SUAVE SALISBURY

ENGLAND'S PREMIER CORDIALLY EXTENDS WELCOME

To the American World's Fair Commissioners—The Empress of China En Route—Mitchell and Slavin do Battle—The Maybrick Case Coming up Again—Parnell Receives a Very Quiet Reception at Dublin.

LONDON, July 23.—The world's fair commission, accompanied by United States minister Robert Lincoln and Mr. Robert S. McCormick, the world's fair commissioner in England today proceeded to the foreign office in Downing street. On arrival there they were ushered into the presence of the British Prime Minister, Lord Salisbury. Mr. Lincoln then presented Messrs. Butterworth, Peck, Handy and Buller, to his lordship. After cordially greeting the gentlemen of the commission Lord Salisbury entered into an animated conversation with his visitors, closely pressing them with questions with regard to the prospects for the success of the great undertaking and the progress made in the endless details of the work of preparation. The premier said that from reports which had from time to time reached him, he had been led to doubt whether it would be possible to open the great exhibition at the appointed time. He added that he well knew how much trouble attended the prompt and successful execution of such gigantic undertakings. Lord Salisbury listened with the utmost interest to the careful and exhaustive explanation of the preliminary work which was furnished him by the commissioners. The occasion was a most pleasant and satisfactory one, the absence of formality permitting of rapid interchange of questions and reply. At the end of the interview Lord Salisbury invited the American minister, Mr. Lincoln, and the world's fair commissioners to be his guests at a garden party which he will give in their honor on Saturday next. In the afternoon the American commissioners and the active members of the royal commission were entertained at a dinner given by Sir George Chubb, director of the naval exhibition.

IN THEIR TRUE COLORS.

A disgraceful row which took place yesterday evening at an exhibition sparring match between Mitchell and Slavin, is the talk of the sporting world. It appears that the men quarrelled previous to the rising of the curtain, the dispute being as to their relative success with women and their money making capacities, from this they fell to boasting of their pugilistic prowess and threatening to knock each other out. Mitchell was about drunk and Slavin still more intoxicated. There was a large audience. The first two rounds were so unscientific as to provoke jeers. In the third Mitchell landed a heavy blow on Slavin's nose, breaking the cartilage and causing blood to spurt in all directions. The audience rose en masse and shouted, "coward," "shame," etc., at Mitchell. Slavin was enraged and flew at his assailant, but the blows exchanged in this real fight were recklessly wild. In a minute or two the curtain was lowered, shutting out the battle from the view of the audience, but the noise of the combat could be plainly heard and the people were greatly excited. Finally, friends of the combatants summoned courage to separate the men. The audience was dismissed, but gathered around the stage door waiting until the pugilists left the building, when many of them struck at Mitchell and would have done him harm had he not taken the precaution to have a strong police escort to his hotel. Mitchell today admitted that both he and Slavin had attended the Liverpool races during the day and had become intoxicated. They had quarrelled while in this condition, but he went to the evening's entertainment in a forgiving mood and would have thought no more of the dispute had not Slavin renewed it and become the aggressor. He denied that Slavin's nose was broken in the scrimmage and said that they had made up and were again good friends. The two men boxed according to the regular programme tonight and the cordiality of their handshaking before the contest seemed to bear out Mitchell's assertion that the row had been forgotten. The audience hooted the men a little at the start, but soon forgot their grievance in watching the exhibition, which passed off without unpleasant incident.

MRS. MAYBRICK'S CASE.

Mrs. Maybrick's solicitor says that he has been advised by Sir Charles Russell that his case can be reopened and a new trial had, grounded on the refusal of the insurance company to pay the policy. The solicitor intends to carry out this scheme. Much new evidence has been collected in America. Mrs. Maybrick is in Woking jail and suffers much from ill health.

UNSAFE CANNON.

In the House of Commons this evening Lord George Hamilton, first lord of the admiralty stated that the gun which recently exploded on board H. M. S. Cordelia was of the same pattern as the one which burst on board the Active in 1883. The admiralty he said, had arranged to have all the guns of that pattern now in use immediately replaced by others. On motion of Mr. Goschen the order of the charges against him was formally withdrawn. Mr. Goschen promised that the motion would be revived next session.

FRANCO-RUSSIAN FELICITATIONS.

The French squadron arrived at Cronstadt today and was enthusiastically received. The Grand Duke Alexis, admiral of the fleet, met the French admiral and his officers on board the Russian cruiser Asia. The members of the French embassy and the Slav society headed by Count Ignatieff were also present, and the Slavienzky choir sang songs of welcome, the bands played La Marseillaise and the French sailors cheered. The French officers were entertained at a banquet at the Peterhof Palace by the Czar this evening and the municipal authorities presented each vessel with a silver flagon for the use of the officers' mess.

PROMOTION FOR CADOGAN.

The Queen has conferred upon the Earl of Cadogan the title of Knight Companion of the order of the Garter, thus filling the vacancy in the order caused by the death of Earl Granville.

The Last Empress.

NAPLES, July 23.—The Canadian Pacific steamer Empress of China, on her voyage around the world arrived here today. She left for Suez tonight.

He Trusted a Jew.

ST. PETERSBURG, July 23.—It is officially announced that Captain Schmidt of the Russian navy, who was reported as having been expelled secretly last April for divulging the plans of the Cronstadt fortifications, has just been sentenced to banishment to Siberia. It was proved in his examination that he fell into the hands of usurers and was induced by them to sell the plans to a Jew, who betrayed him.

FROM FAR SIMILKAMEEN.

A Noted Citizen Gives an Entertaining Account of His Trip.

Mr. Joseph Armstrong returned yesterday from a short visit to the Similkameen country, where he went to inspect the Granite Creek Placer Mines owned by the Hydraulic Mining Company, in which he is largely interested. Mr. Armstrong was greatly pleased with the work that had been done at the mines since his last excursion thither, and from the handsome results attained by the laborious method of panning, he believes the Granite Creek gravel bar will prove a bonanza for its owners when worked by the hydraulic machinery now on the way. In the meantime a force of men is engaged in the construction of a flume about half a mile long, from Eagle Creek, which is at a sufficient height above the diggings to give the required pressure for the effective operation of the "little giant."

Mr. Armstrong described the formation of the surrounding country as very unusual for a mineral bearing locality, and exhibited various samples of metals taken from it. Besides a number of gold nuggets, there were specimens of pure platinum, native copper and horn silver, the latter when found in place will prove an exhaustless treasure for the discoverer). The company are opening up this property and no doubt with the new methods to be introduced will reap a large and speedy return. The only drawback, Mr. Armstrong says, is the difficulty of reaching the mines. In going there Mr. Armstrong rode over 100 miles on horseback, and not having indulged in that exercise for some time, he will be under the painful necessity of partaking of meals off the mantel piece for some time. The trail is rough all the way from its commencement at Spence's Bridge to the mines. It is a beautiful ride, however, although the July temperature is rather distressing to the traveller inclined to embonpoint.

For the benefit of the pothunter and lovers of big game it may be added the country is plentifully stocked with deer, mountain goat and sheep, bear, catamount, panther, grouse, duck, geese, etc. Mr. Armstrong, who lays no claim to being an expert, asserts that he could have loaded a pack train with grouse in a few hours, had he been on pleasure bent, so unlimited was the number on the road leading to the mines.

The hydraulic mining work is under the supervision of Mr. Murphy, who operated a section for John W. Mackay in California, and is known as one of the best hydraulic mining engineers on the Pacific coast. The company esteem themselves fortunate in securing the services of a gentleman so competent to undertake the work.

CITY POLICE COURT.

His Honor Disposes of a Few Hard Cases Yesterday Morning.

Whisky was responsible for all the business that came before Judge Atkinson at the city justice mill yesterday.

Albert J. Morrison was the first to face his honor, and pleaded guilty to having been drunk and incapable on the 22nd instant. The case was disposed of with a fine of $5 and costs; in default, one month's imprisonment.

Louisa, an Indian woman, was then charged with having been found in a state of intoxication on the 22nd instant. She pleaded guilty, and a fine of $5 and costs, with an alternative of one month in jail, was imposed.

David Hart appeared to answer for having been found drunk in the house of an Indian woman named Mary on the 23rd. Mr. Henderson appeared for the defence. Evidence on both sides was heard at some length, and his honor finally adjourned the case until today at ten o'clock.

Accidentally Killed.

Early yesterday morning a man named Colin Purvis was killed on the Mission branch of the C. P. R. Purvis was conductor on the through freight train, which left Huntingdon about 7 o'clock. After the train had pulled out for Mission, Purvis went up and sat on top of the caboose with his back to the engine. Near Abbotsford a tree had been felled and rested across the telegraph wires, just clearing the tops of the cars. At this point, the train was running very fast and Purvis was knocked off the caboose to the track by the projecting tree. He struck the rail with his head, and the skull was badly crushed. Other injuries were received by him, and upon being picked up, he lived for about ten minutes and died in an unconscious condition. The body was taken to Vancouver, and an inquest will probably be held today. Purvis came from Goderich, Ont., was 28 years of age and unmarried. He had been in the employ of the C. P. R. for the last seven years, and was generally known and respected.

High Class Iron Work.

A LEDGER reporter was informed yesterday by Mr. F. M. O'Brien, the business manager of the New Westminster Foundry and Machine Co., that the shops are running full time on a good class of work. The firm are still making cannery machinery and dies, and have orders for machinery of this class that will keep them busy for some considerable time to come. They are also building two excelsior machines for Knight Bros. of Popcum and expect to have them finished shortly. As each of these machines is of intricate construction, calling into play the highest powers of skilful mechanics, it will readily be seen that an undertaking of this kind necessarily implies the ability of the firm to undertake the construction of any class of machinery. A storage room has been recently prepared, where will be kept the patterns used in the moulding shop, of which the establishment has one of the most complete and extensive collections on the mainland. They contemplate making a special exhibit at the fall fair of machine work and castings of a superior kind, and it is safe to say that competitors will have a difficult task to beat them.

Shot From Ambush.

LITTLE ROCK, Ark., July 23.—News of the assassination of the Rev. N. Williams, a Methodist clergyman, near Hober, Arkansas, has been received. He was shot from ambush while riding along a country road. A man named Johnson known to have been Williams' bitter enemy was arrested and held for the crime.

Another Negro Brute.

AUSTIN, TEXAS, July 23.—Early yesterday morning, Albert Altman, a negro 25 years of age, entered the bedroom of Mary Zimmerman, daughter of a farmer living a few miles south of Taylor, and chloroformed the young woman and her little sister who was sleeping with her. The negro then brutally outraged Mary and it is believed was preparing to assault her sister, when Mary partially recovered from her stupor, screamed for her father and the negro fled. He was pursued by neighbors and after a chase of several miles was captured and placed in jail. It is believed he will be lynched.

TALKING IT OVER

KNOXVILLE MINERS MEET AND DISCUSS THE SITUATION.

They Want the Troops Withdrawn—The Convicts May be Sent Back for Sixty Days—A Novel Air Ship Scheme—Europe to be Reached in One Day—Large Offers to Hall and Fitzsimmons.

KNOXVILLE, Tenn., July 23.—The miners' meeting at Coal Creek today to hear the committees' plan of compromise was attended by about every man in the valley. Speeches were made by J. C. J. Williams of this city, a candidate before the Democratic convention for congress nomination, and one or two miners. General Williams urged a compromise. The meeting lasted some time and it was difficult for the miners to agree upon a conclusion. It would be remembered that the governor says there had been no proposition made by him but that of sustaining the law. He was willing, however, for citizens to see what would be done to settle the difficulty as he is a warm supporter of labor, but at the same time he was the executive officer of the state. Finally the miners agreed on a course of action and drew up resolutions containing a proposition to the governor. This proposition is that the troops must be taken home from Knoxville. The convicts can be returned to Coal Creek for 60 days only and the legislature to meet and repeal the convict law. This, briefly, is the proposition of the miners, the official document now being in the possession of the committee which is in conference with Governor Buchanan. The committee arrived at 6 p. m. It was universally believed at Coal Creek yesterday that the citizens' proposition to the miners would be accepted. Men who have watched the proceedings say it would have been accepted but for what is termed the revolutionary speech of Chancellor Gibson yesterday evening.

Extent of the Damage.

BUFFALO, N. Y., July 23.—A despatch to the Merchants' Exchange here says that the damage to the Erie canal near Schenectady consists of the carrying away of the two centre piers and stone arch over the towpath, and the wooden tank of Vanslyck aqueduct, and that it will take ten days or two weeks to repair it.

Masonic Conference.

MINNEAPOLIS, Minn., July 23.—The conference of Masons has decided to hold the next conference in Topeka, Kansas, in July, 1894. The general grand council E. I. and S., will be held there at the same time. Additional officers were elected as follows: Deputy High Priest, George L. McCahan; King, V. R. Clements, Toledo; Scribe, James W. Taylor, Luthersville, Ga.; Treasurer, Daniel Stricker, Hastings, Mich.; Recorder, C. G. Fox, Buffalo, N. Y.; Captain, A. G. Pollard, Lowell, Mass.; Principal Sojourner, J. E. Dyas; Royal Arch Captain, A. M. Swayne, Milwaukee, Wis.

Inducements to Fight.

ST. PAUL, Minn., July 23.—On behalf of the Southern Athletic Club, G. A. Franks this noon made a final proposition to "Parson" Davies and Jim Carroll to bring Fitzsimmons and Hall together in Crescent City within ten days, for a purse of $9,000 and all expenses, or a purse of $10,000 and expenses for a fight in October. They were given until six o'clock tonight to reply. Fitzsimmons is favorable to the acceptance of the first proposition.

INTENDS TO RESIGN.

It is learned on the very best authority that J. M. Abbott, assistant to President Hall of the Great Northern decided to tender his resignation some weeks ago, and though no official announcement has been made, the matter is practically settled. Mr. Abbott is at present in New York city, and it is not therefore definitely ascertained what his intentions are, but there is an unfounded rumor that he will remain with the Great Northern in a different capacity from the position he now occupies.

Fishing in Stormy Waters.

GLOUCESTER, Mass., July 23.—The schooner Senator Salsbury arrived here today from Iceland with a cargo of 200,000 pounds of fletched halibut. This is the earliest arrival on record of a fishing schooner from that part of the fishing grounds. The Salsbury left here March 16th and had a very rough passage all the way out. On April 2nd during a heavy gale Stein Benjaminson was washed overboard and drowned. The winter in Iceland was very stormy, with heavy gales accompanied by rain and snow, but not much frost. There was no destitution among the natives. On April 12th there was the heaviest storm experienced on that coast for many years, and considerable damage was done to fishing boats and vessels. One Norwegian vessel, name unknown, went ashore on Isefjord Bay and all the crew were drowned. Although there were a large number of fishing vessels cod fishing, that industry has been a failure. Large quantities of caplin, Capt. McKenzie says, were found inside the halibut, a thing that is seldom seen in that locality.

To Europe in a Day.

NEW YORK, July 23.—Dr. Arthur DeBassett, French physician, engineer and scientist, is here superintending the building of a new air ship, which he will exhibit at the world's fair. The main part of the air ship is of steel. The cylinder is 728 feet long, the maximum diameter being 145 feet. Attached to the cylinder is a car 178 feet long, with accommodations for 2,000 people. The car will be propelled by eight fan wheel screws, each capable of displacing 300,000 cubic feet of air per minute, and the propellors will be worked by powerful dynamo engines. Electricity will be supplied by two 30-horse power engine generators. The minimum speed will be 70 miles an hour, but Dr. DeBassett claims that there is no reason in the world why Europe should not be reached from America in less than 24 hours. The inventor says the invention has been indorsed in writing by such men as Lieut. John P. Finley of the United States army; William H. Paine of the American Society of Civil Engineers, who was engineer of the Brooklyn bridge; George W. Melville of the United States navy and E. Colbert, mathematician, as the only real solution of the problem of aerial navigation.

BOSTON'S BRUISER AGAIN.

Charles Johnson, of Brooklyn, on behalf of John L. Sullivan, called at the Herald office today and deposited $1,000 to bind a match with Frank P. Slavin to fight for the championship of the world. The money is to be held until September 1st for Slavin or his backers to cover. Johnson insists that the fight takes place in America. The news that Sullivan has posted money was cabled at once to England.

CANADIAN NEWS.

Continuance of the McGreevy Investigation—Strange Gas Story.

STRATFORD, Ont., July 23.—About two years ago William Gordon, proprietor of the Albion and Windsor Hotels, had a dispute with the Stratford Gas Company, as the result of which he put in a plant of his own and manufactured the gas used in the two hotels. Yesterday a writ for $5,040 was served on him by the gas company for alleged tapping of one of their pipes. It appears that for some months the manager of the company has reported a large and unusual leakage of gas which could not be accounted for, although every effort was made to ascertain the cause. On Monday last, accompanied by a gasfitter, manager Read of the gas company visited the cellar of one of the stores in the Albion Hotel block and traced the pipe supplying the hotel to a portion of the cellar, the door of which was nailed up. Forcing their way through this they found that one of the company's pipes had been tapped and connection made with the pipe supplying the hotels. Further examination disclosed the fact that the connection had not been made in the way that fitters usually do work of that kind, and that the lead pipe used had probably been put in by a plumber. Mr. Gordon, after examining the pipes, admitted that the company's gas had been finding its way into his mains, but was at a loss to know when and by whom the connection was made. He denies that he had anything to do with the tapping of the pipe, and has instructed his solicitor, Mr. John Idington, Q. C., to defend the action. The claim of $5,040 made by the gas company is made up as follows: Penalty, $120; communication with the pipes for 730 days at $4 per day, $2,920; value of gas obtained and used by Mr. Gordon, $2,000. Mr. Gordon claims that as the pipe connecting the two systems was only half an inch in diameter it would supply but a small portion of the gas used in the two hotels, and that as the pressure in his mains was frequently greater than in those of the gas company there would at times be a leakage of gas in the other direction. As Mr. Gordon is a prominent business man and an ex-mayor of the city the proceedings will be watched with much interest.

MORE KNAVERY.

OTTAWA, Ont., July 23.—The Interior Department irregularities were again under consideration by the Public Accounts Committee this morning. Burgess gave evidence as to money transactions between Richard White of the Montreal Gazette, and Pereira, assistant secretary of the department. Pereira, he said, as far as he understood, had secured a loan of the money from White, upon the understanding that he (Burgess) would see that White was reimbursed from the money paid by the department to Pereira for extra work. Foster objected to the production of private letters. Finally a sub-committee was appointed to see whether the letters should be produced.

EXPEL OR RESIGN.

TORONTO, Ont., July 23.—The Globe has an Ottawa dispatch on the department irregularities in which it is declared that the statement that the Government is probing for naked truth, is hardly correct, and that every effort is being made to get the Liberals to aid in saving Sir Hector Langevin. The Globe has a strong editorial on the scandal, declaring that respectable Conservatives have now no option but to demand the expulsion of Langevin or the resignation of the Cabinet.

POSSIBLY A SETTLEMENT.

A Washington dispatch dated yesterday, to the Globe says: "Wharton, assistant secretary of state, said today that the British minister and himself had practically agreed on the draft of a document which would be submitted to the judges of arbitration in the Behring Sea matter, when they should be chosen. The State Department is not yet prepared to announce the names of the commission, whom it is understood have been selected."

WILL BREAK THE COMBINE.

MONTREAL, July 23.—At a meeting of the railway freight agents here yesterday, the Canadian Pacific announced that they would quote rates that will be so good as to break the combine.

A BAD SMASH.

The wholesale millinery and fancy dry goods firm of John MacLean & Co. has assigned on demand of the Merchants' Bank. The liabilities are about $300,000. The Merchants' Bank is a creditor to the extent of $150,000. The other principal creditors are European houses.

Back They Go.

BOSTON, July 23.—The steamer Kansas which arrived yesterday, has on board 42 assisted Russian Jews. They were detained and will return by the next steamer.

Did It Quite Coolly.

ST. LOUIS, Mo., July 23.—This afternoon George Anderson, a saloon keeper on St. Clair Avenue, East St. Louis, walked across the street to where Dennis Ryan, a rival saloon keeper was standing, and drawing a revolver shot Ryan through the heart killing him instantly.

Two More on the Route.

SAN FRANCISCO, July 23.—There is a rumor afloat that the Occidental and Oriental Steamship Company has chartered the White Star Line steamers Brittanic and Germanic to run in addition to their present fleet between here and China. Color is lent to the rumor by the fact that the Canadian Pacific Railway Company has recently put on three very fast steamers between China and Vancouver, the result of which has been that the foreign company is making very serious inroads into the business of lines running to San Francisco. The rumor, however, could not be traced to any reliable source this afternoon.

Balmaceda Sickened Him.

WASHINGTON, D. C., July 23.—A letter has been received by representatives of the insurgent party in Chili from Mr. Firerro, formerly Chilian Minister of State, member of congress and Minister to Brazil under Balmaceda, saying that he has severed his official connection with the Chilian government on account of Balmaceda's vicious acts. Mr. Firerro is now in New York and will shortly come to Washington.

THE SOUND DRY DOCK.

The deeds for all property included in the Puget Sound dry dock site at Port Turner, Washington, have been signed and the department is now making preparations to begin the active work of locating the exact site of the dock. A large number of borings have been made along the water front to determine the character of the ground. Civil Engineer McCallum has been ordered to duty in connection with the dock and will continue the works.

ALLOWED FREE ENTRY.

The treasury department has directed the collector of customs at Port Townsend to allow the free entry of merchandise from the British ship Lady Gordon, which has been for two years sunk in the waters of the United States and abandoned by her owners.

This Card is Worth $6.00 to You

Cut it out and bring it to GORDON & CO. when you want to purchase Rubber Boots, Shoes, etc., that we may punch from it the amount you buy. When your cash purchases amount to $5, we will make you a present of one of the following enormous volumes: "*Webster's Encyclopædia of Useful Information*," "*Webster's Unabridged Dictionary*," or "*Woods' Natural History*." These volumes are splendidly printed and bound and profusely illustrated with fine woodcuts. Call at the store and inspect them.

The Ledger.

NOTES AND COMMENTS.

There is one thing that appears pretty clear, namely, that if the Lulu Island Lands Bylaw should be carried by a majority of the electors today, it will be necessary to repeal it some other day and enact a new bylaw, before tenants on the corporation lands on the Island can be obtained. Another thing, too, is certain, namely, that the arbitrary terms of lease provided for in the bylaw to be voted on today will serve as a boom to the adjacent properties owned by private persons, and notably to those owned by the gentlemen who got 375 acres for the Lulu bridge and works. That these gentlemen are using their influence in favor of the bylaw is not wonderful, seeing that that bylaw will keep the corporation property out of competition with them. The rates of taxation in this city are growing at such an enormous rate that we have need of every penny that can be obtained from the rental of municipal lands. It may be said that the rentals from the Lulu Island property would not amount to much anyway. How much do you suppose? Of what the city owns, 75 acres of it are believed to be worth at least $500 per acre, or an aggregate value of $37,500. The rental value is 8 per cent of that amount, or an even $3,000. Three thousand dollars is a sum that should not be made light of; it means pretty nearly half a mill in the dollar on our present assessment, and if it is not obtained by the renting of these lands it will have to be paid out of the pockets of the ratepayers. It sounds very generous and whole-souled to plead in this matter that corporation lands should not be made to compete too severely with private properties, but those who make bylaws should remember that there is neither honesty nor a high sense of devotion to a public trust displayed in dealing generously with what does not belong to them. The position with regard to this Lulu Island Lands Bylaw is simply this: it prescribes a form of lease which will prevent the lands being leased, probably for years to come. It should be the policy to have these lands occupied on lease by manufacturers at the earliest possible day, for the reasons, (1) that the city may obtain the rentals; (2) that industries may be quickly established here, and (3) that the holdings of private owners may not be unduly boomed, to the public loss. For these reasons the ratepayers should cast their ballots today against the Lulu Island Lands Bylaw, and demand that another and better one should be submitted without delay.

But it is always expected from him who objects to a proposal that he will not only state his objections, but suggest something better. In a general way, almost anything would be better than the form of lease proposed by the bylaw. But why should the city stop short of taking the full value out of its lands on Lulu Island? We confess to some surprise that the mayor (who, we understand, has had the biggest share in the drawing up of this bylaw, and who for so long a time has been posing as a single-tax man) has given his professed ideas of true municipal economy the goby on the very first opportunity that has presented itself of showing those ideas to be correct and giving the city the advantages accruing from their operation. But apparently that economy, which the Mayor professes to believe in, is the last thing that he cares to practice. THE LEDGER is not an advocate of the extreme theories of HENRY GEORGE, but it is a believer in them at least to the extent that the Lulu Island Lands Bylaw should be fashioned on these lines:

1. A lease of the land to suitable tenants at a nominal rental of $1 per year.

2. Tenants to pay also 8 per cent of the assessed value annually.

These two conditions complied with, the lease should be absolute and indefeasible during its term and the tenant would be at liberty to use the property for any purpose he liked, for one kind of business or for half a dozen kinds, or sublease it, in all respects just as if the property were his own. Under this plan the city would get every year 8 per cent of the actual value of the property during that year, and the receipt of the annual value of the land is all the city need trouble itself about. Under the bylaw [illegible] at the time the property is rented will remain the assessed value for 10 years thereafter. In 10 years the value of the property may have risen from $500 an acre to $5,000 an acre, so that in the 10th year the city would be receiving from their tenants not 8 per cent of the actual value, but really less than one per cent. In plain figures, the city would be receiving $4,000 where it should receive $40,000 for the rental of 100 acres; and that sort of thing will continue at jumps of 10 years during the whole term of 50 years. This will be the position supposing tenants are obtained; but such are the vexatious and pestering conditions attached to the leases, under the bylaw to be voted on today, that it is questionable if even the less than one per cent could be obtained. Surely the style of lease we propose is infinitely the better one. It will add at least one-half to the annual value to the city of the Lulu Island lands. Therefore, vote against the bylaw today, and wait a month or two till a more perfect measure can be submitted.

In another column of today's issue will be found a letter from Mr. AULAY MORRISON, secretary of the Public Library Board, requesting those who desire to make contributions of books, etc., to the library, to notify him as quickly as convenient, so that the Commissioners, who are at present compiling a list of books to be purchased, may not make unnecessary expenditures. It is to be hoped that the citizens will respond generously to this call. The fund for the purchase of new books is likely to be limited, and assistance from private citizens will therefore be all the more prized. Particularly will rare and curious books, and literature relating to our own Province be appreciated. Public acknowledgment will be made through the press of all such contributions.

CALEDONIAN & ST. ANDREWS SOCIETY.
NEW WESTMINSTER.

WE BEG TO POSTPONE MEETING of above society called for this evening until Friday the 30th July to be held the same place and hour, owing to non reply of City Council with regard to allowing said society use of recreation grounds for use day to be fixed later on.

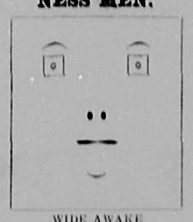
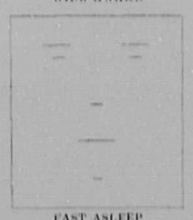
TWO CLASSES OF BUSINESS MEN.



WIDE AWAKE



FAST ASLEEP

THE WIDE AWAKE BUSINESS MAN pleases the wide awake customer, of the other kind say nothing. The best thing about money is the fun you can have spending it. You'll get more solid enjoyment out of what you spend at the **BONANZA GRILL ROOM** than at any similar establishment in the city. Seasonable delicacies. Meals from 25 cents. Everything of the finest—even the price—and that is the small end of nothing whittled down to a fine point. Foundry on Front Street, near depot.

A. WHITLOCK, Proprietor.

The Ledger.

THE CITY MARKETS.

The General Tone of the City's Business is Steady.

Business during the week has been fairly good, groceries and provisions of all grades being in active demand. Lime, cement and brick are a trifle scarce and prices show no change. All lumber mills are running full time, and there is a brisk demand for lumber of local manufacture in the interior markets. The depression affecting the Sound mills so injuriously is not felt here, and prospects for the remainder of the season are very good. Flour shows little change, being quoted at the same figures as last week, though these are cut down a few cents for bulk shipments. A brisk trade is being done in general provisions. Bacon and hams rule steady, with good demand. Butter is a little easier, but prices as a rule show no change, being 25 and 40 cents wholesale, and 30 and 60 cents retail, according to grade and quality. Eggs are still comparatively scarce, and command from 25 to 40 cents per dozen with a brisk demand. Potatoes are steady at former prices. Hay, oats and feed are fairly plentiful, and quotations remain the same as before. Butcher meat of all kinds is quiet and prices show no alteration. Odd lots of cattle have been received during the past week and the supply is plentiful. Fruits of all kinds are plentiful at easy prices. Pigs are offered at 8 and 10 cents per pound. Raspberries are 15 cents per box with a limited supply. Strawberries are now out of the market, and cherries show a tendency to rise as the season goes on. Oranges and lemons show no change, and bananas are now selling at 50 cents per dozen and wholesale at $3 and $3.25 per bunch. Garden stuff of all kinds is plentiful and selling freely. Tomatoes are offering at 10 cents per pound. Trade in drygoods is brisk, and leading lines of staple fabrics and dress goods are selling well.

Without Saying Good Bye

A short time ago a man by the name of Reed came to this city, and being able to play the violin tolerably well, was taken in hand and treated kindly by benevolent citizens. Every opportunity was given Reed to get along well here, and he seemed to be grateful for the favors shown him, but his sudden disappearance along with a few little articles that did not belong to him, and the leaving unsettled of two or three small accounts, shows that he was nothing more than one of those human reptiles who sting the hand that does them good. Too mean to dare a larger theft, "willing to wound and yet afraid to strike," fellows of this kind serve to show how easy it is for persons disposed to kindliness to misplace their confidence.

Premier Robson at Sarnia

The following is from the columns of the Sarnia Weekly Canadian: "Hon. John Robson, Premier of British Columbia, paid a flying visit to Sarnia last Wednesday, arriving on the Pacific express at 8.55. At the station he was met by a number of old friends who by chance heard of his coming. He was the guest of his brother-in-law, Mr. James Major. On Thursday, accompanied by Mr. Charles Mackenzie, M. L. A., he went through the St. Clair tunnel. In the evening a reception was held in his honor at Mr. Mackenzie's residence, which was attended by a large number of ladies and gentlemen who considered it a privilege to meet and honor an old resident of Sarnia, who has risen to eminence in another province of the Dominion."

Wholesale Fruit Trade.

According to Mr. Stacey, the agent here of Messrs. R. V. Winch & Co., wholesale fruit and produce dealers of Vancouver, there is a considerable difficulty in securing any quantity of small fruit grown in Westminster district. Large firms in Victoria and Vancouver, hitherto among them, have agents here buying all the fruit in advance, and in some cases even securing next year's crop. This being so, there is generally a brisk demand among wholesalers for any that may be offering, and good prices are paid. The firm that Mr. Stacey represents confine themselves strictly to a wholesale business, and he reports trade to be steadily improving, although, from the very nature, it requires eternal vigilance to reap any benefit from it. The firm now have orders from interior points for over $2,500 worth of British Columbia fruits, and they cannot get enough to supply the demand, so that their orders have to be filled in rotation.

Portly Sprinters.

Last evening on one of the city wharves a 50 yard foot race took place between two very well known citizens notable for the generosity with which nature has invested their osseous frames, and also for the jolly disposition which she has implanted in their manly bosoms. United in the ponderous presence of Sir John Falstaff the two worthies share his vaulting ambition, and with some degree of justification think that they can run. A suitable stake was agreed upon, the spot and time named, judge selected and a few friends "let into the deal." On the wharf both whipped off coat and vest, and although the cruel heat was making fearful havoc of respectable fat, no discouragement could dampen the generous order of their souls. The start was something worth travelling ten miles to see. "Hi, come back there, don't be in such a thundering hurry." "Say, referee how's that? Is this a start or do we stay?" About forty breaks were made, a return to the score having to be made in each case. At last, already pushed hard, the two doughty champions got away well together. It was a sight to provoke the laughter of a funeral mute to see the arms flying, the stout legs doing treadmill work and the two runners footing it up the wharf to the best of their ability. The stouter of the two won by about three yards amid the uproarious cheers, laughter and applause of the assembled spectators. After the discarded vestments had been donned, the defeated athlete filed his protest and the victor received the congratulations of everybody, an adjournment en masse was made to an adjacent hostelry and the displaced perspiration replaced as speedily as possible. The winner was the proudest man in town last night and is now liable to challenge a man as quick as look at him. It may be added that had the race been ten yards longer both the contestants would have walked in. No time was taken, but it is understood that the 50 yard record was not damaged.

Scotland's Sons.

This evening in Foresters' Hall at 8 punctually, the Caledonian and St. Andrew's Society will meet to consider arrangements for the annual gathering. It is unnecessary to mention that every member should be present. Every man's opinion and suggestions are wanted and will be welcomed. The intention is to mark 1891 with a gathering of the clans that will be looked back upon with pride as one of Westminster's grandest days. There will be several interesting novelties incorporated in the programme, besides those "remnants of the good old time, still ling'ring in our northern clime." Let every Scot in the city "foregather the nicht" in Foresters' Hall.

Disinfected the Well.

Water was extremely scarce on the hill in the neighborhood of the school house yesterday. Some consternation was caused among those who live up there to find that some person had thrown carbolic acid into the school yard well, one of the finest in the city, thereby utterly ruining it. Those who attempted to use the water in the usual daily culinary operations found the coffee, tea, soup, meat, fish, indeed everything which the water had been employed to cook, totally spoiled. Several persons who, in their haste took deep draughts of the water, were taken severely ill shortly afterwards. On account of the spoiling of this well a good deal of distress was felt by those who are accustomed to draw their supplies from it. The ears of the man who played the little joke, must have tingled handsomely, for if ever man was cursed and consigned to certain unmentionable localities it was he. It is said that the well is ruined for weeks to come. If the gent (he couldn't have been a gentleman) who did this thing would only condescend to gulp down a schuper of the stuff, ten to one he would feel sorry for having been so fearfully liberal with the disinfectants.

Play Ball!

The baseball club held a fine practice at Queen's Park last night. Some splendid work was done in the various departments of fielding, pitching, catching, batting and base running. Brigham Adams, the prima donna of the club, showed up in magnificent style and played a paralyzing game of ball for his side. His work shows generalship and study; it is a study in itself. Both teams are practising for the match on Saturday as if there was a big salary attached to the business. One thing is certain, the match on Saturday afternoon will be no child's play; a game of baseball equal to the best ever seen in Westminster will be played, and those who miss it will miss some rare sport. The ladies especially should turn out and take advantage of the chance to see two smart baseball teams contending on the diamond for the mastery. Few games possess more of the power to raise the enthusiasm and interest of spectators to the wildest pitch than a skilfully played baseball game. The two local teams number among them some who have won laurels for their play in the east, and as they are once again in somewhat their old form, great things may be expected on Saturday. The game begins at 3:30 promptly.

PERSONAL.

J. E. Scarlett is over from Victoria.

A. McNair came in from Surrey yesterday.

L. W. Leithead, Montreal, is registered in town.

Louis Arrowsmith is in the city from Victoria.

Harry Flake of Portland is one of the latest arrivals.

CITY VOTERS' LIST.

NOTICE IS HEREBY GIVEN THAT, pursuant to the voters' list issues of the New Westminster Act 1888, a Court will be held by the Hon. W Norman Bole, Judge of the County Court, at the City Hall, on the 27th day of July, 1891, at 2 o'clock in the afternoon, to hear and determine the several complaints of errors and omissions in the voters' list of the City of New Westminster for 1891.

All persons having business at the Court are required to attend at the said time and place.

Dated the 9th day of July, 1891.

D ROBSON,
Clerk of the City of New Westminster.

HOTEL DOUGLAS

Shaving Parlor

Having opened out in business again I would respectfully ask the patronage of all my old customers and friends. Entrance off McKenzie Street and main entrance Hotel Douglas.

CHAS. BENNETT

Port Simpson has adjacent to it the largest salmon canneries on the coast, and from its nearness to the seal fisheries it must also become the headquarters of the seal fishing industry and the large fleets therein engaged. It has back of it millions of acres of rich prairie land, which in time will be peopled with ranchers and farmers, who will contribute to the building up of a large city.

PORT SIMPSON

The Coming City of the North Pacific, is Now on the Market and offers one of the Best Speculations of the Day.

Port Simpson affords the same opportunity to investors today that Vancouver did ten years ago. Ten years ago lots in Vancouver that are selling for $2,000 could have been purchased for $200, and there was not so much certainty of a railroad to Vancouver at that date as there is today of a railroad to Port Simpson.

Nature has determined Port Simpson for a Metropolis. It possesses the only harbor on the North Pacific Coast, and that harbor is pronounced by all mariners (including a British Admiral) to be the finest and safest in the world.

Port Simpson is five hundred miles nearer to Japan than are Vancouver and Victoria, and with the completion of the railway from Port Simpson to Port Churchill, on Hudson's Bay—only a question of time—it will be on the shortest route between England and the Orient, and must command a large share of the trade of the Orient.

It is the only place on the North Pacific Coast that can be reached by the railways that are pushing northwestward from Edmonton and Prince Albert, and without any doubt will be the terminus of another transcontinental railway within a few years.

The property now offered to the public must, by reason of its location—which stands to the surrounding lands just the same as the peninsula on which Vancouver stands—be the site of the future city.

On Queen Charlotte Islands—situated in the Pacific Ocean, nearly opposite Port Simpson—there is an unlimited supply of first-class coal, and it is also thought there is a good supply of coal adjacent to the Port on Work Channel, which is to Port Simpson what Barrard-Inlet is to Vancouver.

The Hudson's Bay Co. has had a trading post at Port Simpson for years, and it is the headquarters on the North Pacific Coast for the large and important trade of that rich and powerful company. The attention of the public is called to the fact that, as a rule, wherever the Hudson's Bay Co. has planted its trading posts, there have grown up important cities. Fort William, Winnipeg, Edmonton and Victoria are illustrations of this fact.

C. R. Tuttle, author of "Our Northland," published recently, concludes his interesting work as follows: "And in respect of transcontinental transport or travel from the United Kingdom to the far east, the advantages of the Hudson's Bay route, in connection with a railroad from Churchill to Port Simpson, will not only afford a safe national route, but so greatly minimize time and distance, that with its establishment Canada will become one of the most important parts of the British nation, and absolutely indispensable to the Mother Country. In view of these things, one may reasonably hope that England will eventually aid the Dominion in the construction of the Hudson's Bay railway. The importance of Canada to the parent country is so great that, in a few years at most, one may expect to see a disposition manifested on the part of the latter for closer federal relations. With these will surely come the means of a larger development of Canadian resources, the construction of railways in connection with Hudson's Bay, and the establishment of an extensive international commerce through channels on Canadian latitudes, and consequent national prosperity. Such are the prospects of Our North Land."

For Plan of Townsite, Prices, Etc., Call on

WOODS & POLLEY

COLUMBIA STREET

A few lots or a block or two purchased now may make the fortune of the investor. Prices are low and terms easy, only one-fifth cash being required, and the balance on time without interest. The owners of the townsite are among the most responsible and wealthiest citizens of Victoria. They are offering only a limited number of lots. First comers get first choice.

I WILL SELL BY PUBLIC

AUCTION

THE LEADING DRY GOODS HOUSE. New Westminster, B. C.

NEWS OF THE CITY.

LOCAL BREVITIES.

The ship Lanarkshire did not arrive yesterday as was expected.

Gun Club meeting tonight. All members are requested to be present.

The steamer Adelaide came up from the South Arm yesterday afternoon.

Another scow load of macadam has come down from the Pitt River quarry.

The steamer Kildonan of Vancouver is tied up at the Westminster foundry wharf.

Davidson Bros.—Skilful watch repairer and manufacturing jeweller.

The people of Alert Bay, or at least a majority of them, are suffering from la grippe.

The steamer Mamie came in from Victoria last night and tied up at the C. P. R. wharf.

Salmon berries are very plentiful along the banks of the Brunette river, and in a few places have attained a large size.

A fine spectacle was presented last evening by the forest fire which blazed fiercely on the hill behind South Westminster.

It was learnt last night that it is quite possible that further work on the Douglas-Elliot block may be laid over until next spring.

Picture frames and mouldings in great variety at Thompson's studio.

The streets were very quiet last night. Only one drunk was gathered in up to midnight, and he will face his honor this morning.

The next cricket match will probably be played against Victoria on the 8th August. Arrangements will be completed shortly.

The band held a mufti rehearsal in the drill shed last night. A large audience favored the musicians with their undivided attention.

If the World will give the name of the man who kicked the kitten, THE LEDGER will give the name of the man who haltered the horse.

The cyclists are gradually forsaking the sidewalks and making use of Columbia street, a change for which all pedestrians are thankful.

Six cents per lb., cash, paid for any quantity of good cherries at McDonald Bros.

The salmon catch yesterday was almost nil. A great many fishermen are thinking of hauling out their nets for the balance of the season.

Three or four racing skiffs were out on the water last night. The boatsmen seem to be getting into fine condition for the autumn regatta.

It is understood that the gun club will seriously take up the question of fish preservation at its meeting tonight. Their action will come home too soon.

The hose reel team have not yet received their Fairhaven prize, although it was won about three weeks ago. They expect to receive it by the end of the month.

A few days ago as a large band of cattle were being driven across the Chilcotin river, they stampeded, and getting into a canyon over a hundred of them were lost.

Refrigerators, all sizes, at McLennan & McFeely's, Vancouver. Delivery free. Telephone 41.

A gentleman from Montreal is looking around Vancouver for a good location for a boot factory. Westminster has many solid advantages to offer such an enterprise.

Some extensive alterations and improvements are being carried out on the ground floor of the premises lately occupied by F. G. Strickland & Co., on Front street.

This year's greengage and plum crop is a little backward, say those who generally know, and it is expected that its ripening will be prolonged until well on into the fall.

There is a standing challenge from a well known city sportsman to shoot against any man in the city for from $50 to $200 a side. None has yet taken up the challenge.

The Alberni quicksilver mines are doing well. Everything is reported to be in a very satisfactory state, work is progressing well and good results are showing all along.

When you want a first-class hack call up the Crown Stables; telephone No. 45.

The average temperature yesterday, between ten a. m. and four p. m., was about 85 degrees in the shade. At 3 o'clock the thermometer registered 91 degrees in the shade.

A trotting match took place on Columbia street last night between a pair of fine trotting horses from Gilley Bros.' stable. The contest was watched with a good deal of interest.

Chinatown is comparatively quiet and deserted during the present weather. Even the tough, all-enduring Chinese prefers to sit around in the shade rather than be out in the sun.

Among the crowd of pleasure crafts on the water last evening, a first-rate Peterborough canoe was seen, which, in the hands of one man, made first-rate time against a stiff current.

Hickinbottom Brothers, at Gilley Bros.' stables, have a full supply of veterinary medicines.

A small black bear belonging to Mr. Alfred Whitney caused considerable amusement to a little crowd of onlookers on Columbia street last night. It is known as the Bonanza bear.

Some miscreant on Wednesday emptied a shotgun loaded with small stones into a fine young Jersey bull belonging to Mr. Leonard of Nanaimo. The animal had to be killed to end its misery.

The Raymond excursion party to the number of 105, bound for Alaska, left Vancouver on Wednesday for Victoria. Raymond, the organizer of these tours, personally conducts this one.

The influx of visitors at Harrison Hot Springs is weekly increasing. Port Moody, nearer home, is almost equally favored, and the little burgh's prospects for summer boarders are good.

Refrigerators, all sizes, at McLennan & McFeely's, Vancouver. Delivery free. Telephone 41.

The bodies of the Indians killed by the recent land slide at the North Pacific Cannery, have been taken to their former home at Port Chester, Alaska. They were all Duncanite Indians.

A number of Chinese passengers from China by the Empress of India, came over from Vancouver by the evening train yesterday. They were received with open arms by their local compatriots.

The contract for the erection of St. Alban's Church, South Nanaimo, has been awarded to Mr. H. Omestead of that city, his tender being the lowest, $2,840. The work must be completed by October 22nd.

Admiral Hotham, on Wednesday, wired to the Admiralty, in answer to a dispatch, that there was no possible hope for the missing middies. Everything possible had been done for them, but without result.

For rent—A store room and upper flat on Front Street, adjoining Mathers & Milligan's. Apply to F. J. Coulthard & Co.

Great numbers of passengers are being carried north by the Alaskan steamers every trip. The Queen takes 200 from Victoria on her next trip; most of these arrived from the east over the C. P. R. a few days ago.

It is stated that the Wellington coal mines, near Nanaimo, have been sold to an English and Australian syndicate. The Austin Steamship Company, of Australia, is heavily interested in the purchase of the mines.

Admirable progress is being made on the new Central school building. The brickwork already reaches to a considerable height above ground. The scaffolding poles have been erected at the front of the building.

The Y. M. C. A. swimming tank was a popular spot yesterday. The water was spring-cold, clear as crystal, and looked too inviting to be resisted. It is estimated that over 100 took advantage of the delicious chance to cool of.

R. Dickinson & Co., the butchers you will find on Front street, and prepared to fill all orders as in the past.

The James Bay and Victoria Athletic Club baseball teams will cross bats at Beacon Hill on Saturday afternoon. The Westminster Club could get a match on with one of those teams for the asking. The V. A. C.'s are ahead in the four matches played this season.

The big gun drill of the B. C. G. A. was continued at McCauley's Point, Victoria, Wednesday, No. 3 battery having charge of the guns. William Lesser, of this battery made 12 points out of a possible 14, this being the best score of the three days. The distance was 1800 yards.

The salmon run on the Skeena is the best that has been known for years, the fish being so thick that it is with difficulty they are handled. The canneries cannot keep up with the catch. The run on the Naas is also improving wonderfully and the canners are looking forward to a splendid season.

The walls of the Armstrong-Young block have been completed, and the roof is now on. The parapet cresting will probably be put in place today. Though not yet finished, the front elevation of the block is very handsome, and is one of the leading architectural features of Columbia street.

Notice—William Johnston has removed his stock of Boots and Shoes to the Public Library building.

Mr. E. H. Port is having a fine sailing boat built by Mr. Beckwith of Port Moody. The boat is nearly finished and is a beauty. She will be bigger rigged for the present, although it is intended to fit her cutter of sloop fashion later. Mr. Port, it is understood, intends to enter her for the Celebration regatta.

Apropos to the movement in England and elsewhere, in favor of women wearing divided skirts and riding astride, a gentleman just returned from the Lillooet and Chilcotin country, remarks, that, while there, he saw a considerable number of women, whites as well as Indians, who had no use for the side saddle.

It is thought that the U. S. gunboat Marion now at Victoria, will be dispatched to the China station, since the American gunboats patrolling the entrance to Behring sea so effectually frightened the sealers and sent them skurrying homeward. At present only the U. S. S. S. Alliance and Monocacy are on the China station.

Guy W. Walker, Merchant Tailor, having dissolved with Mr. W. F. Beggs, is now at his old stand, 30 McKenzie street. Clothes cleaned, repaired and dyed as usual. The store will be closed from 7 to 8 on Saturday.

Officials of the Northern Pacific say that everything is being put in order along the road where the wheat traffic is expected to be heaviest, so that the crop can be readily moved. Rolling stock is being overhauled and new cars constantly finished, to b. in readiness. Trestle work is being filled in and the roadbed improved where it is needed.

A few days ago a young lady travelling on the steamer City of Seattle from Port Townsend to Whatcom, lost a $200 diamond earring on the boat, and later, a lady travelling from Victoria to Seattle, mislaid a valuable gold watch on the Kingston. In both cases the jewelry was found by waiters on the steamers, who restored the property to the owners.

Wanted—A second-hand buggy, any kind. Apply to D. McLaren & Co's.

The row of the great gibbons moan last night behind the giant pines of South Westminster hill, was supremely beautiful. The pale yellow luminary cast a broad shimmering path of amber, liquid light across the sable tide of the boisterous river, and through the diaphanous haze the still mountains, the wooded islands and the distant fells rose statuesque and pallid.

Mr. James Harvey, late manager for Messrs. James Ellard & Co., is the successful tenderer for that business. The competition for this line venture is a very keen, several handsome offers having been made, both by local capitalists and several from a distance. Mr. Harvey will open the store next week with a new and comprehensive stock and will conduct the business with the energy and enterprise that have characterized his methods in the past.

I have just received a fine stock of Gent's, Ladies', Misses' and Children's boots, shoes and slippers which I am prepared to furnish at prices lower than the lowest. James Donovan, Front Street, rear Bank B. C.

Being Rapidly Finished.

The raising of the smoke stack for the electric tramway power house will be commenced on Saturday, (tomorrow) and finished probably Tuesday or Wednesday. The company's officials state that if the trucks for the cars were here they could make a trial of the system in Westminster inside of this month. By the time the trucks arrive and the cars are prepared for their work the power house and line in both the cities and between them, will be ready to begin running on regular schedule time.

The Month's Shipping

For the week ending July 16 there were fifty-one vessels loaded at Puget Sound and British Columbia ports. Vancouver led the list with eleven vessels. Tacoma was second with seven and Port Blakely, Seattle and Nanaimo were tied for third place with six each. The other ports and numbers of vessels were: Port Gamble 5, Whatcom 5, New Westminster 3, and Victoria, Departure Bay, Port Madison and Port Townsend one each. Of the total number of vessels loading, thirty took on lumber and fourteen coal. Five of those at Tacoma took on lumber and two coal.

LIVELY LACROSSE.

The Westminster Juniors Have a Gay Time Last Evening.

The junior lacrosse boys had a glorious game last night at Queen's Park, play commencing at 6 and ending at 8; a large number of spectators were present and enjoyed the game exceedingly. The teams were composed and titled as follows:

East End—Pittendrigh, S. Peele, Grant, Paul, Levi, Gray, Patterson, Eickhoff, Quoy, H. Eickhoff, D. Patterson, Fraser.

West End—Furnace, Denus, Meyers, Carty, Moresby, Rousseau, Loisure, C. Peele, Williams, Haddon, Scott, Galbraith.

The first game was extremely lively, both sides going in to win from the start. There was a considerable amount of passing, some of it remarkably clever and pretty. The east side particularly excelled in this kind of play, and their exertions was rewarded by S. Peele smartly shooting through the western goal posts at the end of a hot twenty minutes play.

The second game was not so hotly contested, but the players were more wary and calculating; there were scrimmages galore, however, and in one of them the ball popped through the eastern posts in the twinkling of an eye, and nobody could explain how it was done.

Starting even for the third game it was seen that the east enders had determined to pile on the agony several fathoms deep, and they agonized to some purpose, for S. Peele again gave the little dodger a flip with his ready racket and instantly the faces of the west enders lengthened out; it was another goal.

The fourth game was a second edition of the third, bound in clouds of dust and for the east enders, gilt edged, for the irrepressible S. Peele once more sent the rubber to the right place and scored the third game for his side.

Dejection sat upon the countenances of the western men, but not despair. They walked in to the fifth game like heroes and hammered away merrily until Patterson of the east enders won the game very cleverly. The score of 4 to 1 in favor of the easterns gained them loud applause and many compliments from the seniors who were present. The west end boys were the heavier team, but the easterns had most of the skill on their side. The players who did the best work for the winning team were S. Peele, E. Pittendrigh, Grant and Gray. For the west end good work was done by Rousseau, Galbraith, Moresby and C. Peele.

CHILLIWACK CHIPS.

Progress Still the Watchword in the Thriving City of Centreville.

Things in Chilliwack are moving briskly. Streets are being actively graded, hollow places filled up and lots fenced in. There is a general striving after good and thorough improvement, so far as the streets are concerned. Houses are going up rapidly. Mr. S. A. Cawley's large hardware store is almost completed. Guy W. Walker's building will be finished in about two weeks. It will have two stores, and will be as handsome as any in the town.

The incorporation of the city of Chilliwack is being generally and favorably discussed throughout the neighborhood, and will soon be an established fact. Chilliwack's only tonsorial artist has almost finished a first-rate little cottage. Further developments are being looked for.

Mrs. W. T. Jackman has quite recovered from her recent severe illness and is now able to be about again.

People are coming into the town daily in large numbers, and all the hotels are constantly crowded to their utmost capacity.

The Chilliwack Brass Band is being liberally supported by the citizens, and its members are rapidly becoming first-rate musicians.

The prize lists for the coming exhibition have been distributed throughout the municipality and meet with general approval. Many of the local fruit raisers intend making a good fight for some of the prizes, and it is confidently hoped that no small number will fall to the share of the farmers of this section.

All the farmers in the district are busy getting in their summer crop of hay, which is very heavy and of excellent quality.

The census enumerators have nearly finished their work, and the representative for Chilliwack is now in Westminster rendering accounts and heads.

Railway matters are progressing well and all work will soon be completed.

THE LIBRARY

To the Public: In the belief that many citizens are desirous of making contributions of books to the Public Library, the Commissioners beg formally to request that any who desire to contribute should send a list of such books as they intend donating to the undersigned, who will have an officer of the library call for them.

It would be a great convenience if these lists were sent in at once, for until they are received the work of making a selection of new books cannot well be concluded, or an order given to the booksellers for fear of duplication.

A considerable number of volumes taken out of the old library by citizens have not been returned. The Commissioners request that all parties holding such books return them at once to the new library so that they may be catalogued. I have the honor, etc.,

ALLAY MORRISON,
Secretary Library Commissioners.

Auction Sale.

I have just received instructions from the Honourable W. Norman Bole, on account of change of residence, to sell by public auction the whole of his valuable furniture and bric-a-brac. Parties requiring furniture would do well to wait until this sale comes off, full particulars of which will be given in due course. T. J. TRAPP,
Auctioneer.

New Westminster, June 23, 1891.

A Pointer to the Public.

District Lot No. 28 lies immediately adjoining the city limits. The continuation of Mary Street goes directly through it, and the Electric Tramway will in a couple of months be running its cars every hour of the day through the centre of this property. The lot (No. 28) is composed of 128 acres of land as level as a table. Contracts have been let to clear and grub the ground, and leave it in perfect condition for building purposes. Already six citizens have decided to erect handsome residences there, ranging in price from $4,000 to $7,000 each. The whole of this splendid piece of property (except some limited portions already disposed of) will be put on the market in a few weeks. One great advantage in buying a lot and erecting a residence on this property is that the owner will avoid heavy municipal taxation. Make a note of it, and wait till the property is put on the market before buying.
