INDIANS ROUND UP THE JAPS

Fishermen's Strike Assuming a New Phase at the Coast.

Thousands of "Milk People" to Come From Russia as Settlers.

(SPECIALS TO THE MINER.)

Vancouver, July 5.--The steamer Selkirk brings the news of the "first gun fired" in the fishermen's strike. About 300 Japs went out to fish on Sunday when they were surrounded by twice their number of Indians in canoes and driven ashore and corralled in one of the canneries where they were locked up. It is not known, however, the cause of the alleged hostile attitude of the Indians against the Japs.

The Vancouver assay office treated $30,000 worth of gold today, deposited by F. Klok of Dawson. This is the last gold of $100,000 worth brought out from Dawson by Mr. Klok.

John Thompson, owner of a number of mining claims at Jervis Inlet, has been drowned at Jervis Inlet by his boat upsetting in a tide rip at the mouth of the Inlet. The accident happened on Sunday, the news being brought down by the Comox.

Winnipeg, July 5.—Mr. Ens, of Rosthern, N. W. T., has received a letter from Russia, stating that a sect known as Molokames (Milkpeople) are coming to this country and will settle in Saskatchewan. There are about 32,000 souls which are likely to come out in parties and settle along the north branch between Rosthern and Battleford or Roundhood mail station. Mr. Ens has known these people for some years and speaks very highly of them.

Winnipeg, July 5.—At the second day of the triennial council of the Angliacn diocese of Algoma, held at Port Arthur, a deputation was heard from the Lord's Day Alliance which received full accord and sympathy. The women's auxiliary were thanked for services rendered. Rev. G. Gilmore introduced a motion that carried, that in effect stated that the law of the Province of Ontario regarding the issuance of marriage licenses of persons who are strangers or not previously well known to the inhabitants or to the issuer of the marriage licesnes, should be made stricter and that the making of an affidavit is not sufficient. The death of Rev. James Thornlee, father of Bishod Thornlee, at Lachine, has not interfered with the meetings of the council, as the bishop has not left.

Montreal, July 5.—Reports received at the local C. P. R. offices this morning indicate that the trackmen's strike is gradually drawing to a close. General Manager McNicoll stated that he had received word from General Superintendent Timmerman at Toronto to the effect that Ontario division gangs were still out west and north of Toronto, and of these, three had promised to return to work this morning. On the Atlantic division McNicoll said all the men had returned to work and the strike was off. President Wilson of the Brotherhood of Trackmen, when seen, read number of dispatches from the representatives of the association both from the Atlantic division and the Northwest in which it was stated that union men were holding out and the company was employing alien labor.

The estate of late Senator Villeneuve, which amounts to $500,000, is substitued to his grand children, 20 years hence. Charitable legacies, payable under the terms of the will, are $25,000 to Laval University to aid in the construction and furnishing of a building for a polytechnic school provided that such of his grandsons as may adopt the career of civil engineers shall receive their training free; $2,500 to the Little Sisters' Poor; $5,000 to Notre Dame hospital; $5,000 to the Catholic orphanage; $5,000 to the St. Vincent de Paul society; $1,000 for the erection of a monument in Cote des Neiges cemetery.

The Richelieu & Ontario Navigation Co. have decided to proceed with the construction of a marine railway at Sorel to facilitate repair of the company's fleet. Repair shops have been at Sorel for several years and the fleet goes into winter quarters there. The cost of marine railways will be about $100,000 and the company intend to ask a bonus from the town of Sorel to help defray the cost.

Ottawa, July 5.—At a meeting of the executive of the Victoria Order of Nurses yesterday, Miss McLeod, superintendent, who has just returned from a tour of the Northwest, reported encouraging progress at all centres of the order. Work is to be started at Vancouver. Vernon hospital is flourishing and is no longer in receipt of any aid from the Victoria order. Regina is also self-supporting and is about to open a fine new hospital built at an expense of $9,000. In Carberry a house has been rented for hospital purposes by a resident lady and application has been made for a Victorian Order nurse, who will be sent at once. It is expected this will prove a nucelus for a cottage hospital.

Three months sick leave has been granted to Judge Craig, Dawson City, and formerly of Pembrooke. He is coming out to undergo an operation.

The statute of the Queen, by Herbert, is being set up on Parliament Hill and is drawing much attention. It will likely be unveiled by the Duke of Cornwall and York.

Montreal, July 5.—A meeting of the grievance committee of the Brotherhood of Trackmen was held this morning at the Grand Union hotel, President Wilson in the chair. A large number of reports were read from different representatives of the association along the C. P. R. line, all telling that men were holding out in a very satisfactory manner. A printed circular was read, a copy of which will be sent to all members of the association. In it the men are exhorted to stand firm on the great struggle for liberty and justice, claiming if they would only do so they would surely be victorious. As the strike might be prolonged for a while longer the men were advised to take employment outside if they were able to get it, and that they might rest assured that when the settlement was reached they would be reinstated in their old positions.

Halifax, N. S., July 5.—Sergt.-Major Harrison, aged 45 of the Royal Artillery, dropped dead while walking from the mess to the citadel. Heart trouble was the cause.

The lumber mill of Alfred Dickie, at Stewlacke, was deestroyed by fire yesterday for the fourth time in ten years.

Kingston, Ont., July 5.—Early this morning, while being brought to the penitentiary to undergo a ten year's sentence for incest, a prisoner named Henderson, from Sault Ste. Marie, jumped from the train at Ernestown station and escaped. He was not handcuffed. The constable is hot after him.

Toronto, July 5.—George Fred Goodman, baker's apprentice, aged 16, took a dip in a small pond at Bracondale during Wednesday's heat, and was drowned. He was not missed until 6 p. m. last night and a search resulted in the discovery of the body in the pond.

Victoria, July 5.—Eighty workmen employed on repairs to the ship Potalloch, on Bullen's Marine railway at Esqumalt, have struck,. They were receiving 25 cents an hour and demand 30 cents, which was refused by Bullen.

Montreal, July 5.—E. A. Small, proprietor of the wholesale clothing establishment of E. A. Small & Co., of the Fit Reform Wardrobe, was drowned at Lake Megantic this morning. No particulars have been received.

Napanee, Ont., July 5.—J. W. Bell, M. P., who had a stroke of paralysis a few days ago, died this morning. He was 63 years of age, a Conservative, and represented Addington in the Canadian House of Commons.

Montreal, July 5.—Customs returns show that Montreal collects 75 per cent. more revenue than is collected at the next largest port in the country and nearly one third of the total revenue of Canada.

Hamilton, July 5.—Wenley Farrell, age 15, fell through McNab street bridge and received fatal injuries.

LEANDERS BEAT PENNSYLVANIA

Magnificent Eight-Oared Contest at Henley Regatta Yesterday.

The English Stroke Again Proves Superior by One Length.

(SPECIALS TO THE MINER.)

Henley, July 5.—After a magnificent race today the Grand Challenge cup was won by the Leander crew, who defeated the eight of Pennsylvania University by one length. The attendance was very large as the final for the Grand Challenge was looked upon as the event of the Henley week. The Pennsylvanians reached their boathouse at 1.10 o'clock, apparently as fit as possible. While many of the followers of the red and blue showed marks of the intense strain of the final minutes. the members of the crew stripped, chatted and laughed as coolly as though going out for practice. Ellis Ward, the American coach, placed a minatnre American flag upon the rudder of his boat, as the coxswain came to the boat house and said to Smith, "Keep that as far ahead, my boy, as you can."

Both the Leander and Pennsylvania crews at the start showed no trace of nervousness and were sent away in capital style, the Pennsylvania rowing 43 to the minute and the Leanders 42. At the end of Temple Island the Americans led by three men. At Fawley the time was 3 minutes 25 2-5 seconds, with the Leanders three feet ahead. From there it was ding dong, a splendid struggle, out of which the Leanders gained inch by inch. The mile was reached in 5 minutes and 15 seconds with the Leanders half a length in the lead, which they increased to three-quarters of a length at the Isthmian. The Pennsylvania crew made a desperate spurt but it was not good and two men weakened perceptibly opposite the grandstand. The Leanders won by a length, time 7 minutes 4 4-5 seconds.

"It was a grand race," said Coach Ward, as the Leanders crossed the finish line. "We were simply outrowed and have no explanation to make."

It certainly was the best and most exciting contest ever seen at Henley. There was scarcely the advantage of three feet between them half way down. The cheering for the contestants as they struggled for the laed, was terriffic. Even Henley had never before heard such wild applause as greeted the Pennsylvanians and the Leanders all down the course and the cheering was delirious from the partisan of the Leanders as the latter's boat crossed the line at the finish ahead of the Pennsylvania.

CANADIAN NEWS

Niagara Falls, Ont., July 5.—Carlisle D. Graham, who claims he went over the falls in a a barrel, September 1, 1889, offers to repeat the a venture if he can elude the police.

Victoria, July 5.—Numbers of sealing schooners are returning from the West Coast, being unable to ship Indian crews. Among them are the Teresa and Libdie, one of which returned to port this afternoon.

Vancouver, July 5.—It is reported from Mr. Marpole's office that tomorrow will be the last day when strikers may go back to work. It was further reported that 25 men a day were being sent from the east.

No move has yet been made towards putting through the road from Nelson to connect with the Poorman road near Kootenay Crossing. The present trail, although in bad condition, sees a great deal of traffic, as besides pack trains which are continually traversing it, flocks of sheep and herds of cattle are driven over it. The opening up of this road, besides giving a considerable business to Nelson merchants from the mines on 49-Creek and adjoining country, much of which at present goes to other points, will open up some good ranching land extending south from the Crossing towards Robson.

FIRE BRIGADE IS ALL RIGHT

Nelson Has Good Protection Against Fire—A Fine Record.

History of the Brigade and Brief Description of the Equipment.

Nelson's record in the line of fire protection has been an enviable one. Since the volunteer brigade was first started every fire has been got under control before the building was destroyed or even badly injured. In several of the fires that have occurred in Nelson the deadly element has got a strong hold and the quick and masterly way it has been handled has evoked much favorable comment. The two fires of recent dates that were the most threatening for a time were those that occurred in the Burns' block, before it was quite completed, and in the Nelson Furniture company's store. In the first of these the fire was caused by a candle which had been left burning in a darkroom in the cold storage plant on the second floor while the workmen went to dinner. The candle evidently burned down and fell over, setting fire to a lot of shavings, and eventually to the building. This fire was in progress for an hour before it was discovered, and was a very difficult one to handle. In the fire at the Nelson Furniture Co.'s premises the fire got in among a lot of highly inflammable goods, in the shape of newly varnished furniture, and the saving of the building was remarkably good work.

The first regular fire brigade in Nelson was organized in the winter of 1896-7, the service before that date having consisted of a volunteer bucket brigade of any and all who were available. Chief Calkin was the first to take charge of the brigade, which at the outset consisted of fourteen volunteers, with two hose carts as equipment. The men received $2.50 for every time they turned out to a call, either practise or a fire, this system of paying being kept up till the spring of the present year.

When the Klondike rush came on Chief Calkin resigned his post to go to the north, and was succeeded by Chief Thompson, who held office till last spring, when he went with the Baden-Powell Constabulary to South Africa. During his regime two more volunteers and a hook and ladder truck with a team of horses were added to the brigade. A mess was also put in at the fire hall, at which most of the men arranged to get their meals. Three bed rooms were added to the building for the convenience of those who wished to sleep there, also a lavatory. Later a combination chemical and hose wagon was purchased from the Chicago Fire Extinguisher Manufacturing Co., of Chicago, Ill, capable of carrying 1,000 feet of hose and a fifty gallon chemical tank, always ready for immediate use.

Last spring, owing to various disagreements a turnover occurred in the brigade, and on the resignation of Chief Thompson, Mr. T. L. Lillie was brought over from the Coast as an experienced and able fire chief to take charge. With Mr. Thompson a number of the men composing the brigade also resigned, and new ones were put on. Chief Lillie reduced the force to thirteen men, of whom three are always on duty, viz.: Chief T. L. Lillie and H. Stutter and J. Boyd. Besides these there are ten volunteers, who are now paid by the month, $15, with a fine of $2 for missing a call. The present members of the brigade are, Captain J. J. Chambers, Lieut. J. R. Campbell, and the hose men, K. Douglas, J. Thompson, J. McLeod, J. J. Foote, H. Houston, Thomas Lillie, R. Thompson, and C. Loudin. The object of paying the men by the month, is to make the organization more perfect, and introduce better discipline than was possible under the old system.

There is a small but good gymnasium at the hall which is steadily used by the members of the brigade, some of whom are athletes of well known reputation.

For mascot the brigade boasts the ownership of a fine mastiff pup, who brilliantly decorated, occupied a conspicuous place on the handsome float which the brigade turned out for the late celebration. Besides the pup there are a family of rabbits, which have been turned out of a comfortable pen and confined to a small hutch to make room for two young eaglets which were captured a few days ago. The birds are fierce as can be and not the least bit afraid of their captors, and despite close clipped wings evince a strong disposition to get up a fight with any one who comes near.

LACROSSE TODAY.

Medicine Hat and Nelson Teams Will Meet at 3.30 O'clock.

Great interest is being taken in the lacrosse match—Medicine Hat vs. Nelson—which is to take place at the recreation grounds at 3 o'clock this afternoon. The magnificent game put up by these two teams when they played to a tie on Tuesday afternoon last leads everyone to expect a better exhibition of the national game this afternoon than was ever seen before in Nelson. Two teams could not be more evenly matched than these and each plays the game in a brilliant, fast and scientific manner. The Medicine Hat men returned last evening from Grand Forks where they scored a victory on Thursday and are ready to play the game of their lives this afternoon. A few changes are likely to be made in the Nelson team which should have the effect of strengthening it.

The admission fee will be 25 cents and the R. M. R. band will supply music during the game.

The members of the Medicine Hat lacrosse team who returned from Grand Forks last evening report that they had a very enjoyable trip and were treated to the best the town provided. In reference to the game the players say that while it was not as fast as Tuesday's game here it was still fast enough to leave them a bit stiffened up. Grand Forks scored the first game in about ten minutes and the visitors followed with two games before halt time. In the first minute of the second half the Hat team added another to their score and fifteen minutes before time was up the Grand Forks team also scored. This made it 3 to 2 in favor of the visitors and the home team made a most determined effort to even matters. It became very exciting by a series of brilliant rushes on the part of Grand Forks and the defensive but aggressive work of Medicine Hat. There was a very large attendance and enthusiasm ran very high.

The Nelson team will be as follows: A. Jeff, goal; Farrell, point; Frazer, cover point Vanstone, 1st defence; Thompson, 2nd defence; Hawkins, 3rd defence; Perrier, centre; McNicoll, 3rd home; C. Jeffs, 2nd home; Archibald, 1st home; Whittet, outside home; Spry, inside home. Spare, Clarke and McFarland.

The following are the mining records for yesterday: There was only one transfer which was the purchase of the Mastadon by Eliska Bigelow from Cyril H. Green. On the previous day the O. K. mineral claim was purchased by J. A. Schultz from Archibald McDonald and A. B. Campbell. Three locations only were recorded which are as follows: Chicago, on Burnt creek, about 4 miles from wagon road, being a relocation of the Rio Grand, by D. Loudon; Saginaw, in the west fork of the north fork of the Salmon river, located by Katie D. Green; Victoria Fractional, between the Emerald and Victor claims, one and a half miles south of Porcupine creek, bounded on north by Emerald and Sunrise, south by Victor and Unknown, east Unknown and west by Emerald, located by F. S. Clements. The Duncan Mines Company, through A. M. Johnson, agent for the company, recorded certificates of work for the six following properties: Wren, Calumet, Rocket, Planet, Comet and Little Georgie.

The recent transfers of valuable properties that have taken place in the Fish river camp in the Lardeau has caused a number of prospectors to head in that direction from various points.

The number of people in the United States who are more or less injured each Fourth of July by cannon crackers averages about 200. In Nelson during the late celebrations there were several narrow escapes from this caurse but as far as known no one was hurt.

WILL WORK IN WINDERMERE

Nelson People Secure a Half Interest in a Group of Claims.

Another Syndicate Is Formed to Operate Lardeau Properties.

Chadbourn & McLaren have just closed a deal whereby they have secured a one-half interest in the Black Prince and Pardner group of claims in the Windermere district. It was bought for cash of Joseph Lake of Ahalmer. The property was under bond to Mr. H. E. Croasdaile last year for $11,000 and $1,500 was spent in development but the work was commenced too late in the season and it was decided not to work during the winter as it could not be done to advantage. In the meantime the bond expired before it was sufficienty proven to justify making the first payment. The ore is a high grade copper, showing bornite, averaging about 15 per cent copper and gives promise of being a large lead. The pay streak is three feet wide but the width of the vein has not been determined as only one wall has been found. The property is situated on Boulder creek, on the same mountain as the famous Paradise mine which has shipped during the season 1,000 tons of ore. Mr. Croasdaile owns the adjoining property being an extension of the Black Prince and it is the intention of the owners to pool their interests and form a syndicate to work extensively at no late date.

Mr. A. F. Rosenberger returned the end of last week from Fish creek camp, in the Lardeau district, where he has bonded the Oyster group, adjoining the Eva, which has just been sold to the London & B. C. Goldfields for $250,000. He will return to the property in a few days to start development work. Mr. Rosenberger has also bonded the Sir Wilfrid Laurier group, and the Noble Four and Excelsior claims, adjoining the Sir Wilfrid. A force of men is now at work on the Sir Wilfrid.

A syndicate of Nelson men in being formed to be known as the Rosenberger Prospecting Syndicate, to take up Lardeau properties, develop them sufficiently to show their merits so that they will be in fit shape to put on the market. There are great opportunities at present in the Lardeau for prospectors as many new discoveries are being made each day, the ore all being free milling gold.

The Kaslo Smelter, Limited, has secured the services of E. D. Wilson of the Standard Smelting Corporation of Montreal to investigate the smelter situation here and make a report. Mr. Wilson has been working diligently since his arrival in town last Friday and has been visiting personally all the sources of silious and dry ores necessary for fluxes. Mr. Wilson when seen would not give any information as to the substance of the report.—Kootenaian.

Nearly all the shares of the Imperial Development Syndicate which this week ratified an agreement whereby it receives $250,000 for some Lardo properties, are held in Nelson. The net profit of the syndicate is $175,000. The success of the Nelson men who form this company is but an example of what profit there is in mining if it is undertaken on a business basis.

The Nelson Mining Company, of which G. W. Taylor is president, and Robert McGregor secretary, met this week to complete arrangments for the season's operations. The company is purely a developing one and will secure properties to open up for the market.

Several prospectors were in yesterday from 49-Creek. They stated that the heavy rains a couple of days ago had flooded out many shafts in that part of the country and would cause the abandonment of some claims for the present.

The King Solomon group on the north fork of the Salmon river has been bonded to an Indiana company.

CURBING THE RAILWAYS.

When it was first announced that the Canadian Pacific Company would build and operate the lead refinery which the Federal Government has offered to bonus, The Miner expressed the opinion that the Government would be reluctant to enter into an agreement to pay the bounties to a railway corporation. There appeared very good reasons why no company should be given a monopoly of the lead industry of the Kootenays. It may be that The Miner was all wrong, and that the Government will be happy to encourage the Canadian Pacific Company to undertake the enterprise. We do not get that impression, however, from a leader in The Toronto Globe on freight and smelting charges, suggested by the proceedings at a meeting of the North Star Mining Company. "When the railways," it says, "combine their business as common carriers with that of smelting ores, it is difficult to arrive at a basis for determining what charges are fair and what are unfair." The meeting referred to was of the same opinion. The cost of freight and treatment to the North Star has been so heavy that the management have decided to suspend production until better terms can be obtained. This suggests remarks to The Globe which can only mean that the Government is awakening to the necessity of taking the railway companies in hand and subjecting them to rather rigorous supervision. "The people have a right to see that the highways are not manipulated in the interests of any smelting enterprise. The Canadian people will pay a bounty of five dollars per ton on all the lead smelted in the Dominion next year, and under existing conditions the entire amount may be absorbed in railway charges, leaving the smelting and mining industries no better off than without the public aid." If the Government is alarmed to the point of legislating because of combined freight and smelting charges, it will not be anxious to aggravate the evil by throwing into the railway pot the refining interest as well.

From these and other remarks that have appeared, with a sort of semi-official authority, it would seem to be the intention of the Government and Parliament to take early steps to put a curb on the railways.

Mr. E. S. Busby, the Canadian customs official who took it upon himself to hoist the flag that was cut down at Skagway the other day, has communicated an account of the affair to the Collector at Vancouver. The only thing which is rendered conclusive by the letter is that Mr. Busby is scarcely the sort of person to represent this country in an official capacity anywhere outside of it. He is evidently very much impressed with his own importance, and quite too much impressed with the dignity of his position. The Department will act with discretion if it removes Mr. Busby to some quiet spot in his own country, where he will not have occasion to imagine that it devolves upon him to maintain the prestige of the entire British Empire.

It is almost distressing to think that the members of the Executive Committee of the Dominion Day celebration are so embarrassed with modesty that they cannot explain why the printing of those programmes was taken from The Miner and given to Mr. Houston's office. The matter is of public interest, and it is but right to insist upon a full explanation. Not that we wish to suggest for a moment that the public need care a button whether The Miner got a cent's worth of the patronage. The Miner cares very little itself for that alone, and nobody else need care at all. It is not the mere loss of the job, but the reason why it was taken from this office, after being placed, and given to the other. Such a very unusual course could not be taken without what must have appeared to the Committee as just cause or provocation. What was it? We again invite the members of the Committee, to whom was entrusted the handling of several thousands of dollars of public money for public purposes, to explain. In case they may have forgotten they were members, we again publish the names: Frank Fletcher, chairman; H. R. Cameron, secretary; G. W. B. Heathcote, treasurer; John Houston, H. H. Playford, J. K. Strachan, E. W. Matthews, A. G. Gamble, and Percy Chapman. Come, gentlemen; out with it.

During the thirty-four years of Confederation our population has increased from 3,300,000 to 5,500,000; consolidated revenue has increased from $13,687,928 to $51,029,944; railway mileage, from 2,087 to 17,358; postoffices, from 3,638 to 9,627; letters, from 18,100,000 to 178,292,510; note circulation, bank and Dominion, from $16,800,980 to $69,626,368; saving bank deposits from $1.50 per head to $12.45; other bank deposits, from $33,653,359 to $227,256,716; life insurance, from $35,680,082 to $404,135,593; gold production from $3,013,431 to $21,260,437; tonnage of seagoing vessels, inwards, from 2,104,009 to 7,262,721. Let us not say that Canada is a country of slow growth. It is doing excellently. If our population is a little disappointing, we should at least be gratified at the progress made in every other direction. Our temperance friends will rejoice to know that during the same period the consumption of spirits per head has decreased from 1.12 gallons to .66, and that Canada today is one of the most temperate countries in the world. Look at it as we will, Canadians have every reason to be proud of their country.

There are two features about the transaction reported yesterday in these columns that are extremely gratifying. One is that the town and district are fortunate in possessing an asociation like the Imperial Development Syndicate, that has the intelligence, the enterprise, and the means to seek out promising properties and to demonstrate what is in them. The other is that we have also a company, the London & B. C., with the capital to take them up and work them. Mining, after all, in the Kootenay is in its infancy; who can tell how magnificent the development may be, with such a strong company, managed with the courage and enterprise that at present characterise it, prepared to face any proposition that can offer good returns? It is not unlikely that the London & B. C. will prove to this district all that the biggest operating companies have been to the Rand.

We have received for publication a letter written in behalf of the striking trackmen, showing up the inconsistency of a person who is described as "Turncoat" Houston. There is no good purpose to serve by publishing it, as Mr. Houston's poverty of principle is well known to everybody.

HUDSON'S BAY COMPANY.

INCORPORATED 1670.

DON'T forget to inspect the HUDSON'S BAY STORES

ON BAKER STREET

MONDAY and following days this week.

INSIDE our building we will astonish you:

NOT with our ordinary stock, but

INSTEAD we have on our holiday attire, and we invite you all to come and see us.

OF variety of goods we have no end. Our stock is complete in Dry Goods, Carpets, House Furnishings, Boots and Shoes, Gents' Furnishings, Groceries, Crockery, and Liquors.

NONE of our goods are of the trashy kind, but are selected from the best markets of the world: so

DON'T leave Nelson without making your purchases at our stores,

AND thus terminate what we hope has been a well spent holiday.

YOU will never regret it.

THE TONTINE SAVING ASSOCIATION

Home Office Minneapolis, Minn.

Victoria, B. C., May 29th, 1901.

Mr. Jno. T. Pierre, Nelson:

Dear Friend John,—Your favor from Kaslo duly received with $5.00 enclosed and herewith please find receipt for same, also herewith please find four contracts for Sam and one for Malone. Business, I am pleased to say, is just booming here and I tell you they are talking Tontine good now. This is the list of payments I have made this week:

P. Crombie	$160	Dr. Lewis Hall	$320
A. McLaggan	480	Harry Maynard	320
Tom Sarantis	160	A. Bancroft	960
Jos. P Stewart	160	D. T. Scott	160
Jos. Mayer	160	H. Liebenbaum	160
H. J. Case	160	N. Shakespeare	320
	$1280		$2240

$3,520 is pretty nice I tell you and always looking for more. So just tell your friends to get aboard. I have now myself 30 and hope to get it to 50 before long. With best wishes to you, I remain yours very truly,

FRED CARM, Jr.,
General Agent B.C.

TRETHEWEY & BRITTAIN,
Room 3, Bank of British North America, Hastings Street, Vancouver

About that second hand article of yours. You'll sell it if you'll advertise it in The Miner want column.

COME OVER AND HELP US.

We Have the Mines, and You Have the Money.

So says Mr. R. C. Campbell-Johnston in a letter published in the London Financial News, of recent date. After describing the geographical position of the Kootenay district, the letter proceeds:

"The predominant mineral—and that very plentiful—is silver-lead, as wet ores (carrying, say, over 35 per cent. metallic lead) in a slate formation, and dry ores (carrying, say, 3 per cent. lead, in granite formation. The more particular camps are the Slocan, Springer Creek, Ainsworth, Kaslo, Moyie, Kimberley, Fort Steele, Windermere, East and West Lardo, and others. Development has already blocked out and marketed immense amounts of ore, the St. Eugene mine being the largest silver-lead mine in America. The output of lead for 1900 was $2,690,577—three times as much as in 1899. The silver output was $2,295,099, or a total of silver and lead of nearly $5,000,000. This large increase for last year was due to more railway facilities, such as the opening of the Crow's Nest Pass road; with the Lardo road built this year, and the Windermere district to follow, double as much lead will be thrown on the market shortly. The end of this development, and the immense amount of marketable lead, will not be in sight for scores of years.

• • •

Slocan was the first great camp. Prospectors discovered very large outcrops of clean galena going 70 per cent. lead and 150 oz. silver on the surface in shutes, which have been shipped without sufficient further development. There were then no trails, roads, houses, or communication nearer than one or two small flat-bottomed steamers on Kootenay Lake connecting with the United States. The Canadian Pacific Railway came to the rescue, and in due course built fine railways and steamers to open up the country. Then came the American railways to try and steal the trade. Now competition is keen to the benefit of the miner. Smelters for custom ores were built, and after several failures at Golden, Pilot Bay, and Revelstoke, we have now two smelters running at Nelson and Trail. The American smelters bought the bulk of our ores till this year, when the American Lead Trust came into existence. Now, in spite of an import duty in their favor of 1½ cent per pound on lead, and our keen offering, the lead trust refuse to buy. Why? American Lead Trust is a misnomer; it should be American Silver Trust. As silver is nearly entirely associated or smelted with lead ores, if this trust corner the world's output of lead, they corner the world's output of silver. Their object is to take the world's silver market away from London, and transfer it to New York, if they can, and so have this enormous lever of trade with all silver countries. Can they do this without cornering the Kootenay lead output?

They think they can strangle it, not knowing the vitality of British blood. I think they cannot corner or strangle us; time will show, or, rather, capital invested here will show, the importance of British Columbia silver. This trust proposes to shut down all low-grade silver-bearing lead ores, more than those required to flux their silver, and they do this by lowering the price of lead, so as to make it unprofitable to smelt lead for lead alone. This trust also are after the Joplin (Missouri) zinc output, partly in connection with its use to desilverise lead. Now, what can British capital do to show "brother Jonathan" that British push and trade is by no means dead, that business acumen is as good today as ever in the British Empire, against all comers, and that our London silver market will stay there, that our trade with India, China, Japan, and other silver countries will always exceed the other countries comtined? This is what they can do. Come and invest in this part of the British Empire large amounts of working capital. Canada gives you preferential tariff. Open the mines up as they should be opened with machinery. Don't pick the eyes out of the mines, as is now done, by shipping the clean galena and leaving thousands of tons of second-grade ore on the waste dumps. Open up the dry ore mines for fluxes on Springer and Lemon creeks, Kaslo, and East Kootenay. Build smelters—not custom smelters without a mine, but near the mine, to save transportation rates. Put up zinc furnaces to produce spelter to desilverise the lead. Manufacture the lead into marketable products on the spot to ship to China, Japan, India and other markets very accessible. Then Britain can hold her own in lead and silver with all the world and free trade.

It takes money to do this. That is what this district requires, and London has it. There are big dividends to be earned by investment of large sums of money; so that the enterprise is not cramped for working capital to overcome difficult contingencies. We don't want stockbrokers to come and inflate mining stock with no working capital; but we want such men as those who have made a success of the Broken Hills, Rio Tinto, Mason and Barry, Tharsis, Cape Copper, and such businesslike undertakings, worked as a legitimate business, and not as a stock gambling scheme. Come over and help us; we have the raw material in abundance; you have the money. There is money and dividends in it for both.

THE CRISIS. By Winston Churchill. Toronto: Copp, Clark Co., Ltd.

It is the American Winston Churchill, not the English, and The Crisis is the great American Rebellion of 1861-65. The novel, therefore, is historical, as was "Richard Carvel" by the same author. A prominent and exceedingly delightful character of "The Crisis" is Colonel Comyn Carvel, a great-grandson of Richard, and the Colonel has a daughter, Virginia, the heroine of this later tale, who is quite worthy of her far-away grandmother, Dorothy Manners. This means, of course, that she is a most lovable girl, although one not as deeply smitten as Stephen Brice or as idolatrous as Capt. Lige is provoked to impatience by some of her moods—moods one does not expect to find in a young woman of healthy, rational mind. Stephen is entirely natural, and a very fine fellow. We have real characters in the book—Lincoln, Grant, Sherman, and other lesser lights. The Lincoln which the author gives us rather jars at times. Many of the situations in which we find him, and the conversations with which we are regaled, seem not altogether worthy of the great statesman, patriot, and martyr; but curiously enough we take leave of him on each separate occasion with increased respect for his character.

We would not like to say that the book is as finished a piece of work as "Richard Carvel," but no one is in the least likely to take it up without going through to the end. Eliphalet Hopper supplies just villiany enough to give it variety, and the younger generation of readers will find in it historical matter that is both interesting and instructive. The book is illustrated, and, as we would expect from the publshers, handsomely bound.

SAVES TWO FROM DEATH.

"Our little daughter had an almost fatal attack of whooping cough and bronchitis," writes Mrs. W. K. Haviland, of Armonk, N. Y., "but, when all other remedies failed, we saved her life with Dr. King's New Discovery. Our neice, who had Consumption in an advanced stage, also used this wonderful medicine and today she is perfectly well." Desperate throat and lung diseases yield to Dr. King's New Discovery as to no other medicine on earth. Infallible for Coughs and Colds. 50c and $1.00 bottles guaranteed by Canada Drug & Book Co. Trial bottles free.

A GOOD THING.

German Syrup is the special prescription of Dr. A. Boschree, a celebrated German Physician, and is acknowledged to be one of the most fortunate discoveries in Medicine. It quickly cures Coughs, Colds and all Lung troubles of the severest nature, removing as it does the cause of the affection and leaving the parts in a strong and healthy condition. It is not an experimental medicine, but has stood the test of years, giving satisfaction in every case, which its rapidly increasing sale every season confirms. Two million bottles sold annually. Boschree's German Syrup was introduced in the United States in 1868, and is now sold in every town and village in the civilized world. Three doses will relieve any ordinary cough. Price 75 cts. For sale by W. F. Teetzel & Co. Get Green's Prize Almanac.

LAND ACT NOTICE.

Notice is hereby given that I have made application to the Chief Commissioner of Lands and Works at Victoria, B. C., for a special license to cut and carry away timber on and from the following described Crown Lands in the Goat River section of West Kootenay district, B. C.:

Commencing at a post placed on the South bank of Meadow Creek and marked "South East Corner," said Meadow Creek being a tributary of Goat River and above point is situated about four miles east of the station known as Kitchener on the Crow's Nest branch of the B. C. S. Railway. Commencing at said southeast corner and running west 160 chains, North 40 chains, East 160 chains and south 40 chains to place of beginning, containing about 640 acres. JAMES CRONIN.

Dated at Moyie, B.C., June 16, 1901.

LAND ACT.

Take notice that I intend to apply 30 days after date to the Chief Commissioner of Lands and Works at Victoria, B.C., to purchase the following described vacant Crown Lands in the District of West Kootenay, B. C.:

Commencing at a post planted on the west line of Lot 362, group 1, West Kootenay District and about 200 ft. from North West Corner of the said lot, and which post is marked "James Cronin's North-West Corner," thence west 80 chains, thence south 80 chains, thence east 80 chains, thence north 80 chains to place of beginning, containing 640 acres more or less.

JAMES CRONIN.

Dated, the 16th day of June, 1901.

MISCELLANEOUS

Are you in want? If you are, tell the people, through The Miner want column, what you are in want of. You'll get it.

NOTICE.

From date until October 1 the dental offices of Nelson will be closed at 1 o'clock, p. m., on all Saturdays, remaining closed during the balance of the day.

The Helmet of Navarre No class of fiction appeals to the well informed mind as does the historical novel. The deeds of men who lived in past ages hold an all-absorbing interest for the people of today. Miss Bertha Runkle, although a comparatively new writer, has, in The Helmet of Navarre, presented a fascinating romance which will take place among the foremost historical novels of the day. The Siege of Paris makes a strong, vivid background for a charming romance, interwoven with tales of adventure and daring. The story is well told, the plot carefully thought out and cleverly carried to its climax. Other new books are:

The Crisis, Winston Churchill, 75 cents.

Pro Patria Max Pemberton, 75 cents.

Mistress Nell, Hazelton, 75 cents.

Her Mountain Lover, Hamlin Garland, 75 cents.

The Observations of Henry, Jerome K. Jerome, 75 cents.

THOMSON STATIONERY Co. Ltd
NELSON, B. C.

Pianos to Rent.

THE CITY

A crossing was put in yesterday at the corner of Ward and Vernon streets.

The Retail Clerk's Association will run an excursion up the lake next Thursday afternoon.

From indications yesterday it seems likely that a corner of the eastern hot wave is nearing Nelson.

Another gang of laborers will leave this afternoon for the Lardeau country to work on the C. P. R. construction there.

A consignment of second hand stoves, comprising a large variety of styles and sizes arrived in town yesterday billed to some of the dealers here.

In the July number of the Cosmopolitan magazine illustrating an article on houseboats are photogravures of the C. P. R. houseboat on Kootenay Lake.

Wild raspberries are now ripe in the woods around Nelson, and in great quantities, the wet and backward spring apparently having only assisted in making the crop a large one. The cultivated berries have not started to come in yet.

The good fishing at present obtainable in the river is proving of great advantage to some of the striking C. P. R. trackmen, who are thereby enabled to provide themselves with a nutritious and tasty article of diet at no expense. A large number of the men have left town to work on construction in the Lardeau.

Weildon, the prospector, who was mentioned in The Miner a few days ago as missing, is at the Kootenay Lake General hospital, where he has been ill for a month. His sudden illness caused the leaving of the camp in the condition that caused fears to be felt that some accident had befallen him.

At the teachers examination yesterday the following programme of subjects was gone through: Mental arithmetic, 9 to 9.30 a.m.; anatomy, physiology and hygiene, 9.45 to 11; bookkeeping, 1 to 2.30 p.m.; optional subjects 2.45 to 4.15, with reading for balance of afternoon. Today the list will be: Mensuration, 9 to 11 a.m.; optional subjects, 11 to 12.30; English literature, 1.30 to 3; and optional subjects, 3 to 4.30.

A STIMULANT.

And a Sorry Friend to Some Systems.

"Coffee acts as a stimulant to me. I can for a time accomplish considerable more work, but then I am dull, spiritless, nervous, weak and irritable. Coffee acts like a slow poison on my father, giving him inward pains and a feeling of being generally upset. Continued use always used to make him ill.

He used to be very fond of the beverage and was in the habit of drinking it two mornings, say, then skipping a few days and taking it two mornings again. If he took it the third morning, he was invariably sick. It is two years now since we had the first package of Postum. We have been using it ever since, to our very great benefit.

A lady friend who is the wife of a prominent clergyman in New Haven whose name I am not at liberty to give, was a complete nervous wreck from the use of coffee. About a year ago she began the use of Postum and continued in it. Six weeks after starting she had lost all her former nervousness, had grown plump in the face, and her health better than it had been for years. She is a splendid walking advertisement, and is most enthusiastic in the praise of Postum, telling all of her callers of its merits and urging them to try it. Kate Austen, Hamden, Conn.

The heavy rains of the past couple of days have brought up all the small creeks to quite a height, but the river continues to fall rapidly.

The divisional engineer of the C. P. R., Mr. J. G. Sullivan, is advertising for tenders for the building of a cut-off from Field to Ottertail, in East Kootenay.

The R. M. R. band will play at the lacrosse match this afternoon at the recreation grounds and will also parade with the Orangemen's procession to the Baptist Church on Sunday afternoon.

Those who are fond of grand and awe inspiring scenery should visit Bonnington Falls, Kootenay Falls and the rapids and Kootenay Crossing while the water remains at its present high stage.

Large shipments of trout have been received by the local dealers during the past few days from down river points. The fish are now biting well and many good baskets have been obtained by anglers lately.

The wood flume extending up the hill above the Mountain siding has been removed. It was used for the purpose of bringing down firewood to the city, but as all the trees in its vicinity had been cut down it was not any further use.

Rev. J. H. White, the pastor of the Methodist church, will complete his twenty-fifth year as a minister tomorrow, and will celebrate the occasion by preaching a sermon at the evening service on "Twenty-Five Years in the Ministry."

McFarland's Muffers and Tamblyn's Tigers tried to break Morley Hogg's camera last Saturday before they commenced their celebrated lacrosse match, but fortunately they failed as completely as did the Tigers to defeat the Muffers. The result is that the two teams make a very good picture, which is now on sale.

There will be a meeting of the Nelson Christian Endeavor Union this evening at the office of F. M. Chadbourn, Madden block, to complete arrangements for the Provincial Convention which will be held in this city in September. The convention programme has already been drafted and approved by the Provincial Union executive and will be finally adopt at the meeting this evening.

Mr. Creelman, of Rossland, who has the contract of the carpenter work at the Bonnington Falls improvements was in the city yesterday. He expects that the work he has in hand will be completed in a few days. He states that the building trade in Rossland is very quiet at the present time and has been all the present year. Owing to the shut down of the mines the prospects for the future are very uncertain as it is not known denfilitely as to whether the mines will be reopened in a few days or will continue to be closed indefinitely.

The first match in the series of the Canadian Military Rifle League will be held at the range this afternoon, rain or shine. The league matches will be held simultaneously all over the Dominion of Canada. The competitor making the average of 96 in five competitions or a total of 480 points will receive a special badge, with a first class marksman's certificate. The competitor averaging 90 or a total of 450 points will receive a first class marksman's certificate. The one averaging 78 or a total of 390 points will receive a second class marksman's certificate. The league championship will be given to the highest individual aggregate in each series.

PERSONAL

A marriage license was issued yesterday to Charles Lyman Culver of Slocan, and Elizabeth Wright of Nelson.

Mr. and Mrs. Eskrigge of the Granite mine, who have been staying with John F. Burne, of Ymir, at the summer residence of J. J. Campbell, across the lake, struck camp yesterday and have returned to their residence.

Mr. R. S. Lennie has returned from Vancouver, where he represented the plaintiff in Fawcett vs. the C. P. R., and the defendant in Brackman & Ker vs. Oppenheimer, before the Full Court. In both cases judgment was reserved.

Hamilton Byers received a telegram from Nova Scotia on Thursday afternoon announcing the serious illness of his mother, who is not exepected to recover. He left on the same evening by the Crow's Nest boat for his home and expects to be away about a month.

Mr. A. G. Lambert, formerly of Nelson and recently manager of the Rossland office of the Porto Rico Lumber Co., has left for the East. He will visit several Ontario points and also the Buffalo exposition before returning. He is accompanied by Mrs. Lambert and will be away two months.

Word has been received in the city by Mr. Harry Burnett of Lee & Burnett, that his partner "Herb" Lee, was quietly married on Thursday evening to Miss Mabel Harris, of Rossland. Mr. and Mrs. Lee are now enjoying a short honeymoon trip to Spokane. Mr. Lee had kept the event a secret from his friends who, however, all now join in wishing a long life and a happy one.

Note our Registered Brands "Royal" and "Fit-Reform."

GREAT MUSICAL ATTRACTION.

Finest Lady Violinist of the World to Appear Here Next Week.

The coming of Madame Camilla Urso to the opera house next Tuesday evening marks an important epoch in Nelson's musical history. For years this artist has been recognized by the critics of the world's centres as the greatest woman performer on the violin and those in Nelson who have heard her elsewhere are looking forward eagerly to repeating the pleasure.

When a performer of Mme. Urso's reputation appears no one can make a mistake in going to hear her and to miss this opportunity will be to miss a treat that in all probability will not be repeated or equalled in Nelson for years. Regarding her playing that conservative and critical paper, The New York Tribune, says:

"Her playing is innocent of every vice, it is rich in every merit. Her perfect reposefulness begets a confidence in the mind of the listener which frees enjoyment from every concern. Her tone is firm, her taste faultless, her style chaste as Diana. In the "Lassen Concerto" there are some stupendous technical difficulties, which, since some of them cannot be said to contribute to the musical effect of the piece, we fancy are contrived to display the skill of the violinist. These Madame Urso overcame in a manner that amazed the knowing without discovering their existence to the unlearned listener. It is scarcely possible to bestow too much praise on such an achievemennt as that of last night, but rather it is to be deplored that the words of the reviewer, however appreciative and enthusiastic, cannot make its merits understood."

The Nelson Gun club will hold its regular weekly shoot this evening. The traps will be set at 6 o'clock sharp. Visitors are always welcome.

WHITE MAN TURNED YELLOW.

Great consternation was felt by the friends of M. A. Hogarty of Lexington, Ky., when they saw he was turning yellow. His skin slowly changed color, also his eyes, and he suffered terribly. His malady was Yellow Jaundice. He was treated by the best doctors, but without benefit. Then he was advised to try Electric Bitters, the wonderful Stomach and Liver remedy, and he writes: "After taking two bottles I was wholly cured." A trial proves its matchless merit for all Stomach, Liver and Kidney troubles. Only 25c. Sold by Canada Drug & Book Co.

The fire, water and light committee will meet this morning at 10 o'clock, for the purpose of discussing the proposal of the Bonnington Falls Power & Light Company, to supply the city with light.

If you don't like Blue Ribbon Tea it's because you never tasted it.
