the amount of coal consumed by locomotives in 1905 amounted to 106,000,000 tons. Will this increase or decrease in the future? While it is possible that railroad building in the future will not be so active as it has been in the past, there is every prospect of a great and growing increase in the traffic of existing lines, and this will lead to constantly increasing consumption of coal unless some new source of power is discovered. The same argument applies to steamship lines, to manufacturing, and to domestic consumption of coal.

In view of these considerations, it does not seem probable that the rate of increased consumption will be affected materially for a great many years to come, and hence the estimate of one hundred years will be nearer the truth than four thousand years. The real life of our coal fields probably will be somewhere between these extremes and it seems probable that it may be about two hundred years.

If this estimate is even approximately correct, is it not time for the government to take some steps to prevent the remaining coal of the West from passing to the hands of corporations, to prevent wasteful methods of mining and use, and to conserve for the use of the common people even this small fraction of the total coal of the country? No doubt there is a great difference of opinion on this subject, but it is hard to see how any fair-minded person interested in the good of the people of this country rather than the corporations can look upon the present situation with other than concern, and can fail to unite in an effort to avert the evil consequences that may be in store for future generations.—National Geographical Magazine.

SUNSHINE FURNACE

NO BENDING DOUBLE AND POKING AROUND THE ASH-PIT WITH A SHOVEL TO GET THE ASHES *OUT OF THE SUNSHINE.*

The Sunshine is furnished with a good, big ash-pan.

All you have to do is to grasp two strong, firmly attached, always-cool, bale handles and the large, roomy ash-pan easily comes out.

A minute or two is all it takes to perform the operation.

All the ashes are in the pan, too.

Because they are guided into it by means of ash-chutes attached immediately below the fire-pot.

Sunshine is the simplest, easiest-managed, cleanest kind of a furnace. You don't have to wear overalls and a smock when attending to the Sunshine.

If your local dealer does not handle the "Sunshine" write direct to us for FREE BOOKLET.

Dated 23rd March, 1907.
wed my 15 A. M. SYMONS.

CITY OF REVELSTOKE

By-law No. 99

A By-law to provide for the construction of main and common sewers in the City of Revelstoke and to authorise the issue of debentures for the purpose of raising the sum required therefor.

WHEREAS in the opinion of the Council and in the interest of the City it is desirable to construct a system of sewers in the City of Revelstoke according to the plans and specifications therefor prepared by Thos. H. Tracey, Esq., City Engineer, and approved of by the Council and that the funds to be provided for such improvement shall be repaid by special rate of frontage tax to be levied on the land or real property in or on or fronting or abutting upon the portions of the streets and lanes throughout the City and immediately benefited thereby.

And Whereas such work is a local improvement.

And Whereas under and by virtue of the Municipal Clauses Act the Council duly passed a By-law known as the "Local Improvement Sewage By-law No. 98, 1907," being a By-law to provide for the means of ascertaining and determining what lands or real property will be benefited by such improvements and of ascertaining and determining the proportion in which the assessment is to be made on the various portions of land or real property so benefited.

And Whereas in pursuance of the said By-law the City Engineer has ascertained and determined the said works and improvements and has certified as correct a plan or description thereof, and has made an estimate and report of the expense or cost thereof, and has ascertained and determined and shown on said plan and in said reports what land or real property will be immediately benefited by the proposed improvements.

And Whereas in pursuance of the said By-law the City Clerk has ascertained and determined the proportion in which the assessment is to be made on the various portions of land or real property to be benefited and has duly made his report thereon to the Council and which report has been approved of and adopted by the Council.

And Whereas notice signifying the Council's intention to undertake such improvements and of making the assessment therefor has been published and given as required by said By-law and the Municipal Clauses Act and no petition has been presented against the proposed improvements.

And Whereas $99,511.75 is the total amount of the cost of the said improvements and is the amount of the principal debt to be created by this By-law.

And Whereas by sub-section 17 of Section 256 of the Municipal Clauses Act the Council is empowered in the case of by-laws passed for works payable by local assessment, in order to facilitate the negotiation of debentures thereunder, to declare that the debt or any portion thereof is further guaranteed by the Corporation at large.

And Whereas the total amount required to be raised annually by special rate per foot for paying the said debt and interest thereon and for creating a sinking fund for paying the said principal debt within 20 years, which said debt is created on the security of the special rate as settled by this By-law, and on that security only, and further guaranteed by the said Corporation at large, is for interest $4,975.58, and for sinking fund $3,703.38, making a total of $8,678.96.

And Whereas the total assessed value of the whole real property rateable under this By-law according to the last revised assessment roll is $334,825.00.

And Whereas the Council is desirous of passing a By-law for the purposes mentioned.

THEREFORE the Municipal Council of the Corporation of the City of Revelstoke enacts as follows:

1. That the said hereinbefore recited estimates, plans and reports be adopted and that the proposed improvements in constructing main and common sewers and the works connected therewith throughout the City of Revelstoke be made, constructed and carried out in accordance therewith.

2. That the land or real property which is immediately benefited by the said improvements shall be that which has been ascertained in the said plans and reports of the said City Engineer and the shares or proportions in which the said assessment is to be made on the various lots or portions of lots benefited together with the amount necessary to form a sinking fund and interest shall be as shewn by the report of the said City Clerk which lands or real property and assessments are shown in the said report of the said City Clerk and the said lands or real property and portions of land or real property mentioned in said report of said City Clerk are hereby assessed accordingly with the payment of the amount as therein set out opposite each said portion of land or real property and the said report is hereby adopted as the assessment roll for the purposes of this By-Law.

3. The amount of the special rate assessed as aforesaid against each lot or part of lot respectively shall be assessed, levied and collected in each year for 20 years after the passing of this By Law during which the debentures have to run.

4. It shall be lawful for the Mayor of the Corporation of the City of Revelstoke to borrow upon the security of the special rate hereby imposed and upon the credit of the debentures hereinafter mentioned, from any person or persons, or body or bodies corporate who may be willing to advance the same, a sum not exceeding in the whole the sum of $99,511.75 being the sum necessary for the work, and to cause all such sums so raised or received to be paid into the hands of the Treasurer of the said City for the purposes herein recited, tures, to be called "Local Improvement Debentures," to be made, executed and issued for such sum or sums as may be required for the purposes aforementioned not exceeding however the sum of $99511 75, each of the said debentures being of the denomination of One Thousand Dollars except in the case of one of such debentures which may be for a lesser sum if deemed requisite by the said Mayor, and all of such debentures shall be sealed with the seal of the Corporation of the City of Revelstoke, and signed by the Mayor and Clerk thereof.

6. The said debentures shall be made payable in twenty years from the day hereinafter mentioned for this By-Law to take effect, at the office of the Molsons Bank at Revelstoke, B. C., aforesaid, which said place of payment shall be designated by said debentures, and shall have attached to them coupons for the payment of interest, and the signature to the coupons may be either written, printed, stamped or lithographed.

7. The said debentures shall bear interest at the rate of Five per centum per annum from the date thereof, which interest shall be payable semi-annually at the office of the Molsons Bank at Revelstoke aforesaid in lawful money of Canada.

3. It shall be lawful for the said Mayor to negotiate and sell the said debentures or any of them at a rate below par if he may deem it necessary to do so, and to authorize the Treasurer to pay out of the sums so raised by the sale of the said debentures all expenses connected with the preparation and lithographing of the debentures and coupons, or any discount or commission or other charges incidental to the sale of the said debentures.

9. For the purpose of forming a sinking fund for the payment of the said debt and the payment of the interest thereon at the rate aforesaid as the same becomes due, there shall be assessed and levied over and above all other rates and charges the annual sum of $8,678.96 in each and every year until the said sum of $99,511.75 and interest is fully by special rate per foot frontage upon all the land or real property according to the respective amounts hereinbefore recited as set forth in the said report of the said City Clerk, such yearly rate to be assessed and levied in each year at the same time and in the same manner as ordinary taxes are assessed and levied.

10. The amount of the special rate or frontage tax levied hereunder shall be added to the taxes for the financial year in which such rate or frontage tax is assessed and levied, and such special rate or frontage tax may be enforced and recovered in the same manner and in every respect as ordinary land or real property City Taxes, whether by the sale of the land or real property upon which the same attaches, or by registration, as a charge upon such land or real property, or otherwise as provided by the Municipal Clauses Act.

11. If the owner of any portion of the said land or real property hereby assessed shall desire to commute the special assessment imposed by this By-Law, he or she can do so by paying to the Treasurer of the Corporation, on or before the Fifth day of December, 1907, the amount set opposite the real property, lots or portions of lots mentioned in the seventh column of the said report of the said City Clerk.

12. Any amounts paid in commutation shall or may be invested according to the provisions relating to the investment of the City Sinking Fund.

13. It shall be lawful for the said Corporation from time to time to repurchase any or all of the said debentures at such price or prices at or below par as shall be mutually agreed upon.

14. The said debt as created by this By-Law is hereby further guaranteed by the Corporation at large.

15. This By-Law shall come into force on the Second day of July, 1907, may be cited as the "Local Improvement Sewage Assessment By-Law No. 99, 1907."

Read a first time the 21st day of May, 1907.

Read a second time the 21st day of May, 1907.

Read a third time, and passed, the 21st day of May, 1907, with the unanimous consent of the Council.

Reconsidered and finally passed and adopted by the Council the day of 1907.

.....
MAYOR.

.....
CITY CLERK.

Take notice that the above is a true copy of a By-Law which is intended to be finally passed and adopted by the City Council for levying a frontage rate to pay for the construction of the *improvements therein mentioned and* that the Assessment Roll as contained in the report of the City Clerk, mentioned in the said By-Law, showing the rate and the lands or real property liable to pay the same, together with the names of the owners thereof, is now on file in the office of the City Clerk and is open for inspection during office hours.

The first sitting of the Court of Revision to revise the assessment will be held on Wednesday, June 12th, 1907 at the hour of 7.30 o'clock in the afternoon at the City Hall, Revelstoke, B. C., *for the purpose of hearing* complaints against the assessment as proposed by said By-Law, or the accuracy of the frontage measurement or any other complaint which persons interested may desire to make and which is by law cognizable by the Court.

All complaints against the said assessment must be served upon the City Clerk at least (8) eight days prior *to the date of the first sitting of the* Court of Revision.

Dated May 22, 1907.

H. FLOYD,
City Clerk.

WEATHER FORECAST

Wednesday, June 5, (for 24 hours)—Unsettled, cloudy, occasional showers, light westerly winds, probably fine later. Temp. max. 65 degrees; min., 51 degrees.

Local and General.

Judge Forin is holding County Court session in town today.

E. M. Cook, of the local Y.M.C.A. is spending a few days in San Francisco.

Gold Range Lodge No. 26 Knights of Pythias will hold a memorial service on Sunday afternoon.

The lacrosse boys will in all probability cross sticks with the Armstrong team at that town on July 1st.

W. Cowan, of the Revelstoke, Trout Lake & Big Bend Telephone Co., has increased the local staff of operators.

The regular weekly band concert will be rendered from the lower town band stand on Thursday (*tomorrow*) evening.

Norris & Rowe's circus advertising car came in this morning and is billing the town for a performance on June 19th.

Revelstoke is big enough now to have city scavenging wagon of its own, instead of making that work the duty of the citizens.

H. Cook, of Revelstoke, has been appointed commissioner for taking affidavits in the Supreme Court, for the Revelstoke electoral district.

William Thomas, who was brought in to the hospital from a nearby logging camp this week, died yesterday *morning with symptoms of meningitis.*

A wreck occurred early this morning a few miles west of Golden, which has blocked the track and delayed the traffic; a wrecking crew has left for the scene of the accident.

The thirty-sixth annual communication of the grand lodge of British Columbia of the Ancient, Free and Accepted Masons, will be held in Vancouver commencing June 20. The grand lodge at its last communication decided to meet this year in Vernon, but this had to be changed because of the Vernon Masonic hall having been burned down. As soon as it was known that Vernon was cancelled the almost unanimous choice was Vancouver. There are at present 40 lodges in this grand registry, and it is expected, including those from Vancouver, that there will be about 200 delegates present.

Among the items of business at the School Board meeting last night, it was decided to advertise for a principal for the High School in the place of C. B. Sissons, resigned.

A lacrosse match has been arranged between the business boys and students of the city to be played on Mackenzie Avenue grounds, Friday next. Sticks will be crossed sharp at 7 o'clock and an exciting game is promised. Admission to the first game of the series will be free gratis. Everybody turn out and root.

J. C. Stuart, advance agent for the Greater Norris & Rowe circus, was in town on Monday making arrangements for a date for performance. June 19th has been arranged and this well known circus company will then exhibit here. This show played in Revelstoke very recently and should receive the patronage it deserves.

With impressive ceremonies, ground was broken on Saturday for the Alaska-Yukon-Pacific Exposition, which will be held in Seattle in 1909, two years from date. The day was a holiday. Seattle presented a gala appearance, as amid the blare of trumpets, the marching of a military pageant, inspiring speeches and banqueting the inauguration of active work was celebrated.

The feeling throughout the States, and more especially in the western states, with reference to the recent purchase of buffaloes from M. Pablo by the Canadian government, has been bitter in the extreme. Such comment as has been published in the newspapers of the States has been aggressively anti-Canadian and it is not too much to say that a deliberate effort was made by the press to inflame the people. A hostile demonstration occurred at Missoula after the buffaloes had been loaded on the cars. A number of the inhabitants of the city, which is not remarkable for placidity, and where the Y.M.C.A. do not prosper, plied the cowboys in attendance with whisky until they cared for neither heaven or earth or any other place. They then proposed to let the buffaloes out of the cars and let them loose on the plains once more.

Social and Personal

Miss Brough has left for a visit to the coast.

W. Bews returned yesterday from a business trip to the coast.

Mrs. F. B. Lewis will be at home to her friends on Friday, June 7th.

Mr. and Mrs. F. W. Aylmer have taken up their residence in town.

G. Aman has been visiting his brother C. J. Aman, while en route for England.

Mrs. L. T. Morris, of Notch Hill, is visiting Mr. and Mrs. H. Cunningham Morris, in town.

Mrs. H. Cunningham Morris will be "at home" on Tuesday, June 11, at her residence, Third street.

D. M. Stirton has relieved B. R. Atkins at the Custom House, who is en route for the Old Country.

ENID MARTIN CONCERT

Refreshing indeed was the concert on Monday night at St. Andrew's church when Miss Enid Martin sang before an appreciative audience. As a singer, Miss Martin is gifted with a rich yet sweet voice with wonderful range and intonation. In the several numbers which she rendered she showed unusually pleasing style, and her repertoire was well chosen. Each number was warmly received and her reception was only what such a charming singer as Miss Martin deserved. Miss Harvey has a well trained contralto and rendered her programme in a pleasing manner. Local talent made up an excellent musical aggregation and as good a little concert as Revelstoke has attended.

JUBILEE CIRCUS PARADE

What would a circus be without its parade? It has been proven time and again that the American public will not tolerate any curtailment in the big spectacles under the white tents and neither will they patronize a circus that does not give a free street display. There are many shows that would gladly eliminate this expensive feature if they dared but Norris and Rowe never even considered the notion to omit this attractive feature. The present is the jubilee of their co-partnership and to make this year's visit a memorable one, their street parade will be on the very grandest scale that they have ever attempted. The costumes of the lady and gentlemen riders; the glittering trappings on animals and wagons; the artistically carved monster band wagons; the tableaux floats and the paintings on the many open dens and cages will be more gorgeous than ever. In the parade will also be seen some features which they never have been able to show before. The first is the tiniest of baby camels and the cutest of cub lions which are sure to interest the children as well as their elders. Other features will be the wild beast display in the many open dens and cages; elephants, llamas, camels, dromedaries, Shetland ponies, prize heavy draft stock and the beautiful thoroughbred racing stock will march in stately procession. Clowns will enliven the line of march and there will be enough music to make the parade inspiring. Norris & Rowe exhibits at Revelstoke on Wednesday June 19th.

BUSY SUMMER OPENING

Reports of Industrial Progress from all Parts of B. C.

That the approaching summer season will see a large volume of business transacted in British Columbia is now assured. Reports from all over the province are to the effect that the outlook was never better. Mr. Hugh B. Gilmour, of Vancouver, a gentleman whose business is of such a nature that it takes him to all parts of the province, and enables him to keep in close touch with the industrial progress of the various sections, is of the opinion that business for the summer is shaping well.

"I am certain," said Mr. Gilmour, "that British Columbia has ahead a period of progress that will excel anything of the past. From all parts of the province, which I have visited, comes the same general report—good times. A number of big companies are being financed for business in British Columbia and a large amount of outside capital is coming in all the time.

"There are so many valuable natural resources to be developed that it is no wonder that these companies are taking hold of some of them, and that the results have proved satisfactory.

"The industrial development is not confined to any one district, but is general all over the province, and has the appearance of being on a very solid basis."

LADIES OF THE MACCABEES

Hive Organized in Revelstoke.

A public meeting was held last night in the Opera House by Mrs. J. C. Kemp, D. C., for British Columbia of the L. O. T. M. O. T. W., for the purpose of explaining the order and pointing out the benefits to be derived from the establishment of a local Hive. Mrs. Kemp pointed out to the meeting the chief points of the order and the different branches of work it embraces showing that the membership was rapidly increasing and that the fraternal and benefit work had done much good. She explained that by increasing the number of the Canadian members, Canada could then have a great Hive of her own and make her own laws. After a thorough explanation of the benefits of the order, Mrs. Kemp received the names of intending members for the formation of a local Hive.

A vote of thanks was cordially passed to Mr. and Mrs. Tapping for the use of the Opera House, and also to the Press.

SCHOOL ATTENDANCE

The attendance at the public schools for May was as follows:

	Enrolment	Percentage	Present every session
