Nelson Daily Miner.

Daily Edition No. 119 Provincial Library $31 00

NELSON, BRITISH COLUMBIA, THURSDAY, NOVEMBER 14, 1901 Eleventh Year

SUICIDE OF A PIONEER

Tom Hamilton, of Ashcroft, Chooses the Morphine Route.

C. P. R. Likely to Get Contract for Carrying Australian Mail.

Ashcroft, Nov. 13.—Tom Hamilton, clerk at the Ashcroft hotel, was found dead in his bed at 5 o'clock this afternoon. He retired about 3 o'clock and was called twice shortly after. The third call about 5 o'clock was equally ineffectual and as the door was locked, entrance was gained from the verandah through a window when it was found that he was dead. Dr. Williams was called immediately and pronounced him dead. A bottle of morphine and a note on the table indicated that he died by his own act and that it was premeditated. He has been for a long time a heavy drinker and his mind was undoubtedly affected by it.

The deceased was a well known man in the upper country and at one time had charge of a trading post in the north for the Hudson's Bay Co. He leaves a brother, Gavin Hamilton, at Lac la Hache, and a daughter now at the 150-Mile house.

C. P. R. STOCK GOES UP.

Toronto, Nov. 13.—The Evening Telegram says: The rumor yesterday that the C. P. R. had the prospect of securing the contract for Australian mails, sent Pacific stock up two points.

IMPROVEMENTS ON MAIN LINE.

Winnipeg, Nov. 13.—The C. P. R. is to make extensive reduction in the mountain grades at Field and vicinity and for this work intends to spend about $1,000,000. The contract has been given to Contractor J. W. Stewart, who will begin to move out his gang at once.

The residence of Thomas Ryan was badly damaged by fire, at an early hour this evening. The loss will be over $5,000, fully insured.

CANADIANS WOUNDED.

Ottawa, Nov. 13.—A telegram received from South Africa today announced that Trooper W. Volans was severely wounded at Trickmost on, November 4th, and Trooper J. D. Ludgate, accidentally seriously wounded at Vet River, Nov. 7th, both of the South African constabulary. Volans comes from Portland, Ore., and Ludgate from White Lake, Ont.

GUILTY OF MANSLAUGHTER.

Monreal, Nov. 13.—The jury in the case of G. E. Boissonette, arrested for the murder of Sectuae Danserain, brought in a verdict of manslaughter today. Danesrain and Boissonette got into a row on the street and Boissonette kicked Danserain down. He died shortly afterwards in the hospital.

BURNED IN FARMHOUSE.

Carelton Place, Nov. 13.—The farm house of Mr. Ramsay was burned to the ground during last night, and Mrs. McLean, Mrs. McLean, Sr., and a farm assistant named Herbert McGregor burned to death. The other members of the family escaped.

NO SUNDAY CONCERT.

Montreal, Nov. 13.—Sacred concerts were given in Proctor's theatre last Sunday afternoon and evening. Today a summons was issued against the manager of this theatre charging him with an infringement of the law.

CLOSES FOR THE WINTER.

Syndey, C. B., Nov. 13 —The International mine at Bridgeport, closed down tonight for an indefinite period throwing 200 men out of work. It may reopen in the spring.

AN EARLY SESSION.

Toronto, Nov. 13.—The Ontario legislature will meet on January 8th. It is hoped the session will end by March 31.

BUTLER'S MERIT RECOGNIZED.

Now Made Chairman of a War Office Reform Committee.

Londn, Nov. 14.—General Sir William Butler, formerly in command of the troops in South Africa, who was recalled at the beginning of the campaign against the Boers, is at last having his merits recognized. According to the Daily Chronicle he has accepted the offer of an appointment as president of the most important committee in connection with war office reform.

SZONTAGH AT NORTHPORT.

Northport, Nov. 13.—Oscar Szontagh, the new smelter manager arrived from the south this afternoon and went at once to the smelter.

Kennedy continues to improve and his chances for recovery are brighter, but the bullet has not been located. The town is quiet and there have been no more disturbances.

OPPOSES THE UNION.

The Miners' Magazine states that John A. Mackenzie, the new manager of the Le Roi, is a decided enemy of the Western Federation of Miners. At the Mariposa mine, of which he was manager, he had posted a notice expressing his strong disapproval of the men joining the union which it was proposed to form.

TELEGRAHPIC TICKS.

Albert Matthew Ford, the tide calculator of New York, is dead.

The American ambassador, Andrew D. White, has resumed his duties in Berlin.

Dr. James Irvington Marclay was found dead in his room in Buffalo yesterday, having been crushed in a folding bed.

The grand jury has returned an indictment against Harry Toughbaugh, under arrest in St. Louis, as one of the Montana express robbers.

The late Georgevitchi cabinet has been accused of embezzlement from the secret serivce funds of Servia. One item mentioned is 123,160 francs.

A party of American jockeys, who have been riding in Russia and Germanyy, have returned to New York. They will go to California for the winter.

G. H. Rolando has challenged Sandow, who claims the world's championship, to ten feats of strength, each party to select five. He has posted $200 as a forfeit.

In the six day walking contest at Pittsburg, the three best records last night were: Cavanaugh, 285 miles, 6 laps; Dean, 265 miles, 3 laps; Barnes, 265 miles, 4 laps. There were then twelve competitors in the race.

The secretary of the British legation to the republics of Central America is said to have announced to the president of Managua that the British have recognized the United States as the portector of the Mosquito Indians of eastern Nicaragua.

Joseph Mayer, who had been an employee in the office of Albert Patrick, the New York lawyer charged with the murder of Wm. Rice, the millionaire, has returned from Berlin and offered to give evidence in the trial of Patrick.

Captain Hatman's cavalry yesterday morning surprised a body of 400 insurgents in the northeastern part of Luzon and after killing 16 of them dispersed the party. Two large boat loads of arms are said to have been smuggled into the southern part of Batanags peninsula.

A pitched battle was fought yesterday between deputy sheriffs and outlaws, who had attempted to steal horses, near Pickee, a village of Kay country, Oklohama. Some are supposed to be escaped convicts from Leavenworth. The escape of the gang is considered impossible.

The new Colombian congress has appointed a "designado" who is to succeed the president upon his retirement. The person in view for the position is General Reyes, Colombian minister to France, but now at the city of Mexico. It is believed the president will resign if requested and a deputation will be sent to induce Gen. Reyes to accept the new office.

ATTRITION WILL GO ON

Broderick Declares That the Country Has Set Its Teeth.

The Boers Are Killing Kaffirs to Conceal Their Tracks.

London, Nov. 13.—Mr Broderick, the British War secretary, speaking tonight at a banquet given in London in his honor by the City Carlton club, declared that the Boers were hiding their tracks by murdering kaffirs behind them. Lord Kitchener wired today, he continued, that the cold blooded murder of natives had become frequent of late and that two dead natives, their hnads tied behind their back, were found at the bottom of a mire shaft.

Later in his speech Mr. Broderick said Great Britain now had 42,000 Boers in custody in the concentration camps and various islands and that 11,000 more had been killed or wounded or had left the country on parole. He added that he believed the number of Boers now in the field was about 10,000.

The country has set its teeth and intends to go through the process of wearing down, he exclaimed. We intend to provide Lord Kitchener with fresh troops to replace the tired ones. Only today a certain colony made an offer to help. Mr. Broderick said he was sorry anything had happened to affect the career of Sir Redvers Buller and he assured the company that the deafness of Sir Evelyn Wood was not a bar to the work that officer had to do as commander of an army corps.

Mr. Broderick explained that four battalions and two cavalry regiments would be drawn from India for service in South Africa.

CLEARNG THE BOARDS.

Some Whittaker Wright Companies With Nominal Existence Killed.

London, Nov. 13.—The courts have ordered the compulsory winding up of the West Le Roi, and Columbia-Kootenay Mining companies, all Whittaker Wright concerns.

(A circular issued by the official liquidator of the British American Corporation in August stated that these companies had been formed as subsidiary to the B. A. C., which retained practically all the shares in them. At a later date new companies were formed which took over all the properties of these companies except a small quantity of valueless ground left to each. Though by this transaction the companies here named practically passed out of existence, nominally they did not, but instead the stock remained as an asset upon the books of the B. A. C. The mines formerly held by the West Le Roi are now owned by the Le Roi No. 2; those of the East LeRoi now by the Rossland-Great Western, and those by the Columbia-Kootenay Mining company, now by the Kootenay Mining Company. It is not probable that the action here mentioned in the dispatch will affect the companies now operating these mines at Rossland.)

WRECKED AT TYNEMOUTH.

Norwegian Barque and Crew of Sixteen Lost.

London, Nov. 13.—The Norwegian barque Inga, Capt. Olsen, which sailed from Falmouth, October 28th for the Tyne, has been totally wrecked at Tynemouth and 16 members of her crew have been lost.

WRECKED OFF HARTLEPOOL.

London, Nov. 13.—The Swedish barque Trio was driven ashore late this evening at West Hartlepool, Durham and was broken up. Three of her crew were washed ashore alive, while the remaining seven were drowned in sight of thousands of spectators who were helpless to aid them, all attempts at rescue with rockets carrying life saving lines having failed.

DEATH AND DISASTER.

Copenhagen, Nov. 13.—A terrible gale and snow storm lasting for the past twelve hours has done great damage throughout Denmark. There are five feet of snow here. Eight vessels are reported driven ashore, two have been wrecked and many lives have been lost.

HIS WIFE IN THE SWINDLE

Mrs. Rathbun Maintains the Corpse Was That of Her Husband.

Rathbun Taken to Indiana on a Charge of Murder.

Louisville, Nov. 13.—Newell C. Rathbun, who was arrested here on suspicion of having caused the death at Jeffersonville, Ind, of Chas. Goodman, who was found dead in an hotel in that city last Thursday, death having resulted, it is supposed, from laudanum poisoning, is tonight in the Clarke county jail on a charge of murder. Under instructions from the war department at Washington, Rathbun, who is a deserter from the U. S. army was this afternoon turned over to the Indiana authorities and taken across the river. Other features the case today were the decision of the authorities to have the body of the supposed Goodman returned to Jeffersonville from Little Rock for an autopsy and identification and the refusal of the civil authorities to send Rathbun to Little Rock to testify at the coroner's inquest over the corpse that was shipped there.

Rathbun made another damaging admission to the detectives today. For the first time he admitted that he had a confederate in Little Rock and when closely questioned he stated that his wife was in part of the conspiracy to secure insurance money illegally, although he insisted that she was entirely innocent of complicity in any plot to put Goodman out of the way. At first Rathbun had stated that his only confederate was a deserter from the regular army by the name of Blanchard but he finally admitted that this was false and that Blanchard was fictitious. He then stated this morning that he had worked the plot out alone. The suspicions of Capt. Sullivan were aroused by news from Little Rock, that a Miss Corinne Prior had stated that Rathbun had proposed a very similar plot for defrauding an insurance company to her and had said that if she would marry him and carry out her part he would send a corpse home; that it could be buried as him and that he and she could divide the insurance money. He also learned that Mrs. Rathbun insisted that the corpse he sent from Jeffersonville and now in Little Rock was that of her husband.

HOW THEY MINE IN JOPLIN.

Mill, Office and Engine House Swallowed by Cave-in.

Joplin, Mo., Nov. 13.- In a cave at Oronogo near here today the entire plant of the Aurora Mining company, one of the great zinc properties in the district, was swallowed up. No lives were lost. The plant composed a hundred ton mill, office buildings and engine house, all of which were engulfed together with six gravel cars and an immense tailing pile. On entering the ground a short time before the cave-in occurred workmen heard the timbers cracking and signalled to be drawn up. The last man had reached the surface only a few minutes before the timbers collapsed the earth yielded and with a crash the whole plant sank into the abyss. Further caving is feared and work in the vicinity has been suspended. It is impossible to estimate the loss.

LAST DAWSON PASSENGERS.

Port Townsend, Nov. 3.—The steamer City of Seattle arrived from Skagway today bringing 273 passengers, most of whom were direct from Dawson having arrived at White Horse last Thursday on the steamer Ora the last boat to come up the river this season. The captains and crews of various boats from the Yukon were passengers on the Seattle, the boats having gone into winter quarters.

SHOULD HAVE SAID HEROES.

Frankfort, Nov. 13.—Max Quarck, editor of the Volkstimme, was sentenced today to three weeks imprisonment for libelling the German troops that were in China by the publication by him of a letter headed, "German Beasts."

PREPARING FOR THE MILL.

Jeffries Still the Favorite.—Sharkey Wants Another Go.

San Francisco, Nov. 13.—While interest grows in Friday's Jeffries-Ruhlin fight, the odds are still 10 to 4 and no Ruhlin money is to be seen. Harry Corbett, who will act as referee, said tonight that the public could be assured as far as he is concerned that the men will fight from the moment they go into the ring.

Billy Delaney acting for Jeffries, has made arrangements with the San Francisco Athletic club to bring about a meeting between him and Tom Sharkey on December 20th, in the event of the champion beating Ruhlin. Sharkey is expected to arrive Friday morning and if the outcome of the big battle is favorable to the proposition he will go into training immediately.

NO BLAME TO MISS STONE.

Boston, Nov. 13.—The executive officers of the American board of foreign missions, concerning the case of Miss Ellen M. Stone, issued a statement today intended to be corrective of erroneous reports that have been wildly circulated relative to the conditions attending her capture by the brigands. This statement affirms that Miss Stone was in pursuit of her customary duties as a missionary when she was captured. The route over which she was travelling is one which is continually used by the missionaries and there was no reason for apprehending any special danger. No warning whatever was given to Miss Stone as to this particular journey either by the Turkish or Bulgarian authorities. She had the usual escort of eighteen or twenty people and was accustomed to carry with her a Turkish teskro, or permit to travel. One of the missionaries acquainted with the region states that the route Miss Stone took was the safest of any in that region. The statement further affirms that there is no ground whatever for criticising Miss Stone for want of precaution in making this journey.

NEGOTIATIONS PROGRESSING.

Washington, Nov. 13.—Such official information as comes to the state department from Sofia and Constantinople is confirmatory of the press reports of Dr. Dickinson's negotiations, with the Bulgarian government regarding Miss Stone's case. It is believed that the consul-general's efforts to secure Miss Stone's release by negotiations with the brigands without interference by the Bulgarian government will be successful. It is apprehended, however, that through his declination to permit the Bulgarian government to exert its police authority to effect the capture of the kidnappers, Mr. Dickinson may have absolved that government from any legal liability for the money paid over as a ransom to secure Miss Stone's release.

MURDER IS CHARGED.

Wausaw, Wis., Nov. 13.—Joseph and James Noiseu, uncles of Thomas Leclaire, who was burned to death in the theatre fire at Hurley, have returned from that place and assert that their nephew was murdered and the building fired to conceal the crime. They claim they discovered that on the evening of the fire Thomas Leclaire had a fight over a variety actress to whom he had been paying attention. Leclaire, they say, was on the same floor as those who were saved but no one was found who had seen him during the fire. The story will be investigated.

TWO MINERS INJURED.

Rossland, Nov. 13.—There was an accident at he Velvet mine this morning, Moriarity and one other were injured, the former very severely. The men were at work cleaning out a drift when the timbers caved in completely burying Moraicity and slightly injuring his companion. Further details could not be obtained.

NOT JUDGE IN KOOTENAY.

Rossland, Nov. 13.—Judge Leamy has been advised by wire from Ottawa that he has been appointed judge for Yale, and consequently he will reside in the Boundary country and not in Rossland as he originally intended.

INFORMATION REFUSED.

Rossland, Nov. 13.—The Miners' Union officials were examined today in the Le Roi damage suit. Much information sought to be obtained is refused on the advice of counsel.

GOES BACK ON THE PREMIER

Clifford, of Cassiar, Gives Reasons for His Defection.

Will Support no Ally of the Bad Man, Martin.

(SPECIAL TO THE MINER.)

Vancouver, Nov. 13.—C. W. A. Clifford, M. L. A., of Cassair, was a passenger on the Danube from the north today. Mr. Clifford said to The Miner correspondent that he had gone north to meet his constitutents. He had held three meetings. He was not satisfied with the government. He had been elected to oppose Jos. Martin and Mr. Dunsmuir, who had been one of the best premiers British Columbia ever had, had allowed himself to be influenced by Mr. Martin. This had weakened Mr. Dunsmuir very much for Mr. Martin was a dangerous man.

Asked if he were satisfied with the government's policy, Mr. Clifford said he did not see that the government had a policy at present and they were weak in another very important particular. Mr. Prentice he feared would be a failure as finance minister, although a fine man in many ways. He was entirely unsuited for the position and would not create a favorable impression in England. Mr. Turner made a good finance minister and he believed Mr. Carter-Cotton would make an excellent finance minister, "but," said Mr. Clifford, "who is there available now that can fill the position creditably?"

HORSE DISEASE IN CARIBOO.

(SPECIAL TO THE MINER.)

Victoria, Nov. 13.—Dr. Hamilton, who was appointed to inquire into the epidemic among horses of Chilcoten and Cariboo returned last night. He found the horses were affected with fistula in the withers. He had not concluded his examination but has sent some of the pus to Montreal for examination.

BREEN HAS NOT RESIGNED.

Progress of Track Laying on the Republic Railway.

(SPECIAL TO THE MINER.)

Grand Forks, Nov. 13.—A shipment of 31 tons of unsorted ore from the Lucile Dreyfus group, Nelson, Wash., treated yesterday at Granby smelter, yielded a return of $12.45 per ton.

Despite reports to the contrary James Breen has neither resigned the general managership, nor sold his large interest in the Brooklyn and Stemwinder group at Phoenix, owned by the Dominion Copper company. Mr. Breen is expected to visit the Boundary within a fortnight. His early coming has given rise to the belief that development operations on the Brooklyn group will be resumed without delay.

A pile driver is engaged driving false work for the proposed bridge of the Republic & Grand Forks railway across Kettle river at Nelson, Wash. The tracklaying gang, working from the Grand Forks terminus, is expected to reach the Boundary line on Monday. Delay has been experienced owing to the non-arrival of angle bars and plates.

THE LARDEAU RAILWAY.

Late news from the C. P. R. branch which is being extended into the Lardo is that good progress is being made. The contractors are certain that the road will be finished from Lardo to Selkirk, a distance of 35 miles this year. Track has been laid to a point five miles beyond the first crossing, or for a distance of 16 miles from Lardo. If the steel comes to hand, and it is being delivered as rapidly as possible, the road will be in condition for traffic by Christmas or at the farthest by New Year's day. The contractors do not wish to make two jobs of the contract and are determined to finish the work this year and so they will keep on till this is done, even if they have to finish the last of the road in a foot or two of snow.

ALL CANADIAN UNIONS.

Duirng the recent stirke of the railway trackmen there was a disinclination on the part of the Canadian Pacific railway officials to treat wither the executive representatives of the union for the reason that they came from the United States and were not British subjects. It is urged against the Western Federation of Miners that the headquarters of the executive of the organization is in the United States and not in Canada, that strikes are ordered there and not in this country.

To meet this objection it is proposed to organize an order of Canadian railway men, distinct from the International bodies, which at present are in contrrol, to consist of engineers, firemen, trainmen, conductors and telegraphers. It is claimed on behalf of the movement that the new organization would cut down expenses by doing away with class organizations and place affairs in the hands of one body, rendering it unnecessary to contribute to the maintenance of five grand lodges, and to insure recognition with railway managements by placing affairs in the hands of grand officers, who are British subjects, and therefore being spared the humiliation of being refused an audience on account of being aliens.

There is considerable to recommend this movement on the part of the railway men as if they were organized as a purely Canadian institution they could have behind them public sentiment which is of great importance in any contorversy they may have in regard to their rights, which they would not have when the oragnization of affairs are directed by alien grand officers. It might not be a bad plan for the Canadian branches of the Western Federation of Miners to form a similar independent body by divorcing themselves from the parent or American oagnizationr. As a body they would probably gain greater recognition from the mine owners as well as more sympathy and support from the public if they had the independent oganization.

In support of the affiliation with the American organizations the labor union men allege that labor does not recognize international boundary lines. That the efforts of unions are along the lines of mutual assistance, the sustaining of wages and the betterment of the condition of toilers. That the labor organizations of the United States, notably in the cases of the railway men, miners and printers, at first spread all over the United States and that branches finally extended into Canada. The unions in Canada were at first too weak to make a sustained struggle and the funds of the stronger branches were used to help them when in trouble. Take the Western Federation of Miners for instance. There are 60,000 members in it, and of this number about 3,000 or 4,000 are in British Columbia. When there is a strike funds can be drawn from 60,000 members to carry it on, whereas if the miners of the province were to form an independent order they would have only 3,000 to draw from in time of need. As it is, the miners say that in an international union there is strength.

Nothwithstanding these arguments we firmly believe that the unions of Canada would be better off if they were organized as independent Canadian bodies, and for the reason that a prejudice exists in the minds of the employers and the public against international labor bodies.

ATHABASCA-VENUS DEAL.

The British Columbia Review has the following to say of the Athabasca-Venus deal: "We referred some time ago to the possibilities of amalgamation between the Athabasca company and the owners of the Venus property in the neighborhood. We now learn that negotiations have fallen through, so that the future of the Athabasca now depends chiefly on the action taken by the Canadian stockholders. We are given to understand that the English shareholders are prepared to find their portion of the capital required and it is hoped that the Canadian interests will join hands to put the property on a sound basis." If the condition is as stated by our contemporary the Canadian parties at interest in the proposed amalgamation of these two properties should bestir themselves and raise their proportion of the capital required. The Venus is said to have plenty of ore while the Athabasca has considerable ore and a valuable reduction plant which could be utilized to advantage, and a combination under such circumstances would be profitable to all the parties concerned.

Save Your Snowshoe Tags

The most popular brand of Chewing Tobacco in Canada today is **"Pay Roll."** Every Plug of **"Pay Roll"** bears a "Snowshoe" Tag. Consumers should save these tags, as valuable presents are given for them. When you buy **"Pay Roll"** Chewing Tobacco, ask your dealer for our new illustrated premium catalogue. Tags are good up to January 1st, 1903.

EDITORIAL NOTES.

The announcement made in the east by General Manager Jay P. Graves, that the Granby company will expend $200,000 at Grand Forks and $100,000 at Phoenix in improving their holdings during the coming twelve months, these sums being earned by the mines and smelter instead of being drawn from the shareholders.

"There are only two absolutely fearless politicians in the province—A. E. McPhillips is of Victoria and Smith Curtis of Rossland," says The Victoria Post. "They differ from one another, and are both frequently wrong. But the people are so sick of political cowardice they would rather have them wrong than other people right."

A party of miners left here on Monday, in charge of a mining engineer with outfit and supplies sufficient to carry on work during the winter, for the purpose of operating a mine in northern Idaho. It happens that the enigneer, who is to have charge of the operations on the property, is a resident of Nelson and it is also a fact that the property to be operated can be reached easier from Nelson with supplies than it can be from any other point and therefore this is the best outfitting place for it. The scope of country tributary to this city is constantly enlarging and this is why the business of our wholesalers and retailers is steadily growing. No other result could ensue with a place having the splendid geographical position of Nelson.

Flat ropes are in much favor in Utah and Montana for hoisting purposes, says the Mining Reporter. They are built with round ropes of four strands each without hemp or wire core. The ropes are laid right and left hand twists, round ropes laid thus alternately so as to prevent side "fleet." There are usually seven wires to the strand. The round ropes are laced together with a soft iron wire of from sixteen to eighteen B. W. G. A ropeman and lacer can lace seventy-five to one hundred feet of rope per day, or can rip 200 to 250 feet or can clean 300 feet in a day of ten hours. At the Ananconda mine, Butte, a new rope will have to be resewed in about 200 to 300 days and it is resewed, generally, four times with a decreasing interval of time after each sewing. The lacing weighs ten per cent. of the total weight of the rope.

One Mr. Ormsby of Chicago is missing, and the causes which led up to the event are peculiar. In 1896 his wife presented him with twins, and Mr. Ormsby was mildly happy. In 1897 the household was made joyous with another set of twins and it was noticed that Mr. Ormsby was even more jubilant after the event than on the previous occasion. The household in 1899 became opulent with progeny for triplets came to it. This time the father was as happy as a big sunflower and local historians say he celebrated for three weeks, one week for each of the dear little triplets. About ten days since Mr. Ormsby was told that he was again the father of triplets and he has disappeared and cannot be found. The Chicago disciples of Sherlock Holmes have diagnosed the case and their conclusion is that Mr. Ormsby has become temporarily insane with joy and that he will celebrate this time by taking two weeks for each of the trio and that he will reappear at his happy home in about six weeks from the time he disappeared.

All Lipton's teas are grown in his own gardens in Ceylon.

NIGHT WAS HER TERROR.

"I would cough nearly all night long," writes Mrs. Charles Applegate, of Alexandria, Ind., "and I could hardly get any sleep. I had consumption so bad that if walked a block I would cough frightfully and spit blood, but, when all other medicines failed, three $1 bottles of Dr. King's New Discovery wholly cured me and I gained 58 pounds." It's absolutely guaranteed to cure Coughs, Colds, La Grippe, Bronchitis and all Throat and Lung Troubles. Price 50c and $1. Trial bottles free at Canada Drug & Book Co.

ASTHMA CURE FREE !

Asthmalene Brings Instant Relief and Permanent Cure in all Cases.

SENT ABSOLUTELY FREE ON RECEIPT OF POSTAL.

WRITE YOUR NAME AND ADDRESS PLAINLY.

There is nothing like Asthmalene. It brings instant relief, even in the worst cases. It cures when all else fails.

The Rev. C. F. WELLS, of Villa Ridge, Ill., says: "Your trial bottle of Asthmalene received in good condition. I cannot tell you how thankful I feel for the good derived from it. I was a slave, chained with putrid sore throat and asthma for ten years. I despaired of ever being cured. I saw your advertisement for the cure of this dreadful and tormenting disease, Asthma, and thought you had overspoken yourselves, but resolved to give it a trial. To my astonishment the trial acted like a charm. Send me a full size bottle.

Rev. Dr. Morris Wechsler,

Rabbi of the Cong. Bnai Israel,

NEW YORK, Jan, 3, 1901

DR TAFT BROS. MEDICINE CO.,

Gentlemen: Your Asthmalene is an excellent remedy for Asthma and Hay Fever, and its composition alleviates all troubles which combine with Asthma. Its success is astonishing and wonderful.

After having it carefully analyzed, we can state that Asthmalene contains no opium, morphine, chloroform or ether. Very truly yours,

REV. DR. MORRIS WECHSLER.

AVON SPRINGS, N. Y, Feb. 1, 1901.

DRS. TAFT BROS. MEDICINE CO.

Gentlemen: I write this testimonial from a sense of duty, having tested the wonderful effect of your Asthmalene, for the cure of Asthma. My wife has been afflicted with spasmodic asthma for the past 12 years. Having exhausted my own skill as well as many others, I chanced to see your sign upon your windows on 130 th street, New York, I at once obtained a bottle of Asthmalene. My wife commenced taking it about the first of November. I very soon noticed a radical improvement. After using one bottle her Asthma has disappeared and she is entirely free from all symptoms. I feel that I can consistently recommend the medicine to all who are afflicted with this distressing disease.

Yours respectfully, O. D. PHELPS, M. D.

DR. TAFT BROS, MEDICINE CO, Feb. 5, 1901.

Gentlemen: I was troubled with Asthma for 22 years. I have tried numerous remedies, but they have all failed. I ran across your advertisement and started with a trial bottle. I found relief at once. I have since purchased your full sized bottle, and I am ever grateful. I have a family of four children, and for six years was unable to work. I am now in the best of health and am doing business every day. This testimony you can make such use of as you see fit.

Home address, 235 Rivington street. S. RAPHAEL,

67 East 129th St., New York City.

ASHNOLA !

The new Coal City is owned by the Similkameen Valley Coal Company, Limited; who have placed one thousand lots on the market at the following prices: from $50 to $225, one fourth cash, balance three, six and nine months, without interest.

There is also a small block of the first one hundred thousand shares remain- to be sold at 35c., 5c. a share down, balance in six monthly payments. When these are sold the shares will be advanced to $1 each by the Company.

The Company's land, including the townsite of Ashnola, is underlaid with at least three fine seams of coking, steam and furnace coal. The Company also own the water rights and at least 25,000,000 feet of fine timber. All the above is owned by the one Company, and every shareholder will participate in the profits accruing from the sale of any of the above mentioned property.

A full force of men are now at work and will be kept on continually during the year. For further information apply to.

RICHES OF THE LARDEAU

Gainer Creek Property Shows Verg High Grade Ore.

Lower Freights Will Bring Out Many Shipping Mines.

J. O. Lade and W. B. Pool, who have been working the Ophir group in the Lardeau, were in Nelson yesterday on their way back from Trail, whither they had gone to look after the sampling of 10,000 pounds of ore they had sent down from that property to the smelter. This was only a test shipment to give them an idea of what the 160 tons they have on the dump would run The returns were highly satisfactory and they go back now to make preparations for the winter's work. The ore they had divided by sampling into two classes. The first grade gave them smelter returns of 37.97 ounces in gold and three ounces in silver, making a value of $761 to the ton, and the second grade ore gave 8.12 ounces in gold and almost no silver so that its value was $162 ton the ton.

Mr. Pool for himself and associates has taken a bond on the Ophir group which conists of the Foundation, Olive Mabel, Ophir, Annie L., Goldenvale and Famous mineral claims, on Porcupine creek, but reached by way of Gainer creek. He and Mr. Lade have been working on it for some time and have run a crossent tunnel which pierced the vein at a depth of 65 feet. The vein was found four feet wide, and all shipping ore. They then drifted on the vein and took out 160 tons of ore. This they sorted into two grades, of the first class of which there is about 100 tons and of the second class 60 tons. It was sample lots of this ore that they took to Trail smelter. This ore bore a strong resemblance to galena.

The construction of the railway will mean a great deal for the Lardeau camp they remarked. Their property, for instance, is now about 18 miles from transportation. When the railway is completed it will be about six miles. This means that prospectors can now go ten or fifteen miles further back and be similarly situated to what the Ophir is now. It also means that properties of lower grade ore than at present can be worked with profit. Just now ore that does not run $100 to the ton is not worth taking out. With the advent of the railway a great many more claims will be operated. Considerable ore could be taken out this winter but many will simply let it lie on the dumps till spring when cheaper transportation can be had.

Among the mines to ship this winter, in order of the extent of shipments, are, the Silver Cup, Nellie L., Triune, Beatrice, Cromwell and Black Warrior and among those that will be ready by the spring are the Ophir-Lade, Old Gold, Primrose, Lucky Boy, Ruffled Grouse, Kathleen and America. Mr Pool was manager for the summer on the Nettie L., on which about 40 men are now engaged. A drift was run on the lead and now there are backs of about 400 feet so that the output of that mine now is limited only, practically, by the quantity teams can be got to haul away.

Mr. Lade during the past summer worked the Triune under lease. The mine is thus in a position to ship ore steadily whenever the owners are ready to do so. The Ophir-Lade Gold Mining company has been organized to take over the bond and work the property. The capitalization of the company is $120,000 in $200 shares, all to be paid up in cash. This will give them $100,000 to pay for the property and $20,000 for operation. The shareholders are all Revelstoke men of considerable means and quite ready and able to supply the money as needed.

Mr. Pool and Mr. Lade are delighted with the satisfactory returns they got not only for what it means for themselves but also on account of the effect it will have on the mining camp. Heretofore the Lardeau has been known as a silver-lead camp, but now it is known to be a gold producer as well. It has been shown by recent prospecting, said Mr. Pool, that there are two gold belts running through the camp on a south easterly and northwesterly direction. Gold was found on Fish creek north of Ferguson and that reef has been traced through to the southwest for ten miles. The other reef is the one on which the Ophir is situated. It has been traced for about six miles.

It is a peculiar fact that the Ophir was located for silver in 1893 but was afterward abandoned. In 1897 Mr. Lade relocated it for gold and that year he sent to the Hall Mines smelter a shipment of two tons that yielded 12 ounces of gold to the ton. A picked specimen of telluride ore got that year assayed 567.2 ounces to the ton. He was engaged June 10th to Oct. 15th with a force of eight men including the cook. In the time mentioned they made four miles of trail, did 65 feet of dead work and took out 120 tons of ore. which ran in value from $296 to $310 to the ton, which shows how easily the ore can be mined and its richness.

Another effect of the construction of the railway will be that the people will naturally look to Nelson as their trade centre and already their attention is being turned this way. As far as Trout Lake the means of communication are quicker than with Revelstoke and with a steamer on the lake a still larger area will be made tributary to this city.

Advices from Ymir states that Bernard Macdonald, of Rossland, and Charles Dundee, of the Dundee mine, have been there for the past two days. Mr. Macdonald has been engaged in examining the Dundee mine in the interests of a London syndicate which purposes purchasing it.

The London & British Columbia Gold Fields company has bonded the free milling gold property recently staked by Godfrey Birtsch near the Yellowstone mine. It is reported that the price is $35,000 and that five per cent has been paid down.

On the Kitty Aldeen group, which adjoins the Tammany in Burnt Basin, a strike has been made of a ledge of free milling ore in which there is considerable free gold.

The compressor at the Poorman-Granite mine has been completed and work will be commenced with it this week, when the sinking of the shaft will be pushed vigorously to completion.

At the record office yesterday certificates of work were issued to the Royston Gold Mines, limited, on the Skeene Dow and Barrie.

The steamer Kaslo brought in a car load of Last Chance ore yesterday for the Trail smelter.

THE CITY

Work on the city wharf was resumed yesterday and the whole will be completed by Saturday.

The new railway siding for the use of the wholesalers on Front street was completed yesterday.

At the police court yesterday four disorderly characters were fined $25 and costs and a vagrant was given four hours to get out of town.

If the parties who stole Bill Herring's eight pigeons will return the two pets he will not make any trouble about the others; four were taken on Saturday and four yesterday.

A chimney on fire on Baker street last evening created a miniature fireworks exhibition for a short time, but was extinguished without the services of the fire brigade being called into requisition.

A new steamer for the C. P. N. Co. was shipped from Toronto last week. It will be called the York and will temporarily replace the Aberdeen on Okanagan lake. The Aberdeen is to undergo extensive repairs after which it will take the Okanagan run again and the York will be sent up to Trout Lake.

Messrs. Morley and Robert Thomson Laing have bought out the interests of the Thomson Stationery company. Mr. Morley will, as heretofore continue to act as business manager. The Thomson Stationery company was started five and a half years since as a limited liability company with T. Morley as manager. It has been successful from the start and under the new arrangement it will be more popular than ever. Mr. Laing will look after the bookkeeping and office work as his experience hitherto has been in that direction.

A. Lean, of the Queen Studio, has several small silver bricks obtained in rather a peculiar way. All sensitized paper used in photography is washed with nitrate of silver. The paper clippings accumulated and preserved for several years in Mr. Leans studio amounted to thirty pounds. A couple of days ago he sent the whole to an assayer to have the silver extracted with the result that he now has six pounds of the pure metal in bricks. He states that in the large studios in the cities the saving of the silver used in the various photographic processes amounts to a large sum in the course of a year.

BAD DREAMS

Caused by Coffee.

"I have been a coffee drinker, more or less, ever since I can remember until a few months ago I became more and more nervous and irritable, and finally I could not sleep at night for I was horribly disturbed by dreams of all sorts and a species of distressing nightmare.

Finally, after hearing the experience of numbers of friends who had quit coffee and gone to drinking Postum Food Coffee, and learning of the great benefits they had derived, I concluded coffee must be the cause of my trouble, so I got some Postum Food Coffee, and had it made strictly according to directions.

I was astonished at the flavor and taste, it entirely took the place of coffee, and to my very great satisfaction, I began to sleep peacefully and sweetly. My nerves improved, and I wish I could warn every man, woman and child from the unwholesome drug, ordinary coffee.

People really do not appreciate or realize what a powerful drug it is and what terrible effect it has on the human system. If they did, hardly pound of it would be sold. I would never think of going back to coffee again. I would almost as soon think of putting my hand in a fire after I had once been burned.

A young lady friend of ours had stomach trouble for a long time, and could not get well as long as she used coffee. She finally quit coffee and began the use of Postum Food Coffee and is now perfectly well. Yours for health. Dont publish name. —— Herrington, Kas. Name given by Postum Cereal Co., Ltd., Battle Creek, Mich.

REISTERER & CO

Brewers of Fine Lager Beer and Porter.

DROP IN AND SEE US

Nelson B. C

At the Kootenay Lake General hospital yesterday a son was born to the wife of Mr. Harry Johnson.

A horse belonging to the Hazelwood Dairy Co. took a spasm on Front street yesterday morning and smashed the shafts of the wagon to which it was attached.

The incoming passenger train from Robson last night was delayed three hours by an accident to a freight train, which had jumped the track about three miles east of the city.

The governor-general has decided not to interfere in the cases of Thomas M. Beamish and Joseph Colistro, confined in the provincial goal on a sentence of two months for interfering with one Horn, a non-union man at Rossland. The defendants appealed to Ottawa some time since and yesterday were informed that their appeal had been denied.

The appeal of the plaintiff in the case of Malone vs. Ferguson has been dismissed by the full court. The action was tried before Judge Forin at the last session of the County court in Nelson when it was dismissed with costs. The suit was one for damages for the overturning of a portable engine which the defendant, a drayman, was hauling for the plaintiff.

The appeal by the defendant, the City of Greenwood in the case of Waterman vs. Greenwood, came up before the full court in Vancouver yesterday, and judgment was reserved. This was a suit for damages sustained by the plaintiff whose property was flooded by water dammed by the construction of a roadway by the City of Greenwood At the trial of the action in Nelson before Mr. Justice Drake and a jury judgment was given for the plaintiff for $3,000.

A telegram from Vancouver yesterday stated that the appeal had been allowed in the case of Drs. Hall and Rose vs. Dr. LaBau and the City of Nelson, with costs to be taxed against the plaintiffs. It will be remembered in this case that counsel for the defendants wished to amend his pleadings. Judge Forin allowed him to do so, but adjourned the case till next court and put the costs on the defendants. From this decision an appeal was taken by the defendants to the full court and the appeal has been allowed. The case will thus be tried anew at the next session of the court. Taylor & Hannington appeared for the plaintiffs, and P. E. Wilson, as solicitor, and W. A. Macdonald, K. C., as counsel, for the defendants.

In the case of Peters vs. the Nelson Tramway company, before the full court at Vancouver on Tuesday, an application was made to allow the plaintiff to appeal, or in the alternative to extend the time for appealing. The application was dismissed with costs so that the verdict rendered by the jury last spring in favor of the Tramway company will stand. This suit was to recover $10,000 for the loss of an arm. Peters was a motorman in the employ of the Tramway company when it first began to run its cars. A car got away coming down Kootenay street and was upset with the result that Peters lost an arm. Macdonald & Johnson represented the Tramway company, and Taylor & Hannington, for plaintiff.

PERSONAL

Mr. and Mrs. Harry Houston returned to Nelson Tuesday evening after their wedding trip.

Mr. and Mrs. G. Alexander and child of Kaslo, passed through Nelson yesterday on their way east for an extended trip.

Conductor and Mrs. Durkee and family came down from Lardo yesterday to Kaslo, on their way to the Boundary country.

A. F. Rosenberger left last evening for Camborne to inspect the progress made in the development of the Oyster and Camborne groups.

The Queen Studio is giving away picture frames.

WOMEN AND JEWELS.

Jewels, candy, flowers, man—that is the order of a woman's preferences. Jewels from a magnet of might power to the average woman. Even that greatest of all jewels, health, is often ruined in the strenuous efforts to make or save the money to purchase them. If a woman will risk her health to get a coveted gem, then let her fortify herself against the insidious consequences of coughs, colds and bronchial affections by the regular use of Dr. Boschee's German Syrup. It will promptly arrest consumption in its early stages and heal the affected lungs and bronchial tubes and drive the dread disease from the system. It is not a cure-all, but it is a certain cure for coughs, colds and all bronchial troubles. You can get Dr. G. G. Green's reliable remedies at W. F. Teetzel & Co.'s. Get Green's Special Almanac.

Corporation of the City of Nelson.

BY-LAW NO. 101

A By-Law in Regard to Purchasing Certain Power from the West Kootenay Power and Light Company.

The Municipal Council of the Corporation of the City of Nelson in Council assembled enacts as follows:

1. Subject to the terms, conditions and provisions hereinafter contained, it is agreed that the Corporation shall take and the Company shall supply electric power at the sub-station of the Company in the City of Nelson for the power and lighting purposes of the Corporation.

2. The quantity of power to be taken by the Corporation from the Company will not be less than 100 horse power, such horse power to be delivered at a pressure of 2200 volts.

3. The Company will supply all the regulating apparatus in their sub-station for regulating the power necessary for properly operating incandescent lights.

4. The Company shall supply power from 100 horse power to 150 horse power if required by the Corporation at the same rate as hereinafter agreed upon, without further notice. The excess of power over 100 horse power to be charged for according to the horse power used. In case of the Corporation requiring further power the Company will agree to supply the same upon 30 days notice upon the following basis: In case 150 to 200 horse power is required by the Corporation, the Company will agree to supply the same up to 200 horse power as required charging for a minimum of 150 horse power and for the excess of horse power over 150 according to the horse power used. In case 200 to 250 horse power is required by the Corporation the Company will agree to supply the same, charging for a minimum of 200 horse power and from that up to 250 horse power according to the horse power used In case 300 to 350 horse power is required by the Corporation the Company will agree to supply the same charging for a minimum of 300 horse power and from that up to 350 horse power according to the horse power used In case 350 to 400 horse power is required by the Corporation the Company will agree to supply the same charging for a minimum of 350 horse power and from that up to 400 horse power according to the horse power used. In case 400 to 450 horse power is required by the Corporation, the Company will agree to supply the same charging for a minimum of 400 horse power and from that up to 450 horse power according to the horse power used. In case 450 to 500 horse power is required by the Corporation, the Company will agree to supply the same, charging for a minimum of 450 horse power and from that up to 500 horse power according to the horse power used. It being the intention that the Company will always keep in reserve 50 horse power over and above the minimum stated by the Corporation to be required, and shall charge for the said 50 horse power according only to the horse power used.

And it is understood that the highest minimum load for any month during the contract hereunder shall be the minimum load for each of the ensuing months during the contract, unless the minimum is increased by the Corporation.

5. Calculations of the quantity of power used by the Corporation are to be based upon the daily average peak load, such peak load to be arrived at by taking volt-ampere readings, and the calculations made from such readings, such readings shall be taken after the power has passed through the regulators.

6. The Corporation will pay to the Company monthly on the 20th day of each month for the power used (not being less than 100 horse power) during the preceding month at the following rate: For all horse power up to 300 horse power at the rate of $3 75 per horse power per month; and for all horse power in excess of 300 horse power at the rate of $3.33⅓ per horse power per month.

7. The power supplied by the Company shall be continuous as required during the whole twenty-four hours of each day.

8. If by reason of any accident or any cause whatsoever over which the Company shall have no control, a stoppage in the supply of power shall at any time occur, the Corporation shall be allowed a rebate from the price in the agreement provided, proportionate to the actual time of the said stoppage.

9. The duration of the agreement hereunder shall be for the period of one year from the date the Company shall commence the delivery of power to the Corporation, which date shall not be later than December 1s, 1901.

10. In the event of any dispute or difference arising between the Company and the Corporation in regard to the construction to be placed on this by-law or the contract to be executed embodying the provisions hereof, or the administration thereof, or any details of business between the Corporation and the Company in respect thereof, the same shall be referred to the arbitration of three arbitrators, one to be chosen by the Company and one by the Corporation and these two arbitrators so selected shall select a third, and any decision upon the point or points arrived at by the majority of such arbitrators shall be final and binding upon both the Corporation and company. Such abritration otherwise shall be governed by the previsions of the Arbitration Act, being Chapter 9 of the Revised Statutes of British Columbia, and any amendment thereto now or hereafter made.

11. A contract embodying the provisions hereof and covenants on the part of the Company to conform to and fulfil all matters and provisions hereby required of it, shall be drawn and shall be executed by the Corporation and the Company within one month after the date on which this by-law shall take effect.

12. It is understood that nothing in this by-law contained shall be construed as conferring upon the Company any right or privilege to generate or distribute or dispose of electric light or electric power within the limits of the City of Nelson except to the Corporation.

13. In this by-law the expression "The Corporation" wherever used shall refer to and mean the Corporation of the City of Nelson, and the expression "The Company" wherever used shall refer to and mean the West Kootenay Power & Light Company, Limited, its successors and assigns.

14. This by-law shall take effect and be in force on and after the 26th day of November, 1901.

15. This by-law may be cited as "The Power By-Law No. 101.

Done and passed in Council assembled this day of 1901.

NOTICE

TAKE NOTICE that the above is a true copy of the proposed by-law upon which the vote of the Municipality will be taken on Tuesday the 19th day of November instant between the hours of eight o'clock A.M. and 4 o'clock P.M., for the East Ward at the City Police Court on the east side of Josephine Street and for the West Ward at the office of Ward Brothers on the north side of Baker street between Stanley and Kootenay streets in the City of Nelson.

J. K. STRACHAN,
Clerk of the Council.

Nelson, B.C.,
November 5th, 1901.

Corporation of the City of Nelson.

PUBLIC NOTICE

Public Notice is hereby given that the vote of the electors of the municipality of the City of Nelson will be taken on By-Law No. 101. "A By-Law in regard to purchasing certain power from the West Kootenay Power & Light Company" on Tuesday, the 19th day of November instant between the hours of 8 o'clock a.m. and 4 o'clock p. m.

For the East Ward at the City Police Court on Josephine Street and for the West Ward at the office of Ward Brothers, on the north side of Baker Street, between Stanley and Kootenay Streets in the City of Nelson

"Any male or female being of the full age of twenty-one years who is the assessed owner of land or of real property within the municipality shall have a vote either confirming or negativing the said By-law in each ward in which he or she may be assessed for land or real property."

Dated at Nelson, B. C., this 8th day of November, 1901.
