USED AS A LEVER

France Pressing Her Newfoundland Claims to Force

CONCESSIONS FROM ENGLAND

In Egypt and not Because She Cares Much for the Colony.

BREWERS AGAIN BADLY HIT

More Victims of the Utopia Disaster Interred at Gibraltar.

LONDON, March 20.—The coercion of Newfoundland suggested by the terms of the recently signed convention, between England and France, has not only aroused the indignation of the people of that colony, but also provoked a vehement popular protest in England. A cabinet council is to be held tomorrow to discuss the situation, and Lord Knutsford, colonial secretary, who was about starting for a brief excursion for the benefit of his health, has postponed his trip at the request of Lord Salisbury in order to be present at the meeting. It is now plain that the government has placed itself between the devil and the deep sea. France cares nothing whatever, whether a modus vivendi in the Newfoundland matter is established or not. The settlement of the fisheries dispute is not her real object. With the utmost confidence in its ultimate success the French government has made insistence upon its treaty rights the lever with which to open the way to British concessions to France in Egypt, and upon no other conditions will the Paris government recede from its position. In securing the advantage sought, France has by the terms of the convention placed Newfoundland in the position of an ally and it is doubtful whether the British Government will be able to withstand the pressure.

A CRUSHER THIS TIME.

The brewers received another stunning blow today. This time in the House of Lords, which affirmed on appeal the principle that the magistracy are entitled to cancel liquor licenses if, in their opinion, such action is necessary in the interest of the commonwealth.

HEAVY ODDS.

On the Oxford and Cambridge boat race, which comes off tomorrow, the betting is 11 to 4 in favor of Oxford. Both crews were out on the Thames for practice yesterday. There are many who do not believe the long odds quoted for Oxford to be justified by the performance of the opposing crew.

BATTERED BY THE SEA.

The steamer Suevia of the Hamburg-American line, which put into Plymouth in a disabled condition on March 14, has been temporarily repaired and sailed for Hamburg to which place she was bound from New York at the time of the accident.

FOREVER BURIED.

The Jackson abduction case is the subject of comment in all the papers. The decision of the court of appeal, giving the wife her liberty, is generally applauded. The ancient law that made the wife the slave of the husband has been extinguished, and it is cause for general congratulation that the anachronism is forever buried.

A CONSERVATIVE CONSTITUENCY.

In the election at Astor today, Mr. Hutchinson, Conservative, received 5,310 votes and Beale, Liberal, 2,231. In 1886, Kynoch, Conservative, had 3,495 and Reid, Liberal, 2,713.

WHO IS HE?

M. Martins of Russia has accepted the office of arbitrator between England and France as to Newfoundland.

In the House of Commons today Sir John Ferguson admitted that the government had not sent to Newfoundland a copy of the proposed bill to enable the government to compel the submission of the colony to the French fishery treaty, but that the government had in November last requested the colony itself to enact the necessary legislation and this bill was the result of the colony's refusal or failure to do so.

FORCE CALLS FOR FORCE.

The Times, in an editorial on the New Orleans tragedy, says: It is all very well to reprobate resort to violence, but in such circumstances as these what is there for emancipating the community from the intolerable tyranny existing, except resort to violence. The law requires trial by jury, and trial by jury had been reduced to a farce by the knowledge possessed by every juryman that if he should convict a member of the Mafia his life would not be worth a week's purchase. It is really a misuse of language to speak of resort to violence. The standing rule in New Orleans is the rule of violence, and all Parkerson and his followers have done is to accept the position prescribed by the Mafia. The result ultimately depends upon force, and when courts are dominated by the criminals whom they exist to punish, nothing remains but to go back to first principles to effect their deliverance. Among the men who were lynched there may have been some who did not actually fire at Hennessey, but it is not pretended there were any who were not members of the detestable society that decreed his death. That being the case it is impossible to feel any acute distress, because in the midst of violence they had rendered indispensable, they have been somewhat more severely punished than if they had been leniently dealt with.

More Victims Buried.

GIBRALTAR, March 20.—Twenty-eight adults and three children, victims of the Utopia disaster, were interred in a trench dug for the purpose, the ground having been specially consecrated by the Catholic clergy as a burial place. The funeral was attended by Prince Bernadotte, son of the King of Sweden and captain of the Swedish frigate Freya, now in port, and by the clergy. The public officials and officers of the British squadron and Swedish vessels were followed by an immense throng of civilians. Today the divers recovered ten bodies, some of them so firmly clasped together in the last embrace for life that it was impossible to separate them.

THE OFFICERS TO BLAME.

At the inquest on the victims of the Utopia disaster the watch officer of the British ironclad Anson deposed that in his opinion the accident was the result of negligence on the part of the officers of the Utopia. The captain of H. M. S. Camperdown, which was at anchor at the time of the disaster, thought that proper precautions had not been taken on the Utopia.

A Great Libel Suit.

PARIS, March 19.—The trial of the suit of John W. MacKay, against Leopold Graham, manager of Galignani's Messenger, for libel in connection with the Bonynge-MacKay controversy has been postponed until April 10th.

Chinese in Australia.

SYDNEY, March 20.—The decision of the privy council, allowing the British colonies to restrict the admission of the Chinese, gives great satisfaction in Australia, where the question has been a burning one for a long time. The provisions, by which the customs officer is permitted to reject any immigrant, although tendering the poll tax, can be made to cover all objectionable cases, and enables the authorities to keep out any undesirable cases. This will be immediately applied to check the flood of Chinese immigration. It is probable, that the Chinese government will protest and appeal to the treaty between Great Britain and China for the protection of its subjects abroad, but it is not likely to get any more satisfaction than it has from the United States.

CANADIAN NEWS.

FROM THE CAPITAL.

OTTAWA, Ont., March 20.—Sir Charles Tupper, in an interview tonight, stated that it was easy to prove the falsity of Sir Henry Tyler's statement as to his alleged attempt to bribe the Grand Trunk R. R. He states that Mr. Hector Cameron was present during the whole interview between him and Mr. Seargeant, and that Mr. Cameron made a memorandum of all that occurred for the information of the Premier. This memorandum was admitted to and approved by Mr. Seargeant before being sent. Mr. Sargeant complained that the Government had refused a subsidy of $2,000,000 for the Edmunston-Salisbury line. Sir Charles Tupper replied that no promise could be given, except that the matter would be considered by the Government after the election. The subsequent action of the Grand Trunk is sufficient proof that no promise was made, as it would have been readily accepted.

Sir Charles Tupper, Sir John Thompson and Hon. Mr. Foster, go to Washington in a few days to confer with Secretary Blaine on the question of closer trade relations.

The Fisheries department is building a 250 ton composite steel vessel for the protection of the fisheries of the Great Lakes.

Mayor Birkett's appeal from the recent decision of the courts unseating him was quashed today. Ottawa is now mayorless.

Mr. Eckstein's Letter

Mr. L. P. Eckstein has shown us a letter of which the following is a copy, and which will indicate the position he has assumed with regard to the Supreme Court Bill now before the Legislature:

"WESTMINSTER, March 19, 1891.

"Hon. Theodore Davie, Victoria, B. C.

"Dear Sir: I wired you this day that Mr. Jenns and Mr. Gaynor would leave today for Victoria, and I stated there was no unlimited opposition to your bill. It had not been the intention of Mr. Jenns and Mr. Gaynor to go to Victoria, although they were asked by the bar to attend, as well as Mr. Forin. The article in the Columbian would make it appear that one delegate only was appointed. We did not know how far the expressions of the Columbian might be accepted by you as those of our bar, and to do you justice the other delegates concluded to attend at Victoria. We much regret the language of the Columbian which is calculated not only to vilify you, but to misrepresent us. The bar fully recognize the need of your bill in certain districts, and we could only conclude you had not taken into consideration Westminster District as a place where there is a resident Supreme Court Judge. The bar believed until such time that we should learn differently, that you would be glad to hear them and would as in the case of last year consider their suggestions. Any suggestion of improper motive on your part in bringing forward the bill was never hinted, and we did not court the language of the Columbian. However, Mr. Jenns and Mr. Gaynor will explain to you what has been done by us. Yours respectfully, "L. P. ECKSTEIN."

Mr. Eckstein's telegram to the attorney general was as follows:

WESTMINSTER, March 19, 1891.

"To Hon. Theodore Davis, Victoria, B. C.:

"In consequence of misleading article in Columbian other delegates, Jenns and Gaynor, go Victoria today. No unlimited opposition to bill, and on meeting Jenns and Gaynor, think matter can be arranged. "L. P. ECKSTEIN."

The difference between the lawyers on this Supreme Court Bill would appear not to be opposition to the principle of centralization, but the mainlanders believe that the court should be "centralized" on the mainland and not on the Island.

Revival of Rowing.

The Royal City Rowing Club intend to make a strong effort this spring to reorganize and very largely augment the association, and put it in first-class business shape for the summer and fall. Every gentleman who rows is to be cordially invited to enrol his name on the club's roster. If the organization becomes strong enough to bear the expense a fine boat house with club rooms attached will be built at some convenient spot on the water front, and the club run on a purely independent basis. The Vancouver clubs have already commenced rowing, and the more enthusiastic aquatic athletes in this city think it is time Westminster was at least getting ready for the season's work. Westminster will be well represented on the water at this year's regattas, as several old hands at the sport have signified their intention of going into active training as soon as the weather tones down a little.

NEW YORK ITALIANS

Meet and Passionately Denounce the New Orleans Slaughter.

THREATENING LETTERS SENT

By the Mafia to Those Who Are Talking Too Freely.

LAWRENCE BARRETT IS DEAD

The Great Anaconda Copper Mines in Montana Shut Down.

NEW YORK, March 20.—Five thousand Italians crowded the big hall of Cooper Union tonight to denounce the lynching of their brethern in New Orleans. The speeches were nearly all in the Italian tongue, and were almost terrifying in the theme. The sentiment that Italians demanded satifaction for the killing of their countrymen seemed to express the opinion of the meeting and was loudly applauded. The meeting was orderly in every respect and the large force of police present had little to do. Resolutions were adopted calling for the punishment of all who participated in the lynching.

THREATENING LETTERS.

ST. LOUIS, Mo., March 20.—Despatches from Texas say the New Orleans Mafia are sending threatening letters to persons who have expressed disapproval of their methods. As a result of his free expression of conviction that the New Orleans killing of the Mafia members was right, John Lang, a wealthy and prominent citizen of Houston is in receipt of a letter purporting to have been sent by a friend of the Mafia warning him to keep quiet or he will be done for.

Canada's Commissioners.

BOSTON, March 20.—A special from Montreal to the Globe says that Sir Charles Tupper, Sir John Thompson and Hon. George Foster have been chosen as Canada's commissioners to the United States to negotiate reciprocity treaties with that country.

Would Not Stand It.

BUTTE, Mont., March 20.—At noon today all the mines belonging to the Anaconda Company, the greatest copper producer in the world, shut down. This was caused by a disagreement with the Montana railway which hauls ore from Butte to the smelters in Anaconda. The railway wanted to advance rates about one-third, and the company refused to stand it. The smelters will follow the example of the mines as soon as the ore on hand is treated. The shut-down will throw 3,000 men out of work.

Lawrence Barrett Dead.

NEW YORK, March 20.—Lawrence Barrett, the actor, died at 10:45 tonight at the Windsor Hotel.

The death was due to heart failure and was quite sudden. His wife and physician were with him when he died. Mr. Barrett's illness dates from Wednesday night, when he was compelled to leave the theatre where he was engaged. It was said all the time that he was merely suffering from a severe cold and that he would be out in a few days. Even today the reports of his condition were very favorable. Late this evening, however, his physician, Dr. Chambers, was summoned. Heart failure, superinduced by pneumonia, was the direct cause of the great tragedian's death. Dr. Chambers says pneumonia set in Thursday morning. Mrs. Barrett, who was in Boston, was sent for and arrived Thursday evening. Dr. J. P. Oliver of Boston, Mr. Barrett's family physician was also summoned and came at once. A consultation was held and it was decided that Mr. Barrett's case was serious, but that if no other complications appeared the sick man might pull through. Between 5 and 10 o'clock this evening there was a rapid change for the worse and at the latter hour Mr. Barrett was in a semi-conscious condition. About fifteen minutes before the end came Mr. Barrett was entirely unconscious and remained so till he died. The funeral will probably take place in Boston. Edwin Booth was deeply moved when he received news of Mr. Barrett's death.

LET OUT AGAIN.

Louis Dimond, a teacher of languages who has bothered Mrs. C. B. Alexander, daughter of millionaire Crocker of California, with love letters for some time, and who was committed to an asiyum some five weeks ago on this account, was today declared sane by a jury of the superior court and discharged.

THE WALKING MATCH.

At 1 p. m. the score in the walking match was: Hughes, 487; Bennett, 474; Hegleman, 453; Norenan; 436, Herty, 440; Peach, 235.

THE SHIPS INVOLVED.

The Utopia, wrecked in Gibraltar Bay, belonged to the Anchor Line Company, and was an iron-screw steamer of 2,731 displacement and 1,678 horse power. She was built in Glasgow in 1884 and was commanded by Captain Mitchell. The Rodney, which sank her, is one of the recent additions to the British navy, and is considered one of the most powerful ironclads afloat. She is 9,700 tons displacement, twin screws, 7,500 horse power and mounts 10 heavy guns, 4 of which are 63-ton guns. Her armor is steel-faced and has a thickness of from 10 to 18 inches. She belongs to the same class as the Benbow, Anson and Howe. The Anson, which was in collision with the Utopia, is a sister ship to the Rodney, the only difference being that the Anson is 10,000 tons displacement instead of 9,600 tons.

ANOTHER FASTING FREAK.

Arthur W. G. Wullman is to begin a 50-day fast in the first week in May, to decide a wager of $1,000 a side between J. R. Cossack and Edward Morton, well known sporting men of this city.

PROVINCIAL LEGISLATURE

And Several Interesting and Important Victoria Happenings.

(From Our Own Correspondent.)

VICTORIA, March 20.—In the House this afternoon Col. Baker's resolution in the direction of the appointment of a county court judge for Kootenay, passed without opposition.

Brown moved for reference of all correspondency re reserve in suburban block 12, Westminster City, to a select committee consisting of Hunter, Croft, McKenzie, Cotton and himself. After considerable discussion the motion was adopted.

Brown's bill to amend sailor's fund act is introduced.

The House spent the remainder of the day in committee of the whole on the assessment bill, and held no evening session.

The union sailors have brought the employers to their terms and won their strike, which has been in progress here for the past week.

H. M. S. Nymphe arrived from Honolulu this morning.

Seals are reported to be so thick on Barclay Sound that many are killed along the shore by Indians with clubs.

Pacific coast steamers will hereafter discontinue calls at Vancouver.

Falling Rapidly.

ELMIRA, N. Y., March 19.—At 8 o'clock this evening ex-Governor Lucas Robinson was failing rapidly and the physicians thought he could not live until morning.

Texas Amenities.

DALLAS, Texas, March 20.—Ike Allen cut Jim Weatherford's throat last night, during a quarrel at a dance at Mosquito, this county. Bud Weatherford, a brother of the murdered man, then opened fire on Allen and shot him dead. Bud is in jail.

Into the Ditch.

FORT SMITH, Ark., March 20.—The southbound passenger train on the Little Rock & Fort Smith road, which left here at 6:15 this morning, was wrecked two miles this side of Ozark. The entire train except the engine went into the ditch. A large number of passengers were injured.

The Cariboo Elections.

VANCOUVER, March 20.—Further returns received from the Cariboo district today are: Stanley—Barnard, 1; Watts, 20. Alexandria—Barnard, 10; Watts, 12.

The results so far as heard from give Watts (Liberal) a majority of 11. There are several polling places yet to hear from, which will probably increase Watts's majority. Lillooet will give him a good majority, that being the most important place yet to hear from.

Down the Hill.

DENVER, March 20.—A special from Georgetown says that at 3 o'clock this morning a wagon containing sixteen young men and women returning from a ball on Sutter's flume was thrown down the mountain side by unmanageable horses. The occupants fell with the horses and the wagon upon the rocks below, and all but one were injured either by the fall or by the kicking and plunging of the horses. The accident occurred opposite the famous Bridal Veil falls.

Business Booming.

It is understood that Messrs. Beaton & Pike, storekeepers at Brownsville, will shortly remove to South Westminster. This rising town already has one store and three saloons, the latter are only waiting for licenses to start business. There can be no doubt that a store is wanted, but at present it will be very easy to overdo the thing. And one of the other things that seems to be wanted as well as the stores is an obliging populace to purchase goods—and not to put too cynical a point on it—pay for them. But they are coming and the prospects of the little burg over the way are as bright as the morning star, which in the name of the newspaper to be published over there when the town grows big enough.

He Is Great.

That famous paper, the Brooklyn Eagle, has this strong endorsation of the sterling merits of the entertainment provided by Mr. Frank Beard, who is to appear here Tuesday night: "Mr. Frank Beard, the well known caricaturist, lectured and chalked before a numerous assembly in the Tompkins Avenue Congregational Church, Wednesday evening. The title of his semi-lecture and exhibition, 'Chalk Talk,' conveys but an indistinct idea of the mirth-provoking entertainment his apparently inexhaustible resources of memory and pencil enable him to place before the minds and visions of his audience. During it the time is pretty equally divided between chalk and talk, chalk being necessary to illustrate the talk, and talk essential to explain chalk, a sort of mutually dependent Choctaw (chalk talk), if the execrable pun may be pardoned." It will be impossible to be sure of a reserved seat if the securing of one is put off until Monday. There are still a few left at Curtis & Co.'s drug store, Columbia street.

Southern Railway Telegraphs.

Colonel Hakes, contractor for the Southern Railway telegraph line between this city and Sedro, has let the contract for the poles necessary on the line as far as Blaine. He expects to have the work completed in fifteen or twenty days, and if he should be awarded the contract for stringing the wires, will begin that work without delay from this end of the line. The Colonel will make his headquarters in this city, and will be among us for a couple months at least. He left for the Sound yesterday, but will return during next week.

It is reported that as soon as the Southern Railway Telegraph line is completed the Western Union will come in over the same poles, stringing two or three wires. This is an important move, as it will result in active competition for general business between the Canadian Pacific line and the newcomers. The C. P. R. telegraph service in this Province is most efficiently managed, but business people will not likely grumble at the prospect of having a competing line to fall back on.

WANTED, A CITY MARKET!

We have, on several occasions, urged the necessity of establishing a public market in this city for the sale of farm produce. In the absence of this provision an increasing number of prosperous agriculturists fail to find here a regular demand for what they raise, at prices fixed by the continuous demand of distributing purchasers. The spring season is, however, already "upon us"; early summer is near at hand; and farm business will soon again be active. We need, therefore, make no apology for once more returning to the subject.

The farmers have too often, when coming hither with their produce, to hunt the city through in order to find customers, instead of being able, as would be the case, were there a city market, to find a ready market. The want of this facility not only greatly inconvenences the farmer by causing him to waste valuable time in selling or trying to sell his goods but renders his profit fluctuating and uncertain, by making it difficult for him to ascertain the average or market price of his produce sold wholesale. Vancouver, though less conveniently situated than our own city for the farmers of the Fraser River, is preparing to meet this want of the agricultural community by establishing a market, and even now, as we are informed, many of the farmers of our districts aver that they can more readily sell their produce in the Terminal City than here, at fairly steady market prices.

The only objections to a farmers' market, that we can conceive likely to be raised are first, that it would by affording opportunity for the producer and the small consumer to meet, injure the trade of the larger distribution; and secondly, that the market would prove a loss to the municipality. Both objections are, we believe, of little weight. No doubt many consumers would go to the market to make a purchase from the farmers directly; but this would be a benefit to both buyer and seller, and consequently a benefit to the city. The farmer would, however, naturally prefer to sell his goods expeditiously and regularly in larger quantities, and on wholesale terms; and therefore he would naturally look for distributors on whom he could continuously rely by offering them better terms. Moreover, whatever trifling gain the wholesaler lost by the direct purchases of small consumers, would be far more than compensated by the fact of a regular market enabling him to make larger purchases than now, regularly throughout the year, and thus enlarge the value and profit of his article. The wholesale distributor would thus find a substantial balance of gain in his favor as the result of the successful establishment of a market. We have, too, sufficient faith in the natural convenience of our city as a centre for the distribution of farm produce, to feel assured, that a good city market would prove financially successful. We therefore urge the City Council to establish a public market as soon as possible, feeling assured that if this be not done promptly, our city will lose the position, which it has, by natural situation, every right to claim permanently, of being the great distributing centre of the agricultural district of the lower Fraser.

NOTES AND COMMENTS.

The Premier of Ontario has introduced a measure to enable duly appointed commissioners or staff officers of the Salvation Army to solemnize marriages, thus conferring upon them official states in this respect similar to that of clergymen and ministers of other denominations. This may be taken as evidence of the progress of the Army in the Dominion. Its members will shortly figure for the first time and yet rather numerously in the columns of the Dominion census returns.

Curious and even worse substitutes for ordinary intoxicants are now being used by persons addicted to the liquor habit. In the north of Ireland so much ether is drunk with a view to speedy intoxication and with the ultimate result, in not a few cases, of insanity, that legislation is being asked to restrict the sale of ether by chemists, by scheduling it as a poisonous drug. And now, it seems that secret drinkers in some districts of the United States are resorting to a new intoxicant, in the form of an apparently harmless liquid, sold at the grocers. This is tincture of ginger, which is said to be the strongest known form of alcohol, that is actually drinkable. Some respectable grocers and chemists in Philadelphia refuse to sell this to certain of their customers, whose constant demand indicates a grave misuse of the tincture.

New Westminster is evidently soon to have a law library for the use of local members of the legal profession, the necessary power of appropriating contributions to that purpose being given to the British Columbia Law Society by a recent act introduced by the Attorney-General. The barristers and solicitors of this city have for some time complained that funds to which they contribute taxes help to provide for them no institution of this kind, though its need has been increasingly felt, year by year.

* * *

There is trouble in official circles at Tacoma, where the Deputy Sheriff has, against the wish of Mayor KANDLE, been raiding some notorious gambling saloons in that city. The Sheriff is according hastening home at once from California, but whether to stop or encourage his deputy's proceedings in vigorous enforcement of the law, is not stated. Mayor KANDLE's election was, it is stated, largely decided by the vote of the "tough" element, and he therefore dares not encourage strong action against the local gamblers. A case this, of "holding a candle to the devil," say the Mayor's opponents.

* * *

Winnipeg business men are most anxious to bring about the early construction of the proposed Hudson Bay railway, as it would communicate with a direct new waterway to Europe and create "an ocean port in the heart of "Canada, bringing England, the dearest "market to sell in and the cheapest to "buy in, over 1,000 miles nearer to "Manitoba and Western Canada than "by any other route, and thereby saving the larger freight on that amount "of land carriage." It is true that the navigation would only be open and unimpeded by ice for about four months of the year, but this would be long enough for the export of the natural produce of the North West, and the doing of a large return trade with England. The election of Mr. HUGH J. MACDONALD, as M. P. for Winnipeg was due quite as much to declarations, that his opponent had in his official capacity greatly impeded the construction of the Hudson's Bay railway, as to considerations of general Dominion policy. An important local issue thus aided most materially the cause of SIR JOHN MACDONALD's son and supporter.

* * *

There are so many unemployed workmen at Seattle, Tacoma and other cities on the Sound, that large numbers are leaving and making for this Province. Many of these have lately settled in Victoria, where they hope to get work in connection with the city sewerage contract. Quite a number of settlers are now also preparing to leave England for British Columbia. Hence we may expect, this year, a larger influx of settlers, than in any recent twelvemonth.

* * *

A second trade paper for this Province has just appeared at Victoria, under the title of the "British Columbia Commercial Journal." One cause of its establishment is understood to be the dissatisfaction of prominent Victorians with the fortnightly trade newspaper, already established at Vancouver, the people of the capital city being much afraid, that their commercial interests will be insufficiently noted amidst the bustle of a busy rival port. There may however ere long be sufficient scope in our rapidly growing Province for two trade papers. The new issue makes a promising beginning with an interesting number.

* * *

The investigators attached to commercial information agencies are now, in Pennsylvania, required by law to register as detectives. This is expected to guarantee the business public from abuse of the system, which may unless carefully and scrupulously worked, tend to undermine the credit of trustworthy trades of small capital.

DISSOLUTION OF PARTNERSHIP.

NOTICE IS HEREBY GIVEN THAT the partnership heretofore existing between James Rousseau and H. R. Dewsbury, doing business under the firm name of Rousseau & Co., has this day been dissolved. The said James Rousseau will continue the business and will assume all the liabilities of the firm. All debts due the said firm must be paid to George H. Grant, at Rousseau's shoe store, Columbia Street, on or before the 30th instant. All accounts not paid on that date will be placed in the hands of a solicitor.

JAMES ROUSSEAU,
H. R. DEWSBURY.

TENDERS

TENDERS WILL BE RECEIVED BY the undersigned up to noon on Wednesday the 1st day of April, A. D. 1891, for the construction of certain bridges, fishplates, laying of sidewalks and Drainage Pipes, etc., in South Westminster.

Plans and specifications may be seen at the office of the undersigned on and after Monday the 23rd day of March A. D. 1891.

Every tender must be accompanied by a marked cheque for five per cent of the amount of tender, which will be forfeited if the contractor fails to enter into a contract with satisfactory sureties, for the doing of the work, but will be returned to the tenderer upon the execution of such contract.

The cheques accompanying tenders not accepted will be returned to the respective tenderers.

No tender necessarily accepted.

NOTICE OF ASSIGNMENT.

Pursuant to the Statute 53th Victoria, Chap. 7, and to the Creditors' Trust Deeds Act, 1890.

NOTICE IS HEREBY GIVEN THAT Willard Emerson Dickinson, heretofore carrying on business as a truck and drayman in the city of New Westminster, in the Province of British Columbia, has by deed dated the 6th day of March, 1891, assigned his real and personal property to James E. Salley, carriage builder of the said City of New Westminster, for the benefit of all his creditors. The said deed was executed by the said Willard Emerson Dickinson and James E. Salley on the day of the date thereof. All persons claiming to have claims against the estate of the said W. E. Dickinson are required to send them in to the said assignee, or his solicitors, once before the 6th day of April, 1891, with full particulars in writing signed by the party claiming, of their claims, and the security if any held by them.

And notice is hereby given that after the said date the said assignee will proceed to distribute the assets of the said estate among the parties entitled thereto, having regard only to the debts, claims and demands of which the said assignee shall then have notice, and the said assignee will not be liable for the assets so distributed to any person of whose debts, claims or demands he shall not then have notice.

A meeting of the creditors will be held at the office of the undersigned on Saturday the 21st day of March, 1891, at 2:30 o'clock in the afternoon.

Dated this 5th day of March, 1891.

LIVERPOOL LAND AND IMPROVEMENT CO.

The Property of this Company

Will be placed on the market on the *1st MARCH* next, and consists of upwards of *400 Acres* of the most desirable land at the *New Town of Liverpool*, including the whole of the deep water frontage which extends one and a half miles on the Fraser River, from the N.W.S. Railway wharf east, and is the only really desirable location for Manufacturing and Shipping Industries near New Westminster.

Liverpool is the terminus of the New Westminster Southern Railway Company, who have bought 20 acres of the Company's land. Extensive buildings have been located at this point by the Railway Company. The Yale Road has been surveyed to this point and an excellent grade secured through sections 10 and 3, and profiles prepared for the work. This road will be opened up and graded as soon as permission can be secured. Streets running through the Company's property will also be cleared and graded, which work will be well under way before any of the property is offered for sale.

Sections 2, 3, 4 and 10 have been laid out and staked on the ground. The lots are all 66 feet wide and front on streets one chain wide. Every inducement will be offered to manufacturers and investors. Whoever has money to invest will do well to consider Liverpool before investing elsewhere.

REMEMBER MARCH 1st
AND LIVERPOOL

REASONS FOR INVESTING IN LIVERPOOL

LIVERPOOL is considered by parties who are authorities on the subject to be *The Best Speculative Property* in sight today.

Liverpool is the terminus in B. C. of the American system of railways. In two years, if present arrangements are matured, three railways will terminate at Liverpool. In a few weeks all traffic for Sound points over the C. P. R. will go by way of Liverpool.

All material for the railway from Sedro to Seattle will be transferred in bulk by the Railway Company's Ferry at Liverpool. Passengers and Freight from Seattle and Tacoma for the East, per Great Northern, will be booked via Liverpool, and New Westminster over the C. P. R. Seattle, in a few days, will be reached by an all-rail route in seven hours from New Westminster, via Liverpool, without the inconvenience of a sea voyage.

Freight for the Sound points, over the C. P. R., can be shipped by Liverpool without breaking bulk. Lumber and all manufactures can be shipped from mills at Liverpool to all points in the Northwest at the same rates as from New Westminster.

Capitalists have a better and surer chance of making money at Liverpool than at any other point.

A Sawmill and Shingle-mill will be erected at Liverpool immediately. The Company's property at Liverpool is excellent value; their lots are large and terms easy. All particulars of

Fads, Foibles and Peculiar Notions of the Fair Sex—The Relative Numbers of the Sexes—Women as Educators—Fashion Notes—Latest Things Out.

A new, delicious, and durable scent—a bouquet of odors—retailed at $2 an ounce. Alas for the poor but refined public.

There is a plethora of governesses, special instructors and teachers among us whose badges bear this melancholy inscription: "Not Wanted."

A thirty-minute walk in the open air every day will do more for physical beauty and bodily health than a score of doctors and an army of complexion artists.

Blue is the Chinese mourning color. When you see a Chinaman wearing a blue coat or with blue braid plaited in his queue, you may take for granted that some relative or dear friend is dead.

Black velvet ribbon strings an inch or more in width are set at the back of round hats and toque bonnets and are crossed under the chin, then tied or hooked at the back of the neck in a small bow with short ends.

It will brighten a gloomy room and make the bath very inviting to paint the inside of the tub white. As a precaution against blistering turn on the cold water before filling for a hot bath. Dark hallways and staircases may be brightened in the same way. If carpetal paint the woodwork and a margin of the floor white.

Mrs. Augusta C. Rosenbaum, who keeps a little delicatessen shop in Essex street, has the proud distinction of being the best sausage maker in the State of New York. She can make a bologna chain of three hundred links any day in the week or every day in the week, if there is a tournament, conclave or picnicing party in town.

Miss Blanche Best, of Meadville, Conn., who won the Harvard University prize in the Sargent class, as the most perfect type of physical beauty in the country, is addicted to decollete gowns, long sleeved gloves and bangs. She wears tights instead of petticoats and her ideal gown is the demi-trained princess. Miss Best is twenty-two years old, weighs 130, and stands 5 feet in her stockings.

Mrs. Frank Leslie is going on a lecture tour. Her course is planned, the "talks" are prettily typed and bound in vellum and pink and silver cords, and she has a new frock and gloves and aigrette for each subject. The 17th of this month she will open the lecture course in Englewood, Ill., for the Rev. Florence E. Kollock's Acorn Club, with "The Queens of Society," "Woman's Worth," "Self Help," social, ethical, and physical culture are among her themes.

The precautions of cocoa and chocolate made in France are more numerous than those usually made in England or the United States: they comprise vanilla chocolate, milk chocolate, chocolate bonbons, chocolate papillotes, chocolate crackers, chocolate pastilles, chocolate with taraxacum or with sarsaparilla, chocolate with tar—in short, there is no end to the list; for cocoa admit the principle of mixing cocoa with vegetable infusions, or decoctions, or essences, and the variety becomes interminable.

Miss Maria Tschiscwitz, whose recent letter to the Czar consoling banishment to Siberia, is fifty years of age. Her life has been more important than conspicuous. Fashion Notes.

Later on in the season we shall meet with more than one pretty white throat encircled by a ruff of full [illegible] in every shade known in the rose kingdom, and a good many that are not. With the [illegible] fancy we find the [illegible] of pepper introduction. There [illegible] A little distance [illegible] the ostrich feather [illegible] of soft, silken [illegible] together. As velvet or satin [illegible] and the thinnest silk [illegible] is equally soft and becoming to [illegible] which they frame.

The celebrated Russian jacket is becoming to every one, hence its [illegible] success. It is particularly [illegible] effect, for the jacket itself is of [illegible] cut, usually narrow, and the yoke, sleeves, and facing—even in front—are of heavy damask [illegible] silk. No trimming is required, and either a plume or fur boa is suitable. Whitney [illegible] cloth will be used for jackets, tight-fitting behind and straight and double-breasted in front. Either is trimmed with astrakhan, with collar of the same, and heavy black passementerie handebourgs.

The new sealskin jacket is in Medici shape, the flaring collar extending high enough up at the back thoroughly to cover the nape of the neck. The sleeves are high and puffed on the shoulders. It is fitted close to the figure at the back and cut quite short, while the loose front is quite long and is sloped gradually on the edge to meet the back. All fur jackets this coming season are to be extremely plain without trimmings or visible buttons of any kind, but, as heretofore, buttoned under a fly.

Real dreadnought coats for rough wear and weather are made of Harris cloth, with its peaty color and plaited weave. Nothing turns a sea mist as they do, and the only effect the dampness has on them is to bring out yet more plainly their peculiar color, suggestive of the kind of heather and grouse. It is plaited in tans and browns, or a mixture in which pale blue, excellent fawn, and dull, rich red appears, and wears as only homespun can to make to wear.

Mr. S. T. Mackintosh informs us that the demand for real estate in Sapperton continues unabated, and that an increase all round in the prices of lots has taken place. A good deal of building is going on there, and it becomes evident that Sapperton will presently be one of the most populous wards of the city.

Messrs. Lennie & Co., the City Music Store, have removed their stock to their new place of business on Douglas Street near Columbia, where they will be happy to greet all their customers. *

The memoranda of association are published of the Westminster Slate Company, Limited, with a capital stock of $100,000, with headquarters at Westminster. The objects of the company are to purchase and carry on the Jervis Inlet slate mine and others that may be thought beneficial. The trustees are Messrs. H. V. Edmonds, A. G. Gamble and H. F. Clinton.

By advertisement in another column, it will be seen that Messrs. Riddle & Johnston, shipwrights, have dissolved partnership. The business will be continued by Mr. Riddle at the old place. The shop is fully equipped and orders will be heretofore be promptly executed. *

The steamer Michigan arrived yesterday from Portland. She had on board 30 tons of freight for the city, consigned to the following firms: Pearse & Main, 25 tons; G. P. Ardwell, 5 tons; G. The Princess Louise arrived from Victoria yesterday at 5 p. m. She had on board the following passengers: Mrs. Scroggs, Mrs. Scott, J. Wenthrop, J. G. Wheizelf J. McCann, J. Wilson, G. Riley, J. B. Blair. The Louise also brought the following freight: C. P. R., 24 tons and city 11 tons. She takes down today one carload of hides and one of hardware, besides a large general cargo.

Another Newspaper

The first issue of the British Columbia Commercial Journal, of Victoria, is just to hand. The announcement declares that the Journal will be devoted purely to commercial interests, and the management state that the intention is to run the paper so that it will meet the requirements of those particularly interested in the development of the trade and commerce of the Province. The Commercial Journal is a bright little eight page paper and gives promise of being a valuable addition to the ranks of journalism in this Province.

Wide Awake.

Mr. T. Wallace of Chilliwack, and connected with the firm of Messrs. S. T. Mackintosh & Co. this city, is making the real estate fly in lively style in the prosperous city of Centerville, and if there is any boom coming for that hub of the upper agricultural district, Mr. Wallace will be right on the crest of the first wave. Centreville has been a different place since he struck the town, and there is an amount of "git up and git" about the place that would astonish anybody who imagines Centerville is not a modern city.

Marine Changes.

Captain Grant took charge of the Surrey yesterday, and she will be henceforth under his care, Captain Card having taken command of the steamer Telephone. It is understood that the Council has arranged with Mr. J. Reid to have the Surrey under control of the fire department, and the captain has orders to proceed at once to any fire that may occur in the city limits within reach of the engine. It is also understood that in case of damage to the boat or her machinery, while in use for the city, the Council will make good the loss.

Customs Decisions.

A memorandum of decisions recently rendered by the Customs Department has been received. Among those in which the people of the Province are interested are:

Apricots, green	20 per cent
Extract of hemlock bark	20 "
Mince meat, 1½ cents per lb	25 "
Middlings, per barrel	25 cents
Potted meats, per lb	5 "
Wheat screenings, per bushel	15 "
Carpenters rules	25 "

It is the intention to publish the decisions every month in the future, and a statement will shortly be published of all former decisions, showing rates of duty under the old and new tariffs.

The Great Fall Show.

The arrangements of the Royal Agricultural and Industrial Exhibition Association for the great show this fall are in an admirable state of advancement. Everything that could be done up to date has been done by Secretary Pearson, who informs THE LEDGER that indications point at present for the biggest exhibition ever held in the Province, and as much ahead of last year's as last year's was ahead of the previous one. The lists have all been drawn up and the main part of the printing done, so that everything is shipshape and ready for the great event. It is expected that the show of thoroughbred and other stock this year will eclipse anything heretofore known on the Coast. Every advantage will also be taken of the valuable experience gained last year in all departments.

Today's Football Match.

The return football match, Westminster vs. Vancouver, will be played at Queen's Park at 3 this afternoon by selected teams from the two cities. This promises to be a meeting of more than usual interest, and ought to attract a large crowd to the grounds. The men are all in good condition and training and prepared to make a stubborn struggle over the leather. It is hoped that the ladies will condescend to honor the match with their presence and turn out in sufficient force to show that they have not lost interest in the fine old game. After the match the mainland team to play against the Island will be chosen from the two teams in the field. The great match between Island and mainland takes place some Saturday in the near future. The home team has still three matches to play off after today's game.

Caught in His Own Trap.

The following is plain, unvarnished truth as vouched for by one of the parties in the story. A farmer came to Westminster to sell some potatoes the other day, and called into a store where they bought farm produce he asked the storekeeper how much he was giving for potatoes, and was told that their warehouse was full of them, and they would be losing money to buy any more, but just to oblige a customer they would give him half of what they were worth. The disgusted farmer turned round as if to leave, but changing his mind he sauntered to the far end of the store to wait until the storekeeper had finished with a customer who had just entered. The last customer was also interested in potatoes, but he wanted to buy. He asked for some spuds and was told that he would have to wait until the boat came in, as there was not a sackful in the store, and the storekeeper was waiting for some from Friona. The farmer then stepped forward and asked the storekeeper, who had forgotten all about him, whether the price of potatoes had risen lately. The dealer was greatly shocked and offered a fair price for the goods. If farmers cannot get a square deal here they will go to Vancouver.

ISLAND INCIDENTS

Interesting News Notes From Nanaimo and Neighborhood.

The steamship Cutch of the Nanaimo-Vancouver route is laid up for repairs. She resumes her run tomorrow.

The Nanaimo Philharmonic Society are hard at work practicing for a public presentation of "Belshazzar's Feast." It is to be given next month.

Mr. J. Mahrer of Nanaimo and Mr. Pollexfen of East Wellington leave tomorrow morning for England in connection with the English brewery syndicate, the prospects for which are considered excellent.

The select committee to enquire into the cause of the strike at Wellington will arrive at the latter place today, when a thorough investigation of the matter will be made. Mr. Keith will occupy the chair.

A very successful ball was given Wednesday night at the Somerset House, Wellington, by the Union miners, a great many of whom, with their friends, attended. Dancing was kept up till an early hour.

Brady Storall, a rancher in Cedar District, was badly injured on Wednesday through the explosion of a cartridge which he was placing in his rifle. A portion of the shell passed through both his cheeks. The powder from the cartridge also burned his hand severely.

The ball given by the Northfield Union Brass Band at Northfield on the evening of St. Patrick's Day was a grand success, there being over 200 present, and the enjoyment was continuous and hearty. The supper in Blakeley's Hall was everything that could be desired, while the melodious strains of the Northfield Brass Band indicated the rapid progress made by this band.

On Tuesday last a panther was shot on Mr. Dickenson's ranch, Nanoose. In the evening it was observed in front of the house, just about entering a small thicket. The inmates of the house immediately ran to head it off. The panther sought refuge under some logs, and being dislodged, he broke cover, but was very pluckily turned back by Mrs. Dickenson, she striking it with a stick as it was emerging from a bush; the dogs then hunted it along the bush until they treed him, where he soon paid the penalty of his sheep stealing. On Friday Mr. Dickenson's neighbors kindly went over to assist in driving the sheep home, and while so doing five panthers were seen, one being very large. Owing to the brush being so thick only one of the brutes could be secured. The ranchers are naturally anxious about their young stock, knowing that these animals are about and are using every endeavor to rid themselves of the pests. A large quantity of poisoned meat has been placed about and hopes are entertained that some of the animals will try a bite. Five sheep belonging to Mr. R. Michael, in Cedar District, were killed the other night by one or more of these animals. One of the sheep was half eaten and partially buried, which, with tracks discovered, traces the crime pretty clearly to panthers. Hunters are out seeking a shot at the "varmints." A few wolves have been shot a little way back in the country.—Free Press.

Important Machinery Orders.

The Westminster Foundry and Machine Company are now making an excelsior machine for Messrs. Knight Bros., of Popcum. This is the first machine of the kind ever made in this Province, and as it is intricate and difficult to make in many respects, it is satisfactory to note that work of this class can be handled here. The Westminster Foundry Company have the contract for executing all the repairs necessary to the steamship West Indian. That fine vessel will probably be taken to the foundry wharf to save time and trouble in doing the repairs.

Offer the following as good, safe investments, some of them sure to yield a big profit in a very short time:

Northeast Quarter of District Lot 339—[illegible] acres, situated on Westminster Road, about halfway between Vancouver and New Westminster, adjoining Public Park, and only [illegible] miles of the route just selected for the Westminster and Vancouver Electric Tramway etc. This property is beautifully situated, and commands a fine view of Vancouver. Very little timber on it—$[illegible] per acre would clear it for a garden. Price $[illegible] per acre. Terms can be had if necessary. Adjoining land sold at $[illegible] per acre.

10 Acres in District Lot 321, on North Arm of Fraser River, 4 miles south of Vancouver, and about 8 miles from New Westminster. There is a good graded road from Vancouver, and a road is to be opened to New Westminster soon. There is a schoolhouse within a quarter of a mile. Land slopes gently from road to river, on which it has 20 chains frontage; is surrounded by market gardens. Excellent property for New Westminster. Price $2,500, which is $[illegible] per acre less than adjoining land.

North Half of District Lot 657—[illegible] acres, for $2,000. Terms one-third cash, balance in 6 and 12 mos. Suitable for fruit ranch. Fine view of Fraser and straits of Georgia. Graded road past land.

9 Lots (including 2 corners) on New Westminster Avenue, Vancouver, for $[illegible]; ¼ cash, balance in 6, 12 and 18 mos. Size of lots, 33x[illegible]. Lots close to Vancouver Electric Railway runs to within a few blocks. This is a good buy.

Block [illegible], subdivision 172—C. P. R. Co's "Fairview" addition to Vancouver. Price, $[illegible]. Contains 24 lots, 33x132. Is closed and commands magnificent view of English Bay, the city and Burrard Inlet.

9 Acres within the city limits of Vancouver in subdivision "A" on line of Westminster-Vancouver Electric Tramway. Price, $[illegible]; ¼ cash, balance in 6 and 12 mos. Surrounding land is subdivided into town lots. This piece can be subdivided into 72 lots, which should readily sell at $125 per lot, showing a profit of nearly $[illegible] on the deal.

We have the largest list of city property in Vancouver, and a large list of acreage. Farms in every part of the Province. Homes cheaply located.

Our carriage is at the disposal of investors to view property in and around Vancouver.

It will pay investors to call upon us before buying.
