WESTMINSTER INDIGNANT

McBride's Last Trick Has Spoiled the Fair

Vancouver Liberals Ready for the Fray

[Special to The Daily News.]

Vancouver, Sept. 9.—Bitter denunciation of McBride is heard in his native city of New Westminster.

"The change in the elections date will kill our provincial exhibition," is the cry, "while it will hardly affect the Victoria fair."

The matter was brought up at a meeting of the city council of New Westminster last night, when mayor Keary informed the aldermen that as soon as he heard of the change he immediately wired premier McBride, asking to have it reconsidered, as it would injure the exhibition.

The answer he received was: "Impossible; date set and cannot be changed."

The names of likely liberal candidates for Vancouver were discussed by the committee of liberals this afternoon. Joseph Martin is slated for nomination, and other names discussed are as follow:

T .F. Neelands, mayor of Vancouver.

T. S. Baxter, secretary of the liberal association.

Joseph Dixon, carpenter, and formerly president of the Trades and Labor council.

J. D. Turnbull, formerly foreman of the C.P.R. wharf, and prominently connected with the strike of the U.B.R.E.

James Webster, a member of the grocery firm of Webster Bros.

James McQueen, alderman.

T. Frank Paterson, millman.

The committee will report to a general meeting of the Liberal Association on Friday evening.

Tomorrow night there will be a meeting of the liberal executive to discuss selections.

ENGLAND RESENTS SUSPICION.

Americans on Alaskan Commission Not More Biased than Canadians.

Toronto, Sept. 9.—A special cable from London to the Star says: Official circles are disposed to resent the suspicion of the Alaskan tribunal shown in recent Canadian cablegrams. They admit it would have been more desirable if all the United States commissioners had come to the inquiry without prior commitments, but most friendly assurances have come from Washington. There is no reason to anticipate any greater bias towards the United States on the part of Hon. Elihu Root and his colleagues than towards the Canadian case on the part of Sir Louis Jette and his colleagues.

Especially unfortunate is held to be a statement, widely published in Canada, that Lord Chief Justice Alverstone had already made up his mind to reject Canada's claims for high political reasons. Even should the commission end in a deadlock, three for Canada and three for the United States, a full public disclosure of the facts is bound to powerfully influence public opinion here. The United States has opened the way to an equitable compromise, which was impossible when the public mind was uninformed.

Especial stress is laid in British circles upon the right accorded by the treaty of 1825 to all British subjects from whatever quarter they may arrive, whether from ocean or interior, to navigate freely without any hindrance whatever all rivers and streams that may cross the boundary line. If, as it seems probable, that right is upheld, the way should be clear to secure for Canada free access to her interior.

ROCKSAND WON ST. LEGER.

London, Sept. 9.—Rocksand won the St. Leger Stakes at Doncaster today, the winner being ridden by Maher, the American jockey. William Rufus was second, and King Edward's Mead was third.

Rocksand, a brown colt, owned by Sir J. Miller, was the winner of this years Derby. The horse also won the Two Thousand Guineas Stakes at Newmarket this year.

RAILWAY CONSOLIDATION.

St. Paul, Sept. 9.—Articles of incorporation of the Minneapolis, St. Paul, and Sault Ste. Marie Railroad Company, a formal consolidation of the roads embraced by the Soo system, have been filed with the secretary of state. The company is to have a capital stock of $21,000,000, divided into 210,000 shares, of which 70,000 shares are preferred and 140,000 common.

BRILLIANT FRENCH FEAT

Paris, September 9.—Despatches from Oran, Algeria, show that the recent defeat of the insurgents by a French force near Almoungar, in which the French lost 57 killed and 47 wounded, was one of the most brilliant of the recent feats of the French army in Algeria.

It appears that the insurgents interrupted a caravan, convoyed by 120 men, who resisted the attack of between 3,000 and 4,000 Moors for eight hours. The little French force suffered greatly from thirst, but after inflicting heavy losses on their assailants succeeded in repulsing them. The French relieving force found the Moor line of retreat scattered for a mile with dead and wounded.

General O'Conner, at the head of a battalion of the Foreign Legion, has started on a punitive expedition, and the entire Foreign Legion has been ordered to hold itself in readiness for active service.

UNITED STATES TO BLAME

FOR OUTBREAK AT BEIRUT ON LAST SATURDAY.

SARCASTIC COMMENTS OF THE GERMAN PRESS.

Berlin, Sept. 9.—The newspapers this morning, in commenting on Sunday's outbreak at Beirut, throw the blame for the occurrence on the United States.

The Lokalanzieger" says: "Now that the Americans have their dead they will hardly inquire whether they were responsible for the effervescence in Beirut by the unprecedented action of their minister in Constantinople and their naval demonstration. The yearning of the United States to mix up in European politics has found some justification."

The National Zeitung says: "It can be seen how serious it is, in view of the excitement in the far east to spread incorrect or bad translations of reports."

Washington, D.C., Sept. 9.—A cablegram from the Turkish foreign office to Chekib Bey, the Turkish minister here, gives the following version of the trouble at Beirut o Sunday.

Some Christians of the city of Beirut attacked four Mussulmans, and during the melee which followed four persons were inured. Three of these were soldiers. Two persons are dead, one of whom is a soldier. The minister is in receipt of a despatch from Constantinople characterizing as "absolutely false" the published reports that there was no security in Constantinople, and that Mussulmans and the Imperial troops were responsible for massacres and the setting fire to houses in Roumelia.

A CHICAGO RIOT.

Police Prevent a Negro From Being Lynched in the Streets.

Chicago, Sept. 9.—Under a fire of bricks and stones policemen last night rescued a negro murderer from a mob of would-be lynchers. Ten minutes before John Brinkley, a colored watchman, had shot and killed Charles McCarthy ,a plasterer, almost in the presence of the latter's wife, who stood in the doorway holding her baby. Then the negro, backing into the doorway of his own quarters, held a crowd of 200 men and boys at bay until patrolman Patk. Mooney walked up to him and unarmed him and took away his weapons. Then came the second and exciting attempt of the mob to wreak vengeance on the murderer. Mooney opened the door and took his prisoner into the office of the tile factory in which Brinkley was employed to await the patrol wagon. But as he did so the crowd surged forward once more with cries of "Lynch him! Lynch him! Get a rope!" The policeman tried in vain to close the door on the crowd, and keep it closed with the assistance of the now terrified murderer, but it was useless. While Mooney was thus struggling, Brinkley turned and fled from the office by the rear door. The mob saw the escape, and, headed by Mooney, streamed down an alley in pursuit. The negro ran several blocks before he was finally overtaken. The policeman having been brushed aside, Brinkley was at the mercy of the crowd. A teamster jumped down from his wagon, and began lashing the negro across the face with his whip, the victim being held by a dozen men and boys. It was just when the cries were growing furious and an attempt was being made to drag the negro away, that a patrol wagon arrived with three policemen, who, together with Mooney, drew their clubs and fought their way through the struggling mass of men, while bricks and stones rained on them from every side. By a desperate rush the policemen succeeded in dragging the murderer to the patrol wagon. None of the rioters were arrested. At the police station, when revived, the negro begged to be put in a cell where no mob could get at him. McCarthy's family was left destitute by his death. The shooting grew out of a quarrel in which McCarthy had accused Brinkley of stealing chickens from his premises.

THE GRANBY COMPANY.

Plant Reopens, and by October 1st Will Treat 2,200 Tons Daily.

Grand Forks, Sept. 9.—The Granby company, which has been closed down for a week to permit of the blowers being connected with the new furnaces, resumed operations today, when two furnaces were blown in.

Two additional furnaces will be blown in tomorrow.

On October 1st six furnaces with a treatment capacity of 2,200 tons daily, will be in blast.

NO MORE SWEETS.

Chicago, Sept. 9.—Acting upon the advice of the Chicago employees, 14 candy manufacturing concerns closed today, and between 1,500 and 2,000 persons were throw out of work as the result of the strike action taken by the Candy Makers' Union yesterday.

ECHO[redacted]T

LIPTON PAYS A VISIT TO THE WEST POINT COLLEGE.

WRINGE HAS DECIDED TO LIVE IN THE STATES.

West Point, N. Y., Sept. 9.—Sir Thomas Lipton paid his second visit to the United States military academy today. The yachtsman came up the Hudson on his yacht Erin accompanied by the earl and countess of Shaftsbury. The Erin was escorted up the Hudson by the steam yachts Privateer and Kanahawa. A grand review was given by the cadets in honor of the visitors.

New York, Sept. 9.—Captain Bob Wringe who sailed the Shamrock III. in her races against the Reliance for the America's cup, today announced that he had decided to make the United States his home in the future and to become a citizen, as soon as the time allows.

As a result of this, sir Thomas Lipton may feel obliged to modify his recent statement that he will challenge again provided he can find a designer. Besides a designer he will now have to find a suitable skipper, if he still hold to the opinion that captan Wringe is the best handler of yachts on the other side of the ocean.

WHY THEY ARE KICKING

YANKEE PORTS ARE DROPPING BEHIND IN TRADE.

WHILE MONTREAL IS MAKING HEAVY GAINS.

Canada is making a good fight of it for the grain traffic of the West. During the last two or three years Montreal has been making great strides as a grain shipping port, and New York newspapers are manifesting lively alarm. It is well to remember that there is a touch of politics in their anxiety. The State of New York is entering upon an interesting campaign. The Erie Canal is badly in need of elargement. Plans have been prepared whereby, at a cost of one hundred million dollars, the canal will be improved so as to permit the passage of thousand ton barges. The question of authorizing this expenditure is to be submitted to the voters this autumn. The cities of New York and Buffalo are trying to convince the rural voters that it would be a good state investment to spend a hundred millions on cheapening freight rates on the all water route between Chicago and New York. Lamentations over the decadence of New York at present have an electioneering sound. It may be added that the railways are fighting the canal project with all their strength.

Some of the canal promoters' arguments are interesting. What is actually happening is that grain is showing a tendency to desert the American Atlantic ports except Portland, and to flow in greater volume to Montreal and the Gulf ports, New Orleans and Galveston. "It is stated," says the New York Journal of Commerce, "that Montreal is getting wheat from Chicago by way of the Canadian Pacific and the Grand Trunk lines at a rate of three cents a bushel, while New York rates are about 7 cents." This newspaper proceeds to give a detailed set of figures going to prove that on an enlarged Erie Canal grain could be carried from Buffalo to New York by steam barges, each towing three consorts, for 8-10 of a cent. a bushel. The cost per ton per mile would be .52 of a mill.

Meanwhile the figures which are being published show that Montreal has gained heavily in the matter of wheat exports, and is gaining in corn. The Wall Street Journal examines the grain trade during 1901 and 1902 of the six great American trunk lines. These are the Baltimore and Ohio, the Delaware, Lackawanna, and Western, the Erie, the Lehigh, the New York Central, and the Pennsylvania. In 1901 these six railways carried over 12,700,000 tons of grain. This comprised 6.94 per cent. of their total freight tonnage. In 1902 the same railways carried rather less than 9,000,000 tons of grain, or 5.37 per cent. of their total freight tonnage. In some cases the shifting was quite startling. In 1901 no less than 11.5 per cent. of the New York Central's tonnage was in grain; in 1902 the proportion had dropped to 7.1 per cent. The drop in the case of the Lehigh was from 10.8 to 7.5 per cent. "The grain tonnage carried by these great trunk lines in 1902 shows a decrease compared with 1901 of 3,761,261 tons, or practically 30 per cent." says The Wall Street Journal. "No statistics are available as yet to indicate how far this falling off has been continued in 1903," this newspaper continues, "but we are informed by traffic officials that the diversion of the grain traffic from the trunk lines has never been so heavy as at the present time."

The next point of comparison instituted by this journal is in the wheat and corn exports from the various ports. We may first take the case of wheat exports for the seven months ending August 1. The six American Atlantic ports show the following results:

	—Wheat.—	
	1903.	1902.
Baltimore	1,394,794	4,827,557
Boston	1,654,257	4,047,970
Newport News	174,448	2,574,733
New York	6,857,263	9,635,741
Philadelphia	784,572	4,790,599
Portland	1,648,684	504,874
Totals	12,514,018	26,381,474

The two Gulf ports made the following showing:

	—Wheat.—	
	1903.	1902.
Galveston	7,615,302	1,903,386
New Orleans	6,923,661	6,134,971
Total	14,538,963	8,038,357

Puget Sound exports dropped from 8,015,961 to 3,699,878 bushels. Montreal was open for only three of the seven months. From May 1 to August 1, 1902, Montreal's wheat exports were 8,203,655. During the same period in 1903 they rose to 9,597,602 bushels. During the last few months Montreal was the leading wheat-shipping port on the continent, temporarily, at least, displacing New York. The fact that Portland is the only American Atlantic port to gain is significant.

Montreal has gained rapidly as a corn shipping port. In the first seven months of 1902 she sent abroad less than 60,000 bushels. In the same period of this year her shipments were nearly four million bushels, and the movement is said to be increasing. All ports on the Eastern seaboard of the continent have experienced heavy increases in corn export.

The commercial columns of the News a few days ago contained an analysis of the July grain trade, which fully bears out the contention of the Wall Street Journal. During that month Montreal received 3,879,000 bushels of wheat ,and exported 2,357,000; New York during July received 1,344,000 bushels, and exported 892,000. Montreal also received 1,370,000 bushels of corn, as against New York's 2,253,000. She stood second to New York in corn receipts. Baltimore came third with 588,000 bushels.

This is the encouraging way in which the lake and rail and all-water routes are working at present. The Wall Street Journal expressly attributes the result to our cheap routes. The transcontinental policy of the government should stimulate a line of traffic which has done so well. The perfecting of the Canada Atlantic route and its incorporation with the Intercolonial should send the volume of wheat traffic passing over it from twenty to forty or fifty million bushels. At the same time, we should add an efficient all-rail route which would supplement the lake and rail route.

TORY WORKERS ON STRIKE

SAY THE BREAKING POINT HAS BEEN REACHED.

ONTARIO OPPOSITION QUITE OUT OF FUNDS.

[Special to The Daily News.]

Toronto, Sept. 9.—Wright and Leavitt, conservative organizers for Ontario are severing their official connection with the party pending long delayed re-organization of the opposition's finances.

They want their back pay. Arrears of salary due them are claimed to be now considerably beyond the point prescribed by party loyalty and such magnanimity.

Consequently Wright and Leavitt have gone on strike and want something more substantial than promises before they resume work for their party.

NOW THE FARMERS.

Make a Combine—Have $100,000,000 Capital at Their Disposal.

Chicago, September 9.—A corporation backed by $100,000,000 capital is the plan proposed by a joint meeting of farmers and their representatives by which the producers of the country are to protect their interests. An association having this basic principle is in progress of organization here.

Farmers and representatives from the producers' associations in nine states are in conference. Three societies are to be amalgamated as the foundation for a monster exchange, by which the producers of the country expect to control the markets, build elevators, and establish packing houses, organize banks maintain schools, and improve the highways.

These associations are the Producers' and Consumers' Union of Tennessee and of New York, with 400,000 members; the American Society of Equity of North America, with 60,000 members; and the Farmers' National Co-operative Exchange Company, with a membership of 20,000. It is proposed that the new association should be incorporated for $100,000,000 at least.

GOSSIP OF GREENWOOD.

[Special to The Daily News.]

Greenwood, Sept. 9.—Arrangements will be completed at the board of trade meeting this afternoon for entertaining the delegates of the empire chambers of commerce to visit the city next week.

Expansion work progresses favorably at the B. C. Copper company's plant here.

Where will the Granby company locate the 2000 ton smelter projected for erection in 1904? The knowing ones say, "on Boundary creek." It is the natural and logical answer, for the Granby people are business men.

The Oro Denoro mine is reported to be a wonder. Your correspondent has arranged for an early visit to the property when a full description will follow. Local stockholders are delighted with the intelligent vigorous, economic management of Mr. Smith Curtis, and expect from the reported returns from surface ore that within a very few months the stock will double in value. Some of the big ones will need to hustle if they pay a dividend before the Denero.

The E. P. U. mine under management of D. McVicar, is proving itself more valuable daily. The lead at the bottom of the shaft is now in free gold, very rich, while the vein stripped north of the shaft for a distance of 250 feet gives high values wherever tried. Arrangements are in hand for more rapid development of this property, and for the construction of a gravity tram from the mine to the valley.

D. S. McRae, of the firm of Smith and McRae was married on Tuesday of this week to Miss Maggie Stooke one of Greenwood's most popular young ladies. The marriage took place at the residence of George R Naden, in the presence of a few friends. The happy couple left on the afternoon C. P. R. east bound train for a trip to the coast and return, via Spokane, followed by the well-wishes of a host of friends.

CONVENTION OF GLOVE MAKERS.

Gloversdale, N. Y., Sept. 9.—The first annual convention of the International Glove Workers' union of the United States and Canada, which was organized at Washington last winter, began here today and will continue in session several days. Nearly a hundred delegates are present from Johnstown, Milwaukee, Chicago, San Francisco and other points where the glove workers are organized. The western delegates are making an effort to have the headquarters transferred to Chicago.

THE BRITISH ASSOCIATION

THIS YEAR'S MEETING OPENED AT SOUTHPORT.

LEADING SCIENTISTS TO READ IMPORTANT PAPERS.

London, Sept. 9.—The annual meeting of the British Association began at Southport today.

This meeting is the most important event of the year in connection with scientific research in the United Kingdom.

The meetings are held in different provincial cities each year, and once or twice the association has gone to some city outside the United Kingdom, but it never meets in London. The president is invariably a man famous for his scientific attainments. This year he is Sir Norman Lockyer, one of the most famous scientists in Great Britain. The address of the president usually reviews the world's advance in scientific knowledge for the year. Occasionally some special subject is chosen.

Sir Norman Lockyer's presidential address, entitled "The influence of brain power on history," was delivered this evening.

During the course of his remarks the president said: "Our position as a nation, our success as merchants, are in peril, chiefly because dealing with preventible causes, because of our lack of completely efficient universities, and our neglect of resources.

"We in Great Britain have eleven universities competing with 134 state and privately endowed in the United States, and 22 state endowed in Germay. The German state gives to its universities more than the British government allows all the universities and university colleges in England, Ireland, Scotland, and Wales put together. These are the conditions which regulate the production of brain power in the United States, Germany, ad Great Britain respectively, and the excuse of the government is that this is a matter for private effort. Do not our ministers of state know that private effort in Great Britain has provided less than 10 per cent. of the sum thus furnished in the United States, in addition to state aid.

In depending in our country upon private endowment we are trusting to a broken reed. If we take the twelve English university colleges, the forerunners of universities, we find that private effort during sixty years has found less than $20,000,000; that is, $10,000,000 for buildings and $200,000 a year income.

"In the United States during the last few years universities and colleges have received more than $200,000,000 from this source alone. Private effort supplied nearly $28,000,000 in the years 1898-1900."

The president compared the vast sums spent by the British government on "Sea Power," and the small amounts expended on "Brain Power," and advocated duplicating the navy bill of 1888-89, $120,000,000, and devoting that amount to the increase of Great Britain's brain power.

President Lockyer concluded by advocating the establishment of a scientific national council to act as an advisory committee to the goverment. The various sections of the association will begin work tomorrow.

AT THE CAPITAL.

The Members and Hansard—The Redistribution Bill Up Again.

Ottawa, Sept. 9.—The liberals decided today not to take into consideration the rumors that some members of the government interfered and stopped the reporting of debates in the house during the all night sitting on Thursday last.

Horton, chief reporter, said that the reporters acted on their own responsibility. They followed the same system as was done in 1896 and 1885.

La Riverie, who was chairman of the committee when the conservatives were in power, said he was satisfied there was no interference, and a resolution was passed to this effect, and also to appoint a subcommittee to frame a rule of guidance for reporters under such circumstances in future.

The redistribution bill was up in the house today.

Mr. Monk, who was leading conservatives, criticized the report of the submittee to whom the re-arrangement of the seats of the various provinces was assigned. He said the re-arrangement should have been left to an impartial committee of judges. He regarded the arrangement of the seats in Ontario as a veiled and concealed gerrymander.

Sir Wilfrid Laurier reminded the house that a subcommittee had been able to agree unanimously on nearly one half of the seats in Ontario, but it was impossible to agree to all. The measure has yet to be discussed in committee of the whole house, when amendments could be proposed.

VANCOUVER AND HILL.

City Caused the Arrest of Railway Employees for Trespass.

[Special to The Daily News.]

Vancouver, Sept. 9.—The war which the city is waging against Jim Hill's subsidiary company, the Vancouver, Westminster, and Yukon Railway, came to a head this morning, when the municipal authorities caused the arrest of Frederick Thomas and James Griffiths. The couple are employees of the contractors who are building the big trestle along False Creek for the Great Northern. The contractors' men encroached on the end of George street.

It was for just such an incident that the city has kept a watchman, for it announced some time ago that if the railway trespassed on the street ends, arrests would follow, and it has made the threat good. The city got ahead of the contractors during the night. It anticipated this action, and towed a raft of logs to the scene during the dark hours. When the men on the pile driver attempted to remove the obstruction the police took a hand in the affair, and now the matter is before the courts—the police and supreme.

W. A. McLEAN CHOSEN.

Replaces Snodgrass as Liberal Candidate in Similkameen Riding.

[Special to The Daily News.]

Grand Forks, Sept. 9.—W. J. Snodgrass, the liberal candidate for the Similkameen riding, having found it necessary for business reasons to withdraw his candidature, a meeting of the liberal executive was held to consider the stiuation.

After considerable discussion, it was decided to accept Mr. Snodgrass's resignation, and W. A. McLean of Hedley city has today been unanimously chosen as the liberal standard-bearer in the forthcoming contest.

GUESTS OF THE PROVINCE

CHAMBERS OF COMMERCE DELEGATES AT VICTORIA.

CATTLE ROUND UP TO BE ARRANGED IN THE TERRITORIES.

[Special to The Daily News.]

Victoria, Sept. 9.—The Chamber of Commerce delegates, numbering 125, arrived last night, and during the evening visited the parliament buildings, museum, and other local points of interest.

Today the guests of the city were driven about the sea front in a tally-ho coach and hack, and in the afternoon they visited Esquimault, where they witnessed the launching of the C.P.R.'s fine new vessel Princess Beatrice, which was built at Bullen Ways for Alaskan trade.

Lady Joly and the lieutenant-governor were at home to the delegates, and to a large number of citizens during the afternoon.

Tonight they go on board the Princess Victoria, and leave at daybreak for a cruise along the east coast of Vancouver Island, visiting Crofton, Smeleter, Chemainus Mills, Nanaimo coal mines, and thence across to Vancouver, en route for the Kootenays. This trip is being taken as the guests of the provincial government, and a large party of residents of coast cities were included in the party.

The delegates will visit Kootenay and Boundary on their way back.

If possible a round up of cattle will be arranged for them in the Territories, as it was impossible to afford them a sight of this spectacle on the way out.

UP IN THE AIR.

Racing Automobile Causes Fatal Accident To Spectator.

Detriot, Mich., Sept. 9.—While Charley Oldfield's racing machine was running nearly 60 miles an hour at the Grosse Point automobile track this afternoon in the ten mile open event, one of the front tires on the machine burst, throwing the car into the fence and injuring Frank Shearer, a spectator, so badly that he died in an ambulance enroute to the hospital. He had both legs broken and his skull fractured. The car went fifty feet through the air, and Oldfield, who kept his seat had a marvellous escape from death. He received several cuts about the body and had one rib broken.

It was an afternoon of accidents at the track, two other high power machines, those driven by Harry Cummingham and Henry Page, the Parisian, coming to grief because of the tires bursting. No one was hurt in either of these accidents.

LABOR AND THE CHURCH.

Milwaukee, Wis., Sept. 9.—The Journal today says: "The slogan for what promises to be one of the biggest contentions in which organized labor has engaged with the Roman Catholic church, has been sounded by Rev. M. J. Ward, of Beloit, who has declared that neither he, nor any other priest of the Roman Catholic church will give absolution to those who have taken the oath of the International Typographical union.

The oath of this union requires that the members' allegiance to his union shall have priority over every obligation, religious or otherwise.

Rev. A. F. Schinner, administrator of the arch-diocese said today that father Ward was altogether justified in making such a statement and that he would himself say the same thing.

A TERRIBLE FALL.

Buffalo, N. Y., Sept. 9.—Jockey Helgerson got a terrible fall at Kenilworth this afternoon and received serious injuries. Helgerson had the mount on Miss McMeekin, the favorite for the maiden two-year-old event, and he was making his run in the stretch when the field closed together and his mount stumbled. Helgerson went to the track hard, and was unconscious for an hour. He recovered as the races closed and was removed to the general hospital.

The stewards sent down Foley, believing him, mainly responsible for the accident, and warned Adams for rough riding.

LOVE IN A BASKET OF GRAPES.

Bloomfield, O., Sept. 9.—The wedding of Miss Loih Duffy, daughter of a wealthy vine grower of this place, and Clarence Grimes of Hudson, Mass., which took place today at the home of the bride, is the culmination of a pretty and interesting romance. The acquaintance of the bride and groom began through a note which she placed in a basket of grapes packed and shipped at her father's vineyards, and which ultimately found its way into the hands of Mr. Grimes through the purchase of the grapes at his home in the Massachusetts town.

PLAGUE IN CHINA.

Tien Tsin, Sept. 9.—An outbreak of the bubonic plague is reported at New Chwang, where a score of deaths are occuring daily.

WILL VISIT B. C.

Montreal, Sept. 9.—E. S. Clouston, general manager of the Bank of Montreal, and V. E. Meredith, local manager will leave on Friday for British Columbia.

SITUATION IN THE FAR EAST

Sultan Unable to Control His Subjects

War With Bulgaria Now Regarded as Inevitable

London, Sept. 9.—The official and press reports from the far east today, emphasize the seriousness of the situation there, and confirm the belief of the authorities here that owing to the general irritation throughout European and Asiatic Turkey towards the Christians, as a result of the Macedonian revolt, the sultan may be swept by the uncontrollable sentiments of his Ottoman subjects into a war with Bulgaria, in spite of the unwillingness of the porte to precipitate such a conflict.

The Turkish officials express gratification at the Russian-Austrian proposal for coercive diplomatic action on the part of the powers at Sofia. They are confident it will be acceded to by France also, but whether it is adopted or not, the sultan's hand has already been greatly strengthened, as he is in a better position to act than heretofore.

There is no question in official crcles that the porte will take energetic measures to suppress any trouble at Beirut. Germany has asserted that she will not order warships to Beirut. Great Britain, whose missionary interests in Syria are practically nil, has not as yet sent any vessels to Beirut, relying upon the American warships to protect the consulates.

A high diplomatic authority repeated today that Russia had not despatched at present, at least, any vessels of her Black sea fleet to Turkish waters. He asserted, however, that when Russia submits to the porte her proposals for the pacification of Macedonia, she may despatch her Black sea fleet to Turkish waters, and it will make a much longer stay there, than did the Russian squadron at Inlaidia bay. He added that Turkey could not be expected to inaugurate the new reforms, until order was restored.

The St. James Gazette this afternoon says that an arrangement has been arrived at between Great Britain and Austria which will come into operation under certain eventualities.

The Turkish embassy issued another statement today declaring that the reports of massacres emanated from the Bulgarian side, and are purposely aggravated in the hope of securing European intervention. It claims a general disbelief in the seriousness of the Beirut situation and adds: "The Turkish government therefore hopes the American warships will depart as speedily as possible as their presence only tends to incite the people. From Constantinople the embassy is informed that there is no reason for the assembling of the American ships at Beirut."

Salonica, Sept. 9.—The famous revolutionary leader captain Zeyan was killed in the fight at Lake Aniatovo in the vilayet of Constantinople. Three other Bulgarians were killed and many were wounded. A quantity of war munitions and a number of rebel proclamations were captured by the Turks.

The large insurgent band, which was reported on September 7th to have been surrounded near Ostrovo, 30 miles from Monastir, by 12 battalions of Turkish troops have escaped to the Kaimakchalan mountains where they are now surrounded by the 12 battalions, and six guns.

Reports of the recent fighting at Demir Kapua (62 miles from Salonica) agree in saying that the Bulgarians lost heavily.

London, September 9.—The Sofia correspondent of the Times says the insurgents have laid up large stores of provisions in the mountains, and even contemplate a winter campaign. The sufferig to the women and children thereby entailed will be appalling, but the insurgent leaders believe that the ill-clad troops will suffer more than themselves, owing to their inability to obtain supplies in a devastated country with interrupted communications. He continues: "Any active interference on the part of the powers seems past praying for. Russia and Germany are urging the Sultan to adopt more vigorous methods of repression, while the other powers have apparently no voice to offer, and content themselves with the attitude of disinterested spectators." The Athens correspondent of the Times hears that Count Lamsdorf, the Russian foreign minister has declared his opinion that the Bulgarian bands are guilty of greater tyranny and devastatio than the Turkish troops, and that it would be necessary to warn the Bulgarians that they will not succeed in inviting Russian armed intervention against the Turks, and further, that Russia will not permit a change in the status quo by the creation of an autonomous Macedonia or the appointment of a Christian governor.

UP GO THE RATES.

Railways in Winnipeg Have Increased Charges on Grain Storage.

Winipeg, Sept. 9.—At a meeting of the Grain Exchange Council this morning a notice was received from C. C. Castle, warehouse commissioner, that he had been notified by the railway companies that the rates of storage on grain in the terminal elevators at the lake front would be increased and would be as follows:—Elevating, including 30 days, and insurance against loss by fire, per bushel, 3-4 cents. Storage for each succeeding 30 days, and insurance against loss by fire, per bushel, 3-4 cents.

A meeting of the exchange will be held tomorrow to discuss the proposed increase.

FOR WESLEY COLLEGE.

Ottawa, Sept. 9.—Rev. S. G. Bland, of this city, one of the most prominent Methodist ministers in Canada, has accepted the chair of theology in Wesley college, Winnipeg.

MANUFACTURERS MEET.

Toronto, Sept. 9.—The annual meeting of the Canadian Manufacturers' association will begin here tomorrow when the delegates will be formally welcomed at the parliament buildings by premier Ross.

UNION LABEL — TYPOGRAPHICAL — NELSON No. 340

SATURDAY NIGHT'S RALLY.

The local liberals will hold a rally at the committee rooms on Vernon street *on Saturday evening next commencing* at eight o'clock sharp.

In view of premier McBride's latest move to force on the elections a month earlier than previously announced in the official Gazette, there should be a large attendance at Saturday's meeting of all who are in favor of stable, constitutional government, and who desire to see provincial affairs removed from the unhappy state into which they have fallen during the many years they have practically been mismanaged by the conservative party.

Among the speakers who will address the meeting on Saturday evening are William Ebbs, F. M. Black, Alfred Parr, and S. S. Taylor.

Electors who attended Mr. Taylor's last mass meeting in the Opera House must have a distinct recollection of the good impression made at that assemblage by the liberal candidate for the Nelson riding. Mr. Taylor has plenty of material on hand wherewith to continue the educational campaign inaugurated at the Opera House gathering, and electors will make no mistake in hearing what the good government candidate has to say on Saturday.

Mr. Black, Mr. Ebbs, and Mr. Parr are all well known speakers, and their contribution to the campaign can be counted upon to be exceedingly interesting.

Saturday night's rally should be a good one.

EDITORIAL NOTES.

In accepting the liberal nomination for Richmond, John C. Brown pointed out that the present government was the legitimate heir and successor of that "Turnerism" against which they had fought such a long, hard battle, and he dwelt on the necessity for a radical change of policy and method in the government before the people could hope to see an administration which would be really in the popular interest. To secure that change, one way and one only presented itself, and that was the return of the liberals to power.

Canada stands out well in the autumn programme of the London booksellers. Among the books announced are "Canada in the Twentieth Cetury," by A. G. Bradley; "Old Quebec," by Sir Gilbert Parker; "Sir Wilfrid Laurier and the Liberal Party," by J. S. Willison; "Through Canada at Harvest Time," and "Explorations in the Canadian Rockies."

The advance in the price of silver means a great deal to the silver mining interests of the west. In studying the effect of the advance it must be remembered that it is possible to produce silver at a much lower cost than formerly. The improvement both in the system of operating silver mines and in treating the ore has made possible the profitable handling of a lower grade and the increase in the margin of profit of the higher grade. The advance has had a stimulating effect upon the silver miners, and adds that much more to the prosperity of the mining industry.

The mining men of Kaslo riding have a rare opportunity to show their appreciation of one who has done more to further the interests of Kootenay than any other man. Day in and day out, for weeks and months together, J. L. Retallack worked to secure legislation at Ottawa to further the interests of the silver lead industry—the most important industry in Kootenay. His efforts were rewarded by the adoption of the $15 bonus on lead.—Revelstoke Mail.

The indecency of Mr. Tarte's present course needs brief comment. He chose for his revolt a moment when a loyal man would have remained silent unless under the direct compulsion, says the Toronto News. He chose a moment when his chief was out of the country and in bad health. Now he is out of the cabinet, his favorite bit of campaigning is his assertion that Sir Wilfrid Laurier is ill, and that a break up is imminent. "Ghoulish chatter" was the fitting phrase which our Ottawa correspondent not long ago contemptuously applied to tactics of this sort. Incurably talkative—indiscreet to the point of treachery—endowed with a rare gift for angering the absent by seekng to please the present—theatrical and ineffective—such is Mr. Tarte. If the conservative party accepts him, it will deserve him.

What shrunk your woolens?
Why did holes wear so soon?
You used common soap.

SUNLIGHT SOAP REDUCES EXPENSE

Ask for the Octagon Bar. 225

Walter Scott, the member for Assiniboia, in his speech on the Grand Trunk Pacific bill in the house of commons, brought out the tory policy of bonusing railway promoters this way: Conservatives are now posing as the great and only saviors of Canada. But the conservative party had foisted on the Northwest a most onerous elevator monopoly. It had saddled the Northwest with the Qu'Appelle, Long Lake, and Saskatchewan Railway. This contract enabled promoters to obtain $5,380,000 without having done anything to get it. The adventurers who obtained the Calgary and Edmonton privileges from the conservative government got $9,884,000 swag from the "great government of the people," the conservative government. These two little deals for some 550 miles of railway allowed someone to get away with something like $15,303,000 without having done anything in particular to earn it, except obtain legislation from the conservative government.

J. M. Kellie is meeting with the strongest assurances of support from all quarters of the electorate, says the Kootenay Mail. His old friends are rallying loyally to his banner, and are determined to have for the Revelstoke riding a representative who has always shown himself alive to the interests of his constituency.

MINING COMPANY IN COURT.

Philadelphia, Sept. 9.—The Consolidated Lake Superior Company, which has extensive interests on the great lakes and in Canada, and which is capitalized at more than $100,000,000, will be involved in litigation with some of the stockholders now seems inevitable. These stockholders, headed by E. Clarence Miller, a banker of this city, want to know the names, subscriptions, and details of the $11,000,000 underwriting stock syndicate. They claim that over $7,000,000 of these subscriptions are unpaid. Counsel for the stockholders last week threatened to bring proceedings and force the company to show its books. On Saturday an agreement was reached by which counsel for the stockholders were given to understand that the books of the company were open for their inspection. When counsel for stockholders called at the company's offices today they were told that the books had been removed to Sault Ste. Marie, Ontario. Counsel for the complaining stockholders will now bring suit against the company, and if they cannot reach the books through the courts of the United States they declare they will apply to the Canadian courts.

DOWNES' HOTEL, CRANBROOK. New, up-to-date sample rooms.

NOTHING TOUCHES THE SPOT like a cigar, which the smoker knows to be what it is before he lights it. Our name settles everything. "Manufactured by the Inland Cigar Factory," is a cornerstone of general confidence. We sell nothing below par. Last year; this year, next year, all the time, our goods run along the mountain top of quality. Perfect products of A1 tobacco: "Morena" and "Interior."

CASCADE Beer—full of life and vigor.

WILL MAKE IT A PLANK.

Melbourne, Victoria, Sept. 9.—The premier announced in the commonwealth house of representatives today that the conciliation bill of the first commonwealth government, adopted yesterday by the acceptance of a labor amendment, making the measure apply to railway employees, has been adopted for this session only, and that the government would make it a plank in its platform in the approaching elections.

THE PROPER TREATMENT FOR A SPRAINED ANKLE.

As a rule a man will feel well satisfied if he can hobble around on crutches two or three weeks after spraining his ankle, and it is usually two or three months before he has fully recovered. This is an unecessary loss of time, for in many cases in which Chamberlain's Pain Balm has been promptly and freely applied, a complete cure has been effected in less than one week's time, and in some cases within three days. For sale by all druggists and dealers.

No Beer like CASCADE.

BRITISH LABOR CONGRESS.

Leicester, Eng., Sept. 9.—The proceedings of the Trades Union Congress were temporarily suspended today by a motion calling attention to the Turkish atrocities "Which made the ears of every British subject tingle with indignation." A resolution on the subject was referred to a committee.

A cable message from Samuel Gompers, president of the American Federation of Labor, congratulating the members, was received with much enthusiasm.

SUBSCRIPTION $3 PER ANNUM. PUBLISHED WEEKLY

THE MINING WORLD

THE ONLY PAPER GIVING ATTENTION TO BRITISH COLUMBIA IN THE UNITED STATES.

A voluminous weekly journal, abundantly newsy and informatory. The printing is neat and clear. The paper good, and the pabulum of great interest and vigorously written. The gold mining intelligence is plentiful, carefully collected, and discriminately presented to the public. Its whole get-up vouches for the vast amount of pains that have been taken in its compilation. Supplies exactly what residents in this country, as well as the Easterners, whose interests are wrapped up in gold, silver, lead, coal, and iron, are desirous of learning on these matters The contributions from correspondents, and the emanations from the editorial brain pan are always readable, generally terse, and to the point.

WILL PUSH BRITISH COLUMBIA'S INTERESTS

in the great world's arena of competing claimants for capital. Inquiries at our head office from interested parties upon the merits and demerits of Western Stocks are this year more numerous than ever.

I will disseminate exact information regarding mining ventures, protecting the outside investor from having unpayable properties foisted upon him by unprincipled promoters. Because the people of the Province will not support a first-class legitimate Eastern mining journal of immense influence, such information is, therefore, unavailable at present, and

THAT IS THE WHOLE SECRET

of disinterested capital.

The Mining World must be well received and supported, to the extent that an office be maintained here. Send $3.00 today, and it will be mailed you weekly for one year.

Advice on Washington and British Columbia Stocks given free. Good prospects written up. Terms from $500. Ask for particulars.

Ore shipped to Nelson will be carefully looked after. NELSON, B.C.

IN THE SUPREME COURT OF BRITISH COLUMBIA.

In the Matter of the Estate of Alexander Linnroth, late of Elko, in the county of Kootenay, deceased; between Alfred Anderson on behalf of himself and all other creditors of the said Alexander Linnroth, plaintiff; and Charles E. Reid, Gilbert Hartin and Gustave Kuester, defendants.

Pursuant to order made herein by the Honorable, the Chief Justice, the 15th day of August, 1903, tenders will be received up to the 12th day of October, 1903, for the purchase of: First: An undivided one-half interest in a lease from the crown for quarry purposes of Lot number 5548, Group I, Kootenay District. This lime quarry contains about 40 acres and is situate on the C. P. R. between Lardo and Poplar; the lease is for 21 years from November, 1901; second, an undivided one-third interest in the mineral claim "Patricks," Lot number 5189, Group 1, Kootenay District, situate on the south fork of Kaslo Creek near the Cork mine.

Tenders for either property will be sealed and addressed to the undersigned and marked "Linroth Estate, tender for half interest in quarry," or "Linroth Estate, tender for third interest in mineral claim "Patricks."

Highest or any tender not necessarily accepted.

For further particulars and conditions of sale, apply to George E. Martin, plaintiff's solicitor, Kaslo, B. C.

Dated this 8th September, 1903.

It never fails and is pleasant and safe to take. It is equally valuable for children. It is famous for its cures over a large part of the civilized world.

STREET CAR STRIKE.

Some Seattle Cars are Still Running—Company Makes Promises.

Seattle, Sept. 9.—Seattle is in the peculiar position this morning of having on its hands a strike of one of the unions of the street car system and at the same time a full complement of cars in operation.

At one o'clock this morning the executive of the old union declared a strike because the president of the railway company refused to grant any of the demands made by the union, or to submit the demands to arbitration. These demands included recognition of the union, the reinstatement of all members dismissed by the company because of their connection with the union since the strike last March, a wage scale of 30 cents an hour and time and a half for overtime and on legal holidays, and other unimportant demands.

When the order to strike was promulgated the great majority of the employees discarded their union badges and went to work this morning upon the promise of president Furth that he would talk with a committee of the men in the matter of increased wages. As a result all but ten cars are running. The effect of the strike will be to disrupt the Seattle branch of the Amalgamated Order for Street Railway Employees of America.

THEY MAKE YOU FEEL GOOD

The pleasant purgative effect experienced by all who use Chamberlain's Stomach and Liver Tablets, and the healthy condition of the body and mind which they create makes one feel joyful. For sale by all druggists and dealers.

CASCADE—The beer that is beer.

YMIR POLITICS.

The Ymir correspondent of the Rossland Miner (conservative) is much kinder to Harry Wright's candidature than was the Trail correspondent of the same paper the other day. The correspondent is no friend of Parr's, the liberal candidate, but of the tories' man he says: "It is a moot question whether Wright can defeat Parr. Wright makes a poor showing on the platform; in fact, his speeches are painful to listen to. It is much to be regretted that the conservatives were so indiscreet as to nominate Wright under the conditions they did.

Dysentery causes the death of more people than smallpox and yellow fever combined. In an army it is dreaded more than a battle. It requires prompt and effective treatment. Chamberlain's Colic, Cholera and Diarrhoea Remedy has been used in nine epidemics of dysentery in the United States with perfect success, and has cured the most malignant cases, both of children and adults, and under the most trying conditions. Every household should have a bottle at hand. Get it today. It may save a life. Sold by all druggists and dealers.

CASCADE Beer brewed from mountain streams.

TO HANG FOR HEINOUS CRIME.

Charlotte, N. C., Sept. 9.—At Satesville tomorrow evening the execution is to take place of Will Roseboro, who was convicted of murder at the August term of court. The crime for which Roseboro is to pay the penalty was one of the most heinous in the criminal annals of the state. He assaulted Mrs. Dolf Beaver, and to hide his crime murdered the woman and then hid her body in a well near the Beaver home.

When you do not relish your food and feel dull and stupid after eating, all you need is a dose of Chamberlain's Stomach and Liver Tablets. They will make you feel like a new man and give you an appetite like a bear. For sale by all druggists and dealers.

CASCADE Beer in pints and quarts.

A NEW SMELTER.

Editor, The Daily News: By this mail we send you prospectus of the Macdonald smelter.

After more than two years of successful operation where all other methods failed we are now ready to fulfill the often expressed wish of miners: "That they may yet see some process devised for the successful treatment of the vast deposits of low grade sulphide ores." We make low grade sulphide properties pay. We burn the sulphur—make it act as a smelting flux. This has been thoroughly demonstrated as you will note from the Lustre Mining Co.'s letters reproduced on pages 13, 14, and 15. The results are so remarkable that you may be interested. If not, please hand booklet to some owner of a sulphide proposition.

Can you furnish or put us in the way of getting the names and addresses of mines and mine managers in your district and oblige. With many thanks for your attention we are, yours truly,

THE DOMINION SULPHIDE SMELTING COMPANY.
326 Spitzee Building, Toledo, Ohio, U. S.

(We suggest a well framed advertisement in these columns as the best means of securing what this smelter company desires. We will be glad to quote terms upon application.—Ed.)

BE QUICK.

Not a minute should be lost after a child shows symptoms of cholera infantum. The first unusual looseness of the bowels should be sufficient warning. If immediate and proper treatment is given, serious consequences will be averted. Chamberlain's Colic, Cholera and Diarrhoea Remedy is the sole reliance of thousands of mothers and by its aid they have often saved their children's lives. Every household should have a bottle at hand. Get it today. It may save a life. For sale by all druggists and dealers.

CASCADE Beer—the convalescent's drink

ENGLISH CRICKETERS COMING.

London, Sept. 9.—The Kent cricket team which, under the management of T. Pawley, is to play a series of matches at Philadelphia and Baltimore, sailed on the White Star line steamer Oceanic today for New York.

Lever's Y-Z (Wise Head) Disinfectant Soap Powder dusted in the bath, softens the water and disinfects. 38

FORBES TO MEET FELTZ.

St. Louis, Mo., Sept. 9.—Harry Forbes is to make his first appearance in the ring since he lost his bantamweight championship title to Frankie Neil at the West End Athletic club tomorrow night. His opponent is to be Tommy Feltz, the south Brooklyn fighter, and the go is scheduled for twenty rounds. It will be the second time the two have met. Their first encounter took place some time ago before the same club and resulted in a decision for Forbes on points.

Victor Brand Evaporated Cream

For Household Use

takes the place of fluid milk or cream. Never sours or causes disappointment at the last moment. It is handy, pure, digestible, nutritious and appetizing. Makes delicious ice cream, custards, puddings, etc.

Curse —OF— DRINK

CURED BY

COLONIAL REMEDY

No taste. No Odor. Can be given in glass of water, tea, or coffee, without patient's knowledge.

Colonial Remedy will cure or destroy the diseased appetite for alcholic stimulents, whether the patient is a confirmed inebriate, "tippler," social drinker or drunkard. Impossible for anyone to have an appetite for alcoholic liquors after using Colonial Remedy.

Indorsed by Members of W. C. T. U.

Mrs. Moore, Superintendent of the Woman's Christian Temperance Union, Ventura, Cal., writes: "I have tested Colonial Remedy on very obstinate drunkards, and the cures have been many. In many cases the Remedy was given secretly. I cheerfully recommend and indorse Colonial Remedy. Members of our Union are delighted to find a practical and economical treatment to aid us in our temperance work."

Sold by druggists everywhere and by mail. Price $1. Trial package free by writing or calling on Mrs. M. A. Cowan (for years member of the Woman's Christian Temperance Union), 2204 St. Catherine St. Montreal.

Sold in Nelson, B. C., by The Canada Drug and Book Co., Baker Street.

NELSON'S NEWS OF THE DAY

J. G. Bunyan went up to Poplar yesterday to work on his three claims there.

Richard Gaskell of the Hume addition, has taken over the Oleheiser pre-emption at Six Mile.

Official notice of the new date set for the provincial elections was posted at the court house yesterday.

Judge Forin, who is at present in Vancouver, will return to Nelson at the end of the week. He will sit in chambers on Monday next at the usual time.

The license commissioners held their regular meeting yesteday afternoon. There was no business to be transacted and the commissioners immediately adjourned.

The price of bar silver is up again. After nearly reaching the 60 cent mark, silver dropped again, but yesterday a marked advance was made and at the close of the market the quotation was 57 1-4.

A rehearsal of the "Mikado" caste and chorus will be held this evening at the opera house. Gentlemen at 8, ladies at 8.30 o'clock. As the time is now limited it is very important that each rehearsal should be fully attended.

The heavy dew which fell yesterday was too much for the C. P. R. wires and dispatches reached this office last night and this morning in a very intermittent fashion. The trouble was principally between here and the coast.

There was a story going about in town last night of the finding of a five pound piece of quartz on the Swede claim at Poplar creek which contains over $500 worth of gold. It was said that the specimen would be exhibited at the fair.

The Salvation army barracks is a very busy place these days. It is now decorated for the Harvest Festival. The citizens of Nelson have done their part well in donating, and ensign Wilkins says this year's Harvest Festival will be a record breaker.

The Italian laborer who has lain paralyzed in the Home hospital for the past three weeks died yesterday morning. He only left his native country a few months ago to come here and leaves a wife and family who were solely dependant upon him.

The Brackman & Ker company has already begun to receive samples of this year's wheat crop. A sample rated No. 1 hard was received yesterday from southern Alberta. Shipments of the new grain however, will not be coming in before the end of October.

J. G. Irving's ranch at Midway was visited by fire on Sunday and the barn and buildings destroyed. The fire broke out in the barn at 12 noon from some unknown cause and it was found impossible to arrest its progress. Three horses and a cow were burned to death in the barn.

At last the wreck of the Lapoint building the eyesore that has for so long disfigured Vernon street is no more. The work of demolition has been completed so far as that part of the view visible from Josephine street is concerned and when the pile of lumber now on the street is removed the last vestige will be gone.

The board of trade will hold its regular monthly meeting tonight at the board of trade rooms. The city council has agreed to be present at the meeting the main business of which will be to arrange for the entertainment of the chambers of commerce delegates. The suggestions which the board will make include a trip to Bonnington and the mill at Granite by special train and the illumination of the streets. There should be a good attendance at this evening's meeting.

It is being generally remarked that in just one thing the directors of the fair are showing a lack of enterprise. They have secured no prominent offices for the display and distribution of advertising matter, a most essential point. The present office of the secretary is hidden away in the K. W. C. block without a sign inside or outside the building to advertise its whereabouts. Every day possble exhibitors are passing through the city who would be attracted and interested if they could conveniently drop into the office of the secretary, but as matters stand the visitor does not know where to go and few can properly direct him. It has been suggested that a large sign on the side walk in front of the office might answer the purpose.

The contractor who has charge of the new sidewalk around the federal building should place a temperory plank walk along side of the work in progress. If there is no bylaw to compel this being done the city should pass a bylaw at once and if the contractor does not remedy the trouble and can not be made to do it at once the city authorities should lay a sidewalk for the time being.

In a Baker street store yesterday there was exposed for sale a magnificent locally grown pumpkin. The vegetable is three and a half feet in circumference and two feet in length with a smooth, fine skin and a beautiful color. Along with it were some remarkably fine squashes and vegetable marrows from the same garden. If any one else has any such specimens they should be kept over for a week and exhibited at the fair, for certainly these would have been likely candidates for prize money any where.

Entries for the various classes at the coming fair are pouring in on secretary Annable in most satisfactory fashion. Arrangements have been made with all the big mines and camps to get exhibits of samples of ore and in consequence the exhibit will be perfectly representative of every class of mineral found in the Kootenays and certainly the most extensive ever attempted. One special advantage of the fruit exhibit will be the opportunity thereby offered to ranchers in this district to see the results obtaned by others and profit thereby. The resulting improvement will be of advantage to all for it will help to gain for this district the reputation it deserves. For the reason stated so that the utmost advantage may be reaped from the exhbits the directors specially request that all fruits and vegetables be carefully and correctly labelled.

At the record office on Wednesday the following locations were registered: Black Bass on the north fork of Salmon creek, adjoining the Porto Rico mineral claim, on the north, located August 29th by H. Ginsberg; and Teu-waukee on the north side of Bear creek, two and a half miles from Ymir located August 25th by J. H. Graham. Certificates of work were issued to Richard James on Pandora and New Zealand mineral claims; to Hugh Brown et al on Sunrise, Mugwump and Gold Standard mineral claims, for work done on the Sunrise; to Hugh Brown on Gold Bug, for work done on Sunrise, and to D. McArthur on Oronogo. John Stimson of Ymir transferred to Owen Boyer, hotelkeeper of Ymir, his undivided one-quarter interest in the Apex mineral claim on the divide between Hidden and Porcupine creeks, consideration nominal.

CONTINUES FOR MILES.

Does the Fine Mineral Formation at Poplar Creek.

"If every prospector has the values he claims to have, Lake creek runs in a bed of gold," said William Barbour, who has just returned from a prospecting tour, to The Daily News.

"Well, have they?" asked the News man.

"Oh! I don't know," replied Mr. Barbour, "I only know of the Lake creek strikes from hearsay, but the boys certainly have some fine chunks of rock,"

"I have been up at Poplar," went on Mr. Barbour, "but found everything staked there so I went on up about four or five miles above the camp. I found prospecting very difficult there, ground is thickly covered with moss and the fallen timber is another great obstacle.

"I worked away for two or three weeks without result and came very near throwing it up when I decided to come down off the range and try the bottom.

"I struck a good mineral formation there staked a good claim with a ledge about three feet wide. Got an assay of $24 at Poplar."

In answer to a question Mr. Barbour said that in his opinion the mineral lay pretty well along the bottom near the track although, he said, it was impossible to tell anything with the thick covering of moss there was

"I believe a dozen more Lucky Jacks will be found when the country is cleared out a little more," said he.

"My claim is between Rapid creek and Tenderfoot creek," went on Mr. Barbour. "There are five claims near mine that show free gold, they are all good propositions.

"Jacob Dover has struck something pretty nice about a mile above Poplar on the other side of the river and his brother is working on it now. They brought some fine looking specimens into camp a week ago.

"In fact," concluded Mr. Barbour, "I could not begin to tell you of the valuable properties up there already assured. But I can tell you that there is every inducement for prospectors there and they'll come. Watch the camp next year."

ON GOOD AUTHORITY.

J. M. Harris of the Reco Says Last Poplar Discovery is a Wonder.

J. M. Harris, of the Reco mine, is the latest upholder of Poplar Creek.

Mr. Harris has been spending the last four months away from Sandon on his ranch, but he returned the other day to look after several mining matters arising out of the rise in silver, bounty on lead ore, and the general revival of the industry in the Kootenays which is now in progress.

Mr. Harris left Sandon last week, and spent a couple of days around Poplar, and last night at the Hume hotel he made no secret of what he thought of the Lardeau discoveries.

Like Byron White and other Slocan mining men, Mr. Harris has a good opinion of the silver outlook just now, but since his visit to Poplar he has acquired a well formed "gold fever." Speaking to a reporter of the Daily News last night, Mr. Harris said: "I think the Lardeau strike is the most important discovery ever made in the West, possibly excepting the Klondike, and further development may make the discovery eclipse even the Klondike.

"I saw the piece of rock that was found last Friday, had it in my hands, in fact, and all that has been said about it in the Daily News is quite correct. I have never seen such rich ore in my life. I did not think it was possible to find such quantities of gold anywhere in the world.

"At first I had not the highest opinion of Poplar, though I thought it might turn out pretty well in time, but after last Friday's find I have altered my opinion. I think nearly everyone in Poplar has been affected the some way by this latest discovery. When I went in first last week I could have purchased several lots in the town site at pretty reasonable figures, but they are not for sale now at any price. I think this latest strike satisfactorily settles the question of permanency, and I regard it as most important accordingly. There is a great future for all that lower Lardeau country in my opinion, and I think further development will only prove that a wonderful discovery has been made in the world's history of mining."

Mr. Harris leaves this morning on a trip to Spokane.

EXCURSION TO THE LARDEAU.

Business Men of Nelson Will Visit All Important Points.

The long talked of businessmen's excursion through the Lardeau is scheduled for Saturday next provided sufficient representative business men can be found willing to take advantage of this excellent opportunity to capture a larger share of the trade of this prosperous district.

The party will leave Nelson at 6.40 p.m. on Saturday next arriving in Nelson on their return the following Wednesday morning. Fifteen at least must take the trip or the C. P. R. will abandon their intention of having the excursion and twenty-five is the limit it will be possible to accommodate.

As previously stated the party will leave Nelson at 6.40 p.m. on Saturday arriving at Arrowhead at 3 p.m. on Sunday and Thompson's landing an hour later. The same evening they will drive to Camborne and spend the night there, although some of the party may prefer to return to Thompson's landing to secure the better accommodation.

Ferguson will be visited on Monday and Trout Lake reached on Tuesday morning. Leaving Trout Lake at noon the party will spend some hours at Poplar creek, and then take the boat for Nelson, arriving the following morning.

This morning Fred Starkey and I. G. Nelson are out endeavoring to secure subscribers to the project. The cost of the trip will be in the neighborhood of $10.

SPECIAL RATES FOR WESTMINSTER EXHIBITION.

For the above event the Canadian Pacific railway will on September 26th, 27th, 28th sell round trip tickets from all Kootenay points at greatly reduced rates good for return till October 5th, the rate from Nelson being $16.55. Through coaches and sleeping cars will be run from Arrowhead to Westminster on September 27th, 28th, 29th. Early application should be made to local agents for berths. Passengers desiring to visit the Victoria exhibition October 6-10, can have the Westminster tickets extended for eight days by purchasing excursion tickets at Westminster or Vancouver to Victoria. For complete information cal on or write J. S. Carter, D. P. A., C. P. R., Nelson.

LIBERAL RALLY.

Address Will Be Made by Wm. Ebbs, F. M. Black, Al. Parr, and S. S. Taylor.

Arrangements have been completed for holding the first rally at the liberal committee rooms on next Saturday evening, commencig at eight o'clock sharp.

Among the speakers who will address the gathering will be William Ebbs, F. M. Black, Alfred Parr, the liberal candidate for Ymir, and S. S. Taylor, K.C., the liberal candidate for this city.

Next Saturday week will be nomination day, and two weeks from that date the election will be held, thanks to Richard McBride's leap in the dark.

Local liberals are well satisfied with the progress of the local campaign so far, but there is plenty of work ahead for the next three weeks, and prompt action is now necessary to meet "Tricky Dick's" little scheme.

There should be a good attendance at Saturday night's rally. There will be plenty of material to lay before the electors who turn out for the gathering, and in view of Mr. Taylor's success at the Opera House mass meeting, a little while back, those who attend the meeting on Saturday night will not be disappointed.

KITCHENER FOR WAR OFFICE.

London, September 9.—Leading journals here demand that before anything is effected in the way of army reform, the War Office must first be reformed. There is a strong desire in many quarters to place Lord Kitchener at the head of affairs, for he is considered absolutely impervious to mischievous social influences.

GOLDHILL

VOTARIES OF THE BLACK CAT.

Buffalo, N. Y., Sept. 9.—This morning—the ninth day of the ninth month of the year—found assembled in this city the faithful followers of the Great Black Cat, ready for the twelfth annual concatenation of the Order of Hoo-Hoo. There were several hundred delegates present when W. H. Norris, of Houston, Texas, grand snark of the universe, called the meeting to order at nine minutes past nine. After brief opening exercises the convention met behind closed doors. The reports showed the order in excellent financial condition and an increase in membership of more than 1,600 during the year. The gathering will be in session several days and the visitors among whom are the leading lumbermen of the entire country, will be handsomely entertained.
