Chinese Protocol Practically Completed by Committee.

Motor Cars to Compete for High Speed Championships.

Pekin, Aug. 2.—The protocol committee of the ministers of the powers has virtually finished the draft of the protocol and will submit the same for approval to the other ministers. All questions of principle have been settled and the protocol will be signed in the course of a few days, unless there should be some disagreement as to the phraseology resembling the discussion that arose over the word "irrevocable" in the early stages of the negotiations. Should such a hitch occur, the signing may be indefinitely delayed.

Washington, Aug. 2.—United States Consul-General Mason at Berlin has found it necessary to forward to the state department a correction of the very generally published statements to the effect that new electric trains have been running at the rate of 125 miles an hour between Berlin and Hamburg. Mr. Mason says that a series of high speed trials are to be made on an 18-mile line between Berlin and Zossen, aided by the German government, in August and September, which will attract the electricians of the world. The greatest electrical house in Germany has built a special motor car which is to run in competition with one made by one of the leading American concerns for this special test.

St. Petersburg, Aug. 2.—Thursday, August 1, Count Cassini, the Russian ambassador to the United States, who arrived here recently will be received in audience by the Czar on Wednesday next. The ambassador will remain here a fortnight and will spend two weeks at Marienbad and will then return to Paris. He has not yet seen the finance minister, M. Dewette, and it is considered that Count Cassini's presence in St. Petersburg will substantially change the situation respecting the sugar duties. It is understood that the ambassador is unable to throw light on the question whether Russia would recognize the decision of the United States supreme court should it decide against Russia. There is a disposition in several quarter here to hope for a settlement through a new commercial treaty.

Washington, Aug. 2.—The political situation in the neighboring republics of Venezuela and Colombia in South America and the possibility of war between these two states is attracting considerable attention in diplomatic circles. Should war actually result, the authorities in each country would not only have to deal with their foreign enemies but also with their domestic foes, as each of the countries now has what practically amounts to a civil war on its hands. Neither the Colombia nor the Venezuelan legations here has much direct information and the cable reports are exceedingly conflicting. The officials at the Colombian legation are at a loss to understand the report of President Castros declaration of martial law on the ground that his country is being invaded by Colombia. The revolution headed by Dr. Galviras who crossed the Venezuelan border from Colombia where it had made a refuge is to be in no sense an invasion by Colombians. Dr. Gallivras belonged to the party of Andrade who was overthrown by Castero, and it is stated in diplomatic circes that he is simply heading a rebellion of Venezuelans against the latter's authority. No definite information has been received here regarding the whereabouts of General Uribe, who in his turn is heading a movement against the present government in Colombia from the Venezulean side. The last news of his whereabouts was that he was at Marscaibe and had not yet crossed into Colombia, where it was supposed he would attempt to effect a juncture with Narin, a noted guerilla, who is still carrying on a vestige of the last revolution in the mountains of the central range of the Andes.

At the Colombian legation here the movement headed by Uribe is not considered at all serious thus far. A report received here on July 26 last gave news of a projected simultaneous invasion of Colombia from Venezuela, Ecquador and Nicaragua. Nothing has been heard of the movement since then.

Pekin, Aug. 2.—Li Hung Chang who was taken with a sudden indisposition has called in a foreign doctor. The malady proved to be a temporary attack, such as he has frequently suffered from during the last 12 months. Today he seemed to have recovered.

YESTERDAY'S YACHT RACE.

Canadian Boat Was Defeated By Echota From Buffalo.

Buffalo, N. Y., Aug. 2.—The last days racing of a four day's successful regatta under the auspices of the Buffalo Yacht Club, brought out some close finishes and two surprises. Beaver, the fast Canadian boat was defeated by the Echota of Buffalo, and Vesta of Toronto, which ran away from her competitors in Wednesday's race, finished a bad third today in the 25 foot class. Marco of Buffalo won the event and Pedro of Roche tor finished second.

The boats sailed over a nine mile course. The wind was light during first six miles. It freshened considerably on the last leg and the yachts crossed the finish line in a six mile breeze. The race between Beaver and Echota was close and the crew of the latter boat won the race by good seamanship. They made last turn together. By clever management Echota was worked to windward, blanketing Beaver. She held her position to the end crossing the finishing line half a minute ahead of the Canadian boat.

ON THE BOUNDARY ROAD.

Marcus, Wash., Aug. 2.—At least 250,000 ties will be necessary in building the 83 miles of railroad between Marcus and Republic, says the Spokesman-Review. Porter Bros. have the contract of getting out these ties. There will be more or less difficulty in securing this material, as a good part of the road—especially that up Kettle valley—extends through Indian allotments and lands belonging to homesteaders, or to the United States government. Timber cannot be cut or sold from such lands.

It was thought that only one tunnel would be necessary along the line, but recent surveys show that another will be required. A change was made in the original survey near Curlew, which involves the cutting of a tunnel about 250 feet long. To Johnson & Anderson was sublet the contract of cutting the big 860 foot tunnel opposite Cascade city. These contractors began work about two weeks ago. As large a force as can work to advantage is now engaged. Already much progress has been made on the headings and approaches.

Material for the big steel bridge at Marcus has been ordered, but it will not begin to arrive until sometime late in the fall. The waters of the Columbia are receding slowly, which may delay the work of laying the foundations of the false and permanent superstructures.

A force of about 20 men are clearing and burning the brush and small timber through Marcus. About 12 teams and men have begun the necessary grading for the southern approach to the big bridge. A cut of about 13 feet will be required.

William Grant has commenced operations on the second section of the road—at a point above where Kettle river will be bridged. As yet his force is small, numbering about 45 men. It is understood that much of this work has been let to station men.

MADE THINGS MOVE.

Montreal, Aug. 2.—A cablegram has been received from Duncan McDonald, manager of the Paris street railway system, and formerly of Montreal, stating that he has been offered the position of superintendent of tramways at Bordeau. Mr. McDonald revolutionized the car service in Paris, bringing it up from a ten minute service to a two minute service. He is a native of Prince Edward Island.

NOT DECIDED YET.

The Hague, Aug. 2.—People who are in close association with Mr. Kruger say that up to the present it has not been decided that he will visit the United States.

SOME EFFECTS OF REFINERY

J. Roderick Robertson Discusses Lead Mining in B. C.

East Kootenay Very Dull Except at Coal Mining Centres.

Spokane, Aug. 2.—"There is excellent reason to believe that the completion of the lead refinery in British Columbia will mean a cut of at least $3 a ton in the present smelter rates," said J. Roderick Robertson, president of the British Columbia Mine Owners' Association, while in Northport on Wednesday.

"The management of the Canadian Pacific railway stands ready to build the refinery under the terms of the bonus offered by the Dominion goverment, just as soon as the management gets assurances of a tonnage sufficient to justify the enterprise. The bonus is $5 per ton for the first year on 20,000 tons of pig lead to be produced from Canadian ores. I estimate that the full production of the Kootenay silver-lead mines is about 110,000 tons of ore and concentrates. That should be far more than enough to give 20,000 tons of pig lead needed in order to get full advantage of the subsidy. At a recent meeting of the British Columbia Mineowners' Association we indorsed the proposal of the Canadian Pacific people to build the refinery, and we trust that they will get the bonus.

"The indications are that the refinery will be located at Nelson, which through its central location is well suited for the enterprise. I suppose that the refinery would cost perhaps $300,000. It must employ scores of men and will be a substantial addition to the town that gets it."

In discussing the affairs of the Ymir mine, of which he has general management, Mr. Robertson said:

"The regular quarterly dividend of 5 per cent. on the stock of the Ymir company is expected this week. The company has already paid $144,000 in profits and the quarterly distribution has been $48,000.

"I have just given instructions to go ahead with work on the new cyaniding plant at the Ymir. It will have a capacity of about 150 tons of ore a day, to treat the tailings from the stamp mill. We expect to increase our revenues considerably from the operation of the cyanide works. The new plant will be 300 by 140 feet in size and will contain about 200 tons of machinery, chiefly from San Francisco.

"The concentrator at the Enterprise, on Slocan lake, is rapidly being installed and it will soon be ready to handle about 50 tons of ore a day. In addition the compressor plant is making good progress. We are going right ahead with development and have opened a rich shoot giving 30 ounces in silver. In addition we have a good deal of concentrating ore which carries well."

Fernie, Aug. 2.—Active work is in progress at the present time to prepare the ground for the erection of 400 new coke ovens at Morrissey, where they have a 40 foot ledge of solid coal. The C. P. R. intend to build a standard gauge track to this point from Elko and an electric tramway from Morrissey to the mines. It is claimed that the coal deposits in this district are larger and superior to those in the Coal Creek district, which have received so much attention during the last few years. In the Elko district active operations are going on in the work of railroad construction on the Crow's Nest Southern. The road will connect near Jennings with the Great Northern, and the work of construction is in the hands of A. Guthrie & Co., of St. Paul, who are pushing the work as rapidly as circumstances will allow.

There is little activity in East Kootenay at the present time except at the points where coal mines are in operation. Other mines are practically all closed down and a spirit of depression is brooding over the district. The C. P. R. are engaged on the tunnel at the loop which will make a saving in

(Continued on Third Page.)

TRIED TO BAIT CHAMBERLAIN

Campbell-Bannerman Attacks the South African Policy.

Colonial Secretary Defends and Explains the Methods.

London, Aug. 2.—A discussion arose in the House of Commons tonight over the colonial office appropriation, and it gave the opponents of the government ample opportunity to bait Mr. Chamberlain, while making a motion pro forma to reduce by one hundred pounds the vote out of which the colonial secretary's salary will be paid. Sir Henry Campbell-Bannerman, as the Liberal leader, said that in view of the patience with which the nation had for 21 months endured Mr. Chamberlain's policy in South Africa, he thought it opportune to secure a statement from the colonial secretary as to the war situation. He went on to point out that Cape Colony was now invaded and overrun with Boers, and he asked what prospect there was of repelling the invaders, what the condition of Cape Colony would be after the war, what the prospect of famine as a result of the government's "policy of devastation" and where was Cape Colony's constitution, which appeared to him to be under lock and key since the declaration of martial law.

Chamberlain replied that farm burning had been entirely abandoned and replaced by the policy of concentration camps. He contended that these were humane and satisfactory institutions, as had been shown by the fact that thousands of Boers came into them voluntarily.

"The government have the best reasons to believe," continued the colonial secretary, "that a vast majority of the Boers acknowledge themselves beaten and would gladly surrender and resume peaceful pursuits for the comparative handful of irreconcilables who were carrying on a guerilla war that is rapidly degenerating into brigandage and absolute murder. Lord Kitchener is adequately dealing with the project by establishing block horse cordons within which the peacefully inclined can safely settle and be protected."

Regarding the announcement by Lord Kitchener that Commandant Kritzinger had declared his intention to shoot all natives in British employ whether armed or unarmed, Mr. Chamberlain said the government had telegraphed Lord Kitchener to inform the Boer leaders that such acts were contrary to civilized usage and that all guilty persons of this class if captured would be court martialed and executed. Mr. Chamberlain's declaration was received with loud cheers.

"There seems to be an impression that we have come to some sort of an agreement with the Boers," said Mr. Chamberlain in another portion of his speech, "that natives are not to be employed in this war, but there is no such agreement. Incursions into protected districts must be more severely dealt with, if there is to be 'sniping' of soldiers from behind hedges, and even of women."

"Rubbish," cried an Irish member.

Mr. Chamberlain retorted that he met some ladies who had been assaulted in this way.

"If things have changed from bad to worse in Cape Colony," he continued, it is because the Cape rebels have found rebellion a cheap, interesting and even amusing performance. Then, there has been mistaken leniency, and this was the policy in the past.

"Botha, Dewet and Schalkburger do not say that the war was caused by the raid. They say they are fighting for their independence. It is nonsense to speak of offering terms to men who say it must be a fight to the finish. This is now the policy of the government."

Sir Edward Grey, Liberal Imperialist expressed bitter disappointment at the tone of Mr. Chamberlain's speech although he agreed with the general military policy of the government. He said the colonial secretary had dealt carelessly with the subject of employing native troops and had not distinguished between Africans and highly trained Indian troops.

John Redmond said Mr. Chamberlain's speech was a "candid, if somewhat brutal expression of the government's policy," and he prayed to God that the resistance of the Boers might be strengthened.

The debate was continued for an hour after Mr. Chamberlain's speech and the amendment to reduce the salary of colonial secretary was rejected by a vote of 154 to 70.

London, Aug. 3.—The Boers who are invadig Portuguese territory, says the Lorenzo Marques correspondent of the Daily Mail, number 500. They crossed the line near Manetzi and are now going northward toward Komatipoort. A Swiss farmer reports that his farm buildings have been burned and his stock has been driven off and that his wife and servants are missing. Although the Portuguese authorities are preparing to make vigorous resistance only 144 men under Captain Almida are pursuing the Boers.

London, Aug. 3.—Mr. Chamberlain's declarations on behalf of the government in the House of Commons that great severity would be used hereafter in dealing with Cape rebels and that Boers shooting captured blacks will, if taken, be executed, coupled with the assurance that a considerable number of troops will be brought home at the end of September are treated by the morning papers as the beginning of the third period of the war. The Standard, Daily Chronicle, Morning Post, Daily Telegraph, Daily Mail, Daily Graphic and Daily Express rejoice at the "government's resolute attitude." The Daily News on the other hand regards it with uneasiness and apprehension and the Morning Leader as "the opening of an epoch of terror and shame." The Standard says: "The pestilent activity of a small section is keeping the whole vast area in a state of tumult, throwing an enormous cost on the treasury and postponing the resumption of peaceful industry. The time is clarly at hand if we rightfully construe Mr. Chamberlain's words, when Lord Kitchener will be instructed not to treat as prisoners of war, British subjects captured with arms in their hands. It is a stage which every gueralla conflict ultimately reaches and it is to be deplored since it may breed terrible crimes leading to terrible reprisals on both sides but the brigandage into which the campaign has degenerated must be stamped out at any cost."

The Times says: "The Boers have announced their determination to shoot every native who accepts service with the British or assists them in any way. Mr. Chamberlain has very properly telegraphed instructions that all who are found guilty of such practices shall suffer death. We have carried leniency very far, further than it has ever been carried in the history of war and it is time to think of the future in a business way."

BALL GAMES.

Yesterday's baseball scores were:

National League—Philadelphia 3, New York 5; Brooklyn 1, Boston 4.

American League—Cleveland 7, Milwaukee 0; Detroit 0, Chicago 7.

Eastern League—Worcester 7, Providence 2; Hartford 11, Brockton 5. Boston 16, Philadelphia 0.

OIL IN NOVA SCOTIA.

A company is about being incorporated to explore for oil in the vicinity of Cheverie, N. S. Some 3,000 acres of land have been leased and New York parties interested in the formation of a company for the purpose of exploiting the same. The existence of oil in this vicinity was reported on many years ago, by Dr. Hind, of Nova Scotia.

FOUND FOSSIL REMAINS.

Williamstown, Ont., Aug. 2.—Several days ago a farmer named Binneville, in digging a well on his farm, two miles from here, at a depth of 13 feet came across the fossil remains of some large animal in a very fair state of preservation. It is thought by men of science who have since viewed it to be the remains of a long extinct deinosaurus. The bones of the head resemble those of an elephant. The vertebrae are from eight to nine inches in diameter, and the teeth are about two to three inches in length and are much worn on the crown. Much interest has been aroused by the finding of the fossil animal, which is now in the possession of Mr. William MacPherson.

TO WELCOME DUKE OF YORK

The American Consul at Montreal Asks for a Warship.

City of Toronto Wins Suit Against the Street Railway.

Montreal, Aug. 2.—United States Consul Bittinger today wrote the Washington authorities asking that the United States send a warship to join the representatives of the French and German nations in a welcome of the Duke of York.

Timothy Corbett, shot yesterday afternoon by his sister-in-law, Mrs. John Belger, died in the general hospital today. It is understood he made a statement today justifying the woman. In the meantime she has been remanded for eight days.

Toronto, Aug. 2.—Ten years ago the street railway company agreed to pay the city $800 a year per mile as a mileage payment. The city contended that curves, switches and turnout should be counted. The company objected and the case went through the courts. Today news was received from England that the city had won. It means $90,000 to the city during the life of the company's franchise.

Toronto, Aug. 2.—Daniel Roche, machinist, was out in a canoe this morning on the lake with his little daughter, when the canoe capsized. Help was available and the bodies were recovered almost immediately. Roche was dead and the little girl died soon after.

Sherbrooke, Que., Aug 2.—The will of the late George O. Goodhue, of Danville who committed suicide, leaves the residue of the estate to the British Foreign Bible Society and Dr. Barnardo's homes. They will share between $50,000 and $60,000.

JAIL WARDEN RELIEVED.

Vancouver, Aug. 2.—The warden of the Provincial jail at New Westminster, Mr. George Armstrong, has been temporarily relieved from duty. Mr. R. F. Johns, warden of the Provincial jail at Victoria, arrived this morning to take charge of the local institution and the keys were handed over to the new officer at noon today. This change has been made as a direct result of the official inquiry into the affairs at this institution which opened before Judge Harrison on Wednesday last. The most important statement made by Witness Benjamin Marshall, one of the guards, was that one of the bookkeepers had told him that some supplies received at the jail and paid for by the government had not been entered on the books, but were appropriated by officials to their private use. Marshall produced lists of the articles about which he said the bookkeeper had told him. Dates were also given. The lists produced were placed in evidence and will be compared with the entry books before the inquiry closes. The commission resumed this forenoon, and Marshall was again recalled by the commission.

TOLD TO KEEP ON.

London, Aug. 2.—A despatch from Standerton, Transvaal, dated July 5, which had been stopped by the censor has just been received here. It reads: "Walter Kitchener met Louis Botha and his secretary, Dewitt by appointment, by Blat Rand a few days ago. They brought Kruger's reply to Botha's surrender proposal. It was known. Botha, Dewitt, Delarey, Steyn continue fighting. Alleviation will be sent when needed. Enough for the present."

ROSSLAND'S POSTOFFICE.

Rossland, Aug. 2.—The work on the postoffice was practically at a standstill yesterday, because of the non-arrival of the Calgary sandstone, which is necessary before the next story of the structure can be proceeded with. Contractor Bradbury is naturally disappointed at the delay, but states that the quarrymen at Calgary are not responsible, inasmuch as they cannot control the elements that flooded their quarries. The first lot of the material will be to hand in a day or two.

DISCRIMINATION.

The instance quoted in yesterday's Miner, where it was shown that the freight rate on mineral wool was much cheaper from New York to Nelson than from Toronto to Nelson, is but one of scores of such cases of discrimination in rates that is building up the industries of the States to the detriment of those in the Dominion. While Canada's progress has been steady and satisfactory there are many who would have liked to have seen it more marked and Protection, Free Trade, Liberals, Conservatives—everything and everybody were abused as being responsible for the slow growth. The Commission on frieght rates is rapidly showing that discrimination in favor of American lines has had more to do with it than all the rest put together. Take Detroit and Windsor. The St. Clair river divides them, the former being in the States and the latter in Canada. Detroit is a large, prosperous and handsome city and Windsor but a small struggling town. One reason for the difference seems to be traceable to freight rates. A Windsor firm buying dry paint from Toronto and Montreal found that the freight was $8 per ton more than to Detroit. The additional haul across the river lessened the charge to the extent of $8, and it was found that the rate to Windsor was as high as to Chicago. The rate on corn from Windsor to Toronto and intermediate points is 16 cents per cwt., while shippers in Chicago and intermediate American points can reach the same markets in Canada at lower rates.

The Windsor Record publishes a list of the rate discriminations which have been dealt with by the Board of Trade, and they show that the local farmers, merchants and manufacturers have many causes of complaint. A manufacturing company doing business in Windsor complained that manufacturers and shippers in the east got rates coming that way from 20 to 40 per cent. better than from Windsor to points east, and that this discrimination enabled the Montreal and Toronto concerns to do business right in the country upon an equality with local manufacurers, while the excessive rates east prevent the Windsor people from entering the eastern market. The statement was made also that rates quoted from Montreal and Toronto to Windsor were 15c to 25c in excess of the same commodities to Detroit. To overcome this it was proposed that shipments be made to Detroit and an extra freight rate be paid for the return of the goods to Windsor. Upon enquiry it was found that a car could be sent on to Chicago as cheaply as it could be returned from Detroit to Windsor. A peculiar policy is revealed in the rate on grain from Windsor to Montreal or St. John. If the grain is for shipment abroad the charge is 13½ cents per cwt., to either seaport, but if it is for home consumption the rate is 19½ cents per cwt., to Montreal and 27½ cent to St. John. Some of the discriminations mentioned show that the ways of railway companies are inscrutable. The rate on spoke billets and hub blocks from Novi in Michigan, to Detroit is 5 cents, and to Windsor 7½ cents. The rate on putty from Detroit to London is 15 cents, and from Windsor to the same point 23 cents. To Toronto the rate is 6 cents from Detroit and 30 cents from Windsor, while to Montreal it is 27½ cents from Detroit and 53 cents from Windsor.

The rate on varnishes from Detroit to London is 20 cents and from Windsor 26 cents To Toronto the rate is 23 cents from Detroit and 35 cents from Windsor. An equally great discrimination is made in the rate to Montreal, it being 39 cents from Detroit and 61 cents from Windsor.

It will be seen that it is time the Government was stepping in to protect the industries of Canada. The railways receive subsidies, land grants, and almost everything else they ask for and in return for this the Government is supposed to have a certain amount of control over the rates and the evidence being gathered by the Commission should make them exercise this right which has grown rusty through lack of attention. The Nelson wholesalers have a strong case to make out and it is to be hoped that it will be productive of great good to the City by removing disadvantageous rates that now retard its growth as a distributing centre.

CURRENT COMMENT

News-Advertiser: The interests of public decency demand that unless there be a decided change in its contents, a New Denver paper called the "Claim," should at least be refused circulation through the mails. Anything more vile than the suggestiveness of parts of its latest issue it would be difficult to discover. It affords an example of a debasing misuse of literary faculty of one capable of much better things, as many of his writings prove. Nothing, however, pleases him more in his latest publications, than coarsely to deride the marriage relationship, whilst the unclean suggestiveness in which the paper indulges is a disgrace to Provincial journalism.

London Spectator: Our colonial policy is simple; we do not wish to impose any scheme of federation, any ready-made links of connection; we wish only to see each colony prosper, for in the furtherance of its prosperity we see the surest promise of union. The wise father who seeks the well-being of the child does not ask him to remain always at home, or to follow the same profession, or to imitate him slavishly in dress and conduct. He desires the child to make his way in the world, and he helps him to this end, knowing that thus far closer ties of affection will be established than if he had coerced him into his own ways. When Canadian federation was first proposed, it was currently supposed that this new freedom would mean the loosening of the old bonds. It meant really the opposite, for no bonds are so weak as the artificially imposed, and none so strong as those naturally and spontaneously created by by an independent people. Hence, much as we desire to see the colonies sharing directly with us the consideration and execution of imperial measures, we would wait patiently till of their own accord they make the offer. The bonds must be self made, the sacrifice undertaken of their own free-will. The vital interest for us is the success of these young nations, for in them the whole ideal of British policy is on is trial. Complete local freedom, combined with a ready loyalty to the empire—if this ideal is realised it will be the greatest of our contributions to the political history of the world.

FORFEITED THE GAME.

Toronto, Ont., Aug. 2.—Today's game was forfeited to Toronto by Umpire Sharkey, Buffalo refusing to play with Sharkey as umpire. Sharkey is a local umpire and had been requested by Manager Barrow to umpire, as the Toronto club would not allow Warner to officiate again owing to his alleged partiality and incompetency. Warner received instructions from President Powers today to officiate and was on the stand but made no attempt to get on the grounds to umpire. Toronto offered to allow any Buffalo man to umpire that they would select. They refused and claim the game. Attendance 1,000. Money given back at the gate.

WILL INTERRUPT TRAFFIC.

Washington, Aug. 2.—A cablegram has been received at the state department from the United States consul at Colon stating that if the present revolutionary troubles in that section became more aggravated the traffic across the isthmus will surely become interrupted. The United States government is bound by a treaty to keep this traffic open to the world. No request for a warship to be sent to the scene of the trouble has been made.

WHITE MAN TURNED YELLOW.

Great consternation was felt by the friends of M. A. Hogarty of Lexington, Ky., when they saw he was turning yellow. His skin slowly changed color, also his eyes, and he suffered terribly. His malady was Yellow Jaundice. He was treated by the best doctors, but without benefit. Then he was advised to try Electric Bitters, the wonderful Stomach and Liver remedy, and he writes: "After taking two bottles I was wholly cured." A trial proves its matchless merit for all Stomach, Liver and Kidney troubles. Only 25c. Sold by Canada Drug & Book Co.

NOTICE TO CREDITORS.

In the matter of the Estate of William Thomas Beadles, late of the town of Salmo, British Columbia, deceased, intestate.

Notice is hereby given, pursuant to the "Trustees and Executors' Act," that all creditors and others having claims against the estate of the said William Thomas Beadles who died at Nelson, B. C., on the 17th day of April, 1901, are required on or before the 20th day of August, 1901, to send by post prepaid, or deliver to the undersigned, solicitors for the administrator of the estate of the said deceased at Nelson, B. C., their Christian names and surnames, addresses and descriptions, the full particulars of their claims, the statement of their accounts, and the nature of the securities if any, held by them.

And further take notice that after such last mentioned date the Administrator will proceed to distribute the assets of the said deceased among the parties entitled thereto, having regard only to the claims of which he shall have then had notice, and that he will not be liable for the said assets or any part thereof, to any person or persons of whose claims notice shall not have been received by him at the time of such distribution.

Dated at Nelson, B.C., this 18th day of July, 1901.

MACDONALD & JOHNSON,

Solicitors for James Lawrence, administrator of the estate of the said deceased intestate.

SOME EFFECTS OF REFINERY

(Continued from First Page)

the line of nearly two miles, besides doing away with the hardest piece of track to keep in order on the route. The track in use at present on the loop traverses the side of a steep mountain of wet clay, which pierced by many springs, keeps up a constant sliding down on the grade, necessitating the steady employment of a large number of men to keep the mud removed. It was at this point about a year ago where several men were engulfed in a mud slide.

When the Crow's Nest line was first built a tunnel was attempted, but owing to the soft and unstable condition of the mountain where the tunnel had to be run it was abandoned after a conference of all the engineers engaged in the work of construction. This tunnel was commenced from the opposite end to the present one, and carried some forty feet before being abandoned. This time it has been commenced at the west end and has extended about 60 feet and will altogether, be about 1,000 feet. Wages in the Crow's Nest for railway laborers are from $2 per day.

There is plenty of game along the line and lots of good fishing. A number of bears have been seen of late and deer are plentiful especially up the Elk valley.

Spokane, Aug. 2.—The getting of an injunction against the Northport strikers is the first fruit of the move made two weeks ago, when the Northport Mining & Smelting company was reorganized as an Idaho corporation with headquarters at Wallace. So long as the company remained a Washington corporation and did business here, it would have difficulty in getting an injunction from the federal courts. Accordingly the company was reorganized under the name of the Northport Smelting & Refining Company, Ltd., with its nominal head offices in Wallace. So far as is known, however, it does not own a single asset in Idaho except its sign and its registration there is simply to give it a standing in the courts.

MINING RECORDS.

The following are the mining records for yesterday: Certificates of work, on Bobs, French, Kitchener, Powell to Jonas Coxhead, et al. Only two locations were recorded viz. Red Rover, on east of north fork of Salmon river, about two miles from Erie and being a relocation of the Red Lion, located by John Thorburn, and James Morrison, and the Rand, eight miles from Erie, upon Craig mountain, first fork of north fork of Salmon river, located by C. Hanna and Jas. L. Kane.

The following transfers were mad yesterday, Standard, from J. O. Neill of Erie, B. C., to Will Flannagan, of Erie; Monitor, from John O'Neil to W. Flannagan; Fissure, from J. O'Neil to W. Flannagan; Yellow Metal and Addie Grace, from H. A. Prosser, to Sarah E. Prosser, Nelson; and Lochaber, from R. Driscoll to J. A. Wallace and C. E Miller.

FOUND—A HUSBAND.

Some time ago a Mrs. Laura Brown was searching for her husband, who had strayed somewhere and the aid of the Provincial police was secured to find him. The facts of the case were published in The Province and through the paper Mr. Brown became aware of the fact that his wife was looking for him and discovered himself to the public. The Provincial police authorities received a telegram from Mr. W. H. Bullock-Webster this morning stating that Isaac Brown, the husband, was at the Sherbooke hotel in Nelson and to so inform his wife. The news was taken to Mrs. Brown today.—Vancouver Province.

BAND CONCERT.

By kind permission of Captain Macdonnel the R. M. R. band will give the following programme at Teetzel's corner at 8 o'clock tonight under the direction of Mr. J. B. Pollard:

March—"Charlatan".....Sousa

Overture—"Brudder Gardner's Picnic".....Rollinson
Schottische—"Don't Forget"..Harris
Selection—"Il Trovatore".....Verdi
Galop—"Hell Up-to-Date"....Fasset
March—"Black Cat".....Schuler
"God Save the King."

CRICKET MATCH.

In today's cricket match between Nelson and Rossland, the following will compose the home team: Forbes, Sargeant, Wilson, Hay, Stocks, Atkinson, Booth, Wetmore, Elliott and Forde.

The Rossland team is composed of A. Marsh, W. E. Hodges, A. D. Sykes, Thos Hilliard, John Morrish, J. G. Gordon, A. B. McKenzie, C. St. L. Mackintosh, P. Renwick, H. Ellis and F. W. Rolt, most of whom arrived last evening.

As Mr. Forde leaves shortly for China the Nelson team will have to get a new captain for the next match.

Pte. E. Boyce	21	8	17	46
Pte. R. Strachan	13	9	12	34

KEEPING UP THE AVERAGE.

New Orleans, La., Aug. 2.—Three more negroes were lynched at Carrollton, Mo., this morning.

SAVES TWO FROM DEATH.

"Our little daughter had an almost fatal attack of whooping cough and bronchitis," writes Mrs. W. K. Haviland, of Armonk, N. Y., "but, when all other remedies failed, we saved her life with Dr. King's New Discovery. Our niece, who had Consumption in an advanced stage, also used this wonderful medicine and today she is perfectly well." Desperate throat and lung diseases yield to Dr. King's New Discovery as to no other medicine on earth. Infallible for Coughs and Colds. 50c and $1.00 bottles guaranteed by Canada Drug & Book Co. Trial bottles free.

A GOOD THING.

German Syrup is the special prescription of D. A. Boschee, a celebrated German Physician, and is acknowledged to be one of the most fortunate discoveries in Medicine. It quickly cures Coughs, Colds and all Lung troubles of the severest nature, removing, as it does, the cause of the affection and leaving the parts in a strong and healthy condition It is not an experimental medicine, but has stood the test of years, giving satisfaction in every case, which its rapidly increasing sale every season confirms. Two million bottles sold annually. Boschee's German Syrup was introduced in the United States in 1868, and is now sold in every town and village in the civilized world. Three doses will relieve any ordinary cough Price 75 cts. Get Green's Prize Almanac.

Fishermen Attention!

T. G. Procter's houseboat is now for rent by the day or week. Special rates for family parties. First-class cook and attendant in charge. Rates $2.50 per day. Parties can get off C. P. R. boats either going or returning from Kootenay Landing. The boat for the next two weeks will be stationed at the mouth of Midge and neighboring creeks, where a big catch of rainbows is assured. Apply to T. G. Procter, Baker street, for further information.

SILVER KING MIKE

Will pay the highest cash price for all kinds of second hand goods. Will buy or sell anything from an anchor to a needle. Furniture, stoves, carperts, cooking utensils, bought in household quantities. Also cast off clothing. Call and see me or write. Address Silver King Mike, Box 200. Hall Street. Nelson, B. C.

THERE IS ONLY ONE

Permanent Cure for Catarrh. That is What a Well-known Toronto Gentleman Says About Japanese Catarrh Cure.

Mr. John Sloan, 78 McGill st., Toronto, writes: "I have had catarrh in the most disagreeable form for years; have at times got remedies which would relieve me, but nothing to cure me completely, until I tried Japanese Catarrh Cure. From the very first it gave me much relief, and every day's use showed a marked improvement. I used in all six boxes, and it has completely cured me. It certainly does all claimed for it, which I cannot say for scores of other remedies tried, and I feel it my duty to attest my appreciation of anything so worthy. All druggists, price 50 cents, or mailed by the Griffiths and Macpherson Co., Limited, 121 Church street, Toronto.

Pianos to Rent at $7 per month.

THE CITY

The only business before the police court yesterday was a drunk who was let off by paying the usual fine of $10 and costs.

E. L. Park has sold his interest in the Hazelwood Dairy to Leroy Clark who will conduct the business in the future. Mr. Clark will transact all the business of the late firm of Park & Clark.

A workshop is being erected in connection with the Provincial jail which will also be utilized for storage purposes. The building is being erected in the rear of the jail, the labor being performed by the jail mechanics.

There will be another club regatta held at the latter end of the month. A committee meeting will be held early next week, so that it is desirable for all entries to be in at once. They may be made to the secretary or any member of the executive committee.

A lacrosse match has been arranged for next Thursday afternoon between Nelson and Grand Forks. The game will be played on the city recreation grounds and the home team are expecting to improve their record, as they have taken into their team a number of new players.

Tomorrow at Emmanuel church, Rev. Wm. McIntosh, of the First Congregational church, Ottawa, will preach at both morning and evening services. This eminent preacher from the Capital city is at present on a tour through the west and for a few days will be the guest of Rev. Wm. Munroe.

There are now fifty-seven men employed on the new Nelson-Granite road. H. T. Steeper will finish packing tents, cooking utensils and stores for the camp, which is to be established about two miles out today. Several men have been employed this week clearing a small section for the camp. After a little more work on the rock bluff near town some miles of the road will be open for use.

The heavy rain yesterday came as a boon and a blessing to the crated ducks which have been bathing in hot air in front of certain stores during the last few days. The previous day a humane citizen provided them with a cooling influence by cooling the air with a shower from the hose, while the incarcerated fowl did their best to express their thanks for the change.

Pastor Morgan will conduct the services at the regular hours at the Baptist church on Sunday. His morning subject will be "The Essence of the Gospel," while in the evening he will continue his plain talks on the commandments, his subject being "Lying or the Ninth Commandment in Present Day Life." An efficient choir will lead in the service of song. All are welcome.

A party of eighteen young people assembled at Hale's boat house last evening and took the Vidette, and proceeded to enjoy themselves by a three hours' voyage on the lake. The party called at the park coming back and listened to the band after which they proceeded to the other side of the lake where a fire was lit and refreshments served, the excursion reaching the wharf finally about 11 o'clock after an enjoyable trip.

Mr. and Mrs. J. Laing Stocks expect to leave early next week for a three months trip to their old home in Scotland. Last evening the Baptist choir, of which they are both members, were entertained at their home, the occasion being the regular weekly practice. After partaking of refreshments served by Mrs. Stocks, several members of the choir took occasion to address to their host and hostess cordial words of good will and Godspeed, expressive of the high regard in which they are held both in the church and in the city. Many other friends will be glad to join in wishing them a very delightful trip to the "auld lan'" and a safe return to the land of their adoption.

There is a refreshing absence of anything offensive and an abundance of wholesome fun in the performance of Richards & Pringle's Mammoth Minstrel organization that will be at the Nelson Opera House Monday. This big attraction caters to the most refined patronage and furnishes hours of solid enjoyment without a suggestive utterance during the whole performance, and this has been the phenomenal success of this big combination. Its fifty performers are selected from the best in the colored minstrel line, and every act presented is bright, brisk and original and sure to please the most critical. This season's organization is pronounced the strongest and most satisfactory this enterprising firm has ever put into the amusement field. Be sure and see the magnificent street parade given at 2. 30 p. m.

PERSONAL

W. H. Wells was a passenger via the C. P. R. last evening for New York.

Mr. J. S. Carter, district passenger agent of the C. P. R., returned last evening from Rossland.

Messrs. C. St. Barbe and G. E. C. Martin left last evening via the C. P. R. for the East where they will have a month's vacation.

Mr. J. I. Dissette, a prominent financial man of Indianapolis, Ind., is registered at the Hume. He has mining interests in this district.

Miss Lardau, chief milliner for Fred Irvine & Co, has left via the C. P. R. to attend the different millinery openings in the eastern markets.

Mayor Carlson, of Kaslo, is in the city on his usual purchasing trip, and reports business active on the construction works in which he is engaged.

Mr. McIntyre, of the firm of McIntyre & Graeb, returned yesterday from a five week's trip to the Crow's Nest district, where he has been engaged in business connected with his firm.

Miss McGrory, head milliner in Kerr & Co.'s, left for her home in Paris, Ontario. Before returning she will take in the millinery openings in New York, Chicago Buffalo and Toronto.

Mr. T. B. Lafferty, a barrister of Orillia Ont. and chief magistrate of that town spent yesterday in Nelson en route east after spending a few weeks respite from the eastern heat at the coast cities.

Mr. C. E. McPherson, general passenger agent of C. P. R. lines west of Port Arthur, with headquarters at Winnipeg, arrived in the city last evening from Rossland. He will be here on business a day or two.

Chief Justice Falconbridge of Ontario, was in Rossland yesterday and came to Slocan Junction where he will enjoy some fishing before coming on to Nelson. He is en route home from a holiday trip to the Coast.

W. B. George, a well known prospector from the Slocan district, was in the city yesterday and reports that the McGregor survey party, of which he is a member, are at the present time near the Monument group, and have had to navigate through six feet of snow.

Mr. J. D. Cameron, attorney general of Manitoba in Mr. Greenway's cabinet, is in the city, en route to his home in Winnipeg after a holiday jaunt to the Coast. His name has been spoken in connection with the vacancy in the Dominion constituency of Lisgar and when asked if he had any intention of offering himself as a candidate in the Liberal interests Mr. Cameron merely laughed and replied that surely this far away from home, and while he was having a holiday, was neither place nor time to talk politics.

TROLLEY COLLISIONS.

Baltimore, Md., Aug. 2.—Joseph Hunter, 55 years old was killed and seven others injured today in a trolley line collision between a construction train and a passenger car. The brake on the construction car got out of order and it collided with a Carlton car loaded with people at North and Park avenues.

Springfield, Ohio., Aug. 2.—The Dayton, Springfield and Urbana trolley car scheduled to arrive in this city from Dayton at 9.30 o'clock crashed into a coal car which stood on an open switch near Donnellville this evening and as a result fourteen persons are lying in the Mitchell Thomas hospital seriously injured. Four are believed to be dying.

STREET CAR EMPLOYEES OUT.

Newark, Ohio, Aug. 2.—Lines of the Newark street railway and the Newark and Granville road, operated by the same company were stopped today by a strike. The cause of the strike is not known as neither men nor officials will talk. The strikers demanded 17½ cents per hour for a ten hour day and 25 cents for overtime.

TO RESUME OPERATIONS.

Chicago, Ill., Aug. 2.—George F. Phillips will issue a circular tomorrow addressed to the customers of his firm announcing that he will be able to resume active operations on the Board of Trade by next Tuesday or Wednesday at the latest, possibly by Monday.

ANOTHER LYNCHING.

Smithville, Tenn., Aug. 2.—Charles Davis on trial today for criminal assault was taken from the court room and lynched by a mob composed of friends and relatives of the girl assaulted. Davis tried to jump from the second story window but was captured. The sheriff, a deputy, a constable and the defendant's father were wounded in a clash with the mob.

REACHED THE AZORES SAFELY.

Ponta del Gada, Azores Islands, Aug. 2.—Sir Thomas Lipton's steam yacht Erin, which arrived here yesterday with the Shamrock II., has coaled and left here this evening for New York towing the cup challenger. A favorable southeast wind was blowing. The vessels expect to arrive at New York, August 11th.
