MACHINERY FOR OIL DRILLING

Anthony Anderson Back—Enthusiastic over Prospects

"I am more than ever convinced of the value of our property since witnessing the development of the Pennsylvania Oil Fields," said Anthony Anderson, secretary of the Canadian Northwest Oil Co. Ltd. to a Victoria Times reporter.

Mr. Anderson has just returned from a trip to the eastern oil regions, where he purchased a large quantity of drilling and other machinery for his company. One car load of this has already reached Macleod, the port of entry for the district in which the company's wells are situated, and two more car loads are en route. All this machinery is of the most modern type, and when it is on the ground and installed, the work of sinking new wells will be vigorously prosecuted.

The directors have decined that the company's business demands the presence of a manager on the ground, and C. C. Johns, a large shareholder, has been chosen for the position. Mr. Johns will proceed to the oil field in a few days. A proposal from a big contracting firm to build and operate a sawmill on the property and an application for the use of part of the magnificent water power owned by the company are under consideration.

Mr. Anderson was enthusiastic in speaking of the prospects of the company. "The people I met back east," said he, "could not understand our selling stock at $1 a share when I told them the amount of our capitalization $500,000 and the very large area of oil lands which we own and control, and seeing the conditions there, one can understand their astonishment. One instance of how things are done in Pennsylvania will illustrate. A man near Butler saw indications of oil on a certain farm. He approached the owner, and after considerable negotiation managed to get a 21 years' lease of ten acres He sold or mortgaged all he possessed to raise money to prospect his claim, and now he has two fairly good flowing wells on the ten acres. He gives the owner of the land one-eighth of all the oil and he has refused half a million cash for his lease. A property like ours would be capitalized for ten or twenty millions, and people would be jostling each other to get stock at any price."

"From what I have seen," continued Mr. Anderson, "and from what I know about our property, I have no hesitation in saying it is quite within the probabilities that Canadian North West Oil will be selling for $5 a share by the close of the present year. The Union Oil Co., of Oleum, Cal., which recently increased its capitalization from $10,000,000 to $20,000,000 has declared a dividend of $2,000 per share in addition to the regular monthly dividend of 50 cents a share. That sounds like fiction but it is fact, and as we have the oil, there is no reason why our shareholders may not become equally fortunate in time. Why, our water power alone is estimated to be worth $500,000, the total capitalization of the company. The talk of the directors of the Canadian North West Oil Co disposing of their shares is utter nonsense, as you may readily understand after what I have told you. The idea is preposterous and its best refutation is an examination of the company's share register. On the other hand I may say, without a breach of confidence, that certain of the directors have been buying all the shares they could get. Messrs. C. C Johns, Wm. Turpel and W. Y. McCarter, who visited the company's property in Alberta recently are among these buyers. A few irresponsible people have been spreading rumors and knocking the stock, offering shares for sale which they did not possess, but these Teddy Bears' are harming only their own reputations."

During his eastern trip, Mr. Anderson visited a great many oil wells and talked with many oil drillers and operators, all of whom congratulated him on having secured for his company the services of D. A. Slater, who is recognized as one of the most experienced and reliable drillers in Pennsylvania. "Dan" knows the company's property better than any one man living, and he says he knows "the oil is there." He is now on the ground superintending the placing of the second plant, and he promises his employers some first class wells in a very short time.

"You can therefore says," said Mr. Anderson in conclusion, that Canadian North West Oil is all right."

Cooks say Coursier's Coal is the CLEANEST kind for COOKING.

EXECUTIVE MEETING

Fruit and Produce Exchange of B. C., Limited

A meeting of the executive board of this organization was held in the City Hall, Revelstoke, on Saturday, Aug. 29th, at 11 a.m.

The members present were, Jas. Johnstone, President, Nelson; P. H. Wilson, Vice-President, Chilliwack; C. E. Hand ck, Enderby; H. E. R Smythe, L. M. Hagar, Secretary-Manager, and W. B. Robertson, Treasurer, Revelstoke; H. Puckle, Victoria; W. I. Garraway, Peachland; and R. C. Brock, Secretary Kootenay Fruit Growers Association, Nelson.

The work for the season was reviewed and a general vote of satisfaction passed. It was very generally conceded that but for the Central distributing point the strawberry and small fruit districts would have been in a demoralised state. The Central Exchange was able to cope with the prevailing conditions. Berries from all points were on the market at one time but were evenly distributed. Prices were found to be lower than in past seasons but the prevailing conditions, monetary stringency and perhaps what might be termed over-production in as much as all sections were shipping at the same time when heretofore a rotation of shipping has prevailed, was taken as satisfactory evidence that the organization had well proved its worth demonstrating very conclusively the necessity of such an association of fruit growers to combat the competition of other markets The lack of proper facilities in the different sections was discussed, proper accommodation for handling and shipping the fruit and produce in certain districts will have to be improved upon.

CORRESPONDENCE.

Socialism

Aug. 29th, 1908.

Editor MAIL-HERALD.

Dear Sir,—In your issue of 19th inst. you published a letter signed "Via Media" which does not merit a Socialist's attention, except for propaganda purposes. Your correspondent betrays an ignorance of Socialist principles that, had he any common sense would have kept him from making himself ridiculous as he now has by going into press. We are extremely obliged to him for telling us that Socialism is really Classism, truly a most original discovery on his part. Next we are told that all we seek is our own ease and gratification of our natural passions. Personally I can see neither of these objects in sight and can only reply that Socialism stands flatly for justice and if it is just and right that the masses of wage slaves should have some ease of their burdens and a chance to enjoy the beauties and pleasures of this world, then no doubt Socialism supports it, although I must admit that I have not seen this particular clause worded in this way in the platform of the party.

With regard to the values produced by individuals as illustrated by the manual laborer and the man who works a machine or for whom a machine works; the difference in value produced practically amounts to the producing value of the machine and the machine is called capital and capital is the value stolen from generations of wage slaves by their masters and should be social or public property and not owned by a few who take the whole product and pay the slaves wages and when they cannot sell these products at a profit give the slave his beloved privilege of hunting a job. Yes, the sun and rain and natural forces are quite a help and I presume that "Via Media" would not recommend private ownership of same?

Referring to men who recognise natural laws or harness natural forces whom we call inventors. I have yet to hear of the really beneficial inventor to humanity who worried his head about royalties and rewards, providing he had enough to keep himself going, half as much as "Via Media" and others of his kind who never did and never will invent anything, not even an objection to Socialism that merits any consideration.

In conclusion, Mr. Editor, I would like to ask "Via Media" what would be the economic effect upon industry and commerce if the masses lived soberly, industriously and economically, as suggested in the last paragraph of his letter?

Yours truly,
W. W. LEFEAUX.

How about your Empire typewriter ribbon? Does it need to be replaced by a new one? If so, we can supply you.—Interior Publishing Co.

FISHING LAWS

Dominion Regulations for Fishing in Inland Waters

For the benefit of local and other fishermen the following may prove interesting and instructive:

The new Dominion regulations relative to the fishing industry in British Columbia contain a few clauses of special importance to inland waters.

The taking of trout of all kinds is prohibited from November 15th to March 25th following, except in the waters of the interior of the Province of British Columbia east of meridian 120, west longitude, where the taking of trout of all kinds from November 15, to May 1st following is prohibited.

No kind of netting is allowed in fresh water lakes and on non tidal waters.

Salmon under three pounds must be returned to the water. Trout under three pounds cannot be bought, sold or exposed for sale in the province.

The general penalty for each offence s a fine not exceeding $100 or 30 days imprisonment, or both fine and imprisonment.

For taking trout out of season, a fine not exceeding $50.

For taking trout by illegal devices, a fine not exceeding $250.

Any constable, peace officer or game warden can arrest without warrant any person found committing an offence against the Game Act, and has power to search persons, vessels and conveyances, and shops where game is usually exposed for sale, storehouses, warehouses, restaurants, hotels or eating houses.

To take trout under six inches in length.

To take, or attempt to take, trout by using any explosive, lime, poison, net, seine, drag net or other device, other than hook and line. (In lakes of 50 square miles or over, nets, seine or drag are allowed.)

To use salmon roe as bait for taking trout.

The Toymaker

The Victoria Times of last Saturday has the following to say about the performance of the Toymaker in that city:

A most pleasing production of The Toymaker was that given by the San Francisco Opera Company at the Victoria last night, and the large audience that assembled thoroughly enjoyed the piece. In the first place the opera suited the company as it gave excellent opportunities for their male voices, which are exceptionally strong in contrast with the female chorus. The singing of the monks in the opening scene at once put the auditors on good terms. As Brother Matthew, a great hit was made by J. Russell Powell, whose rich voice was most suited to the role.

Teddy Webb shone in the part of Johannes Guggenheim, the toymaker, and developed a German accent that few, who have heard him in English roles, would have suspected. Aimee Leicester ably supported him in the humorous passages as Frau Guggenheimer.

As the doll, or Elsa, Miss Mabel Day played splendidly, and she won warm applause both for her clever acting and her delightful singing. Eugene Weiber sang the part of Frederick with sympathy and contributed much fun in his work with Miss Day. The dolls were well represented by the Misses Hilliard, Norton, Manning, McLennan, Grey and Gentry.

The piece was superbly dressed, as are all the operas in the repertoire of the company. This afternoon a matinee performance of the Toymaker was given, and to-night the company will close a most successful week's engagement here with the same production. It is to be hoped that a capacity house will bid farewell to the company, which is one of the strongest ever playing a long engagement here.

The Toymaker will be given here at the opera house on Saturday, Sept. 12th, and matinee at 2:30.

Coal that is ALL coal at Coursier's

Coursier's nut coal is the kind for cooking.

A new stock of absolutely fresh Empire Typewriter ribbons, price $1—Interior Publishing Co.

TYPOGRAPHICAL UNION LABEL 231

There is so much bad in the best of us,
And so much good in the worst of us,
That it hardly behooves any of us,
To talk about the rest of us.

SATURDAY, SEPT. 5, 1908

APPROVED SCHOOL SYSTEM

In regard to the relationship of the principal of our Canadian public schools to the pupils, the following from the Hamilton, Ont., Times, may prove interesting to Revelstoke readers. The approved school system now to be put in force places the responsibility of promoting pupils entirely upon the Principal. He is thus made a law unto himself. It is an onerous and dangerous responsibility to place upon a teacher. In the insane eagerness of the department to escape "examinations" it places upon the teacher a duty which he can discharge only by imposing examinations himself. And when he has done his best it subjects him to undeserved censure and suspicion. It is a step towards absolutism.

GAME PROTECTION.

In our last issue we referred to the opening of the shooting season, calling attention to the fact that the seasons have slightly changed and that the opening in several cases is a month later. We also dilated on the urgent necessity of warning sportsmen against excessive killing, the reason being that B. C. game is being depleted. Elsewhere in this issue we publish a few of the reguiations regarding fishing in inland waters. There should be the same consideration observed in fishing as well as in shooting and the penalties for infringement of regulations should be just as severely meted out. Revelstoke is recognised as a headquarters for many fishing and hunting excursions, and in every direction there can be found regions where both these forms of sport are to be had. We have done much in advertising to the outside public our sporting attractions and all our residents are well aware of the exceptional facilities there are for hunting and fishing in the Revelstoke district and consequently lose no opportunity of taking advantage of them. While those who are hunting enthusiasts take their fill of pleasure, they, as a rule, give little heed to the necessity there is of doing something to improve sport generally and trust too much to kindly nature to continually provide the sporting where-with-all. On the other hand there is the practice of unscrupulous hunters and over zealous youth killing game and catching fish out of season, as well as "hogging" it in season. This condition of things should not be allowed to continue and if we wish to conserve our game and fish as well as improve sporting facilities generally Revelstoke will have to seriously take some effective measures for the protection of these assets. We understand that there is a fish and game protection society, or at least the semblance of one, in Revelstoke and this body should wake up to the fact that they are doing nothing towards carrying out any reforms and improvements for the increase and protection of game in this district, which reforms are badly needed. The members should be rounded up and business done which will be for the benefit of sport in general. This is a case where party, politic or other sectional cliquism should be put down, and any movement suggested for the betterment of sport and hunting should have full consideration as to its merits and not turned down without some good and justifiable reason. We think that if the Fish and Game Protection Society were revived and remodelled, much good would result and our game would benefit. Local sportsmen should be sportsmen in every sense of the word.

COWAN BLOCK FIRE

Telephone Switchboard Room Gutted by Fire

A fire that nearly ended with fatal results broke out at about 6 o'clock yesterday morning in the telephone central office in the Cowan Block. It appears that one of the night staff, Miss Emma Allen, had lit a coal oil stove to make herself some tea and had turned away to doze a little in the chair when a flaming sound attracted her attention and on turning saw the room near the window a mass of flames. She ran from the burning room too alarmed to try and smother the flames, leaving the door open and fled along the passage to call the other girls, Miss Cooke and Miss Brenton. Flames and volumes of smoke were sweeping along the passage and the heat was intense, and the two girls with difficulty made their way through to the stairway and down to the ground floor. Miss Brenton, evidently terrified by smoke and heat, after attempting to make an exit through the smoke, must have fallen on the bed in a dead faint. Mr. Cowan being aroused, hurriedly sized up the situation and an alarm of fire was rung in from the box at Lawson's corner to No. 1 Brigade. The house bells evidently refused to work and a little delay took place before all firemen could be reached. When they got to work no time was lost and the hose were rapidly brought to bear on the flames which were shooting out of the windows and eaves of the building. Meanwhile M. Cowan had mounted a ladder at the rear of the hotel in order to rescue Miss Brenton who was still in the burning building, and after groping through the thick smoke and flame swept room he found the girl stretched at the foot of the bed insensible and carried her through the window down the ladder. She was at once taken to Mr. Lawson's house where all was done to restore her to consciousness, but it was not until many hours had elapsed that she revived, such quantities of smoke having entered the lungs. The flames were quickly put out by a good water pressure. The damage is chiefly confined to the operating room, the contents with switchboard and all other telephone appliances being burnt to cinders. The whole of the upstairs premises are badly scorched. Considerable sympathy is felt for Mr. Cowan over his loss and he deserves the highest commendation for the plucky rescue of Miss Brenton. W. Cowan states that it might be several days before he can get any of the lines working, and will probably operate the whole from his new premises.

Notice

After investigating the report that Hobson & Bell were supplying bread, etc., to men working in the C.P.R. shops, we find there is not the slightest foundation for the report.

COMMITTEE.

Edison Gramaphones and hundreds of records to choose from at C. R. Macdonald's.

A GREAT TREAT

Popular Irish Drama at Opera House on Monday

A treat is in store for the Revelstoke public and visitors to the city on Monday night when the Amateur Dramatic Club presents that peer of Irish dramas "Conn, The Shaughraun." With characteristic energy the members of the club have applied themselves diligently to the task of producing this popular play in a manner which will redound to their credit. Special scenery has been painted for the occasion and every detail carefully looked after so that the play will long be remembered as one of the most finished productions ever witnessed in Revelstoke.

Careful attention has been given to the casting of the play so that the different members may fit in as naturally as possible, to the role for which they are cast. Of the play itself little need be said, it is so well known. A typical Irish drama, full of wit and humor, with here and there a touch of pathos, at times intensely emotional and again thrilling with excitement. No more suitable play could have been chosen for presentation on Labor Day evening, and we predict a bumper house. There will be no long waits as arrangements have been made to handle the scenery so that the customary tedious waits will be particularly noticeable by their absence. Between the acts the Independent Band will furnish some especially attractive music. The plan is filling up rapidly and the best seats go to those who secure them early. Seats may be reserved at C R Macdonald's drug store.

The Dramatic Club have been requested to give a second production of "The Shaughraun" on Tuesday night as a benefit for the Agricultural Society and have consented to do so. A dance will be held at the conclusion of the performance, to which only ticket holders will be admitted. Music will be furnished by the Independent band

Local and General.

The public will be gratified to know that the City Council have given a reduction of 20 per cent on the city water rates from August 1st and also a reduction in meter rates for light to 15c. and power 35c.

Mrs. E. A. Haggen received a cable yesterday announcing the death of her mother, Mrs. Henry Williams, of Ashridge, Napier, New Zealand. Mrs. Haggen was advised by recent mail of her mother's illness and had arranged to go out by the steamer Manuka, leaving Vancouver next week for Australia, in the hope of seeing her before death.

Work on the new C.P.R. barge, which is to be put in service between Nelson and Kootenay Landing, is now pretty well advanced and it is expected that it will be put in commission about the beginning of November. When completed the barge will have three parallel tracks, each of which will accommodate five of the large sized cars. This will enable the company to handle this commodity on a much larger scale than hertofore.

The junior choir of the Methodist church purpose putting on a cantata this fall. All young people between ages of sixteen and twenty-two or there abouts, who have good voices and are willing to attend practices regularly, will be welcomed into the chorus. The first practice will be held next Saturday evening at 7 p. m. in the Methodist church. Those wishing to join kindly give in names then and a practice night suitable for all will be arranged. A sight-reading class will be held for one month previous to going into cantata work proper, to help boys in learning to sing bass and tenor. A chorus of forty or fifty is called for. The cantata will be costumed. All denominations will be included.

Social and Personal

Ralph Bell has joined the staff of the Northern Crown Bank.

The Hon. F. W. Aylmer has left on departmental work around Fish river.

Fred Forrest of Albert Canyon was in the city yesterday.

C. Deutschman of the Nakimu Caves at Ross Peak was in the city on Thursday.

R. A. Johnston, of Halcyon, returns to Kings College school, Vancouver, this evening.

Mrs. H. Cunningham Morris will not receive on Tuesday, Sept. 8th.

Sask-alta Range

How a Sask-alta thermometer earns its money.

By indicating when oven is ready for baking. By cutting out the "peeping" into oven. By showing on its face what is going on in the oven. By saving "door-opening" heat. By substituting certainty for chance in baking results.

"Sask-alta" range thermometer was tested for six months before one range was sold. "Sask-alta" thermometer is to the housewife what the compass is to the ship captain.

H. CUNNINGHAM MORRIS,
Secy. Race Committee.

CORPORATION OF THE CITY OF REVELSTOKE

By-Law No.....

Whereas under and by virtue of by-law of the Corporation of the City of Revelstoke, numbered 101. it was deemed necessary and expedient in the interest of the City of Revelstoke that the electrical plant of the city should be improved and extended by the addition of an electric power dynamo and equipment including necessary auxiliary plant.

And Whereas to defray the cost thereof it was deemed necessary to borrow the sum of Thirty Thousand Dollars ($30,000) and there was granted to the Municipal Council of the Corporation of the City of Revelstoke under and by virtue of said by-law No. 101 the power and authority to raise the said sum of Thirty Thousand Dollars as set forth and provided in said by-law by the issuance of debentures secured upon the rates and charges which are chargeable and enforceable for the use of water and electric light under the "Water and Electric Light Regulation By-law 1903," and the "Municipal Clauses Act."

And Whereas the said sum of Thirty Thousand Dollars as so authorised to be raised has been found to be insufficient to make and complete all the additions and auxiliary plant as so authorized to be done.

And Whereas the estimated amount of the said rates and charges chargeable and enforceable for the year in which this by-law is passed is $35,000.00.

And whereas there is now charged on the said rates and charges the sum of $2322.84;

And Whereas the debt hereby created is on the security of the said water and electric light rates and charges and is further guaranteed by the Municipality at large;

And Whereas for the payment of the said principal money and interest during the currency of the debentures to be issued it is necessary to set aside and withdraw from the annual current revenue derived from the said water and electric light rates and charges annually the sum of $774; the specific annual sum required for the payment of interest being $500 and for the payment of the debt the sum of $274.

And Whereas the estimated deficiency in the said rates and charges required to make up the amount of the annual interest and sinking fund upon the debt hereby created is nil;

And Whereas it is necessary to raise a further sum of $10,000 by the issue of debentures secured upon the rates and charges aforesaid and guaranteed by the credit of the Municipality at large;

Now Therefore the Municipal Council of the Corporation of the City of Revelstoke in open meeting assembled enacts as follows:

1. The sum of Ten Thousand Dollars or so much thereof as shall be necessary shall be expended in completing the improvements authorized to be made and done under and by virtue of the said By-Law No. 101, and it shall be lawful for the Mayor of the Corporation of the City of Revelstoke to borrow on the credit and security of the said rates and charges by way of debentures hereinafter mentioned from any person or persons, body or bodies corporate who may be willing to advance the same, a sum not exceeding in the whole the sum of ten thousand dollars and to cause all such sums so raised to be paid into the hands of the Treasurer of the said city for the purposes and with the objects hereinbefore recited.

2. It shall be lawful for the said Mayor to cause any number of debentures to be made, executed and issued for such sum or sums as may be required for the purposes and objects aforesaid not exceeding however the sum of Ten Thousand Dollars ($10,000), each of said debentures being of the denomination of $1,000, and all such debentures shall be sealed with the seal of the Corporation of the City of Revelstoke and signed by the Mayor and Clerk thereof.

3. The said debentures shall bear date the 23rd day of September, 1908, and shall be made payable in twenty-five years from the said date in lawful money of Canada at the office of the Molsons Bank at Revelstoke aforesaid, which place of payment shall be designated by said debentures, and shall have attached to them coupons for the payment of interest and the signature to the coupons may be either written or printed, or stamped or lithographed.

4. The said debentures shall bear interest at the rate of five per centum per annum from the date thereof which interest shall be payable semi-annually at the office of the Molsons Bank at Revelstoke in lawful money of Canada on the twenty-third day of March and the twenty-third day of September, respectively in each and every year during the currency thereof and it shall be expressed in said debentures and coupons to be so payable.

5. It shall be lawful for the Mayor to negotiate and sell the said debentures or any of them for less than par but in no case shall the debentures or any of them be sold for less than 92½ per centum of their face value including the costs of negotiating and sale, brokerage and other necessary expenses.

6. For the payment of the said debt there shall be set aside and withdrawn each year during the currency of the said debentures from the annual current revenue of the Municipality as derived from the said water and electric light rates and charges the sum of $274.00, and such sum shall be transferred from the annual current revenue account and paid into a special account to form a sinking fund for the purpose mentioned herein.

7. For the purpose of paying the interest on the said debentures as same becomes due and payable there shall be set aside and withdrawn each year from the annual current revenue of the Municipality as derived from said water and electric light rates and charges the sum of $500 which sum shall be transferred from the annual current revenue account and paid into a special account for such purpose and to be disbursed when and as the instalments of interest become due.

8. During the currency of said debentures the said rates and charges to the extent aforesaid shall not form part of the annual revenue of the Municipality.

9. It shall be lawful for the Municipal Council from time to time to repurchase any of said debentures at such price or prices as may be mutually agreed upon and all debentures so repurchased shall be cancelled and no reissue of any such debenture or debentures shall be made in consequence of such re-purchase.

10. As additional security the credit of the municipality at large is pledged for the payment of the annual interest and sinking fund required for the extinguishment of the debt created by this By-law and the municipality hereby guarantees the payment of the same.

11. This by-law shall come into force and take effect on the 23rd day of Sept. 1908.

12. This by-law may be cited for all purposes as the "Electric Light Loan by-law, 1908."

13. This by-law shall before the final passing thereof receive the assent of the ratepayers of the Corporation according to the provisions of, and in manner prescribed by the Municipal Clauses Act.

Read a first time this 4th day of Sept. A. D., 1908.

Read a second time this 4th day of Sept., A. D., 1908.

Read a third time this 4th day of September, A. D., 1908, and passed with the unanimous consent of the Council.

Received the assent of the electors the day of

Re-considered, adopted and finally passed the Council the day of A. D., 1908.

City Clerk. Mayor.

TAKE NOTICE that the above is a true copy of the proposed by-law upon which the vote of the Municipality will be taken at the City Clerk's Office, City Hall, corner of Second Street and McKenzie Avenue, Revelstoke, B. C., on Monday, September 21st, 1908, between the hours of Nine o'clock a.m. and Seven o'clock p.m.

Married

MACLEOD-FONGER—On the 2nd. inst., at the Union Hotel, by the Rev. W. C. Calder, Roderick MacLeod to Viola Fonger, both of Halcyon, B. C.

Local and General.

R. H. Trueman will be in his Revelstoke Studio on Sept. 15th, for two weeks.

"Who fired that shot"? Come to the opera house Monday night and find out.

The Willing Workers will hold their lawn sociable on Friday the 18th inst. Weather permitting.

F. B. Helm, manager of the Northern Crown Bank, Calgary, died from affects of appendicitis on Wednesday.

Don't miss the "Abbey Scene" in "The Shaughraun" on Monday night. It is one of the prettiest settings ever witnessed on the Revelstoke stage.

There will be no issue of the MAIL HERALD on Wednesday, Sept. 9th, the publication being postponed till the following day, Thursday, Sept. 10th.

It is illegal to kill in one season more than 5 caribou (bull), 5 deer, 2 elk or wapiti (bull), 2 moose (bull), 5 mountain goat, 3 mountain sheep (ram), 250 duck, 250 snipe.

Prof. Simms, of the Sherrah & Simms' Etheopian Quartette, will sing this evening at the Edison Parlor Theatre for the benefit performances of the Federated Trade Unions.

In the notice of the painting of the interior of St. Peter's church, in our last issue, the name of the contractor was given as Ramsey, which was an error. J R. Thornton executed the work.

General Sir Reginald Pole-Carew, who is on his way to Australia, stopped off at Glacier last week and visited the Deutschman Caves at Ross Peak, expressing himself delighted with the wonderful scenery of that region.

There will be a special benefit evening performances at the Edison Parlor Theatre this evening for the Federated Trades Unions, commencing at 7 45 o'clock, A special benefit matinee performance was given this afternoon. The pictures this evening will include colored films "In Bulgaria," "Sleeping Beauty," "Winter Straw Ride." The prices to-night are 25c. and 15c.

Not
"How Much?"
but "how good" is the question that every one should ask in buying candy.
The old saying that "a man is judged by the candy he gives" holds good today same as always. Buy the best—don't take the "just as good" kind.
Nothing quite equals
Huyler's
famous Bon-Bons and Chocolates. They are in a distinctively exclusive class to themselves.
● Orders receive prompt and careful attention.

Temporary Premises, Ideal Furniture Store
Opposite the Windsor Hotel. - FIRST STREET

Patrons are requested to occupy their seats at the opera house on Monday night not later than 8:30, when the curtain will rise on the first act of the greatest dramatic production ever witnessed in Revelstoke.

The 'Appy 'Ome have chartered the steamer Revelstoke for a trip to Halcyon on Sunday, 13th ult. The Boyd Ranche trip was a great success and many who would have liked to take in the trip could not be accommodated.

The 'Appy 'Ome and their friends had a most succesful picnic on Thursday last at Downie, leaving the city early in the morning by the s.s. Revelstoke A large number took advantage of the trip, a good time being had by all.

F. C. Elliott has returned from a trip to Tamoo Harbor, Queen Charlotte Island, where he inspected a large group of high grade copper claims located this summer by Arthur Gowing of Trout Lake, on behalf of a syndicate in which he, Mr. Elliott and T Taylor, M P P., are interested states that he was very favorably impressed with the surface showing. He brought numerous samples some of which will give on assay returns of over $60 per ton, in copper, gold and silver. It is the intention of the owners to start development work at once.

A bylaw authorizing the borrowing of $10,000 on debentures to complete the power plant and to extend and improve same was read three times and unanimously passed at the council meeting last night.

The meteorological office, Toronto has just issued a record of the highest temperature registered in different parts of the Dominion during July. Evidently the hottest spot in Canada last month was Spence's Bridge, British Columbia, where the thermometer registered no less than 108 degrees in the shade.

Mr. Stuart Muirhead, Gen. Secretary of the Interdenominational Sunday School Association for the western provinces, was in the city yesteday and at a meeting of the local executive, arrangements were made for the holding of the provincial convention here October 26, 28, 29. Mr. Muirhead left for the south this morning.

The Silver Cup at Ferguson is developing and shipping steadily. The ore bodies in the mine are improving both in size and grade as depth is obtained. Four stopes are being worked and about sixty men are employed in and around the mine. There is a possibility that a long tunnel may be started to tap the mine at a 1400 level soon

Fair Notes.

H. Manning has received the contract for the privilege of erecting and operating a refreshment booth on the fair grounds during the fair.

The following judges have been appointed:

Poultry—E. M. Cooke, J. Foulton.

Fruit and Vegetables—W. J. Brandrith.

Floral—J. Maley.

Bread and Preserves—Mrs. Pettipiece, Mrs. R. N. Doyle.

Fancy Work—Mrs. Elson, Mrs. Holten, Mrs. Curtis.

Fine Arts—Mrs. Haggen, Miss Hall, B R. Atkins, F. B. Wells.

Live Stock—A. Craig.

Dogs—C. R. Skene.

Mineral—J. R Leamy.

Judging will take place on Tuesday, Sept. 8th.

A dance has been arranged in the Opera House for Tuesday night, September 8th

The C.P.R. have given a rate of one fare and a third from all points for the fair on Sept. 7, 8, 9

The fair transportation committee have arranged for a regular bus service all day from the City Hall to the race track during the fair, passengers will be charged 10 cents a trip.

Intending exhibitors in the fine arts and fancy work are requested to leave their exhibits at the Mayor's office at the City Hall, today, and a committee will be in attendance until 6 p.m., to receive all articles which must be properly ticketed.

The attention of all intending exhibitors is called to the following: Purchasers of membership tickets for the Agricultural Society will be entitled to free entry to fair grounds on both days as well as entry to one or all classes of exhibits. Those exhibitors not purchasing membership tickets will be charged 10 per cent of the aggregate of the prize money for that particular entry, and will also have to pay for admission to grounds. Tickets can now be purchased—Ladies $1; gentlemen $2.

The race meet promises to be a record this year in the annals of the Revelstoke Turf. Every stable and stall is now occupied and several more have been built to accommodate the horses which are arriving almost daily. Some of the pick of the Canadian turf will participate, while the local ponies race has created great excitement and interest. A patent starting machine will be used this year, which will greatly add to the races from a spectators point of view.

The great Irish drama the "Shaughraun," containing 3 acts, 16 scenes and a host of stirring and interesting tableaux and produced by the best talent that Revelstoke possesses, by the Amateur Dramatic Club will be the star attraction at the Opera House during the fair. The Independent Band will play during the performance which takes place on Monday evening Sept. 7th.

The Edison Parlor Theatre will give regular performances during the fair.

Some particularly fine fruit and produce exhibits for the fair have been made up.

All competitors and exhibitors must have their exhibits in the pavilion by 4 p m on Monday, Sept. 7th, unless where stated otherwise (see prize list)

Trap shooting will be a special feature of the Fair attractions this year, competitions being held on the McKenzie Avenue grounds at the east end. Teams from Vernon, Armstrong, Kamloops, Golden, and Revelstoke competing.

SPORTING NOTES

George Towns, of Australia, and Ernest Barry, of England, have been matched for a straightaway race over the Thames River championship course from Putney Bridge to Mortlake, for $1,000 a side, the English championship and the Sportsman's Challenge Cup, the race to take place on the afternoon of October 19 h The race is of considerable interest, on this side, where Towns is known because of his defeat of Jake Gaudaur at Rat Portage, Ont., in 1891, for the world's championship, and also through his defeat of Edward Durnan, of Toronto, at Sydney, N. S. W., in March, 1907, for the same title.

Dr. Leopold McLaglen, the famous Scotch jiu jitsu expert, and Professor T. H. Kanada, the pride of the Japanese on the Pacific Coast, are to meet in another battle for the championship of the world, an added incentive to extreme effort being a side bet of $500. The affair has been set for Labor Day night, Monday September 7th, and is to be held at the Imperial Rink at English Bay.

Free Tickets to the Fair

H. N. Coursier offers four prizes of two tickets each, for admission to the fair grounds on Sept. 8th and 9th, to the four boys or girls, not over 15 years of age, who mails in sealed envelope with name enclosed to P. O. Box 206, Revelstoke, not later than Saturday next, Sept. 5th, the best set of answers stating, 1st, Why Coursier's nut coal is the best for kitchen use 2nd, Why Coursier's choice lump furnace coal is the most satisfactory for heating. Three independent judges will open the envelopes and award the tickets on the morning of Sept. 7th.

Victoria Park

On Tuesday last a party of eight persons climbed Mt. Victoria and returned the same day. The party consisted of Mr. and Mrs. Jas T. Telfer, Mr and Mrs. Telfer, sr, Mrs Foote, sr. Miss Grant, Walley Clark and Rev. J. R Robertson. It may surprise some of the young people of Revelstoke to know that all the party reached the summit of Macdonald's Bluff, the highest point visible from the city. From here the main party returned reaching home about 8 30 in the evenin the evening, greatly delighted at having made the climb up the mountain which is a credit to those who built it. The delightful views of the city, the valley and the surrounding mountains that continually open before the eyes. Walley Clark and Mr. Robertson left the party at 2:30 p.m. and pushed on to Grass Lake, Protection Lake in Victoria Park, and around north and westerly to the lakes and alps of Miller Park. They were amazed at the great expanse and beauty of these high mountain parks, and the mountain scenery far away in all directions is beyond the genius of verse or prose, of brush or pencil. If anyone dreams that Mrs. Coursier's beausiful pictures of those park scenes are overdrawn let him go up and see for himself. He will find such beauty of lakes and trees, flowers and heather, rolling alps and rising mounds that defy the artist's genius. Instead of returning by the same way, Walley Clark and Mr. Robertson descended the mountain on the Columbia River side by way of Six Mile Creek, striking the Big Bend Road a mile this side of the Landing. The descent for a good part of the way by this creek is very beautiful though part of the way is rough and heavy. They arrived in town about 9:45 p.m.
