THE LATEST TELEGRAMS

C.P.R. Dividends—The Peacemakers—South Pole Expedition—Terrific Explosion—Monster Exposition.

MONTREAL, Feb. 13.—At a meeting of the Board of the Canadian Pacific Railway company today, a dividend of two per cent. on Preference stock and three per cent. on Common stock was declared foear endedr the half-y December last, payable on April 2nd next.

NEW YORK, Feb. 13.—The United States will unite with Mexico and the Central American republics to prevent war between Honduras and Nicaragua.

LONDON, Feb. 13.—A new British expedition to the south pole will leave next October under the command of E. H. Shackleton, who was third lieutenant of the Discovery expedition in the Antarctic. A novel feature will be the employment of a motor car for ice travelling.

WOOLWICH, Eng, Feb. 13.—A hugh hole in the ground is all that marks the chemical research department of the Woolwich Arsenal and the cordite magazine which exploded early this morning with such terrific force that the concussion was felt in towns forty miles away and the whole countryside was thrown into a panic owing to the belief that a violent earthquake had occurred. There was no loss of life, but buildings for miles around were wrecked by the explosion.

TORONTO, Feb. 13.—Word has been received by the Canadian Manufacturers' Association, that negotiations tions are now under way for the holding of a monster exhibition in London, England, next year during the months from May to October. It will be known as the Entente Cordiale Exhibition, and will be participated in by Great Britain and her colonies. It will be under the direct supervision of the Governments of these two countries, both of whom will contribute very liberally to its support.

CURLING.

The Golden Bonspiel.

Two rinks of local curlers, skipped by D. Nairn and A. E. Kincaid, attended the Golden bonspiel last week, and although they did not succeed in carrying off any of the trophies yet they won the hearts of their opponents by their plucky fight and the sportsmanlike way in which they took their defeat. In addition to the Revelstoke rinks there were four from Calgary and five Golden rinks entered in the 'spiel. Three trophies were competed for, viz., Grand Challenge, Geo. P. Wells, and Cantlie cups, each being supported by handsome individual prizes. In the Grand Challenge Nairn defeated King of Golden, 13-12, but went down before Telfer of Calgary, 8-10, after a hard struggle. Telfer also defeated Kincaid in this event by a narrow margin, 11-9. In the Wells' ivent Kincaid defeated Ullock of Golden, 9-7, but was knocked out by Freeze of Calgary, 10-12. Miquelon of Calgary defeated Nairn in this event. For the Cantlie trophy King of Golden defeated Kincaid 13-8, and Ullock of Golden defeated Nairn, 16-10. The Calgary rinks eventually carried off all the trophies, Miquelon securing the Grand Challenge and Wells cups, and Col. Walker the Cantlie cup. The visitors were royally treated by the Goldenites. On Friday evening a masquerade ball took place, which was a huge success, and on Saturday evening the visiting curlers were entertained at a smoking concert.

It is a matter of regret that the local curlers have not seen their way clear to hold a bonspiel here this winter, as nothing tends more to increase interest in the game and improve the style of play than by meeting outside clubs. It is also the general opinion that having been entertained by the Golden curlers so often, the local club should return the compliment.

Last night at the rink Brock defeated Rae in the semi-finals for the Burns cup, 11-8. The final game for the possession of the cup for this year is now between the Brock and Robertson rinks, and will no doubt be keenly contested.

Tasteless cod liver oil, just the thing to stop the hang-on cough. Sold at the Canada Drug Store at $1 a bottle.

Mrs. James T. Telfer will receive at her home on Thursday and Friday, February 14th and 15th, from four to six and from eight to ten.

COLLISION AT SEA

Joy Liner Larchmont sunk by Schooner—Feared that Several Lives were Lost—Bitterly Cold Weather.

BLOCK ISLAND, R. I., Feb. 12.—The steamer Lochmont, of the Joy line, with many passengers on board, bound from Boston for New York, sank off the northwest side of Block Island today, after having collided with the three-masted schooner Harry Knowlton, of Quochontang. The passengers and crew from the steamer took to the boats, but it is feared that some may have lost their lives, either by being drowned or freezing. The temperature was below zero.

The schooner's bow was cut away and her captain ran her ashore west of Quonochontang to prevent her sinking. The schooner's crew of seven men, including Captain Haley, reached shore safely in their own boats.

The cause of the collision is not known. The night was clear but there was a strong northwest wind. The sea was very rough. It was intensely cold throughout the night. The thermometer hovered about the zero mark early today. When the first boats came ashore from the steamer it was found that some of the occupants were dead. In the first confusion it was not known whether they had been pulled from the water after having been drowned or whether they were frozen to death.

The Knowlton, which hailed from Westpoint, Maine, was bound from South Amboy for Boston with 475 tons of coal. She lies on a sandy bottom, but is full of water and it is not known whether she can be floated. The Larchmont left Providence at about 8:30 last night for New York, in command of Captain McVey of Providence. The chief engineer was Robt. Gay, of Bridgeport, Conn. She carried a crew of fifty and had on board a number of passengers.

ST. PETER'S CHURCH SOCIAL

A bazaar and social entertainment was held by the Ladies' Guild of St. Peter's church in the Selkirk Hall yesterdap afternoon and evening, and in spite of the large number of people on the sick list, the attendance was good. During the afternoon the fancy stalls, refreshment tables, candy stall and fish pond were well patronized, the goods displayed being of such a nature as to demand a good sale. During the evening vocal and instrumental music was rendered at intervals, while a clever guessing competition kept the gathering "guessing" for some little while. Refreshments were served and the rest of the evening was pleasantly spent in an enjoyable and sociable manner. The following ladies had charge of the stalls, etc., and deserve credit for the untiring manner in which they menaged the entertainment in spite of many difficulties.

Fish Pond—Mrs. Porter.

Candy Stall—Mrs. Purvis.

Fancy Table—Mesdames Elson and H. Cunningham Morris.

Refreshments—Mesdames Procunier Gordon, Tomlinson, Woodlands and Miss Hall. A handsome sum, after all expenses were paid, will be handed over to the Rectory fund.

EARTHQUAKE AND TIDAL WAVE

Devastate Italian City—Terrific Upheaval at Sea—Loss of Life and Property.

LONDON, Feb. 12.—A despatch from Rome says a tidal wave has struck Marina di Catanzaro and completely destroyed it, a great many persons being killed and injured. The authorities are taking steps to save some of the buildings. Catanzaro has thirty thousand inhabitants.

Great stores of completed goods lying on the seaport docks awaiting shipmeut are said to have been destroyed.

Slight earthquakes preceded the tidal wave, but the village folk were not unduly alarmed, such shocks being of rather frequent occurrence throughout the province of Calabria.

The great shock is believed, according to advices received at Rome, to have occurred several miles out at sea and caused the tidal wave to sweep over the town. The Italian Government is preparing to send help by military and naval officials.

WILL WAR ON LORDS

British Premier Plans the Destruction of Peerage as a Legislative Body.

LONDON, Feb. 11—The Government's revolutionary programme, vaguely hinted at in Sir Henry Campbell-Bannerman's summons to parliament was fully disclosed on Saturday by the Attorney-General Sir John Lawson Walton in a speech he made at South Leeds. It is nothing less than a systematic campaign for the destruction of the House of Lords. The House of Lords the Attorney-General declared, was entirely out of harmony with modern democratic institutions and must go down. Whether anything of it would be left and if so, in what form could not be yet determined. If the House of Lords sets itself against the national will, it would be like a sand setting itself against a rising water.

BACHELORS' DANCE

A Brilliant Social Function—Excellent Music and a Good Time Spent by All Present.

There is an old saying that a man who has not approached the hymeneal altar has missed the greatest joy on earth, and such being the case, cannot enter into the amusements and pleasures of life with the same enthusiasm and gusto as those who have found their affinity. This somewhat doubtful theory was entirely dispelled on Monday night when the Revelstoke bachelors get together and were "at home" to the ladies, and benedicts. The opera house was decorated for the occasion, lounges and cosy corners being arranged around the hall. Through the bright colored hangings which adorned the galleries, memoirs of the recent election campaign were visible, while a flaring poster alluding to "solid government" had been used to conceal the somewhat homely edition of it in the form of lemonade and water. Revelstoke was well represented and the bachelors acquitted themselves in true cavalier style filling up their programmes, and scarcely giving themselves time for a quiet smoke. The band, as usual, had been engaged and discoursed excellent music, the time being perfect, most of the selections being quite new. Some handsome and dainty gowns were worn by the ladies and the whole scene was full of color, contrast and life. By supper time the dancers had warmed up to the fun and continued on the "light fantastic" until the first grey streak of dawn appeared. The supper was at once a merry and pleasant item on the programme, the bachelors carrying out their duties as waiters in a highly creditable and prompt manner. As the last bars of the final dance ceased in a resonant crash not one amongst the gay throng had anything else but praise to bestow on the bachelors and the ball of 1907 will ever be looked upon as one of the pleasantest ever held in Revelstoke. Possibly before the year has passed and the bachelors again prepare for their dance many will have joined the ranks of the benedicts, and in the words of the poet Wordsworth:

"The pleasure house is dust—before, behind,
There is no common waste, no common gloom;
But nature in due course of time once more
Shall here put on her beauty and her bloom."

TIMBER WOLF HUNTING.

C. H. Deutchman Leads a big Wolf Hunt in Ontario.

Efforts are being made in the east to decrease the number of wolves by well organized and systematic hunting. Wolves should be destroyed, and thus better game, which they help to destroy, would be given a chance to live. A wolf hunt on a large scale is now in operation in Ontario, 28 miles east of Sault St. Marie and about forty hunters have banded together under the leadership of Charles H. Deutschman, who is well known in Revelstoke and are now waging war on the wolves which are very numerous in that part of the province. Permanent camps have been formed from which to organize the hunting. In addition to the drive, various schemes for trapping will be tried.

Wolves are increasing in Ontario and co-operation is necessary. There is a bounty on each wolf. These hunting excursions make a most enjoyable mid-winter break.

DISCOVER BURGLARS' LOOT

Montreal Detectives Apparently on Track of Extensive Theft Organization.

MONTREAL, Feb. 11.—Montreal detectives have unearthed what they think is a widespread burglary conspiracy. The head of it is a man named Marjorique Gagnon, a boot and shoe manufacture, in whose place they found at least $3,000 worth of goods, from baseballs to jewelry. This amount, they think, is only a part of what the burglary syndicate is supposed to have taken. Another man, named Ishmael Bourrette, has been arrested also. The police lit upon Gagnon when looking up the records of men convicted in the United States and now living in Montreal, in the hope that they might strike a clue which would help them to stop the burglary epidemic. They struck Gagnon's record and found that he had served a long term in Sing Sing.

NOTED STATESMAN DEAD

Former Chancellor of the Exchequer's Sudden Death.

LONDON, Feb. 11.—Right Hon. Geo. Joachim Goschen (Viscount Goschen) died suddenly on Thursday last at his residence Seacox Heath, Hawkhurst, England, of heart failure. His death was quite unexpected. Viscount Goschen was 76 years of age and had a distinguished public career. He was Chancellor of the Exchequer in Lord Salisbury's record administration and afterwards was first lord of the admiralty, serving in this capacity for five years.

NOTCH HILL

(From Our Own Correspondent)

The dwellers of the Lake settlement had a surprise party at Mr. Bain's house on Tuesday evening, going along the lake in sleighs. Owing to holes in the ice the venture was considered somewhat dangerous, so it was decided to call in the services of the "Admiral" who lives in an eighteen-log-high sky-scraper on the north side of the lake, to conduct the expedition. When Mr. Bain's ranch was reached the party fell in close up to the house, each with a rifle, gun or pistol and at a signal from the "Admiral" fired a volley which brought the genial rancher to the door. The merry crowd entered the house and spent a most enjoyable time with games and dancing.

Mr. and Mrs. L. T. Morris gave a dance Friday evening.

Mr. Hargreaves, of Kamloops, and Mr. Halliday, of Salmon Arm, visited Notch Hill on Saturday.

T. Cardinal, a rancher of the district died of asthma on the 1st inst., leaving an annuity of $100 to the Notch Hill school.

WEDNESDAY, FEB. 13, 1907

THE BOARD OF TRADE.

In reviewing the annual report of the president of the Board of Trade, it is satisfactory to note the amount of work accomplished by the Board during the past year. As is correctly stated the paramount question is the river bank protection, and it is of such importance to Revelstoke that no efforts should be spared in securing the means of permanently rendering any further destruction to the bank and property, impossible. We are pleased to see that the Provincial Government are at work on the bank itself and that the Dominion Government have been reminded again of the urgent necessity of carrying on the wing dam work which has been shut down for the last week or two. In the matter of public works, conveniences and buildings, Revelstoke is certainly deserving of more than she now has, and which have become necessities owing to her rapid growth. The surrounding districts too, are deserving of attention and are of such moment to the city as to necessitate more convenient communication and if tapped to a larger extent by trails, roads, trams and rail, would considerably add to the prosperity of the riding as a whole. Timber, which is perhaps the chief resource of the upper country should be preserved from fire and indiscriminate destruction. Tourist and industrial facilities need careful attention, while every encouragement should be given to the development of the mineral sections. There is much work ahead to be done, and besides these questions of a direct local nature and which concern our city and homes to a considerable extent, yet the board should pay careful attention to outside matters that indirectly affect us and show what lies in their power to do. There is nothing that concerns the welfare of a community in which the Board of Trade cannot use its influence, and this part of Canada is fortunate in the fact that such bodies of business men have during the past few years asserted their authority in the interests of good laws. The time has never dawned upon this land when the representative to parliament is not an autocrat but the agent of the electors that send him there.

MORE HOTEL ACCOMMODATION NECESSARY.

Revelstoke has ever been a popular resort for tourists, sportsmen, geologists, and for those who are devotees to flora and fauna of the mountains, but in this progressive age we cannot expect to stand still and yet retain our popularity. As years go on the tourists and others of more settled occupation seek for more vivid and sensational amusements and expect that the objects of interest along their route should furnish them new and original forms of recreation and sight seeing of a more advanced nature than was afforded to them in years gone by. The possibilities of Revelstoke have often been cited and these possibilities may be turned into realities if we study the situation and see what we can do to bring about the metamorphosis. We have unlimited scope for visitors of almost every calling and the natural attractions for them are collected here in far greater abundance and contrast than are to be found in many resorts which yearly draw in large throngs of tourists. If we desire to bring in visitors we must have *somewhere to put them* and the need of sufficient hotel accommodation has been vividly demonstrated within the last few days when transient passengers who had been delayed here by the interrupted train services, were forced to sit up in the parlors and smoking rooms of the hotels all night, because every room in town was already occupied. Tourists, if they are to be attracted here, and expected to give Revelstoke a popular name, will certainly expect to receive the natural comforts of life and not to have to wander all over the town at all hours of the night in search of sleeping quarters. Although the hotels in the city number quite a few, still the accommodation is not sufficient for any large crowd that may happen to get off here, and if Revelstoke does eventually become the most popular mountain resort in the province, as she most undoubtedly will before long, ample accommodation of a high standard must be provided for them; this done and with the opening up of roads and trails, the establishment of the Mt. Victoria Park, the facilities given to mountain climbing and the attraction of the Big Bend country better exploited, then Revelstoke cannot fail to become the most popular city of the Interior. The result of a good tourist business will furnish the means of establishing and building up new industries and the incoming of many more residents to Revelstoke which as exampled by her steady progress of past years will increase far more rapidly in the years that are to come.

FEBRUARY ROD & GUN

Winter sports hold the pride of place in the February number of Rod and Gun and Motor Sports in Canada, published by W. J. Taylor, at Woodstock, Ont. The introductory paper by Mr. F. W. Lee tells how thoroughly the inhabitants of the great commercial capital of the Dominion enjoy the winter. At the back of Mount Royal they have established a slide that promises to become historic. The delights of snowshoeing in the country is dwelt upon with enthusiasm by Miss Merrill. The adventures of a party who spent a day hake fishing through the ice in the Province of New Brunswick is well told by Mr. Charles McIntyre. A party of enthusiastic snowshoers tramp to a logging camp on one of the first benches of the Selkirks, and amid such characteristic surroundings some capital western bear stories are told, Miss Lang being the reconteur. All however is not given up to winter. Mr. Ernest McVeigh tells of the destruction wrought amongst the deer by wolves; there is a finely illustrated paper on the Big Game of British Columbia; while Mr. C. W. Young writes entertainingly of his splendid experiences in duck and chicken shooting on the prairies. A successful hunting trip by a lady in New Brunswick, Beagles in Nova Scotia, and numerous other papers make up a number contrasting favorably with its predecessors, excellent as these have been. The departments are likewise complete, and every phase of Canadian out-door life receives its due need of attention.

Nothing better than Our "Special.

FIELD.

From our own correspondent.

The annual meeting of St. Stephen's church was held in the church on Tuesday evenin , Feb. 5th. Rev. J.H. Miller was in the chair and Mr. C. S. Wyckoff, was appointed to act as secretary for the meeting. After the meeting was opened with devotional exercises, and the minutes of the last annual meeting were read and confirmed, the minister made a general survey of the years work, expressing his gratitude to the people for the hearty manner in which they had given themselves in the interests of the church. Afterwards exceedingly encouraging reports were heard from the different departments of the work. Mr. Wyckoff reported for the board of managers, that the meetings of the board had been harmonious, and that they had been able with the help of the Ladies' Aid, to make many improvements in the church and manse buildings. Mr. J. Gordon Frazer, the church treasurer, gave a very satisfactory report showing a balance on hand after all indebtedness for the year's undertakings had been paid off. The receipts of the church, for all purposes, was more than a hundred dollars above last year.

The Sunday school has made steady progress. The attendance has been more regular and an advance in interest, both on the part of the parents and children can be seen. Mr. Frazer, the superintendent, reported for the school. As Miss McDonald was unable to be present, Miss Field read her report as secretary of the Ladies' Aid Society. One of the aims of the society is to provide for the social life of the people of the place. In this the society has rendered valuable service during the past year. Miss Field as treasurer of the society gave a report showing that they had also been able to help very materially in the financing of the work.

After the reports were all heard, the election of a board of managers for the coming year took place. The members of the old board, consisting of Messrs. A. Patterson, C. S. Wyckoff, J. G. Frazer, Jos. Blunded, Wm. Lynes, Wm. Taylor and H. MacRae, were re-elected. Messrs. Williams and R. J. Murdock were elected to fill the vacancies. The meeting was well attended and was closed with singing and prayers, after which refreshments were served by the Ladies' Aid.

Mr. F. W. Shaw on his way back to his work at Glacier dropped off at Field to visit his many friends here.

Mr. and Mrs. McNaught, on Thursday evening, gave to the married people of Field, a party which was very much enjoyed.

The Ladies' Aid Society held their regular meeting at the home of Mrs McIver on Thursday afternoon, at the meeting arrangements were made for a Valentine social, which is to be given in the Buckham Hall on the evening of the 14th. The event promises to be very interesting. Everybody is invited to attend.

THE SCARLET MYSTERIES.

We are shortly to be visited by a celebrated English company known in London, England, as the Scarlet Mysteries, who are announced to appear for two nights only at the Opera House on Friday and Saturday, Feb. 15 and 16. This party of entertainers who are touring under the direction of Mr. Edward Branscombe, whose name has been associated with several previous successful ventures in this country. The Scarlet Mysteries bring with them a reputation of six years standing, during which period they have attracted large audiences in the Old Country, their success and popularity remaining undiminished. The company consists of eight gentlemen who provide a light, bright, and versatile entertainment of a humorous nature, comprising musical burlesques, sketches, choruses, coon songs, and dances, comic quartettes in character, ballads, etc., in fact an endless variety of up-to-date musical bric-a-brac, they also include amongst their number a lightning art-humorist whose funny stories and songs are illustrated with drawing-board and crayons in a most inimitable style. Mr. Edward Branscombe's name is sufficient to guarantee that the musical excellence will be assured, and that the programme will be of a refined and artistic order.

Water Notice!

The public are cautioned against allowing taps to be open continuously to prevent freezing as this causes too great a drain on the reservoir.

In order to allow the reservoir to fill up it may be necessary, occasionally, during this severe weather to completely shut off the water supply to the town. When this has to be done it will be from 3 to 4 o'clock in the afternoon, and the public are hereby notified to be prepared for this any day

By Order.

It's Simply a Question of "YES OR NO"

Do you want common Flour and questionable results in bread making, or do you want "MOFFET'S BEST" Flour and uniformly superior results?

The answer to this question means much in your home. Don't leave it to the inclination of your Grocer. He will naturally send you the "FLOUR" on which he makes most profit.

In ordering, say distinctly "MOFFET'S BEST" and your dealer will see that you get it.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Post Office, Fernie, B.C.," will be received at this office until Monday, February 18, 1907, inclusively, for the construction of a Post Office, &c. building at Fernie, B.C.

Plans and specification can be seen and forms of tender obtained at this Department and on application to Robert A. Kerr, Esq., Clerk of Works, Fernie, B.C.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (10 p.c.) of the amount of the tender, which will be forfeited if the party tendering decline to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the tender be not accepted the cheque will be returned

The Department does not bind itself to accept the lowest or any tender.

By order,
FRED. GELINAS,
Secretary.

Department of Public Works,
Ottawa, January 18, 1907.

Newspapers will not be paid for this advertisement if they insert it without authority from this Department.

GRAND TRUNK PACIFIC ROUTE

Through B. C. Approved by Commissioner of Lands and Works.

The Grand Trunk Pacific railway has filed the map of its proposed route through British Columbia in the Department of Lands and Works, the routes being approved by Capt. Tatlow, acting chief commissioner and accepted under his signature by the province.

The chief characteristic of the route is its avoidance of long bridges and the following of waterways the entire distance except across the divide between the streams at the head of Decker lake and the headquarters of the South Bulkley river.

Countrary to general expectation, the map of the proposed route shows that the railway will not be built on the west side of Bulkley river, but on the east. This will take it through the Hudson's Bay ranch and Moricetown, and it will cross the Skeena near Hazelton, thence turning abruptly to the southwest, following the north bank of the Skeena, entirely to its mouth. From that point it will cross to Kaien Island and the terminus at Prince Rupert.

If the coal deposits in the vicinity of Telqua river are worked, it will be necessary to run a branch line to them and across the Bulkley. It was expected in view of these discoveries, that the road would pass in the vicinity, but presumably in order to avoid the heavy work near the bend on the west bank near the confluence of the Bulkley and Skeena, the course indicated above has been taken.

The agricultural areas traversed are the valleys of the Nechaco and Bulkley, and will doubtless in the near future afford the line a large amount of freight. Along the Skeena there are immense bodies of timber in the exploitation of which the Grand Trunk Pacific will be a factor of great importance. Of other portions of the route to be traversed very little is known. From Fort George to the eastern boundary of the province the country is extremely mountainous. With the exception of mica and some galena deposits near Tête Jaune Cache there have been no minerals so far discovered, but this is not because they are not there, but rather that the district has never been explored. Now the route is definitely decided upon it is probable that there will be a rush of prospectors next spring.

At Tete Jaune Cache is probably the best starting point for parties intending to explore the country bordering on the south fork of the Fraser river, the following table of distances has been compiled: Revelstoke to Death Rapids (by steamer in the summer) 44⅞ miles; to mouth of Canoe River, 91¾ miles; up Canoe River to Boulder Creek rapids, 101¼ miles; to Grews rapids, 113½ miles, to Tete Jaune Cache, 194¼ miles. All these figures are the total distance from Revelstoke. R. H. Lee, P. L. S., who compiled these figures a few years ago, states that large areas of good agricultural land exist in this vicinity. At the Big Bend 12,000 acres. On Canoe river from section 13, township 4, to Cranberry lake, 38,000 acres, from Cranberry lake to Tete Jaune Cache, 26,000 acres, giving a total of 75,000 acres.

ALL-CANADIAN ROUTE.

Charter Applied for to Build Railway to Dawson City.

Notice is given in the Dominion Gazette that application will be made to Parliament at its coming session to incorporate a company to build a line of railway from the northern boundary of British Columbia to Dawson City, by way of the Yukon River Valley or the most feasible route. The applicants are Henry Blitz and Louis Anerback, of Boston.

It will be remembered that last session these gentlemen secured a provincial charter for a railway line from Vancouver to the northern boundary of the province, known as the British Columbia Northern & Alaska Company. The charter for the road through Yukon will complete this provincial line as a connection with Dawson and will give an all-Canadian route to the Yukon.

BANK SETTLING DAY

The Severe Weather Causes Northwest Merchants to Ask for Extensions.

TORONTO, Feb. 11.—Settling day at the various drygoods houses and at banks was on the whole satisfactory, and paper was promptly met from most points in Ontario. There is a feeling of uneasiness regarding the northwest, and there are many applications for renewals as a result of the railways [illegible] banks hesitate to express opinions about the outlook.

The Canadian banks have nearly four million dollars tied up in produce that cannot be moved for some time. Merchants write from all parts of the northwest stating the circumstances. It is an old story. Farmers have been unable to secure cash for their produce and merchants have been unable to obtain cash to meet their obligations. Ranchers will lose heavily and reports have reached here of one whose loss will be close upon $100,000. Bankers say that a tremendous lot of money is tied up in real estate, and that many banks refuse to touch this class of security for the reason that if markets and boom go the right way holders of land will make big money; and if the tide goes the other way the banks will lose its money.

IMMENSE SNOW SLIDE

Part of Sandon Swept Away—One Woman Killed—Considerable Damage Done to Property.

NELSON, Feb. 12.—Reports of snow slides are coming here from all over the Kootenay. One of a serious nature has overwhelmed a portion of the town of Sandon, resulting in the death of one woman. Over five houses were destroyed completely and considerable damage was done. Sandon has always been one of the unique places in the Kootenays by reason of the fact that it lies between two mountains in a little stretch of bottom so narrow that there are parts of the main street where waggons cannot pass. In the boom days it was one of the greatest camps in southern British Columbia and one was fortunate to secure a room.

FLOCKING TO B. C.

Progressive Policy of the Department of Agriculture.

Hon. R. G. Tatlow, minister of agriculture, has stated that information had been received from an official of the Salvation Army in England to the effect that quite a few families, of good social and financial standing, had been induced to select this province as their future home. A systematic canvas was being made of classes anxious to move to the colonies but unable to meet the transportation expenses, and it was hoped that in the course of a month or so arrangements would be sufficiently advanced to permit the starting of the first immigration party from the shores of the Mother Country to the great Canadian West.

The officials of the Army give their assurance that in the spring of the year there will be many desirable settlers tendered monetary aid in order that they may reach British Columbia.

The government is not only attempting to solve the lack of labor problem through the Salvation Army, but is bending its energies in other directions. R. M. Palmer, who has been in the Old Country for some months in charge of the fruit exhibit which carried off the principal honors at the majority of the large horticultural exhibitions, and who now is on his way home, took up the matter with characteristic energy while away. He interviewed those in charge of the Salvation Army Bureau of Immigration at London, pointing out clearly the conditions existing here and the kind of people most needed.

He also saw Hon. J. H. Turner, the agent general, and with him reviewed the situation, compared notes and made arrangements for the inauguration of a thorough campaign in the interests of this province intending emigrants. Mr, Palmer went further, distributing pamphlets, disseminating information personally, and with the aid of the practical evidence of the fruit growing possibilities of the province in the exhibit which he had with him, was able to prove to agriculturists and others interested that there are openings for enterprising individuals in British Columbia which would be difficult to obtain elsewhere.

One of the direct results of Mr. Palmer's visit is to be found in a communication received by Hon. Mr. Tatlow the other day from the agent general. He said that he had been called upon by quite a few people, who had determined to move to Canada, and plied with questions regarding British Columbia. They had heard of the province through the fruit exhibit and the literature distributed by Mr. Palmer. The agent general was able to satisfy them and he expresses the belief that the majority are determined to make their future homes somewhere within the most westerly province of the Dominion.

ALL RECORDS

Tourist Traffic Galore—Many Conventions and Excursions will Visit British Colombia this Season.

The officials of the transcontinental railways are beginning now to make extra efforts in preparation for traffic westward in the spring and summer months. The present year, according to reports, promises to eclipse all previous years in the excursion line and in addition to much immigration thousands of tourists and travellers are expected to visit British Columbia all of which traffic will baxe to be carried by the railways of the west. The tourist travel promises to be very heavy during the summer. Reduced rates are offered which will no doubt be warranted by the increase of travel which is sure to follow. Several important conventions will be held on the Pacific Coast this year and consequently traffic will be heavier. In May the Mystic Shriners will meet in Los Angeles. There will be about sixty thousand delegates coming west and it is expected that the majority either will come west or return by way of the Canadian Pacific Railway. The Christian Endeavor convention will bring fully seventy-five thousand delegates to Seattle.

ROARIN' GAME'S HISTORY

Curling Originated Long Ago—The Leading Winter Sport.

The Scottish people regard the history of curling seriously, as a chapter of interest and importance in the history of the nation. They claim that no other game so well illustrates the national character or tends so much to the healthy development of physical, mental and social qualities. They regard it as a valuable institution of civilized life and trace its origin back four centuries, but it was only about the middle of the eighteenth century that it began to take on the dignity of a truly national game. During the last seventy-five years it has spread among all the English speaking people in climates where winter bestows the necessary conditions of ice. The great bonspiels of Scotland draw 50,000 people on the lochs, and in Canada, where the climate is favorable, curling devotees are numbered by tens of thousands. In no city, however, in Canada will be seen a more keen and sportsmanlike interest taken in the game, than in Revelstoke, the rinks being found in action by their devotees day and night; moreover the curling club has done much this season to promote winter sports of all kinds.

OPERA HOUSE

Will J. White, the popular society entertainer, assisted by local talent, will give an entertainment this evening in the opera house. Associated with Mr. White is Miss Bell a soprano of great power and ability. Will White is a comedian of the first water and his clever impersonations, witty sayings, character sketches, monologues, and comic songs are all of a most original and up to date nature. The man who has got the blues, or suffering from the grippe, should turn out and hear Will White and be cured. The entertainment is under the auspices of the Ladies' Auxiliary of the Y. M. C. A. and is in aid of that institution.

We are pleased to receive a copy of the recent publibation published by A. P. Law, F.R.G.S., in charge of the Dominion Government expedition to Hudsons Bay and Arctic Islands in 1903-4. The volume is entitled "The Cruise of the Neptune," and is a very handsome edition, profusely illustrated, describing the work of the expedition in the Arctic regions and the data, scientific and commercial, thereby gained. The book is very interesting and deserves a place in every library as a scientific, historical and descriptive work.

BORN.

MAUNDRELL—At Revelstoke, B. C., on Friday, Feb. 8th, to Mr. and Mrs. Harry Maundrell, a daughter.

WEATHER FORECAST

Wednesday, Feb. 13.—For 24 hours, light easterly winds, continued mild, frost during night, generally fair. Temp., max., 40 degrees; min., 20 degrees.

Local and General.

A full attendance of the Woodmen of the World is requested for to-night in the Selkirk hall. Sov. Ramplin, head manager and founder of the Order in Canada, will be present.

All desirous of joining the Alpine Club in time for the summer camp in Paradise Valley in July should hand in their names to one of the Revelstoke members as soon as possible as the list will shortly be closed.

Gold Range Lodge, No. 26, Knights of Pythias will attend divine service at St. Peter's church on Sunday, February 17th, at 7:30 p. m., and all members are requested to assemble at the lodge room at 7 p. m. sharp.

Monday night brought the Celestial old year to a close and as the clock chimed the hour of midnight, the new year was ushered in with a fusillade of crackers and fireworks. Feasing revelry and music are indulged in for two days, the festival being the most important in the Chinese calendar.

G. Graham, the new leader of the opposition in Ontario, will move that in the opinion of the legislature the time has arrived when the government should make a thorough inquiry into the question of life insurance by fraternal societies, with a view to establishing a safe and equitable table of rates which shall be the minimum to be charged by fraternal societies operating under provincial licence or charter.

VALENTINES

COMIC VALENTINES

A NEW SUPPLY

Send in your orders by Mail

W. BEWS, Phm. B.

Druggist and Stationer.

Mail orders promptly attended to.

The hockey boys have gone down to Rossland to take part in the ice carnival which is being held there this week. We wish them the best of luck.

The Ladies' Aid of St. Andrew's Church are making preparations for a Basket Social to be held in Selkirk Hall on Tuesday, the 19th inst. 3t.

Will White, the popular comedian, will appear tonight in the Opera House. Full houses have been his experience all along the line of his tour, and the same is looked for in Revelstoke. Mr. White and Miss Bell gave an impromptu song or two in the Y. M. C. A. on Monday night, which was highly appreciated by all present. Come and see Will White tonight and hear the latest jokes and comic songs.

J. Henderson has formally opened up his new livery and transfer stables on First street and is prepared to carry on the business in an up-to-date manner. The stables are exceptionally well fitted up with ten stalls for horses, provided with the latest methods of the supply of feed, loose box, commodious sheds and storage harness and saddle rooms, and every facility for the carrying on of the business.

Charles H. Deutschman, of Cheops Cave fame, will have charge of the C. P. R. and British Columbia exhibits at the Sportsman Club show at New York, Boston and Pittsburg. Mr. Deutschman has done excellent work in advertising the attractions and beauties of the mountains round Revelstoke and will this year endeavor to divert the stream of tourists, sportsmen and travellers into this district and to generally put Revelstoke to the fore as an all round mountain resort.

The C. P. R. have just published a useful little book entitled "Western Canada," issued in the interests of immigration to the west. Manitoba, Saskatchewan, Alberta and New Ontario are described with their respective attractions and inducements for settlers. Much useful information is given in all branches of Canadian industrial life and of such a nature as to aid the settler in deciding on his future home. The book is well got up the illustrations and maps being particularly descriptive, and the work, if well circulated, would prove decidedly useful to prospective settlers in the west.

Social and Personal

A. E. Kincaid returned from Golden today.

Mr. and Mrs. A. R. B. Hearn left for Vancouver this afternoon.

Miss Dora Smith left for the coast on No. 97 this afternoon.

Mr. and Mrs. F. B. Lewis have returned from a short visit to the Coast.

H. Floyd and H. Manning left on Tuesday for Nelson to attend the convention of the school trustees.

R. F. Brett, of Chicago, Ill., is visiting his daughter, Mrs. F. E. Sine, for a few days.

Mrs. T. Cleary, mother of Mrs. A. Johnson, left on Monday for her home in Ballard, Wash., after a two months' visit here.

CHINESE NEW YEAR

33rd Year of Kuang Su Was Celebrated With Due Eclat by the Pigtail Celestials.

Chinatown celebrated the annual New Year festival last night, which was the 33rd year of Kuang Su, or the 2,458th year since Confuscius, with the usual salves of fire crackers to drive away bad spirits and guard the fung shuy of store or home. The customary ceremonies were held yesterday in the Joss House, lower town, where the josses sit in darkened recesses and native offerings were made to ensure their protection. Large presentations of rice were made to the gods of heaven and earth to Tien Wang, prince of heaven, and the lesser gods, and Chinatown gave itself over to holiday making, which will last for over a week. Shutters were up in the stores and tables laden with sweetmeats, nuts, ginger and other Oriental delectables were set out for the guests to the Chinese quarter. A noticeable feature was the quantity of Chinese lilies displayed. It is not considered lucky if a Chinese lily is not in bloom when the New Year opens. A general clean up of home and store at this time is a usual characteristic of the race, colored decorations being freely used to make the place as gay as possible. A number of citizens had been invited down to partake of the supper spread by the celestials, who are adept hosts and prepare sumptuous banquets, although their tastes and methods of cooking are somewhat different to those of ourselves! In China the time of New Year is always one filled with apprehension for the authorities; this being the period when revolution and mal-content are rife and rebellion to upset the ruling dynasty. The date of the New Year holidays is set by the officials at Pekin. China adopts the lunar calendar and with the new moon of the 12th began the New Year. The Chinese follow the Japanese method of reckoning the years from the time of the accession of the Emperor, and this year will be the 33rd of Kuang Su, or other words, the 33rd. year that his Majesty the Emperor Kuang Su has occupied the dragon throne at Pekin

REMOVAL OF CAPITAL

WINDSOR, Ont., Feb. 12.—Speaker Sutherland, of the Commons, in an address on the Canadian Constitution on Saturday here, said that the time was not far distant when the West will be the centre of the Canadian Empire. It is conceivable that if settlers continue to pour into the West, one of these days the seat of government may be changed from Ottawa to a western city.

This is Clean-Up Week

We will finish Stock-Taking this week and we want to clean up quite a number of lines and we have put prices where it should do it. Take a look in our window and see what we have to show you.

15c. Flannelette for 10c.

These are some of the prettiest designs shown for Wrappers, Kimonas, Dressing Jackets, etc., and the price is the lowest you have yet been offered.

See Our Corsets

Not a lot of old styles, but nearly all last season's, in White and Grey. Some have hose supporters, They sold at $1.00 and $1.25. Your choice for 75c.

Remnants

Have you had a look at our Remnant Counter. There are some bargains there for you. Goods of every kind at about half their regular price.

Ladies' Waists

We have a lot of these in all kinds of materials, Black Satin, Flannelette, French Flannel, Cashmeres, Lustres, etc. They sold at many different prices, but they all go at one price now. $1.00 each.

Laces and Embroidery

You will soon be at your spring sewing and will want Laces and Embroidery, and we have put out a lot of both of these goods at bargain prices. They are good quality and good patterns, but you may not be able to match them in edgings and insertions—but look at the price—5c. and 10c. per yard.

You Can't Get Away From It

—the fact that Howson's Carpets and Rugs rank with the highest of imported and domestic brands. And then the way we weave in with our high-art floor coverings, the thread of honest pricing! There isn't a householder or tenant in town who can afford to overlook this establishment.
