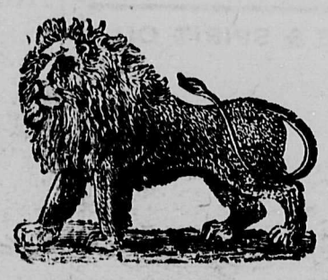
"Lion Brand" Clothing
FOR BOYS

WHY IT'S BEST



WHY IT'S BEST

IT'S BEST because there is more work and style on this make than any other.

The nice, wide, concave shoulders, the shoulder and sleeve pads, the double elbows in the sleeves, the double seats and knees, double stitched seams in the knickers.

IT'S THE BEST FITTING, THE BEST FINISHED, WITH LESS ALTERATIONS THAN ANY OTHER MAKE.

Boys who have tried this make say it's the best.

We have the best assortment to show. Boys, come to us for a "LION BRAND" make.

"LION BRAND" does not cost all it is worth but is well worth what it costs.

C. B. HUME & CO., LIMITED
Stores at Revelstoke and Arrowhead.

Stoves! Stoves!

Do not wait until the first cold snap comes, but come right in and pick out your heater. Our men are very busy and we cannot set it up at short notice—so give us the chance in plenty of time.

We have our usual fine display of coal and wood heating stoves and at prices to suit the purse. Remember we set up all new stoves purchased from us free of charge, using only our own hand made rivetted pipes.

Stove Boards, Coal Hods, Fire Shovels, Ash Sifters.

A fine line of Fenders and English Coal Cabinets.

IMPORTANT MEETING

A Lengthy Session.—Important Water and Light Resolutions—Gratitude Extended from citizens of Fernie.

The regular meeting of the city council was held last night with Mayor Lindmark and Aldermen Sawyer, Lefeaux, Foote and Stone present.

Minutes of last regular and special meetings were read and adopted.

COMMUNICATIONS

From Chief of Police re fire alarms.—Filed.

From T. F. Sinclair in connection with the city sewerage work. The council agreed that the central section of the city was in a bad state from cesspools and decided that the matter of constructing sewers in that part was essential to the city's health. A resolution was passed that the matter be left in the hands of the Fire, Water and Light committee to take up the question with Mr. Sinclair and get a definite proposition from him and see if it falls in with the views of the council.

From the Secretary of No 2 Fire Brigade, enclosing the report of W. A. Foote, delegate to the Fire Chiefs Convention at New Westminster. The report was received and a resolution passed expressing appreciation of the work of Mr. Foote at the convention.

From E. Picard applying for appointment of city chimney sweep Prices were included in the communication of 75c. up to 15 feet, and 5c. per foot up to 40 feet. The council were opinioned that the people should be compelled to have their chimneys cleaned and that a regular inspection should be made. The question of appointment was laid over.

From C. North, city electrician, requesting an increase of salary on the grounds that the city electrical work was heavy and increasing. The council felt that the request was justified and resolved that the city electrician's salary be raised by $15 per month.

From the provincial government acknowledging receipt of the resignation of A. M. Pinkham as police magistrate for the city. Filed.

From G. M. Sproat re assessments on certain lanns which were the property of the Realty Co—Filed.

From the superintendent of power house submitting a report for the month of September. The report showed that the plant was running satisfactorily:

Lighting Plant—K. W. generated, 30.165½; Hours running, 411.

Power Plant—K. W. generated, 2,231; Hours running, 450.

From F. Bourne requesting that the sum of $600 be forwarded him on the lots 1, 2, 3, 4, in Block 10, the present goal property. The council resolved that the matter be laid over and that the money be paid over when the titles are in sight.

From the Fernie Citizens' Committee expressing gratitude to the city of Revelstoke for their donation during the great fire there.—Filed.

From No. 1 Fire Brigade requesting that their fire hall be supplied with a dozen new chairs. The request will be granted. The brigade also requested that new hydrants be placed at the corner of Pearson street and First street, and suggested that the hydrants now situated in the centre of Block 49 should be changed to the corner of Ford and Second streets. The need of a hydrant at the corner of Douglas and Hanson streets was badly felt.

Referred to Fire, Water and Light committee.

J. Mathie was present, representing the Trades and Labor Council and requested that they might have the use of the Council chamber every second Saturday for meetings. The council felt that they could not give the chamber for every society or organization and resolved that they could not establish a precedent in allowing the chamber to be used for regular meetings of organizations, but the Trades and Labor Council will get the same privilege in regards to any special meeting, as other's get.

Local improvement by-law for boulevarding was re considered, finally passed and adopted.

A resolution was passed that lumber be purchased for H. Needham's house at the power house. A request from the chief of police for lumber for a woodshed at the city gaol was granted.

The matter of the vaccination account from Dr. Curtis, medical health officer, and of attendance in connection with Nam Sing, was left with the mayor, the vaccination accounts to be looked into.

An agreement between the C P.R. and the city allowing the latter the right of having their pipe line under the track from the city water tank and the former the right of using the overflow from the water tank, was signed

Tenders for clearing a part of the McKenzie avenue recreation ground were opened that of W. Fleming being accepted.

The question of overdue water and light accounts formed a long discussion, the Council feeling that there had been a neglect in looking after and collecting the same. Over $4,000 was due the city from these causes. In many cases there was no excuse for non-payment and it was necessary for the city to take pains to secure more prompt payment and a resolution was passed that the city clerk shall notify all delinquents that if these overdue accounts are not paid within thirty days their water and light will be cut off. In discussing this matter a strong resolution was passed that all water and light accounts must be paid within thirty days from the date due fordiscount or the water and light will be cut off.

The meeting terminated at 11:30 p.m.

DOMINION ELECTIONS

Public Meeting, Tuesday Evening Next.

Mr. Duncan Ross, of Yale-Cariboo, and J. A. MacDonald, leader of the Provincial opposition, will address a Public Meeting, Tuesday evening next.

An invitation is extended to opposition speakers and especially W. J. Bowser, Attorney General, when a opportunity will be afforded him to reply to the statements made by Mr. Duncan Ross, late member for Yale-Cariboo, in charging Mr. Bowser, while solicitor for Mr. Gotoch, with having drawn up contracts, through which thousands of Japanese laborers were brought into B.C. last year.

This meeting should prove the most important political event ever held in Western Canada. Place of meeting will be announced by hand bills. God Save the King. COMMITTEE.

FELL OFF THE TRAIN

Logger Loses Arm from Accident on South Track

While the south train was en route from Arrowhead to the city on Saturday, it appears that a lumber jack, who was under the influence of liquor, and who was beating his way up, managed to fall off the car on to the track. It was not discovered that an accident had taken place until some section men, who happened to be fishing not far from Wigwam, noticed the body lying on the track bleeding profusely from several deep cuts. They immediately communicated with Revelstoke and an engine was despatched to Wigwam, which conveyed the injured man to the city where he was hurried to the hospital. The man calls himself by the name of Stewart but is reticent about giving any information as to his action that day or as to who he is. The doctors found it necessary to amputate the right arm at the shoulder, which had evidently been crushed beneath the car wheels, and several deep scalp wounds also required attention.

BANK OF COMMERCE

Revelstoke Branch will Open in a Few Days

Work in connection with the fittings and fixtures of the new branch of the Canadian Bank of Commerce which has been established on Mc Kenzie Avenue is now being carried on, the necessary fittings having arrived from Vancouver on Thursday.

G. S. Holt, of Vancouver, who has been on inspection work of the interior branches of the Bank of Commerce has arrived and will open the branch here, although he states that he is not in a position to say whether he will be permanent manager. The bank will open its doors for business just as soon as the interior of the building is ready. Mr. Holt states that he believes that Revelstoke is on the eve of a steady run of prosperity and was pleased to see the local improvement work in progress and the active state of business generally.

Children cannot be cheerful and flowers will not flourish in impure air. Gas is bad for both. There is none in Coursier's coal.

APPALLING DISASTER

Seventeen Burned to Death in a Relief Train Accident and Hundreds have likely Perished in the Forest Fires of Northern Michigan.

DETROIT, Mich., Oct. 17.—The total loss of life in the great forest fires which, for the second time this year, broke out in the Michigan timber districts is unknown at the present time. The towns of Metz, with 200 inhabitants, Millersburg, with 800 inhabitants, and Posen and Pulaski have been wiped out. A relief train bringing out about 200 refugees from Metz and Millersburg ran into a burning culvert and seventeen lives were wiped out by the fire which totally destroyed the train.

The Detroit and Macinac railroad headquarters this afternoon issued the following statement.

"About 200 men, women and children were on the Metz relief train which was wrecked and burned. Seventeen bodies have been found. About twenty-five survivors have been heard from The fate of the remaining 185 at this time is unknown. We hope many of them escaped, but it would be improper to hold out too much hope We have three relief trains with doctors, medicines and caskets on the way to the scene.

Conductor Kinsville, after the wreck of his train, managed to pass the hot blast, but when he reached Millersburg was totally blind. The engineer of the doomed train broke through but was terribly burned. How many of the 200 persons escaped is unknown as they scattered through the forest and their bodies have not been recovered. In a house near the railroad track at the edge of the forest an aged couple was roasted to death.

ALPENA, Mich, Oct. 17.—The whole of Northwestern Michigan is burning. The flames already have swept four counties, and the loss of life is heavy. It is believed that if reports could be obtained the results of the fires would be the most appalling in the history of this part of the country. There is practically no hope for the 200 refugees who left Metz on the relief train that was wrecked in the burning forest. One refugee who arrived from Metz today says that very few escaped, and that he believes practically the whole population of the town, numbering more than 200, was lost.

SAULT STE MARIE, Mich., Oct. 16.—The forest fires forced their way into this city early today in spite of the desperate work of the citizens, who battled all night to keep them outside the city limits.

Special Meeting of Council

A special meeting of the city council was held on Tuesday night, with Mayor Lindmark, and Aldermen Lefeaux, Foote, Stone, Woodland and Sawyer present. The special business for discussion was that of reconsidering, finally passing and adopting the bylaw which received its assent by the people on Sept. 21, authorizing the raising of $10,000 by debentures for the completion of the auxiliary power and light plant. Also to introduce and deal with a bylaw authorizing of boulevards on certain streets and raising money for same by local debentures, and also for any general business.

A resolution was passed that the bylaw authorizing the borrowing of money debentures for the completion of the power plant, be reconsidered, finally passed and adopted by the council, sealed and registered.

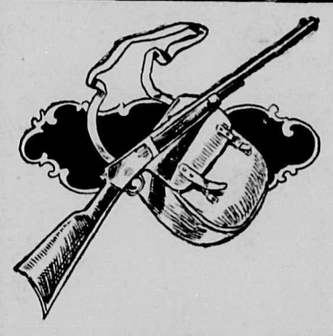
The bylaw authorizing the carrying out of boulevards on certain streets and the raising of money for the same on local debentures, was introduced, receiving its three readings and finally passed with the unanimous consent of the council.

The meeting then terminated.

Canada's Bank System

Thos. Church, of the National Bank of Australia, is now in Canada to study the features of the Dominion's currency system. What has most impressed him, so far, is the absence of gold. When it was pointed out that Canadians preferred paper money because of its greater convenience in handling, Mr. Church remarked that Australia had never felt the inconvenience of carrying gold, but there was something in the Canadian point of view. He said that a great deal was heard of the Cadadian banking system, and the idea of adopting it was popular in Australia. Last year a bill to establish the use of paper money was passed, but nothing had resulted so far. The difference between the Australian and Canadian banking system was this: In Australia the banks loaned more on the loan company principle, lending on realty or mortgage, with the difference that bank loans were all repayable on demand, a clause never put into actual practice. There was no savings department in the Australian banks, this being supplied by the post office savings bank.

One know is better than two don't knows, and those who have tried and tested it, know that there is no gas, no smoke, no soot, and no dust in Coursier's Coal.



Hunters' Supplies

Rifles, Shot Guns, Ammunition, Good Hunting Knives, Axes, Fishing Tackle and other sporting goods.

RANGES AND HEATERS

We are showing the best line of Heaters, Ranges, etc., that has been seen in Revelstoke and our increasing sales prove that we have the right goods and prices.

Our Plumbing department is up-to-date and we are doing the best work that is done in the city.

And so much good in the worst of us,
That it hardly behooves any of us,
To talk about the rest of us.

SATURDAY, OCTOBER 17, 1908

SNUFF THEM OUT!

Successful politics has been said to be the art of hypnotizing the victim into believing that it is a patriotic duty to look pleasant, while being robbed which in more than one case has been definitely proved. Successful politics can also be said of a candidate who comes out of the campaign scathless from the attack of his opposers who at these times rake over the past life of their enemy and bring to light all his shortcomings and failings, which, with more or less embellishment, are presented to the public as part of the tactics of political warfare to secure their ends. Although it should not be a chief issue in any political campaign that a proposed candidate's shortcomings or defaults be taken as factors for disqualifying him from holding public office, yet moral decency is the first requirement of a man who essays public life. The plea that a legislator's private character should be totally exempt from criticism is, in fact, worse than nonsense. When a man aspires to a position of public trust he should be prepared for the white light of searching investigation which at the present time is one of the principal methods of campaign warfare. The drunkard, the libertine, and the grafter should be taken without the camp and stoned with votes to political death. Along this line should parties act; the unclean can only bring decay and death to the party which tolerates their company. It should be the business of the electors in the coming elections to mark the bawds and swindlers of public life of whatever political stripe for the political shambles.

REVELSTOKE WATER POWER

Apropos of the fact that the C.P.R. intend to operate their trains throughout B. C. in the near future by electricity, the possibilities of the vast power lying dormant in the waterfalls, rapids, and torrents in the vicinity of Revelstoke for industrial purposes, cannot be overestimated. This phase of development has never been really given serious consideration, apart from the present power and light plant on the Illecillewaet river. We can safely say that few cities in British Columbia are better situated as regards the accessibility of water power, than Revelstoke, and when we consider what the results would be were our streams and falls, or even the Columbia River itself, harnessed for the production of electric power, the importance of it cannot be overestimated. Revelstoke has ideal facilities for almost every named industry, both owing to her geographical position on the main and junction lines of the C. P. R. and also to the fact that electric energy can be secured more or less cheaply. Were Revelstoke to develop into an industrial and manufacturing city, which is more than likely, there is an abundance of power which can be utilized to drive all the machinery in the district. To those that know the country round about and are familiar with the waters, this fact cannot but appeal to them, and it is a question which can very well be taken up and discussed at the Board of Trade sessions when the improvement and developmental schemes for the district are before the board.

Banff Hard Coal

We are now receiving a full supply of the different sizes of this Coal, the best domestic fuel on the market.

All orders will be promptly and satisfactorily attended to.

Revelstoke General Agencies, Ltd.
Molsons Bank Building.

UNWELCOME GUESTS.

The manner in which civic authorities are imposed upon has been evidenced by the recent case at Vancouver, where a man, his wife and family of four small children were stranded in that city in an absolutely destitute condition, and are now dependent on the city for support. It appears that this family had been supported for several months by Calgary, and had been eventually sent to the coast by a church society there. Incidentally it may be said that this man was suffering from chronic rheumatism and unable to do any work. Revelstoke has frequently had to face a proposition of this sort and it is certainly unfair to the people to have to bear the expense of outsiders who come amongst us for a little while and then become a charge on the city. Although humanity calls for the care of such people who wander from place to place, yet on the other hand the town where such people have originally lived should not turn them adrift to secure shelter and food wherever possible and thus become a source of expense and worry to any community where they may happen to land. Revelstoke has all it can do to look after its own people without being saddled by those who from the outset require the hand of charity.

Anniversary Festival

The seventeenth anniversary festival of the Methodist Church will be given in Selkirk Hall on Thursday the 22nd of October. Boston beans, pumpkins, lemon and apple pies, besides all other delicacies for which the Ladies' Aid of this church are noted will be served in abundance. Supper will be served from 6 to 8.30 o'clock. Good music will be supplied during the evening. The ladies are making special preparation for this event and bespeak the presence and patronage of a full house. Everything necessary will be done to make those present happy and satisfied. Admission:—Adults 50c. Children able to help themselves 25c.

CAPITULATION SETTLEMENT

Comment of Labor Organ on Terms of C. P. R. Strike

The Winnipeg Voice, the organ of union labor in that city, comments thus on the settlement of the C. P. R. mechanics' strike:

The C. P. R. mechanics' strike is over. The process has been termed a settlement. Certainly. The strikers were "settled" last Sunday, and announcement was made on Monday morning last.

Up to the present time no full, frank and necessary explanation of the startling climax has been tendered to the organizations and the general public. No adequate explanation has been given, by anyone competent to give it, of the extraordinary occurrence.

That there must be such an explanation we feel confident. If there is none other than has already been given, then there has been plundering most colossal, and that to the great injury of the organized movement and to every wage earner in the Dominion.

The strike itself was an avertable misfortune: it never ought to have been called—this year—but as a misfortune the calling of it takes second place to its finish.

A neatly printed visiting card is a pleasure to look upon.

VOLUNTEER BOUNTY ACT.
1908.

WARNING TO PURCHASERS.

EVERY assignment of the right of a South African Volunteer entitled to a land grant must be by way of appointment of a substitute and must be in the form provided by the Act.

Special attention is called to Sub-section 3 of Section 5 of the Volunteer Bounty Act, 1908, which provides that no assignment of the right of a volunteer by the appointment of a substitute shall be accepted or recognized by the Department of the Interior which is NOT EXECUTED AND DATED AFTER THE DATE OF THE WARRANT FOR THE LAND GRANT issued by the Minister of Militia and Defence in favor of the Volunteer.

J. W. GREENWAY,
Commissioner of Dominion Lands.
24th September, 1908. Ottawa

VOTERS WILL RIDE

Autos and Hacks will be Busy on Election Day

VANCOUVER, Oct. 16—Despite anything in the provisions of the act to amend the Dominion Elections Act, the electors of Vancouver will ride to the polls in carriages, hacks and automobiles on Monday, Oct. 26. Automobiles are the most popular mode of conveyance with the men charged by both parties with getting out the vote on election day, and as a consequence the harvest per auto will be $50 for day. All the automobiles, hacks and carriages in Vancouver which it has been possible to secure have already been snapped up for service one week from Monday.

Sections 30 and 31 of the act to amend the Dominion Elections Act, set forth in exceedingly cumbersome and unwieldly terms that it is unlawful for any candidate, agent or party on behalf of any candidate to hire, or pay for, or promise to pay for any conveyance to take voters to the polls or the vicinity of the polls, and that it is also unlawful for any person to let to hire any conveyance to be used in transporting voters to or from polls or vicinity of polls. The sections are on the books, but it is said to be extremely doubtful if a conviction could be secured under them and apparently no attention is being paid to the possible dire penalties.

DOUBLE TRACK IN WEST

C.P.R. May Electrify Lines in British Columbia

WINNIPEG, Oct. 16—Sir Thomas Shaughnessy, president of the Canadian Pacific railway, who yesterday completed a survey of the double-tracking between here and Fort William, intimated today that work would be started by the company in doubling its trackage between here and the Rocky Mountains. Large expenditures of the added capital of $50,000,000 made at the recent annual meeting, will be made in carrying out this work.

It is also stated that the company will operate all of its lines in British Columbia by a system of electric trains, the current to be generated by waterpower.

Sale of Mineral Claims in Revelstoke Assessment District

I hereby give notice that on MONDAY, the SECOND DAY of NOVEMBER, A. D., 1908, at the hour of 10 o'clock in the forenoon, at the Court House, Revelstoke, I shall offer for sale at public auction the mineral claims in the list hereinafter set out, of the persons in the said list hereinafter set out, of which Crown Grants have been issued, for all unpaid taxes accrued and due and payable on the 30th June, 1908, and for the expenses of advertising this notice.

If the taxes and expenses of advertising, as set out in said list are not paid to me on or before the day of sale, the claims may be sold to the highest bidder, and a conveyance executed to the purchaser of all right and interest in said claims legally alienated by the Crown by the Crown Grants thereof.

In the event of there being no purchaser, or if the price offered shall not be sufficient to pay the taxes and expenses of advertising, the land shall revert to the Province and the Crown Grants thereof shall be deemed void.

Certificate of Improvements

NOTICE

Morning Star, Eastern Star, Grand View, Flora Bell and Eureka mineral claims situate in the Revelstoke Mining Division of West Kootenay District. Located on the North side of the North-east branch of Laforme Creek.

Take notice that I, Guy L. Williams, Free Miner's Certificate B13265, as agent for Charles Walsh, Free Miner's Certificate B94266; for Ed. Adair, Free Miner's Certificate B94251; Samuel McMurty, Free Miner's Certificate B94262; Walter Walsh, Free Miner's Certificate B94265; F. G. Walsh, Free Miner's Certificate B94264; Gilbert Wilson, Free Miner's Certificate B94261, and R. F. Greer, Free Miner's Certificate B94263, intend 60 days from date hereof to apply to the Mining Recorder for a certificate of improvements for the purpose of obtaining Crown Grants of the above claims.

And further take notice that action under Section 37 must be commenced before the issuance of such certificates of improvements.

Dated this 17th day of September, 1908.

sep 23-nov 23 GUY L. WILLIAMS.

IN THE SUPREME COURT OF BRITISH COLUMBIA.

IN THE MATTER OF THE WINDING-UP ACT.

And in the Matter of The Elwood Tin Workers Gold Mining Company of Lardeau, British Columbia, Limited, Non-Personal Liability.

TAKE NOTICE that the undersigned has appointed Friday, the 30th day of October, 1908, at the hour of eleven o'clock in the forenoon at the Court House in the City of Revelstoke, B. C., for the purpose of hearing and confirming the Report of the Official Liquidator upon the claims of creditors, and of settling, determining and finally passing the Dividend Sheet, and of passing the Official Liquidator's accounts, and settling his remuneration.

And let all parties attend.

Dated this twelfth day of October, A. D., 1908.

ROBERT GORDON,
District Registrar at Revelstoke, B. C.

SCIENTIFIC FORESTRY

Description of Swedish Methods of Reforestration and Lumbering--Mayor Lindmark Advocates School of Forestry

The supreme importance of at once starting a scientific system of forestry is being urged by Charles F. Lindmark, says the Victoria Daily Colonist, and was one of the chief topics discussed at the conference the other day between the lumbermen and the premier and chief commissioner of lands and works. Mr. Lindmark is a large timber holder, and incidentally Mayor of Revelstoke, and has also made a study of forestry. Sweden is the cradle of scientific care of forests, and in his youth Mr. Lindmark went through the Swedish school of forestry, while last year he made a special visit to Europe to study the methods now followed by Sweden and Germany, the latter country having adopted Swedish methods with characteristic thoroughness and conspicuous success.

It is now many years since Sweden realized that her forests were a great national asset, and she is conserving them to such purpose that the supply of timber is increasing annually in that country notwithstanding the immense amount which is cut each year. This is entirely due to the intelligent system which the Swedish government has introduced of compulsory reafforestation. Formerly young saplings were planted and the government kept up immense nursery farms for the propagation of the plants, but advancing knowledge shows that this is no longer necessary, and the trees are now grown from seed which is first tested by the government experts.

Discussing the Swedish methods and the adaptations of it which he would like to see introduced to see introduced into British Columbia, Mr. Lindmark said:

"In Sweden the forests are surveyed off into blocks, and the right to cut the timber on these blocks is auctioned off. The successful bidder has to cut the timber within a specified time, and when he has cut off the land, he is obliged to reafforest it. This is a cheap and simple matter, and is done by sowing seed which is supplied by the government. The administration also supplies an expert to superintend the operation so all the logger has to do is to find the labor. As a matter of fact the sowing in Sweden is largely done by school children. They are taught forestry in the schools and in holidays some of the poorer ones do very well at it. But even in British Columbia it would not cost more than $100 a section.

"The Swedish forests largely belong to the government, but private owners are also obliged to re-afforest, in the same way as the loggers on the public domain. The government, too, is buying up large areas of waste and logged-off lands and planting them, with the result that the forest area of Sweden is increasing. Formerly they planted saplings from the government nursery farms, but now seed is used. It merely adds a year or two to the time one has to wait for the trees to become merchantable timber. Trees will grow well from seed in this province, where the soil is much more fertile than in Sweden. I have been experimenting with some seed I got from the Dominion government and my fir plants are doing very well indeed.

"The conservation of the timber resources of British Columbia is a more vital and pressing subject, I think, than many men seem to realize. The time to begin is now. In a small way much can be done toward perpetuating our forest resources and incidentally diminishing the danger from forest fires, but of course in my suggestions, you must remember that I am now talking only of those lands which are not suitable for anything else but timber, and in the interior, at any rate, I think that these are in the majority.

"Nowadays a great deal of timber is being butchered. The license-holder cuts every stick he can sell off his land, when in the long run it would be much better to leave the small stuff and take only the merchantable timber. My suggestion is that every license-holder be compelled every fall to burn the slashings of the season before, and the following spring to sow the land so as to bring on a new crop of timber. He should then be allowed to retain his license at a nominal fee of, say $3 or $4 a square mile, while the young trees grow.

"The government should supply the seed free of cost, and there should be inspectors to see that it is properly done, and also that the land is only good for timber and not suitable for agriculturable purposes. This would have the result not only of perpetuating the supply of timber in the country, but would also go a long way towards removing the danger from forest fires, which so frequently start from old slashings allowed to lie on the ground until they are as dry as tinder. Our soil in this province is such that all that would be necessary would be to scratch the soil and deposit the seed. Machines are used for this which enables the sowing to be done very quickly

"Another point I might mention is that the year after the pile of slashing are burned weeds will spring up, and these protect the tender shoots of the young trees, and later on, when the trees get larger the weeds die off. This seems to be a provision of nature for the protection of the sprouting seedlings. In this way, too, we could control the kind of timber to some extent. For instance in my part of the country the timber near the Columbia river is 80 per cent. cedar. By sowing we could address the balance, so as to get a proper percentage of fir, which is probably all round a more useful wood.

"It seems to me that the Dominion and Provincial government should combine and start a school of forestry, as they both have large timber holdings in the province. In this way the lumbermen of the province could get a scientific as well as practical training. If such a school were started, the timber owners would supply the men. We would send our foremen and scalers, and the nine months' course would be of vast benefit to them, as well as to us, and incidentally to the entire province. For it must not be forgotten that our timber is one of the greatest provincial assets.

"There is one other point, and that is that the conservation of our forests is necessary from a climatic point of view. When the sides of the mountains are denuded of their timber, the amount of precipitation will run short, and our rivers will be torrents in the spring and dry in the summer and autumn.

"It seems to me that this is essentially a matter for government supervision. It is too much to expect the logger to go to the trouble and expense unless he is obliged to. He naturally wants to make what he can, and the distant future does not appeal so much to him. In this connection it must be remembered that it takes from 40 to 60 years, according to locality, for the seed to develop into merchantable timber. This is further ahead than the average individual cares to look, but it should not be too far for a government which is entrusted with the conservation of the national resources."

The public works department at Ottawa has been notified that the big new dredge purchased in Geamany this fall for work on the Fraser river and at other British Columbia points, is now on her way to the province steaming via Cape Horn. It will take nearly three months to complete the voyage.

Six new electric arc lamps will very shortly be installed in the city. Two will be put in, one each end of Front street; one between the City Hotel and the Hospital; one opposite the Climax Hotel on First street, one at the intersection of Second street and McKenzie avenue, and one behind the C.P.R. depot and on the hotel bank.

The second British Columbia Provincial Sunday School convention will be held in this city on Tuesday, Wednesday and Thursday, Oct. 27, 28, 29. The principal speaker will be W. C. Pearce, International Superintendent of the adult department. This promises to be the greatest religious gathering ever held in the province.

Cross eyes are being made straight without pain or an operation by the use of Dr. Harvey's Perfect Spectacles.

A shorthand class is being organized at the Y. M. C. A. which is being well supported. All those who desire to join should lose no time in giving in their names to the Y. M. C. A. secretary.

In laying the corner stone of the new Calgary hospital, nothing was overlooked that could add to the knowledge of past ages by those who come after. A copy of the New Testament and the Eye Opener were deposited under the stone.

The sooner a few of these hobo and gentlemen of such ilk learn that the police will not stand for any insults the better it will be for them. A few words this week thrown back at a local constable by one of the "waster" fraternity proved very expensive to him.

A demonstration of what electricity will do for domestic purposes was given on Monday at the City Hall. A small electric heater was in operation which boiled a threequarter gallon kettle in less than 6 minutes. A number of residents are purchasing these useful articles.

Stop that constant waste of nervous energy that makes you weary, nervous and your head feel numb. You can do it by wearing a pair of Dr. Harvey's Perfect Spectacles to take the strain off your eyes. He will be at Revelstoke next Tuesday and Wednesday, Oct. 20 and 21st, at Guy Barber's jewelry store.

T. Taylor, M. P. P., has informed us that the provincial government will shortly call for tenders for the construction of a steel traffic bridge over the Columbia River, to be built on a site a little above that of the present C.P.R. bridge. The traffic bridge across the Illecillewaet river will also be pushed ahead.

An alarm of fire was turned into Fire Hall No. 2 early on Wednesday morning from Box 5. The brigade turned out promptly and hurried with the apparatus to the location of the box. The alarm proved a false call and was either the work of some smart individual who couldn't sleep at that hour and was prowling the streets and begrudged anybody else the privilege of sleep, or else a short circuit was made with other wires causing the alarm to ring in.

You should see the duel with dynamite at the Edison theatre Monday and Tuesday.

Don't forget the Shirtwaist dance in the Opera House on Tuesday next, October 20th, under the auspices of the Ladies of the Maccabees.

A new program will be rendered at the Edison parlor theatre on Monday and Tuesday and will include the roaring comedy "A Duel," with dynamite, introducing the character of the Diabolical Pickpocket.

A public meeting of the electors of this riding will be held on Tuesday next, Oct. 20th, when Duncan Ross, late member for Yale-Cariboo, J. A. Macdonald, leader of the opposition in the provincial house, will deliver addresses on the political issues of the coming dominion elections.

Relief for Weak Eyes.—The sunshine is often painful and damaging to weak eyes and it is our business to supply suitable lenses for such sensitive sight, do not lose sight of the fact that you can go anywhere and get experience, but dealing with Dr. Harvey the Eye Specialist brings satisfaction.

The Board of Trade has made a mistake, in our opinion, by sending a delegate to Victoria to watch the proceedings, as it were, on behalf of Revelstoke between the executive of the government and the Grand Trunk officials over the route from the interior for supplies to the construction camps.

The Edison Parlor Theatre has arranged for the purchase of a new moving picture machine, which will be the latest pattern of the Edison exhibition underwriters' model. The new machine is the very latest and most *up-to-date on the market and is absolutely* fire proof, besides containing many new and improved methods which will insure far better picture results. The management hope to be able to instal the machine next week.

The Progress of Science.—Dr. Harvey diagnoses accurately and prescribes intelligently for all refractive and heteropheric defects of sight. These deficiencies, which are responsible for a great deal of the headaches and eye troubles are now entirely relieved by wearing lenses properly ground to suit the case. Consultation Tuesday and Wednesday, Oct. 20th and 21st, at Guy Barber's jewelry store.

Early this week the buckskin pony belonging to E. Coursier was found near the C.P.R. track suffering from several ugly cuts and bruises, evidently caused by being struck by a passing train. The animal had probably strayed on to the track; the injuries to the beast are serious and although the animal is recovering, it had a close call.

It is passing strange that it is invariably the case in Revelstoke that when one social function is billed for a certain day, another one is sure to choose either the same day or a day before or after, just as if there were not heaps of other days just as good. This continual conflicting of these events do each other much harm as the people do not want to have their hands in their pockets every day of the week.

Social and Personal

Mrs. H. N. Coursier will not receive on Tuesday, Oct. 20th.

G. S. McCarter, F. B. Lewis, A. McRae and E. A. Bradley have returned from a shooting trip up the Columbia Valley.

Mrs. John Bourne, formerly of this city, but now of Vancouver, spent a few days in the city this week renewing acquaintances.

Mrs. H. Cunningham Morris left yesterday morning for a week's visit to Mr. and Mrs. L. F. Morris of Shuswap Lake, Notch Hill.

The opening session for the season, of the Merry-go-round Whist Club was held on Wednesday evening last at the home of Mr. and Mrs. J. Purvis. New rules were drawn up, a number of new names added to the roll, and arrangements made for the places of meeting during the season. The club will meet once every two weeks, on Tuesday evenings. At the conclusion of business about thirty-two sat down at the whist tables, including a number of invited guests not members of the club. The prizes were won by Mrs. R. Squarebriggs and R. N. Doyle. This is the first of the great number of last season's social clubs to make a start in the right direction.

For Sale

Dry cedar cord wood—Revelstoke General Agencies Ltd.

SPORTING NOTES

The very latest news from Australia in the boxing line is to the effect that a purse of $42,000 has been hung up for Tommy Burns and Jack Johnson to box for. Of this amount Burns is to receive $30,000 for his share and the remaining $12,000 will act as another for the ruffled colored man. There is nothing definite about this, however, and it is merely a rumor. The date of the contest has not been set, but in Australia it is said the men are to get together some time within the next three months.

At a specially called meeting the Nelson hockey men raised $12,000 for the building of a new rink for the coming season. This means that a challenge for the Stanley cup will be sent east, a fine local rink now being assured.

The feature of yesterday's sport at Lexington, Ky., was the remarkable but unsuccessful attempt of Dan Patch to lower his record of 1:55. Although he went the mile in 1:56¼ considering his age and condition, his effort is said to have been more remarkable even than his record-making performance. He was very tired at the finish. Time by quarters, :29, 56½, 1:25½, 1:56¼.

Churches.

CATHOLIC.—Rev. Father Coccola pastor. Services are held on the First and Third Sundays in every month at the following hours: 8 a.m. Communion Mass; 10:30 a.m. High Mass and Sermon; 2 p.m. Baptisms; 2:30 p.m. Sunday School; 7:30 p.m. Rosary, Instruction and Benediction.

ST ANDREW'S PRESBYTERIAN—Rev. W. C. Calder, pastor. Sunday, Oct. 18. Services 11 a.m., 7:30 p.m., Sunday School and Pastor's Bible Class, 2.30 p. m. Prayer meeting on Wednesday 8 p.m. Choir practice and teachers' meeting, Friday 8 p.m.

Young Conservative Club

Election of officers and social evening Wednesday, Oct. 21st, at 8 p.m., in rooms over Burns' Block. All young men cordially invited.

Edison Parlor Theater.

Good pictures and good houses have been the order of the week at the Edison Parlor Theater. The management have secured the services of a really good film rental service, and the pictures are distinctly pleasing to the public. The programme tonight includes "Scenes in China," showing the famous walls, imperial canal, etc.; "A Good Boy," an interesting picture; "Poverty and Probity," showing an accident in the mine; "Interrupted Romance," a laughable comedy; "On Bad Terms with the Janitor," a screamingly funny film. Mrs. Chambers will sing the well known Indian illustrated song, "Napanee." Complete change of programme for Monday and Tuesday evenings.

Wedding Bells

The marriage of Mr. Frederick W. Thompson, freight inspector, Revelstoke, and Miss Jennie Thompson, of Vancouver, was celebrated in the Methodist church on Thursday, the *15th inst. Mr. and Mrs Christopher* W. Boden, of this city were witnesses to the ceremony which was performed by Rev. T. W. Hall.

The young couple left on No. 97 for for the west and after a few days' honeymoon, they intend residing in Revelstoke.

Hindus Leaving the Country

VANCOUVER, Oct. 16.—J. B. Harken, of the department of the interior announced last evening that the government had solved the Hindu question, so far as the province of British Columbia is concerned. The entire Hindu colony, consisting of over 2,000 is to be moved from British Columbia to British Honduras.

The plan is being carried out as a result of negotiations which have been carried out between Sir Wilfrid Laurier, Lord Strathcona, Canadian high commissioner in London, and the governor of Honduras. The latter was in London recently and personally talked over the details of the scheme with Lord Strathcona.

Mr. Harken was sent from Ottawa by Sir Wilfrid and left today with two *Hindu delegates for Honduras to* arrange details of colony at that end of the line.

Hindus are anxious to move, and the imperial government will assist in cost of transportation to their new home. Scores of members of the Hindu colony here are not only out of work but actually starving. Much suffering will result this winter if they are not moved.

The present plan is to charter two *ships to carry them to Panama* and send them across the isthmus, thence to their destination. They will be employed building railways in Honduras.

New Neckwear

We have just opened one of the prettiest lot of Neckwear that we have ever shown. The new styles are a decided change to those that have been shown and you will find all the latest fads among them, as well as the every day styles. TENDERS FOR DREDGING

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Dredging Coal Harbour," will be received until Friday, 30th October, 1908, at 4 30 p.m., for dredging required at Coal Harbour, Vancouver, Province of British Columbia:

Tenders will not be considered unless made on the form supplied, and signed with the actual signatures of tenderers.

Specification and form of tender can be obtained on application to G. A. Keefer, Esq., Resident Engineer, New Westminster, and at the Department of Public Works, Ottawa. Tenders must include the towing of the plant to and from the works. Only dredges can be employed which are registered in Canada at the time of the filing of tenders; Contractors must be ready to begin work within twenty days after the date they have been notified of the acceptance of their tenders.

An accepted cheque on a chartered bank, payable to the order of the Honourable the *Minister of Public Works, for one thousand* ($1,000.00), must be deposited as security. The cheque will be returned in case of non-acceptance of tender.

The Department does not bind itself to accept the lowest of any tender.

By order,
NAP. TESSIER,
Secretary.

Department of Public Works,
Ottawa, October 7, 1908.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

DOMINION ELECTIONS

Public Meeting Tuesday Evening Next

Mr. Duncan Ross, of Yale-Cariboo, and J. A. Macdonald, leader of the Provincial Opposition, will address a public meeting.

An invitation is extended to opposition speakers and especially W. J. Bowser, Attorney-General.

The place of meeting will be announced by handbills.

God Save the King.
