CALLED OUT THE TROOPS

Scenes of Tumult in French Chamber of Deputies

Fighting Freely Indulged in By Members

Paris, Dec. 6.—The chamber of deputies was the scene of violent disturbances this evening.

During a great melee which occurred in the space in front of the tribune it was found necessary to summon the military commandant of the Palais Burbon with a platoon of colonial infantry who forcibly ejected two disorderly members who declined to retire after an order for their temporary expulsion had been voted.

The affair was the outcome of intense feeling which has been aroused lately between the government's supporters and the minority. The government had desired to close parliament today for the holiday recess and this was resisted by the minority on the ground that the chamber should remain in session to discuss the budget. The feeling was intensified when revisionist deputy Gauthier made a savage attack on the government for its laxity in prosecuting the parties connected with the Humbert scandal. Even worse than this scandal, he declared, was the state of anarchy existing within the courts, within the police, and within the government. He called on minister of justice Walle for an explanation of the affair.

The minister made an emphatic rejoinder declaring that the scandals of the republic were far less numerous than those of the empire which still lived in memory. He closed with the assertion that Frederick Humbert had been a Boulangist deputy. This immediately threw the chamber into a violent tumult, the members from the right shouting indignant denials. Amid the din deputy Boutet, socialist, exclaimed that minister Walle's statement was a lie and was known to be a falsification of facts.

President Bourgeois sought to restore order, but in vain. The minister of justice, who had taken the tribune, was unable to proceed on account of the tumult and resumed his place on the ministerial bench.

The group of ministers now became the centre of an angry demonstration.

M. Sylveton, nationalist, made his way toward the ministers and addressed them with angry imprecations. The friends of the ministers and the members of the left gathered in the right space before the tribune, and near M. Sylveton, and the latter was seconded by scores of deputies from the right. The two angry elements surged back and forth exchanging blows with clinched fists, and for several minutes this scene of riotous confusion continued.

Premier Combes at last left his ministerial colleagues and mounted the tribune in the hope that he could be able to read a decree of the government suspending the session, but deputy Boutant already held the tribune and refused to vacate it. The premier appealed to president Bourgeois, who ordered Boutant to descend but the latter again refused and M. Combes withdrew, and four guards were summoned to conduct M. Boutant from the tribune. In the meantime the disorderly scenes on the floor continued. Finding it impossible to restore order, president Bourgeois declared a recess.

EXPLAINS HIS OPPOSITION

ALD. SELOUS TELLS WHY HE VOTED AGAINST BY-LAW.

THINKS PROJECT TOO AMBITIOUS AT PRESENT TIME.

Editor The Daily News: I am glad to see that you for one appreciate the importance of the proposed Electric Light Extension by-law.

As you remark in your issue of yesterday, many citizens appear to have given it little or no attention.

With a view to bringing the matter more prominently to the attention of the public, I venture to make a few general remarks.

Rightly speaking the city paid out $12,000 and took in $24,000 on its electric light system this year, showing a profit of about $12,000.

What will be the city's position, assuming for the sake of argument, first, that the city can secure the desired site; second, that an electric plant as proposed has been erected within the estimate?

I estimate the expenses of the new plant—

Interest and sinking fund	$12,500
Maintenance, etc	11,500
	$24,000

And the receipts for the first year—

Receipts as per 1902	$24,000
Twenty per cent. increase on account increased efficiency and sale of power	4,800
	$28,800

Showing a profit of $4,800 as against $12,000 for the present year by the present methods.

I know that the city's existing plant is on its last legs and cannot long continue even its present efficiency, but by extending our present arrangement with the Bonnington company and taking the whole of our power from them if necessary, the showing of 1902 would be kept up or even improved.

There is another aspect of the question which must not be neglected, however unpleasant it may be to face it.

Looking to the unsatisfactory conditions now prevailing in British Columbia generally, and in West Kootenay in particular, is it wise for the city of Nelson to pledge her credit for this large sum? It is no use blinking the facts that the country is not in as satisfactory a condition as it was a year ago, that the prices of the minerals we produce are not as high as they were a year ago; that the population of Nelson is not as large as it was a year ago.

Just as a ship's captain shortens sail as he sees the barometer fall, so should a city council, when they see troublous times ahead, curtail expenses, and refrain from pledging the credit of the city.

I claim that the safe, conservative policy of the city council would be to wait a year or two years, till good times return, and things generally revive before entering into a scheme of this magnitude. I claim, further, that under any circumstances the proposal to borrow $150,000 for the purpose of building a plant on the strength of an unchecked estimate, based on a problematical site, is both hasty and unbuisness like

HAROLD SELOUS.

Nelson, December 6th.

SUPPLY LESS THAN DEMAND

SHORTAGE OF LABOR THROUGHOUT THE CENTRAL WEST.

RAILRAODS AND FACTORIES ARE GREATLY HAMPERED.

Chicago, Dec. 6.—Never in the history of the central west has the general demand for labor been greater, nor within the memory of the oldest business men has such a scarcity of wage earners existed. The conditions are unprecedented. As a result, industries are suffering, in that they cannot operate to capacities warranted by the conditions. Manufacturers are offering the greatest inducements to labor in the history of their operation. Hundreds of the largest and hardest pushed concerns in the central west have found that their only salvation lies in the importation of labor from the east, where, according to the westerners, the activity is not nearly so great. They have been able to obtain some relief from this source.

All lines of trade are being pushed as never before, and, instead of diminishing, the activity seems to grow more pronounced. Students of the commercial and industrial situation in the central west say present conditions are assured for a year to come.

Railroads having terminals here are greatly hampered.

Within the last month 3,000 railroad laborers have been imported to this city from the western sections, but the number seems to have made little impression. The railroads say they should have 20,000 more men, but despair of getting them. The employment agencies, especially those having contracts to provide labor to the railroads, have taken off their fees to applicants— of whom there are few—and notified the state labor bureaus to send all the help they can muster to them. They have sent notices to other cities that they will pay for transportation to this city, but the conditions elsewhere stand in the way of a realization of their desires.

The scarcity of labor is not confined to the railroads or any line of business, but is general in the broadest sense of the word. Many a housewife is doing her own work because of the dearth of domestics. In no other field is the shortage of help more pronounced. The general average wages for domestic help has increased, but girls who formerly worked in homes are more content with labor in factories and stores. Boys are needed everywhere, but cannot be found. The scarcity of boys and girls has become to the business men a hard problem to solve. Thousands of youngsters that were compelled to assist in the maintenance of their families in former years are now enjoying the benefits of the schools.

Another strong indication of the betterment of the laboring classes is shown in the statistics of the charitable organizations. Within the last few months the calls for assistance from needy families have been few and scatered, and have come chiefly from families rendered penniless by illness.

THE CUP DEFENDER.

Work on the New Boat is Well in Hand—Some Details.

Bristol, R. I., Dec. 6.—Work on the new America cup defender at the Herreshoff shipyard is fully two weeks ahead of similar construction on the Constitution two years ago. Mechanics are now preparing the lead keel for frame fitting. The first bronze streak, called the keel plate, will probably be set this coming week. Preparations are being made for casting the stem and stern posts. Both will be of gun metal.

Like the Constitution the new yacht will have a balanced rudder, the frames of which have been cast. In the sail loft, a mainsail was cut today. Some of the Constitution's sails are being overhauled and changes will be made in the lighter ones.

LIPTON PLEASED.

Shamrock III. Looks Every Inch a Winner—Trial Races.

Glasgow, Dec. 6.—Sir Thomas Lipton, after an inspection of Shamrock III. today, said: "I am delighted with the extent and nature of the work already done. The yacht is entirely framed and Messrs. Fife, Wringe and Sharman Crawford all agree that she looks every inch a winner."

The trial races of the new yacht will begin at the end of April. The first will be made on the Clyde, another in the Solent and a third again on the Clyde before the yacht is dismantled. It is stated that the trial races of Shamrock III. in American waters will probably be against Shamrock II., but if this is not possible Shamrock I. will be taken across for the trial races with the new challenger.

ON THEIR WAY.

Representatives of the King at the Coronation Durbar.

Cairo, Dec. 6.—The duke and duchess of Connaught, who are on their way to India as representatives of king Edward and queen Alexandra at the coronation durbar and lord Cormar, British diplomatic agent in Egypt, arrived here today. The khedive received the visitors upon their arrival. British and Egyptian guards of honor and bands escorted the khedive and the duke in their drive through the crowded streets. The khedive had previously granted an audience to colonial secretary Chamberlain.

THE RICE MURDER CASE.

New York, Dec. 6.—Argument on the motion for a new trial for Albert T. Patrick, convicted before recorder Goff and a jury, of the murder of William Marsh Rice, was continued today.

It was agreed by both sides to present all their evidence in the form of affidavits to be ready next month. An adjournment was taken until Monday .

A SIX-DAY BICYOLE RACE

STARTS AT MIDNIGHT IN MADISON SQUARE GARDEN.

WORLD'S MOST FAMOUS RIDERS WILL COMPETE.

New York, Dec. 6.—Promptly at midnight tomorrow night, at the crack of the pistol, there will be started on the specially constructed track in Madison Square Garden a score or more of the world's most famous bicycle riders, who, in a ride for glory and gold will travel at their utmose speed for twelve hours out of the twenty-four from then until next Saturday night. The men represent as many teams of two riders each that have entered in this winter's six-day race.

Interest in this year's race centers around McFarland and Maya. This was the winning team in the Boston six-day race last winter and is the only team from the three races of last year which remains intact for the big event.

Elkes, the partner of McFarland in 1900, when the pair won the big race, is teaming with Eddie Bald this year. Wilson, the partner of Maya, in second place last winter in New York, is not a starter this year. Walthour is another prominent racer who is not to be seen in the coming contest, and his mate in first place last year, McEachern, is dead. Nat Butler has Charles Turville for a partner this year, and Jed Newkirk is mated with Jacobson of New Haven.

The foreign contestants include Gougoltz and Kaser, both of whom have ridden here before; Bruni and Buisson, the former the winner of this year's Paris-Bordeaux race, the blue ribbon cycling event of Europe; Teller and Dorflinger, Germany's two best representatives; Lostens and Barasquin, and Darragon and Breton.

TROUT LAKE NOTES.

The Great Western mines have now at their warehouse about 175 tons of ore taken from the Nettie L. and Silver Cup properties. At the latter property on the Sunshine ground an air compressor plant will be installed within the next month or so.

Work at the American is making remarkably good headway, the men are now in in both tunnels; in the lower to within 25 feet of the point which the recent survey of the lead shows it to be, and in the upper to within a point 30 feet of the chute. Up to the present the company has completed 950 feet of work, and while they are in a position to ship, should they so desire it, they will not do so until the present scheme of development has been consummated.

SPOKANE COAL DEAL.

The biggest coal deal ever made in Spokane has just been closed by the East Crow's Nest Coal & Coke Company, who have purchased 540 acres of as fine coal lands as can be found in the territories. The lands are in Alberta and consist of nine seams of workable bituminous coking coal. The directors and principal owners in the new company are A. L. Paine, Frank Davenport, Robert Ewart, F. Mason and A. S. Crowder.

HARD TIMES.

Russians Anxious to Work for Seventeen Cents a Day.

St. Petersburg, Dec. 6.—Lack of employment is causing unprecedented distress in the interior of Russia. In Saratoff workmen eagerly accept about 17 cents per day, hosts of beggars literally invade the shops and houses and the streets are filled with sick and starving people. Similar pitiful details come from other interior cities.

OCEAN SERVICE FOR GRAND TRUNK

London, Dec. 6.—The docks' committee of Bristol announces that the Grand Trunk railway begins today a fortnightly service between Portland, Maine, and Avonmouth, using three of the Ocean Transport Company's steamers.

C. P. R. TRAFFIC RECEIPTS.

Montreal, Dec. 6.—The C. P. R. receipts for the week ending November 30th, were $1,152,000; for the same week of last year they were $1,048,000.

DEATH OF MRS. WALKEM.

Word was received yesterday of the death in Victoria, on Thursday evening, of Mrs. Walkem, wife of Mr. justice Walkem.

ROSSLAND'S SHIPMENTS

Will Show a Net Increase of 60,000 Tons

Tests at Silica Are Giving Good Results

Rossland, Dec. 6.—The production of ore in this camp for the present year to date is now almost forty thousand tons greater than for all of 1901, and the prospect is bright for a net increase on the present year's operations of fifty-five to sixty thousand tons.

Much interest has been created during the past week by the arrival in the camp of an official of the company controlling the Elmore oil process for Canada, and his announcement of the construction at once of an experimental plant. The programme is to carry on tests during the winter months in order that results may be known in the spring, when further building operations may be inaugurated if the outcome is satisfactory.

The War Eagle and Centre Star mines are proceeding steadily with concentration experiments, and the tests are of a very gratifying nature, although no statistics have been divulged as yet.

Shipments for the week ending tonight are: Le Roi, 3,790; Centre Star, 1,800; War Eagle, 1,140; Giant, 50. Total for the week, 6,780, and for the year to date, 317,460 tons, an increase over 1901 to date of 38,327 tons.

CENTER STAR'S FUTURE

VICE-PRESIDENT BLACKSTOCK ON THE MINE.

SAYS PROSPECTS WERE NEVER SO BRIGHT.

Vice-president Blackstock has by no means lost faith in his British Columbia mining enterprises. In fact it may be said he is more confident than ever of the future of the Center Star and the War Eagle. Of course he fully realizes that many Canadians, and more especially his fellow citizens suffered severely in the mining slump of two years ago, but he has great hopes of the future.

In a recent interview he said: "The report of the Center Star company lately issued to the shareholders was not so very disappointing. Mr. Kirby's report is well worth studying. He is not an optimist by any means. He speaks of things exactly as he finds them. I take it now that the Center Star is in a better position than it ever was." According to Mr. Blackstock it would be about three years before the mine was on a dividend paying basis.

Within a year from now the company would have erected a concentrator in Rossland to treat the ores of the Center Star and War Eagle mines, thus effecting a great saving to the comapny.

The shares of the Center Star are widely scattered. A number of Scotch capitalists paid as high as $1.50 for their holdings, while today the best price that can be got for them is 30 cents Mr. Blackstock says he cannot understand this low price. He evidently considers the shares dirt cheap at the present figure. Four years ago a Montrealer, representing a syndicate of capitalists, made a bid to Mr. Blackstock for 1,000,000 shares of Center Star at $1 a share. The offer was refused. A week later Mr. C. R. Hosmer made a bid of $1.25. He got the shares. Within a week from the purchase Mr. Hosmer had disposed of the entire lot at $1.50 per share, thus netting a clear profit of $250,000. The buyers still have them.

JOHN DILLON

The Irish Leader Well Again But is a Trifle Weak Yet.

Chicago, Dec. 6.—Duly restored to his normal health but still a trifle weak from his illness, John Dillon, the Irish leader, left Chicago for New York this evening.

"Mrs. Dillon," he said just before his departure, "sailed for New York when she received the news of my illness and is due to arrive tomorrow morning. Fortunately my illness was merely a congestive chill, complicated with liver trouble which yielded to treatment. Mrs. Dillon and I will remain in New York one week. I expect to spend Christmas at my home in Dublin and shall rest there until the session of parliament in February."

U. S. PENSIONS.

House Appropriated $159,000,000 Without a Word of Debate.

Washington, Dec. 6.—The house today passed the pension appropriation bill carrying $139,000,000 without a word of debate and devoted the remainder of the day to the passage of bills on the calendar.

It was agreed before adjournment that the London dock charge bill should be considered and voted upon on Monday.

GIGANTIC TUNNEL.

Great Scheme Finally Finished—Has Cost $1,250,000.

Cleveland, Ohio, Dec. 6.—The last spadeful of earth that separated the workmen engaged in digging the two sections of the big water works tunnel under lake Erie wes removed today, and after six years continuous labor the tunnel is practically completed.

Its purpose is to supply the city with pure water from an intake crib five miles out in lake Erie. Since the work began 50 lives have been lost from explosions and other accidents.

The tunnel is 100 feet below the bottom of the lake. It is 9 feet in diameter and 12,000 feet in length. When fully equipped, its capacity will be 200,000,000 gallons of water a day. The construction of the tunnel cost $1,250,000.

ITALY HAS CLAIMS.

London, Dec. 6.—A special despatch from Rome says that two station cruisers have been ordered to be put in commission for immediate active service. These vessels, the despatch adds, are thought to be going to Venezuela. It is believed in London that the report of the preparation of the Italian cruisers arises from the fact that Italy has claims against Venezuela and that a delegate of president Castro was in Rome this week endeavoring to reach an agreement with the government in the matter of these claims.

FOR ACTIVE SERVICE.

London, Dec. 6.—A special dispatch rom Rome received here says that two station cruisers have been ordered to be put in command for immediate active service. It is believed the ships are going to Venezuela.

THE STUDENTS OF TRUTH

ARTHUR DENTLY WORTHINGTON AT LAST CONVICTED.

HE DEFRAUDED A YOUNG WIDOW OF $5,000.

London, Dec. 6.—Mail advices from Australia announce that Arthur Dently Worthington, well known in the eighties in Salt Lake, Texas, Detroit, and Canada, in connection with the religious sect called the Students of Truth, and who absconded from Charleston in 1886, has now been convicted and is awaiting sentence at Melbourne, for having defrauded, under false pretences, the sum of $5,000 from a young widow there.

Worthington passed as a clergyman and is alleged to have duped many Australian women in connection with the sect which he founded in the United States.

WAS DEPORTED.

An Italian Brigand Sent Back to His Own Country.

New York, Dec. 6.—Lavore Lavorie, a self confessed Italian brigand, was deported today on the Phoenicia by order of commissioner of immigration Williams. He came here last June on the Italian liner Umbria, and has been living in Brooklyn Italian colony ever since.

The immigration authorities were notified recently that he was once a brigand and had served a nine-year sentence in Italy for murder. The treasury agents looked up his record and after locating him had no trouble in getting him to acknowledge the charges.

NEW COAL MINE EXAMINERS

The last provincial Gazette contains the apointment of the following persons as members of the board of examiners at the coal mines written opposite their respective names:

Joseph Prhys Planta, Nanaimo, Nanaimo mine.

William Johnston, Comox, Comox mine.

William G. Simpson, Ladysmith, Wellington Extension) mine.

Andrew Colville, Fernie, Coal Creek mine.

J. K. Miller, Morrissey, Morrissey mine.

Evan Evans, Michel, Michel mine.

Such appointments to take effect on the 1st day of January, 1903.

TOUCHED A LIVE WIRE.

Binghamton, N. Y., Dec. 6.—Edward Biever, aged 25 and unmarried, of Newark, N. J., a line man, was killed here today by a live wire. He had just climbed the pole when his hand touched a live wire. He fell forward and balanced on a cross-arm. He was not dead when lowered to the ground, but died soon afterwards.

NORTH NANAIMO CONTEST

ANOTHER VERSION NOT FAVORABLE TO W. W. B. McINNES.

SOCIALIST LABOR CANDIDATE MAY DEFEAT HIM.

Nanaimo, Dec. 6.—The Hon. W. W. B. BMcInnes will have a very hot fight in North Nanaimo and his defeat is a foregone conclusion. The population there consists of two classes, farmers and miners. The old-timers among the farmers are stoutly opposed to the provincial secretary on account of his extraordinary attitude last session in the matter of the settlers' rights when he seemed to do his best to hinder Mr. J. H. Hawthornthwaite from obtaining justice for the pioneers of the E. & N. belt. The younger generation are equally disgruntled for reasons of a local, but in this matter, important nature. The distribution of patronage has been distributed in a manner calculated to incense farmers, and the fact that South Nanaimo was last year allowed the privilege of electing road foremen while this was denied North Nanaimo, will tell heavily against Mr. McInnes.

The miners are also divided into two classes, those who have removed from Wellington to Ladysmith and those who still reside at Northfield, East Wellington, on the outskirts of Nanaimo city. The great majority of the former group disliked their forced removal from Extension to Ladysmith, and the onus may have to be borne by Mr. McInnes. The miners elected Mr. Dunsmuir once, but, as one of them put it, they are not likely to elect him again, nor can they see any proctical difference between electing Mr. McInnes. From East Wellington and Northfield came the greatest opposition to Mr. McInnes' last election, and it is certain that the opposition has only been intensified with the lapse of time. Mr. McInnes has made few new suporters in his constituency since he was returned in 1900, and on the other hand he has, in local opinion, alienated numbers of his old ones by his course in the house. Again, many of those who remained loyal to him down to the reconstruction of the government resent his abandoning Mr. Martin. It will be remembered that it was, to a large extent, the Martinite vote on which he was returned at the general election and it is stated on good authority that, with the announcement of his defection from his chief, he lost a solid body of at least fifty devoted adherents of Mr. Martin.

Mr. J. H. Hawthornthwaite has announced that a strong labor candidate will be put in the field. At present the choice lies among several men, any one of whom would be a formidable opponent, even were not Mr. McInnes' position already undermined. Those who best understand the somewhat complicated situation declare that, irrespective of the candidate chosen to opose him, Mr. McInnes does not stand a ghost of a show of returning to the house.

GREAT ADVANCE IS MADE

BOUNDARY SHIPMENTS SHOW A LARGE INCREASE.

OVER TWENTY-FIVE PER CENT MORE THAN IN 1901.

Phoenix, Dec. 6.—(Special to The Daily News.)—With the figures for eleven months to hand, it is now next to absolutely certain that the output from the Boundary mines for the year 1902 will be considerably over a half million tons, valued at between two and three million dollars. This is more than an advance of twenty-five per cent on the record for 1901, and this, nothwithstanding the disadvantages under which the Boundary mines have been worked, through no fault of their own or the managements, during several months of this year.

During the month of November the Boundary's "Big Six," namely, the Granby mines, Mother Lode, Sunset, Snowshoe, B. C .mine, and Emma, shipped over 50,000 tons of ore, as they did in the month of October, although the combined total is not quite as high as for the month of October. The daily average, however, amounts to shipments of over 1,700 tons, including Sundays. All but a couple of thousands of tons of this ore was treated at the three Boundary smelters.

Neither the Granby mines nor the Mother Lode shipped quite as much ore in November as in October, but the difference is not material. The Sunset, B. C. mine, and Emma also did not send out quite as large a tonnage, but the Snowshoe exceeded its October record somewhat.

In the following table will be seen the shipments of each of the six leading Boundary mines for the months of October and November, as nearly as could be ascertained:

Mine	Oct.	Nov.
Granby mine	21,951	20,633
Mother Lode	20,768	19
Snowshoe	4,290	4,860
B. C. mine	3,380	3,090
Emma	2,825	2,225
Sunset	2,400	2,100
Total	55,614	52,126

There was every reason to believe that, during November the Granby smelter would have gotten its power and coke supplies arranged for, and that the tonnage would be thus materially increased for that month. This, however, has now been actually accomplished, and if the Sunset smelter gets its second furnace in working order by the 15th of December, as anticipated, the total output of Boundary mines for the month of December should be somewhere in the neighborhood of 75,000 tons, in which case the total output of ore for the entire Boundary for the complete year 1902, will exceed 525,000 tons.

EX-SPEAKER REED

Succumbed to His Recent Illness Late Last Evening.

Washington, Dec. 6.—Ex-speaker Reed is dead.

[Thomas Brackett Reed was born on the 18th October, 1839. He was educated at the public schools of Portland, Maine, and at the Bowdoin college. He was A. A. Paymaster U. S. A., 1864-65; member of house of representatives and senate of Maine 1868-70; attorney-genreal of Maine 1870-73; M. C. 1st Maine district 1876; speaker of the house 1889-91; speaker 1895-99.]

DIED IN PARIS.

Chicago, Dec. 6.—Mrs. Alice Freeman Palmer, formerly president of Wesley college and at one time dean of women at the University of Chicago, died suddenly in Paris today.

MRS. GORE'S DEATH.

Paris, Dec. 6.—The Journal Francais says that Jean de Rydzowski will be prosecuted on a charge of homicide through imprudence for causing the death of Mrs. Ellen Gore.

AN ENDEAVORER DEAD.

Kansas City, Mo., Dec. 6.—Thomas Jones, a well known lawyer, was found dead in bed here. The coroner decided that he died from natural causes. He was vice-president of the World's Christian Endeavor Association.

COLD IN GERMANY.

Berlin, Dec. 6.—The bitterly cold weather which prevails throughout Germany has caused various municipalities to vote contributions in aid of the unemployed. Dresden has just voted $25,000 for this purpose.

MINE WORKERS SCORED WELL

Company Stores and Their Unfair Methods

Only Paid Cash Wages Once In Seventeen Years

Scranton, Pa., Dec. 6.—The miners, having finished their attack on the Coxe mines in the Hazelton region, today turned the attention of the commission to the collieries of G. B. Markle & Co., in the same locality. The witnesses for the mine workers scored what appears to be telling points with regard to wages and other conditions prevailing in the mines of this independent company. The attorney for the company was not prepared to cross examine the witnesses on all the things they tesified to, and the commission has granted the company the privilege of re-calling the witnesses.

The principal witness called against the Markle Co. was James Gallagher, who worked in the Markle mines for 30 years. He claimed the wages were so low that he was always in debt to the company, and that in 17 years he only once received money in wages, and that was $50. He also testified that he had to deal with the company's store, the only place where the miners could get credit and that the prices were from 10 to 20 per cent higher than in other places. Mr. Gallagher said he was evicted from his house and that he was refused his position by the company. He did not know why the company would not take him back unless it was because his son was the secretary of the local union. In answer to another question he said the prices at the company's stores were from 10 to 20 per cent higher than at other stores. He had made as high as $70 a month, but this was eaten up in paying his debts to the company. When he was clear of debt the company gave him a bad place to work in until he was again in debt.

The arbitration plan of the Markles was taken up in the examination and Mr. Gallagher said that the arbitration agreement was attached to the lease for his house and he did not know he was signing such an agreement when he put his name on the lease.

The witness kept the court in good humor by his wit and sharp answers to the questions put by the lawyers.

A 12-year old breaker boy was called to the stand and gave testimony to show that he was working at the Markle mines to pay off the debt incurred bp his father, who was killed in the mines 18 months ago. He received no pay but was given due bills showing how much his mother owed the company. The due bills also showed that the debt his mother was incurring, such as house rent, etc., was growing faster than he could reduce it, as he was only getting 4 cents an hour.

The last witness was Frank Ray, a contract miner. He was explaining the conditions of the mines with reference to impure air, and was still on the stand when the commission adjourned at 1 o'clock, until 10 o'clock on Monday.

The conditions prevailing at the Lehigh Valley Comapny's mines will be taken up next. The miners have a large number of witnesses they desire to call and there is at this time no indication when the hearings will be concluded. Some of the operators desire to place witnesses on the stand in their defence. Unless some agreement is reached on many of the points at issue it is likely the hearings will run into next month. President Mitchell will leave here tomorrow night for New York to attend the regular meeting there of the executive of the civic federation on Monday.

FOR CONTEMPT OF COURT

A MAYOR AND ELEVEN ALDERMEN FOUND GUILTY.

THEY REFUSED TO OBEY THE COURT'S INJUNCTION.

Denver, Colo., Dec. 6.—Mayor R. R. Wright, Jr., and eleven aldermen were sentenced this afternoon by judge John P. Mullins, of the district court, to serve four months in jail for contempt of court in disregarding the injunction issued by judge Mullins to restrain the enactment of an ordinance granting a franchise to the Denver City Tramway company in the form in which it was presented.

The eleven aldermen who voted for the ordinance in the face of the injunction are: W. B. Tebbetts, president of the board; John D. Ross, Andraw Herna, J. P. Russell, Jos. Conlon, William Gahn, James Parish, Geo. S. Weick, F. A. Bailey, D. S. Gray, and Pinkney Walley.

Mayor Wright signed the ordinance, though the act was specially forbidden by the court. The mayor and aldermen will appeal from judge Mullins' decision on legal points involved in the case and remain at liberty under bond.

A WALK-OVER FOR McINNES.

Victoria, Dec. 6.—(Special to The Daily News.)—The opposition will not put up a candidate to oppose McInnes, leaving the field to him, and the socialist candidate Williams.

R. F. Green states, however, that the opposition will not support the socialist.

THE DAILY NEWS

MUNICIPALISATION OR MONOPOLY.

Under the above caption the Local Government Journal, (British), of November 15th, contains the following remarks anent a recent occurrence in England, which appears to us to be specially worthy of bringing to the notice of those of our readers who are weighing the merits of the proposed loan by-law.

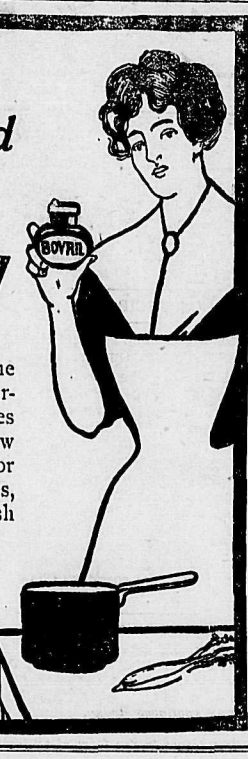
"During the week the eyes of all engaged in municipal work have been fixed upon the interesting town of Tunbridge Wells, which made, some three years ago, such an apparently plucky fight against the monopoly held by the National Telephone Comapny. The action of the corporation of that town on Wednesday last will cause a feeling of bitter disappointment wherever municipal institutions flourish. The corporation has succumbed to the insidious action of the telephone company, and, frightened at its own incompetence, has sold the rights it so strongly fought for to the enemy it once so stoutly fought against. What are we to gather from this action? One thing is certain. If, because a municipal undertaking shows that the estimates of expense and revenue have been slightly miscalculated, and that as a result more expenditure is needed, and a correspondingly less revenue expected, the whole undertaking is to be handed over to a commercial concern at its bare cost, what would become of more than half the electric lighting undertakings in the kingdom? . . . Although is was stated that 122 out of 130 subscribers to the municipal service were willing to bear the extra cost of £1 a year, and so convert the deficit of £19 into a surplus, and that it was possible that a guarantee fund could be formed sufficient to prevent the municipal undertaking from falling into the capacious maw of the National Telephone Company through lack of capital, the corporation by two to one, rushed into the arms of the telephone company, and thus made municipal undertakings the laughing-stock of the whole country. The action of the Tunbridge Wells corporation has humiliated local government, and has stamped municipal management with the mark of incompetence. . . . There is one lesson which may be learned by all public bodies from the fiasco at Tunbridge Wells, and it is this: Beware of sanguine estimates by experts called in to advise. Many towns have already learned it. . . . . Perhaps the next thing we shall hear of will be the sale of the municipal electric undertaking to the British Electrical Traction Company, or some other gigantic trust. Once let the people of this country lose heart in their municipal undertakings, and faith in their representatives on public bodies, the trust—no matter by what name we know it—will have the municiaplities by the throat with one hand, with their other hand in the ratepayers' pocket. We are not enthusiastic supporters of municipal trading qua mnuicipal trading, but we certainly think that the example set by the Tunbridge Wells Corporation is disastrous, humiliating, and disappointing to well-wishers of local government."

EDITORIAL NOTES.

Our Grenwood correspondent writes: "Spokane manufacturers are steadily increasing their business connections with the Boundary mines and smelters. Among other recent orders they have received are for two 40x176-foot steel water jacket furnaces for the Montreal & Boston Copper Company's smelter at Boundary Falls, and two heavy castings for the big rock crusher at the B. C. Copper Company's Mother Lode mine. Now that more direct railway communication has been provided between the Boundary and Spokane, the saving in time and the convenience of access of the manufacturing center to the mining district are together having the effect of securing for Spokane an increasing proportion of this class of business from the district mines and smelters." Where are our Canadian and British manufacturers? Asleep, doubtless. If the experience of Boundary mining and smelter men with eastern Canadian supply houses is the same as our own, we can well understand why Spokane gets the preference. Toronto and Montreal wholesale firms have no conception of modern business methods as understood and practiced in the west.

"Alderman Selous frankly and fairly sets forth his reasons for opposing the proposed loan by-law in a communication addressed to this paper, and published elsewhere in this issue. It is very desirable that there should be the fullest discussion of this subject before December the 17th. Whilst there are those who are enthusiastic advocates of the power plant extension project, there are others, whose interests in the progress and prosperity of the city are fully as great, who for one cause or another do not look favorably upon the undertaking. The matter is one that can be discussed without any display of feeling on either side. It is a business proposition pure and simple, and should be considered solely on its merits. The Daily News would give the by-law unqualified support were it not for the defect we have pointed out. We are satisfied after careful investigation that city engineer McCulloch has made liberal provision for every item of expense, in connection with the proposed extension, in his estimates. But we still think that the whole scheme should have been subjected to the thorough scrutiny of an outside expert before the ratepayers were called upon to commit the city to so large an investment. That the city should own an up-to-date plant, and that such a plant would be a profitable investment, even as things are, are two points in the case we freely concede. There is a third point, which, in our opinion, is not so easily disposed of, and that is the lack of a confirmatory report upon the feasibility of the undertaking as planned and estimated upon by city engineer McCulloch. This is something that could easily have been attended to long ago, and had the report sustained Mr. McCulloch's position, which we are inclined to think it would, there could have been very little valid objection raised to the by-law, except by those who do not favor the municipalisation of public utilities of this character.

The Cook's Best Friend is Bovril



Bovril is invaluable in the kitchen as by its aid rich nourishing soups and tasty gravies can be prepared in a few moments. It also adds flavor and strength to stews, hashes, ragouts and every other dish for which it is employed. No cook who aims at culinary successes, at a small cost and at a short notice, can do without

BOVRIL

MANY APPETIZING DISHES can be made doubly delightful and nutritious by the use of Borden's Peerless Brand Evaporated Cream, which is not only superior to raw cream but has the merit of being preserved and sterilized, thus keeping perfectly for an indefinite period. NEW YORK FASHION LETTER

New York, Dec. 6.—The fashionable topic of paramount interest just now is the separate skirt. During the past season this important article of dress has been somewhat obscured by the elaborateness of the separate bodice, but as one depends so much upon the other Dame Fashion seems to have awakened to the fact that they deserve an equal share of attention.

Not that the separate skirt has not been made beautiful, not by any means. The fact that one may be purchased any where from five dollars to a hundred and fifty substantiates this statement; but the independent skirt has simply not been "emphasized," I believe is the way the modistes express it.

The newest separate skirt has several decidedly distinctive features. For one thing its province is no longer limited to taffeta. This fabric has, to a large extent, been replaced by liberty satin and peau de soir out of compliment to those who are fond of lustrous and dull materials, respectively.

Another style of separate skirt which has not been affected through the changing styles of a season is the black lace one. It seems to increase in favor as time wear on; and certainly, as its latest aspects are its loveliest, it is easy to understand how it retains the favor of Dame Fashion and her disciples.

Aside from the question of beauty, however, the black lace skirt has its advantage of usefulness. Though fragile in appearance, there are few of the elegant fabrics which wear better retaining their fresh crispness throughout a season of constant service. There are surely few things more simple to make than this particular skirt, or less expensive for the reason that it entails so few purchases of minor details. The lace or net, whichever is used, serves as a trimming for itself and there is always more or less a silk or satin dress incapacitated by the change of fashions which will shimmer out through the overskirt with all the effect of an absolutely new lining.

A very chic design in separate skirts is one showing a scalloped yoke. This yoke is quite deep, extending further below the hips than any that has yet been seen, and the outline is acentuated by fancy stitching or appliques of smart little bands. The corsage skirt though graceful and pretty is more or less different because it requires not only a perfectly formed figure, but one that is lithe and free, to be really effective.

For some time the short petticoat and corset cover have been seen made in one piece. Thhis season, they are characterized by an almost severe simplicity, though made of the finest and sheerest linen. The only bit of trimming is the embroidered monogram but all the work is done by hand.

In hosiery a novelty which will perhaps take with the people who are determined to have something individual is a black silk stocking, appliqued with diamond shaped pieces of shepherd's plaid taffeta. The taffeta is in black and white, however, only when the stocking proper is in black, for the applique shows always the color of the hosiery, combined with white, of course. Alternating the taffeta pieces are small white lace motifs and this trimming extends over the entire length of the stocking.

Now that geranium red has become one of the season's popular colors, dainty little reception bootines and house slippers are seen in suede of that tint, stitched with black and finished with dull gold and French silver buckles.

Red is also used for some very smart coats trimmed with heavy black and white silk cords or stitched with bands of hunter's green taffeta.

MAUDE GRIFFIN.

CARD OF THANKS.

The President and members of St. Andrew's Society hereby tender their grateful thanks to the ladies and gentlemen who so kindly assisted in making the ball on the 1st instant such a success.

DISSOLUTION OF PARTNERSHIP

Notice is hereby given that the partnership heretofore subsisting between E. A. Brown and Maggie Newett in Nelson under the firm name of Brown & Co., and in Ymir under the firm name of Brown and Newett, has been dissolved as of the 14th day of October, 1902.

Dated this 2nd day of December, 1902.

Curse of DRINK

CURED BY

COLONIAL REMEDY

No taste. No odor. Can be given in a glass of water, tea, or coffee, without patient's knowledge.

Colonial Remedy will cure or destroy the diseased appetite for alcoholic stimulants, whether the patient is a confirmed inebriate, "tippler," social drinker or drunkard. Impossible for anyone to have an appetite for alcoholic liquors after using Colonial Remedy.

INDORSED BY MEMBERS OF W.C.T.U.

Mrs. Moore, Superintendent of the Women's Christian Temperance Union, Ventura, California, writes: "I have tested Colonial Remedy on very obstinate drunkards, and the cures have been many. In many cases the Remedy was given secretly. I cheerfully recommend and indorse Colonial Remedy. Members of our Union are delighted to find a practical and economical treatment to aid us in our temperance work."

Sold by druggists everywhere, and by mail.

Josephine Street, above Baker Nelson

Corporation of the City of Nelson.

BY-LAW NO. 123.

A By-law to raise $150,000.00 for procuring an electric light plant.

WHEREAS it is deemed expedient to acquire land for a site for an electrical power station for the City of Nelson and to build and equip such electrical power station, and to connect such equipped electrical power station with the City of Nelson Electric Light System, and to make any necessary alteration and extension of the City of Nelson Electric Light System as may be required by reason of such equipping and connecting.

AND WHEREAS in order thereto it will be necessary to issue debentures of the City of Nelson to raise funds to be applied for the said purpose.

AND WHEREAS it is deemed expedient to borrow the sum of $150,000.00 for the purposes aforesaid.

AND WHEREAS the electric light rates or charges of the City of Nelson are enforceable under the provisions of the Municipal Clauses Act and amending Acts.

AND WHEREAS the estimated amount of the electric light rates or charges of the City of Nelson chargeable for the year of our Lord 1902, is $24,600.00.

AND WHEREAS there is no amount of money charged upon the said electric light rates or charges of the City of Nelson.

AND WHEREAS the said debt of $150,000.00 is created upon the security of the said electric light rates or charges.

AND WHEREAS the estimated deficiency in the said electric light rates or charges required to make up the amount of the annual interest and sinking fund upon the said proposed debt, is nil.

NOW THEREFORE the Municipal Council of the Corporation of the City of Nelson in Council assembled enacts as follows:

1. It shall and may be lawful for the Mayor of the Corporation of the City of Nelson to borrow money upon the security of the said electric light rates or charges and as additional security upon the pledge for the payment of the monies borrowed hereunder of the credit of the Municipality of the City of Nelson for the payment of the annual interest and sinking fund required for the extinguishment of the debt proposed to be created hereby out of the annual revenue, by way of the debentures hereinafter mentioned, from any person or persons, body or bodies corporate who may be willing to advance the same as a loan, a sum of money not exceeding $150,000.00 and to cause all such sums so raised or received to be paid into the hands of the teasurer of the said Corporation for the purpose and with the object hereinbefore recited.

2. It shall be lawful for the Mayor of the said Corporation to cause any number of debentures to be made, executed and issued for such sum or sums as may be required for the purpose and object aforesaid, not exceeding, however, the sum of one hundred and fifty thousand dollars ($150,000.00) each of the said debentures being of the denomination of one thousand dollars ($1,000), and all such debentures shall be sealed with the seal of the Corporation and signed by the Mayor thereof.

3. The said debentures shall bear date the 1st day of April, A. D., 1903, and the whole of the debt hereunder and the said debentures shall be payable in twenty years from the said date, in lawful money of Canada, at the office of the Bank of Montreal, in Nelson aforesaid, which said place of payment shall be designated by the said debentures and shall have attached to them coupons for the payment of interest and the signatures to the interest coupons may be either written, stamped, printed or lithographed.

4. The said debentures shall bear interest at the rate of five per centum per annum from the date thereof, which interest shall be payable semi-annually at said office of the Bank of Montreal in Nelson aforesaid, in lawful money of Canada on the 1st day of October and the 1st day of April, respectively, in each year during the currency thereof and it shall be expressed in said debentures and coupons to be so payable.

5. It shall be lawful for the Mayor of the said Corporation to negotiate and sell the said debentures or any of them for less than par; but in no case shall the said debentures or any of them be negotiated or sold for less than ninety-five per centum of their face value, including the cost of negotiating and sale, brokerage, and all other incidental expenses.

6. The specific sum necessary for the payment of interest during the currency of the said debentures will be the sum of $7,500.00, and the specific sum to be set aside annually for the payment of the debt incurred by the said debentures will be the sum of $5,037.30, and there is hereby set aside each year out of the electric light rates or charges of the City of Nelson the sum of $7,500.00 for the payment of the annual interest on the proposed debt, and the sum of $5,037.30 for the payment of the said debt incurred by said debentures. Such sums shall from month to month and as the said rates or charges are collected be placed in a special account with the Bank of Montreal at Nelson, B. C., such account to be known as Electric Light Interest and Sinking Fund Account, and all rates or charges for said purposes received by the City of Nelson shall be placed in the said account and the same shall be set aside and withdrawn from the annual revenue of the Municipality of the City of Nelson, and so long as any debt continues by virtue of the debentures to be issued hereunder the said electric light rates or charges shall not form any part of the annual revenue of the Municipality of the City of Nelson, providing always that any monies which may have to be advanced or which may have to be paid by the Municipality of the City of Nelson under the guarantee given hereunder and any surplus beyond the sums annually required for such interest and sinking fund shall from time to time be transferred from the special fund hereby directed and refunded to the account of the annual revenue.

7. It shall be lawful for the Municipal Council to re-purchase any of the said debentures upon such terms as may be agreed upon with the legal holder or holders thereof, or any part thereof, either at the time of sale or any subsequent time or times, and all debentures so re-purchased shall forthwith be cancelled and destroyed and no re-issue of debentures so re-purchased shall be made in consequence of such re-purchase.

8. This By-law shall take effect on the 23rd day of December, A. D., 1902.

9. This By-law may be cited for all purposes as the "City of Nelson Electric Light Extension By-law, No. 123."

Done and passed in Council assembled, this day of ' 1902.

NOTICE.

Take Notice that the above is a true copy of the proposed By-law upon which the vote of the Municipality will be taken at the City of Nelson on Wednesday, the 17th day of December, instant, between the hours of 8 o'clock a.m. and 4 o'clock p.m., for the East Ward at the City Police Court at the corner of Josephine and Victoria streets, and for the West Ward at the office of T. M. Ward on the north side of Baker street, between Stanley and Kootenay streets.

NELSON'S NEWS OF THE DAY

A. J. Dove, principal of the Kaslo school, was in the city yesterday.

R. Hood, manager for J. Y. Griffin & Co., left yesterday on a business trip to Spokane.

Police magistrate A. E. Crease, left yesterday morning for a short visit to his sister at Ymir.

Rev. R. Scarlett, of the Methodist Manitoba conference, is visiting in Nelson for a few days.

From October 19th to November 15th the shipments of bullion from the Hall Mines smelter amounted to 377 tons.

W. S. Riblet and wife returned to the city last evening. Mrs. Riblet has been visiting her sister at Seattle for the past month.

If the weather keeps as cool as at present, the formal opening of the curling season at the rink will take place on next Thursday evening.

A large shipment o general supplies was sent out yesterday for the use of the contractors on the dyking works at the Reclamation Farm.

Rev. John Reid, Jr., who has been appointed to the charge of Emanuel Congregational church, arrived from the coast last evening accompanied by his wife.

Captain D. C. McMorris and wife, who have been spending the last few weeks at the coast, returned to Nelson on Friday evening after a pleasant vacation.

The exceptional snowfall has proved too much for the men who were working the placer claims along Forty-Nine creek, and all have come in to wait for improved weather.

The funeral of the late Yvon Delour is to be held this afternoon from her late residence on Lake street to the city cemetery. J. D. Robertson having charge of the undertaking arrangements.

H. K. Livingstone, a leading merchant of Arrowhead, who has been spending the last few days in the city with his wife while returning from their wedding trip, left last evening for home.

On the tramway being put in at the Triune mine in the Lardeau it has been found necessary to double the number of buckets used, the line as originally built proving too light to work properly.

An invitation has been received by the Nelson Curling Club to send a team to Calgary to take part in the bonspiel which is to be held at that city from January 27th to 30th. It is probable that the invitation will be accepted.

Nearly all of the wholesale merchants of the city report business so far this month as most satisactory. While the Slocan and parts of the Boundary are quiet this is made up for by corresponding briskness along the Crow's Nest and in the Lardeau.

The formal opening of the Success Club will not be held on Monday evening but there will be a regular meeting instead at St. Saviour's hall, at 8 p. m. This was decided upon at the meeting of the committees who had the opening in charge, last night.

W. S. Drewery was associated with Messrs. Alexander, Retallack and Potter in the recent conference between the mining and smelting men and Messrs. G. O. Buchanan and Bruce White, referred to by Mr. Buchanan in his statement to the board of trade on Friday night.

Rev. John and Mrs. Reid arrived in Nelson from Vancouver last evening. Mr. Reid will commence his ministry at Emmanuel Congregational church today, and will preach at both morning and evening services. Mrs. Reid will in future have charge of the church choir.

Nelson's St. Andrew's Society not being satisfied with the very pleasing record made at the ball held last Monday, have a further treat in store, and are now able to say that they have arranged for "twa hours at hame," on January 7th. The popular Scottish entertainers, Flora Macdonald and Gavin Spence will be present on that occasion and a grand night of Scottish song and entertainment has been arranged for.

SOMETHING ORIGINAL AT LAST.

At the opera house on Monday evening will be presented the comedy, "Other People's Money." A strong claim is made for its originality and the opening of a new field in the line of a dramatic composition. The comedy is of a high class, and in all the cities where it has been presented it has met with great success.

The company is headed by the charming comedienne Dainty May Sargent, who has for many seasons maintained the reputation of being the most superbly gowned woman on the American stage.

The list of American plays which have won success is being continually extended, and one of the latest additions is "Other People's Money," which was submitted to the approval of a metropolitan audience at the Madison Square Theatre, New York city, and scored an instantaneous hit.

CHURCH SERVICES

Church of England—St. Saviour's, corner of Ward and Silica streets. Second Sunday in Advent. 8 a.m., Holy Communion; 11 a.m., Morning prayer and Holy Communion; 2.30 p.m., Sunday school; 7.30 p.m., evensong. Rev. F. H. Graham, rector. There will be a short special service for men only after the regular evening service.

Madden—W. A. Hill, Sandon; G. Ward, Sandon.

Pabst Beer has not been frozen. It has not been shipped elsewhere and then sloughed off on Kootenay when found to be in bad condition. No claim, that exists only in the minds of the purveyors, is made for Pabst. It is the most healthful and palatable beer in America. Thorpe & Co. have just opened up another car.

The Big Schooner is still at the Club Hotel. 10c.

Wanted—Woman cook. Girl or housework. Waitress.

WANTED—Girl for housework, Mrs. F. M. Black, Carbonate street.

WANTED—A girl for general housework. Apply Mrs. Mackay, Silica street, west.

LOST—Bull terrier pup, white, one ear brown. Reward on returning to J. Julsrud, smelter.

One of the Queen Studio views of Nelson makes a Christmas card of real value that your friends will appreciate.

A special meeting of the Trades and Labor Council will be held in the usual place on Thursday evening, December 11th, at 8 p.m. All delegates are expected to attend. E. Kilby, Sec.-Treas.

A special meeting of the Carpenters' Union will be held on Wednesday, 10th December, at 7.30 p.m., in the Union Hall. All members are requested to attend. James Collins, Recording Secretary.

Having decided to give up the retail department of our drug trade, from the 30th of November, we will do nothing but a cash business. We would ask our customers owing accounts, to kindly settle these up at an early dat. W. F. Teetzel & Co.
