Provincial Library $31.00

BONDED FOR $50,000

C. P. Hill Secures the Tunrover and Runover Claims.

They Have the Extension of the Famous Bayonne Ledge.

An important deal for a group consisting of two claims the Turnover and Runover, has just been completed. They have been bonded to C. P. Hill by Harry L. Jackson, of Ymir. for $50,000. The first payment has been made and the bond runs for a year. These properties adjoin the Bayonne group and have an extension of the famous ledge of that property. Mr. Hill intends to put a good sized force at work on the group just as scon as the snow goes away. The ledge is 18 feet in width and carries free milling gold ore of a high value. If Mr. Hill finds that the property is as valuable as he thinks it is at present his intention is to erect a ten stamp mill on an excellent mill site not far from the group.

The lodes in the vicinity were first located last summer and there was quite a rush of prospectors thither and 50 claims were staked. Messrs. Campbell and Finch bonded the Bayonne group from Davenport and Gilliam for $100,000. Since then they have had a good sized force developing the property and the outlook is that it will turn out a valuable mine.

A number of those interested in claims in that vicinity intend to do considerable development work on them during the coming open season, and the Bayonne camp promises to assume considerable importance. It is located about 24 miles west of the foot of Kootenay lake and at present is reached by a trail.

MEETS WITH FAVOR.

Several Stand Ready to Contribute Liberally Toward Race Track.

Much interest has been aroused regarding the proposal to go ahead with a racing track in Nelson this year, and it is probable that a meeting will be called next week to arrange matters. It is pointed out by those back of the project that with a good horse racing track at Nelson a circuit could be established taking in Grand Forks, Nelson, Cranbrook, Macleod, Rossland and Calgary. That this would be a popular move there is no doubt and with responsible men behind it the project should be most successful. Of sites in and adjoining the city there are several, but the best taken all round seems to be one near the Tramway park, to the south of the line. There is a good level stretch there, it is near the lake and convenient of access from the city. The only obstacle in regard to it seems to be that several lots have been sold on the track in question and cottages erected, although it may be possible to arrange a course that would not be interfered with by these in case it was not convenient to arrange as to their acquisition.

Another site that is under discussion is one up the valley of Cotton wood creek, in the park allowance of the city. The land on this site is also level and could be easily put in shape, it being now occupied by Chinese gardens, but the drawbacks attached to it are the distance from the city, and the long uphill walk or drive before it could be reached. In the future the tramway line might be extended to reach it, but at present it would not be a convenient location for the purposes for which it is needed. A third site suggested is on the flat at the mouth of Grohman creek, where there is a large space of land which is good for nothing else, being too gravelly for agriculture. The drawback in this case is also the difficulty of access

It would be possible to cut a road down from the Nelson-Granite road, connecting with the other side by a ferry, but this would be too expensive, and the only other way of reaching it would be by boats. As far as known hese are the three best sites available, the others being too far out or requiring too much alteration.

In the past there has been very little driving done in Nelson, the absence of level roads proving an insurmountable obstacle. This year, however, is likely to see the beginning of a great change in this respect. Commencing about three miles west of the city on the Granite road is a long level stretch of three or four miles, on which the grade is almost imperceptible, and for several miles more the driving conditions are also very good The opening up of even one good road will do more to encourage this pastime than probably any other agency could and it is more than likely that by fall there will be a number of good driving horses kept in Nelson. Each year at the Dominion Day celebration there have been a few horse races on Baker street and despite the quality, or lack of quality, of the animals entered there is no question but that this was one of the most interesting features of the celebration. The races at Grand Forks and Cranbrook attract a large number of people from all the towns of the Kootenays, and if Nelson had a good track there is no doubt but that this would assist in improving the grade of the competing horses, a complete circuit would thus be formed and this would give air inducements to the owners of good horses to bring them to the Kootenays. There are many enthusiastic horsemen in Nelson, who would be willing to "chip in" on the race track proposition and it is expected that the matter will be put through very soon.

WRECKAGE COMES ASHORE.

Many Pieces Found Near Carmanah But Identification Impossible.

Victoria, March 8.—Wreckage from some of the many ships which have been lost off the entrance to the straits, is still coming ashore in the vicinity of Carmanah but with the same unsatisfactory results in respect to its identity that has characterized so much of that which has washed ashore. One of the lightkeepers has just completed a tramp along the coast for a distance of seven miles to the east of Carmanah, and has found a great quantity of flotsam, considerable of this is white painted wood. He picked up one piece with the brass figure "2" on it, as though it was the number of some stateroom in a steamer. Included among the other wreckage were several pieces of hardwood in maple and walnut, which also look like the cabin fittings from a steamer. Possibly considerable of that came from the lost Mattewan and cruiser Condor, as both these ships must have gone down somewhere off the entrance to the straits. The derelict Laura Pike has gone ashore and is nine miles west of Carmanah where the Indians are getting the lumber out of her.

REPORT ON TRAIN WRECK.

Eight Cars Burned—Obstruction on Track Was Cause.

San Francisco, March 8.—The following statement has been issued by the Southern Pacific officials with reference to the disaster near Maxon on Friday morning: Supt. Martin reports that the accident occurred two and one half miles east of Maxon at 2.35 a.m. Conductor Stockwell reports that the speed was not fast at the time of the derailment and in his opinion the derailment was due to an obstruction on the track. The two day and mail cars, one coach, one chair car, three tourists' sleepers and one first class sleeper were completely destroyed by fire.

A SERIOUS WASHOUT

The washout the new flume on Cottonwood creek is a good deal more serious than at first appeared. The flume is a heavy box one and was intended to convey the creek from below the Baker street bridge through the yards till all the tracks had been passed. The heavy rains of the past couple of weeks have raised Cottonwood creek considerably above the level usually reached at this season of year and on Friday the stream washed away the gravel at the commencement of the flume and burrowed its way under the structure finally raising it up and twisting it so that it is useless It was found necessary to cut away one of the trestle bridges and jack it up from the sides, and the whole of the flume will have to be removed and the work done over again. The bed of the creek is entirely gravel and sand and this with the swift current which constantly alters the bars and the trend of the stream will make it difficult to keep the stream permanently in the channel wished. The flume is about fifteen feet wide and one hundred and fifty feet long and built of heavy timber.

DISCOVERED BOER CACHE

Canadian Scouts Unearth a Magazine of War Materials.

Varying Rumors of Cecil Rhodes—Astor Wants a Seat.

London, March 8.—Lord Kitchener in a despatch from Pretoria dated today reports the discovery of a Boer magazine in a cave northeastward of Rietz, Orange river colony, containing 310,000 rounds of rifle ammunition, hundreds of shells and fuses, 200 pounds of powder, a Maxim gun, helios, field telegraphs and quantities of stores. Thirty-five Boers have been captured in the same neighborhood since March 4th. The magazine was discovered by Canadian scouts commanded by Colonel Ross.

While private telegrams from Capetown today report tha Cecil Rhodes is in a critical condition, the officials here of the British Chartered South African Co. say Mr. Rhodes is conducting his business correspondence as usual. In two cable despatches reecived from Mr. Rhodes this morning his illness was not mentioned.

With reference to a report that William Waldorf Astor had signified his willingness to become a candidate for parliament for the Epsom division of Surrey, the chief agent of the Conservative party, Richard W. E. Middleton, said today that there would be no vacancy in the Epsom division until the next general election and that he had heard nothing about Mr. Astor's candidacy.

Mr. Middleton said also that the report that Mr. Chamberlain, the Colonial secetrary, had practically been decided upon as a successor to Lord Salisbury in the premiership, was purely speculative, as nothing had been settled in the matter.

Through the Aero club, C. A. Pearson, the publisher, has offered Santos-Dumont a prize of £4,000 sterling for an airship voyage from London to Birmingham. No time limit is fixed The distance is 100 miles. This will be the greatest feat Santos-Dumont has yet attempted. By consent of Santos-Dumont the competition is open to all aeronauts.

BEFORE DANISH FOLKSTHING.

Some Oppose Ceding the Island, Others Want a Plebiscite.

Copenhagen, March 8.—The treaty providing for the sale of the Danish West Indies to the United States was discussed in the Folksthing today. The premier and the foreign minister, Dr. Deuntzer, made a long speech which created an excellent impression. Only Johann Ottensen and a few others spoke against the sale of the isalnds. Others demanded a plebiscite. It will come up again on Monday next. The session today was not an open session. There will be two readings in open session.

TOOK LAUDANUM.

Oil Speculator Commits Suicide in Hotel Room.

Buffalo, March 8.—Michael Richard Bright, of Pueblo, Colo., drank an ounce of laudanum in a room at the Iroquois hotel tonight. He was dead when found by a bell boy. Bright is said to have been an oil speculator. He left a number of letters addressed to persons of prominence.

SPANISH CRISIS.

Announcement Expected to Be Made in Few Days.

Madrid, March 8.—The Spanish papers agree in declaring that a ministerial crisis is almost unavoidable and they express the opinion that the announcement that a crisis has occurred will be made after the cabinet council to be held March 10.

THE AMERICAN WAS BEATEN.

Monte Carlo, March 8.—The play in the international chess tournament resulted as follows: Pillsbury went down before Marco, Maroczy beat Mieses, Napier succumbed to Teichmann and Janowski beat Tschigorin.

LOOKING FOR CHAMPIONS

Best Amateur and Professional Boxers Wanted for London.

Remarkable Records in Hurdle Jumping Made at Ithaca.

New York, March 8.—W. A. Gavin and C. G. Lea, of the National Sporting club of London, arrived today on the St. Paul. We have come, said Mr. Gavin, to try to induce American champions of boxing, fencing and wrestling to go over to England during coronation week and there to meet the best men that Great Britain and the other countries of Europe can produce. We chiefly want the champions of the army and navy, but they must get men who are at present in the country's service and not like Tom Sharkey, who although formerly in the United States navy, has been a professional for many years. We will also try to get Harvard and Yale to send their best boxers to England to compete against those of Oxford and Cambridge. Lord Lonsdale, the president of our club, has offered a cup as a prize for the winner of a boxing contest between Harvard and Oxford and the Earl of Kingston another cup for the winner of a contest between the boxers of Yale and Cambridge.

The chief feature of the tournament will be a tug of war between 12 picked men of European countries and 12 of the United States. Amateurs will receive trophies and the professionals cash prizes, but the professionals' line will be very fine between the two. The club has a belt which is valued at $5,000 which will be given, besides a large money prize, to the best heavyweight professional boxer, but he must be the best that his country can produce and no second rate men will be considered. The contest will be held in Covent Garden, London. If we can arrange for some of the competitions to be held in the open air, we will do so.

HURDLE RECORD BROKEN.

Ithaca, N.Y., March 8.—At the weekly track meet held on the Armory outdoor track this afternoon A. Walton Tower broke the world's record running the 50-yard high hurdles in 6 1-5 seconds and 70-yard low hurdles in 8 1-5 seconds. Rogers and Porter lowered the Cornell record in shot putting, while Sears covered the 40-yard dash in 4 3-5 seconds.

RACQUET DOUBLES.

O'Brien Anxious For Middleweight Championship.

Philadelphia, March 8.—The amateur championship of America in raquet doubles was won today by George H. Brooke and H. David of this city who defeated their club mates N. Etting and G. H. McFadden in straight games.

Jack O'Brien today posted a $500 forfeit to bind a match with Tommy Ryan for the middleweight championship of the world. O'Brien says he is ready to meet Ryan at any time before June 1st or after the hot weather before the club offering the largest purse. O'Brien says 158 pounds at the ringside is satisfactory.

QUESTION OF PASSPORTS.

Inquiry Whether State Department Asked Them For Rev. Thomas.

Washington, March 8.—Representative Burleson, of Texas, today introduced in the house, a resolution of inquiry calling upon the Secretary of State, for information as to whether he declined to request the British Government to grant passports to Rev. Hiram A. Thomas and wife, who are alleged to have requested permission to go to South Africa for the purpose of distributing funds raised in the United States for the relief of noncombatant prisoners.

CHIEF ENGINEER RESIGNS.

Montreal, March 8.—P. A. Peterson, who for 25 years has been engineer in chief for the Canadian Pacific railway, has resigned to take the postition of consulting engineer. He will be succeeded by H. E. Vautelet his assistant chief. R. Vautelet has heretofore superintended the construction of the bridges of the C.P.R. system.

INSURGENT'S VICTORY.

Rumors That a Government Force Was Captured in Venezuela.

Panama, March 8.—For the last two days it has been persistently rumored here that the government forces have sustained a severe defeat. It is said that when the Colombian gunboat Boyaca landed reinforcements at Chirivui, the civil and military chief of the province, R. Lastra, prepared to attack the revolutionists at San Vablo, about five miles from David and sent Col. Luque forward with 200 recruits. The latter, not knowing the country, are said to have been surprised by five hundred of the enemy, between two embankments from which position the revolutionists were able to shoot down the government soldiers. Many of the latter are understood to have been made prisoners. It is hoped in government circles that David was not captured by the revolutionists as the town was strongly entrenched. Lastra may be able to hold out until reinforcements, sent by General Castro, reach him.

The British steamer Taboga due here on March 10 from Pedregal will probably bring more details of the engagement.

PAUNCEFOTE TO RETIRE.

One of the Under Secretaries of the Foreign Office May Succeed.

Washington, March 8.—The state department has as yet received no intimation of the selection of a successor to Lord Pauncefote. It has had the impression that the choice, when made, would fall to one of the four under-secretaries of the British foreign office, as it was understood that each of them desired the post. If Mr. Lyttleton has been selected for the post at Washington, the action marks a departure from the usual custom of consulting the other government as to the acceptability of the contemplated assignment.

As far as can be learned, Lord Pauncefote's plans for the coming summer do not contemplate a journey beyond the shores of this country. He will leave Washington in a few days for a visit to George Vanderbilt at Biltmore, N. C., where he hopes to recuperate fully from his recent attack of gout.

STAND BY COMRADES.

Freight Handlers Strike Because Others Were Discharged.

Boston, March 8.—Freight handlers to the number of 840 employed in freight houses of the New York, New Haven and Hartford railway at South Boston struck tonight because of the refusal of the company to reinstate several men who had been discharged for refusing to handle freight delivered by the R. S. Brine Tranportation Co. Three men were discharged early in the week and five more yesterday for this reason. The freight handlers union demanded their reinstatement and the company expressed its willingness to take back those discharged yesterday but not the others.

METEOR'S MAST STEPPED.

Made of Oregon Pine and Eighty Feet in Height.

New York, March 8.—The foremast of the German Emperor's yacht Meteor was stepped today. The mast is 80 feet high and 22 inches in diameter and is of Oregon pine. There was no ceremony at the placing of the mast into position. The main mast will be stepped on Tuesday and it is expected that the bowsprit will be put in place on that day. There are about 100 men at work finishing the yacht.

GRANTED NEW TRIAL.

Topeka, Kan., March 8.—Jessie Morrison, who was convicted of murder in the second degree for the killing of Mrs. Clara Wilry Castle, of Eldorado, a year ago, has been granted a new trial by the Supreme court. The court held that there was error in the empannelling of the jury which tried Miss Morrison. Miss Morrison was a rival of Mrs. Castle in a love affair. In a quarrel she cut Mrs. Castle's throat with a razor.

BURNED FOR PLUNDER.

San Domingo, March 8.—It is reported here that the British schooner Cavalier, ashore on the southwest coast, has been burned by natives with the intention of plundering her.

COMMISSION OF INQUIRY

Curtis Will Ask House to Investigate Premier's Conduct.

Charges Against Dunsmuir Amount to Malversation of Office.

(SPECIAL TO THE MINER.)

Victoria, March 8.—Smith Curtis on the house's resuming on Tuesday will move for a commission of the house to investigate the conduct of the premier in using his office as premier to sell his own railway as a part of the Canada Northern and practically to charge him with malversation of office as premier.

Mr. Greenshields when interviewed this morning said the deal for the E. and N. was not completed, but would likely be today. He said he was the representatve of Mackenzie and Mann in the matter. Government supporters this forenoon state that the government is reaching an agreement with the C. P. R. to undertake the construction of the Coast-Kootenay line.

As election day approaches the political excitement here is becoming intense. W. W. B. McInnes held forth to labor men last evening supporting Mr. Dunsmuir. A strong anti-Dunsmuir element of labor men was present and several free fights took place in the body of the hall as well as on the platform.

Col. Prior held a meeting at which he declared that as a result of the arrival of Mr. Greenshields that evening from the east, clause 18 of the contract, which allowed the company to drop the railway agreement if so disposed within six months, had been eliminated. He also stated that negotiations with Mackenzie and Mann for taking over E. and N. railway were almost completed and would be finished by tonight when Greenshields would take the platform and describe it.

At the opposition meeting this evening a resolution was passed condemning the government and particularly Dunsmuir for acting in the negotiations with the C. N. R. in a manner subversive of clean and honest government. The charge was made that the premier is selling part of his own railway system to contractors, that the agent for the government is also the agent for Mackenzie and Mann, and the resolution close by asking the governor to dismiss the government. Copies of the resolution will also be sent to Sir Wilrid Laurier.

LAST BODY RECOVERED.

Seventeen Men Perished in Extension Mine Accident.

(SPECIAL TO THE MINER.)

Nanaimo, March 8.—The seventeenth and last body recovered from the Extension mine today, turned out to be William Pollock, whose family buried what they thought were his remains last Sunday. The latter must have been those William Blakely and they will be disinterred. The last two funerals of the series take place tomorrow.

SMELTER OUTPUT GROWING.

Three Furnaces at Granby Doing Good Work.

(SPECIAL TO THE MINER.)

Grand Forks, March 8.—The weekly tonnage of the Granby smelter shows a marked increase now that three furnaces are in operation. For the week ending today the plant treated 7,649 tons of ore, an average of 1,093 tons daily. The total tonnage treated to date is 333,356 tons.

ROSSLAND ORE SHIPMENTS.

Rossland, March 8.—Shipments from the Rossland mines for the eight days ending tonight are 8,030 tons as follows: Le Roi, 6,660 tons; Le Roi No. 2, 1,250 tons; Cascade, 90; Bonanza, 30. The aggregate for the year is thus brought up to 55,928 tons. Shipments will be commenced from the Centre Star and War Eagle mines on Monday.

METAL MARKET.

New York, March 8.—Bar silver, 54 1-2; Mexican dollars, 43 1-2. Copper quiet, 12 1-2 c. Lead, firm, 4 3-8.

AN IMPORTANT INDUSTRY.

The enterprise of F. H. Clergue and associates should make Sault Ste Marie an important place. In a recent interivew Mr. Clergue announced that the steel works of his syndicate at the Soo would be turning out 600 tons of steel rails by the end of the month. Six thousand men are now employed by the syndicate and within a few months the number will be increased to 10,000. This will support a large population and Sault Ste Marie should become a city of smokestacks and the Pittsburg of Canada. It will result in keeping millions of dollars in Canada that had hitherto keen sent to other countries for the purchase of steel rails and other manuactured forms of that metal. In short, the enterprise of the syndicate will build up a great industry and add largely to the material prosperity.

The results which have so far attended the efforts of the Clergue syndicate at Sault Ste Marie shows the possibilities of the enterprise of those who are pushing the development of the iron deposits in the vicinity of Kitchener. It is the intention of this syndicate, after the iron deposits are opened so that large quantities of ore can be extracted, to esatbish iron and steel works and to manufacture steel rails. The snydicate is said to be possessed of sufficient capital to fully carry out its plans.

It is said that the American Steel Trust, recognizing the fact that the establishment of iron and steel industry in western Canada, would deprive it of important markets for its products, recently made an offer for the deposits which would recoup the syndicate for the outlay made and leave a handsome profit, but the offer was declined as the determination of those engaged in the enterprise is to push it to a successful issue if that goal can be reached with money, enterprise and perseverance.

This incident shows how important the enterprise is, leads to the conclusion that it is certain to play an important part in the future of the province, and by many it is regarded as the most valuable that has yet been entered into in this province. Indeed, it has all the essentials for success about it. The quality of the ore has been demonstrated by analyses to be first class. The work done last year showed beyond the peradventure of a doubt that the quantity is ample for the purposes intended. Fluxes are close at hand and of the quality necessary for the purpose. Fuel is abundant and within a short haul of the iron deposits.

The conditions of the closeness of iron ore to fuel and an abundance of both are what to a large extent gave England her supremacy in manufacturing iron and steel and partly led to her supremacy of the seas. Like conditions prevail in the vicinity of Kitchener and should lead to like successful results.

The product of the furnaces would have a monopoly in British Columbia and should be able to more than hold its own in the Northwest Territories. It should find a waiting market in the Pacific. It could meet competition in the Orient and we are inclined to think would have a little the advantage there. According to a paragraph in the report of the Board of Trade of Victoria the Australian Confederation and South Africa are large importers of iron in its several forms. In fact there is an excellent market in all the countries bordering on the Pacific providing the existing competition can be met, and we believe it can be successfully. The freights from Kitchener to the coast, however, must be reasonable in order to do this.

With so many conditions in its favor there is every reason to believe that the Kitchener enterprise will be successful and that it will in time, and not so long a period either rival in importance the Clergue establishment.

We may therefore, be prepared to see thousands of men employed in the iron and steel industry of British Columbia. The syndicate intends to recommence operations as soon as the snow melts and with a larger force than last year and from that time the force will grow, unless the unexpected happens, until as many operatives are at work around Kitchener as are employed by the Clergue syndicate at Sault Ste Marie.

IS GROWING RAPIDLY.

The mineral industry of Canada is growing at a good rate and it is pleasant to note that the total output in 1891 was $69,407,031, an increase of $4,918,994 or of nearly five millions over the previous year This increase was made notwithstanding the fact that the Yukon gold fields produced but $38,000,000 which was a decrease of four millions in those fields on the figures for the previous year. Notwithstanding the decrease in the Yukon the increase was 8 per cent. in all the Dominion. Leaving the Yukon out of consideration the permanent metal mining districts show an increase of nearly 37 per cent. British Columbia still maitains its supremacy as a producer of minerals over the other provinces, as according to an estimate made by the provincial mineralogist our output in 1901 was $20,713,501. This is more than two-sevenths of the total mineral production of Canada, which is not a bad showing, and reveals how important our mining industry has become.

The placer goldfields of the Yukon reached their zenith in 1900 when the production was $22,000,000, and declined to $18,000,000 last year. From now on it is certain that the output of Yukon gold will decrease annually although the gravels should continue to yield a few millions a year for many decades to come. The development of the lodes on the Yukon has commece, but the tide of production is certainly on the ebb in the Yukon, while it is on the flood with the permanent lode mines, which is shown by the increase of 37 per cent. during last year over 1900. It is eivdent that our main reliance must be placed on the lode mining and that this form of industry must be fostered.

The Dominion government has wisely recognized the necessity for this and has decided to meet the request of the Canadian Mining Institute and intends to establish a federal mining bureau. It is stated that Professor Haanel, at one time in the employ of the Ontario government, and who latterly has been residing in the United States, has been selected for the head of the proposed bureau.

Mr. Haanel is a recognized authority on mining and under his direction the mining bureau can be made of great benefit to the mining industry.

There is a fear, on account of the location of the headquarters of the bureau at the seat of the federal government, that undue attention will be given to the mining areas in the eastern portion of the Dominion. This should not be done. The attention of the bureau should be bestowed on the several provinces in proportion to their output. This would be the only just method of procedure, and as British Columbia's output last year was something over two-sevenths of the entire mineral production of the Dominion and as it was greater than that of any other province, it should receive the lion's share of the attention of the bureau.

The work of the geological department, too, could be enlarged. This province has an immense mineral area, greater perhaps than that of all the other provinces put together. A larger staff should be put in the field for the purpose of making geological surveys, which are of great value in determining the merits of mineral bearing country. It was stated that the country tributary to one of the branches of the Kettle river was likely to contain coal in one of the recent reports of the geologial survey. This hint was taken by some prospectors and the result was that about 50 square miles of coal land was taken up last year and the area staked is to be enlarged this year.

This coal was in a section where its existence previously was never even suspected. This incident shows the value of the geological surveys and the necessity for extending them in this province.

EDITORIAL NOTES.

Surgeons have accomplished the remarkable task of taking a man's brains out, cutting off some diseased nerves and replacing them in their cavity. The man operated on still lives. It now seems that there are but few portions of the human anatomy that cannot be successully operated on by the daring surgeons of the day. In fact surgery is advancing more rapidly than medicine.

Cecil Rhodes, the empire builder, is afflicted with an enlarged heart and grave fears are entertained that his end is not far off. The worries incident to the South African war have borne heavily upon Mr. Rhodes, and doubtless superinduced the acute ailment with which in suffering. There are many whom the world could better lose than Cecil Rhodes, whom Kipling has in his intense admiration called "the greatest living man." While this is saying a great deal and is something over the mark, still Mr. Rhodes has played an important part in the history of South Africa and his loss will leave a void which it wil be difficult to fill. He is a type of the empire builder who has done so much to enlarge the possessions of the British empire. He has sown some good seed during his life time in addition to his many accomplishments and if his comprehensive plans are carried out, and especially his scheme for a Cape to Cairo railway, "the vaster empire than has been" will have a large area of territory added to its present possessions. It is to be hoped that the illness of Mr. Rhodes is not as serious as the dispatches would indicate, and that he may soon have a full and complete recovery.

ASTHMA CURE FREE !

Asthmalene Brings Instant Relief and Permanent Cure in all Cases.

SENT ABSOLUTELY FREE ON RECEIPT OF POSTAL

WRITE YOUR NAME AND ADDRESS PLAINLY.

There is nothing like Asthmalene. It brings instant relief, even in the worst cases. It cures when all else fails.

The Rev. C. F. WELLS, of Villa Ridge, Ill., says: "Your trial bottle of Asthmalene received in good condition. I cannot tell you how thankful I feel for the good derived from it. I was a slave, chained with putrid sore throat and asthma for ten years. I despaired of ever being cured. I saw your advertisement for the cure of this dreadful and tormenting disease, Asthma, and thought you had overspoken yourselves, but resolved to give it a trial. To my astonishment the trial acted like a charm. Send me a full size bottle.

Rev. Dr. Morris Wechsler.

Rabbi of the Cong. Bnai Israel.

NEW YORK, Jan, 3, 1901

DR. TAFT BROS. MEDICINE CO.,

Gentlemen: Your Asthmalene is an excellent remedy for Asthma and Hay Fever, and its composition alleviates all troubles which combine with Asthma. Its success is astonishing and wonderful.

After having it carefully analyzed, we can state that Asthmalene contains no opium, morphine, chloroform or ether. Very truly yours,

REV. DR. MORRIS WECHSLER

AVON SPRINGS, N. Y, Feb. 1, 1901.

DRS. TAFT BROS. MEDICINE CO.

Gentlemen: I write this testimonial from a sense of duty, having tested the wonderful effect of your Asthmalene, for the cure of Asthma. My wife has been afflicted with spasmodic asthma for the past 12 years. Having exhausted my own skill as well as many others, I chanced to see your sign upon your windows on 130 th street, New York, I at once obtained a bottle of Asthmalene. My wife commenced taking it about the first of November. I very soon noticed a radical improvement. After using one bottle her Asthma has disappeared and she is entirely free from all symptoms. I feel that I can consistently recommend the medicine to all who are afflicted with this distressing disease.

Yours respectfully, O. D. PHELPS, M. D.

DR. TAFT BROS, MEDICINE CO, Feb. 5, 1901.

Gentlemen: I was troubled with Asthma for 22 years. I have tried numerous remedies, but they have all failed. I ran across your advertisement and started with a trial bottle. I found relief at once. I have since purchased your full-sized bottle, and I am ever grateful. I have a family of four children, and for six years was unable to work. I am now in the best of health and am doing business every day. This testimony you can make such use of as you see fit.

S. RAPHAEL,
67 East 129th St., New York City.

Home address, 235 Rivington street,

MINING NEWS.

Maxwell Stevenson, manager of the Highland mine, is at the Hume and says the concentrator will soon resume operations when regular shipments will be made.

There are 35 men on the payroll at the Last Chance, 16 of whom are working in the big tunnel, driving both ways and raising on the ledge. The showing is very encouraging, but progress is not very rapid as it is all hand drilling.

The Sandon Paystreak announces that the Byron N. White Co. has signed a contract to ship its product of about 800 tons per month to the Everett smelter. This means that the property will be worked full blast this summer and will employ more men than ever before.

The outlook for the Cascade mine, in Burnt Basin district, is said to be brighter than ever before. The returns from shipments already made have been decidedly encouraging, and every foot of development done is adding to the already splendid showing.

There are now 55 men on the payroll at the Payne mine and everything is going along smoothly, says the Sandon Paystreak. The upraise from No. 8 will be completed about the 1st of March, which will greatly facilitate the working of the property. Excellent progress is being made with the construction of the mill, which will be completed in about three weeks. Four cars of ore were shipped this week.

The Sandon Mining Review says it is reported that the Ruth mine will resume shipments sometime about May 1st when a good staff of men will likely be engaged. The Ruth has shut down shipments for over a year on account of the price of silver and lead and the conditions affecting silver-lead mining generally. The Hope, one of the group, has been under steady development during the winter months, employing two to three men. Some occasional small shipments were made from the Hope, when the rawhiding first started. The Wyoming, another claim of the group, is also in good condition to be opened up at any time, having good showings to work on. On the lower tunnel of the Ruth is where the most work has been done. It is expected that the lead on this level will be struck with about 80 feet more work. Some ore has been taken out of this tunnel and is sacked and ready for shipment. The ore assays 200 ounces to the ton. The ore that has been taken since the mine ceased regular shipment was simply that encountered in the course of the development work. When the mine is in full running order again the concentrator is likely to start up.

3,000 barrels of men's suits—The Wallace-Miller brand—your size, your price and pattern to please you are here. Call in.

A MODEL BARBER SHOP.

The tonsorial establishment of J. H. Matheson and the basement shop of McMahon and Gardner have consolidated and are now doing business next door to the Bodega saloon, where they will be pleased to meet old and new customers.

GREAT ATTRACTION COMING.

The Fiechtl's comic players will appear at the Nelson Opera house on a March 11 and 12, with one of the best and most refined comedy and vaudeville company traveling, presenting high class farce comedy, vaudeville and comic burlettas. A company of sixteen, picked and selected artists for their individual excellence. The most talented singers, dancers, comedy and vaudeville talent in the profession including the singing wonders of the twentieth century, Fiechtl's famous quartette of Tyrollean warblers and sextette of sweet singers; the Jarrett's Royal Marionettes, the most wonderful novelty act ever produced on any stage; the celebrated impersonators of Chinese characters, Geo. A. Bird and Lizzie Bird in a trip to the Chinese theatre; a novel and entertaining comedy sketch; the two little Troubadours, Elsie and Otto presenting the famous prison scene from the opera Il Trovatore; the clever singing and eccentric dancing comedienne Nellie Goodwin; Wiggin and Raymond sketch artists, singing and talking act; Duffield and Douglas in their laughable skit the Operatic Girl and the Tramp; Master Herbert Bird, the clever little actor and comedy singer; the Cyclonic Comedy with special scenery and accessories placed in line for laughing purposes, only in one act; Peck's Bad Boy and Johnny Riley in one act, revised and brought to date to suit the mind's eye of laughter; the beautiful musical comedy burletta in one act, German Town on the Hudson, introducing the entire company in musical and comedy numbers. There will be an entire change of programme on the second night.

FROM ONE WHO KNOWS.

Editor Miner,—It is with much pleasure that I have been reading the proceedings of the Kootenay Tourist association in your columns. About ten years ago I brought this important matter before the then residents of this section, but no action was taken. It is now gratifying to know that the citizens are being wakened up to the importance of such a scheme. I have seen and studied the advantages of tourist travel in Colorado and elsewhere, and can truthfully state that no matter how great and how valuable the mines of a section of country are tourist travel is the biggest paying concern of them all. Tourists benefit every one with whom they come in contact. All in the country participate in the prosperity they bring, from the wealthiest capitalist to the humblest bootblack.

The sights and scenery in many parts of the world have become effete to a majority of the tourist class and they long for something new. Were the advantages of the Kootenays brought to their attention, streams of these money-spending people would be flowing through here every year. Nor do they only take in the sights and enjoy the sports but many make investments in the different industries. There are many places in this country now of comparatively valueless that would be wealth producers with touirst travel established.

In fact I could give scores of instances and suggestions did space permit. Very truly,

RANDALL H. KEMP.

M'KANLESS MONDAY NIGHT.

McKanlass, who appears at the Nelson Opera house on Monday evening, is a violinist of exceptional ability, spoken of in the highest terms wherever he has appeared. With his company of Alabama Warblers. Monday night's entertaiment promises to be one of much merit. Herewith are given some comments by the press:

McKanlass' performance on the violin, banjo, and two cornets at once brought forth rounds of applause, last night at the Lansing.—Lincoln State Journal.

McKanlass is the Ole Bull of the violin, the Dobson of the banjo and the greatest artist and humorist we've ever seen.—Butte Miner.

When you have any team work or want coal or wood call up 33 West Transfer Co, office Ward street, opposite Miner office.

About 9 o'clock on Friday night as a freight train loaded with coal was coming from Procter for Nelson it collided with a huge boulder which had rolled down from the bank above. The engine, and tender, were derailed and three cars of coke upset. Trainmaster Lawrence, who happened to be on the train, walked back to Procter, the accident having occurred opposite Kokanee creek, about five miles from Procter, and wired in for a wrecking train which was immediately despatched to the scene. The front of the engine was injured and the tender broken. The whole was cleared away by 2 o'clock yesterday afternoon and the engine brought into the shops for repairs. While the wet weather continues the trains to and from Procter will probably be run only in the daytime, to prevent accident, as a large number of boulders are constantly sliding down on the track. There is a large accumulation of cars of coal at Procter at present, owing to the bad state of the road, some 125 cars are now awaiting transportation.

Trunks, valises—The Wallace Miller Co.

THE CITY

Captain Gifford is in from the Silver King mine and reports there is 12 feet of snow at the mine.

James McGregor, mining inspector, has returned from Rossland where he has been on official business.

H. M. Vincent has purchased the stock and business of E. J. Robie, merchant tailor, of Baker street.

The first spring chickens of the season have arrived at Robert's ranch (Florence Park.) They will be served all day and will be cooked in any style desired.

The pastor will conduct both services at the Methodist church today. Subjects, morning, The Real Presence; evening, Vanishing Opportunities. The choir will lead in a bright and helpful musical service. Everybody welcome.

The Nelson and Fort Sheppard train was eight hours late yesterday, having been delayed by a slide which came down near Erie, necessitating considerable labor before it was clear away sufficiently for the train to get past.

A fishing club has been organized at Rossland with Fred Schofield as president, and J. L. G. Abbott as secretary-treasurer. A prize will be awarded to the member catching the largest trout. Resolutons were passed, among them one asking the provincial government to prohibit the sale of trout.

Stop now, think it over, better examine our shoe stock—The Wallace-Miller Co., limited.

Nelson Miners' union has decided to hold its annual ball on the evening of Monday, March 17, in Fraternity hall. The committee who have the matter in charge are John R. McPherson, J. C. Murdock, James Wilks, M. R. Mowat and W. H. Whitmore. The price of the tickets has been placed at $1.

Rain coats, umbrellas, rubbers, new goods, just received; everything with style, quality value, you'll find here. —The Wallace Miller Co., limited.

J. F. Crofts returned to Nelson yesterday from Eholt where he had been searching for traces of his son, of whom he has had no word for some months. He was unable to secure any informatin and rejoined Mrs. Crofts in Nelson, where they will remain for a couple of days before leaving for their home in Boston.

GOOD WORK

Proper Food Makes Marvelous Changes.

Providence is sometimes credited with directing the footsteps by so simple a way as the reading of a food advertisement.

A lady out in Shelbina, Mo., says, "About two years ago I was compelled to retire from my school teaching because I was completely broken down with nervous prostration.

I suffered agony in my back. My hands and feet would swell up nights. I was in a dreadfully nervous condition, irritable, with a dull heavy headache continually, had no appetite and could not digest anything if I tried. I was unable to remember what I read and was, of course unfit for my work.

Some said I had consumption, others said dropsy. One day, as if by providence, I read the testimonial of a lady whose symptoms were much the same as mine, and she told of how Grape-Nuts Breakfast food had cured her, so I concluded to try it.

I left off the old fashioned breakfast and began with Grape-Nuts, a little fruit and a cup of Postum Food Coffee.

That was eight months ago and I have steadily improved in both body and mind. Grape-Nuts Breakfast Food has done more for me than all the medicine I have ever taken, and am now well again and able to return once more to my school duties and able to do anything necessary in my work.

My mind is clearer and my body stronger than ever before Please do not publish my name." Name given by Postum Co., Battle Creek, Mich.

The steamer Kokanee yesterday brough in a carload of Molly Gibson ore for the Hall Mines smelter.

Owing to the rain there was no shoot of the Gun club yesterday. The shoot has been postponed until this morning at 10 o'clock sharp.

Bernard McDonald, general manager of the Le Roi No. 2 and the Rossland Great Western, at Rossland, is on his way from London to British Columbia.

Messrs. Rosenberger and Brock returned last evening from the Lardo where they have been looking over the properties of the Northwestern syndicate.

The passenger train from the west was delayed an hour yesterday morning by a boulder which had rolled down on the track near Robson and which it was necessary to drill and blast out before the train could proceed.

The regular meeting of the Socialistic league will be held this afternoon in the Miners' union hall commencing at 3 o'clock. The subject for discussion will be, The Coal Fields of B. C. and the People's Rights Thereto, and will be introduced by Chas. McKay.

A social evening was spent last night at the residence of J. Coxhead, Victoria street, under the auspices of the Socialistic club. Games were indulged in until a late hour, when refreshments were served. A collection was taken up in aid of the Library fund of the society.

Fine American shoes—Wallace: Miller Co.

J. D. Kyle, who for some time has been a conductor with the Nelson Tramway, company has left that company's service to take a position in Madison, Wis. Mr. Kyle has been deservedly popular with the patrons of the tramway and his friends will wish him success in his new position.

Before placing your order for wall paper it will pay you to see our new designs, F. J. Bradley and Co.

Tonight at the Emmanuel Congregational church Rev. Wm. Monroe will preach on A Vision of the Future. The music for the service will be anthem He Shall Feed His Flock Like a Shepheid (Ogden); duet and chorus, Arise For Thy Light is Come, (Palmer). A cordial invitation is extended to everyone.

Toward the childrens' events in the ping pong tournament the following have contributed prizes: Nelson Hardware company, McPherson and McCammon, J. Vanstone, and the Montgomery Confectionery company. The competitions for the children are boys and girls singles and first and second prizes will be given in each event. The committee would remind intending competitors that the entries close on Thursday next at noon.

Don't overlook us in our new quarters opposite Miner office, Ward street. Coal and wood, West Transfer Co.

PAPER TRADE COMBINE.

Wholesale Dealers of New York Form an Association.

New York, March 8.—Forty-two of the large wholesale dealers in paper today formed an organization to be known as the wholesale papers dealers association of the city of New York. The object of the association was stated to be the eradication of abuses in the trade and for social purposes. The combined dealers represent in capital $10,000,000. Eben Miller, of Miller, Sloan and Wright was elected president.

CHINESE PASSENGERS DROWNED.

Hong Kong, March 8.—It is reported from Canton that a river steamer plying on the Canton river ran down a native passenger boat and that 150 passengers were drowned.

TO KILL THE DANDRUFF GERM.

Its the Only Possible Way of Having a Permanent Cure.

If you see a woman or a man with luxuriant glossy hair, you may be sure neither has dandruff to amount to anything. In nearly every case where women and men have thin brittle hair, they owe it to dandruff. There are hundreds of preparations that "claim" to cure dandruff, but not one but Newbro's Herpicide tells you that dandruff is the result of a germ burrowing into the scalp and that permanent cure of dandruff and its consequent falling and baldness, can only be had by killing the germ: and there is no other preparation that will destroy that germ but Newbro's Herpicide. "Destroy the cause, you remove the effect."

SHERIFF'S SALE

Province of British Columbia, Nelson, West Kootenay, TO WIT:

By virtue of a writ of Fieri Facias issued out of the Supreme Court of British Columbia, at the suit of The Bank of Montreal, Plaintiff, and to me directed against the goods and chattels of The Tribune Association, Limited Defendant, I have seized and taken in execution all the right, title and interest of the said defendant, The Tribune Association, Limited, in the printing presses, cases, type, paper, envelopes, book binding machinery, ruling machine, power wheel, and other printing machinery and material now stored in the building situated upon Lot 6 in Block 12, fronting on Baker street in the City of Nelson, British Columbia; To recover the sum of Three thousand and twenty-six dollars and sixty-one cents ($3,026.61), and also interest on the sum of Three thousand and twenty-three dollars and eleven cents ($3,023.11) at five per centum per annum, from the 14th day of February, 1902, until payment, besides sheriff's poundage, officers' fees, and all other legal incidental expenses; all of which I shall expose for sale or sufficient thereof to satisfy said judgment, debt and costs upon the aforesaid premises, Baker street, Nelson, B.C., on Friday, the 14th day of March 1902, at the hour of eleven o'clock in the forenoon. An inventory of the goods and chattels to be sold may be seen at my office, next to the court house, in the City of Nelson, on and after the 10th day of March, 1902.

NOTE.—Intending purchasers will satisfy themselves as to interest and title of the said defendant.

Dated at Nelson, B. C., 5th March, 1902.

S. P. TUCK,
Sheriff of South Kootenay.

Lawrence Hardware Company
Sole Agents, Nelson, B. C.

EDGEWOOD DAIRY CO.,
LIMITED.

Head Office: Nelson, B. C. Ranch: Fire Valley.

Capital Stock, $25,000 in $1.00 Shares.
Subscribed Capital $18,000.
Now Offered for Public Subscription, $7,000.

A well equipped, well managed, up-to-date farm is not often seen in this district, in fact land suitable for farming is found in but small patches thougthout the mountains. There is however, a tract of good tillable land in the beautiful Fire Valley, which extends to the Arrow Lakes, and is about 78 miles from Nelson. The above company have been unusually fortunate in securing 720 acres of this land and for the past 14 months they have been quietly working along clearing the land with a view to going into the dairy business on an extensive scale. Owing to the absence of heavy timber the cost of clearing is unusually small, averaging about $13 per acre. They already have over 100 acres cleared which will all be under cultivation this year and from which they expect to take a large quantity of hay, etc. Should the company see fit to market this it would pay a handsome dividend but such is not their intention, as they require it for their own stock which they will place on the ranch early in the fall when they will begin selling milk and other products and from which they expect to receive larger returns. As will be seen from the above only one-seventh of the ranch is cleared as yet. It is the intention of the company to vigorously push the work of clearing the balance of the ranch during the approaching season. So that a large part of it may be placed under cultivation next year.

In view of the high prices paid for farm products in this district, it is not difficult to see a bright future before the Edgewood Dairy Company, limited.

In order that anyone can take advantage of this opportunity to purchase some of the company's stock it has been decided to accept subscriptions for 100 (one hundred) shares or over at par. Applications for stock to be accompanied by a cheque payable to the Imperial Bank of Canada for 10 per cent. of the amount subscribed. The balance will be payable—10 per cent on allotment and calls of 20 per cent each, with not more then one call in any one month.

The company has requested E. B. McDermid to act as broker from whom application blanks, copies of last balance sheet, etc., etc., and any other particulars may be had.

The subscription list will close at 12 o'clock noon, on March 15th.

Address all communications to E. B. McDermid, accountant, Nelson B.C.

IN THE SUPREME COURT OF BRITISH COLUMBIA.

Between S. S. Bailey, Plaintiff, and Dellie Mining and Milling Company (Foreign), Defendants.

NOTICE OF SALE UNDER JUDGMENTS' ACT, 1899.

Pursuant to an order of the Honorable, Mr. Justice Martin, made in the above action on Friday, the 21st day of February, 1902, and of the registrar's directions dated the 1st day of March, 1902, and filed herein, there will be offered for sale with the approbation of the Deputy District Registrar at Nelson, by Samuel P. Tuck, Auctioneer, at the court house, Nelson, British Columbia, on Monday, the 17th day of March, 1902, at the hour of 11 o'clock in the forenoon, ALL AND SINGULAR that certain parcel and tract of land and premises, situate, lying and being in the Kootenay District of British Columbia, composed of Lot 241 in Group 1, and known upon the official plan or survey, of the said district, as the "Dellie" Mineral Claim, for the purpose of satisfying the plaintiff's judgment, which was obtained on the 15th day of February, 1902, for the sum of $5,761.97 and costs taxed at $24.14 with interest thereon at the rate of 5 per cent. per annum, since said date and the costs of these proceedings.

The purchaser will be required to make payment in cash at close of sale.

The purchaser will also be required to satisfy himself as to the interest and title of the defendants. The highest bidder will be the purchaser.

Further particulars may be obtained from the plaintiff's solicitors or the auctioneer.

Dated at Nelson, British Columbia, this 1st day of March, 1902.

T. A. MILLS.
Deputy District Registrar.

Elliot and Lennie, Plaintiffs' Solicitors.

IN THE SUPREME COURT OF BRITISH COLUMBIA

In the matter of the Winding Up Act, C. 129 of the revised Statutes of Canada and amending acts, and in the matter of the Athabasca Gold Mines, Limited.

NOTICE is hereby given that by order herein dated the 13th day of February, 1902, the Honorable Mr. Justice Irving was pleased to appoint Robert Garnet Tatlow, Esquire, the Provisional Liquidator, to be Official Liquidator of the above named Company.

Dated this 3rd day of March, 1902.

WILSON, SENKLER & BLOOMFIELD,
Solicitors for the said Official Liquidator.

IN THE SUPREME COURT OF BRITISH COLUMBIA

In the matter of the Winding-Up Act, C. 129, of the revised Statutes of Canada and Amending Acts, and in the matter of the Athabasca Gold Mine, Limited.

The creditors of the above named Company are required on or before the 14th day of April, 1902, to send their names and addresses and the particulars of their debts or claims and the names and addresses of their solicitors if any to Robert Garnet Tatlow, Esquire, Fairfield Building, Granville street, Vancouver, British Columbia, the Official Liquidator of the said Company, and is so required by notice in writing from said Official Liquidator, are by their solicitors to come in and prove their said debts or claims at the chambers of the District Registrar of this court at the court house in the City of Vancouver, at such time as shall be specified in such notice, or in default thereof they will be excluded from the benefit of any distribution made before such debts are proved.

AND NOTICE IS HEREBY FURTHER GIVEN that the first meeting of creditors in the above matter will be held at the offices of the undersigned solicitors for the said liquidator at 11 o'clock in the forenoon on Monday the 21st day of April, 1902, at which among other business to be transacted a resolution will be submitted to the creditors for their approval providing for the sale of the company's assets subject to the sanction of the court.

Dated this 4th day of March, A. D. 1902.

WILSON, SNEKLER & BLOOMFIELD,
Solicitors for the said Liquidator.
