SPEEDY END PROPHESIED

Exodus of Rossland Miners Is Now in Full Swing.

Public Gambling Stopped, Fire on Columbia Avenue, Rossland.

Rossland, B. C., July 17.—Predictions of an early settlement of the strike were freely made today, one man offering to bet $1,000 that the first of August would see immediate settlement in sight. As a matter of fact there is nothing in sight to justify the rumors, although a speedy arrangement would gratify everyone.

The report that No.5 furnace of the Northport smelter froze up is given an unqualified denial by Assistant Manager Thomson of the Rossland-Great Western, who says No. 5 furnace handled almost 400 tons of ore today without a hitch of any description.

The balance of the men employed at the War Eagle and Centre Star for July will be paid tomorrow. The exodus of miners is in full swing. The Spokane Falls & Northern office brought in City Ticket Agent Brandt from Spokane to help out with the rush. Everything is still quiet about the city. The police have stopped all public gambling as a precautionary move.

Fire did $1,500 damage in the Bailey block, Columbia avenue, tonight. The building was damaged several hundred dollars, the balance of the loss being on the stock of millinery carried by Miss Pretty. It was fairly well insured.

New York, July 1.—President William H. Truesdale of the Deleware, Lackwanna & Western R. R. made the following statement today with reference to the situation in the mines under the control of this road:

"There is no change in the situation since yesterday. Up to the present the strikers have succeeded in closing only six of the mines and we are not at all worried without them for we can fill the places of those who have struck at any time. However, the strike is not causing us any inconvenience. We shall take no steps at present but when we are ready we shall fill the vacant places and go ahead as usual."

Wilkesbarre, Pa, July 17.—The close of the second day of the stationary firemen's strike finds full 33,000 miners idle in the Wyoming district of the anthracite coal region which extends from Duryes to Nanticoke. The number of idle men was increased today by the suspension of railroad crews on nearly all coal branches. No coal is being mined, there is none to haul to the breakers, consequently there is no work for the railroaders. The total number of men idle now in the whole anthracite region is estimated at 65,000. There are 40,000 mine workers in the Lackawanna region but they are not all out. If the strike extends to the Hazelton, Schuylkill and Shamokin regions, 130,000 men may be idle before long. The tie up in this region is copmlete and the strikers are much encouraged. The hoisting engineers held a meeting in this city this afternoon and discussed the situation from their point of view. Although the meeting was secret, it is learned from pretty reliable sources that the striking firemen received the moral support of those present. It is almost certain that none of the engineers will consent to take the places of the striking firemen.

Pittsburg, Pa., July 17.—"We have not heard from the other side, at any time in any way, or on any subject, since we parted at Lincoln Hotel last Saturday." This is the statement made by the President of the Amalgamated Association this evening, which disposes of rumors from New York today that the strike had been settled. Mr. Shaffer stated further that no actual negotiations were on between President Bishop of the Ohio State arbitration board, and himself tending toward abritration. A letter received by Mr. Shaffer from Mr. Bishop, asking if he would consent to a reopening of the conference has no been answered as yet.

The principal events in the day's strike history were the failure of the sheet steel people to reopen the Wellsville plant with non-union men, the offer of financial assistance made to the Amalgamated Association by the 200,000 members of the American Federation of Labor and by the American Window Glass Workers association, the concerted action of the association to organize the immense steel plant at Vandergraft and the fact that several closed plants are being patrolled by armed watchmen and guards.

The Amalgamated officials tonight profess great satisfaction over the results accomplished, since the strike began, but officials of the company, as heretoofre, will say nothing.

Scranton, Pa., July 17.—Forty-one collieries employing 45,000 were thrown idle today by the firemen going on strike.

A HOME INSTITUTION.

The principle of supporting home industries and home institutions is a good one, and we all profess to be ardent supporters of it. Those who are happy in the possession of a modest sum to spare for investment can prove their truth by putting the principle into practice. An advertisement elsewhere in the issue announces that some prominent gentlemen at the Coast have incorporated themselves for the purpose of establishing the Century Life Insurance Company, with the head office at Vancouver. They are offering a quarter of a million of the capital stock for subscription, and invite applications. Among the provisional directors are two Nelson citizens, Mr. Frank Fletcher and Mr. Downie. The institution is a purely local one, and deserves encouragement on that account. We have an example of the success that may be achieved by well directed home effort in this direction in the Great West Life Company of Winnipeg, of which Mr. Macdonald of the A. Macdonald Co., is president, and Mr. H. R. Cameron is the Nelson agent. This is fast becoming one of the leading life companies of Canada, and the Century Life can be made equally successful If there is sound sense at the bottom of the policy of buying our groceries and dry goods at home, so there must be in paying our life insurance premiums to local companies.

GRAND FORKS COAL FIND.

Large Number of Acres Staked—Looking For Oil.

(SPECIAL TO THE MINER.)

Grand Forks, July 17.—Much excitement has been caused here during the last few days, owing to the fact that there has been discovered in the district a large area of coal lands, up the north fork of the Kettle river, about 60 miles. Joseph Wiseman, a prospector, discovered the find, about a year ago, but lost it again and did not succeed in relocating it until a few days ago. He reports that there are three seams of coal, averaging four feet in width on the west bank of the river. Samples tested in the forge and analysed at the smelter were pronounced to be real "black diamonds" and the lucky prospector located 1,920 acres for himself and his partners. Much excitement has been caused by the find.

The operations now on foot for the procuring of oil are progressing and there is every expectation that the oil wells will be an additional stimulus to the future prosperity of the town. Efforts are about to be put into operation to procure artesian wells as it is thought that there is a reasonable prospect that such can be procured without much difficulty. Several of the ranches in the vicinity are making preparatins for that undertaking as that is the only means of irrigation that they possess.

The railroad operations in the district, at the present time has caused a visible stimulus to the trade of the town. C. E. Kennedy and staff, chief engineer of the V. V. & E. are located on the ground. The contracts for the work are practically all let from Cascade through to Carson, from Fourth of July creek to Phoenix, and grading has commenced between Grand Forks and Republic. There is great activity in business lines and the presence of an another road in that locality, together with the coal excitement is attracting increased interest in that locality.

St. Saviours church choir spent a very enjoyable evening at the residence of the leader, R. M. McDonald, on Hoover street on Tuesday evening. All the members of the choir were present and the time was spent in music and dancing.

COMMISSION TO RENEW LABORS

Lord Pauncefote Says It Will Meet on His Return to United States.

Great Britain's Ambassador to Washington Talks to Newspaper Man.

London, July 17.—Lord Pauncefote, British ambassador to the United States made the following statement tonight to a representative of the Associated Press. "I am having a conference with the Marquis of Lansdowne, not only about the Nicaragua Canal, but also with regard to half a dozen treaties pending between Great Britain and the United States. These are chiefly concerned with West Indian reciprocity arrangements." When asked if he thought there was any possibility of arriving at an agreement regarding the Nicaraguan canal before Congress reconvened, he replied: "Yes, I sincerely hope so. We are now in the middle of negiotiations which although they have not yet reached any tangible result, show good promise. Naturally, I may not disclose the details, but I may say that, when I return to the United States at the end of October, I hope to take with me a Nicaraguan treaty that will meet the views of both President McKinley and the British cabinet. There is no use wasting time over treaties which the Senate is likely to refuse. I really believe the differences of opinion between the two nations are capable of settlement in an agreement fair to both. If I thought anything could be done before October, I would return prior to that date, but do not believe that anything would be gained." At this point Lord Pauncefote paid a warm tribute to the Americans "They are the most genial people on the face of the earth. At the first grip of the hand, they take you to their hearts. So long as you do not try to deal in an underhand way, and so long as you do not assume superior accounts, they treat you as one of their own and no one could say more than this."

Reverting to the report that a majority of the Senate favored a neutral canal, Lord Pauncefote said: "It would be good news if true, I happen to know that Mr. Hay consulted the Senate, both the section supposed to support him and the section credited with other motives. You may be sure that whatever is agreed upon between the two Governments will meet with the approval of the Senate."

He expressed sympathy with Mr. Hay in the loss of his son. When asked if the joint commission is likely to sit again, in Washington, he replied: "Yes, I think that it will, although this will not occur until after my return. The joint commission has threshed out many points of difference between Canada and the United States although the inability to agree as to the Alaska boundary and the sad death of Lord Herschel appears to nulify the commission's labors.

"I see that the Boston Chamber of Commerce has petitioned for reciprocity with Canada. This I regard as a most hopeful sign. It will be one of my aims when I return to the United States to foster this desire for a closer commercial relationhip between the Dominion and the United States. In spite of the trade difficulties of both Canada and Newfoundland in dealing with the United States, I by no means despair of effecting some sort of reciprocity scheme which, when the Nicaragua matter has been justly settled and the West Indian treaties have been arranged, will bring Great Britain and the United States even to a better basis of common understanding than exists today."

TO WRITE US UP.

English Newspaper Men Touring the Dominion of Canada.

There arrived in the city on Tuesday evening two of the representatives of the English press trio who are travelling through the Dominion of Canada, in the interests of the English press for the purpose of examining into the merits of the west as a desirable place for settlement for the people of the congested districts of the motherland. The party consists of the following gentlemen: G. L. Hughes of the London Daily Express; E. Tabernacle of the Morning Advertiser, London; R. Curphey, of the Isle of Man Times. They are accompanied by H. S. Conjden, of the Halifax Daily Chronicle. They are registered at the Phair Hotel. Mr. Conjden has been in the old country for the last eighteen months. In an interview with one of the gentlemen last evening a Miner reporter obtained a few particulars as to the movements of the party and the objects of their tour. They left the motherland on June 1 on the Capmania and commenced their tour of the west by landing at New York. From there they went to Montreal where they not only wrote up that ancient and historic city, but were written up in turn by the Montreal Herald and other leading dailies. They came as far as Winnipeg, and made a tour of the great prairie province of Manitoba, and appear to have taken in a fairly accurate observation of the country through which they have hurriedly passed. They are much impressed with the vastness and richness of the agricultural advantages of the Province of Manitoba and do not hesitate to declare the country is well adapted for that agricultural element in the old land who have an experimental knowledge of agriculture and who have in addition to their knowledge, a little bank account. Indeed, they almost go as far as claiming that the prairie Province offers advantages to the working men of England that even the much talked of Province of British Columbia does not possess. At the present time, however, they find Manitoba in her prettiest moods and brightest smiles.

They were much impressed with the experimental farm at Brandon, which gave them a fair idea as to the agricultural possibilities of Canada's wheat belt. They took in the Banff springs and then proceeded to the coast. From the coast they went to Seattle, Portland, and San Francisco. In visiting the navy yards at Mare's Island they mentioned, with natural British pride, that the most prominent positions in that portion of the United States service, were held by Englishmen. In San Francisco they were shown, by the courtesy of the chief of police, the Chinese quarters, which they did not stop to describe.

After leaving Nelson, where they will remain for a day or two, they will proceed to Toronto and the Maritime provinces. On the journey they will stop off at Edmonton and Prince Albert and then take in the ranching districts of the Northwest Territories. Their trip will extend over a period of four months. As they visit each district they are forwarding to the papers they represent descriptive letters of the districts they have visited, and the object of the letters is to indicate the value of the west as a field of emigration with advice as to the best districts in which to locate for the different lines of business they may wish to follow.

In their tour of inspection through the Dominion, their observations must be necessarily limited, as such cursory visits must be to a more or less extent of a somewhat one sided character as the true condition of things can, frequently only be truly understood by actual experience of the conditions. But what British Columbia most of all needs today, is the attention of the people of the country these people represent, to her resources. And if the result of their representations on the west and its gigantic and inexhaustible resources produces the effect of more accurately and emphatically arresting the attention of the Englishman, either as a capitalist or a workingman, to the possibilities of this and other parts of the Dominion as afield of investment and enterprise, their visit will be of a three fold benefit. It will build up the great west, relieve the situation in the motherland, and clothe the visiting journalists with glory and fame.

The Nelson representatives to the regatta, which will be held on Shawnegan lake, near Victoria, on the 26th and 27th, will leave by the 7.10 train this morning. This is the first time representatives of the Nelson Rowing Club have been sent to win laurels in regatta events outside of the district and the result of their efforts will be watched with interest by the Nelson citizens. The crew consists of Winters (stroke), Thomson (3rd), Ford (2nd), Day (bow).

The Rowing Club gave a very enjoyable dance at the Park Pavillion last evening.

THEIR PRAYERS ANSWERED

Kansas Drouth Relieved by by Welcome Rains Crop Assured.

British Casualties in South Africa Seven Men and Two Officers Killed.

Topeka, Kans., July 17.—The rains that have fallen in Kansas last night and today have practically assured a corn yield of 50,000,000 bushels and the yield may even be greater.

London, July 17.—The South African casualty list issued tonight indicates that sharp fighting occurred on July 14 near Zuurvlakte, 34 miles from Ailwal North. The British loss was seven killed, and two officers and 17 men wounded.

TO INCREASE FLEET.

(SPECIAL TO THE MINER.)

Victoria, B. C., July 17.—A report is current in Oriental ports according to arrivals on the Empress yesterday that the C. P. R. purpose placing two large ocean greyhounds on the Pacific, in opposition to Great Northern leviathians building on the Atlantic coast and intended for service between the Sound and Vladivostock. The rumor is that the Empress fleet will be operated on Asiatic waters, centralizing the commerce for the Orient from as far south as Hong Kong and as far north as Vladivostock at Yokohama from where the larger and faster ships of the fleet would transfer it across the ocean.

A NORTHERN JAUNT.

Premier Dunsmuir Will Travel Through Cassiar Constituency.

(SPECIAL TO THE MINER.)

Victoria, July 17.—C. W. Clifford, member for Cassiar, hopes to take a party north in a few days to visit his constituency. The Premier is likely to go, possibly with members of his family, and if so the steamer Joan, of Dunsmuir's fleet, will likely be requisitioned for the trip. She will land at Kitinaatand go up the Skeena to Hazelton passing through the district to which the government has promised a subsidy to a railway to build through. They will return to the coast and proceed to Skagway thence to Atlin. Mr. Clifford hopes to get other ministers to join the party.

WENT OVER THE LINE.

T. McManamon Says the Strikers Are Gaining.

T. McManamon, who has charge of the strike in this section of the C. P. R., returned last evening from a tour of inspection over the line from Medicine Hat to Revelstoke. He went out over the Crow's Nest to Dunmore, thence to Revelstoke and south to Nelson. He said that as far as any of the telegrams received saying that local committees wanted to end the strike were concerned that nothing of this nature existed. Within the last week all the committees in the sections traversed had sent in resolutions to the head committee at Montreal expressing their determination to stay out until a favorable settlement to their claims was made. He stated that not a man had gone back to work anywhere, except at Pembina and near Owen Sound, where they had been assured that the strike had been called off, and misled by false telegrams. Several gangs had gone to work, but sent off dispatches to Montreal and Winnipeg to make sure of the correctness of the messages received. On finding that they had been decieved the men had immediately quit work again.

He also said that the men were indignant at the action of the government in not enforcing the alien labor law, while any law which would operate against the strikers was strictly enforced.

TODAY'S BASEBALL.

The Northport baseball players arrived on the Spokane train last evening, and will meet the Nelson team today on the recreation ground. At a late hour last evening the Nelson team had not been placed. The following is the list of the Northport team and their positions: F. Middell, s. s. (capt); G. Knollman, l. f.; F. Phillips, c.; A. Wilson, p.; F. Lindsay, c. f.; W. Lindsay, 1st b.; E. Perrott, 2nd b.; H. Stone, 3rd b.; L Gordon, r. f.; J. G. Borden, manager.

ONTARIO'S MINERALS.

Toronto, July 17.—The annual report of the Ontario Bureau of Mines places the provincial mineral production in 1900 at $9,283,424 against $4,416,083 in 1899.

FATAL ACCIDENT.

Cleveland, Ohio, July 17.—A chain weighing four tons fell on six men in the Westinghouse Electric Company's works this afternoon. One man, B. German, died shortly afterwards and five others the are badly injured.

A FATAL SHOCK.

Canajoharie, N. Y., July 17.—Frank Beard, aged 34, a lineman employed by the Montgomery Electric Light & Power Co. here, was killed by an electric shock this afternoon. He was working on a pole and grasped a live wire of 2,200 volts. The flesh was burned from his hands. He fell 30 feet to the pavement fracturing his skull.

FIGHTING IN THE ORIENT.

Victoria, B. C., July 17.—News has been brought here of excursions of Russians into Szchaan from Thibet after fights with Thibetans in which the Russians appear to have been in danger of being worsted had they notbeen relieved by the good offices of Chinese officials.

COUNT TOLSTOI ILL.

St. Petersburg, July 17.—Newspaper and private despatches received here from Moscow represent Count Tolstoi as seriously ill with gastric fever and say his friends and relatives have been summoned to his bedside.

EXCITING TIMES.

Pekin, July 17.—Disorder and lawlessness have greatly increased in Pekin since the policing of the city was restored to the Chinese authorities. There are nightly burglaries by the large bands of depredators, while men in the employ of Europeans are frequently stopped and robbed. German military authorities here have arranged for the withdrawal of all German troops except the permanent establishment, early in August.

TROUBLES OF OLZEWSKI.

Paris, July 17.—The firing of a pistol shot at Pierre Baudin, minister of public works, while he was driving to a cabinet meeting yesterday, by Madame Olzewski has proved a "one day sensation." Explanations made today at the foreign office tend to diminish the sympathy for Madame Olzwski and her husband who say the act was committed in order to draw public attention to their poverty and misery. It appears the Olzewski's exaggerated the injury to their means of livelihood resulting from the arrest of M. Olzewski in Italy, charged with being a spy and for which Italy refused compensation on the ground that the arrest took place under normal conditions. The foreign office treated Olzewski well, giving him a position worth 5,000 francs a year. Instead of attending to his work himself, Olzewski farmed it out to others and thus reduced his income from it to 1,800 francs.

WHAT AGUINALDO SAYS.

Manila, July 17.—The organ of the Filipino insurgents in Madrid Filipinos Anteuropat, and published in that city, has printed an order from Aguinaldo, dated Palaman, January, which directs the execution of all American prisoners. When questioned about this order today, Aguinaldo said to the correspondent of the Associated Press that he was always considerate to prisoners and denied the authorship of the order in question. He claimed that many orders had been issued by insurgent military officers in his (Aguinaldo's) name without his sanction. The American military authorities have documentary evidence dated November, 1898, to the effect that the insurgent leaders contemplated creating a Philippine monarchy and nobility. Aguinaldo, when questioned, declined to discuss the matter.

The Knights of Phythias have arranged a moonlight excursion on the lake, which will take place on Wednesday evening next. The R. M. R. band will be in attendance and there will be a dance at Kokanee creek.

The result of the canvas for the support of the R. M. R. band concerts on Saturday evening, has been so successful that the concerts will be held every week, at the time arranged, weather permitting.

The Fraternal Order of Eagles of this city have arranged a picnic for the second day of August, to Kokanee creek. The R. M. R. band have been secured and will be in attendance.

MR. TURNER DISAPPOINTED.

A belated number of a Coast exchange contains a report of the discussion which followed the reading of the annual report of the Victoria Board of Trade. Among those who took part was the Finance Minister, Mr. Turner. Naturally he referred to the question of transportation, and in the course of his remarks expressed the disappointment that was felt at the failure of the Dominion Government to supplement the liberal bonuses to railway projects which were authorised by the Loan Act of last session. He was not without hope, however, that this would still be done.

Is it fair to infer from this that the apparent hitch in the arrangements with the Canadian Pacific Company for the construction of the Coast-Kootenay road is due to the reluctance of the Federal Government to further subsidise that Company to the extent of several millions? Is that the secret of the collapse of Mr. Dunsmuir's railway policy? This business Government of ours set out to do wonderful things in the matter of railway development, but beyond obtaining authority to borrow five millions the situation remains the same today as it was a year, or four years, ago. Nothing has been done. Mr. Dunsmuir desired to extend his own railway to the northern extremity of the Island, towards which he expected a liberal subsidy from the Dominion. Ministers at Ottawa were expected to respond to the declaration of policy made at Victoria by a declaration of sympathy and support, but by this time the "business" Premier has probably realised that this is not the usual course in such cases. A declaration of policy is valuable as indicating a Ministerial purpose, but to obtain a subsidy from the Dominion it is necessary to get down to details and to observe various formalities that are usually regarded as essential. Federal Ministers are not so eager to rush to the assistance of railway enterprises of a Provincial character. During his mission to Ottawa a few months ago it is believed that Mr. Dunsmuir took a private opportunity to sound the Dominion Government on the prospect of procuring aid for his railway, but it would appear without immediate or striking effect.

There is less uncertainty as to the friendly disposition at Ottawa towards the Coast-Kootenay project. Sir Wilfrid Laurier took pains to publicly declare that he regarded it as entitled to Federal consideration. Mr. Dunsmuir and his colleagues were assured in behalf of Messrs. Mackenzie & Mann that a Federal subsidy could be obtained if they were given the contract. Here is evidence that there was less reason for Mr. Turner's lament than he would have the people of Victoria believe. If a Dominion subsidy were all that was required to insure a Coast-Kootenay road, there is no reason whatever why that enterprise should not now be under way. But Mr. Turner and Mr. Dunsmuir preferred to risk the subsidy rather than give the contract to Mackenzie & Mann. They desired it to go to the Canadian Pacific, and when Mr. Turner was expressing the disappointment he felt at the failure of Ottawa to supplement Provincial aid he was inwardly referring to his regret that it had not come to the assistance of himself and his colleagues in their desire to make the Canadian Pacific complete masters of the situation. The Dominion Government will not help to rivet more firmly than ever the bonds of the railway monopoly that now has this Province in its grasp. That may be a disappointment to Mr. Turner and Mr. Dunsmuir, but it is not a disappointment to the people of British Columbia.

If Mme. Olive Schreiner is "imprisoned within a fence of wire netting which is protected by armed sentinels," as declared by "Ouida" in a letter to The London Daily News, we would be disposed to applaud Lord Kitchener for having the courage of severity in her case. "Ouida" thinks it is shameful, as her only offence has been to "espouse the cause of the Boers during the war." That is all the burghers have done. True, they have espoused it with rifle, while the gentler Olive's weapons have been her tongue and pen. But with these she has done more harm than a battalion of burghers, while it has been accomplished with a degree of offensive and irritating insolence which the authorities should not be expected to tolerate. The only intimation of her imprisonment that has appeared in this part of the world is this of Mlle. Louise De Ramee's but if true there will be neither profound nor general regret at the fact.

Mr. Carnegie trusts to the "honest pride by which his countrymen are distinguished" not to draw on his bounty of many millions to the Scottish universities, unless they are actually in need of assistance. It is almost too much to expect that "honest pride" to serve in all cases.

Mr. McBride says the "railway question is a most difficult one to deal with, particularly the Coast-Kootenay proposition." This means, put in another way, that Mr. McBride is beginning to discover that the ways of the political transgressor are hard. Honest, capable men, bent on serving the public interest, should experience no difficulty in dealing with the railway question. It is simplicity itself, if approached in the right way. But difficulties are apt to arise when the Government engages in intrigues to perpetrate a wrong and to buy up members to support it in doing so. The crooked path in politics may lead to success, but it is never without its dangers nor free from its anxieties. Stress is laid on the Coast Kootenay project, but if the Government had faced it with honest intent there would be no occasion now for this outbreak of disappointment and impatience on the part of Mr. McBride.

Certificate of Improvements
NOTICE.

"Dora" Mineral Claim, situate in the Nelson Mining Division of West Kootenay District.
Where located: on Craig Mountain, near Craigtown.
Take notice that I, John D. Anderson, P. L. S., of Trail, B. C., agent for Herbert Porter, Free Miner's certificate No. B 50139, intend 60 days from the date hereof, to apply to the Mining Recorder for a certificate of improvements, for the purpose of obtaining a Crown Grant of the above claim.
And further take notice that action, under section 37 must be commenced before the issuance of such Certificate of Improvements.
Dated this 1st day of July A. D., 1901.
J. D. ANDERSON.

J. C. GWILLIM, B., Sc.,
MINING ENGINEER.
Late of Geological Survey of Canada. Six years experience in B. C mining districts.
Baker Street Nelson, B. C.

FROM THE ANTIPODES.

An Australian Man Speaks of Baneful Effects of Labor Troubles.

Mr. and Mrs. Cock, of Sydney, New South Wales, Australia, arrived in the city on Tuesday evening and were guests at the Grand Central Hotel. Mr Cock has been engaged in mining for the past forty years and has been employed as a mine manager in the copper mines of Australia for the last twelve years They arrived at the coast a few days prior to their arrival in this city, and left on the Robson train yesterday afternoon. The object of his visit is to study conditions of the mining interests in this country. After leaving here they will visit the Boundary country and proceed to Montana and the Anaconda mining districts. From thence they will visit the old country and will return to their Australian home the latter part of the present year. Asked as to his impression of the country, Mr. Cock expresse himself as delighted and surprised at the rapidity with which the cities sprung up in the west. When he was informed that 15 years ago Vancouver was a vast, howling wilderness, and that ten years ago Nelson had scarcely an existence, he expressed much astonishment. As to the comparison of the conditions prevailing in the two countries, he stated that in his opinion they were similar, with the preference in favor of America. Speaking of the reasons that the mining interests in the west were suffering at the present time he gave it as his opinion that the case was owing to the prevalence of strikes. The frequency of strikes in British Columbia, and the uncertainty of the industrial conditions were scaring capital away from what would be otherwise, great and paying investments. Asked as to the remedy, he stated that he could see no other remedy than that of Government arbitration. That system had been adopted in New Zealand with successful results. Asked as to a comparison of the conditions of the working men in Australia and here he said that the very best of skilled miners in Australia could be hired for 7s. 6d. per day ($1.80). Board could be procured for $5 per week and everything else accordingly. He also stated that there are at the present time thousands of men in Melbourne, Sydney, and other places who were walking around looking for work. Speaking of the future of mining in America generally, and in British Columbia in particular, he claimed for it a great future, as soon as the industrial strife was at an end, but stated that he knew many capitalists who were living on the bank interest in preference to risking it in such enterprises where their investments were attended with such uncertainty. Referring to the Royal visit to the New Commonwealth, he stated that the party was received everywhere with the greatest enthusiasm, and during their stay in Sydney, the populace were most loyal in their reception. The great event of the year, however, was the grand Commonwealth celebration, during the early part of the year, when the people all over the Federated states jubilated and celebrated in the most demonstrative manner known to the majority of the Australians.

N. P. DIRECTORS.

New York, July 17.—The announcement was made by J. P. Morgan, in a formal letter addressed to Kuhn, Loebig & Co., J. P. Morgan & Co., E. H. Harriman and J. J. Hill in which Mr. Morgan says he submits the names given below as directors of the Northern Pacific railway in accordance with a memorandum signed on May 31 in which the composition of the board was to be left to him. He suggests that the new directors assume their duties as soon as possible. In conclusion Mr. Morgan says: "Every important interest will have its representative who will be brought in close touch with the situation as a whole and there should be no difficulty in reaching a conclusion that will be fair and just to all concerned and lead to the establishment of permanent harmony among the different lines. To this end I shall be glad to co-operate in such a manner as will seem desirable."

The directorate of the Northern Pacific constists of 15 men and the last list given out was as follows: Edward Adams, George F. Baker, Robt. Bacon, Dumont Clarke, Robert M. Gallaway, Brayton Ives, D. Willis James, John S. Kennedy, Daniel S. Lamont, Chas. S. Mellen, Walter G. Oakman, Samuel Spencer, Charles Steele, James Stillman and Eben B. Thomas.

A BIG COMPANY.

Albany, N. Y., July 17.—The New York Dock Company of New York city today filed with the secretary of state a certificate of incorporation. The capital stock of the company is $17,000,000 consisting of 170,000 shares of the par value of $100 each. Of this amount $10,000,000 is to be preferred, paying a 5 per cent. non cumulative dividend and the remainder common stock. The company is practically a reorganization of the Brooklyn Wharf & Warehouse Co., the assets and franchises of which were sold under foreclosure proceedings on June 11, 1901.

The lacrosse team had the best turn out and the most effective practice of the season last evening at the recreation grounds.

A dozen or so small boys, none of whom apparently can swim, frequently go in bathing on the beach at the old shipyards below town. A considerable part of their amusement consists in paddling around on small rafts, and as a wind blowing off shore would be almost sure to drift them out into the current, their parents would do well to prohibit such dangerous pastime.

SEVEN YEARS IN BED.

"Will wonders ever cease?" inquire the friends of Mrs. L. Pease, of Lawrence, Kan. They knew she had been unable to leave her bed in seven years on account of kidney and liver trouble, nervous prostration and general debility; but, "Three bottles of Electric Bitters enabled me to walk," she writes, "and in three months I felt like a new person." Women suffering from headache, Backache, Nervousness, Sleeplessness, Melancholy, Fainting and Dizzy spells will find it a priceless blessing. Try it. Satisfaction is guaranteed. Canada Drug & Book Co. Only 50c.

SHERIFF'S SALE.

Province of British Columbia, Nelson, West Kootenay: To Wit:

By virtue of two writs of Fieri Facias issued out of the Supreme Court of British Columbia, at the suits of The Merchants Bank of Halifax, and Miller & Richard, Plaintiffs, and to me directed against the goods and chattels of the Nelson Publishing Company, Limited, Defendants, I have seized and taken in execution all the right, title and interest of the said Defendant, the Nelson Publishing Company, Limited, in one Thorne Type Setting Machine, one Bothrel Press, one Pony Press, three Gordon presses, one wire stitcher, one ruling machine, one standing press, one paging machine, book debts, subscription list, office furnituie, stationery, stock in trade and all other goods and chattels now in the building occupied by the said Nelson Publishing Company, Limited, on Ward Street in the City of Nelson, B. C., to recover the sum of five thousand four hundred and thirteen dollars and eleven cents ($5,413.11) and also interest of thirteen hundred and forty-six dollars and thirty-four cents ($1,346.34) from the 3rd of May, 1901 until payment, and also interest on four thousand and fifty nine dollars and seventy cents ($4,059.77) from the 3rd of July, 1901, until payment both at the rate of five per centum per annum; besides Sheriff's poundage, officers' fees and all other legal incidental expenses; all of which I shall expose for sale, or sufficient thereof to satisfy said judgments, debts and costs, at my office next to the Court House in the City of Nelson, B. C., on Tuesday the 23rd day of July, 1901, at the hour of 11 o'clock in the forenoon.

An inventory of the goods and chattels to be sold may be seen at my office on and after the 18th instant until day of sale.

Note.—Intending purchasers will satisfy themselves as to interest and title of the said defendants.

Dated at Nelson, B. C., 15th July, 1901.

S. P. TUCK,
Sheriff of South Kootenay.

Where located: On the N. & F. B. Railway, 9 miles from the international boundary.

Take notice that I, J. D. Anderson, P. L. S., of Trail, B. C., agent for Charles A. Calzin, Free Miner's certificate No. B50,917, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of such Certificate of Improvements.

Dated this 5th day of July, 1901.

J. D. ANDERSON.

If there is anything you require, ask for it in the columns of the Miner.

Correspondence Papers We have several correspondence papers that are being more and more largely used by critical people as their real merits become better known. Among others we mention "Olde Dorchester Bond" and "Crown Parchment." These are put up in the various fashionable sizes. Their quality is the highest, style the most attractive, manufacture the most perfect, and they are always satisfactory. That's why exclusive people like them and why they ask for them. Other high-grade papers are: "Foreign Mail" and "Old Parchment Bond." Insist on having these names on the box. There is nothing else "just as good."

THOMSON STATIONERY Co. Ltd
NELSON. B. C.

Pianos to Rent at $7 per month.

THE CITY

On Saturday next the second shoot of the Canadian Rifle League will be held on the Rifle range.

The Terpsichorean Club intend giving a dance on Friday evening at the Lake Park pavilion.

The *Nelson Gun club* will hold its regular shoot tomorrow evening at 6.30 p. m.

The tramway company, yesterday notified the city that the latter's application to have the incandescent lights, put up on Baker street for the carnival, used each Saturday evening could not be complied with, the terms not being satisfactory.

The Cooks and Waiters' Union will hold a dance this evening at the park. As usual the tramway company will hold a car for the convenience of those attending until after the end of the dance.

The blowing up of the two mills of the Hamilton Powder Co. in the Province of Quebec will in no way interfere with the delivery of powder in this country as the company has several mills in the west.

A party of six men who have been stopping at Macdonald's boarding house, leave this morning for Ymir to do assessment work on their claims near there.

The new freight barge for the C. P. R. which is the first to be built at the present ship yards was put into commission yesterday. It has a carrying capacity of fifteen loaded freight cars.

The cause of the city lights going out Tuesday evening about 10 o'clock was a hotbox on the main shaft, necessitating a shut off of the power for a couple of hours.

If the Columbia can beat the Constitution and the Constitution can beat the Columbia, and both can beat the Independence, while the Shamrock I. can beat Shamrock II. and Shamrock II. can beat Shamrock I., we see no reason why Nelson shouldn't win today's ball game with Northport.

The Baptist Sunday school picnic will be held today to Kokanee creek on the steamship Moyie which will leave the city wharf at 9 a. m. and 2 p. m. In returning the last boat leaves Kokanee creek at 6.30 p. m. Adults tickets are 50 cents and children under twelve, 25 cents for the round trip.

E G. Maitland and T. G. Burke, who have been doing assessment work on the Minerva claim a couple of miles below town, came in last evening. The pay streak on the claim which was but an inch in width where they started has widened out to nine inches, and they brought in samples for assaying.

The new mechanical roaster at the smelter will be completed today. It is a double deck brick erection, measuring 100 feet in length by 16 wide and nine and a quarter feet high. Work was commenced on it early last month, and its completion will materially assist in handling a certain class of ore which is at present put through the hand roasters.

Members of the R.M.R. are requested to meet at the Armory on Friday evening next, at 6.45 sharp, in uniform for the purpose of attending the first drill of the season. It is specially requested that every member of the R. M. R. will turn out to drill on this occasion, as this is one of a series of exercises which have to be completed this summer.

A conference was held yesterday afternoon between Mayor Fletcher and W. Downie and other civic and C. P. R officials and several business men to decide upon the new location for the city scales. A place midway between McArthur & Co.'s warehouse and the freight sheds was selected, it being the most convenient available. The scales when erected will be protected from inclement weather by a shed, with office attached.

A meeting of the executive committee of the late celebration was held in Hugh Cameron's office lats evening and a final statement was made. The only subscription yet outstanding was $300 from the city, which will be paid today, when the balance of unpaid accounts will be settled. All the private and business house subscriptions were settled promptly, and today will windup all the business connected with the celebration.

An incident occurred a few days ago, which testifies to the efficiency of the Canadian postal service. A letter was addressed at Halifax to Mrs. Adjutant McGill, Salvation Army. Inside of seven days it was delivered to Mrs. McGill in Nelson.

The R. M. R. Band were served with their military costumes yesterday, but owing to the neglect of an un-Liberal Government in not forwarding a complete outfit, they will not be able to appear on promenade with them for some days.

The Methodist Ladies' Aid, held a strawberry and ice cream social at the parsonage grounds last evening. There was a large attendance and the proceedings were enlivened by the strains of the smelter band assisted by members of the Salvation Army band.

Mason work was to have commenced on the new postoffice block yesterday, but owing to a landslide the work was not in shape to start. A sufficient number of men were set to work to remove the earth and a couple of masons will commence to lay the stonework today. The force will be increased gradually as the work allows and in a few days it is expected that operations will be in full swing.

PERSONAL

Judge Forin left for Rossland yesterday to hold court and will return today.

Hughie Bates, mayor of Lemon creek, is in the city and is a guest of Geo. McFarland.

Adjutant and Mrs. McGill, left yesterday on the 7.10 train for Vancouver, where they will in future reside.

Adjutant Alward and his wife are expected to arrive from Spokane to night to take charge of the local corps of the Salvation Army in this city.

Dan Crawford, who has charge of the construction of the buildings at the Arlington mine, Erie, is in the city and is a guest at the Madden house.

Alderman Madden was not in his accustomed place at the City Council meeting on Monday evening on account of the fact that he is on the sick list.

P. Emerson and James Neelands have sold the Office Saloon to W. R. Thompson, who runs the bars on the Columbia river steamers.

Mr. Macdonald, superintendent of construction on the postoffice and Inland revenue offices has moved his office into the building lately occupied by Spear's bakery.

Mr. F. W. Hart, of Greenwood, one of the pioneers of Dawson City, is in Nelson. He spent two years in the Klondike and was the first man to put in a stock of furniture in Dawson City.

W. C. Young, of Spokane, arrived in the city this week for the purpose of commencing services in the interests of the Seventh Day Adventists. It is their intention to conduct service in a tent on the corner of Baker and Hall, if the lot can be procured.

Geo. B. Lockhart, Jr., of Charlottetown, P. E. I., general manager of the Charlottetown Condensed Milk Co., is in the city in the interests of the firm he represents and has just completed a tour of the coast cities where he has been successful in securing for his firm a large order for the Oriental market.

Mr. Joseph H. Seagram, son of Joseph E. Seagram, M. P., of the Waterloo, Ont., distillery fame, is in the city. He is accompanied by Dr. Bowlby, son-in-law of the latter, and Mrs. Bowlby. They are touring Canada and leave today for the coast. They came in over the Crow's Nest and will go east by the main line.

A RAGING, ROARING FLOOD

Washed down a telegraph line which Chas. C. Ellis, of Lisbon, Ia., had to repair. "Standing waist deep in icy water," he writes, "gave me a terrible cold and cough. It grew worse daily. Finally the best doctors in Oakland, Neb., Sioux City and Omaha said I had Consumption and could not live. Then I began using Dr. King's New Discovery and was wholly cured by six bottles." Positively guaranteed for Coughs, Colds and all Throat and Lung troubles by Canada Drug & Book Co. Price 50c.

Midsummer sale of Dry Goods and Millinery at Kerr & Co.'s.

HORSE HURTS.

As an effective healer for sprains, curbs, galls, splints, sore throat, coughs, swelling, soreness or inflammation in horses or cattle Griffiths' Liniment has proved a supreme success—as good for the horse as for his master.

P. H. Ritchie & Co., ranchers in Vancouver, B. C., say: "We consider Griffiths' Menthol Liniment unequalled for horses. One of ours had a bad swelling on the left leg, which was swollen to an immense size. We applied the Liriment and in two days the swelling had left him. We have tried many liniments, but have found nothing to equal it.

For sale by J. H. Vanstone, Nelson, B. C.

SECRETARY-TREASURER.
H. C. R. Cannon, Esq., Vancouver, B. C

In following the practice of other Life Companies, this stock will be sold at a premium of 25 per cent. to prevent an impairment of capital at the close of the first year. This will give an immediate surplus sufficient for organizing and other expenses.

There is no inside track in procuring this stock, the promoters and others paying exactly the same price for all stock held.

2,500 shares are now offered to the public, the other 2,500 shares will not be disposed of at the present, as the money will not be required, the capital stock being simply a guarantee fund to the policy holders, $50,000 or over being at once deposited with the Dominion Government as an evidence of good faith and sound financial standing. As the Company grows, a yearly sworn statement has to be made to the Government Insurance Department, and a proper reserve held in approved securities or cash to cover all outstanding liabilities to its policy holders. The investment in any speculative sense is not allowed of the Company's funds.

Applications for shares may be made to C. A Lett, Managing Director pro tem, Vancouver, B. C., and H. C. H. Cannon, Secretary-Treasurer, or to any branch of the Bank of Montreal in British Columbia, and should be accompanied by a remittance for the amount as explained below.

It is intended to make but one call of 25 per cent of the amount subscribed, with its share of the premium, thus:
1 Share, $100. Amount $25 00; Premium, $6.25; Total, $31.25.
Any number of shares will be a multiple of this. 10 per cent to be paid on application and the other 15 per cent on allotment.
