MRS. JACKSON WINS

The Clitheroe Wife Abductor Forced to Release His Unwilling Spouse.

GREAT DELIGHT OF THE PUBLIC

Extraordinary Statements Made Regarding the Condition of the American Navy.

PARNELL DECIDES TO RESIGN

Captain McKeague of the Uptopia Arrested on Very Grave Charges.

LONDON, March 19.—Mr. Edward H. Jackson, the hero of the Clitheroe abduction, has been obliged to bring his wife to London, and produce her before the court in obedience to a writ of habeas corpus, issued by the Lord Chancellor. The court was crowded with spectators, the affair having created widespread interest. The husband, who had run away with his own wife against her will, and the lady still recalcitrant, were regarded with keen curiosity. The man appeared determined and stood upon his legal rights. His wife was quiet and pale, but equally obstinate. The testimony given at times was exceedingly amusing, and the court and spectators were kept in high good humor. The court decided that it was not lawful to detain a wife against her wishes. His Lordship and the master of the rolls subsequently had a private interview with the lady. The discharge of Mrs. E. H. Jackson by the court of appeals has caused a tremendous rejoicing in Clitheroe, where she has been living with her relatives. As soon as the news was received the church bells rang out merry peals and the townspeople began preparing for a public reception of the lady, who, it is understood, will return to live with her sister as before. Mr. Jackson declares that his next move will be a greater surprise than the abduction. It appears that Mrs. Jackson did not receive her property altogether through inheritance, but partly through another romance to which she was a party. Some years before she married Mr. Jackson she received an offer of marriage from a well-to-do lawyer named Anderson. This offer she declined, but Anderson remained deeply attached to her and when he died it was found that his fortune and the presentation to the living of the Clitheroe parish church was left to her. Jackson's marriage to her, which was private and unknown to her relatives at the time, is said to have been a genuine love affair. He is the son of a captain in the Royal navy and is a handsome man of middle age. Mrs. Jackson was deeply hurt by his leaving her on the wedding day, and appears afterward to have become entirely alienated. It is now conceded that this rude attempt to regain her affections is a failure.

ITALY'S THANKS.

A Rome despatch says that Premier Rudini has tendered the thanks of the Government to Lord Dufferin for the gallant service done by the crews of the two British ironclads in rescuing the survivors of the Utopia disaster at Gibraltar. It is now claimed that the Utopia was not properly steered on entering the bay, and that with good management the collision would have been averted. Many bodies were recovered today from the wreck, including those of a husband, wife and child clasped together as they appear to have gone down.

NO DESIGNS ON FINLAND.

From St. Petersburg comes the statement that the Czar had personally no knowledge or the attempts being made to Russianize Finland until to read the reply of the Finnish diet to the speech from the throne. This answer, complaining of encroachments on the liberty of Finland, and asking the Czar to respect the ancient constitution, took him by surprise, and it is said that he requested and received the resignation of the officer chiefly responsible for keeping him ignorance. Then followed his rescript pledging himself to support the Finnish constitution.

HUNGRY FOR FAME.

A Copenhagen despatch says that Dr. Nansen has received numerous applications from would be volunteers in Great Britain and other countries who wish to join his Arctic expedition. As the crew will include only eight men there is little room for volunteers.

TRIBUTE TO BRAVERY.

At Gibraltar today the funeral of the two men-of-warsmen, James Cotton, seaman, and George Hall, stoker, who were drowned from the steam launch of the Immortalite on Tuesday night while attempting to rescue the endangered passengers of the Utopia, took place. All the bands of the British squadron now at anchor at Gibraltar marched to the funeral procession and played dead marches. The officers of the Immortalite with their captain, Sir William Wiseman, at their head, paraded, as did the delegations from the crews of the other British war ships and the Swedish man-of-war Freya. The Gibraltar garrison was also represented when the bodies were lowered into the graves in the government cemetery, the ironclads fired a salute, as a mark of sympathy.

EXTRAORDINARY STATEMENTS.

At the annual meeting of the council of naval architects, held this morning, Mr. Bills, a leading member and high authority on the subject, read a paper on the navy of the United States. He gracefully acknowledged his obligations to the Hon. B. F. Tracy, secretary of the navy for the facilities granted him during his recent visit to the United States, for examining the naval establishment of that country. The speaker said he was surprised at their well organized conditions. He referred at length to the newly created navy. He declared, that in general workmanship, the new ships were equal to England's best. American designers and builders were most capable and careful, their work was quite up to that of the first of European naval builders. The armament of the latest built American battle ship was more powerful than that of any ship of the same class on this side of the water. In order to effect this, however, they were forced to sacrifice speed and coal supply; nevertheless, he felt bound to acknowledge that the fastest English cruiser was slower than the fastest American. Mr. Bills concluded that the work of the American contractors was worthy of study by all Englishmen interested in the subject.

A curious and very significant feature of the debate at the annual meeting of the council of naval architects today was the fact that both sides utilized American examples of naval architecture as the basis of argument. At the conclusion of the discussion Earl Ravensworth requested Lieutentant Emery, who was present, to express to Secretary Tracy the thanks of the institute of naval architects for the assistance which he had given to Mr. Bills in preparing that gentleman's able and instructive paper on the navy of the United States.

THE CAPTAIN ARRESTED.

Captain McKeague of the Utopia, has been arrested at Gibraltar on the charge of wrongful acts, improper conduct, negligence and mismanagement in the control of his steamer before and at the time of the disaster.

PAYING THE PENALTY.

Lord Knutsford introduced a bill today to revise certain provisions of the existing law controlling administration of Newfoundland fisheries. He expressed a hope that the present difficulties would be arranged through a compromise in such a way as to lessen the burdens of the colony. Lord Kimberly supported the bill, which was read for the first time, Lord Salisbury saying that Newfoundland was paying the penalty for errors made in past treaties.

Lord Knutsford's bill relating to the Newfoundland fisheries revives the authorities of the Crown to instruct naval officers to enforce the treaties of Utrecht, Versailles and Paris, securing fishing rights to France. The bill also provides that this authority shall be suspended, provided the colonial legislature supplies the necessary powers to secure the performance of the treaties on international arrangements.

THE GREAT ATLANTIC LINE.

The report of the Cunard steamship company shows income amounting to £10,250,000, and expenses £939,000. One cause of increased expenses was the advance in wages on account of strikes.

UNAIDED BY FRANCE.

The Italian railway loan has been entirely subscribed in Italy and Germany. This saves Italy from having to go to Paris for the accommodation, something that both Germans and Italians were anxious to avoid.

THE MOTH PEST.

Bavaria has granted a million and a half of marks to preserve the forests from moth pest.

MURDERED THE CHILD.

A tragedy is reported from Mugeln, Saxony. A tailor named Hollenden killed by drowning the illegitimate child of his daughter. The case escaped attention for some days, but suspicion being aroused the daughter was arrested, it being supposed that she had got rid of the child. Hollenden thereupon committed suicide, fearing the fact might come to light. The affair created a profound sensation as it is believed that a young nobleman of that neighborhood was the cause of the tragedy.

THE BREWERS ALARMED.

The brewers have become frightened at the success which has thus far attended the efforts of the temperance element in forwarding legislation looking to the reduction of the number of public houses and otherwise restricting the traffic in strong drink. It is the intention of the members opposing the Welsh local option bill to talk that measure down when it comes before the House for second reading, and the brewers are pressing for a lavish expenditure of money to influence the second reading in committee. In this undertaking the brewers will probably be successful, as the government's professed neutrality in the handling of the bill is without doubt a sham. Nobody now believes that the ministry wants the bill to pass, and undoubtedly it will be stifled at some stage of its progress, either by direct government aid or through official apathy.

LEGISLATION FOR INDIA.

The Legislative council for India has passed the bill raising the age of consent for females from ten to twelve years. The council has also passed the factory bill, prohibiting the employment of children under nine and regulating the hours of women and of children under fourteen.

DECIDED TO RESIGN.

It is stated in the lobby of the House of Commons that Parnell has decided to resign.

THEIR ANNIVERSARY.

The Social Democratic Federation comprising the allied Socialistic group of London, celebrated the twentieth anniversary of the commune in St. Andrew's Hall tonight. The attendance was very large. The proceedings were enlivened by the presence of a string band which played the airs adopted by Socialists, to which the audience responded with vocal renditions thereof. Speeches were made by Louise Michel, Henry Hyndman, Morris the poet and other well known revolutionists. Herbert Burrows, the present friend-in-chief of Annie Besant, presided over the meeting. The utterances of the speakers were of a fiery character and the applause which they elicited was chiefly provoked by the threats of the orators to overthrow the existing social system by force of arms and at the cost of the lives of capitalists and monopolists and others who bar the progress of Socialism.

McLean and Stansbury.

NEW YORK, March 19.—A cable despatch from Sydney to the Police Gazette says John McLean and James Stansbury will row for the championship of the world and £400 a side on the Paramatta course on March 24th. Stansbury will go to America after the race to row William O'Connor.

Because He Is a Tory.

LIMERICK, March 19.—The municipal authorities of Limerick have demanded the arrest of Mr. Boyd, a Tory leader, a magistrate and treasurer of one of the city markets. It is charged that Boyd has embezzled a large sum from the funds of the market. Charges of this character have been made against Boyd before, but the judicial authorities have ignored them. In consequence the Nationalists declare that the Government is deliberately placing obstacles in the path of justice with a view of shielding Boyd because he is a Tory.

THE IRISH ENVOYS

Open the American Campaign for Parnell at New York

UNDER FAVORABLE AUSPICES

Nearly $5,000 Subscribed to the Fund at the First Meeting.

FATAL POWDER EXPLOSION

The Seamen's Union Order All Men Shipped From Headquarters.

NEW YORK, March 19.—The Irish envoys opened their campaign in America for Parnell at the Cooper Union Hall before an audience of 3,000 persons. Michael Breslin presided. J. J. O'Kelly was first speaker. He said the envoys were here to ask sympathy with the cause of Ireland to support them in the struggle which had been misrepresented by the agents of the press in this country as well as in England. Their mission was to ask those who believed in an independent Irish party in Parliament to come to their aid so they could fight every seat in Ireland and then restore unity by whipping from public life the men who had betrayed the trust in them. Mr. Redmond and Mr. O'Conner also spoke. At the close of the meeting it was [illegible] subscribed [illegible]

[illegible] FIRE.

Peter Cryon, aged 50, and his sister Mary, aged 60, were burned to death this evening in a fire which destroyed the tenement house No. 215 East 29th Street. There were 22 families in the house and the work of rescuing was very difficult.

Barnard the Favorite.

BARKERVILLE, B.C. March 19.—Cariboo district election returns are as follows: Clinton, Barnard 26, Watt 7; Quesnelle, Barnard 15, Watt 23; Soda Creek, Barnard 9, Watt 7; Barkerville, Barnard 33, Watt 37; 150 Mile House, Barnard 15, Watt 25; Lac Lahache, Barnard 21, Watt 9; Bonaparte, Barnard 11, Watt 10. Total, Barnard 130, Watt 118. There are eleven places yet to hear from some of which cannot make returns till Sunday. Barnard will probably be elected by ten majority.

Society's Dregs.

HARRISBURGH, Pa., March 19.—The prize fight between Joe McAuliffe of San Francisco and Jim Daly of Philadelphia took place in the vicinity of this city tonight. Nearly 300 spectators witnessed the mill. The terms of the fight were that Jim Daly should stay six rounds for a purse of $1,000. This he managed to do, and although receiving a lot of punishment was almost as fresh as his burly opponent at the finish. It is only fair to McAuliffe, however, to state that he broke the first knuckle of his left hand in the fourth round, and was thus incapacitated from hitting as hard as he otherwise might have done. Daly was declared winner. Neither man was much marked, Daly showing the most punishment.

The Missing Malaysia.

SAN FRANCISCO, March 19. — The British ship Malaysia which a dispatch from London says has been posted there as missing, left San Francisco for Queenstown, August 6th last, with a cargo of wheat valued at $80,000. The missing vessel carried a crew of 28.

MUST SHIP FROM HEADQUARTERS.

Coast seamen's union last night at a special meeting passed a resolution that henceforth all seamen must be shipped from the office of the union. Should any of the owners resist this order a strike will be made. The resolution passed last night must be acted upon by branches of the union up and down the coast before it will become the law of the union; but there is no doubt of the action of the branches. By Monday morning the replies from them will all be received here. This decided move on the part of the union was the result of a conviction that the owners did not wish to openly give way to boarding masters. The union then opened a shipping office and notified the owners of the fact. Most of the prominent officers have said that while they did not care to sign the agreement they would nevertheless ship all their men at the office of the union. In that case there will be no open war in the office of the union. They do not wish to have trouble of any sort and are quite sure ship owners do not.

CANADIAN NEWS.

FROM THE CAPITAL.

OTTAWA, Ont., March 19.—The clerk of the Crown in Chancery emphatically denies that he is holding back the returns of Grit members. He says he gazetted last week every member whose return had been received up to Friday afternoon.

The marine department is procuring a supply of explosive bombs to be used at the fog alarm stations on the Atlantic coast.

The factory of the Ottawa Powder Co. exploded this afternoon. Fortunately no lives were lost. Many windows were smashed in the city although the factory is three miles away. There was general alarm here for a while. The people thought that Wiggins' storm had turned into an earthquake.

There will be a recount in Carleton.

It is expected that there will be six Catholic members in the new House.

A Washington despatch says that British Guiana has rejected Canada's reciprocity overtures, preferring to make arrangements for reciprocity with the United States. This intimation creates surprise here. Hon. Mr. Foster, minister of finance, in an interview tonight, says the Government has received no information on the subject, and does not believe the report true, as he thinks the Dominion Government would have been formally notified.

STOLE DIAMONDS.

MONTREAL, March 19.—F. W. Hays, alias Beauregard, of Peoria, Ills., an American crook, has just been sentenced to seven years in the penitentiary for robbery of diamonds. Nellie Carr of Chicago was a few days ago sentenced to a similar term for complicity in the same robbery.

HOSTILE ITALIANS.

The Italian residents of this city met last evening and passed resolutions denouncing the killing of their countrymen in New Orleans, declaring there was no example of similar cruelty in the annals of civilized nations, and expressing a hope that the Government of United States would make energetic efforts to punish the authors of the crime and render justice to the families of the victims.

MYSTERIOUSLY MISSING.

J. R. Barclay, of the firm of J. R. Barclay & Co., stockbrokers and financial agents, is missing. His partners admit he has left town, but they are unable to assign a reason. He is known to be short on two thousand shares of the Canadian Pacific, which advanced today to 77.

APPOINTMENTS.

TORONTO, Ont., March 19.—James Brady of Ingersoll been appointed to the shrievalty of Oxford County; J. Duncan Thompson has been appointed registrar of the County of Frontenac, and Dr. Archibald MacLean registrar of the County of Lambton.

A RESPECTED CITIZEN.

BELLEVILLE, Ont., March 19.—George Adams, a respected resident of this city, is dead, aged 55. He leaves a large family.

GONE TO GLORY.

PETERBORO, Ont., March 19.—Hugh Davidson of Smith, one of the most prominent farmers of the district, is dead.

Unbearable Russian Insults.

BERLIN, March 18.—The represent- [illegible] Tageblatt at St [illegible] the Russian capital upon strangers in general, and Germans and Jews in particular, and the insults heaped upon everyone not officially their superior has become unbearable.

FOR TALKING TOO MUCH.

Dr. Bockel has been imprisoned in Frankfort upon the finding of the court that his anti-Jewish speeches caused the anti-Semitic riots which subsequently occurred.

BOETTICHER RETIRING.

It is believed that the retirement of Doctor von Boetticher from the imperial ministry of the interior has been merely postponed at the request of the Emperor, pending the selection of his successor.

A TRIPLE KILLING.

Three men at work on the glass roof of a building in Chausse strasse today lost their footing and fell five stories to the ground. All were killed.

Powder Mill Explosion.

MAHONEY CITY, Pa., March 19.—The Brandonville powder mill caught fire and blew up this evening, fatally injuring two men and seriously injuring a third. The victims are Cyrus Faust, who was burned in a horrible manner, the flesh hanging in shreds from his body. Jeremiah Zimmerman, received injuries from which he cannot recover. Elias Lindermuth was also badly burned and is in a precarious condition.

Public Criticisms.

There was much comment and criticism, some of it extremely harsh, among the public yesterday regarding the peculiar tangle in which the city was shown to be on Wednesday night respecting fire protection. Had the fire occurred on the wharves of this side instead of at Brownsville, the public doubt greatly whether the ferry would have got to it in time. It is certain that while no clear understanding exists as to whether the ferry shall promptly proceed to fires or not, the city is in great danger. If a fire is ever allowed five minutes' free play among the city wharves this will be proved beyond question.

The William Irving.

It is probable that the steamer William Irving will be in the river again by the latter part of this month. This fine vessel has been thoroughly overhauled and will start work again practically a new boat. Her engines, which were taken out of her, have been repaired in a most thorough manner, and her furnace has been altered so as to burn either wood or coal. The wheel was unshipped and virtually rebuilt, and her hull has received an entirely new deck, while all her upper work has been painted and redecorated. All who are interested in the welfare of Westminster must look with interest at any additions or improvements to the fleet of river passenger boats, as they can do more to help the business and growth of the city than almost anything else. Affording, as they do, a cheap, pleasant and expeditious means of travel between the large and populous farming districts and Westminster.

Board the Artist Wizard.

Mr. Frank Beard's press notices would make a very respectable volume in themselves; they are countless in number and all in terms of the highest appreciation of his marvelous ability as a master of the crayon. He sketches with lightning rapidity and amazing fidelity to the subject which he treats. No one can resist his comic drawings produced on the board as if by magic. With three strokes of his enchanted pencil this wizard can convulse an audience with laughter; add three strokes more and make them serious, and so on until the finished picture is before them, eliciting exclamations of astonishment and delight. Mr. Beard is a prime favorite with the most cultured audiences of the East, and is king of the situation the moment he places his pencil on the canvas. The audience is helpless and can only sit and laugh itself into sore sides while the artist's crayon creates fancies of all kinds. The extraordinary faculty possessed by Mr. Beard of drawing two portraits at the same time, one with the right and the other with the left hand, is not possessed by any other artist now before the public. Mr. Beard will appear in Herring's Opera House next Tuesday evening under the auspices of the Y. M. C. A., eighth in the great Star course of entertainments. Reserved seats are already going like hot cakes at Curtis & Co.'s drug store, and those who miss this treat will be doing themselves a gross injustice.

NOTICE OF ASSIGNMENT.

Pursuant to the Statute 59th Victoria, Chap. 2, and to the Creditors' Trust Deeds Act, 1890.

NOTICE IS HEREBY GIVEN THAT Willard Emerson Dickinson, heretofore carrying on business as a truck and dryman in the city of New Westminster, in the Province of British Columbia, has by deed dated the 6th day of March, 1901, assigned his real and personal property to James E. Kelley, carriage builder of the said City of New Westminster, for the benefit of all his creditors. The said deed was executed by the said Willard Emerson Dickinson and James E. Kelley on the day of the date thereof. All persons having claims against the estate of the said W. E. Dickinson are required to send them in to the said assignee, or his solicitors, on or before the 6th day of April, 1901, with full particulars in writing signed by the party claiming of their claims, and the security (if any held by them.

And notice is hereby given that after the said date the said assignee will proceed to distribute the assets of the said estate among the parties entitled thereto, having regard only to the debts, claims and demands of which notice shall then have been given, and the said assignee will not be liable for the assets or any part thereof distributed to any person or persons of whose debts, claims or demands he shall not then have notice.

A meeting of the creditors will be held at the office of the undersigned on Saturday, the 23rd day of March, 1901, at 7:30 o'clock in the afternoon.

Dated this 15th day of March, 1901.

OUR VITAL STATISTICS.

A well informed correspondent up country, whose letter appears in another column, corroborates our recent contention, as to the incompleteness and inaccuracy of the vital statistics of our Province. This he ascribes to what is probably the true reason, the insufficient number of registrars appointed under the act in the rural districts. The present registrars are few in number; and it is difficult for settlers in many up country districts to reach them in the short interval between death and the burial of the dead. Hence registration, as required by law, is frequently neglected altogether in cases of death, a fact which amply accounts for the impossibly low death rate shown by the Registrar General's imperfect returns. The registration of births is similarly neglected, but to a less degree. Our correspondent suggests what appears to be a simple and inexpensive method of remedying in the future these deficiencies of our registration system, by urging the appointment of a local registrar in every settlement in the person either of the postmaster or a resident justice of the peace. Something should certainly be done without delay to make our vital statistics at least tolerably accurate; so we respectfully commend our correspondent's suggestion to the consideration of the authorities at Victoria.

IMMIGRATION POLICIES.

More stringent immigration laws, being about to come into force in the United States, strenuous efforts are being made by the great steamship companies to get in as many immigrants as possible before the change takes place. Hence, on the 11th instant, there landed in New York the enormous number of 2,711 emigrants, an aggregate far in excess of the daily average of the season. The new immigration law prohibits the landing of settlers without personal effects, and thus debars absolute paupers. Stringent regulations are also imposed in order to prevent the incoming of decrepit and incapable settlers. It remains to be seen, whether many emigrants of these classes will thus be diverted to the Dominion. If so, additional safeguards will have to be imposed, as there is no doubt that there has lately been a great inrush to the States of very undesirable immigrants. Many of these were, however, Italians and Hungarians, and it is more likely that they will henceforth make for Brazil or the Argentine Republic, preferring as they do lands of warm winter climate. This accordingly greatly lessens the probable number of [illegible] emigrants. Brazil and the Argentine Republic, unfortunately for themselves, care little or nothing whom they import, and they are in fact so badly ruled that they get comparatively few immigrants of the best type, though the former state is offering apparently liberal land grants to settlers. The concessions are, however, according to the report of the late United States Consul General to Brazil, situated in districts of dense forest, liable to inundations of great rivers, and very unhealthy as to climate.

NOTES AND COMMENTS.

The Montreal press urges that the next Dominion Redistribution Bill should, among other features, have special regard to the case of Montreal and the adjoining county of Hochelaga. The two places have together a population of [illegible], but only send four members to Ottawa, whilst Quebec with some 70,000 people returns no less than three. The cities of Montreal and Quebec, when the latter was nearly as populous as the former, were each empowered to return three parliamentary representatives, it being then expected that the growth of the two towns would be fairly pari passu. Quebec has, however, in the last decade fallen far behind Montreal, which has now more than treble the population of the former city. Hence the Montreal Gazette reasonably enough claims, that the Redistribution Bill shall so reapportion the sixty-five members for the Province of Quebec as to give to Montreal and Hochelaga together eight parliamentary representatives, and reduce the Quebec city members to two. Rural districts of proportionally less population would have to yield the three other additional members claimed by Montreal. The demand seems, on the present estimates of population, well founded; but whether this is so or not the forthcoming census will soon decide. Toronto is, in any case certain, by reason of the great increase of population during the last five years, to receive additional parliamentary representation, under the Redistribution Bill.

* * *

An enterprising Nanaimo real estate man has just suggested to Mayor Hilbert the advisability of imposing an annual business tax of $500 on the real estate agents of that city. The suggester rightly calculates, that it would largely reduce the number of local real estate men, but as he could afford the tax and would remain, so much the better for himself. It is hardly likely that the suggestion will be adopted.

* * *

A telegram in yesterday's issue described the release from prison at Wexford, Ireland, of two Protestant clergymen, committed for street preaching. The clerics concerned had on several occasions spoken violently against Roman Catholicism out of doors at Arklow, before a crowd of laborers, believing in that faith. They thus caused serious disturbances more than once and were with difficulty protected by the police. The authorities then warned them to desist from such street obstruction. They, however, persisted, and on again raising an angry crowd in the streets were committed to prison for a few days in default of payment of a fine. Hence, what would otherwise seem an act of religious persecution by the Irish civil authorities was a thing done to prevent a dangerous breach of the peace.

* * *

"L'Electeur" of Quebec recently fell into a laughable error. Sir RICHARD CARTWRIGHT, addressing a meeting after the election, and prophesying the early future success of the Liberal party, cheerily exclaimed "the end is near." L'Electeur, misconstruing the expression, and thinking that the Knight meant that he was dying, blackedged a page of its next issue and inserted a photograph of Sir RICHARD, together with a eulogistic reference to his valuable services about to be lost forever. The Knight's English metaphor misled the French editor; and thus gained for him what the late Lord BROUGHAM once gained for himself by a ruse, a kind of ante mortem obituary in terms of high praise.

NATIONAL DISAPPEARANCE

Well Known Vancouver Grocer Leaves His Affairs Badly Mixed.

Last night's World says James A. Ford is missing. Some say he has absconded. He was half partner in the grocery firm of Weeks & Ford, doing business on Hastings Street and at Mount Pleasant and had charge of the latter place. For some time back there has been trouble between the two partners. Mr. Weeks wanted to buy Ford out and Ford wanted to get a partner in, and Mr. Weeks out. It was a settled fact that the business couldn't run on as it was. So when on Saturday he told one of his friends he had succeeded in getting hold of the firm's affairs, and would in future be "J. A. Ford," people were not very much surprised. The same day that he spread this report he sold several very peculiar looking watches. At Davidson Bros, he bought a pair of gold watches, one of them for himself and one for his future wife, explaining at the time that he was going to be married on Wednesday. His bill for these pieces was $135. Then he went to Murphy's tailoring establishment and had a suit of clothes he was having made. These cost him $40. At another place he purchased a stock of shirts, collars, cuffs, etc., running into a bill of $55. Elsewhere a few small purchases were made. Saturday night he was drunk as a lord and blew a good deal of hard money for champagne and acted as though he had a fortune at his command. Sunday morning a Chinese jeweler was tapped to the extent of some rings, bracelets, etc., Ford giving in payment a cheque on Rand Bros. which he signed with the firm name. Then he took a livery rig and drove over to Westminster, taking with him from his rooms only a small valise and a few necessary articles of clothing. From the Colonial Hotel he wrote to his affianced wife, Mrs. Ford, of 615 Cambie Street, but that lady was in ignorance of her husband's affairs at the time and when he came up the hotel a little while after he was gone. The next heard from him was from Blaine, and since that time his movements have been mysterious. The fact of the matter is no one knows where he is.

He was engaged to marry a Mrs. Moore, widow of a C. P. R. official. He was absent last fall he collected board bills from Mrs. Moore's friends and never returned a cent of it. Mrs. Moore took the affair very much to heart and is in total ignorance of her whereabouts. The last she saw of him was on Sunday morning when he was going to Westminster and he came back next day. She suspected nothing wrong until Tuesday when a man came to take away his furniture. Ford was quite a handsome man and somewhat of a favorite. He formerly clerked in the Hudson Bay Company's store and was always well liked because of his pleasing manners and address. Another distinctive characteristic was the scrupulous care with which he always dressed, so that wherever he was quite a ladies' man. At Christmas he has been living a little drinking heavily and neglectful of his business. Friends who noticed that he was going down-hill spoke to him about it, but he declared he was all right. It is stated that the business is not promised in any way by Ford's departure and that Mr. Weeks, who is a hard working, estimable citizen, will carry on the affairs as usual. Further details are anxiously awaited by the parties interested.

From Manitoba.

In the last few days a number of settlers have arrived in the Province from Manitoba and the Northwest, intending settlers, and are prospecting with a view to settling permanently in this Province, all claiming that they have left the Province of the Dominion because of the inclement climate and the uncertainty of the crops. A number of men have also reached here from the Sound in search of work.

The Fourth Anniversary.

Sunday afternoon special services were held in the auditorium of the Y. M. C. A. in honor of the fourth anniversary of the founding of the Y. M. C. A. in this city. Messrs. J. A. Dunnett, the secretary for the Pacific Coast, and G. A. Charnock, general secretary of the Vancouver branch, will be present and delivered interesting addresses. There will be addresses by well known gentlemen in this city, and an interesting programme of exercises gone through. A cordial invitation is extended to the public.

Vital Statistics.

To the MORNING LEDGER: Sir,—It is probably that correct statistics of the death rate in this Province cannot be obtained by the registrar under the present arrangements. Section 13 of the Registration Act provides that notice of death must be given to the registrar of the district before the interment of the body, said notice to be on a printed form, which is reasonably to be obtained at the undertaker's office. It is practically impossible for residents in the outlying districts to comply with this rule. In the summer, burial must take place at least within two days from the time of death, and for most of the winter months the roads are all but impassable. People come into the world and go out of it without benefit of doctors or clergy. The Registration Act with no one to enforce it becomes a dead letter. Members of settlement have a local registrar, who, say the postmaster or a storekeeper, could periodically send in the list of the births and deaths to the district registrar and the statistical department would be more likely to obtain reliable information. Yours obediently,

A SETTLER.

Grove, March 13, 1891.

On the Decline.

From what the Nanaimo Free Press says about that city's football men, it would appear that Nanaimo is the only city in the western portion of the Province that is standing football matters and yet we have plenty of material on the coast for a fine Union team. Why is it? This question is as accurate as the Free Press states it is. Westminster seems not to be standing still, but sitting still in regard to this matter, and why no one seems able to tell. That the game is slowly dying in this Province is apparent to everyone who feels any interest in the sport at all. And what is the more singular, as, up to a comparatively recent date, the game was conducted with the greatest spirit in every city and town in British Columbia. It used to have a stronger hold upon the sections of the athletic portion of the community than any other form of sport. The game cannot, of course, always expire, as there is continually springing up fresh material to keep alive the other sports, but that the most of the great players have utterly lost sight of the game is painfully evident. Those who are fond of football had to turn out on Saturday afternoon to see the game between Vancouver and Westminster, as exhibitions of this sport are going to be scarce enough in the Province. These reasons are certainly fully justified by the appearances, and are made more sorrow than censoriously.

CHILLIWACK NEWS.

Real Estate Rising Rapidly—A Newspaper to be Started.

Quite a ripple of excitement exists here in real estate matters; a natural born boom has struck Centreville. At last every lot of Kipp's first survey has been sold—the last lot sold twice; Mr. Silverman of Vancouver bought the lot for $100, yesterday, from Doc. Ternan, agent, and got his receipt; Pete McCrae bought the same lot from Mr. Kipp, himself, getting his receipt. The question arises, who owns the lot? Both men are gritty and are determined to have the lot, as property is rising fast. At this writing, a duel or lawsuit is imminent.

Walker & Beggs, as if by magic, opened a branch tailor's store, yesterday, with a heavy stock of goods.

A newspaper will be started here about the first of April.

Everything points to a rushing season in the Chilliwack district.

Police Court.

(Before T. C. Atkinson, P. M.)

Ah Sing, charged with an infringement of the Sanitary By-law, on the information of Chief Pearce. This was a very plain case, as Chief Pearce had caught the prisoner, although repeatedly warned, in the act of throwing a lot of garbage over the embankment into the river, and immediately walked *him off to the lockup. His Honor, after* cautioning the prisoner, imposed a fine $5 and costs.

Charles Sullivan, charged with being drunk and incapable, was fined $2.50 and costs.

The New Canning Combine.

The Victoria Canning Company of British Columbia has been incorporated. It has a capital stock of $500,000 in $100 *shares, with power to increase it to $1,*000,000. The trustees are R. P. Rithet, James A. Laidlaw, Thomas E. Ladner, Henry E. Harlock, Francis Page, John Irving and Morrite Strous. Their object is to acquire the following fishing stations and canneries: Laidlaw & Co., Fraser River Dominion brand; Delta Canning Co., Fraser River Maple Leaf brand; Harlock Packing Company, Fraser River H. P. brand; Wellington Packing Company, Fraser River Wellington brand; Standard Packing Company, Skeena River Standard brand; Cascade Packing Company, Naas River Cascade brand; North Pacific Company, Skeena River; and their land, wharves, buildings, plant, nets, boats and machinery.

Physical Education Apparatus.

The gymnastic apparatus for the Y. M. C. A., which has lain in the Customs warehouse at the C. P. R. depot nearly three weeks, was removed yesterday afternoon to its final destination, the Y. M. C. A. gymnasium. The work of fitting up the machines will commence at once and they will probably all be in condition for active usage before Monday. The present intention of the association to get the gymnasium into good running order at once, and to this *end the services of a local gymnastic in*structor will very likely be secured in order that the various classes may be started. There are to be classes for business men, juniors and ordinary members. The business mens' class will be held at an hour in the afternoon most convenient to the majority of them. The usual classes will occupy the evenings. It may be expected that the entire institution will be in perfect working *shape before the end of the current* month. The swimming tank and baths are now in good order, and are well patronized.

LIVERPOOL LAND AND IMPROVEMENT CO.

The Property of this Company

Will be placed on the market on the *1st MARCH* next, and consists of upwards of *400 Acres* of the most desirable land at the *New Town of Liverpool*, including the whole of the deep water frontage which extends one and a half miles on the Fraser River, from the N.W.S. Railway wharf east and is the only really desirable location for Manufacturing and Shipping Industries near New Westminster.

Liverpool is the terminus of the New Westminster Southern Railway Company, who have bought 30 acres of the Company's land. Extensive buildings have been located at this point by the Railway Company. The Yale Road has been surveyed to this point and an excellent grade secured through sections 10 and 3, and profiles prepared for the work. This road will be opened up and graded as soon as permission can be secured. Streets running through the Company's property will also be cleared and graded, which work will be well under way before any of the property is offered for sale.

Sections 2, 3, 4 and 9 have been laid out and staked on the ground. The lots are all 66 feet wide and front on streets one chain wide. Every inducement will be offered to manufacturers and investors. Whoever has money to invest will do well to consider Liverpool before investing elsewhere.

REASONS FOR INVESTING IN LIVERPOOL

LIVERPOOL is considered by parties who are authorities on the subject to be *The Best Speculative Property* in sight today.

Liverpool is the terminus in B. C. of the American system of railways. In two years, if present arrangements are matured, three railways will terminate at Liverpool. In a few weeks all traffic for Sound points over the C. P. R. will go by way of Liverpool.

All material for the railway from Sedro to Seattle will be transferred in bulk by the Railway Company's Ferry at Liverpool. Passengers and Freight from Seattle and Fraserville for the East, per Great Northern, will be booked via Liverpool, and New Westminster over the C. P. R. Seattle, in a few days, will be reached by an all-rail route in seven hours from New Westminster, via Liverpool, without the inconvenience of a sea voyage.

Freight for the Sound points, over the C. P. R., can be shipped by Liverpool without breaking bulk. Lumber and all manufactures can be shipped from mills at Liverpool to all points in the Northwest at the same rates as from New Westminster.

Capitalists have a better and surer chance of making money at Liverpool than at any other point.

A Sawmill and Shingle-mill will be erected at Liverpool immediately. The Company's property at Liverpool is excellent value; their lots are large and terms easy. All particulars of

THE PERFECT WOMAN.

A Man's Idea of Her—For Sweet Girls to Paste in Their Scrapbooks

First of all, because he is a man, he insists that the perfect woman shall always be well dressed, in as much taste as the silly fashion of the day will allow, and in such a way as "to set off her beauty when she is young, to make her seem still beautiful when she is past her youth, and to hide the ravages of time when she is old."

Next she must know something about art of all kinds—art in painting, sculpture, poetry, literature, music, and must have trained her eye so that she knows good work, and is not carried away with shams and humbugs.

Above all, she must be sympathetic, and not talk so as to show how clever she is, but to bring out the best points of the man she is talking to.

She must be intelligent and gracious, as well as sympathetic, and always a woman's woman, of whom other women think and speak well.

She must love everything that is beautiful and good, and hate everything that is coarse and ugly.

And the man who set forth this comprehensive little gospel of womanhood, which every girl would do well to read, mark, and inwardly digest, is none other than Walter Besant.

Ruskin gives dressing, also, as one of the three cardinal virtues which every womanly woman must possess, and says that women should always "dress beautifully, not finely, unless occasion, and then very finely and beautifully, too." It would appear that, in consideration of refined men, true woman are queens of the realm by right divine, and lose something of their high prerogative when their robes of state are shabby and crumpled.

Two Charming Hats.

An Odd Proposition.

One of the oddest contributions to the really large body of literature called forth by the "servant girl question" is the proposal of Mrs. Francis Darwin in an English magazine that the servant girl when applying for a situation should have the same right to ask for references from the mistress that the mistress has to ask them from the servant. For the purpose of meeting this legitimate demand she suggests that each mistress should name two referees among her former servants who have lived with her within a year. This assumes a judicial mindedness and power of expression on the part of servant girls which they hardly ever possess, and it assumes also that the servant girls do not already act as references about mistresses for each other. The truth is that nearly every employer's character, as an employer, is pretty well known to all the servant girls in the neighborhood. They describe the ways of the people they live with to one another at their Sunday evening conventicles with a minuteness and prolixity which leave nothing to be desired in the way of information about temper, habits, kind and amount of work. It would be a waste of labor for any housekeeper to appoint standing referees, because their judgment would either be superfluous or ineffective, and would besides be highly colored by the reasons of the referee for leaving or staying in the house.

The girl who has often lost in admiration easily finds herself in love.—Elmira Gazette.

The partisan in politics is the man who does not think as you do.—New Orleans Picayune.

"Did she give you anything, Bill?" asked Bill's fellow tramp. "Yes. She gave me the cold shoulder with plenty of sauce."—Harper's Bazar.

He (meaningly)—"It is because your memory is so short you have forgotten me?" She (sweetly)—"No, it is because I am told you are so very short."—Epoch.

Bjonson—"Have you bought a ticket to the church fair?" Bjone—"Not yet; but speaking of church fairs, what an artful highway robbery that was in Arizona yesterday."—Lawrence American.

Mrs. Faddle—"Thomas, if you were to meet a Knight of the Bath in English society, how would you address him?" Mr. Faddle—"It would depend on whether he was soap or towels that I wanted."—Somerville Journal.

"Why are you crying, Frank?" "Because John got a slice of bread and butter." "John, why are you crying?" "Because Frank didn't get any bread and butter." "John, give your bread and butter to Frank!"—Humoristische Blatter.

The Modern Girl Must Know a Little of Everything.

The conditions of modern life in this great and growing country are such that the average American girl of more favored circumstances may step from the school room, generally before she is 20 years old, into a station where the demands of domestic, social, charitable and practical affairs leave her little time for further systematic study, and yet tax every resource of her store of knowledge and acquirement. If, then, she is confronted with subjects of which she is ignorant, but with which she should have acquired at least a speaking acquaintance while at school, she may justly reproach her teachers that they have adopted the mistaken policy of educating a girl who was to leave school at 20, on the plan requiring a continuance at school till at least 25. Though many have doubted the possibility to provide for this active and proper demand, without compromise, which is unfair to thoroughness, and which will not result in superficiality, I am justified in having adopted, and for many years defended, such a plan, by the highest authority among the educators of modern times.—October Scribner.

A meeting of the parishioners of South Nanaimo Parish was held Tuesday night in the old Court House, about 30 attending. The meeting was called to introduce the Rev. Mr. Torey to his new parishioners and may be said to have been a fairly representative one. The reverend gentleman expressed himself as delighted with the prospects for the new church, and will shortly [illegible] his family and take up his residence.

The Victoria Colonist roasts severely those people who disturb audience and actors at theatrical performances. They seem to have the same trouble over there as Westminster suffers, with the genus hoodlum and his twin idiot, the man who beats time to the music with walking stick, feet or umbrella; coughs clears his throat, whispers and does everything but sit still and behave himself like a rational Christian, instead of like a bull calf just out of the cow house. *The Colonist advocates the same remedy* as has been recommended here, viz., summary ejection of the offenders by the police.

The steamer Telephone will start her regular trips to the South Arm tomorrow, Saturday. She will leave the city at an early hour, probably 7 a. m., and will make the round trip in the forenoon. Leaving town again, on her regular time, 3 p. m., she will go down to Ladner's where she will stop over for the night as usual.

Knights in Council.

There was a special meeting of the Knights of Pythias last night at their rooms in the Cunningham block. The purpose of the meeting was to confer degrees. The Vancouver sir knights very kindly loaned their paraphernalia to their Westminster comrades for the occasion, the paraphernalia of the latter being now on the way from the east.

Convenient Forging.

Messrs. Riddle & Johnstone were yesterday engaged in working a very heavy forging, in which their fine steam hammer came into play with marked effect. The piece of iron took six men to handle, but the stroke from the ponderous hammer seemed to knock it into shape as if it had been putty. Quite a large crowd watched the operation with breathless interest. The forging was some part designed for a marine engine of large size.

Tomorrow's Football Match.

The following gentlemen will represent Westminster in the football match with Vancouver tomorrow: Woods, back; Lewis, Morrison and Peele three-quarter backs; Allen, Dalgliish, half backs; Allison, Douglas, Gibson, Bell, Turner, Jackson, Woods, Roberts and Lister, forwards. It is probable that after the match the Mainland team for the coming contest with the Island, will be chosen. Interest in football throughout the Province generally seems to have become very slack of late and it is to be hoped that both players and spectators will make a good turnout tomorrow.

A Painful Accident.

Yesterday at Port Moody, while some men were engaged in pulling down a house belonging to Mr. W. E. Fales of this city, a Swede named John Randberg, who was working on the roof, slipped and fell to the ground, a considerable distance, breaking one of his legs. A message was immediately sent Dr. Cooper, but before that gentleman had set out on his journey he received another message stating that the injured man was being sent to the Royal Columbian Hospital at Sapperton. At latest accounts the unfortunate victim of the painful accident was doing as well as could be expected.

A Pretty Scheme.

The Vancouver World says that a woman and a man whom she calls her husband have been industriously blackmailing Vancouver's citizens in a rather peculiar manner. The woman goes out after dark, pretends to be frightened, gets some passing gentleman's escort, [illegible] later the irate husband. Furious indignation on his part, pleadings on the wife's; bad scare on protector's. Result, hush money to husband ranging from $10 to $40. The watchful Vancouver police have dropped on to the pretty little game, and the press has knocked the bottom out of its chances.

$117,308.09

Paid Over by the Great Northern for the Southern Railway Charter.

The railroad meeting yesterday resulted satisfactorily to both parties to the conference. The representatives of the Great Northern Railway paid over to the directors of the New Westminster Southern Railway the sum of $117,308.09, and received in exchange therefor the charter and properties, all and sundry, of the line between Liverpool and Blaine. The sum mentioned was simply the amount, with interest, which had been expended since the New Westminster Company began operations some years ago, together with some liabilities contracted in the way of salaries yet unpaid. The actual amount expended was $106,000, to which sum 8 per cent. per annum for interest was added. Mr. Larrabie, for the Great Northern, was something of a stickler in the item of interest, contending that it should be only 6 per cent; but 8 had been paid for its loans by the local company and that figure prevailed.

Besides the repayment of the sum above mentioned, each of the directors was allowed $1,000 in paid up stock. Mr. Thompson made a proposition to buy up this stock at par value, and each of the directors present sold out, feeling no doubt, that the stock would be no advantage to them as an investment, and its sale would enable the road to go over to the new owners as clear as a whistle. But $1,000 each is no sort of compensation for incidental losses to the enterprising gentlemen who took up the Southern Railway scheme at the start, and carried it through with such great pluck against many obstacles and discouragements, to a successful conclusion.

Although the charter of the New Westminster Southern Railway has now been transferred to the Great Northern, the provisions of the charter will, of course, remain intact, and the terms of the important agreement between the local company and the Board of Trade (with which most citizens are familar) will continue of full "force and virtue," so that the interests of the city as to freight and passenger traffic are sufficiently protected.

The members of the Southern directorate present at the meeting yesterday were: Messrs. R. Douglas, president; A. Ewen, John Hendry, T. J. Trapp, C. M. Beecher, E. S. Scouler, D. Drysdale, W. McColl, H. Hoy and H. V. Edmonds. The absentees were Messrs. H. Elliott, G. E. Corbould, M. P., — McNair and another.

The Delaware.

The steamer Delaware came down from Chilliwack and river ports yesterday afternoon with 35 passengers, 10 tons of freight, 15 large sturgeon, besides a considerable number of smaller ones; the fish being for Messrs. Wright Bros. of this city. The Delaware goes up again this morning at 7 o'clock with a large load of lumber from the Royal City Planing Mills, a heavy general cargo and a [illegible]

will be found the advertisement of the Vancouver Stone Company. This company is operating a sandstone quarry on English Bay, and claim to have the best and cheapest article now on the market. A sample shown to THE LEDGER was certainly very fine looking. It is a light grey in color, and should present a handsome appearance when placed in a wall. It is a stone, too, very easily cut,—a quality which is of prime importance to the builder. After today samples may be seen at Woods & Gamble's, or at this office.

Offer the following as good, safe investments, some of them sure to yield a big profit in a very short time:

Northeast Quarter of District Lot 339—40 acres, situated on Westminster Road, about half way between Vancouver and New Westminster, adjoining Public Park and only 20 chains of the route just selected for the Westminster and Vancouver Electric Tramway Co. This property is beautifully situated, and commands a fine view of Vancouver. Very little timber on it—$50 per acre would clear it $5 for a garden. Price $30 per acre. Terms can be had if necessary. Adjoining land sold at $200 per acre.

10 Acres in District Lot 327, on North Arm of Fraser River, 4 miles south of Vancouver, and about 6 miles from New Westminster. There is a good graded road from Vancouver, and a road to be opened to New Westminster soon. There is a school house within a quarter of a mile. Land slopes gently from road to river, on which it has 10 chains frontage, is surrounded by market gardens. Steamers pass daily to New Westminster. Price $150—which is $50 per acre less than adjoining land.

North Half of District Lot 657—20 acres, for $1,000. Terms one-third cash, balance in 1 and 2 years. Suitable for fruit ranch. Fine view of Fraser and straits of Georgia. Graded road past land.

9 Lots (including Fortune) on New Westminster Avenue, Vancouver, for $1,200, ¼ cash, balance in 6, 12 and 18 mos. Size of lots, 50x165, to lane. Vancouver Electric Railway runs to within a few blocks. This is a good buy.

Block 199, subdivision 279—C. P. R. Co.'s "Fairview" addition to Vancouver. Price, $1,800. Contains 18 lots, 50x132. In closed and commands magnificent view of English Bay, the city and Burrard Inlet.

9 Lots within the city limits of Vancouver in subdivision "A," on line of Westminster-Vancouver Electric Tramway. Price, $1,200, ¼ cash, balance in 6 and 12 mos. Surrounding land is subdivided into town lots. This move can be established into Class, which should readily sell at $125 per lot, showing a profit of nearly $300 on the deal.

We have the largest list of city property in Vancouver, and a large list of acreage. Farms in every part of the Province. Homesteads located.

Our carriage is at the disposal of investors to view property in and around Vancouver.

It will pay investors to call upon us before buying.

Correspondence invited.
