## MANLY GETS HIS PRICE

### V., V. & E. Secures Right of Way to Grand Forks.

### Railway Company Pays $50,000 and Injunction Is Dropped.

(SPECIAL TO THE MINER.)

Grand Forks, April 10.—As the result of a deal, which was closed here today the injuction proceedings instituted in the Supreme court to restrain the Great Northern railway from crossing the ranch of John A. Manly, five miles below this city, have been dropped.

The land in question is vested in the Yale Hotel Co., whose directors adopted a resolution agreeing to dispose of the tract comprising 1,000 acres, the purchaser being the railway company, and the compensation $50,000. After the papers had been signed by the contracting parties, the purchase money was deposited in the Eastern Township's bank here to the credit of the vendor. All obstacles to the immediate extension of the road into Republic have been now removed. Two weeks will probably be occupied in excavating a cut on the Manly property. The settlement just effected disposed of one of the knottiest problems ever encountered by J. J. Hill. After the Yale Hotel company had obtained an interim injunction restraining the railway from crossing the petitioner's lands, counsel for the Great Northern appealed to the full court on a technicality, and on this it was not sustained, the court ordering the case back to the trial judge for hearing on the merits. The case was pending when the settlement above outlined was reached. Meantime the Grand Forks Board of Trade having taken up the matter and having adopted resolutions, Chas. Cumings, chairman of the railway committee of the board, proceeded to St. Paul. As a result of his interviews with President Hill several weeks ago Mr. Cumings returned to Grand Forks with authority to negotiate a settlement. The papers were signed in his presence this afternoon. Speculation already is rife respecting the use Mr. Hill will make of the ranch.

The formal opening of the Republic and Grand Forks railway will take place on Saturday next without fail. The tracklayers laid two and one-half miles of track today, rail head tonight being five miles from Republic. Two shifts are at work and the entire road will be completed late tomorrow night.

### NO SALE CONTEMPLATED.

Rumor That War Eagle Will Purchase Trail Smelter Denied.

Trail, April 10—Many rumors have been current lately in connection with the Trail smelter. Concerning these the Trail Creek News has made most careful inquiry as the result of which it is justified in stating positively that there have been no negotiations whatever for the purchase of the smelter by the War Eagle or any other company and no changes in management or staff are contemplated. Improvements have been constantly in progress and full operations are dependent only on regular shipments of ore.

### OVER LOVE LETTERS.

Fatal Ending of Row Between a Spaniard and an Italian.

Sudbury, Ont., April 10.—On Sunday an Italian was killed by a Spaniard at Copper Cliff. The former accused the latter of having opened his love letters, and came to town armed with a revolver and intent on doing damage to his adversary. The Italian fired at the Spaniard and wounded him in the breast. In the meantime the Spaniard drew a knife and plunged it into the heart of his assailant killing him instantly.

### BOUND FOR JAPAN.

Minister Woodford Formerly at Madrid Going to Far East.

Winnipeg, April 10.—Hon. Stewart Woodford and Mrs. Woodford, of New York, were in Winnipeg today, en route to Japan where Mr. Woodford goes on a diplomatic mission, sailing from Vancouver next week by the C. P. R. steamer. Mr. Woodford was minister to Spain when the war was declared by the United States.

### NORTH FORK COAL.

Preparations Under Way to Explore the Ground Thoroughly.

(SPECIAL TO THE MINER.)

Grand Forks, April 10.—The British Columbia Coal Co., Ltd., which has acquired all the coal locations on the north fork of Kettle river, will undertake a vigorous policy of development during the coming season. As soon as the snow disappears a diamond drill plant will be installed. It is the intention of the directors to lose no time in opening up the coal measures, and ample capital will be available for the purpose. A good wagon road extends from Grand Forks to a point 35 miles from the coal fields, and it is expected that the provincial government will grant an appropriation for the completion of the road for the remainder of the distance.

The existence of coal is no longer regarded as problematical; all that remains to be done is to determine the extent and thickness of the various ledges. The directors feel confident that inside of twelve months North Fork coal will be shipped to Grand Forks by rail. Two veins, three and six feet wide respectively, have been uncovered, while the surface showings at other points on the 20,000 acres controlled by the company are regarded as encouraging. With the diamond drill it is proposed to install, absolute tests as to the extent and permanency of the seams will soon be determined. Several thousand pounds of the coal was brought here on a pack train last fall. An analysis at the Granby smelter gave the following return: Fixed carbon, 75.3 per cent.; volatile matter, 22.9 per cent.; ash, 3.7 per cent.

A sample sent to the government assay office, Victoria gave this result: Fixed carbon 73.5 per cent.; volatile matter, 18.7 per cent. and moisture, 1.8 per cent.

From this showing alone the north fork coal is equal in quality to the product of the Crow's Nest mines. It is of the bituminous variety and admirably adapted for making coke. If the discovery should prove as important as is anticipated, the coal and coke from the north fork would, other conditions being equal, be able to displace the Crow's Nest coal and coke in the Boundary as well as in a much wider area of country. The directors are mostly business men of Nelson, B.C., including Hon. J. Fred Hume, ex-minister of mines, J. D. Ellis and L. Ernst. The local representative on the board is Geo. A. Fraser, of this city.

### NOT YET INVITED.

United States Embassy Knows Nothing of Prince's Visit to New York.

London, April 10.—A member of the United States embassy here was questioned today with regard to the statement issued from London and published in the United States that the Prince of Wales has received an invitation from the New York Chamber of Commerce, through Lord Brassey, president of the London Chamber of Commerce, to pay a visit to America. The member of the embassy replied that this invitation could only be accepted through the embassy which, up to today, had heard nothing from there. The embassy discredited the story.

### RIOTS ARE SERIOUS.

Socialists Stone Churches and Cafes and Police Use Their Bayonets.

Brussels, April 10.—11 p.m.—Serious conflicts between the rioters and the police in which over 30 persons were wounded, including women and children, occurred here tonight in the vicinity of the Maison du Peuple. The Socialists paraded the streets, smashing windows of churches and cafes, firing revolvers and singing revolutionary sons. The police used their bayonets injuring several and arresting others.

### OFFICERS ARE READY.

Halifax, April 10.—A large number of officers of Third Royal Canadians doing duty here have volunteered for duty in South Africa with the fourth contingent.

## BOERS ACCEPTED TERMS OF PEACE

### Mr. Harris, of British Chartered South African Company Received Dispatch Making That Announcement.

### London Believes That Boer Leaders Have Decided to Accept the Terms Offered by the British.

London April 11.—The Central News is informed that a telegram was received in London this morning from Pretoria saying that Mr. Steyn and Generals Dewet and Botha had agreen upon terms of peace. The telegram indicates that the British terms have been accepted and that peace has been arranged.

Unconfirmed statements regarding peace negotiations were in circulation in London last night. It is said that Frederick Rutherford Harris, ex-secretary of the British Chartered South African Co., has received a telegram to the same effect but nothing of an official or really reliable nature concerning the matter was then known

## TROUBLE FOR REFORMERS

### Manila Editors Suffer for Exposing Rampant Corruption.

### Public Meeting Petitions President to Suspend Sedition Law.

Manila, April 1.—Excitement prevails here on account of the arrest of the editor and proprietor of Freedom, a local publication, who is charged with sedition in publishing recently an article from an American periodical with which the editor of Freedom agreed and to which he added remarks of his own, censuring the United States commission's rule and saying that when it started in July last every paper in the city upheld it, since which they have all dropped by the wayside as they would not support arbitrary government, "especially when evidences of carpet bagging and rumors of graft were too thick to be pleasant."

The main charges were that in many cases the Filipino office holders are rascals, and that the commission has exalted to the highest positions Filipinos who are notoriously corrupt. The editors of the Volcano have also been arrested on a suit of the government for demanding the removal of the judge who recently tried Senor Valdez, the editor of a local Spanish paper, who was fined 4,000 pestos for libelling two Filipino members of the commission, and who is now trying the editor of Freedom under the sedition law.

These proceedings have aroused the entire press of Manila and its representatives met today and resolved to send a committee to the commissioners to argue against the injustice of the proceedings. The meeting also determined to send a cable message to President Roosevelt urging him to take steps to prevent the commission from using the sedition law in such cases to prove lese majeste against editors. The meeting, which was enthusiastic and largely attended by lawyers, doctors and others, then adjourned.

In the province, up to date, a total of 3,224 cases of cholera and 3,166 deaths from that disease, have been reported. In Manila the cholera total are 206 cases and 160 deaths.

### A MINISTER DEAD.

London, April 10.—Rev. R. W. Williams, well known Methodist minister, is dead.

## MEMORIAL SERVICES

### Distinguished Men Pay Last Tribute to Empire Builder.

### Boer Peace Conference to Be Given Every Latitude.

London, April 10.—The war secretary, Mr. Broderick, in the house of commons today, referring to the press advices from South Africa said Schalkburger, Reitz, Luca Meyer and Jacobs had been joined at Lockdorp by General Botha and added that Steyn, Dewet, Delarey and three other members of the late Orange government arrived at the same place yesterday. No communication, Mr. Broderick further said, had been received from the Boer leaders except regarding safe conducts for the participators in the conference. The colonial secretary, Mr. Chamberlain, added the information that no limit had been fixed for the expiration of the safe conduct—these would be extended so long as the negotiations were in progress, after which the delegates would be allowed to return to their respective districts without hindrance.

At Cecil Rhodes' memorial service King Edward was represented by General Godfrey Clerk, His Majesty's groom in waiting, and Sir Wynn-Carrington, represented the Prince of Wales. Jos. H. Choate, the United States ambassador; J. Pierpont Morgan; Joseph Chamberlain, the colonial secretary; the Duke of Abercorn, chairman of the British Chartered South Africa Co.; Earl Gray, a director of the British South Africa Co.; Lord Knutsford, a former secretary of state for the colonies; Lord Roberts; the Duke of Fife, Lord Tweedmouth, William St. John Broderick, the secretary of state for war; Robert Asquith, formerly home secretary; Lord James, at one time attorney-general; A. J. Balfour, the government leader in the House of Commons; Lord Halsbury, the lord high chancellor, and other members of the cabinet and of the nobility, Lady Sarah Wilson, Mr. and Mrs. W. T Stead, General Booth, of the Salvation Army, the Vice-Chancellor of Oxford, and the Dean of Oriel college representing the university and the Lord mayor, the sheriffs of London, the corporation of London, and all colonial agents-in-general, paid their last tribute to the dead.

A despatch to the Exchange Telegraph Co., from Brusels, says the troops called out in connection with the riots are in a state bordering on mutiny. Many of the militia responded to the call to colors, but are marching through the streets singing the "Carmagnole" and the "Marseillaise." Great excitement prevails in the industrial districts. Several militiamen have been arrested for insubordination and the regulars are confined to their barracks. Ball cartriges have been issued to the troops.

### LAST SAD RITES.

Remains of Cecil Rhodes Deposited in Its Rock Hewn Tomb.

Buluwayo, Matabeleland, April 10.—Today amid an immense throng of soldiers, civilians and natives, the body of Cecil Rhodes was commtitted to its rock tomb in the Matappo hills. The coffin was shrouded in a Union Jack and the wreath sent by Queen Alexandra was laid upon it, as it was lowered into the grave.

The funeral party started from Fuller's hotel early this morning. The procession was five miles long as it wound through the hills and gorges. Every sort of conveyance was made use of, some were on foot. When the procession was a mile from the grave, everybody dismounted and concluded the journey on foot. Twelve oxen hauled the coffin to the almost inaccessible summit of the kopje where the chief Shombli, Faku and Umgula and 2,000 natives had assembled to witness the Christian burial rites, which they afterwards supplemented in their own fashion, by the sacrifice of 15 oxen to the shade of the great dead chief. Thousands of persons congregated around the wind swept hill. The grave was encircled by six boulders. The interment was extremely impressive.

The Dead March echoed throughout the hills and the natives stood like statutes. Tears in the eyes of many onlookers. The Bishop of Mashonaland who conducted the burial service said: "I consecrate this place forever, for here he thought, here he lived and died for the empire."

When the coffin was lowered into the tomb, chiselled in the solid rock all those present sang Old Hundred and Now the Laborer's Task is O'er. The remainder of the funeral service was chanted and the band played the Dead March in Saul. The tomb was covered with wreaths. At the close of the ceremony those present slowly inspected the spot where Mr. Rhodes lies buried, and threw flowers upon his grave. Dr. Jameson, Col. Francis Rhodes and all of the other mourners left Buluwayo tonight on a special train.

### UNDERGROUND RAILWAYS.

Charles Yerkes Finally Obtains His Concessions in London.

London, April 10.—This, said Charles Yerkes, to a representative of the Associated Press today, is a grand finish of six months' work. Mr. Yerkes referred to the arrangement just completed by which Speyer Brothers, of London, and Speyer and Co., of New York, and the Old Colony Trust Co., of Boston, form a new company with £5,000,000 capital for the purpose of carrying out Mr. Yerkes' electric underground concessions in London.

The Associated Press learns the new company will increase its capital to £15,000,000. Mr. Yerkes will be chairman, but the Speyers and the Old Colony Trust Co. will have a controlling intreest. They will name the directors who will be all Engish except Mr. Yerkes and Mr. Abbott, of the Old Colony Trust Co. The capital will be privatly subscribed in London and New York.

### CUNARD SHAREHOLDERS.

Some Dissatisfaction Felt That Profits Are Not Larger.

London, April 10.—At the meeting of the shareholders of the Cunard steamship line today, a shareholder declared that after years of mismanagement the public despaired of the company, and another shareholder urged the directiors to consider, in view of the steamship amalgamations now occurring, a bid for the shares at par. Sir William Forwood, the director of the Cunard Steamship Co., declared the shares worth much more than par and said that no other British steamship company stood in a sounder financial position. After much discussion the report declaring a four per cent. dividend was adopted.

## A RAILWAY NOT NEEDED

### Edgar Dewdney's Report Not Favorable to Hope Route.

### Proceedings Begun to Secure Release of Joe Genelle.

(SPECIAL TO THE MINER.)

Victoria, April 10.—A vote of censure on the government for failure to hold the by election in North Victoria was defeated by 18 to 16, Kidd and Oliver not voting.

Premier Dunsmuir's evidence before the Royal commission was completed today and the commission adjourned until Monday.

A benefit concert for the wives and children of the men lost on the Condor here last night, realized $600.

Victoria, April 10.—The report of Hon. Edgar Dewdney, who made a survey of the route through the Hope mountains for the proposed railway from the coast to the interior of British Columbia, south of the C. P.R., was submitted to the legislature today. The report is a very exhaustive one. In it Mr. Dewdney says: The result of the surveys shows that the Hope mountains cannot be crossed without encountering serious engineering difficulties, which would necessitate a very large expenditure of money, and I know of nothing so pressing, in the way of development along any line that might be determined on, to warrant its construction. Outside of a few prospects that have been brought in by miners, there is nothing at present to give encouragement for this expenditure, except the existence of some very fine timber on the west slope.

Habeas Corpus proceedings have been instituted to obtain the release of Jos. Genelle, arrested on a telegram from Dawson, charged with procuring the burning of the river steamers Glenora and Moana.

The new river steamer for the Hudson Bay Co. for service on the Stikeen river was launched today.

### NEWSPAPER SUSTAINED.

Sensational Developments Regarding Appointment of An Engineer.

Brantford, April 10.—Major. H. Lemore is dead, aged 81. Sixty-three years ago he founded the Brantford Courier which he ran up to 12 year ago.

Henri Lemore made the charge that Civic Sanitary Engineer Dore had paid $2,500 for his appointment. As a denial, Dore brought a charge of criminal libel against Lemore. The trial was concluded today when the jury rendered the verdict "not guilty" against Lemore, finding that his statement was justified by facts. The city council will now hold an investigation into the circumstances of Dore's appointment and some sensational developments are promised.

### DUMONT IN NEW YORK.

The Navigator of Airships Arranging For Exhibition in St. Louis.

New York, April 10.—Albert Santos Dumont, builder and navigator of airships, arrived here today on the liner Deutschland. He comes to the United States to discuss plans for an exhibition of aerial navigation with the managers of St. Louis exposition and will be in the country for three weeks. He will do no flying during this visit.

"I hope to see New York the permanent air port of the world before I pass away," he said in talking of the future of the air ship. "I have no doubt but that in time, that is, if I get the proper encouragement and help, aerial navigation will be an accomplished fact. I have no doubt but that I will live to see passengers transported by airships across the Atlantic from New York to Paris. have not patented my airship in this country and I do not intend to. I want other men to take my ideas and improve on them if they can."

Santos Dumont is a native of Brazil but holds out he is an American.

## PRICE OF FUEL CONTRASTED.

During the speeches on the budget in parliament on April 1st Dr. Arthur S. Kendall in replying to opposition criticism said that the whole house knew of the great development in the coal industry in Cape Breton, but Dr. Kendall said it was not generally known that on the Inverness shore of Cape Breton Messrs. Mackenzie and Mann owned coal deposits which would before many years equal in output the mines at Sydney. While believing that the duty upon coal was in reality a loss to the country, he would not, so long as the tariff was framed upon present lines, agree to the duty being taken off. To do so would be to save a large sum annually to the people of Ontario, who now sent large quantities of their produce and manufactures to the Maritime provinces, upon which the manufacturers enjoyed the benefits of protection, but they took nothing in return from the Maritime province. At the same time, Dr. Kendall said, the coal operators were taxing everybody too much for their coal. He believed that the Intercolonial railway last year paid $300,000 more for the fuel consumed than ought to have been paid. The 3,000,000 of people from Montreal to the Atlantic coast were at the mercy of the coal producers, and the government must face the difficulty. He had been assured by two eminent and practial mining engineers that whereas in Cape Breton the mining companies charge $2.60 to $2.90 per ton for coal, the government could mine that coal and put it on the cars for $1 per ton. And on the mainland, in Pictou and Cumberland counties, where it now costs $3 or $3 15, it could be mined and placed on the cars at $1.25 per ton. If the mineowners persisted in keeping up prices Dr. Kendall suggested that the provisions of the Crow's Nest railway bargain with respect to the price of coal formed a precedent which might be followed with advantage in Nova Scotia and Cape Breton.

It will be remembered during the crusade which was in progress in January and February and part of March, which was engineered with so much energy by the Canadian Pacific railway, and that portion of the press and public that was under its domination, the object of which was to secure for an allied company of the C. P. R. the government reserve of coal lands in the Crow's Nest Pass, and which as directed against the Crow's Nest Southern railway and the Crow's Nest Coal Co., that considerable of an effort was made to produce the impression on the public mind that the prices of coal and coke at Fernie were higher than they should be. At a meeting of the Nelson board of trade resolutions were adopted advising the Dominion government to open up the coal reserves held by it in the Crow's Nest basin, and in favor of the reduction of the price of fuel. One of the arguments used at that time was that the price of coal was cheaper in Nova Scotia than it is in British Columbia

The price of coal free on board the cars at Fernie is $2 per ton. while according to Dr. Kendall the mining companies at Cape Breton in Nova Scotia charge from $2.60 to $2.90 per ton. In Pictou and Cumberland counties in Nova Scotia coal costs $3 to $3.15 per ton. It must be remembered, in connection with these prices, that the cost of labor, supplies, machinery and everything used in and about coal mines is much higher at the mines of the Crow's Nest Pass than they are in Nova Scotia. In fact, it has been estimated that coal can be mined in Nova Scotia at least 50 per cent. cheaper than in the Crows' Nest Pass, and despite this fact coal is cheaper at Fernie than it is in Nova Scotia. What really makes the coal cost so much to the Kootenay consumers is the exorbitant transportion rates charged by the Canadain Pacide railway for its haulage. The facts brought out by Dr. Kendall should put to confusion those who brought forward the argument that coal was cheaper in Nova Scotia than it is in British Columbia and shows how far the henchmen and adherents of the Canadian Pacific railway will go when they desire to make a point for the monopoly they serve.

## FATHER PAT MEMORIAL.

Now that the remains of Rev. H. Irwin, "Father Pat," have been laid to rest in that city with which he had so many tender associations and beside those of his beloved wife, who was the sun of his life, the question of the perpetuation of his memory in the Kootenays, where he was so highly honored and loved, will no doubt be taken up. His relatives have decided upon a memorial hospital, which is in entire keeping with the unselfish life he lived. One cannot but think that had he been obliged to choose a memorial for himself the hospital is what would have undoubtedly selected, though he would have in his dislike of ostentation, deprecated the idea that his work were worthy of any commemoration. The sum that has been subscribed toward a memorial has been raised to a large extent among those who revered him on account of his labors on behalf of suffering humanity rather than for his devotion to the church of which he was a worthy servant. One of his cherished schemes for the comfort of his fellowmen who might be without the home surroundings was a club building at which any who wished might spend their spare time pleasantly and free from the temptations which commonly abound in other places of resort. With this end in view he procured the promise, if not the gift, of a site and steadily he was working toward the raising of the necessary means to the carrying out of his object.

Now that he has been called hence before he was able to accomplish this work, it seems most fitting that this task he set himself to should be carried through by others. In every town of any size in British Columbia, particularly in the Kootenays there is need of such an institution. The memorial club must necessarily be located in one town, whose inhabitants will reap the benefit, but the example of the good which can be accomplished would instigate those of other places to work toward the erection of similar institutions. Such a club would be more lasting and have more meaning than entablatures or stained windows and no more fittingly could his unselfish life and works be held up as an example to others. If his relatives would entertain the idea and the site for the hospital be selected in the upper country, the addition of a wing for some particular class of hospital work would also be most seemly.

## EDITORIAL NOTES.

A demand has sprung up for molybdenite, and inquiries are being made by a London (England) firm as to the possible supply. Its great value can be appreciated when it is known that its selling price is $600 a ton. As an electrode it ranks very high, and is a good substitute for platinum in electrical work.

One of Canada's most notable captains of industry passed away when ex-Senator A. W. Ogilvie died in Montreal on March 2. Mr. Ogilvie was of the type of man who accomplishes results in whatever field of life they occupy and was a leading figure in public life and business in the Dominion; in fact, the people of Canada are much indebted to him for his successful business enterprise. Mr. Ogilvie was born in St. Michael, Quebec, in 1829, and was educated in Montreal. In 1852 he was taken into the flour milling business by his uncle, the late James Goudie. On Mr. Goudie's retirement in 1854 he founded the house of A. W. Ogilvie and Co., grain merchants and proprietors of the Glnora flour mills, Lachine canal. He retired from the firm in 1874, having taken in as partners his two younger brothers, John and W. W. Ogilvie, the latter of whom afterwards became sole proprietor He was connected with many of Canada's leading commercial enterprises and died regretted by a large circle of friends.

Sir William Van Horne, regarding the matter from the point of view of the C.P.R., does not think favorably of the Railway commission proposed by Professor McLean, says the Monedtary Times. He thinks the Privy council of Canada forms, for this purpse, the best attainable tribunal. This may be taken as settling a question on which there has been hitherto some doubt. When the late Mr. McCarthy first proposed, in parliament, the establishment of a Railway commission, there were people who thought it might be done in accordance with the desire of the C.P.R. The great railway companies would probably have the ambition to control the Railway commission, if we had one and it is not certain that there would be no danger from that source. If there were a Railway commission, more prompt attention might sometimes be got to complaints which are now carried to the Railway committee of the Privy council; though it is proper to say that there is very little to the debit of the Railway committee, under this head. The chances are that Professor McLean's recommendation will remain without being acted upon for some time. It is proposed that the Railway commission should make independent enquiries, which the Parliamentary Railway committee cannot do. The latter can only act upon cases brought before it. In some respects, the Railway and Canal commission of England would be a better model to copy than the American Interstate commission.

## MINING NEWS.

The Burlington Mining and Milling Co., operating the Iron Horse mine on Ten Mile, was incorporated last week in Spokane. The company will resume work on the property as soon as matters can be arranged to do so.

George W. Hull, general manager of the Sullivan Group Mining Co., is in the city buying supplies, and en route for Grand Forks to participate in the opening of the Republic and Grand Forks railway. Mr. Hull reports that work is in full blast on the Sullivan smelter at Marysvillle and expects that it will be blown in by July 1. Machinery is coming to hand every day and is being put in position as rapidly as possible.

The final payment on the Eva and Highland Mary claims in the Lardeau was made yesterday by the Imperial Development Syndicate to A.F. Rosenberger, the amount being $8,000. This property was located two years ago and development has been prosecuted on it since with very encouraging results. The company has 12 men at work at present, and at the annual meeting of the directors held in February it was announced in the manager's report that the property was in a most satisfactory condition. The group is now entirely paid for with the exception of a small payment to be made on the Cholla claim.

Among the copper properties in the vicinity of Nelson which is likely to be operated soon is the Queen Victoria mine which is situated near Beasley siding on the Columbia and Kootenay railway, and only 1,400 feet from the railway track. This property has as large a surface showing as the famous Britannia mine that was considered the largest of the province. The ore crops out on a bluff and the development work so far done shows already a body of ore 400 feet by 300 feet by 150 feet. This ore has about the average value of that of the Le Roi. This mine only awaits the investment of sufficient capital to make it one of the great mines of the province.

Chas. A. Sandiford states that a new company has been formed in England to work the Wakefield, and operations will commence in May, probably with Ward Macdonald as foreman, says the New Denver Ledge. He also received a cablegram Saturday to ship 100 tons more of zinc ore to Antwerp from the Bosun, with the assurance of a permanent contract if the ore runs well in zinc. Mr. Sandiford states that the report in a Sandon paper about himself and father having been let out by the Northwest Mining Syndicate is incorrect. W. H. Sandiford, he says, will return to New Denver about the middle of May or sooner if the price of lead advances.

Shaving Brushes—Morley and Laing.

Queen's—A. L. McLean, Spokane.

### THE WARDE ENGAGEMENT.

Special Effort Should be Made to Secure This Strong Attraction.

Mr. Arthur F. Warde, son of the distinguished tragedian Frederick Warde, arrived in the city last night to complete arrangements for the appearance of the famous actor in this city. Since his arrival circumstances have arisen which will either prevent Mr. Warde's appearance at all in this city or else give Nelson the benefit of three night performances instead of two and a matinee. Mr. Frederick Warde is a staunch believer in presenting all his plays with the necessary scenery and adjuncts and his agent learned yesterday for the first time that the stage dimensions of the Rossland Opera house rendered it absolutely impossible to use any of his scenery at all. This is a matter of keen disappointment to both Mr. Warde and his managers, as for many reasons they had looked forward to pleasurable and profitable engagements in Nelson and Rossland. As it now stands it rests with Mr. Annable and the citizens of Nelson and the surrounding country, whether they can offer sufficient inducements to bring Mr. Warde and his big company to Nelson for three nights. Mr. Annable and Mr. Parry in order not to disappoint the public who have looked forward to this engagement in anticipation of a great dramatic treat are straining every effort to organize theatre parties from the outlying districts and to augment the local interest in this event. It looks probable that their effrts will be successful. It is to be hoped that they will for Mr. Warde is conceded now to be the greatest expoaent of the Shakesperian and classic drama in America, and his company is the strongest that has ever been organized in the support of a single star; moreover, his scenic productions of each and every play are not only elaborate but complete in every detail. If arrangements are concluded the plays presented here will be D'Enery's romantic drama "Belphegor, The Montebank," Shakespeare's historic tragedy "Julius Caesar" and that bard's sublime drama "King Lear," which is quoted by the American critics as Mr. Warde's masterpiece.

### IMPROVED MAIL SERVICE.

Mr. Galliner Has No Hope For Duty on Lead This Year.

The regular meeting of the board of trade was held last evening in the board rooms. In the absence of the president and vice-president, J. M. Lay was appointed to the chair. After the reading of the minutes a number of communications were read by the secretary. Among these was one from W. A. Galliher, M.P., stating that the matters of a mail car between Nelson and Midway and of a daily mail service between Nelson and Medicine Hat were under consideration by the department and would probably be attended to shortly. Regarding the memorial asking for certain changes in the lead duties Mr. Galliner stated that there was no hope of anything being done this session as it had been resolved that no changes would be made in the tariff till the next session. He said that he hoped that the matter would be taken up by all the boards of trade in the Kootenays, as it was of the most vital importance to the district.

It was pointed out in the clause of the act relating to the incorporation of boards of trades a change is made by adding that it shall be possible to form a board of trade in any town or city having a population of 2,500 or more, except in British Columbia, where 1,500 shall be sufficient.

A letter was read from the New Westminster board relating to the fees now charged in the county court and asking concerted action to have them reduced to a more reasonable basis.

A letter was read from the Atlin board in regard to the influx of Japanese and Chinese labor into that district.

A letter was read from Thoburn Allan, tendering his resignation as vice-president of the board owing to his contemplated removal to Calgary. On motion of W. A. Macdonald, seconded by T. Morley, the resignation was accepted with regret.

On motion of Mr Morley, seconded by F. Starkey, it was decided that the secretary should be instructed to write to the post office department in regard to the transmission of bonded mail from the custom house to the post-office, and vice versa, for which at present there is no provision, leading to delay.

### TO SUPPRESS THE LEAGUE.

Lord Londonderry Expected to Make the Announcement Today.

Belfast, April 10.—The Evening Telegraph of this city says it believes that Lord Londonderry, the postmaster general, and a member of the British cabinet, at a meeting of the Conservatives' association of Belfast tomorrow will announce that the government decided at Monday's cabinet meeting on a firmer policy in Ireland, including the suppression of the United Irish League.

### KRUGER IN GOOD HEALTH.

Utrecht, April 10.—The statement published in the United States that Mr. Kruger was very seriously ill, is denied here today. Inquiries elicited the reply that he is in very good health.

**SORE BACK**

Lumbago, pains in the back or side, soreness, swelling or inflammation find no standing ground after an application of Griffiths' Liniment—penetrates in a minute, dispels the pain, stops the suffering. You will find it better than plasters.

Mr. Mack White, well known trainer of the Toronto Lacrosse Club and Osgoode Football Club says: "Griffiths' Liniment is unequalled for athletes or those training. I have used it with the best of success for sore back, stiffness, soreness, sprains and all forms of swelling and inflammation.

Show Room for Mason & Risch pianos

# THE CITY

Father Welch, of Rossland, paid Father Ferland a visit on Thursday.

Captain Gifford, H. C. Brock and Frank Gibbs left yesterday for a short tour through the Slocan.

J. A. Smith, of Rossland, a former resident of Nelson, was in the city yesterday on a business trip.

F. O. Saint Denis, representing the Silver Spring Brewery, of Sherbrooke, Que., is a guest at the Phair.

Garden Rakes, Spading Forks, Hoes, etc., at McLachlan Bros.

H. Z. Brock, managing director of the Northwestern Development syndicate, left last evening for Kaslo, on a business trip.

Marshall Griffin who has been in the roadmaster's office at Nelson for some time was this week transferred to the steamer Minto, where he will act as freight clerk.

Razors and Strops—Morley and Laing.

At the record office yesterday certificates of work were issued to John P. Bell on the Homestake, and to O. A. Lovell, on Cormish, Hillside, Squadron and Southern Bell.

W. Johnson left yesterday for Camborne to construct a power house, bunkhouse and other buildings for the Northwestern Mining Development Syndicate at the Cambourne group.

Call up 33 if you want furniture or pianos moved.—West Transfer Co.

S. S. Taylor, K.C, left last evening for Vancouver to attend the sitting of the Supreme court at Vancouver, which commences on April 15. He will be away until after April 24.

The large caribou head which was raffled at the Hume hotel has been claimed by the winner Robert Shields, a packer of Comaplix, whose ticket, number 13, secured the lucky throw.

Spear's Restaurant—Meals at all hours. Next to Vanstone's Drug store. Only white labor employed.

The last case of diptheria in the Hume addition was pronounced cured yesterday and the family dismissed from quarantine, and the city and suburbs are now pronounced free from this disease.

A meeting of the Woman's Council will be held this afternoon at 3.30 in the school room of the Presbyterian church, to which all ladies interested in the work of the council are invited to attend.

All kinds of express work, coal and wood.—West Transfer Co. Telephone 33.

On Wednesday evening at the Phair hotel Rev. J. M William, of Colville, Wash., was married to Miss Hattie Thompson, of Montreal, Rev. W. Munroe performing the ceremony. The newly wedded pair left yesterday for their new home at Colville.

WALL PAPER

A Subject For Remarks.

The new Wall Papers attract favorable attention. They reflect good taste in colors as well as in pattern, and people of taste commend them. They have an air of elegance and are most durable in quality. Investment in such Wall Paper is a paying investment, before placing your order, it will pay you to see our new designs, and get our prices.

F. J. Bradley & CO.

Sign Painting and Picture Framing a Specialty.

The northern lights were playing across the sky for a considerable time last night, giving a very pretty exhibition.

At the police court yesterday there was but one case, that of a disorderly character, accused of using profane language. A fine of $25 and costs was imposed.

T. C. Thompon, accountant and purchasing agent of the Crow's Nest Coal Co., is a guest at the Phair. He is en route for Grand Forks to attend the opening of the Grand Forks and Republic railway.

The steamer International yesterday brought in two cars of Rambler-Cariboo ore for the Selby smelter at San Francisco and one car of American Boy ore for the Hall Mines smelter. The Kokanee brought one car of Molly Gibson ore for the Hall Mines smelter.

Owing to the floods and high water in Manitoba considerable quantities of freight bound for the Kootenays is delayed along the road and very little is arriving just at present. The wholesale grocers are feeling it most as there is a shortage in some of the lines delayed.

Th second lot of machinery to be used on the Cambourne group in the Lardeau was cleared through the Nelson custom house yesterday. The shipment consisted of water wheel, dynamo and machine drills, and was forwarded on to Arrowhead the same evening en route for the mine.

The departure of Rev. William Munroe will be much regretted by all, especially the members of the congregation. Mr Munroe leaves Nelson about the end of the month having accepted a call to the Central Congregational church at Vancouver. He has been with the Congregational church since its inception in Nelson and is held in deservedly high esteem by all.

An individual wandering along the Nelson-Poorman road on Wednesday, without hat, coat or boots attracted some attention from a passerby which was increased when he informed them that he was crazy and inquired if they knew where he could find his missing articles of attire. After night fall he came into the city and went to an hotel and slept off his peculiar symptoms which were caused by the after effects of intoxicants.

The date of the holding of the court of assizes in Nelson has been fixed for May 6, but it is not known yet what judge will preside. There is already a long list of cases on the docket, both criminal and civil. Among the criminal cases will be the Fern mine gold brick case, also the one pertaining to the operations of the Kootenay association, at Fernie. This association was for the purpose of supplying persons in the east who were seeking employment with positions. Two of the partners Gabriel and Bride, are now in the Nelson jail, the third one, Payne, being out on bail.

The total number of pupils enrolled at the Nelson public schools for the month of March was 315 and the average attendance was 274.32. The enrollment and the average daily attendance by rooms are as follows: Div. I., 28 and 27.11; Div. II, 36 and 31.32; Div. III, 52 and 45.05; Div. IV, 47 and 39.68; Div. V, 46 and 39.16; Div. VI, 49 and 41.58; Div. VII, 57 and 50.42. Since the Easter holidays the attendance in the lower rooms has increased somewhat. It is doubtful whether a room in the province gives a higher average for the enrollment than does the principal's room, which is a percentage of 97.

The Chinese are still keeping up the festivities in connection with their ceremonies held at the beginning of the week in honor of the dead. A Chinaman who was asked regarding the occasion said it was "all a-samee first of July," and pointed with pride to a number of sheets of paper posed up in a prominent position on Front street. The paper was covered with Chinese writing which was explained as being a list of the Chinamen of the city and the amount that each one had contributed, each Chinaman having to contribute at least "two-bittee," while there were also a considerable number of $5 and $10 given. The Chinese being essentially practical all this amount goes for edibles, this being considered the most satisfactory form of celebration possible.

The stopping of the street cars, which took place commencing from Wednesday night, was greatly felt by the people living in the suburbs, particularly up the hill. The cessation of operations was consequent on instructions received in a cablegram from London on Wednesday. It will not be known for some time yet how long the shut down will be for. The fact that the company were removing the rails from the upper part of Kootenay street in accordance with the wishes of the city council led to the circulation of the report that the rails were to be taken up through the city and the materials shipped away. Where the rails are being taken up in on that part of the street that has never been used and where they totally blocked the roadway.

Champagne

**In London,** the market of the world for fine wines, Pommery "1892" sells at $5.00 per case more than any other Champagne. Pommery "1893" sells at $8.50 per case more than any other Champagne. Wherever Champagne is sold according to quality the highest prices are paid for

Pommery

A meeting of citizens is called for Saturday evening at 8 o'clock in the board of trade rooms to discuss ways and means for the starting of a race track near Nelson and to make the necessary arrangements.

Office Supplies—Morley and Laing.

WAR SHIPS AT ST. THOMAS.

St. Thomas, D.W.I, April 10.—The Danish cruiser Valkyrien arrived here yesterday and the United States North Atlantic squadron reached these waters today and remained outside the harbor. Rear Admiral Higginson and the Governor of St. Thomas exchange the usual courtesies. The sight of the American warships greatly impressed the people who assembled in large numbers on the wharves.

Hydrangeas, Snowballs, Lilacs, Spireas, strong, four-year-old, healthy shrubs. Riverside Nurseries, Grand Forks.

METAL QUOTATIONS.

London, April 10.—Lead £11, 8s. 9d.

New York, April 10.—Close—Bar sliver 53 3-4c; Mexican dollars 43c. Copper easy. Lead quiet.

TO CURE A COLD IN ONE DAY

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure E. W. Grove's signature is on each box. 25c.

SAWMILL MAN DROWNED.

Dunchurch, Ont., April 10.—Wm. Craig, mill owner, was drowned yesterday while looking after a boom of logs in Whitestone lake. He leaves a widow and ten children.

FOR STEALING LETTERS.

Montreal, April 10.—Arthur St. Onge, the letter carrier, was found guilty of stealing letters today and was sentenced to four years in the penitentiary.

KEEP YOUR HEAD UNCOVERED.

The Constant Wearing of a Hat Propagates Dandruff Germs.

There are many men who wear their hats practically all the time when awake, and are blessed with a heavy shock of hair; yet if the scalps of these same men once became infested with dandruff germs, the parasites would multiply all the quicker for lack of air. Baldness would ensue as the final result. Newbro's Herpicie kills these germs and stimulates unhealthy hair to abundant growth. Herpicide is a pleasant hair dressing as well as a dandruff cure and contains not an atom of injurious substance.
