EVEN THE RADICALS

Northampton are too British to Tolerate Socialist Aveling.

AS BRADLAUGH'S SUCCESSOR

The Duke of Norfolk Protests Against the Government's Attitude on Gladstone's Bill.

RUSSIA OPPRESSING THE JEWS

The Khedive Advises a British Military Expedition to Reopen the Soudan.

The candidature of Socialist Aveling for Bradlaugh's seat from Northampton has aroused much aversion among the minority of Liberal leaders who wish to preserve the party as much as possible from any appearance of sympathy with Aveling views. Aveling does not command the respect of the Socialists, who look upon him as inclined to use his ostensible principles for personal gain; however, it is feared that his being in race at all will detract from, although it may not endanger, the chances of Liberal success. Northampton Liberals, although Radical, are thoroughly British, and they regard Aveling as an interloper with no genuine interest in British affairs. The Liberal vote will be given to Mansfield, a popular shoe manufacturer, who was once Mayor of Northampton, and who will, it is expected, obtain votes which Liberals of pronounced religious convictions denied to *Bradlaugh*. Mansfield stands like Mr. Furness on the Home Rule platform, besides avowing his readiness to support reforms in suffrage and hours of labor advocated by the Liberal party.

TO REOPEN THE SOUDAN.

The Khedive of Egypt has suggested to the British Government the wisdom of a military enterprise, with a view of reopening trade with the Soudan and *bringing* back quiet to that vast dependency of Egypt. The latest reports from Suakim, are that followers of the Mahdi's successor are rapidly deserting him, and that he is in straits to procure a field for those that remain. It is said that many of the deserters from the Madhi army are prowling about the country stealing children and selling them to Arabian slave-dealers for the Red Sea traffic.

THIEVES QUARRELING.

The Portuguese Government has lodged a claim through the Portuguese Minister in London, for the cession of a certain amount of *territory now* included in British India and alleged to be rightfully a part of the Portuguese Dominion.

DILLON TO THE FRONT.

A prominent Irish member of Parliament said today that Parnell and McCarthy would retire in favor of Dillon, and Dillon would be recognized as leader by all Irish parties.

NORFOLK'S PROTEST.

The Duke of Norfolk, head of the great Roman Catholic house of English nobility, writes to the London Times protesting against the attitude of the Government on Gladstone's bill to remove the remaining Roman Catholic disabilities.

NITRATE EXPORT PROHIBITION.

A report is current in commercial circles that Chili has prohibited the exportation of nitrates.

THE PUBLIC ADVISED.

The Chemical Union will invite subscriptions of £1,200,000 to effect its contract with the vendors of chemical works. *The public is advised by the* Times not to subscribe.

LOOKING AHEAD.

In an interview today, General Mitre, ex-President of the Argentine Republic, states that he expects to be in Buenos Ayres and in a position to proceed with his candidature for Chief Executive officer of the Republic by March 2nd.

INSPECTOR BOYLE DEAD.

James B. Boyle, public school inspector, died at his residence last night. He was well known throughout the Province and was one of the most prominent citizens of London. He was upwards of 80 years of age.

Waldersee's Successor.

BERLIN, February 5.—Lieutenant-General and Aid-de-camp-General De Wittich has been appointed by the Kaiser to succeed Count Waldersee as Chief of Staff of the German army. A new Southwest African Company has been formed at Hamburg with a capital of 20,000,000 marks.

GERMAN AFRICAN COLONY.

In the Reichstag today Chancellor Von Caprivi, replying to a question, said the coming year would be for the German colony in Southwestern Africa a year of trial. The Chancellor added he believed it to be desirable to await the expiration of that experimental period before abandoning the colony, a contingency which would certainly cause the Government embarrassment and annoyance. Herr Winthorst, the Centrist leader, favored the retention and continued support of the colony by the Government. Reichter and Bamberger, leaders of the Liberal party, opposed this view, and argued in favor of the abandonment of German colonial enterprise in Southwestern Africa.

BISMARCK RETICENT.

BERLIN, February 5.—In replying to an address presented by a delegation from Aix la Chapelle, ex-Chancellor Bismarck is represented to have said that he could give no reason for his refraining from giving expression to his views on public affairs. He was convinced in this opinion when he observed the attempts which were being made in different quarters to sap the *firm foundation* of the German Empire.

COME UP HIGHER.

BERLIN, February 5.—General Count Alfred Von Schlieffen succeeds Count Waldersee as chief of the general staff. He has been a member of the staff and bears a high military reputation.

CANADIAN NEWS.

Nominations and Other Regulations.

WINNIPEG, Man., February 5.—The competitions in the Manitoba curling bonspell, which opened Tuesday, are narrowing down. Of 66 rinks entered only four remain in the grand challenge contest. They are Flavelle of Lindsay, Fortune and Harstone of Winnipeg, and Grant of Calgary. These rinks play off for the cup tomorrow.

THOSE BONDED CARS.

TORONTO, February 5.—A Washington dispatch says there is substantial truth in the statement that Secretary Windom, *had he lived a few days longer, would* have issued an order forbidding Consular agents from sealing merchandise in Canadian ports for transportation in bond to the United States. The order, it is said, was to apply only to the sealing of cars with bonded merchandise, and its object was to prevent importation into the United States of goods from Japan, China and Australia, on the Pacific Coast, and from Europe or the East.

CANIDATES FOR CARIBOO.

ASHCROFT, February 5.—F. S. Barnard, Robert McLeese, D. Watt and George Ferguson are spoken of as probable caadidates for Cariboo district.

LAURIER'S SON.

WINNIPEG, February 5.—The son of Wilfred Laurier arrived here this morning. He will return to Montreal to-*morrow and instal himself permanently* at St. Lawrence Hall where he will make his headquarters till the campaign is over.

ALBERTA'S CANDIDATES.

CALGARY, February 5.—N. F. Davin M. P. for Alberta has already announced himself as a candidate for the Dominion House at the next election. Other candidates spoken of are Mayor Reilly of Calgary and Frank Oliver of Edmonton.

WILL TRY AGAIN.

ST. JOHNS, N. B., February 5.—Vance, who opposed Hale, Liberal, at last election and was defeated has been renominated by Carlton County Conservatives. Hon. Mr. Foster will be opposed in King's County by Col. Domville.

Leo is Wary.

ROME, February 5.—The Pope declines to make an official communication to the French bishops as to the attitude they are to assume towards the Republic.

An Important Strike.

CARDIFF, February 5.—A general strike of dock laborers is in progress, every coal pit in Cardiff is idle and pickets of strikers are guarding all dock entrances.

To Be Court Martialled.

LISBON, February 5.—The Government has ordered a court martial to convene on board a warship now lying in the harbor of Oporto on Monday next, to try insurgents arrested for participation in the recent revolutionary movement in that city. The Civilian Veiga, an insurrectionary leader, has escaped from Oporto and is thought to have made his way to England.

Too Smart for the Russians.

ST. PETERSBURG, February 5.—Russians in Central Asia are demanding that Jews be expelled from that region. The sole pretext for the demand is that the Jews outwit the Russians in trade and are monopolizing the traffic of the Asiatic markets. It is believed that the desired order for the expulsion of the Jews will be issued, if indeed it has not already been sent quietly to the Czar's representatives in Central Asia.

Sardou and the Hoi Polloi.

PARIS, February 5.—Sardou, the dramatist, is very indignant at the intimation that he would consent to reproduce "Thermidor" as a mutilated play to meet the objections of the Government. To a journalist who interviewed him, Sardou declared that he would never consent to modify the play, that as it has been suppressed in Paris he would do the next best thing by producing it in London. The original play, he declared, would be offered at the Lyceum, London, under the management of Coquelin. He had reason to believe, that its reception would be first rate.

Police and Students.

VIENNA, February 5.—The police at [illegible] which the students proposed to hold in honor of the Hungarian Minister of Commerce, Barossa. The students persisted, however, in defiance of the police, and held their celebration.

FORCED TO RESIGN.

VIENNA, February 5.—It transpires that the resignation of Dr. Dunajewski, late Austrian Minister of Finance, was rendered necessary to secure the support of the Liberals to Count Taafes' future policy, they being hostile to the German ex-Minister of Finance.

Female Wretched Reporter.

BUFFALO, N. Y., February 5.—The civil damage suit of Mrs. Edith Parsons Tupper, newspaper and magazine writer, against ex-Superintendent of Police Morin of this city for false arrest, was brought to trial in the Supreme Court here today. Mrs. Tupper was arrested in Toronto last July by mistake, as it was thought she was a servant girl who *had committed robbery* in Buffalo, and she wants $10,000 damages. Mrs. Tupper in testifying told the story much as it has been given before, relating graphically the various details of the examination in Toronto Jail, and how it was conducted in a manner to frighten and humiliate her. It will be continued tomorrow.

Enterprising Nanaimo.

The Association Football Club of Nanaimo have sent an order away for a handsome silver cup, which will be put up and contested for during the football season. The cup will be open for competition to all the Association football clubs in the Province, and the club winning the majority of the games will become possessor of the handsome trophy. The winner will be required to accept any challenge that may be issued by any other club, and will have to show they are able to retain it. The proceeds towards the expense of the cup has been raised among the merchants of the city.

SIR CHARLES TUPPER

Freely Expresses His Opinion on Reciprocity and Behring Sea Matters.

MACDONALD WILL RISK DEFEAT

On the Vital Issue of Unrestricted Reciprocity Between Canada and the States.

MEXICO READY TO REVOLT

President Diaz Acts Without Precedent in Consulting State Governors.

NEW YORK, February 5.—Sir Charles Tupper, High Commissioner for Canada, and Sir Donald Smith, arrived today on the steamer *Teutonic. In an interview* Tupper said, in reference to dispatches in the morning papers from Ottawa in regard to the proposal of the Dominion Government to the United States for a reciprocity treaty, that the article was accurate. In his opinion, the proposed treaty is far more comprehensive, more applicable, and in every way better *suited to the needs of both countries* than any previous treaty of a like nature. There is nothing asked by Canada that does not find its equivalent in benefit by the United States; neither do the United States or Canada lose dignity by the new proposals. The Mother Country will do all it can to advance their mutual interests. Referring to the position taken by Sir John Macdonald on the proposed treaty, Tupper said that the principal issue at the general election in the Dominion the latter part of this month would be this treaty. "Sir John and myself feel sanguine that the Canadian people will endorse the effort made in their behalf in the issue. Sir John is willing to risk defeat."

Regarding the Sayward case Tupper said, "We think vessels seized by the United States Government illegal, in the case of a vessel taken in Alaskan waters, Canada can through the home Government appeal to the United States Supreme Court, upon the question of legal action of her own officials. Canada *practically says to the United States,* 'We are willing to abide the issue as decided by your own courts in a case arising within your own jurisdiction.' He thought this the best evidence of good faith and absolute confidence in the integrity and wisdom of the United States supreme tribunal. In his opinion this precedent, mostly the outcome of emulation between the two nations, may be construed as an additional example of the good will and esteem Canada has for the United States. Tupper will remain in Canada till after the elections. Sir Donald Smith said his visit to England was for pleasure, and he *preferred* to say nothing regarding Canadian politics. Both gentlemen have left for Montreal. Mr. Agnus, manager of the Bank of Montreal, also met Tupper, Duncan McIntyre could not be found.

TUPPER INTERVIEWED.

Sir Charles Tupper, High Commissioner of Canada to London, was interviewed at the Windsor Hotel today. He said: "I did not come here particularly with regard to Behring Sea difficulties or the so-called 'Sayward' case, although I will probably look into both matters while here. Sir John Macdonald requested that I should come to discuss some important public questions with him. As to whether I shall take any *active part in the coming elections,* that is impossible for me to say at present. Just now I have no idea of resigning the Commissionership, as it has been reported I would. That the issue upon which the election will be fought will be reciprocity, there is no doubt. Unrestricted reciprocity

IT IS NOT DESIRED

by the majority of our people. If such a thing were brought about, either Canada or the United States would want to furnish a tariff price of foreign goods. If the United States took as a standard the McKinley Bill, that would not suit Canada, and if Canada submitted her present tariff it would make her a big smuggling highway to the States. The McKinley Bill has no doubt, to a certain extent, obstructed trade and has caused the people of Canada *to make great efforts* to open up trade with other countries. They have done so to a considerable extent and now find a good market for eggs, fish, game and other products in England. The Bill is adapted to obstruct trade between Canada and the States. Reciprocity will decrease trade, but the two policies are wide apart. Blaine may feel that a broad reciprocity measure between the United States and Canada would dispose of all difficulties.

I THINK SO MYSELF.

I would like to see trade relations between United States and Canada placed upon the broadest and most friendly basis possible, and I know such a state of affairs would meet with the approval of the home Government.

What have I to say about Behring Sea troubles? not a great deal. About the action taken in the Sayward matter, I regard it as a high compliment paid to the United States by Canada in leaving the whole matter to the Supreme Court of the United States for settlement. It shows that Canada has the utmost confidence in that body, who represent the people at large. The vessel was seized illegally, as we think, by the United States Government, but as it is a case within the jurisdiction of the United States Supreme Court, we are willing to abide by the decision of that court. *About the Behring Sea controversy* I have nothing to say just now. I wish to confer with Sir John Macdonald first.

SIR DONALD'S OPINION.

Sir Charles said that he thought the settlement of the fishery question would bring Newfoundland and Canada closer *together, and be of mutual benefit to* both, so far as the exporting or importing of fish was concerned. Sir Donald Smith, who arrived with Sir Charles Tupper, was also interviewed and expressed himself in favor of restricted reciprocity, provided nothing in the plan discriminated against England; annexation was out of the question. Sir Donald Smith and Sir Charles Tupper both left for Montreal on the 6 o'clock train this evening.

VERY HEAVY WEATHER.

The steamship Rotterdam, about which some anxiety was felt because she was a few days overdue, arrived this morning. She *reports very heavy* weather. On February 1st the captain reports that when off the banks of Newfoundland he sighted the steamship *Denmark proceeding* westward, apparently all right. The ships did not exchange signals.

DIED ON THE WAY.

The steamer Richmond Hill arrived today from London and brought several valuable horses, among them the celebrated 3-year-old St. Magnus. Ossian, the winner of the St. Leger in 1883, died on shipboard January 26th, as the result of the rough weather.

A MIND-READER'S END.

The body of the man who suicided in the Astor House on Tuesday night and *called himself* Fred Evans of England, was identified this morning by a stranger. According to this latest identification, the suicide registered under his right name, Frederic Evans was a well-known mind-reader, whose operations were chiefly confined to the Pacific slope, and whose former residence was San Francisco. The stranger in support of his statement, produced a photograph of the dead man and a letter from him with his *signature. Both corresponded exactly* with those found on the suicide's body.

Chicago's Big Subject.

CHICAGO, February 5.—Next Congress will be asked by the World's Columbian Exposition for an appropriation of $5,000,000 towards its advancement. This subject has been under consideration by the Ways and Means Committee officers of the National Commission. It was not known until yesterday that the directors were counting on Congress.

CUTTING FREIGHT RATES.

Chicago officials have been sworn to secrecy regarding the constant manipulations of eastbound grain rates. Prominent shippers declare that all, or nearly all, eastbound lines are cutting 12 to 15 per cent. by absorbing the lighterage charged in New York. Over 90 per cent. *of the grain going to the seaboard for* the last four months has gone at this cut rate.

Spoiling for Trouble.

SAN ANTONIO, TEX., February 5.—A detail of United States army officers have *just completed an examination of Mexi*can railroad lines, and also defences. They found them much more thorough than was expected, and coast works in particular were progressing with great rapidity. One of the officers who has just returned said today that he was reliably informed that President Diaz had been in consultation with the Governors of different Mexican States. This procedure was unusual, and much comment was excited by the fact that the President leaves shortly for France, where he will remain some months. He is said to be almost wholly broken down. The fact of his departure is only known in the highest circles. The country is not as quiet as it should be, and that the in*surrectionary spirit still exists was de*monstrated by the Sandoval revolution of last summer. The departure of the President is almost certain to be followed by trouble, and for this reason the Governors have been in consultation with him.

Legalized Ruffanism.

LONG ISLAND CITY, L. I., February 5.—The probable fight between the two famous feather weights, Cal. McCarthy and George Dixon, is set down to occur under the auspices of the Puritan Athletic Club in Long Island City tonight to be fought without interruption. Sheriff Goldner had, up to a late hour, received no orders from the District Attorney to prevent the fight. It has been settled that five-ounce gloves are to be used, and this, taken in connection with the fact that both men are unusually clever boxers, *precludes its being marked by* any brutal features. McCarthy is slightly the favorite in the betting among the experts of Long Island City, and if there is no interference by the authorities, and this is not likely, a stubborn battle can be counted upon.

POSTPONED.

The above fight between Cal. McCarthy and George Dixon, arranged for tonight at the Puritan Athletic Club, Long Island City, is off for the present, warrants having been issued for the arrest of the principals. The club officials announced that the fight would be indefinitely postponed.

The Terrible Mine Disaster.

HAZLETON, PA., February 5.—The community is plunged in deep mourning by the awful mining disaster at Jeanville mine. It is certain that of the missing men, seventeen in all are dead, and that most of them met their death by drowning. Water on the pitch of *the stope has risen 200 yards,* which is a higher point than any of the breasts reached, even though the men were not drowned, they would have died of suffocation long before this. A large inside mine pump which was stationed at the bottom of the stope to keep the lower level free from water, is covered with water and useless. Two smaller mine pumps have been placed in the gangway, and the work of removing the water was begun at 6 p. m. yesterday. It was first reported that water had broken through from the abandoned workings of old No. 8 shaft. This gangway has been stopped in a fault of solid rock, and according to maps of the engineer was about seven feet higher than the gangway of the lower level, and was separated from it by seven feet of solid rock. It is believed that while Charles Boyle and Patrick Coll was drilling a hole in the face of their breast they unexpectedly broke into the old abandoned workings of No. 8 shaft and that the water instantly tore *away the intervening rock and rushed* in upon them. Some of the officials are inclined to doubt this theory, and another is advanced that the water is from Carter's old mine, better known as the Coderaine. This mine has been abandoned for many years and filled with water, and the lines between the works come very close together. Until is is learned where the water is from it is impossible to say when it can be removed, as it cannot be learned how much water will run into the works.

Unfortunate Orphans.

MOSCOW, *February 5.—An orphanage* in this city was destroyed by fire this morning and nine children were burned to death.

NOTICE.

Receiver Appointed for the Truth Printing Company (Limited.)

Public notice is hereby given that by an order of the Supreme Court of British Columbia, dated the 6th day of December, A. D. 1890, the undersigned has been appointed Receiver for THE TRUTH PRINTING COMPANY (Limited), and in accordance therewith all monies due to the said Company will be payable to the undersigned, and all accounts against said Company shall be presented to the undersigned for settlement.

WM. RAILLIE,
Receiver T. P. Co., Ld.

New Westminster, Dec. 31, 1890. 1f.

The Ledger.

WHAT WESTMINSTER WANTS.

A vigorous effort should this year be made by our commercial and municipal authorities to let the outer world know more of the natural advantages of our city. It is not too much to say that whilst Victoria and Vancouver are now well known to the world at large, comparatively few even within the limits of the Dominion know anything of the possibilities of New Westminster. We are thus losing opportunities of attracting hither valuable new manufacturing industries for which the climate and situation of New Westminster and the natural resources of the neighborhood offer special advantages. Our people have been and still are too reticent. The time has, however, come for a new departure. One thing that might well be done is simple enough and need cost little. All that it requires is the compilation of an interesting and accurate description of our city, alluding briefly to industrial opportunities which are here yet open to men with capital. Such a description many leading newspapers of East Canada and Great Britain would readily insert, and the result would almost certainly be the early settlemen amongst us of valuable new undertakings. One thing is assured. New Westminster will never, without a large further development of industrial enterprise, become the great city of our hopes. We have to make New Westminster a place of many and varied manufactures, for the establishment of which, at least as many facilities are locally available as elsewhere in the Province.

RIVAL PROJECTS.

Senator DOLPH of Oregon has succeeded in getting a report from the Naval Committee of the United States Congress in favour of a grant of $500,000 with which to establish a coaling and repair station on the Pearl River, Hawaii. This is avowedly done in order to control the island in the interest of California in general and San Francisco in particular. The project will, according to the Seattle Press, anticipate and thwart the commercial success of the proposed Canadian Pacific and Australian line of steamers, it being hoped that the establishment of the coaling and repair station will be followed by the laying of a cable and the setting up of splendid steamship communication between San Francisco and the sugar plantations of Hawaii. Great Britain is meanwhile also understood to be anxious, in the interests of her colonies and her colonial trade, to establish a similar coaling and repairing station in Hawaii to that intended to be acquired by the United States. It remains to be seen which national effort will be the more successful. We of British Columbia most naturally hope, that everything possible may be done to promote the success of the new line of steamers and telegraph communication proposed to be established between our coast and Australia; and as these schemes are in good hands there is reason to expect that they will not easily be either prevented or outrivalled.

NOTES AND COMMENTS.

Mayor Brown has given notice of his intention to ask the Attorney-General whether the Government means to bring in a bill to prohibit, under penalties, the sale of cigarettes to "minors," by whom the questioner probably signifies boys under eighteen or nineteen. There can be no doubt, whatever the result on "children of a larger growth," that cigarette smoking by lads is highly injurious to their health. It is, therefore, desirable to prohibit under penalties the sale of cigarettes to boys. A short bill of two or three clauses, which there should be little difficulty in passing, would effect this. There is accordingly some reason to expect that Mayor Brown's question will receive an affirmative reply.

* * *

The Victoria Times is most unhappy because the Hon. Mr. BEAVEN's bill to make libel safe and easy has properly been rejected, not merely by a few self-seeking lawyers, as our contemporary insinuates, but by a vote representing almost every intelligent member of the Legislature. The Times' columns show that there is, even under the present law, scope for much evil speaking, as witness the persistent scurrilities with which it attacks the Attorney-General. This notwithstanding we hope that a judicious libel law amendment bill will, at an early date, be introduced and passed by the Hon. Mr. DAVIE. He can well afford to laugh at the slander of the Times, which is so clumsily gross as to defeat its object.

* * *

The tradesmen in Ontario are, says the Toronto Globe, able to try a most effective method of recovering debts from persons whose bills are long in arrear. The courts have decided that creditors may by placard, and without fear of the law of libel, advertise any debts for sale by tender, giving publicity on the walls to the amounts due, and the names and addresses of debtors. To do this would so discredit any debtor of fair repute that the threat of such procedure is no doubt occasionally hurled in terrorem at defaulters with very successful results.

* * *

The death of the millionaire Duke of Bedford, by his own hand during a period of temporary mental derangement, has caused diametrically opposite verdicts to be passed on his character and career. Thus some English papers speak of him, as having been one of the worst of rapacious landlords and a very churl; others declare that he was, as a rural landowner, at any rate, both liberal and considerate, and credit him with quietly disposing of large sums for charitable and other good uses. These extraordinarily divergent views of the character of a notable man of the nineteenth century serve to show how all but impossible it must be to ascertain the real character of many who made history in past centuries, when a vigilant

* * *

The senatorship election scandal in Washington State, will aid the movement in favor of a change in the method of election of United States Senators. Judge HOUGHTON, a leading supporter of CALKINS, the defeated candidate, now admits that he promised a State Senator a public office in return for his vote. There are also allegations of similar attempted corruption on the part of friends of Senator SQUIRE, and the best people of Washington State are consequently equally disgusted by the tactics of each set of electioneerers. The end of these things may be the election of United States Senators by the direct popular vote of each state.

* * *

A Canadian farmer, now hailing from Tacoma, gives would-be Ontarian settlers in Washington State, a very different idea of the land from that portrayed by its many "boomers." He writes to the Toronto Globe, as follows in the course of a long letter:

"Any Canadian farmer who is discontented because he don't get rich fast enough or has a debt on his farm had better make up his mind not to hunt for a better country than Ontario. If he comes out here he would be hunting a "Job" with the Swedes and Scandinavians, who swarm in this country, or else living on two meals a day at some Jap restaurant, like hundreds are doing in Tacoma and Seattle today. The boom is over. All the good land in the West is taken up, and lots of it that is not worth a dollar an acre is taken up, too. The Western rush is about over and there will be a set-back toward the East. The old farms of the East, which are now not valued very high, will in ten years be worth double what they are today.

Ontarians, who will go West, had better make for our Province, where are "Jobs" or jobs for all willing workers and excellent opportunities for thrifty Eastern farmers.

BUSINESS OF THE WEEK.

Commercial Situation in the City as Noted by the Ledger.

here is nothing of special note going st at present in business circles, although it is the dull time of the not a single complaint is to be d from any of the business men, who satisfied that there is more business e transacted at this season than was known before. The outlook for at the opening of the spring is bright, and with the large number emigrants already preparing to seek r fortune in Westminster and the hboring district the coming season is d to be one of unexampled prosper-

a ship and steamer building port, tminster has already an enviable tation, and prospects of develop- t in this direction are equal if not rior to those of any of the Provincial . At present there are no less than steamers of different sizes and capaci- being built on the banks of the er in and around West- ter, while six more are being either structed or overhauled; and, be- these, the number of scows, fish- and pleasure boats being built is on the increase and is at present large. A ship carpenter the other estimated the number of West- ter ship builders now actually ged at their trade at over 50; a fine ing for a town of this size.

e establishment of a market in this ring the present year is a matter alls for early attention by the of Aldermen. This has been ht forcibly to their notice by a tion of the Surrey Council passed t time ago. Ald. Sinclair has sug- that a temporary market place be on one of the city wharves for the r summer. This, in the opinion of is not a good plan, and in fact has insurmountable objections. One, very radical one, too, is because it likely that a wharf can be obtained t purpose; another, that such an tion never would be recognized as ket place, and it would therefore ly by very temporary indeed. For ne being the people are anxiously the report of the committee nted by the Board of Aldermen not store to look into this matter. people favor the idea of erecting a structure to be used jointly as a Hall and market building, on the rty at present occupied by the City

the joint committee now Victoria consulting the Gov- nt in reference to the ting of an appropriation to extend North Arm road along the course in- d for it are successful, and there is son to believe they will not be, a difference will be noted in the nt of business done with the farm- of that section; and with the comple- of the Lulu Island Road and Bridge, tminster will stand in a most advan- us position to transact business the people of Richmond Muncili- y, something that should have been long ago.

tminster will see at no very dis- date, the beginning on a small but basis at first, of many new indus- The first of these is a shoe fac- the appliances for which the jun- nber of the firm of Rousseau & s just gone east to purchase. This t will be run in connection this enterprising firm. A laundry is also to be ced as a novelty here, and when ilding now being constructed for purpose, also at Sapperton, has ished and everything in running the public will hear of it. Upon nouncement being made al- ady now up, prepare to come down this price, something he will surely t; it is to be feared, to no avail. rards the rumored establishment soap factory, there seems to be foundation. Messrs S. T. Mackin- & Co. have a client who is anxious chase the two ravine lots owned erty, facing Carnarvon Street and rear of the ravine property upon Mr. Joseph Wintermute is now ing a large addition to his extensive ture factory. These lots, it is rstood, are required by a company ns to establish a soap factory, and uld lots they are for the purpose.

In His Future Home.

ver Calbick arrived from Victoria rday morning, having in charge the Whelan, who wilfully murdered d F. Fee last Christmas Eve, and rrived in charge of Warden McBride he Penitentiary, at which place the ner convict will remain for the of his natural life. Whelan was very ubdued upon entering to serve term, and the severe lecture admini- d him by Chief Justice Sir Mathew Begbie seems to have completely him.

The Wrong Name.

has been observed at Sapperton the man who placed the street re at Sapperton has made one mis- The name of the thoroughfare from Columbia Street northwards the eastern side of the Penitenti- wall is Cumberland Street, and in its has been substituted the board ng the name of Brunette Street on Brunette Street is that running the shore of the Brunette River, erly known as the Pitt River Road. the mistake, if not corrected, will be ading.

Their New Quarters.

he Y. M. C. A. in its new quarters is ing a new lease of life. The reading m is one of the coziest places and appointed rooms in the Province. gymnasium or auditorium will ac- modate, crowded, very nearly 450 ple, comfortably, etc. This being ense, concerts, lectures and other ings will be held there henceforth. acoustic properties are superb. The n and piano in the hall sound splen- y and no doubt concert companies fine singers will have every oppor- ity to do their very best work there. re is still no word of the gymnastic paratus, but Secretary Davis, who, by way, is one of the busiest men in the at present, expects to receive the vice almost daily. The building may said to be finished in every part with single exception of the swimming k, which still requires some impor- t fixings. The gymnasium will prob- y receive a final coat of varnish, and hen that is done and the stairs are pected, the building may be considered shed. As was announced in these lumns some time ago Messrs. Crossley d Hunter, the celebrated evangelists, re on their way out to this Province d will favor Westminster with quite extended visit; the Y. M. C. A. will, course, prefer the two gentlemen the cal hospitalities and courtesies, and in w of this fact it is proposed to throw the building formally open sometime fore they arrive. The date has not en definitely decided, but it is a good ess to say next Friday evening. This ent will be marked by many impres- e and interesting ceremonies in which all the prominent people in the city will ably participate. Due announcement f the event will be given in these lumns.

A Cold Bath.

On Tuesday last, Mr. Newington, one of the mechanical engineers employed by Messrs Reid & Currie on the construction of the new ferry boat, had a rather close call from a watery grave. In endeavoring to step from the dock to the steamer, Mr. Newington misjudged the distance and jumped into the cold Fraser. Having some valuable pieces of iron and some tools from the machine shop in each hand, he was unable to do much, but in order to save himself, he was obliged to let them go to the bottom. Mr. Newington was rescued from his perilous position none the worse for his experience.

Hotel Arrivals.

AT THE DEPOT HOTEL:—D P Gelly, William Winskill, Frederick Grannan, Vancouver; James G McAdam, Aldergrove; John Rowe, Langley; Thomas Daily, Frank Dalton, Pitt River; Denis Guimet, St Rose, Que.

Where is It?

Is it not nearly time that the special Westminster number of the Dominion Illustrated had put in an appearance? This publication, the people of this city were assured by the agent when he visited here last summer, would be out the following October, then it was changed to the end of November, but no Dominion Illustrated came. By the end of December, nearly everybody had forgotten about the special number, when news was received from Montreal that the paper would surely be here by the middle of January of this year. That date has come and gone, and soon we will be in the middle of the present month, but still the number seems to be as far off as ever it was. The people who subscribed for the paper here would certainly like to know whether this special Westminster number is to appear or not. It is generally understood that views about the exhibition of last year were taken, and if these are to appear in the special number, they will be somewhat stale at this late date.

CHEAPSIDE
Auction Sale
EVERY SATURDAY EVENING

FOR SALE.

The following properties and Mortgages are offered for sale by order of the Assignee of

VERNON
THE TERMINUS OF THE
SHUSWAP & OKANAGAN R'Y

SITUATED IN THE HEART OF THE GREAT OKANAGAN VALLEY

THE RAILWAY CENTRE OF THE INTERIOR

The Shuswap and Okanagan Railway is now under construction and will be completed and in operation to Vernon this summer.

THE OKANAGAN & KOOTENAY RAILWAY CO. obtained a charter (with land grants of 20,00 acres per mile) to construct a railway from Vernon to Sprout's Landing, via the Coldstream Valley and Cherry Creek mines.

A charter is now being applied for from the Local Legislature to construct a Railway from Vernon south to the International boundary to connect with the American Railway system.

This is a great chance to make money, as Vernon being in the heart of the most extensive agricultural district in the Province, will undoubtedly become a large and flourishing city.

Arrangements have been completed with responsible parties for publishing a GOOD WEEKLY PAPER AT VERNON, the first issue to appear in April. This paper will be circulated by the Company in all parts of the world.

A LARGE HOTEL will be erected early this spring and plans for same are now being prepared.

PLANS OF TOWNSITE are now in all real estate offices.

OVER $80,000 WORTH OF LOTS

have already been sold. Many of these will have buildings erected on them this year. Special inducements are offered to builders; see price list. FREE SITES will be given to parties establishing industries. Financial assistance will also be given to responsible parties engaging in legitimate enterprises.

ADVANCE IN PRICES

The Company will advance prices of all central lots early next month. Intending purchasers should not delay selecting lots now in order to obtain the benefit of this advance.

Vernon is situated in a pass commanding and making tributary to it the whole of the famous Okanagan Valley and its tributary valleys, the grazing country of the Lower Nicola, the mining camps of Rock Creek, Granite Creek, Kereneos, Okanagan and Monashee Mountains, the placer diggings of Cherry Creek and Siwash Creek. It is impossible to get to any of the above places without first going through Vernon.

The opening of the Shuswap & Okanagan Railway this summer will flood this favored country with land and mining prospectors, etc., and will give a great impetus to the farming, fruit-growing, grazing and mining industries. Several important industries are projected and will likely be started in Vernon this year.

The best advice we can give intending purchasers is GO AND SEE FOR YOURSELVES. The C. P. R. to Sicamous, stage from Sicamous to Vernon. Leave Vancouver on Mondays or Fridays, arrive Vernon Tuesday or Saturday evening.

A MODEL FLIRTATION.

A RAILROAD EPISODE THAT ENDED PLEASANTLY FOR ALL.

A Writer Tells of One of the Happiest Traveling Experiences of His Life—A Demure Little Miss Captivates Him with Her Ingenuousness.

I believe some flirtations do a man positive good. The same may possibly be said of a woman, but being a man myself I am not so sure about it.

I was recently returning to Kansas City from an eastern trip. I had traveled two nights and a day, and my journey had been uneventful and tedious enough. I was in a particularly susceptible mood, I think, and perhaps too ready for any diversion that promised to make the last day of my journey a pleasant one.

It was at Roodhouse, Ills., I think, that a young lady of striking beauty entered our car. Almost every available seat was occupied. She came more than half the distance of the car and stopped opposite to me. I removed a package from the seat I was occupying and offered her a place beside me, which she at once accepted.

As she sat down I had a good opportunity to note her appearance. She was rather small and evidently quite young, though she had a manner and an expression of face that indicated knowledge and culture beyond her apparent years. She was exceedingly attractive. She had an open, ingenuous manner, an innocent soul that spoke unmistakably through her dreamy blue eyes, and the prettiest of red lips. Her hair was golden and her complexion was perfect, and she presented a picture that almost fascinated me.

UNCONSCIOUS FAMILIARITY.

I cannot remember now how we became acquainted. I do not even remember the first words spoken. I only remember that we were soon engaged in an interesting conversation without any feeling of restraint or embarrassment. On my part, at least, it was one of those rare meetings where the stranger seemed more like an old friend than a new acquaintance. She asked me many questions, which I answered to the best of my knowledge, and in turn I plied her with interrogatories on many different subjects; for, while there was nothing strikingly brilliant in her replies, she had a style of expression and other individual characteristics of speech that made me want to hear her talk continuously, and then she had an innocent and yet appealing look that enhanced the interest tenfold.

We must have shown our sudden liking for each other, and yet no one seemed to take any heed of us, even though we were in a railway car, where people have little employment other than to watch each other or to fall asleep.

We became better acquainted and more interested in each other. As the young lady grew enthusiastic over a scene we were passing she laid her hand, which I saw was lily white and dainty, on my arm, nor did she seem conscious of the act.

Some time afterward, in an animated conversation, she leaned toward me until her face was near to mine, and after a moment I discovered that her arm was lying on my shoulders, though I could not remember when she placed it there. And what may seem stranger still is that neither of us seemed at the time to think that our conduct might be improper or that any one would take special notice of it.

There are some people who can express more mischief in a look than others could possibly put into a caress. I have already said enough to show that I thought no less of this young lady on account of her conduct, which I saw was the outgrowth of innocence. On the contrary, I was charmed by it.

SHE KISSED HIM AT PARTING.

I learned with much pleasure that my new acquaintance would not leave the car until we reached Odessa, which was only an hour's ride from my own destination. Instead of longing for the end to come I found myself consulting the time table frequently and counting the distance to Odessa, begrudging each mile the engine made. I had no other motive than to make the most of this acquaintance during the few hours to which it was necessarily limited. I did not even learn the young lady's full name. Incidentally I learned that her Christian name was Mabel, though I remember now having heard her speak of herself as Mame.

That this unexpected meeting made a great impression on us both you will better understand when I describe our parting. On reaching Odessa I accompanied her to the platform, where I assured her of my feeling of obligation for such a happy day. She seemed equally grateful to me. As the bell rung for the train to start I turned to say good-by, when to my surprise she put her arms about my neck and kissed me. The action was as innocent and, despite its irregularity, as modest as if I had been a brother. There was not a sign of a blush, and not a word was spoken. Somehow I felt no embarrassment on account of what had happened. As I stepped on the moving train I felt that while we should probably never meet again our acquaintance had been a great pleasure and a refining benefit to me.

I do not think that flirtation in general should be encouraged. I am sure of it. Just what effect such a meeting and such a proceeding as I have described might have on girls of different ages and temperaments I will not attempt to say. But in this instance I am sure I did no harm. There is not the slightest tinge of conscience as I remember the trustful, innocent expression in those dreamy blue eyes as the fair maiden kissed me good-by. The time will doubtless come when she would treat me differently under the same circumstances. Her years alone plead strongly in excuse of what I have related. I learned from her parents, who, by the way, accompanied her, that she is now 24 years old.—Chicago Times.

Private Schooling in New York.

It costs on an average $800 for forty weeks' schooling in the fashionable girls' boarding school of New York, the extras for washing, baths, medical attendance, calesthenics, lectures on art, etc., and the society fads, and the indispensable seat at the opera, concert, drama and church amounting to $800. Special instruction in music, dancing and the language is a separate and distinct business arrangement with the professor. Day boarders pay $300, but there are extras for fires and lectures amounting to about $60 a year.—Exchange.

Select Legislative Committee Meeting.....G. B. Martin

LOCAL BREVITIES.

There was no Police Court yesterday.

List your property with L. J. Cole & Company. *

The steamer Brunette is doing a fine business between this city and the South Arm.

Mary, or Sixth Street, is being opened up very fast, the clearing being now up as far as the Latham property.

Go to M. Ross for your best smoking tobacco; Perique and Virginia mixture. *

An endeavor is being made to amalgamate the Tacoma Ledger and the Globe into one strictly first class paper.

Cheap for cash, 6 acres on Vancouver Road, within two miles of town. L. J. Cole & Co. *

Dan McLeod the wrestler has left for San Francisco to train for his match with Joe Acton of the Olympic Club.

Lost.—A folding key; one end brass and other steel, please return to Jas. Cash, Central Hotel. *

The members of the Royal City Mills Debating Club will hold a smoking concert in their new rooms on Alexander Street tomorrow evening.

For $800 you can buy 2 cleared lots on Columbia Street, one a corner lot; lots adjoining these are selling at $550. F. J. Coulthard & Co. *

The rail on Front Street at the foot of Douglas Street, broken down by the cars, has been put up again. This time it is well out of reach of the rolling stock.

Good morning—Have you seen those cheap lots in Sapperton at S. T. Mackintosh & Co.'s? *

People who travel on the river often will be pleased to hear that Captain Frank Oudin is again in command of a boat, being now master of the steamer Gladys.

See the lists of Real Estate for sale on 2nd page. *

The Westminster electric lights are plainly visible from Hammond and thence westward along the railway track. From La Ibers and Steveston the sight is very fine.

G. A. Roedde practical bookbinder, paper ruler and blank book manufacturer, Vancouver, B. C. *

Yesterday afternoon about 2 o'clock, snow suddenly began to fall heavily at Port Moody. The storm spent its furry in about two hours, leaving the landscape not a little changed.

Sing Chong, a Chinaman sentenced in Victoria by Mr. Justice Drake to two years imprisonment in the penitentiary for stealing, was brought to that institution yesterday in charge of Officer Caldick.

It is rumored that the steamer Premier will be put on the run between Seattle and New Whatcome to connect with the railroads meeting there as soon as the Bellingham Bay and British Columbia railway is finished.

New house, cost over $700, and half lot, 33x132, with double frontage on Royal Avenue near St. Andrew's, $1,400; terms can be arranged. Rand Bros. *

Mr. Mahoney the new foreman of the Royal City Mills yard is rearranging the lumber yard. He is piling the lumber in such a manner as to make streets and squares through that extensive place. Thus saving much valuable space.

Keep away from those lots in South Westminster that L. J. Cole & Co. advertise in the 4th column of this paper or you will be tempted to indulge in a few, as the view from them is enchanting. *

Yesterday a fine large safe was placed in the offices of Messrs. S. T. McIntosh & Co. The safe, which is about five feet in height, was ordered from the well known manufactures, Goldie & McCulloch, through Messrs. E. H. Port & Co. Front street, their Westminster agents.

For sale.—A well established good paying millinery and dressmaking business doing first class trade, terms reasonable. Apply Leisure office. *

The steamer Gladys came down from Chilliwack at 2:30 yesterday afternoon, bringing a considerable amount of freight and the following passengers: Messrs Barr Bros, Miller, Beattie, Percival Brownell, Donner, Cash, H T Read, Payne, Peterson, Irlson and Mrs Wood and daughter.

For a few days only we offer a limited number of *Liverpool* lots adjoining the lands of the Liverpool Land and Improvement Company at $50 a lot. Terms to suit. S. T. Mackintosh. *

There is trouble between the Westminster Steam Navigation Company and the Vancouver Foundry and Machine Works, respecting the machinery for the steamer Delaware which was turned out at the foundry. The matter was to have come up in the civil courts, but the parties interested have consented to an arbitration in which the matter is likely to be settled amicably.

Tenders are called for the clearing of one mile of the water front of the Liverpool townsite, at — per acre, from the river back to the railway track. Specifications can be seen and all particulars learned at the office of T. J. Trapp, agent of the Company. *

News of brutal wife-beating comes from Wellington. It is said that the wife is badly injured, but no serious results are anticipated. The husband was drunk at the time he so far forgot his humanity and his duty to the mother of his three children. Affairs of this kind are a disgrace to our boasted civilization, and should be stamped out with a firm and determined hand.

Remember that the Liverpool Land & Improvement Company's property will be placed on the market on March 1st. Large city lots, water lots with deep *water frontage*, suitable for manufactory purposes; and 5 acre blocks. It will pay you to get a foothold at this point. Prices low and terms easy. *

When the murderer Whelan was taken to the penitentiary yesterday, he promised to give the suit of civilian clothes which he was wearing, to a convict whose sentence has expired and who goes out today or tomorrow. He at the same time remarked that this was no small gift, as the suit would fetch at least $100 in Seattle as a curiosity. When weighed before entering the bath, the prisoner tipped the scale at 147 pounds. He seems perfectly resigned to his situation.

PERSONAL.

E. A. Jenns is in Victoria on business.

Ald. Scoullar is at the Clarence in Victoria.

James McArthur, Victoria, is at the Colonial.

Ald. J. R. Kennedy is at the Oriental in Victoria.

W. L. Fagan, the genial tax collector, is in the city.

D. McRae, Timber Inspector, is at the Hotel Douglas.

W. Grimmer, J. P., of Pender Island, is in town on business.

W. McGillivary and wife of Sumas came down yesterday.

Dr. R. H. Port returns this morning to Sumas City by the steamer Gladys.

A. J. Tolmie of the Hotel Douglas was in Vancouver on business yesterday.

Mr. Grimmer of Pender Island, an extensive sheep raiser, is in the city.

H. T. Read returned to the city yesterday from a business trip up river.

W. Moresby went up the line on business on the 1 o'clock train yesterday.

James Easty of Tacoma was among the arrivals at the Hotel Douglas yesterday.

J. R. Figg of Mayne Island, who broke his leg a few weeks ago, is progressing favorably.

Mr. and Mrs. Creighton went over to Nanaimo yesterday afternoon on a visit to friends there.

Mr. Hayes, the popular Front Street tobacconist, is about to start business in South Westminster.

J. M. McMartin has recovered from his recent attack of pleurisy, and will be in his post at the Custom House next week.

James Punch, M. P. P., is slowly recovering from a severe attack of fever. He is at present confined to bed at St. Mary's Hospital.

T. S. Higginson, Crown Timber Agent, this city, had his leg broken in the railway accident which happened on the Canadian Pacific near Schreiber, a station on the Lake Superior section, the other day. Much sympathy is felt by his many friends in this city.

Weather Report.

Captain Poole is authority for the following meteorological observations taken yesterday. Thermometer at 10 a. m. 34, at 3 p. m. 35, at 9 p. m. 41. Maximum 41, minimum 34. Barometer at 10 a. m. 29.81, at 3 p. m. 29.79 at 9 p. m. 29.56. Indications of southeast gale and occasional rains for today.

A Regular Boulevard.

The best riding and driving road in the neighborhood of the city is that leading to Port Moody. After passing the Brunette River bridge the road is as dry as a bone, hard, firm and free of rocks, stumps, trees or stones, which is considerably more than can be said of some other roads leading from this city. On Sunday last quite large number of equestrians and carriages were noted enjoying a spin along the Port Moody Road. Were its fine condition more generally known, the public would patronize it to a greater extent than they do.

Unrulled Security.

Scarcely a ripple disturbs the placidity of police circles just now, but it is a fact that there are in this city at the present time some very questionable looking "cases." The other morning about 2:20 a belated pedestrian encountered two men each carrying a bundle under their arms, standing beneath Wintemute Bros.' verandah. Both men stared very hard at the solitary traveller, but said nothing. The said solitary informed a patrolman whom he met further along the street and he posted after the suspicious looking couple, no more having since been heard of the affair. The pleasant rest which the city chicken coops have had this winter seems to indicate that either the spertive chicken thief has turned his elastic wits to higher game or the petty thieving fraternity are trying pastures new.

The Fraser's Leviathan.

The much-talked-of new ferry is now so far advanced that a short description will not be out of place. Yesterday steam was got up and the engine run for a considerable time, everything working better even than was looked for. The engines, of which there are two, are fitted with balanced valves and embrace all the latest improvements, amongst others a new packing, which is, Mr. Reid says, the first of its kind used in this Province. Each cylinder is 16x48 inches, and it is calculated that the two together will develop about 300-horse power. There is on board, besides the pump for the boiler, a large fire pump having the following dimensions and capacity: Diameter of steam cylinder 18 inches, water cylinder 10½, stroke 16, and will throw on an average 500 gallons per minute, but can be increased to 700. This water can be thrown in five streams simultaneously, and there can be no doubt that the city will some day have occasion to admire the forethought that armed it with such a powerful protector against fire. The boat itself, which carries all, and yet is moved by these engines, is constructed of two scows, placed parallel with each other, and ten feet apart. The space between, and the two scows themselves, are entirely decked over, with the exception of a space 10x22 feet, in which the wheel turns. The wheel is thus protected from ice, etc., by working between the scows, and also by an iron grating, placed at either end of the channel in which the wheel works. Upon this deck are the cabins and engine house, and above them is the wheel house, with a wheel at both ends, the vessel being constructed to run either way. Of the cabins before mentioned there are four—two at each end—one for ladies and the other for gentlemen, both rooms being provided with a lavatory. The vessel itself, measuring 100 feet long by 40 wide, it is to be hoped, is more useful than ornamental, as it certainly cannot boast of any great beauty. It is, however, well and strongly built, and affords plenty of accommodation for teams on either side of the deck houses, and will undoubtedly do good work when once fairly started. Mr. M. G. Terhune is the builder of the vessels, and Messrs. Reid & Currie constructed the engines. The boat will probably be in regular operation by this time next week, and is sure to be enormously patronized every trip.

A Large Contract Let.

A contract for clearing one mile of the city front of Liverpool has been let to L. McQuarrie & Co., who will commence work at once. It is rumored that this is only the first of a long series, it being the intention of the landowners to clear the whole of this townsite both up and down the river on either side of the railway wharf.

Permission Granted.

It is learned on excellent authority that the Dominion Government have granted permission for the construction of a bridge across the North Arm of the Fraser River at Lulu Island. This important work which has been, as it were, hanging fire for want of this coveted permission, will now be pushed forward with all possible vigor, everything having been in readiness for a commencement some time ago.

Another Business Block.

Mr. G. W. Grant, the architect, is now preparing the plans for a large business building to be erected by Mr. James Cunningham on the lot at the corner of Columbia and Alexander Streets. The building, which is to occupy nearly the whole of the block surrounded by Alexander, Columbia and Begbie Streets, will be a three-story brick, and one of the handsomest of the many that are to go up during the coming spring. This is a splendid corner for business, and there is not the slightest doubt that the spacious stores to be placed there will be as eagerly sought for as those in the library building at present. The business block to be erected by Mr. Cunningham will cost over $20,000.

A Much-Needed Law.

It is expedient that the Council should by some enactment compel the erection of some kind of boarding over the sidewalk opposite buildings in course of construction, so as to afford protection to the lives and limbs of people passing that way. Several narrow escapes have been reported lately, and it is clear that it does not necessarily require a brick or a block of stone to make an "accident": a chip of stone or brick, a falling nail, or a splash of mortar striking an upturned eye may result in the deprivation of sight or other lifelong injury to the unfortunate victim. Nearly every other British city has some law whereby the safety of foot passengers is assured from such accidents, and Westminster, where so many large buildings are in course of erection and to be erected, urgently needs a similar municipal statute.

Poultry and Pet Stock Association.

The initial meeting, with a view to forming the above association, has been held in Vancouver and a committee appointed to meet that from this city. The two committees will meet in Vancouver, probably next week, and the affairs of the Association will be got into shape for the first meeting of the Association, probably in this city, at which the officers, etc., will be appointed. The meeting should have taken place this week, according to the statement made by the secretary of the Vancouver committee to the secretary of the committee here, but it is probable that they did not see their way clear. The latter gentleman has recently received several communications from people in the district asking what has become of the Association, as they are anxious that such an organization should be immediately formed. Their first exhibition will in all probability be given in connection with the show of the Royal Agricultural and Industrial Society next September.

Scathing Critics

With all deference to the memory of the immortal Burns, it is certainly a merciful dispensation of Providence in some cases that people are not able to see themselves as others see them, for if this were the case many of the world's most illustrious men would have to hide their diminished heads, could they hear the scathing criticisms so often passed on them in the sanctum of a well-known Columbia Street house of refreshment. Last night George Augustus Sala was hauled over the coals, and his fair name as a journalist considerably blackened during the operation by a leading scientist of this city. As has been intimated, many others are treated in a like manner, so that it seems a sad pity that such wit and wisdom should waste its sweetness on the desert air of this small city, when, if transplanted into the more genial climate of some metropolis, it might rise to such heights as never to be seen or heard of again, while it would certainly never be missed here.

Aristocracy in Hogs.

It is pleasing to note amid the flying rumors of hog cholera, hog measles and hog la grippe that a gentleman of Port Moody has shipped a large consignment of the pure unadulterated and boisterously healthy hogs of that delightful summer resort to this city. As an elderly Irish gentleman remarked on hearing the news last night, "May Hiven rest his soul; he gorry it does me owld heart good to hare as the dare cratures comin' here." As most people know who have lived in these parts any length of time, the hog as raised at Port Moody is an animal worthy to figure on shields and banners beside lions, leopards and tiger cats. Reared in an atmosphere of sweet content, in a spot notorious for its epicurean style of living, his mind refreshed by the prospect of unrivalled scenery and his slumbers deepened by the gentle murmur of the ever murmuring sea, surrounded by peace and justice, and confronted at all hours of the day with all the food he can get away with in a lifetime, the fat, sleek, healthy, happy, contented, even tempered Port Moody hog can place his forepaws on his ample paunch, heave a sigh of relief and say, "Well, happy am I that my lot was cast in Port Moody, for trouble here is scarce and my trough runneth over." And this noble animal when transmuted into pork imparts even in fried, roasted, boiled stewed or fricasseed death something of the soft and trusting contentment that solaced his own years of life, and brings to his eaters total surcease of alarm concerning trichinosis, cholera, measles, jaundice, grippe or gout, or any other evil to which animated hog meat is liable. To know that the hog came from Port Moody gives both appetite and digestion.

LOTS IN SOUTH WESTMINSTER

Lots in South Westminster, commanding a magnificent view of the city, going for a short time for the small sum of $50 and upwards, and on the easiest terms imaginable. Also some of the

Choicest City Lots

LIVERPOOL LAND AND IMPROVEMENT CO.

The Property of this Company

Will be placed on the market on the *1st MARCH* next, and consists of upwards of *400 Acres* of the most desirable land at the *New Town of Liverpool*, including the whole of the deep water frontage which extends one and a half miles on the Fraser River, from the N.W.S. Railway wharf east, and is the only really desirable location for Manufacturing and Shipping Industries near New Westminster.

Liverpool is the terminus of the New Westminster Southern Railway Company, and have bought 40 acres of the Company's land. Extensive buildings have been located at this point by the Railway Company. The Yale Road has been surveyed to this point and an excellent grade secured through sections 29 and 1, and profiles prepared for the work. This road will be opened up and graded as soon as permission can be secured. Streets running through the Company's property will also be cleared and graded, which work will be well under way before any of the property is offered for sale.

Sections 2, 3, 4 and 9 have been laid out and staked on the ground. The lots are all 66 feet wide and front on streets one chain wide. Every inducement will be offered to manufacturers and investors. Whoever has money to invest will do well to consider Liverpool before investing elsewhere.

REMEMBER MARCH 1st AND LIVERPOOL

REASONS FOR INVESTING IN LIVERPOOL

LIVERPOOL is endorsed by parties who are authorities on the subject to be *The Best Speculative Property* in sight today.

Liverpool is the terminus in B.C. of the American system of railways. In two years, if present arrangements are matured, three railways will terminate at Liverpool. In a few weeks all traffic for Sound points over the C. P. R. will go by way of Liverpool.

All material for the railway from Sedro to Seattle will be transferred in cars by the Railway Company's Ferry at Liverpool.

Passenger and Freight from Seattle and Fairhaven for the East, per Great Northern, will be landed at Liverpool, and New Westminster over the C. P. R. Seattle, in a few days, will be reached by an all-rail route in seven hours from New Westminster, via Liverpool, without the inconvenience of a sea voyage.

Freight for the Sound points, over the C. P. R., can be shipped by Liverpool without breaking bulk. Lumber and all manufactures can be shipped from mills at Liverpool to all points in the Northwest at the same rates as from New Westminster.

Capitalists have a better and surer chance of making money at Liverpool than at any other point.

A sawmill and shingle mill will be erected at Liverpool immediately. The Company's property at Liverpool is excellent value; their lots are large and terms easy. All particulars of
