OTHERS TAKE HAND IN STRIKE

The Engineers, Firemen and Brakemen Will Back Up Trackmen.

Mass Meeting at Winnipeg Addressed by Labor Leaders.

(SPECIALS TO THE MINER.)

Montreal, June 22.—There is good authority for the statement that a meeting has been called for tomorrow by the Brotherhood of Locomotive Engineers, firemen and brakemen. They will appoint a committee to confer with the management of the C. P. R. with a view to bringing about a settlement of the trackmen's strike. It is also stated that the brotherhood look for a settlement of the strike before the end of next week. It is not claimed that the C. P. R. will grant all the demands of the trackmen's committee but a fair compromise is looked for as a result of the intercession of the committee to be appointed by the different brotherhoods of railway employes mostly interested in the condition of the road bed.

Winnipeg, June 22.—As far as the company is concerned there is nothing new in the C. P. R. strike situation. The company and men cannot agree on the question as to how many of the men have gone back to work. The company says several gangs have returned and that more will follow. This the men deny and state positively that there is not a man working on the section between here and Brandon and that there is not likely to be any return to work until word to do so comes from Montreal. Reports which the company will not confirm are being spread from time to time around the station here. It is stated that the train from the west last night was delayed for two hours owing to section men having let the water run out of the water tanks west of Regina. The company, on the other hand, say that the train was late owing to a heavy load it had to haul that day.

The train from the east this morning was five hours late. There were two sections as far as Fort William and the company's officials state that the delay was caused by having to connect two trains. The men say this was not the only reason for the delay, that it was owing to wires being down which prevented proper dispatching. How the wires got down the company don't feel disposed to say and it is hinted the section men could tell something about it. Another story that is told by the men is given by them to show in what sympathy the people living at wayside stations look on the men's attitude. It is stated that when one of the west bound trains arrived at a station not far from Ignace, the engineer found leaning against the water tank, a man who appeared to be waiting for the train. This was the case for when the engineer was near enough the man asked him if he might climb up and ride to the next station to get something to eat. The engineer asked him what was wrong with getting something to eat at the town where he was at. The man said two stores in the place refused to give him anything. He had money to pay for it too. The engineer wanted to know what he was. "I'm patrolling here for the company," said the man. "In that case," said the engineer, "then you will do no better at the other station, so you might as well stay right here and reform." It is understood that the company are now making preparations to feed the patrolmen by sending out cars of supplies.

A meeting of the striking trackmen and other prominent labor unionists washeld last night in trades hall. The time was spent in listening to addresses from those interested in the labor movement. The strikers were assured that they had the sympathy of other labor unions and the general opinion expressed was that if the strikers remained firm they were sure of obtaining concessions for which they were fighting. It was also announced that the bridgemen in British Columbia had gone on strike in sympathy with the trackmen. The principal speech of the evening was made by Mr. A. W. Puttee, M. P. He advised the men to stick to the committee now at Montreal in charge of their affairs. He said he was personally acquainted with Mr. J. T. Wilson, president of the order, Joseph Lennox, chairman of the committee, and other members of the committee and they could be relied on. The committee had done its best before the strike to secure a settlement of the matters in dispute but the concessions proposed did not touch the mass of ordinary trackmen and therefore could not be accepted. Other speakers gave very encouraging reports as to the stand of the men.

The strike situation at Nelson yesterday was much the same as the day before. All of the men are out and staying in town as a rule. The steam shovel at Slocan Junction has resumed work, four men having been secured to operate it. The report was current yesterday that the men at the Rossland end of the line were all at work.

CLOSING THE ST. EUGENE.

Moyie to Suffer Another Serious Reverse Next Week.

The report as to the probable closing down of the St. Eugene properties at Moyie, which appeared in The Miner last Wednesday was confirmed yesterday. The property will close down about the end of next week. For some time the company operating the St. Eugene have been shipping their concentrates direct to Belgium for both smelting and refining. While there has been a profit in this, it is evidently not considered enough, and it is said that for this reason there will be a total close down. This will be a severe blow to Moyie, as the town at present depends entirely on the St. Eugene either directly or indirectly for its existence. There are several small properties being worked in the vicinity of Moyie, but from the small number of men employed they are comparatively unimportant as regards the town. One of the best of these is the Aurora group, on the opposite side of the lake from Moyie, which is owned by the men who sold the Lake Shore to the Gooderham-Blackstock corporation two years ago. They are well satisfied with the results already secured, and will continue the working of the property which will eventually make a good mine from all indications. The same conditions which retard the development of lead properties everywhere in British Columbia at the present time, will also keep the Aurora from being worked beyond a certain point until a lead refinery shall have been established in Canada. This also applies to the other properties that are being worked in the neighborhood.

A large sawmill was to have been established at Moyie this summer, but owing to the high water it was seen that the only site available close to the town was liable to be flooded so the mill is being put in a couple of miles east of the town.

TO HOLD INQUEST.

Jury Will Enquire Into Death of Neil McLennan in C. P. R. Yards.

An inquest has been called to be held over the body of Neil McLennan, who died at the general hospital on Friday evening as the result of the injuries received in the accident at the C. P. R. yards the same day. Before the body was removed to the residence of the deceased's brother the jury, who were duly sworn in, reviewed it and the sitting of the jury was adjourned until Monday morning at half past ten at the police court, when the witnesses to the accident will be examined before the coroner. The following are the jury sworn: Geo. W. Jackson, A. P. Hayes, C. A. Waterman, W. A. Thurman, J. A. Paquette and G. F. Motion.

The funeral of the deceased will take place this afternoon at 2 o'clock, from the residence of Capt. Alex. McLennan, brother, on Cedar street below Vernon. The service will be conducted by Rev. Dr. Wright and the funeral arrangements are in the hand of S. F. Clark, McArthur & Co.'s undertaker.

FIRE IN THE VICTORIA BLOCK.

Brigade Quickly Responds to a Call and Little Damage Done.

Last evening about half past seven o'clock the city fire brigade had the first genuine run for several weeks and were so promptly on time that they succeeded in preventing what might have been a very serious conflagration. The fire originated in the rooms occupied by Mrs. Carr in the Victoria block, in the brick addition next to the Clarke house. The rooms are used as dressmaking parlors and Mrs. Carr also resides there. After the close of her week's work the usual weekly clean up was in progress and the results of the work of the broom were deposited in the stove. This caused an abnormal draught with a consequent rise in the temperature of the stove. The wood box, which was standing near caught the infection and transferred it to the plaster wall. Before the occupant of the rooms was aware of it the place was filled with smoke and the alarm of fire was raised. The firemen were quickly on the spot and by the aid of the chemical the blaze was soon extinguished. The fire had eaten its way into the plaster and the wood box was burned to the floor of the room. Fortunately the fire had not made much progress before it was discovered and the damage to the property will amount to a small sum.

The Nelson Trades and Labor Council have entered into an arrangement with the hardware men of the city in regard to the half holiday movement. The merchants have agreed to close their stores on Saturday afternoon as they find that by having the wholesale business in addition to their retail business it is practically impossible to close in the middle of the week. This arrangement has been accepted by the local union men, and the half holiday is now practically endorsed by all the leading business men of the city.

TO BUILD TO JAMES BAY

First Step Taken Towards Connecting it by Railway With Quebec.

Winnipeg Census Enumerators are Anxious to Get Their Money.

(SPECIALS TO THE MINER.)

Quebec, June 22.—The first practical step towards the construction of the railway to James Bay has been taken. Henry O'Sullivan and a party of engineers have left to locate the first ten miles of the section of the proposed road from Roberval toward the bay, which will be given out to contract in a few weeks, as soon as the engineers have completed their work.

Montreal, June 22.—"Jimmy" French, well known for many years as the porter of Sir William Van Horne's private car, was found dead in his car, the Saskatchewan, at the Windsor street station this afternoon.

Dr. Donald Hingston, son of the eminent surgon, Sir William Hingston, M. D., has been appointed house surgeon at the Hotel Dieu hospital of this city. He is only 23 and a graduate of Laval.

London, Ont., June 22.—The writ for the bye-election to fill the vacancy in the Legislative Assembly, caused by the resignation of Colonel Leys, as a member for London, was issued today. Nominations were fixed for July 2 and the election will be held a week later. Colonel Leys is likely to be reelected by acclamation.

Chambly Canton, Que., June 22.—While driving last evening Stanley Willette and his wife were, with their horse and trap, precipitated into the canal about a mile and a half from the village, and before help could reach them Mrs. Willette was drowned. Her body was recovered.

Brockville, Ont., June 22.—Archdeacon Bedford Jones died suddenly last night after a short illness, resulting from his attack of la grippe. He was 72 years of age.

Quebec, June 22.—A warrant has been issued here for the arrest of Edward Mahoney, alias Avy Holson, on a charge of having fatally injured his adopted mother, 66 years old, who had interfered to protect her husband against Mahoney who was drunk at the time. The woman is dead and a coroner's inquest is now in progress.

Winnipeg, June 22—Sixty-six enumerators who took the census in Winnipeg, are still without a cent of salary for their work. A deputation from their number waited on A. W. Puttee, M. P., this morning to urge that their salaries be paid. They represented that many of their number were not in the best of circumstances and needed the money urgently.

Lady Schultz has left for England to secure a $20,000 memorial window for her late husband, Sir John Schultz, to be placed in Holy Trinity church.

Ottawa, June 22.—An order-in-council has been passed providing, when an applicant who has acquired five berths, can show to the satisfaction of the Commissioner of the Yukon territory that he actually requires additonal timber for manufacturing purposes at a mill or mills, which he has erected, the provision restraining the granting of more than five berths to one applicant may be waived.

Victoria, B. C. June 22.—One of the warrant officers at Work Point, Conductor Carl Wiggins of the Army Ordnance corps, has been granted a commission, being appointed assistant commissary with the honorary rank of lieutenant, and augmented in the army ordnance department. Wiggins, since 1898, has been here opening up an ordnance department at Signal Hill. This is the second promotion from warrant rank to commission since the war, the other being Master Gunner Wylde, who was posted to Woolich a year go as lieutenant.

Victoria, B. C., June 22.—News has been received from Alberni that the Thistle group of claims there has been bought by Hunter of San Francisco, for $15,000.

SILVER KING PROSPERING.

B. C. Review, London, Eng.: The recent cablegram published by the Hall Mining & Smelting company endorses the rumors which have been current in Nelson for some weeks past as to the discovery of very good ore bodies at the lower depths of the Silver King mine. This, which was one of the first mines to be worked in the Province, has probably put out more ore than any other property, and it is exceedingly satisfactory to hear that it is likely to again take its place among the big producers. The rise in the price of these shares, which not so long ago could have been picked up at 1s. a piece, appears to be warranted not only by the improved outlook at the mine itself, but from the fact that the profits of the smelter have defrayed the cost of the new mining plant which has recently been laid down, and also the extensive development which has been undertaken at the mine, upwards of 60 men being constantly employed since the re-organization of the company.

RAILWAY TO REPUBLIC.

Work Will Be Commenced Immediately and Rushed Through.

The St. Paul representative of The Spokesman-Review wires his paper that Peter Siems, the contractor who is to build the Republic branch of the Great Northern north from Spokane, was seen by The Spokesman-Review representative tonight. Mr. Siems said:

"There is no contract for the building of this road. I shall do the work under the approval of the chief engineer. With John Stevens engineer, I shall leave for Spokane Monday. We will go over the ground and reach a basis for carrying on the work

"There are to be eighty miles of road built and to do this by fall will necessitate some rush work. I shall put men to work at once; as many as can be worked to advantage.

"I have sent out some working outfits and others will follow at once. There are no details to give out. It is the regular grading and tracklaying."

Chief Engineer Stevens said: "Work will be pushed through without delay."

All of the rolling stock for this new extension was ordered last week for delivery November 1, but that date is likely to find the Republic branch still uncompleted. Mr. Siems will have as his chief assistant L. E. Searles, who will remain constanty with the working crews. Tracklaying will follow as fast as ties can be laid.

SLOCAN'S FIRST MAYOR.

A. York Successful in the Elections Held Yesterday.

(SPECIAL TO THE MINER.)

Slocan City, B. C., June 22.—Slocan held its first civic election under the new incorporation today. Last night a public meeting was held and it was exceedingly exciting with numerous warm incidents. The election was spiritedly contested and resulted in the return of A. York as mayor; and W. E. Worden, R. A Bradshaw, A. C. Smith, A. B. Barber, D. Nicholl and T. D Woodcock, as aldermen. The new council meets for dispatch of business on June 24.

THE CITY

Yesterday Frank Tamblyn received a telegram from Medicine Hat to the effect that the lacrosse team from that town intend to be here for the Dominion Day sports to enter for the lacrosse tournament and the local committee are expecting to be in a position to provide the lovers of Canada's national game, with some interesting matches.

The Rev. Dr. Wright who was announced to preach on the "Dignity and Claims of Labor," at the Presbyterian church this evening has decided to postpone the subject until another occasion and will preach a memorial sermon on the occasion of th death of Neil McLennan, and will also touch on the death of Frank McLeod who was killed some time ago in a similar manner.

The Rev. Dr. Wright, the pastor in charge of the Presbyterian church of this city, is inaugurating a weekly service this afternoon at Bonnington Falls where no service has been held in the past. The train according to the present arrangement make such a service possible and it is expected that they will be continued and supplied from Nelson as long as the time table allows it. Dr. Wright will be accompanied by Miss Sutcliffe and F. M. Chadbourn of the Presbyterian church choir, who will take charge of the musical part of the services.

One of Nelson's prominent business men, who is also a prominent opponent of the Thursday half holiday movement, is out the price of a five dollar hat on account of his opposition to the movement. A bet was wagered with one of the prominent labor leaders of this city that there was not a place in the world where there was a law estabishing a legal weekly half day holiday. From a copy of the "Handbook to the Labor Laws of New Zealand," published by the Government printer at Wellington, New Zealand, the following extract from the "Shops and Shop Assistants' Act 1894" makes the $5 hat the property of the party who took up the bet. "All shops in a city, borough, or town district must be closed at 1 o'clock in the afternoon of one working day of each week," and "the breach of any provision of the act for which no specific penalty is provided is punishable by a penalty not exceeding £5 ($25)."

Mrs. J. Sullivan, Rossland, is a guest at the Queens hotel.

EDUCATIONAL FACILITIES

Nelson Is Rapidly Becoming the Centre of the Interior.

School Population Has Nearly Quadrupled in Four Years.

While Nelson's population is steadily increasing by means of immigration, the natural increase is no mean factor in adding to the number of inhabitants here. The number of children, especially of four years and under is something wonderful. Three years ago the number of children attending the public school was under 150. The present public school which was completed but a short time ago, is now filled to its utmost comfortable capacity, which is three hundred children. Besides this, there is St. Joseph's school, conducted by a sisterhood which also has accommodations for 300 now, and will in all probability shortly be filled. If even the present rate of increase is kept up, it is probably a very conservative estimate to say that within six years from now there will be at least 1,200 children of school age, including kindergarten, in Nelson.

Nelson's first school was taught in a room in Dr. Arthur's house, by a volunteer teacher, Rev. T. H. Rogers, a Presbyterian missionary. It was started in 1891 with about a dozen pupils. A couple of years after, the first regular school was begun and from then till the present date, there has never been a long period when the full holding capacity of the schools were not taxed. Till the present comfortable building was erected the old schoolhouse was anything but suited for the purpose for which it was built, being poorly ventilated and badly lighted. In consequence of this for several years a large number of children were sent away either to the coast or the east to be educated. Already many of these have been transferred back to Nelson, and now the tide has turned and the surrounding towns are beginning to send their children to Nelson for education. The reputation of the city as a desirable educational centre has been greatly enhanced in the past year, and the next session will undoubtedly show what this means to the city. It is but two years ago since at least twenty families of men who had wished to establish their homes here moved to other places on account of dissatisfaction with the school that was then provided. Each room had then far over its regulation quota of scholars, in some cases nearly double. This, however, has all been remedied, and it lies with the Provincial Government to see that the public school shall not again become overcrowded.

The site of the school is an admirable one, not too far up the hill for the downtown children to climb to, and within easy reach of those who live higher up. The location is more desirable, being in a first class residential neighborhood, with a magnificent view from almost any part of the grounds, which are roomy and well suited to their purposes.

A high school was started in connection with the public school in January last, of which Mr. R. J. Clark is principal. So far it is held in one of the rooms of the public school.

In the public school there are now six teachers; J. H. Soady, principal; Mr. G. W. Clark, Miss McLeod, Miss Wickham, Mrs. Pearcy, and Miss Rath, forming a most efficient and able staff.

The high school examinations began last Wednesday and will finish next Thursday, about 20 pupils being engaged on them.

The public school started its examinations last Monday, and they also will extend over several days.

Next Friday will see the closing of both high and public schools for the holidays, but it is not likely that there will be any closing exercises this session.

The second institution of learning to be established in Nelson of any consequence was the school opened by the Sisters of St. Joseph. This was first started in February, 1900, with accommodations for 100 children. This not being found adequate to meet the number of applicants for admission, in September of the same year the new and handsome building at present occupied, was commenced, and finished in January, 1901. On March 19th the Bishop of New Westminster visited and consecrated the school, and expressed his pleasure and satisfaction at the work that had been accomplished, saying that he could hardly have believed that so much could have been done in so short a time.

At present there are accommodations for 300 scholars, and about 30 boarders. Up to the end of this session both girls and boys have been taken as boarders, but owing to the large number of girls applying it has been decided in future that boys will not be taken except as day scholars. There are seven resident qualified teachers, composed of members of the sisterhood. The classes range upward from kindergarten to high school, and pupils are prepared for entrance to Cambridge University, with which the school is affiliated. Boys are only taken up to the age of 13 after which they are transferred to either New Westminster or Spokane. One feature in connection with this school which is most gratifying not only to the staff, but to Nelson as well, is the large number of pupils that are coming in from outside points; Victoria, Vancouver, New Westminster, Greenwood, Phoenix, Rossland, Kaslo, and many smaller towns through the Kootenays being among those represented. For the coming session the number from other towns will be far larger than even during the present one.

At present the university entrance examinations are in progress. The formal closing and presentation of prizes will take place some day at the end of next week, at which parents and those interested in educational matters will be welome.

Besides the ordinary branches taken up in the school, needlework, both plain and fancy, music and Swedish and military drill are taught.

WEEDING OUT TRAMPS.

Busy Morning Spent at the Police Court Yesterday.

There was an unusually long docket at the police court yesterday morning before Magistrate Crease. Myrtle Devaun was charged with obstructing the sidewalk and incommoding peaceable passers-by on the public thoroughfare. As he had no reasonable excuse to give for such an ungentlemanly action he was given a lessen in etiquette and charged $10 and costs as fees.

Dennis Mahoney, who was in charge of the police on the evening of the 20th, and brought before the police court the following day was let out on suspended sentence to give him an opportunity of getting out of town. He took the hint and got. But like the notorious cat he came back. He was arraigned before the magistrate and the case was remanded. On Thursday evening the police found him occupying a superannuated shack and promptly took him in charge giving him a night's lodging in the cooler. Yesterday he was again before the police court and fined $10 and costs or in default of payment two months imprisonment. He has been a previous occupant of one of the Nelson police cells and was evidently well satisfied with the treatment he there received so elected to return to his old quarters.

C. S. Hendryx who was charged with assaulting a Chinaman named Sing by dipping him in the lake, was brought before the magistrate to answer the charge. But as Sing was evidently singing in some other place at the time of the trial the case was remanded until Monday morning.

Blanche Woods, who has only been out of the Provincial jail a few days, was again taken in charge for vagrancy. She was found by the police roaming around the streets and made to appear to give an account of herself. The magistrate not desiring to be too hard on erring humanity, remanded the case until Monday next. She was allowed her liberty being bound on her own bonds of $20 to appear. As it is well known that she was "strapped," it is a very doubtful problem as to whether the lady will be seen in these parts on Monday morning at 10 o'clock.

James Smith was another vagrant who was arrested by the police occupying an unnerless shack and having no visible means of support. He had no bedding or anything to indicate that he was a tenant of the building. As he could not give a very satisfactory account of himself the case was remanded until Monday morning, when it is expected that he will be in fresh fields and pastures new.

Charles Bennett was another hard case before the court yesterday, and a chum of Smith's. He was charged with causing a disturbance on Hall street on Friday evening and was arrested by Constable Heavener on the charge of attempting to smash in a Chinaman's door and for attempting to resist the police in the discharge of their duty. He was fined $5 and costs. By hard work he scraped up enough of the collateral, paid the fine and departed for some place where there are no "bobbies."

Charles French was brought up for drunkenness but was not sufficiently recovered from his spree and was given shelter in the police cells until Monday morning to allow him to recover.

Mr. and Mrs. C. Holton, of Revelstoke, leave for home this morning. Mr. Holton is a leading business man of Revelstoke, being proprietor of the Enterprise Brewery, and a large stockholder in the water works and electric light services of that city. He was the locator of the Silver Cup mine in the Lardeau, which he since sold, but is interested in a number of other mining properties. He was greatly pleased with the progress Nelson had made since his last visit, and said he thought it the brightest and prettiest city he had seen. Mr. Holton said that business conditions in Revelstoke were good at present, and likely to improve with the opening up of the Big Bend country to the north, for which supplies would have to come from Revelstoke principally. He was here attending the Grand Lodge meeting of the Masons, and thoroughly enjoyed his visit.

Robert McGregor of Mill street is building an addiiton to the rear of his residence.

A PETTY POLICY.

This is the caption to a short editorial article in the latest issue of The Cranbrook Herald, which is worth quoting in full: "The Nelson Tribune taunts the people of Ymir on the fact that they failed to get any appropriation for needed improvements in that town, and jubilantly refers to the vote they cast last year, which was against the editor of The Tribune, who is the member for that district. The people of Ymir are in about the same position as the people of Cranbrook, who voted for E. C. Smith, a member of the Opposition. Mr. Smith has asked for needed improvements in and about Cranbrook, and got nothing but promises. If the present Government proposes to advance the best interests of the Province by granting appropriations for only those communities that voted with them, they will succeed in making themselves the most despised outfit that ever controlled the political affairs of the Province. Such a policy may seem good politics to the narrow-minded; but it is so little, so petty, so contemptible, that even the beneficiaries, although pleased with what they gain, must as men condemn a party that will resort to such methods for political revenge."

The case with regard to Mr. Smith and Cranbrook is doubtless put correctly, as The Herald is on the spot and consequently familiar with the circumstances. But in regard to Ymir it is even worse than here represented. One requires to be alert to keep in mind the various party divisions in this Province. The party in power now was known at the time of the last election, for want of a more distinctive name, as the Turner party, and its candidate in this Riding was Mr. Frank Fletcher. Mr. Houston ran as a Semlin party candidate, and was bitterly opposed to the Turner party. From his chaste mouth, as well as from his chaste newspaper, came many words in denunciation of Mr. Turner, Mr. Dunsmuir, and the entire aristocratic, plutocratic, and autocratic element that was supposed to carry things with a high hand at Victoria. The Ymir vote was very pronounced in favor of Mr. Fletcher as against Mr. Houston; that is, Ymir voted in support of the leaders who are now in power.

Those leaders came in soon after the election, and Mr. Houston lost no time in making a bid for the patronage. That patronage properly belonged to Mr. Fletcher as the candidate of the successful party, and he, too, made claim to it; but Mr. Dunsmuir was looking around for supporters with votes in the House, and as Mr. Houston showed a willingness to drop the party whose candidate he had been, and make himself a good fellow with the party on top, he got the patronage and Mr. Dunsmuir got sufficient assurance of support to satisfy him. When, a few weeks ago, the Ymir people who voted to sustain the men who are in protested against the disappointment in obtaining a much needed appropriation, they were jeered at by this Opposition candidate who so suddenly developed into a Ministerial member. They were told in effect that he was the Government so far as appropriations in this Riding were concerned, and although they supported the governing party they opposed him and that was enough to cook their goose. Such are politics in British Columbia.

The Colonial Goldfields Gazette vigorously defends Mr. Whitaker Wright in connection with the Globe and the British America collapse. "So far as we can see," it says, "Mr. Wright has acted throughout the trying ordeal of the past six months in a straightforward and magnanimous manner." It is disposed to accept the explanation that the Globe default was due to treachery, and granting that, "then the British America collapse must be regarded as the aftermath of that treachery, the Stock Exchange failures consequent on the Globe crash having a disastrous effect on the British America Corporation." In saying a word for Mr. Wright it is perfectly conscious of taking the unpopular view, but it does so because, to quote its own words, "although we have no admiration for Mr. Whitaker Wright's financial methods, we are convinced that he has been made the victim of a foul conspiracy."

"Six years ago Nelson was about the size that Cranbrook is today," says The Herald of that place. "Cranbrook has even better opportunities than Nelson had, and all that is necessary is for the people of Cranbrook to stand together. In unity of action there is strength, and such a course will bring success to Cranbrook and her people." Nelson has not been successful because its people have stood together. It is doubtful if there is a town in Canada in which the jealousies and hates and rivalries of factions have flaunted themselves more vigorously or with more evil intent. There is one element here that is bound to rule, and everything is to be sacrificed to its malice. Nelson has grown in spite of strife, which is the best evidence of its splendid vitality.

If more men would follow Mr. Campbell-Johnston's example, and contribute such letters as we published yesterday to the mining journals of Great Britain, the effect would undoubtedly be good. We keep complaining that British capital is not coming in as fast as it ought, considering the advantage offered for investment; but if we knew the truth it would probably be found that this was less owing to distrust of our resources than to want of knowledge of them. If we can succeed in convincing foreign capitalists of the immense riches awaiting development in British Columbia, the money will come, and there is no better way of doing this than to tell about them and to keep on telling.

It is a very easy matter to unseat a member because of corrupt practices either by himself or by others in his behalf. It is likely, therefore, that Mr. Richardson, of Lisgar, will have to walk the plank; there is no reason to suppose that his election differed from others by being a pure one. What is interesting in his case is that there is not the slightest probability of his being re-elected, and what is satisfactory about it is that no one will care if he is not.

Lady Schultz, relict of a late Lieutenant-Governor of Manitoba, is about to proceed to England to order a $20,000-window for Holy Trinity church, Winnipeg, as a memorial of her husband. Some one should suggest to Lady Schultz that a more suitable, because more serviceable, memorial would be an appropriation for the completion of the tower and the installation of an illuminated clock. That would be a memorial the people of Winnipeg could appreciate.

IT DAZZLES THE WORLD.

No Discovery in medicine has ever created one quarter of the excitement that has been caused by Dr. King's New Discovery for Consumption. It's severest tests have been on hopeless victims of Consumption, Pneumonia, Hemorrhage, Pleurisy and Bronchitis, thousands of whom it has restored to perfect health. For Coughs, Colds, Asthma, Croup, Hay Fever, Hoarseness and Whooping Cough it is the quickest, surest cure in the world. It is sold by Canada Drug & Book Co. who guarantee satisfaction or refund money. Large bottles 50c and $1.00. Trial bottles free.

This leafy month of June will start an increased demand for

KERR'S COOL CLOTHING....

Our Summer Clothing was selected with the most painstaking care. No other store that we know of is so particular about the character of its light weight garments. They combine coolness and dressy style, comfort and economy.

LINEN AND PIQUE SKIRTS

Made plain, made with flare, made with flounce, or made with embroidery insertion. We have all styles that can be called new and winning, at $1.00, $1.25, $1.50, $2.00, $2.25, $2.75, $3.00, and up to $6.00.

CORSETS

Made of White Wachuset Net with cane and steel fillings; long or short waist, at 50c, 75c, $1.00 and $1,50.

BLOUSES

Newness in Blouses—We have received another shipment of White Blouses. The latest in bolero effects, tucked effects, and lace trimmed; $1.50, $2.00, $2.25, $2.75, $3.00, $3.75, and $4.00.

THE TONTINE SAVING ASSOCIATION

Home Office Minneapolis, Minn.

In August, 1897 this Association introduced a special feature in the form of

DIAMOND CONTRACTS

or the sale of Diamonds on the installment plan, under the Tontine principle and have received and disbursed in satisfaction of Diamond Contracts

OVER $572,772.00.

On signing an application for a Diamond Contract you pay the agent of the Association $5.00, when an explicit contract is delivered to you by the Association. The contract calls for the payment of $1.25 for 60 consecutive weeks, making the total payment $80. Then when your contract is reached in the order of performance the Association will deliver to you a two carat clear, white and flawless Diamond, worth $200 or will give you $160 for the diamond.

For further information apply to JOHN T. PIERRE, sub agent, Nelson, Pierre Bros' Tailor Shod, Josephine St.

About that second hand article of yours. You'll sell it if you'll advertise it in The Miner want column

YMIR MINE.

The following circular has been issued to the shareholders by the secretary of the Ymir Gold Mines, Ltd. in London: "As you are aware, experiments have been carried out over an extended period with a view to the extraction of the gold remaining in the tailings by means of the cyanide process. These experiments were in the first instance carried out upon a small scale with satisfactory results, after which a small and complete plant was laid down for treating some hundreds of tons per month. The result of this latter bulk treatment is given in the following cable just received: 'Cyanide process, present rate of extraction is gold 90 per cent., estimated profit per month (with) final plant 7,000 dols. (£1,450).' This information is very gratifying, as the above figures represent an additional profit from this source of some £17,000 per annum, equal to 8½ per cent. on the total capital of the company."

TRIGGER AND TRAP.

The Nelson Gun club held its regular weekly shoot yesterday afternoon. E. Criddle headed the score with 17 breaks out of 25. The gusty wind that blew across the trap made accurate shooting impossible. The scores wre as follows out of a possible 25: H. W. F. Pollock, 12; Mr. Boucher, 13; Clarence Goepel, 15; E. Criddle, 17; S Nelson, 10 out of 20. The club is holding practices twice a week so as to be in good form for July 2nd. The secretary of the club has received word that Revelstoke is sending a team to compete in the coming tournament.

STRIKES A RICH FIND.

"I was troubled for several years with chronic indigeestion and nervous debility," writes F. J. Green, of Lancastr, N. H., "No remedy helped me until I began using Electric Bitters, which did me more good than all the medicines I ever used. They have also kept my wife in excellent health for years. She says Electric Bitters are just splendid for female troubles, that they are a grand tonic and invigorator for weak, run down women. No other medicine can take its place in our family." Try them. Only 50c. Satisfaction guaranteed by Canada Drug & Book Co.

If you don't like Blue Ribbon Tea it's because you never tasted it.

A GOOD THING.

German Syrup is the special prescription of Dr. A. Boschree, a celebrated German Physician, and is acknowledged to be one of the most fortunate discoveries in Medicine. It quickly cures Coughs, Colds and all Lung troubles of the severest nature, removing as it does the cause of the affection and leaving the parts in a strong and healthy condition. It is not an experimental medicine, but has stood the test of years, giving satisfaction in every case, which its rapidly increasing sale every season confirms. Two million bottles sold annually. Boschree's German Syrup was introduced in the United States in 1868, and is now sold in every town and village in the civilized world. Three doses will relieve any ordinary cough. Price 75 cts. For sale by W. F. Teetzel & Co. Get Green's Prize Almanac.

CAUTION TO FUSE CONSUMERS

Mr. Machin, general agent Bennett Fuse Co., headquarters at Victoria, B. C., begs to say that in consequence of attempts to impose spurious and cheap imitations of their white countered, patent safety Fuse, Crown Brand, he feels it necessary to ask consumers to be sure that they get the genuine Bennett's Fuse. The sole agents in Nelson is the Lawrence Hardware Co.

"Dardanelles"

Is a Pure Egyptian Cigarette. "Its quality tells the tale." Try a box—no smoker ever stops at a box. For sale everywhere. Fifteen (15) cents per box.

Can be used in every conceivable shape for decorating and entwining upon the inside and outside of windows, buildings, clubs, floats, boats. It is made in all national, society, and club colors—*attractive* and *brilliant*. It is 50 per cent less in cost than any other kind of decorating material. Besides the festoons we have wreaths, stars, shields, Maltese crosses, and parade and horse plumes. See them.

THOMSON STATIONERY Co. Ltd

NELSON, B. C.

Pianos to Rent.

THE CITY

Rev. Norman Tucker of Christ Church, Vancouver, will preach in St. Saviour's church this evening at 7.30.

By next week stawberries are expected to arrive in large quantities, and the price will probably be lower, allowing housekeepers to commence their annual preserving.

The sidewalk on Falls street, between Victoria and Baker, was finished yesterday, and will prove a great convenience for those living west of Kootenay street.

C. Smith and a couple of friends spent the last two days on a fishing trip to Bonnington Falls. Between them they secured thirty trout, all of goodly size and weight.

The water main on Baker street, near Fall street, burst yesterday morning and caused a fountain of water to gush forth for some hours until the break was located and the pipe repaired.

The Trail delegates to the meeting of the Grand Lodge of Masons left for home on the afternoon train yesterday, all expressing their pleasure at the delightful time they had had during their visit.

The secured claims and charges of assignment, in the case of the estate of Lillie Bros., amount to $3.36 more than the sum realised for stock and fixtures. There remain over $4,000 of unsecured claims, which of course will be a total loss.

Services will be held at the usual hours at the Baptist church today. Pastor Morgan will speak both morning and evening. In the morning the Epistle to Romans will be discussed and in the evening he will discourse upon the Sixth Commandment.

The mosquitoes are beginning to get troublesome in the woods and hills, but fortunately Nelson is exempt from these obnoxious pests. Visitors from East Kootenay say that it will probably be an extremely bad year for mosquitoes in that part, as they are already in swarms.

Preparations for the grand labor demostration and picnic at Slocan City on June 25th and 26th are going merrily forward. A very good list of sports and attractions has been prepared and there will probably be a large number of Nelson people take advantage of the low rates advertised.

Owing to the giving out of the mechanical roaster at the smelter last week, a new one is in process of erection. The new furnace and machinery will be considerably larger than those of the one formerly in use, of which a description was given in The Miner a couple of weeks ago. Till the work is completed the hand roaster will be used entirely.

A special feature will be introduced at the Congregational service this evening. Two weeks ago the children of the congregation took entire charge of the service in the morning with such satisfaction to the congregation and credit to themselves that by special request they will repeat the service this evening. The service will commence at 8 o'lock instead of the usual hour. Rev. Mr. Munroe will preach at the morning service.

FAMILY FOOD.

Crisp, Toothsome, and Requires No Cooking.

A little boy down in N. C., asked his mother to write an account of how Grape-Nuts Food had helped their family.

She says Grape-Nuts was first brought to her attention on a visit to Charlotte, where she visited the Mayor of that city who was using the Food by the advice of his physician. She says, "They derive so much good from it that they never pass a day without using it. While I was there I used the Food regularly. I gained about 15 pounds and felt so well that when I returned home I began using Grape-Nuts in the family regularly.

My little 18 months old baby shortly after being weaned was very ill with dyspepsia and teething. She was sick nine weeks and we tried everything. She became so emaciated that it was painful to handle her and we thought we were going to lose her. One day a happy thought urged me to try Grape-Nuts soaked in a little warm milk.

Well it worked like a charm and she began taking it regularly and improvement set in at once. She is now getting well and round and fat as fast as possible and on Grape-Nuts.

Some time ago a number of the family were stricken with La Grippe at the same time, and during the worst stages we could not relish anything in the shape of food but Grape-Nuts and oranges, everything else nauseated us. We all appreciate what your famous food has done for our family."

Another of the wandering cripple beggars struck town yesterday. His specialty was selling cards with a few verses of doggrel poetry on them.

The Canada Drug & Book Co. has made its store handsome by an elaborate display of decorative goods which have been received in readiness for the Dominion Day celebrations.

Frank Tamblyn, the headquarters of the Order of Buffalo, has done a large business during the last few days in the sale of Buffalo pins, having disposed of over eight dozen in three days.

The firemen are getting together quite a collection of animal pets, which are being provided with the bed and board they require. They are preparing to accommodate a whole menagerie.

The services at St. Saviours church will be conducted by the Rev. H. S. Akehurst today, morning and evening, and the Rev. L. Norman Tucker, of Christ Church, Vancouver, will preach the sermon at the evening service.

Several prospectors left for the Lardeau yesterday. There are still five or six in town who intend to try their luck in that section, but are waiting for the snow to go off the hills as it is still quite deep in the higher parts.

Special serivces will be held at the Salvation army barracks to day, when Adjutant McGill will give a special address on the "Scenes From the Life of Christ." Major Beaumont of Rossland will be present and will also address the soldiers.

The town's big grocery stores come up smiling this morning, bidding for patronage. Citizens will not go astray in dealing with either one of them. Nelson is famous for its fine stores, but in no line is there greater excellence than in its groceries.

Edward Grizzle, the florist, finds his business extending so much that he is enlarging the capacity of his greenhouse on Hoover street by building an addition on the same ground. The new building is 20x56 and the work is being done by J. R. Campbell.

F. Anderson, a section man who was working on the line near Ward's Crossing, last Tuesday sighted a bear with two cubs. Anderson and a couple of the men working near him secured a rifle at the section house and shot the bear, which weighed about four hundred pounds. Both the cubs escaped.

The editor of The Miner has received an invitation from the mayor, council and citizens committee to attend the Dominion Day festivities at Vancouver. The invitation is acknowledged with thanks but the editor will be busy here enjoying the elaborate programme that is being arranged for the same two days.

The young people's societies of this city have arranged to hold a Union rally at the Baptist church on Tuesday evening next. There will be a song service in the church in the early part of the programme after which there will be a general discussion on "The Coming Convention," led by the Rev. J. H. White of the Methodist church.

At the Socialistic club meeting to be held in the Miners' Union hall this afternoon under the auspices of the Socialistic Eductional Club, all interested in the solution and discussion of the questions of the day are invited to be present and take a part in the proceedings. Ladies are also invited to be present. The proceedings will commence at 3 o'clock.

Alfred Bunker went down the lake yesterday to seize, for the sheriff, the interest of Herbert Cuthbert in the Blend mineral claim on the west fork of Rover creek. While going up the trail, and when about six miles from the railway, Mr. Bunker spied what he thought was a black cayuse and stopped for a moment to look, when he discovered that it was an immense black bear, which fled when he gave an alarm.

Yesteray afternoon two seedy looking individuals arrived in town and wandered down Baker street as far as Ward, when they stopped and held a discussion on ways and means. All their available funds were twenty-five cents and while one wished to go for a couple of drinks the other wanted something more solid. They finally decided to toss up, which was done with the result that the quarter went down a crack in the sidewalk, and left them staring at each other in a silence more eloquent than words.

The fire laddies had their weekly practise run yesterday morning, when an alarm called them out to the corner of Hall and Vernon streets. After reaching the place of the imaginary fire they experimented with the new cellar hose which has recently been added to their equipment. It acts in the same manner as the ordinary garden sprinkler and does good work. It is intended to be used in those cases where the fire is doing its deadly work in the cellar. By cutting a hole in the floor and inserting this nozzle it makes a brave attempt to stop the ravages of the flames and can be used to good advantage in such cases.

The lady who was causing the city police so much anxiety the other evening, and whose husband was attempting to desert her, has been heard from again. The action of the police in bringing about a reunion of the distressed couple has had a good effect and the happy woman is now again under the rightful protection of her lord and master. When he awoke to the fact that they were again in the same boat, he reconciled himself to the state of things and evidently set his teeth and resolved to give her another trial. They there and then made up but whether they kissed history sayeth not. They departed for Spokane.

The following are the arrivals at the Hume hotel: R. H. McMillan, Victoria; J. G. Whitacre, Toronto; W. H. Adams, Kaslo; J. S. Clute, Jr., Rossland; Geo. E. Sherwood, Winnipeg; R. J. Hamilton, Rossland; Miss Bella Luke, Detroit; C. A. Bell, Montreal; Thos. James and wife, Spokane.

Mrs. W. L. Gnest and daughters, of Winnipeg, are visiting at S. P. Shaw's, on Carbonate street.

Are You Going to the Races?

WE have arriving this week a large shipment of Choice Cured Meats, Package, Bottled Goods, Etc., Etc. If you want to get in ahead, you will have to ride the fastest horse, and you will certainly endeavor to treat your friends well while they are with you July 1st and 2nd, it's only two days. The first thing you will have to do in the morning will be to arouse them them from their slumbers by calling **McPherson & McCammon's Coffee for Breakfast.** This will bring them to the table quick. Then tell them you will have Cudahy's Diamond C. Hams, (cold) for lunch. This will bring them home in good time, so that you will get through with your work early and get down town to see the afternoon sports. Then your dinner; for this meal there is no end of variety. Our shelves are laden with new fresh goods of the choicest. Be sure that you tell them that you are going to serve **Goldsworth Tea** with all meals, this will encourage them to come home early.

Kindly bear in mind that our store will be closed on the afternoons of Monday and Tuesday, the 1st and 2nd, but will be open both forenoons for the convenience of those who have forgotten to order **Goldsworth Tea** for the occasion.

McPherson & McCammon

THE BAKER STREET GROCERS. Successors to Kirkpatrick & Wilson
