DEVELOPMENT OF BIG BEND MINES

J. F. Moodie Takes Outfit up to Canoe River---Will Have 20 Men Working---Man Drowned in Running Rapids.

James F. Moodie of Calgary, manager of the Big Bend Mica Mines, Ltd., left with a full outfit of horses, men and supplies on yesterday's steamer for the mica claims of the company near Canoe river.

Alex. Pirie one of the directors took a number of men and four boats of supplies down the river from Beaver about a month ago and came into town by steamer on Friday last and reported that in trying to run the rapids below Kinbasket Lake they had the misfortune to drown one of their men, Charles Wood, of Red Deer, and they also lost some supplies The body of Wood has not been found since.

The company have now definitely decided to abandon the Beaver route and to make use of the Revelstoke route entirely, both for shipment in of supplies and for shipment out of the mica product.

Mr. Moodie took up a large gasoline launch on the steamer Revelstoke with which he hopes to navigate parts of the upper river during the lower stages of water. He also bought a train of packhorses and large quantities of supplies here which went up on yesterday's steamer. The Company have eight men on the claims now and when yesterday's shipment reaches the claims they will employ 20 men in development work. Mr. Moodie has succeeded in interesting some strong Calgary and eastern men in his company and the properties will now undergo complete development. It it is expected that shipment of the product will begin as soon as the new trail to the Columbia is ready. The government agent, Mr. Gordon, has sent up a trail gang to repair the Canoe river trail and has despatched a man to make a report upon the best available route from the Columbia river above Townsend creek to their claims

Mr. Moodie is negotiating for other interests in the Big Bend and expects to be able to influence the investment of considerable money in our resources of that district.

PUBLIC SCHOOL PROMOTIONS

Results of Midsummer Examinations—Many Pupils Have Passed

The following pupils of the public school have earned promotion as a result of their work during the term just closed. The names are arranged alphabetically:

High Fourth to Leaving Class—E. Bruce, E. Corson, C. Field, E. Johnson, E. Maclean, C. McRae, L. Moran, E. Morgan, L. Steed.

Inter. Fourth to High Fourth—E. Blainey, L. Brock, S. Dickey, K. Sibbald, K. Simmonds.

Recommended—M. Lindmark, N. McLeod.

Low Fourth Reader to Inter. Fourth Reader—M. Abrahamson, G. Burridge, D. Calder, E. Clay, H. Cook, M. Colarch, M. Fleetham, E. Fletcher, M. Hack, R. Haggen, M. Lawler, A. McCarter, E. McCarthy. J. McEachern, J. McIntyre, P. Moran, E. Robbins.

Recommended—W. Maclean.

High Third Reader to Low Fourth Reader—L. Blackburg, I. Brown, C. Bruce, P. Campbell, W. Currie, B. Daniels, E. Gallicano, T. Gallicano, H. Gibbons, M. Henderson, M. Lee, J. McEachern, E. McMahon, F. McMahon, W. McRae, R. Miller, M. Procunier, A. Young.

Recommended—R. Frisby, E. Hanson

Low Third Reader to High Third Reader—M. Brock, G. Cook, C. Cormier, O. Coursier, L. Daniels, K. Field, M. Fleetham, F. Jackson, A. Johnson, J. Maley.

Recommended—T. Bain, V. Jolliffe, H. Jones, W. Leslie, C. Manning, L. Matz, A. Pagdin, M. Parsons, M. Ringer, P. Stacey.

High Second Reader to Low Third Third Reader—L. Abrahamson, E Bregoliss, R. Calder, G. Cocorochio, G. Fletcher, J. Le Beau, E. Picard, S. Picard, M. Robinsou, M. Sanderson.

Recommended—G. Turnross.

Low Scond Reader to High Second Reader—E. Bradshaw, L. Campbell, G. Cocorochio, W. Cook, E. Donaldson, E. McKinnon, O. Maclean, C. Moran, L. Rae, A. Robinson, L. Smith, M. Smythe, T. Taylor, J. Young.

Recommended—G. Urquhart.

High First Reader to Low Second Reader—D. Abrahamson, M. Armstrong, E. Bruce, M. Elliott, N. Fleetham, W. Fleming, A. Jackson, J. Laing, J. Lawler, J. Lonzo, H. Lyttle, D. Maddaloni, M. Matz, A. McLean, L. Morgan, R. Tapping, G. Tomlinson, L. Williams, L. Williamson.

Recommended—W. Henderson, H. McLellan.

Looks Like War in South America ---French Government Down and Out --Items of Interest All the World Over.

BUENOS AYRES, July 20.—The Argentine government has ordered its minister to leave Bolivia within 24 hours. This looks like war in South America. The action was taken by Argentina on account of the refusal of Bolivia to accept the award of Peru in the boundary dispute.

St. John, N.B., July 20.—In the by-election for the legislature, A.F. Bentley, Opposition, was elected by 50 majority.

PARIS, July 20.—The Clemenceau government fell tonight in the discussion of the naval scandals. Delcasse led the attack and Clemenceau retorted hotly, losing his head. In the division following the debate, the government was defeated by 212 to 176. Clemenceau and his ministers left the Chamber and have handed in their resignation to the President.

PITTSBURG, July 20.—Only 500 of the 10,000 employees of the compressed steel car company returned to work today. The strikers managed to obtain an entrance to the mills and drove many of these away.

WINNIPEG, July 21.—Sergt. Blackburn, of Winnipeg, has won the Prince of Wales' prize, second only to the King's prize, at Bisley, with a score of 84 out of 85 points, Captain Forrest, Vancouver, second with 83.

WASHINGTON, D. C., July 20.—Orville Wright made two flights in his aeroplane at Fort Meyer to-day. The first flight lasted 25 minutes, and the second flight half an hour. In the 55 minutes he covered 37 miles.

MISSION, B. C., July 19.—Robert Stewart, Canadian Pacific engineer, killed last night while trying to crawl across the track between freight cars.

LONDON, July 21.—Rosa Nouchette Cary, the novelist, died last night.

LONDON, July 20.—King Edward paid a long visit to Joseph Chamberlain at his lodging-home yesterday. Mr. Chamberlain's condition causes a great deal of uneasiness, but his son Austen says that he is improving.

TENDERS TO BE CALLED FOR CEMENT SIDEWALKS

Council to Investigate Contracts ---Tenders Called for Septic Tanks---Question of Sits not yet Settled.

A special meeting of the City Council was held on Monday evening, the mayor and all the aldermen being present with the exception of Ald. Sawyer. One of the principal items discussed was the new by-law for cement sidewalks in different parts of the city. There was some difference of opinion as to whether it should be done by day work or contract. The engineer estimated the cost at 16 cents a foot, but Ald. Pradolini considered that rather high. The council was of opinion that the clearing and excavating would have to be done by contract anyhow as otherwise teams would have to be hired.

The Mayor expressed a fear that under the contract system work might not be so well done, as under day work when the city had it in its own hands all the time.

Finally it was decided to call for tenders anyhow, and consider them though it does not follow that day work will be departed from, unless tenders should prove particularly favorable.

The question of the septic tank was also discussed. The Mayor reported no further progress in negotiations with the Revelstoke Land Company for the septic tank site.

The council expressed a wish to settle the matter by negotiation if possible without proceeding to expropriation.

The clerk was instructed to write to the Eand Company to see if a price for the land needed could be agreed upon.

It was moved by Ald. Stone and Kimberley that tenders be called for a septic tanks on the plans and specifications prepared by the city engineer and that they be in by August 5th. Lowest tender not necessarily accepted. —Carried.

The by-law to raise $4,911 for the construction of cement sidewalks was by permission of the whole council read three times and carried at the one sitting.

On motion of Ald. Macdonald and Stone, it was resolved that a court of revision for the purpose of hearing objections to by-law 143, for the construction of cement sidewalks, be held at the city hall on Wednesday, Aug. 11th at 8 p.m. The court is to consist of the whole municipal council.

On motion of Ald. Wells and Macdonald it was resolved that in view of the fact that the construction of cement sidewalk, on the north side of First street from the corner of Campbell avenue to Boyle avenue, and on the north side of Second street from the corner of Pearson street to the corner of Forde street, and on the west side of Front street from the corner of King street to Victoria road, benefits the city at large, it is deemed inequitable to assess the whole cost of construction of such sidewalks on the property-owners, that the city at large bear a portion of the expense thereof to the extent of $1637.16, and that the payment of this amount be enterad for a period of twenty years.

On motion of Ald. Macdonald and Wells it was resolved that the city call for tenders for the work in connection with the concrete sidewalks about to be built under the following conditions:

First—For each sidewalk as per specifications.

Second—For all the sidewalks as per specifications. The work is to be done under the supervision of the city engineer, and to the satisfaction of the public works committee. The tenders are all to be in by the 27th inst.

Buckham Nominated

At the Liberal Convention held in Golden on Monday afternoon, J. A. Buckham, was nominated to contest the riding of Columbia in the party's interests in the next Provincial election. The convention was followed by a meeting in which J. A. McDonald and John Oliver were present. Mr. Buckham was formerly a druggist in Revelstoke.

New Programme at Edison Theatre

On Friday and Saturday nights an entire new programme of first-class pictures will be shown at the Edison Parlor Theatre. The programme will include some good dramatic subjects and first class comedy.

Summer Cooking

We have a few Gasoline and Coal Oil Cook Stoves left with ovens for same if desired. These are very nice to use in the hot weather, as they save fuel and do not heat up the house.

Remember we are agents for McClary's Stoves including the Saskalta, Pandora and Kootenay Ranges. These stoves are in use in the best homes in town, proving that good people appreciate a good thing. You will make a mistake if you do not purchase a range of us when you need one, as there is nothing to equal them.

THE POLICE MAGISTRATE

The Observer in its last issue suggests that the police commissioners should consider what it is pleased to call "the vagaries of the Police Magistrate." In our view if anyone thinks there is anything wrong with the Police Magistrate and has charges to make against him, the proper course would be to write them down in black and white and place them before the commissioners, who could then hear what Mr. Foster had to say and judge between the two. To be constantly calling names and flinging out sarcasm and inuendo, while it may foster and perpetuate ill feeling, proves nothing. Differences of opinion as to the course of any man holds a judicial position, there will always be; but so long as a man holds that position he is entitled to respectful treatment, and while not above criticism, that criticism should at least be couched in fair and gentlemanly language.

So far as we have been able to observe, those most closely connected with police court proceedings here are well satisfied with Mr. Foster's conduct. We believe that the legal gentlemen who appear before him as counsel, the police and public officials with whom he comes in contact, will be willing to admit that he is careful and painstaking, that he has the intelligence to grasp clearly the issues before him, and adjudicates upon them with a fair and open mind. These we believe are the opinions of those most competent to judge. These are the men who know all the attendant circumstances of the cases that come up for trial, and their opinion is surely worth more than that of the street gossip, who from some garrulous neighbor or partisan sheet, grasps a garbled fragment of a case and bases his judgment on that. Judging the text without the context is always unfair and in nine cases out of ten leads to wrong conclusions.

If there is complaint to make against any public official, there is usually a straight way of dealing with it, either by petition, written complaint or public investigation. In some such way these complaints should be disposed of in one way or the other, and the thing ended. That a publication should be sent out from this city, harping continually of injustice and graft, and filled with petty flings at private citizens, cannot redound in any way to the good name of Revelstoke. If outsiders are given the impression that the place is torn with strife and bickering, and justice itself is contaminated, it is not likely to encourage them either to settle here or invest their means among us. In reality we know that the people of Revelstoke are at the core sound and honest, and that it is their desire to advance the welfare of the city; and while its officials and government, should of course always be open to fair criticism, that is the impression we should strive to give.

A CENTURY OF PEACE.

Hon. Mackenzie King struck a popular chord, when at Harvard recently he suggested that the year 1912 be utilised to erect a memorial to the completion of a century of peace between the two great nations that rule the North American continent between them. Such an action would mark an epoch in the history of the world. Hitherto statues have been for warriors, and monuments to commemorate victories over other nations. That two nations should unite not in building monuments to battles, but rather in commemoration of their victories over the worst elements in themselves, the lust of blood and the desire for conquest and invasion, would be a step that would appear like the first gleam of light in the dawn of the millenium. We believe that there was truth in Longfellow's sentiment when he wrote:

If half the power that fills the world with terror
If half the wealth bestowed on camps and courts
Were given to redeem the human mind from error
There were no need of arsenals nor forts.

We believe that it is because Canada and the United States have not wasted their strength on armaments in the past, that such a project as that outlined by Mackenzie King is possible of realization. The more money there is spent on education, the less it will be necessary to spend on war. It was the ignorant Indian who donned his paint and feathes and went out without provocation after his neighbor's scalp; it was the savage African who with assegai and battle axe sought to fertilise the ground with the blood of another tribe; and it was in an age when the common school was not that our own Saxon forefathers roamed the seas and slaughtered and pillaged on:

"The good old rule, the simple plan,
They should take who have the power, and they should keep who can."

For the first fifteen years of the last century, the sky of Europe was black with the smoke of the Napoleonic wars. Then the sound of battle became rarer until it closed with the Franco-Prussian war in 1870. Since then, for a period of almost forty years, no great war of any extent has disturbed the peace of Europe; and though the nations are increasing their armaments in nervous fear, the fearful cost of modern warfare is likely to deter them for action for a long time, and the heavy taxation they involve may in the end force the powers to agree to a voluntary reduction. Under any circumstances it is likely that war will become rarer and rarer as the years advance.

In the meantime on this continent there seems happily to be no possibility of a renewal of the fratricidal strife of a hundred years ago. The ties of blood, of commerce, and mutual interest forbid it, and should Canada and the United States pledge themselves to another century of peace, both nations will have earned the encomium which Charles Sumner, pronounced on the country that should be first to denounce war and seek the way of peace, "Their fame shall be immortal as the stars shedding light upon the paths of men."

A PASTOR'S SACRIFICE

Rev. J. R. Robertson, pastor of Knox church, did a couragecus thing when recently he handed in his resignation to the management of his church. In order to pave the way for unity among the abdereuts of the Presbyterian church in this city, he is cutting himsel adrift trom associations built up by four years of earnst endeavor, and with wife and children dependent on him has thrown himself on the world without a call or opening in sight. In the face of such an act faith in human nature still survives and we do not doubt that when Mr Robertson's self sacrificing action becomes known, a hundred hands will be reached out to assist him to means of livelihood perhaps bringing with it a larger sphere of usefulness. We are fond of eulogizing heroes whoes deeds are done on battlefields in distant lands but when a quiet act of self sacrifice for the public good is done in our midst, we are to apt to let it pass unoticed.

We can only hope that Mr Robertson may yet see the fruits of his selfdenial in the fulfilment of his own vision, of one strong Presbyterian church in Revelstoke, where the financial burdens on the congregation will be lighter and its power for good proportionally increased. But even should that not be the case, Rev. Mr. Robertson will have done more than achieve success—he wid have deserved it.

A report comes from Naivasha, East Africa, that Theodore Roosevelt has shot a hippoppotamus that weighed three tons. It used to be the sea serpent and the fish story, but the latest of these romances of "wild animals I have not known" might well be called a Teddypottamus.

Revelstoke is essentially a town of workers, and all should assist in making the Labor Day celebration to be held here a good one. The weather should then be cool and pleasant for sports, and with a good parade to start out with, and some rousing speeches to close the day, there should be no lack of entertainment. If some special drawing card in sport could be secured for the afternoon, it would add to the attractions and be a good advertising feature also.

Mining Notes

According to the Rossland Miner, several good ore finds have been made in Rossland mines during the past week or two. On the sixth level of the Centre, a vein 14 feet side and carrying good ore values has been found. On the sixteenth level about 150 feet from the shaft there has been located a considerable body of low grade ore.

In the War Eagle mine the diamond drill in cross cutting struck ledges of ore from four to eight feet wide that will go $14, $15 and as high as $20 to the ton. On the ninth level an immense tonnage of high grade ore has been opened up.

The main ledge of the Centre Star has been located in the fourth level of the Idaho mine. A stope has been opened up and a winze is being sunk to the fifth level. The vein at that point is 25 feet thick and of fairly high grade.

Wealth of Ingenica

Morris Marks, superintendent for the Ingenica Mining Co. arrived in town Thursday from the company's proporties on the Ingenica river and will make short trip to Vancouver before returning to the placer country, says the Omineca Herald, of jane 19th. He made the trip out in seventeen days travelling the first ninty miles on snow shoes, then down the Driftwood river and Tacla lake by canoe, asross to Babine lake, 34 miles, on foot and then to Hazelton with a horse secured at Babine. In regard to the Ingenica he said that prospects were very encouraging for an output this year of from $40,900 to $50,000. There are forty men at work on the Ingenica river, shoveling in the larg part of the time. Mr. Marks left June 1st. and the results showed from ten dollars to twentythree dollars and a half per day to the man. King and partner had averaged $23 20 per day. D. Minard had $300 in dust as the result of a short run, and Olson had $155 to show for about a week of work. All of the men in there will make good wages or better this summer. While nothing rich has been struck on the Ingenica the men there are able to keep themsilves going and at the same time continue prospecting.

The Best of All Breakfast Foods
There's a reason behind all fads and fancies. We required light breakfast foods and the market was flooded with health foods (so-called.) But—the best breakfast food in the world is "Zephyr Cream" Soda Biscuits crushed in cream or fresh, sweet milk.
Christie's "Zephyr Cream" Sodas
have more original goodness than all other sodas manufactured on this continent. More than that, the original goodness of Christie's Biscuits is lasting. The flavor does not vary.
All big biscuit makers buy a good brand of flour. We buy all good brands. Then we blend the best brands, sift and test the blend until we find a dough that will sustain the Christie reputation.
Expensive! Yes—but we know no other way of starting to make biscuits up to our own high standards.
Every ingredient entering into our "bakes" is the purest and best we can buy.
Our "Zephyr Cream" Sodas crushed in cream, or fresh milk, certainly do make an excellent light breakfast. You test them.

PROVINCIAL PARAGRAPHS

Items of Interest of Happenings Throughout British Columbia

A lobster crop may yet be added to the fishery wealth of British Columbia. The Dominion government is stocking suitable bays with lobsters from Nowa Scotia.

The amalgamation of the British Columbia Copper Company and the Dominion Copper Company, with their mines and the smelters at Greenwood, is definitely announced from the east. The strike situation on the properties of the first named company remains unchanged. The holidays interfered with the week's output, and the shipments were below the average.

Gary R. Barrett, who killed Deputy Warden Stedman of the Alberta penitentiary, was hanged in Edmonton on Wednesday last.

Detectives now say that the train robber shot by Constable Decker at Ashcroft is Lou Haney, and that the man who shot Decker is Haney's brother. While the man-hunt has been given up, detectives are still chasing up the records of the Haney brothers, who were two well known California outlaws.

Ida Irene Vermilyea, a Vancouver girl, came out first in the McGill matriculation examinations this year with a total of 601 marks out of a possible 700.

The first annual Vancouver Exhibition is to be held at Hastings park October 7, 8 and 9. As the time is short all stock and outside exhibits will be dispensed with except horses. Four thousand dollars has been voted to put up a permanent grandstand, and the executive will put on the best and most elaborate amusement feature they can secure.

The C. P. R. has placed in trust $2,500 for the education of the son of Constable Isaac Decker who was killed in trying to arrest the two train robbers in Ashcroft. The Provincial government is also making arrangements for the care of Decker's family. All this is apart from the rewards which will remain as before.

The Indians at Pemberton Meadows have been greatly excited lately over the spasmodic appearances of a wild white man who rushes around armed with a brush knife on the end of a long pole. There is no police force nearer than Vancouver and Lillooet, and the Indians are in great alarm, even the squaws carrying revolvers and threatening to shoot on sight.

The Prince Rupert Empire is now in the hands of S. M. Newton, who bought it from John Houston.

Campbell Sweeny, manager of the Bank of Montreal, in Vancouver, who has just returned from a trip to the Kootenays says he was greatly impressed by the strides that were being made there in fruit growing. Otherwise he found business in Kootenay and the Boundary country rather quiet.

The C.P.R. is likely soon to remove its line from the main street in Kamloops and run it close along the river bank. This was the intimation given by Gen. Supt. Busteed to the city council at a conference he held with them recently. The change is to be made in conformity with a number of improvements contemplated by the C.P.R. in that city.

The provincial government has established a British Columbia scholarship in connection with the Ontario agricultural college at Guelph or the college of St. Ann de Bellevue, Quebec. Students attending from this province will receive $50 each per term from the government.

George Milne, a young man who worked in a grocery store in Vancouver, was killed by falling from the steps of a street car in the early part of the week. He was a brother of Albert Milne of the Hudson Bay Co.'s staff in Kamloops.

Skeleton 400,000 Years Old

PARIS, July 19.—Wise men have now pronounced upon the age of the homo mousteriensis, whose skeleton was discovered in a cavern near Le Moustier in the Department of Dordagne, south-western France, about a year ago. When discovered the skull was much damaged, but the parts of the skeleton have since been put together, and it is now thought the remains are those of a young man between 16 and 18.

The jaws are protruding, the skull markedly receding. The nose would seem to have been broad and flattened and the nostrils directed mainly forward; all these features being very apelike. An age of 400,000 years is assigned to the deposit, which belongs to a late interglacial epoch. This would make the fossil young man of Le Moustier, the oldest of the human race yet known.

Private sale of household furniture of Mrs. D. W. Foote, Third street. Same may be seen between the hours of 11 a.m. and 4 p.m. any day. 17-tf

RETURNING FROM FAR NORTH

Plunged Into Wilderness Two Years Ago and Given up for Lost.

OTTAWA, July 19.—Geo. Caldwell, the explorer, who was supposed to have perished three years ago when searching for gold north of the Arctic Circle, is alive and is pushing south from the Hudson Bay regions on his way to this city. With him are his two Eskimo guides, whose wives have been mourning them as dead for the last two years. The first news from Caldwell was received here today in the form of a telegram, briefly giving information of his early return. It is not known if he has realized his hope of discovering the richest gold field in the world. He left the police post at Cape Fullerton, Hudson Bay, in January, 1906, with the two Eskimos, intending to push to the Copper Mine River and on to the Mackenzie River. He sent a letter to his family in August, 1906, from Chesterfield Inlet and from that time nothing more was heard from him. The letter was carried south by a party of Eskimos returning from a musk-ox hunt. Two years ago Eskimos reported that Caldwell and his two companions were dead. Articles belonging to the men were picked up and it was believed they had perished from cold.

Now, however, it develops that the party came safely through all dangers and there is intense interest here over the news Caldwell brings of his gold hunting. He headed into territory never before entered by white men and his journey will have a geographical value apart from the possibility of his having found gold.

ENLARGED ACCOMMODATION

Revelstoke Hotels Are Enlarging Premises to Keep Up With Business

That travel and business are increasing rapidly in Revelstoke is shown by the necessity for increased hotel accommodation, which the differerent hosteleries of the city are striving to meet. Two hotels have lately increased their room considerably, and a third has already done the excavation work for the commencement of a considerable addition.

THE REVELSTOKE

The new annex to the Hotel Revelstoke, containing fifteen additional rooms, was opened for business last week. Mr. Alex McDonell, the genial manager, is determined to leave nothing undone for the comfort of his patrons as the furnishing of these rooms shows. It is practically divided into suites of two rooms, between which is a handsomely furnished bath room with which each room connects separately. In every room is a bedstead of polished brass and bureaus of weathered oak, while the floors are covered with green Bosphor carpets. Wicker chairs and trunk stands also add to the convenience of the guests. The walls are finished in kalsomine, and the doors and casings in glossy white paint. The annex is a two-storey addition to the east of the main building, and its finish is a credit to Mr. Bethune, the local contractor, who had charge of the work. The addition and furnishing cost about $8,000. Besides this Mr. McDonell has had the whole house practically refurnished.

THE ORIENTAL

In the lower town Ald. Stone has the excavation already made for a considerable addition to the Oriental hotel. He intends to put on an addition 60 by 30, containing 23 rooms. On the floor will be a large dining room 26x34, and there will be a wide hallway and staircase and a new bar room. Besides this there will be a one story addition at the back for washhouse and outhouse purposes.

O. W. Abrahamson is the contractor for this addition which will cost about $8,000, and should be completed and ready for business by next October.

THE CITY HOTEL

Mr. Caley also expects to finish shortly the addition to the City hotel which he started some months ago. The addition consists of a big bar room on the lower floor and eight bedrooms above. Four of the bedrooms are already furnished and in use, and Mr. Caley expects to finish the others and furnish them right away. The bar room, which will be one of the biggest in the city, will be finished later. The addition is three storey, 22x40, and up to date the work has cost about $7,000.

Forestry Commission

A. S. Goodeve, M. P. for Kootenay, passed through on Sunday afternoon on his way to the Coast. He was accompanied by Mrs. Goodeve, who will go with him on a flying trip to the Seattle Exposition. Mr. Goodeve will then go to Victoria, where the sittings of the Forestry Commission, of which he has been appointed a member, will commence on the 22nd inst. The next sitting of the Commission will be held in Vancouver, and they will then move up country working gradually eastward, and holding sittings at Kamloops, Vernon, Revelstoke and other interior points before winding up their work in the Kootenays.

A TRAVELLING PREACHER

Rev. Bohnet has Some Emphatic Beliefs and Quaint Comparisons

Rev. A. Bohnet of New York lectured in the Edison theatre here on Sunday evening. Mr. Bohnet's congregation was small, and he therefor decided to abandon his lecture on "The Great Pyramid of Egypt," which he had announced, and gave a lecture on "Consecration," instead. Mr. Bohnet is not much troubled with modern scientific discovery. Neither the Neanderthal man nor the age of the Saurians, whose bones are found imbedded in the earth, trouble him. He gives it as his emphatic belief that the world is just six thousand years old, and that it has almost exactly three thousand more years to exist, after which it will burn up like a rag doll. He figures out that there are in heaven just twelve legions of angels, and as it is promised that "the angel of the Lord encamps about his saints," he thinks that there will generally be enough to go 'round for all the saints there are on earth at any one time. While the Bible only spoke of "the angel of the Lord," it really meant "angels." It was plural like "sheep."

"How long will they encamp? I can tell you to a day. It will be just three days, for the Bible says that with the Lord one day is as a thousand years and a thousand years is but a day. It is just three thousand years till the second coming of the Lord."

Some of Mr. Bohnet's illustrations are certainly unique. Speaking of the love of Christ in leaving his heavenly home to take on human flesh he asked his audience pointedly:

"Now which of you would like to go down on all fours and take on the form and flesh of a little pig and grow up and spend thirty-three years among the pigs? Yet the difference would be no greater for any of us than it was for Christ to leave his spiritual form as an archangel and come down and take on our human form."

His illustration of eternity was helped out by a feather and the old stove in the corner. "Suppose," he said, "an angel came once in a thousand years with a feather in his hand and gave one brush on that stove, and kept coming back every thousand years and brushed on the stove once more each time till it was swept off the earth, and then he started to brush this building in the same way, and the town and the mountains, until he had swept them off the globe. By the time he got through eternity would be just about starting in."

His idea of giving to the Lord was helped out by a story of Pastor Russell. A man came to Russell and said he wished he had a million dollars and he would give it all to spread the gospel truth.

"And the pastor told him he had already given it, and so he had. He had given it because he had not taken a million dollars away from the Lord. His are the cattle on a thousand hills, and if you give in spirit that is enough."

Monarch Lead Mine

Following are some further particulars of the big Monarch lead mine at Field which was purchased recently by the Mount Stephen Mining Syndicate of coast capitalists who are to start work on it right away.

The mine has been worked in the past from a surface level at a point about 700 feet above the C.P.R. tracks. Owing to a stretch of perpetual slide over which a road is to be operated to the workings, the new company has decided to open into the mountain at bunker height above the track and ascend to the ore body by tunnel at an angle of 45 degrees, a distance of about 700 feet, which will open into the workings.

Arrangements have been made with the C.P.R. for a platform over the tracks, which will allow of waste being dumped clear of the metals. The ore will be lowered down the tunnel and taken out to the platform bunkers and dropped into cars, ready for the smelter.

It is estimated that at least 10,000 tons of lead are in sight, while it is difficult to place a limit on the extent of the mineral in the mountain. Recent examinations have convinced the new owners that the ore body is very much greater than was at first estimated. Samples taken from all parts of the property average in value over $25 per ton.

The deal is one of the most important closed in the province in many months.

On Saturday, in Grand Forks, the payroll at the Granby amounted to over $40,000.

After being in the water for over a month, the body of Charles Diamond was found in the Narrows near Moyie.

A Vancouver company has purchased five thousand acres of land in the Nicola valley at a price of $50. an acre. It is intended to drovide an adequate irrigation system and subdivide the property for fruit growing.

PURITY FLOUR

And Its Keeping Qualities

SOME people find it necessary to buy a considerable quantity of flour at one time—sufficient to last for a long period. Naturally they are anxious to procure a flour of the kind best adapted to lengthy storage.

There are two important reasons why PURITY FLOUR possesses these qualities. One is that it is made entirely from Manitoba Hard Wheat. The other lies in the fact that the careful milling necessary to produce "Purity" absolutely excludes all low-grade particles of the wheat berry. It's the high grade Manitoba Hard Wheat Flour that keeps—stands longest storage. That's "Purity."

"Purity" flour may cost a little more, but is more than worth the difference. Try it. Watch results both for quality and yield.

"More Bread and better Bread"

WESTERN CANADA FLOUR MILLS CO., LIMITED
Mills at St. Boniface, Goderich, Brandon.
Office, Winnipeg, Manitoba.

Another "Sunshine" Feature

The Gas Ring

This is an entirely new idea, and will especially interest people who reside in natural gas districts. The gas ring takes the place of the lower Sunshine fire-pot, thus making it possible to burn gas in your furnace without inconvenience. Such is not possible in a furnace where the ordinary gas log is inserted; for, should the gas give out, a coal or wood fire could not be started until the gas pipes were disconnected.

To provide against sweating in the summer time, Sunshine Furnace is equipped with a nickelled steel radiator and dome. All bolts and rivets are nickelled, all rods copper-plated. This special treatment, besides meaning quicker and greater radiation from the radiator and dome than cold chill iron could possibly give, acts as protection for the bolts, rivets and rods from inroads of gas. When cast iron comes in contact with our nickelled steel it is coated with our special Anti-Rust treatment, which prevents the slightest possibility of rust commencing anywhere in Sunshine Furnace.

LOCAL AND GENERAL

New programme at Edison Parlor Theatre Friday and Saturday.

County Court sits here on the 23rd instant.

The Independent Band will play at the bandstand in the lower town on Friday evening.

The Bishop of Niagara was among the passengers on No. 97 yesterday afternoon on his way through to the coast.

There will be a regular review of Mt. Mackenzie Hive, L. O. T., on Thursday afternoon at 3 p. m., July 20th. All members are particularly requested to attend.

A meeting of the Local Option League will be held on Thursday night (to-morrow) at 8 o'clock in the Baptist church. All officers and members are urgently requested to be present.

While the thermometer has been climbing up here lately it has not yet reached a height at which one requires a step ladder to see it. Yesterday afternoon it ran up o 76 in the shade, so that it was still 20 degrees below the highest point reached last year when it stood at 96 one day.

J. Morton of the MAIL-HERALD, yesterday received a cablegram containing the sad news of the death of his father, who had gone on a visit to his youngest danghter in Sydney, N.S. W. The late Mr. Morton was one of the early pioneers of western Manitoba, having gone in with the big rush in 1882.

Last Friday Chief Thomas English of the Calgary police force locked his desk and walked out of the office he had occupied for 19 years. This was done in compliance with the demand of the Police Commissioners that he should resign in three days. He is now awaiting the action of the city council to whom the commissioners are responsible. Chief English is a man over 60 years of age, who has had a police experience extending through scores of years, and almost across the continent.

Mrs. Strutt, wife of William Strutt of Trout Lake, died in the hospital here on Monday last. The deceased lady came to the hospital here about three weeks ago. She was then very seriously ill, and every effort was made to save her life, but in vain. The remains were forwarded yesterday morning to Trout Lake for interment. Mr. Strutt, who is an old timer in the Lardeau country, and has many friends in this district, will have their sincere sympathy in which the MAIL-HERALD joins.

Major Morris, provincial commander of the Salvation Army, passed through eastward bound on Sunday morning. Major Morris will visit Fernie, where one of the officers recently met with a serious accident, and will then proceed to Lethbridge where the S. A. barracks were badly injured by the collapse of a neighboring theatre. He was accompanied by Adjutant Wakefield, who has charge of the local immigration work of the Salvation Army. The adjutant stated that the army would not bring any immigrants into British Columbia this year, as at present there seemed to be no particular demand for it. Reports from those already brought in showed that almost without exception they were doing well and liked the country. The officers said they expected to see Gen. Booth through here next October.

Moving pictures Friday and Saturday.

The installation of the Gamewell fire alarm system in the city fire halls has now been completed.

A meeting of all persons interested in poultry raising will be held in Morgan's barber shop on Monday evening next at 7:30 o'clock. One of the objects of the meeting is to arrange for the housing of poultry exhibit at the second annual Fall Fair.

The lawn social in Aid of St. Andrew's church, given on the church grounds last night, passed off very successfully. The grounds besides being beautifully illuminated were decorated with bunting gracefully draped on every side. The Independent Band supplied the music, and the warm weather helped out the ice cream trade, by which the funds of the church benefitted.

Prof. A. O. Wheeler, president of the Alpine Clud, was in the city yesterday morning. He said the club would soon be going into camp on its ground in the Selkirkk. They wanted the assistance of any memqere who would come in and help to prush tents and other work. He expressed concern because an attempt was being made to knock out of business the old mountaineering guides along the road. He said he hoped that travellers would still continue to patronise the old timers who underssood the mountains throughly and were in every way good, competent men.

SOCIAL AND PERSONAL

Mrs. J. Purvis and family left for Vancouver, where they will visit their friends.

Mrs. J. J. Porter and family are enjoying a holiday visit to Albert Canyon.

Hon. Chas. Murphy, secretary of State, will be in Revelstoke on Friday next on his return from the Coast.

S. A. Mundy and J. M. Crum of the Mundy Lumber company, Three Valley, were in t wn on Monday.

W. O. Young, of Kamloops, and Gus Lund went up river yesterday to see some claims in Ground Hog Basin.

Tom Edwards and Robert Blackmore returned last Sunday from a two months prospecting trip to Tete Jaune Cache.

Mrs. R. H. Urquhart, with Gladys and Glenn, left Tnesday morning for Albert Canyon, where they will spend summer holidays.

W. R. Grubbe formerly of the Imperial Bank here, and now of Cranbrook, was in the city renewing old acquaintances during the past week.

J. A. Harvey, K. C., formerly of Cranbrook, but now of the firm of Harvey & Taylor, Vancouver, passed through on Sunday with his family bound for the Coast, where they will in future reside.

Freight Wreck

A freight train wreck at Glenogle, about half way between Golden and Beavermouth, on Monday morning delayed westbound traffic for three or four hours. Beyond injury to the cars no damage was done. It is supposed that a broken wheel threw a freight car into the ditch and two others followed it, but the rest of the train remained on the track. Two or three hours later the track was cleared again, and by midnight trains were all running on regular schedule once more On Monday No. 5 did not reach here till after 19 o'clock and it was after 21 o'clock when 97 arrived. The wrecked cars lay right across the track, blocking it completely for the time.

In Ripe Old Age

John L. Campbell died at his home on Seventh street on Monday morning last at the age of 82 years and six months. Deceased was born in Halton county, Ontario, and came to Manitoba with the big westward movement in 1882. About twelve years ago he came to British Columbia, first going into farming at Grand Prairie. For the past two years he has lived in retirement in Revelstoke, near his daughter, Mrs. Howson, of this city. A widow and five children survive him. The children are Mrs. Robert Howson of this city, Mrs. Riddell, of Grand Prairie, Mrs. Northcote (Elkhorn, Man.) Wm. Campbell, of Salmon Arm, and Al. Campbell, the youngest son, who lives in Revelstoke. The funeral took placethis afternoon at 2 o'clock, the Rev. Mr. Freeman officiating

To Inspect Montgomery Group

G. P. Mulcahy, of Spokane a mining engineer of repute, accompanied by W. B. Robertson, left for Downie creek on yesterday's steamer to make an examination of the Montgomery group. He will likely inspect some other properties also before returning.

SPORTING NOTES

Interesting Lacrosse Match To-morrow Afternoon on the Cricket Grounds

On the cricket grounds tomorrow afternoon at 15 o'clock a friendly game of lacrosse will be played.

A team from the lower town, captained by Albert Stone will meet a team from the upper town captained by A. B. McCleneghan. A. J. McDonell and A. M Rae will be referees.

The line up (subject to change without notice:

Lower—F. B. Wells, J. Abrahamson, J. P. Sutherland, J. A. Stone, R. A Upper, Tom Steed, H. Cook, H. Siegfried, B. R. Atkins, H. Smythe, J. R Stewart, W. H. Brooker, Jas. McMartin, H. B. Stonex, R. Laughton.

Upper—Sam Sutherland, C. E. Gillan, T. Kilpatrick, E. Dupont, T. Walsh, J. G. Barber, T. E. L. Taylor, A. B. McCleneghan, Dr. Hamilton, F. E. Sine, J. R. N. Cooke, Hec. McKinnon, A. E. Kincaid, Dr. Sutherland, G. S. McCarter.

A collection will be taken up from the spectators to be donated to the hospital. It will not surprise many to learn that the combined weight of the teams is 5,553lbs.

Last night the Intermediate baseball team defeated the Scots Greys in a fine game. The first innings on both sides was slack, both teams getting runs, but after that it was a good exhibition of baseball. Burridge was on the slab for the Intermediates, while Scott did the tossing for the Greys. This game brings the Intermediate boys to a tie for first place in the league with the Greys.

The Willow baseball team are looking for a game in town. This team is made up of boys who frequent a certain house near Sawyer's sash and door factory. Any boarding house that can get a team together kindly put up a notice in the Y.M.C.A., and arrangements will be made as to the date

The baseball game scheduled for tonight between the schools and the Beavers, will not be played on account of the boys being away at Albert Canyon, where the Y.M.C.A. boys are now in camp.

A good deal of interest was taken locally in the lacrosse match played last Saturday between the New Westminster and Vancouver teams, when the champions went down to defeae by a score of 10 to 4. While there is naturally some sympathy for the men who brought the Minto cup to British Columbia, this defeat will only add to the interest of the game on the coast. Of five games played between Vancouver and New Westminster this season, the terminal city has so far won one and lost four; but they have still a chance to redeem themselves before the season ends. The New Westminster team was unfortunate on Saturday in the absence of some of its best players, and in the number of players who were penalized. The feeling between the two teams is said to be so bitter that all future matches between them are to be refereed by outsiders.

Dawson a Dead Town

Frank Bayliff, a machinist by trade, has returned to Moyie after an absence of several months. Most of the time he was up in and around Dawson.

"Dawson is about the deadest place on earth," Mr. Bayliff says. 'At least 200 men are being fed at soup kitchens maintained by the city and the Salvation Army. Half the buildings are unoccupied and there is none of the excitement of former days. There are tons of machinery lying idle, and very little work going on aside from that being done by the Guggenheims. Ten hours constitutes a day's work, and the union is given no recognition whatever. Men are getting out of the country as fast as they can, but it is not an easy country to get out of. The railway fare is 18 cents a mile and many haven't the price."

Mr. Bayliff is again working at the St. Eugene.—Moyie Leader.

LABOR DAY CELEBRATION

Trades and Labor Council Deals With This and Other Matters

Further preparations for celebrating Labor Day were made at a meeting of the Trades and Labor Council held last Saturday night, and the work is to be pushed forthwith. The first step to be taken will be the circulation of posters in neighboring towns announcing that a celebration is to be held here.

H. Kempster presided and there was a good attendance of delegates.

H. N. Coursier reported in the matter of securing speakers for the evening, that E. T. Kingsley, of Vancouver, had promised that Revelstoke should have the first call on him.

It was suggested that several other names might be secured, and then the Council could choose between them.

Delegate Lyons said they should get up something as good as possible as it was the only day they celebrated in the town.

Mr. Coursier said that while in Okanagan lately many people had inquired of him what they were going to do in Revelstoke, and he had told them to look out for Labor Day. He made the suggestion of distributing posters which was afterwards adopted.

The following committees were appointed:

Soliciting and Finance—Messrs. Knapp, Kimberley and Mitchell.

Sports—Messrs. Lyons, Kempster and Hayward.

Advertising—Messrs. Coursier, Callin and Tweedle.

Delegate Lyons said they had some first-class trophies on hand to compete for already, and with generous subscriptions from the citizens, they ought to be able to give very good prizes. With good attractions in sports and amusements they should draw anywhere from 1,000 to 1,500 people from neighboring towns.

The chairman said they were not able to present a report on the abolition of the ward system, as the committee had not been able to get together. About two thirds of the property of the city was represented by the signatures on the petition they had circulated, and they should be able to report at the next meeting.

It was resolved that a letter of condolence be sent to Mrs. Dewar, expressing the sympathy of the Council with her on the death of her husband who had been one of their members.

It was reported that the contractors for the Molsons Bank building had promised to pay union wages to the carpenters when they began work, though the men working on the brick and cement work were not union men.

MOUNTAINEERING CLUB

Chalet to be Built in Victoria Park for the Present Season

A well attended meeting of the mountaineering club was held in the city hall last evening, the president, Rev. J. R. Robertson in the chair. The principal business before the meeting was the erection of a chalet or shelter for mountain climbers in Victoria Park at the summit of Mount Revelstoke.

The consensus of opinion was that if anything was to be done it should be done at once. Mayor Lindmark said the trail would be fixed and in good shape on the following day. Mrs. Coursier was of opinion that the chalet should be completed and ready for use by the first week in August if it was to be any good this year.

The mayor suggested that the best plan would be to get up a "bee" and build one of logs right on the spot. He estimated that if that were done it would not cost more than $250, and the Council might give some assistance.

Mr. Forde thought a cooking outfit should be put in and the key might be left with someone in the city, so that members of the club might have the use of it.

On motion of Rev. C. A. Procunier it was resolved that the secretary be instructed to request the city council for a donation, and that a committee be appointed to solicit private subscriptions.

R. J. Stewart was elected a member of the club, and he and H. N. Coursier were appointed a committee to collect subscriptions for the chalet.

Ald. Macdonald, J. T. Pollock, R.W. Blackmore, Mayor Lindmark and R. J. Stewart were appointed a committee to organise and supervise the work of building. A number of others volunteered to go up next week and get the work under way. They will also have to choose a site. It was understood that shingles for the roof, and other finishing material, and cooking utensils will have to be taken up by packhorses later. It was the general opinion that the chalet should be simply a place for sitting around in and cooking, but for sleeping purposes tents should be placed around it.

Mr. Forde tendered his resignation as secretary, saying he had only undertaken it temporarily, and he had a great deal of other work to attend to. The meeting, however, was so insistent that he retain the position, when a motion to that effect had been unanimously carried he agreed to do so for the present season.

The chairman said a number of persons who wished to ascend Mount Revelstoke had asked him if some member of the club would not guide them up.

Miss Hobbs said that they were going with a party and a packhorse at four o'clock on Thursday morning. Anyone could come up with them, and the man with the packhorse would be coming down again.

You Don't Have To

Go outside of Revelstoke to make your Real Estate Investments. The Revelstoke Land Company Ltd. have the best bargains in the City. Lots $150 up. Acreage $100 up.

Kootenay Agencies Ltd., Agents

BRITISH ASSOCIATION

for the Advancement of Science

Winnipeg Meeting

August 25th to Sept 1, 1909

The Local Secretaries have printed and distributed a first list of members attending the meeting and have in preparation a second list of members

It will greatly facilitate the work if those who intend to join the Association will send their names without delay to the undersigned, from whom all information, forms of application, circulars, etc., may be obtained.

Delegates from points: Mission Junction and west, and west of Kootenay Landing, in British Columbia.

Members and Associates from this territory will be sold return tickets at the rate of single fare on presentation of their membership tickets, or other proof that they are bonafide members of the Association, and will not therefore be required to obtain certificates to cover their return journey.

Tickets may be purchased from August 16th to August 23rd, inclusive, and will be good to reach initial starting point on return trip up to and including October 31st, 1909.

To enable those who wish to attend the meeting to secure the return fare privilege, it will therefore be first necessary to join the Association by paying the membership fees as follows:

Life member (lady or gent .....@ $50
Annual member, (lady or gent)..@ $10
Associate (lady or gent).....@ $ 5
Ladies' ticket (transferable).....@ $ 5

THE LOCAL SECRETARIES BRITISH ASSOCIATION,
University of Manitoba, Winnipeg.

CORPORATION OF THE CITY OF REVELSTOKE

Court of Revision

Notice is hereby given that a sitting of the Court of Revision to hear and determine any complaints or appeals against the assessment of rates or frontage tax proposed to be levied and imposed on the lands or real property affected under the provisions of By-law No. 143, being known as the "Local Improvement Sidewalk By-law No. 143, 1909," providing for the construction of concrete sidewalks (a) on the north side of First Street from the corner of Campbell Avenue to the corner of Boyle Avenue and (b) on the north side of Second Street from the corner of Pearson Street to the corner of Forde Street and (c) on the west side of Front Street from the corner of King Street to the corner of Victoria Road, will be held in the City Hall at the City of Revelstoke on the 11th day of August, 1909, at the hour of eight o'clock in the afternoon.

A statement showing the lands or real property liable to and proposed to be specially assessed for the said improvements and the names of the owners thereof as far as same can be ascertained from the last revised assessment roll and otherwise is now on file in the office of the City Clerk and is open for inspection during office hours.

All notices of appeal shall be served on the Clerk of the Municipal Council at least eight days prior to such Court of Revision.

Dated this 21st day of July, 1909.

BRUCE A. LAWSON,
City Clerk.
