PEACE HANGS IN BALANCE

Roosevelt's Intervention is Welcomed in Some Quarters

But Emperor is Still Undecided and War Faction Urges Continuance of Hostilities in Hope of Financial Victory

St. Petersburg, June 4.—In the course of a conversation between the Associated Press and one of the emperor's ministers, the minister declared the emperor had not yet changed his position with regard to the prosecution of the war on account of the destruction of vice admiral Rojestvensky's fleet.

St. Petersburg, June 4.—(1.10 a.m.)—The American embassy was the centre of interest yesterday on account of president Roosevelt's tendering of his good offices in the direction of peace. Ambassador Moir was besieged by members *of the diplomatic corp who desired light* on the president's plan and intentions and the chances of its acceptance was a topic of general interest in St. Petersburg.

Foreign minister Lamsdorff did not lay the matter before the emperor yesterday but probably will visit Tsarskoe-Selo on Monday instead of Tuesday for the purpose.

Officials of the foreign office adopted a non-committal tone regarding the prospects of action on it, saying the decision rested with the emperor, who, up to the present is firm for war.

On all sides it is realized that the question of indemnity will be the greatest stumbling block in the way of the efforts of the peace party. The war faction urges that if Russia is obliged to pay an enormous indemnity, she might as well spend the same amount in continuing the war a year or two longer *and trust to financial pressure* to do its work on Japan. They say that Russia's situation could not be made much worse.

In Manchuria the reinforcement of general Linevitch has been going on without a pause.

A traveller returning from Harbin reports passing train after train filled entirely with troops and with apparently no reservists. Yesterday it was reported that widespread mobilization was contemplated in order to give general Linevitch the necessary numerical superiority over the Japanese.

Washington, June 3.—Shortly after 9 o'clock tonight Mr. Takahira, the Japese minister, called at the White House by appointment. He was cordially received by the president. Except to intimate that he and the president had a general talk on the whole situation, minister Takahira had nothing to say about his conference tonight. He did not appear to be concerned about the presence of the Russian ships at Manila.

Following so closely the visit of count Cassini, it was naturally inferred that the president took occasion to communicate to Mr. Takahira the views of Russia as presented by count Cassini at the conference with him yesterday.

Diplomats acting in Washington today indicate that the European powers are prepared to actively assist the president in any effort he may make in the interest of peace in the far east.

Shanghai, June 4.—Vice admiral Uriu with a Japanese naval squadron is expected at Gutzlaff island in Hang Chow bay today.

NEBOGATOFF'S PALLIATION.

Said to Have Surrendered Only When His Ammunition Had Played Out

St. Petersburg, June 3.—The statement that the ammunition on board rear admiral Nebogatoff's ships was exhausted when he surrendered was received with some relief, this being one of the conditions under which, according to the Russian naval regulations, a commander is allowed to surrender. The other conditions being when the crew of a vessel is so depleted as to be unable to manoeuver her, and work her guns, and when the ship is burned to the water's edge and about to sink. Nevertheless most of the naval men continue to be of the opinion that the seacocks should have been opened and the ships sunk.

Stories of mutiny on board the Russian vessels continue to circulate in the clubs and cafes but the admiralty will not admit that it has received any information tending to substantiate them. The officials admit, however, that some sailors mutinied off the coast of Madagascar and that a number of them were shot by admiral Rojestvensky's orders.

PEACE OVERTURES.

Roosevelt's Interference Said to Be Welcome to Russia.

St. Petersburg, June 3.—The despatch regarding president Roosevelt's conversation with count Cassini at Washington yesterday, implying that the president had practically tendered his good offices to Russia, created a sensation in diplomatic circles here. That the president had taken such a step, aroused surprise in some quarters, yet the news was received with unconcealed satisfaction in the belief that it will hasten the decision of emperor Nicholas.

The European powers no matter how ardently they may desire the conclusion of peace, are more or less embarrassed.

RESIST BLACK-LISTING

INSTRUCTION TO W. F. M. EXECUTIVE BY CONVENTION

IMPORTANT ORDER ISSUED TO ALL LOCAL UNIONS.

Salt Lake City, Utah. June 3.—The convention today instructed the executive officers to resist every effort of the mine owners associations to install and operating their blacklisting and permit system under the association card, and prohibited any member of the Federation to take out or accept an association card.

The convention passed a very important order today instructing all local unions to accept in transfer all cards *from bona fide labor organizations*, regardless of their affiliations.

A great portion of the day was taken up with routine work and acting on reports of committees.

A committee of about 20 visited the Judge miners' home this evening to investigate the property. The results will be reported on Monday. This is a magnificent institution in all its appointments, costing about $200,000 and has the most ideal location in this city. The miners are very anxious to devise some means of utilizing the property for their benefit.

JAPAN'S EARTHQUAKE

Not So Serious as First Reports Indicated—Loss of Life Small.

Tokio, June 3—The governor of Hiroshima province, telegraphs that the earthquake which took place on June 2 killed six people, wounded 79 and destroyed 33 houses in Hiroshima and *Ujina. The reports from other affected* districts are incomplete, but it is believed that the loss of life and the destruction of property has been comparatively slight.

The first shocks of the earthquake destroyed the telegraph system, besides making it impossible to communicate with the earthquake district, cut off Tokio from the rest of Japan and the world, thus creating an impression that some great disaster had taken place.

ALIEN LABOR ACT.

Prominent American Railway Officials Arrested in St. Thomas.

St. Thomas, Ont., June 3.—Colonel Sherwood, of the dominion police arrived in the city last night with two *warrants for the deportation of E. E.* Cain and James G. Gilhula, trainmaster and chief train dispatcher, respectively, of the Pere Marquette railway, and placed both official under arrest.

The solicitor for the railway company will apply for writ of habeas corpus, restraining the police from deporting the officials. Both are Americans and came to St. Thomas about six months ago. If the application for the writ is not successful the men will be deported. The railway people are much agitated and the matter is likely to be taken up to the supreme court.

FAVOR CITY OWNERSHIP.

Fernie Ratepayers Authorize Loans For Sewerage and Water Works.

(Special to The Daily News)

Fernie, June 3.—Both by-laws for borrowing the sums of $40,000 and $60,000 for the construction of sewerage and water service plants respectively were carried today by substantial majorities.

COAST LACROSSE LEAGUE.

Vancouver, June 3.—All scheduled lacrosse league games were called off today owing to the steady downpour which kept up all afternoon. Up-to-date New Westminster has defeated Victoria, and *Victoria has defeated Seattle.* Vancouver and Victoria play next Saturday here.

COMPETE WITH POSTOFFICE

Toronto, June 3.—The postoffice authorities are taking proceedings to prevent the messenger service companies of the city from delivering letters, circulars, parcels, etc., for one cent each. It is claimed that this is an infraction of the postal law.

FISHERIES COMMISSION.

(Special to The Daily News)

Victoria, June 3.—Those mentioned to represent British Columbia on the *Fisheries commission are* J. C. Brown, Campbell Sweeny and either chief justice Hunter or Richard Hall, M.P.P.

Fred T. Congdon has been appointed legal adviser of the Yukon council.

DROPPED DEAD.

Montreal, June 3.—Osla Clouston, the second daughter of E. S. Clouston, general manager of the Bank of Montreal, dropped dead of heart disease while preparing to leave her home last night to attend a dinner at lady Allan's residence.

DEATH OF CHAS. COCKBURN.

Toronto, June 3.—Chas. A. P. Cockburn, secretary-treasurer of the Muskoka Navigation and Hotel company, and father of Muskoka traffic, died suddenly at his residence last night.

REMNANTS OF ROJY'S FLEET

Three Cruisers Believed to Have Been Lost Arrive at Manila

Are Now Guarded by American War Vessels and Will Likely Be Held Until Conclusion of Hostilities

Washington, June 3.—An important conference was held at the White House this afternoon, the participants, besides the president, being secretary of the navy Morton and attorney general *Moody. It related to the arrival today* at Manila of the Russian cruisers Aurora, Oleg and Jemtchug, and the disposition to be made of them. It was determined to await further information concerning the incident before a definite decision was reached. All three of the cruisers took part in the naval battle in the Korean straits a week ago. Two of them, the Oleg and Jemtchug, were reported to have been sunk by the Japanese fleet. The three ships were damaged but were able to proceed under their own steam. Rear admiral Train in command of the United States squadron now at Manila, having heard rumors of the sighting of Russian warships near the island of Luzon, made an *investigation with his squadron and dis*covered the damaged cruisers making their way to port. The United States vessels after an exchange of salutes, escorted the three cruisers to Manila. *In the present circumstances*, vessels of either of the belligerent nations would be permitted to remain at a neutral port only 24 hours, or if the ships were unseaworthy, only long enough to enable them to make the necessary repairs, in order that they might reach their nearest port.

It is the opinion in official circles, that the ships will be dismantled and held at Manila until the conclusion of hostilities and the request for their internment will come from the Russian *admiral as soon as he shall have heard* from St. Petersburg.

Manila, June 3.—In an interview rear admiral Enquist's executive officer, said: "When *the battle began the admiral* was aboard the cruiser Oleg which was hit a number of times by large shot. There was an incessant rain of shot from quick firing guns, and the ship was soon badly damaged. The admiral transferred his flag to the Aurora, which then drew the combined fire of many torpedo boat destroyers at close range and the attack of submarines. We were overwhelmed by the latter. A mist arose. We made a dash for the open sea, and were followed by the Oleg and the Jemtchug."

Rear admiral Enquist is uninjured. Captain Egorieff, of the Aurora, was killed by a shell which struck the conning tower, and he was buried at sea. *On the Aurora three officers* were injured, 20 of the crew were killed and 83 were wounded. The losses on the Oleg were 12 of the crew killed, and 18 wounded. On the Jemtchug, the casualties were 21 junior officers killed, and one wounded, 12 of the crew killed and 30 wounded.

From their appearance the Russian vessels are not damaged below the water line. Their funnels, however, are riddled by large shells. Several large shells pierced the cruisers amidships and a *number of guns* were dismounted.

All the Russian officers interviewed assert that a large number of submarines caused confusion and defeat.

Rear admiral Enquist cabled his arrival to the emperor of Russia.

The battleship Ohio, and the cruiser Cincinnati are guarding the Russian ships. No official action as to the disposition of the vessels has been taken yet.

St. Petersburg, June 4.—The appearance of the missing cruisers at Manila has relieved the anxiety of the admiralty, as the fate of all of vice-admiral Rojestvensky's warships is now definitely established. Naval officers think it possible the ships will be interned and say that an attempt to reach Vladivostock would be practically hopeless and the ships would be exposed to great difficulties and danger on a long voyage homeward, either across the Pacific ocean or through the Suez canal.

EAGLES AT PHOENIX.

(Special to The Daily News)

Phoenix, June 3.—*Phoenix Eagles* are preparing to welcome about 200 members of the order next Tuesday, when they will be shown through the mines and given a smoker at Miners' Union hall. *On Monday* the annual convention of the Fraternal Order of Eagles of British Columbia will open its annual session at Grand Forks, and a special excursion will be made to this camp the next day.

ALFONSO'S PARIS TRIP CLOSED

Paris, June 3.—The spectacular features of king Alfonso's visit to Paris *closed today* with the review at Vincennes in beautiful weather and in the presence of throngs of women dressed in bright summer costumes, which lent additional brilliancy to the scene. Tonight there was a reception at the Spanish embassy, after which king Alfonso attended the theatre. On Sunday he will leave Paris at midnight for Cherbourg where the combined squadrons of France Great Britain and Spain, have assembled.

RENEW LABOR TROUBLES

TWELVE THOUSAND MEN QUIT WORK IN ST. PETERSBURG

SUBURBAN UPRISING QUELLED BY COSSACKS.

St. Petersburg, June 4.—The strike situation in St. Petersburg is again attracting attention. Twelve thousand men struck Friday and Saturday. A conflict between workmen and Cossacks and mounted police occurred during the evening of June 2nd, at Liesnoikoilpuce, a suburb of St. Petersburg. Twelve workmen were *seriously injured and 40* were slightly hurt. Fifteen Cossacks and policemen wer injured. A crowd composed of 15,000 workmen, singing revolutionary songs and carrying red flags marched on the Polish institute and were charged by the Cossacks, who used the flats of their sabres. The workmen, who used sticks and stones, were finally dispersed and order was restored.

EXHIBIT FOR DOMINION FAIR

Work of Provincial Schools Will be Collected and Shown

At the dominion fair which will be held in New Westminster early next fall, there *will be a special exhibit of school work.* The minister of education, Hon. F. J. Fulton and the superintendent of education, A. Robinson, have resolved that the exhibit shall be quite comprehensive, and be such as to fairly represent the work of the public schools in the province. F. H. Eaton, superintendent of schools of Victoria, has accepted the task of supervising the exhibit. He will be assisted in the work of selecting and arranging material *by other city superintendents* and by provincial inspectors.

Every provincial and district teachers' convention for the last seven or eight years has had an exhibit of pupils' work. At first they were only collections of writing and drawing, especially of outline maps. But the development in the last *five years of branches of manual training* has given a variety to the work that permits of really imposing displays. Clay modelling and brush drawing have won their way into the regular curriculum of the schools. Already many pupils have attained proficiency and are proving really artistic designers.

Many schools, including Nelson public school, have already formed collections that would be a revelation to most of *those whose school days ended so late as* ten years ago. The recent exhibit in connection with the provincial teachers' institute, held in Revelstoke the last week in April, contained collections from nearly every city school in Kootenay and several of Yale.

There are few departments of public school work that cannot be fairly represented. Knowledge of geography can be shown by maps, knowledge of natural *science by drawings of objects.*

The exhibit at New Westminster will be representative, so far as possible, of the work of the whole province. Every class of school, and every department of work will be included. It has been steadily contended by the education department that the schools of British Columbia are not inferior to those of any other province of Canada. A strenuous effort will be made ot demonstrate that fact to visitors from the east.

COMING TO NELSON

Father of James Johnstone Takes Leave *of His Parish After 47 Years*

James Johnstone, Lakeside, is expected home this week, accompanied by his father, Rev. James Johnstone, Belhelvie, Aberdeenshire, Scotland. At a meeting of the reverend gentleman's congregation on the 15th ult., he was presented with tokens of the good feeling felt towards him by the *people of his pastoral charge*, expressed in a beautifully illuminated address as follows:

To the Rev. James Johnstone, M.A., Minister of the United Free Church, Belhelvie.

Rev. and Dear Sir—We, the office bearers, members and friends of the above named congregation, on this, the regrettable occasion of your withdrawal from the active duties of an honorable and fruitful ministry, *desire to express* the deep affection and esteem in which we hold you for your work's sake.

For the long period of 47 years you have ministered faithfully, earnestly and lovingly of the word of life to an appreciative people, and during that time you have gone in and out among us, sharing in our *sorows and joys* as a pastor, counsellor and friend, along with your beloved wife, the late Mrs. Johnstone, who, to your deep loss and to ours, was *called to her reward* on September 15th, 1903. We cherish with loving grateful memories the exemplary Christian life you have lived both in public and private, your invariable kindness and courtesy, your devotion and self-sacrifice in our interests as a worthy servant in the Gospel of our Lord Jesus Christ, and *we earnestly pray* that your eventide may be one of peace and rest, assured that the Eternal Morn will bring you your Lord and Master's rich reward.

In reply the venerable pastor, speaking with much emotion, bestowed his blessing upon his people and bade them an affectionate farewell.

ARRIVAL OF WHITELAW REID

London, June 3—The Philadelphian, having on board *Whitelaw Reid, the new* American ambassador to the court of St. James and Mrs. Reid, arrived today from New York. The ambassador and his party arrived here at 7 o'clock this evening and were met at the railroad station by the staff of the American embassy and drove direct to Dorchester house.

CONFLICT OF AUTHORITY

Rivalry Between Labor Unions Accentuates Nanaimo Trouble

United Mine Workers Claim Preference Shown to Western Federation in Negotions--Manager Stockett Silent

[Special to The Daily News]

Victoria, June 3.—The mining trouble at Nanaimo has taken a new turn owing to the rivalry between the United *Mine Workers and the Western Federa*tion. The Mine Workers, who are largely in the majority, claim that the company does not want to recognize them though treating with the smaller organization. The strike, if it matures as now threatened will, therefore, be for recognition of the union.

The Mine Workers this morning posted a warning notice requesting members to refuse to attend meetings in connection with the present trouble unless called by the secretary of the U. M. W. *of A., who is now waiting to hear from* the company regarding negotiations for a settlement.

The United Mine Workers secured a hundred new members yesterday after*noon, bringing up the membership to* 500 and aims to conduct all the negotiations.

It transpires that previous to the Mine Workers stepping in, the company offered the *underground workers* committee a compromise to the effect that they would provide transportation facilities to Protection if the underground men paid three cents a day, or if only the men who went by way of Protection paid five cents a day. The underground committee were to have called a meeting to submit this on Thursday night, but dropped out when the United Mine Workers said they alone would manage the negotiations.

Manager Stockett of the Western Fuel *company, declines to discuss the arbi*tration proposal or other aspects of the difficulty at the present juncture.

President Howard of the Western Fuel Co., speaking of the trouble at Nanaimo, said that ever since the new company assumed the ownership of the mines at Nanaimo, it has been the wish to avoid all interference with the wages of the miners. This has been done and the men have not been asked to take lower wages than has hitherto been in force. When it was decided to close No. 1 it *was considered preferable to do this* rather than alter the wages in any way.

When Mr. Howard arrived in Nanaimo he said manger Stockett had hit upon a plan which he thought would do away with the possibility of closing No. 1. This was the opening of Protection island shaft as a means of ingress and egress for the men. By the men entering this shaft many of them would be much nearer their work, and a saving of time would be affected as compared with the method then in vogue of entering *by No. 1 shaft and being con*veyed by electric cars underground to the working places.

The fitting up of Protection island shaft for this purpose would incur an *expenditure of $8000 as an initial cost*, and a further charge of $5000 a year to maintain. The company, however, was agreeable to this extra outlay provided the men were agreeable to conform with the arrangement and present themselves at the Protection island shaft. The cost of transportation to and from the mainland to *Protection island would* have to be borne by the men. Mr. Howard does not think that it would exceed 5 cents a day to the men.

The lowering of the men at the island *shaft would also benefit the miners.* They would be nearer their work, would get at it quicker and would thus be able to mine more coal with a consequent increase in pay as they are paid *by the ton.* The company also would reap the benefit of an increased tonnage per man from the mines, and would thus be able to meet the serious handicap created by the provincial law.

Incidentally it may be mentioned that No. 1 shaft, Nanaimo, is peculiarly affected by the law. At the other mines on Vancouver island the work is carried on by slopes so that the same conditions do not exist.

Respecting the outlook at Nanaimo if the working of the mines were not interfered with by this legislation, Mr. Howard said that No. 1 was to be brought up to produce 100 tons a day The lower seam, which produces the best cial, was being rapidly developed. At Northfield the coal measures were being rapidly opened out, and the company was aiming at reaching nearly one thousand tons in that mine before any great length of time. This would bring the total production of Nanaimo up to nearly 2000 tons a day. This penalizing legislation had, however, interfered with *these prospects*, and had moreover, upset the calculations of the company.

The withdrawing of the pumps and machinery from No. 1 shaft, which work is *now progressing*, will not, Mr. Howard says, interfere with the re-opening of the mine at a future date. There will be no destruction past repair. There is a good roof over the mine, and it may be pumped out when required.

Incidentally, he remarked that there was abundance of coal in No. 1 to keep the mine running during the present generation at least.

The conditions prevailing at the mines with respect to hours of labor have not *been altered* by the present company, president Howard says, but are those which formerly were in force. The men have not asked for any change and he thinks it is too bad that there has been *this interference with them* by legislation.

With the company it is purely a business proposition. They find it impossible to conduct the mine as in the past under the new act, *which now becomes* law.

ALEXANDER AND HYDE.

Conclude an Alliance and Will Work in Harmony For the Equitable.

New York, June 3.—Overshadowing in interest all the other sensational developments in the affairs of the Equit*able Life* Assurance Society, attendant on the rejection by the directors yesterday and the publication today of the report of the Frick committee, comes an announcement that the controversy be*tween president Alexander* and vice-president Hyde is at end, and that these two gentlemen have concluded a defensive alliance. The basis of this alliance is reported to be that they should in future devote themselves *to the interests* of life insurance and keep all entanglement out of the affairs of the Equitable.

WAS BRUTALLY MURDERED.

The coroner's *inquest into the death* of Michael Clark at Rossland has resulted in the following verdict:

"We, the jury summoned to inquire into the cause of the death of Michael Clark, after hear ing the evidence have come to the conclusion that the deceased was brutally murdered by some per*son or persons unknown.*"

Chief constable Bullock-Webster who is investigating the crime has as yet been unable to secure any fresh evidence.

GOSSIP OF GRAND FORKS

(Special to The Daily News)

Grand Forks, June 3—No. 6 furnace at the Granby smelter was temporarily shut down *yesterday in order to allow of cer*tain repairs being made which will take some few days to complete.

James Sivesley, formerly manager of the grocery department of W. K. C. Manly's general store, will occupy a similar position with Jeff Davis and company of this place.

The deal by which the two mercantile firms of Hunter Kendrick and company and that of W. K. C. Manly were amal*gamated, was closed yesterday. Under* the new management the hardware department will be presided over by Mr. Manly, while the Hunter Kendrick company will handle the merchandise.

R. Morehead is starting a general commission and produce store in the premises on Bridge street formerly occupied by P. Burns and company. The store is being refitted for the new business, which will be opened in a few days.

D. P. Mitchell, one of the old-timers of Grand Forks, who has lately resided in Nelson, arrived here yesterday and is renewing old acquaintances.

H. T. Hunter of Phoenix, came in an yesterday's Great Northern train, and will remain here a couple of days.

HILL'S BIG CLEANUP

New York, June 3—Some time ago the tremendous profits made by lord Strathcona and the Montrealers in the Lord Mount Stephen Trust were mentioned in connection with the sensational rise in Northern Securities.

The holdings of this group were valued *at well over $30,0,0,000.*

At the time, however, little mention was made of James J. Hill's profits in the same company, although it was pointed out then that Mr. Hill and his friends were far and away the biggest holders in Northern Securities shares.

It is estimated now that Mr. Hill and his family, together with a few St. Paul friends, really cleared about $30,0 0,0,0 by the rise in the value of the shares.

These figures are based o the number of shares owned, as shown by the official list and placing the value of each at $163.

The Hill faily alone holds little short of $60,000,0000.

WOODSTOCK BYE-ELECTIONS

Woodstock, Ont., June 3—Any differences that may have existed in the liberal ranks here have been healed and all factions are working together in the utmost harmony for the election of the regular party nominee, George Smith. E. W. Nesbitt, *who has been in the running* for the nomination, and who is an influential political worker, is among Smith's most enthusiastic supporters and will *do his utmost to* assist in retaining the seat for the liberal party.

The fight will be a warm one and from present indications the running will be close. J. C. Wallace, the tory candidate is popular and is being assisted by every influential conservative that can be brought *into the riding.*

M'CULLOUGH CREEK MINES

William Brown, president of the McCullough Creek Hydraulic Mining com*pany, returned* on Tuesday from the company's property on McCullough creek. Mr. Brown went on Friday in company with Mr. *Pattison of Duluth, on a tour of in*spection, where they found the property and operations progressing most satisfactorily says the Revelstoke Herald. Mr. Pattison was well pleased with everything that he saw and will remain at the property for the season.

SITE OF MOWAT STATUE

Toronto, June 3—It is probable that the proposed statue in memory of sir Oliver Mowat, to be placed in Queen's park, at a cost of $2500, will be erected in the centre of the east lawn in front of the parliament buildings, directly in line with the present monument of Hon. George Brown.

C. P. SHEA ARRESTED

New Phase in the Big Teamsters Strike at Chicago

President of International Brotherhood of Teamsters Held on Charge of Criminal Libel--Express Companies Obdurate

Chicago, June 3.—Cornelius P. Shea, president of the International Brotherhood of Teamsters, was arrested this *afternoon, on a charge of criminal libel* preferred by Robert J. Thorne, assistant general manager of Montgomery Ward & Co. Shea was arrested following the filing of a suit by Thorne, who in addition to *making the charge of* criminal libel asks for damages to the amount of $25,000 from Shea.

The suit is based on interviews given out by president Shea to the newspapers and on statements he is *said to have* made to the effect that he had been offered $10,000 by Mr. Thorne to call a strike against Sears, Roebuck & Co., which is a large house in the same line of business as Montgomery Ward & Co.

President Shea gave bonds for his appearance when wanted, in the sum of $5,000. *Despite the fact that there was* no more rioting today, than at any time for a week, there were more hopeful signs of the end of the strike. Nothing tangible has resulted by nightfall, but the fact that *negotiations had been re*opened was regarded as auspicious.

A committee representing the strikers was in conference with attorney Mayer of the Employers' Association, and offered to settle the strike, as far as the business houses were concerned, providing that the union men would not be asked to pick up goods from or take deliveries to the express companies. They announced that they would carry the strike against the express companies indefinitely. Mr. Mayer declared that there was *absolutely no chance* whatever that the express companies would agree to reinstate the men who had gone on strike.

SUNK BY BRITISH CRUISER.

Bark Afghanistan Lost With Two-thirds of Her Crew.

London, June 3.—During a fog off Dungeness early this morning the British battleship Caesar collided with the British bark Afghanistan. The Afghanistan sank two minutes after the collision. It is feared that 23 men on board *the bark were drowned, as only 11 of* her crew of 34 were picked up. At the time of the accident the Channel fleet which was steaming in two columns, suddenly entered a fog bank and was unable to give the signal to slow down. The Caesar was considerably damaged.

ZINC PILING UP.

The Slocan Star turned out 750 tons of zinc ore *last month, and is grinding out* at the rate of 30 to 40 tons per day. The Jackson mine has enough lead-zinc ore in sight to keep the 80-ton mill going for two years, says the Sandon Mining Standard. The zinc product from this mine is an exceptionally easy one to treat. The iron impurity present is the siderite (spathic iron) and its removal is a simple problem in magnetic separation.

The Bell claim, above the Jackson, promises to become a large producer *with further development. The iron im*purity is mainly siderite, but the pyrite appears to come in more towards the head of the Basin. The ground lying next to the Bell would be good ground to prospect, as the vein is very strong and must run through. There is a great future in sight for the Jackson Basin, which would be greatly stimulated should cheap transportation be provided to the track.

RICH DUNDEE ORE.

Everett Record.—A letter received from J. N. Scott, who is superintending the development of the Dundee mine, near Nelson, B. C.; owned by Everett men, says he found a chunk of quartz *weighing 300 pounds that is simply full* of gold.

He states that it is the richest piece of quartz he has ever seen anywhere, in his long years of mining experience.

Messrs. Mitchell, Clark, Keary and others who have stock in the company, are, of course, immensely pleased over the report. It is generally opined that they have a gold mine of vast proportions.

KASLO ORE SHIPMENTS.

The shipments of ore through Kaslo from May 10th to June 1 are as follows:

Lucky Jim, crude zinc ore to Kootenay Ore Co., 257 tons; Whitewater, zinc to Pueblo, 63 tons; Last Chance, zinc to *Kootenay Ore Co., 20 tons; Reco to Nel*son, 41 1-2 tons; Ruth to Kootenay Ore Co., 25 1-2 tons. Total, 407 tons.

ACCIDENT OR SUICIDE.

Victoria, June 3.—Harold Holten, an Englishman, was found dead from a rifle bullet with a rifle beside him in a cabin near Duncans today. His death was believed to be due to an accident.

THE MAYOR'S AUTHORITY.

Mayor Houston apparently believes that he has autocratic powers. It is somewhat remarkable that a man of his experience in public affairs should advance such a proposition and it is hard to believe that he is really in earnest when he asserts that his authority to do certain things is unrestricted. However, he does make that claim and attempts to bolster it up with a citation from the Municipal Clauses Act. He claims to be vested by law with:

"Unrestricted authority and power to inspect and order the conduct of all officers and employees of the corporation, and direct the method of management of the corporation business and affairs."

This claim is based upon a sub-section of section 11 of the Municipal Clauses Act, consolidated statutes, 1897, which reads as follows:

"The mayor or reeve shall have unrestricted authority and power to inspect and order the conduct of all officers and employes of the corporation, and to direct the methods of management of the corporation business and affairs, and to suspend the officers and employees of the corporation, and, as far as may be in his power, to cause all negligence, carelessness and violation of duty on the part of the officers and employees to be prosecuted and punished; BUT EVERY SUCH CASE OF SUSPENSION SHALL BE REPORTED TO THE COUNCIL AT ITS NEXT SITTING, AND IF THE COUNCIL DECIDE BY RESOLUTION TO REINSTATE ANY OFFICER WHO HAS BEEN SO SUSPENDED THEY MAY DO SO, OR THE COUNCIL MAY DECIDE TO MAKE SUCH SUSPENSION ABSOLUTE."

It is clear from the above that whilst the mayor has power to suspend an official he has not power to dismiss him, and, futher, that if a majority of the council vote for the reinstatement of an official suspended by the mayor that official must be reinstated.

Now as to the mayor's power to veto. The law in this case is equally clear. Section 12 of the Municipal Clauses Act says:

"Notwithstanding anything to the contrary contained in any law it shall be lawful for the mayor or reeve of a municipality at any time within one month from the passage or adoption thereof, to intervene and return for reconsideration or to veto, any by-law, resolution, or proceeding of the council which has not been reconsidered by the council in the manner mentioned in the sub-section hereof, and which has not been affirmed by the vote of the ratepayers:

"(a) The mayor or reeve may state his objections, or any suggestions or amendments he may desire, to the council, and the clerk shall enter such objections, suggestions, or amendments proposed, at large in the minute book:

"(b) The council shall as soon thereafter as convenient consider such objections, suggestions, or amendments, as the case may be, and may accept or reject them:

"(c) If after such reconsideration a majority in number of all the members of the council shall decide to pass such by-law, resolution or proceeding in the form in which it was first passed by the council, the by-law, resolution, or proceeding shall be as valid and effectual as it was prior to the intervention of the mayor or reeve; but in all such cases the vote shall be determined by a show of hands of the members of the council, and the names of the members voting shall be entered by the clerk in the minute book:

"(d) If upon such reconsideration the by-law, resolution, or proceeding shall not pass the council, either in its original or in some amended form, it shall be deemed to be absolutely vetoed, and shall be of no force or effect whatever, and shall not be introduced again into the council during its then term, except with the unanimous consent of the council, including the mayor or reeve. Should such by-law, resolution or proceeding be amended upon such reconsideration, the same shall be deemed to have passed in its amended form."

The mayor's power of veto is clearly limited and ample provision is made to ensure the will of the majority of the council prevailing.

In the matter of appointments the mayor has no personal authority whatever. The law is quite clear on this point.

Section 47 of the Municipal Clauses Act says:

"In every election by the council for a municipal officer, or officers, the voting shall be by ballot."

No other provision for the appointment of municipal officers is made, but in a preceding sub-section it provides that: "There shall be no holding of office except at the pleasure of the council."

We have quoted the law on the various points raised fully and exactly. The position taken heretofore on broad and general grounds by The Daily News that a majority of the council must rule, is fully sustained by the law governing the conduct of municipal councils. We have never questioned the mayor's right to suspend an official, or to veto any resolution of council. Our contention has been, and is, that the mayor's powers of suspension and veto are not final, but are subject to the decision of the council and when a majority of the council decide against the mayor's suspension of an official or veto of a resolution, the decision of that majority must prevail.

These limitations upon the powers of a mayor were provided for a purpose and no action of a mayor's to nullify those limitations will be upheld in any court of the land.

It may be that if mayor Houston persist in his present course that it will be necessary to obtain a ruling of the court in the premises, but for the sake of the good name of the city of Nelson it is to be hoped that mayor Houston will not force things to this length.

The question of the retention or dismissal of driver Coulter is a matter of the utmost insignificance compared with the claim now advanced by the mayor that he has power to permanently suspend reinstated officials and to keep right on vetoing resolutions. This claim must be fought out to a finish and that, too, with as little loss of time as possible. It is inconceivable that the law can be interpreted in the sense contended for by mayor Houston, but if it be that the law does contemplate placing in the hands of the mayor autocratic powers, that fact cannot too speedily be made known. No British community will tolerate the perpetuation of such a law. We might add that in no other British community would a mayor seek to exercise such powers.

EDITORIAL NOTES.

Many farmers who have made money in Manitoba are going to western Washington in search of a milder climate, passing over British Columbia because it is found difficult to buy small pieces of land from British Columbia's business-like government.

The visit of the institute of American engineers to this city towards the latter end of the month should afford Nelson an enviable opportunity of presenting to that distinguished body facts relative to the growth of the mining industry in the Kootenays. It is certainly incumbent on the Board of Trade to improve the occasion.

MINUTES OF COUNCIL.

Alderman Bird's Action in Re Payment of Fees For Water Record.

Editor, The Daily News: On Tuesday, May 30th, 1905, the Nelson Tribune published a statement in large type as follows: "Alderman Bird of the West Ward, member of the finance committee, absolutely refused to approve the payment of $2,786.75, the fees for securing a record of 51,000 inches of water from Kootenay river."

During the current week the same assertion has been frequently made in the columns of the same paper with comments calculated to give the impression that I "would hamper the city in carrying on one of its greatest public utilities."

Now I beg to most emphatically deny this. As a matter of fact, the payment of $2,786.75, the fees for securing a record of 51,000 inches of water from Kootenay river, was approved by a resolution in council not only concurred in but actually moved by myself on Manday, March 27th, 1905.

The following is a copy of the minutes of the meeting at which this resolution was passed:

"Minutes of the sixth regular sittings of the municipal council of the City of Nelson, for the year 1905, held in the council chamber on Monday, March 27, 1905, at 10.30 a.m.

"Minutes of the last regular meeting were read and on motion approved.

"Read report of the public works committee.

(Here follows report.)

"Moved by alderman Bird seconded by alderman Malone, and resolved, that the report of the public works committee be received and adopted.

"Moved by alderman Bird, seconded by alderman Macdonald, and resolved, that the following pay rolls and accounts be received and that cheques therefore be issued in the regular way and further that the salaries of the Tramway employes be paid in the usual way on the submission of the pay roll certified by the superintendent,

Salaries, pay roll	$1460.00
Water works, electric light, etc	408.35
Prov. gov. water rights fees	2,786.75
Geo. W. Steele (salary)....	42.00
P. E. Wilson, (damages Pong Lung case)	135.00

"Moved by alderman Bird, seconded by alderman Malone, and resolved, that By-law No. 158, School Loan By-law, be now read a third time. By-law read a third time.

"Moved by alderman Malone, seconded by alderman Annable, and resolved, that when this council adjourns it stands adjourned till Wednesday, March 29, 1905, at 10.30 a.m.

"On motion of alderman Macdonald the council adjourned.

"Approved
(Sgd.) "JOHN HOUSTON,
"Mayor."

I need add no comments. Your obediently, HARRY BIRD.

Nelson, B. C., June 3rd.

AINSWORTH ACTIVITIES

No. 1 Mine Shipping Regularly—Krao to Resume Shipping—Other Items.

(Special to The Daily News)

Ainsworth, June 3.—Operations on the No. 1 mine continue with increasing activity, ore shipments going out regularly and lately the ore values have been better even than anticipated.

The decision to sink at the Highland has given universal satisfaction here, as there seems to be no doubt in the minds of most people that the big ore body stoped last year continues down.

The spur road to the Krao has been completed and mining commenced, the ore coming out being a very coarse cube galena, devoid of zinc. A general sample taken from all the old dumps of this mine, recently analyzed, gave the rather remarkable result of 13 per cent lime, 13 per cent iron (semi-hematite), 13 per cent lead and 13 ounces silver, with only a trace of zinc, making probably and nearest approach to an absolutely self fluxing combination yet found in British Columbia. This mine shipped the first ton of lead-silver ore ever sent from the Kootenays to the United States, and another week will see it again a steady shipper.

The Glengarry road will be finished the coming week and zinc shipments will begin at once, a whim being used for hoisting purposes.

The recent offers from one zinc concern provide for paying for all zinc, lead and all silver over 5 ounces, and a reduction on the marketing charge for lead of 33 1-3 per cent over lead smelter charges. This will stimulate work in opening several zinc-lead properties, among them the Gallagher.

To those intimately acquainted with the immense deposits of ore across the lake, especially at the Blue Bell and Kootenay Chief, it is beyond comprehension why some of the big zinc companies do not take over and operate this belt.

Buildings are completed and tenders out for the 900 foot tunnel on the Hatch property.

Recent examination by a representative of one of the big bounty earners, the Eden and Crescent, owned by Peter Larsen of Coeur d'Alene fame, indicates the likelihood of activity at that big showing.

PROMOTION FOR KENNEDY

Winnipeg, June 2—Mr. Kennedy, manager of the bank of Nova Scotia, has been promoted to the position of inspector of the bank with headquarters at Toronto.

There is no Argument

half so convincing as the evidence of your eyes.

That is why I want you to see

My stock of High Class Clothing for men and Boys to be sold at cost.

NEBOGATOFF SURRENDER

"CONTEMPTIBLE SPECTACLE" SAY PRESS CORRESPONDENTS

HIS SHIPS WERE NOT DAMAGED BY JAPANESE SHELLS

Tokio, June 3—The Tokio correspondent of the Daily Telegraph again today sends interesting additional details of the naval battle received from Moji, Sasebo and other ports. It is stated that when rear admiral Nebogatoff surrendered, the Russians hoisted red flags on their topmasts, with the Russian flag below them. The crews were drawn up in parade order on the decks and some of the sailors were waving white flags. The whole affair the despatch says, was a "contemptible spectacle."

The Sasebo correspondent describes some pathetic scenes. He saw exhausted fugitive Russians sailors sticking on places beneath high cliffs in remote and deserted parts where there were no roads. All of theme were thirsty, hungry, and overwrought. The Japanese cruiser engaged in merciful search alone saved 600. The same correspondent says that when the Japanese boarded the torpedo destroyer Bedovi, after completely disabling her, admiral Rojestvensky was the last man to be discovered. He was hiding at the bottom of the destroyer and was bleeding freely from wounds.

The correspondent goes on to say: "It is understood that admiral Nebogatoff, who is grateful for the kind treatment given him, by order of the mikado will be allowed to proceed within a few days. His surrender was disgraceful and unaccountable . Examination of the ships shows that the guns were rusty and the bottoms of the vessels covered with seaweed, but there was no lack of fighting resources. There were heaps of ammunition, and no trace of damage by the Japanese shells."

Another correspondent of the Daily Telegraph says that the captain of the armored cruiser Dmitri Donskoi, when interviewed, admitted the foolishness of trying to force the Tsu straits. He said the Japanese navy is the finest in the world; the crews were so cool and brave as to appear almost like demons and not human.

The crew of the cruiser Ural describe how three 12-inch shells completly disabled the vessel and sent her to the bottom inside of 40 minutes.

All stories of the Telegraph's correspondents contrast the accuracy of the Japanese gunnery with the wild firing of the Russians, who were outfought and out-manoeuvred at all points. It is stated that admiral Togo on the night before the battle, who had heard from his scouts that the Russians would be off Tsu island the following morning, and knowing that all his preparations were complete, slept soundly.

Tokio, June 3.—Rear admiral Rojestvensky is resting well, with no dangerous symptoms, and his speedy recovery seems certain. The officers of the Russian battleship Orel have declined to accept parole. They have been given an additional day to further consider the question.

Manila, June 3.—Rear admiral Enquist, who was commander of the heavy cruiser squadron of the Russian fleet, arrived in the bay at 9 o'clock this evening on board the flagship, the protected cruiser Aurora, accompanied by the protected cruisers Oleg and Jemtchug. All the vessels were more or less damaged, and there were many wounded men on board. Rear admiral Train, on board his flagship the battleship Ohio, with the Wisconsin, Oregon, Raleigh and Cincinnati, was manoeuvering outside Corregidor when the Aurora saluted with 13 guns and the Ohio answered. Admiral Train and his squadron accompanied the Russian vessels to Manila.

MORNING MOUNTAIN FIRE.

Boarding House and Storeroom Venus Totally Destroyed.

M. S. Logan, manager of the Juno mine, came down to the city yesterday and stated that the fire, seen on Morning mountain early yesterday morning, and reported in these columns was the burning of the Venus boarding house, and store house. The bunk house and the other cabins of the group of buildings were not injured. The Juno crew consisting of about 30 men had taken up their quarters in the Venus group of buildings about a mile to the west of the Athabasca-Venus mill, now leased to and worked by the Juno company. About 12.30 yesterday morning one of the men discovered that the boarding house was on fire, and as the flames apparently started from the immediate vicinity of the cooking range, there is but little doubt that in some way the fire in the range caused the trouble. The boarding house and contents, together with an adjoining store house in which was stored a quantity of groceries and other supplies were consumed but the efforts of the men prevented the flames from spreading any further.

The buildings were not insured by the Athabasca-Venus Co., and can be replaced for about $1200: the original Venus Co. may hold a policy on them. The contents were insured for $450 on the boarding house and $250 on the store house. The first in the London Mutual represented here by J. E. Annable, and the second in the Guardian Insurance Co., of which S. M. Brydges is the local agent. The Athabasca Venus Mines, in liquidation, owned the stock and supplies, and had turned them over to the Juno company.

M. S. Logan said that there were plenty of buildings available for the Juno crew, but that the loss of a day's work was all the Juno company suffered. "The men will go on working tomorrow as usual," said Mr. Logan yesterday. "I have sent up fresh supplies and there will be no further delay."

WANT TO PLAY HERE JULY 1

Editor The Daily News—I noticed a letter in your paper from Mr. Meighan re the football match between Nelson and Sandon at Kaslo. Although I think he was perfectly justified in replying to that article, he writes as if he was the only one who endeavored to get the game pulled off. Personally I think no blame attaches to either party. As already stated the Sandon train arrived late. I was told directly the train arrived that the football match was declared off. Mr. Meighan came to me later and asked if we were ready to play. I informed him that several of my men were running in the hose team, including myself and as that event was booked on the program before the football match I could not see my way clear to play before that event was over. I explained to him that most of our men had not kicked a ball and came straight from the hills; and suggested that so much should go to the winner and a smaller sum to the losers. The match was got up late and our idea was to help Kaslo out. He declined to accept and that is where the bone of contention comes in, for I can assure the public that after he told me this, I tried my utmost to have the game pulled off and win that $125 in spite of having no practice. I saw most of the committee, and with mayor Hodder interviewed the C.P.R. captain to get an extension of half an hour This he declined to do.

The Sandon hose team ran first and immediately it was over I collected my men and told Mr. Meighan at five minutes past five that we were ready. His men had already changed and refused to play.

With regard to your heading, "Who Were Sportsmen?" I can only maintain that no other town would have waited from 8 oclock until past 2, in pouring rain, taking chances of more mudslides, and then fill the coaches determined to help out their sister city, when the fates were against her. I think this alone should prove that Sandon kept up her reputation of being sportsmen, second to none.

If you can find space for this I shall be glad, as there are always two sides to a case.

Cannot a match be arranged for July 1st in Nelson?

S. J. TOWGOOD, Captain.
Sandon, June 2nd.

CHAMBERLAIN'S COUGH REMEDY THE VERY BEST

I have been using Chamberlain's Cough Remedy and want to say it is the best cough medicine I have ever taken." Geo. L. Chubb, a merchant of Harlan, Mich. There is no question about its being the best, as it will cure a cold or cough in less time than any other treatment. It should always be kept in the house ready for instant use, for a cold can be cured in much less time when promptly treated. For sale by all druggists and dealers.

SIGNS OF GROWTH

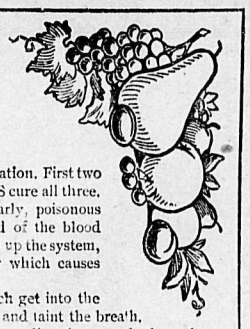
Winnipeg, June 2—Inland revenue collections for May in the Winipeg district were $78,674, a increase of $10,321 over last year in the same month.

A GOOD FAMILY LINIMENT

Every family should be supplied with a bottle of Chamberlain's Pain Balm. For cuts, bruises, burns, scalds and similar injuries, which are of frequent occurrence, it is the best. It soothes the wound and not only gives instant relief from pain, but causes the parts to heal in about one-third the time required by the usual treatment. As it is an antiseptic all danger from blood poisoning is avoided. Sold by all druggists and dealers.

Good Complexion

When Pimples and Blotches Disfigure the Skin



it means bad blood, bad digestion or constipation. First two are the result of the last. FRUIT-A-TIVES cure all three.

When the bowels don't move regularly, poisonous matter remains in the intestines. Instead of the blood taking up wholesome nourishment to build up the system, it absorbs part of this poisonous matter which causes pimples and blotches on the skin.

Gases are formed by this matter, which get into the stomach, upset digestion, coat the tongue, and taint the breath.

Fruit-a-tives purify the blood—correct digestion—and clear the complexion—because they cure constipation.

"I am on my second box of Fruit-a-tives now, and can honestly say they are the best medicine for Constipation and Stomach Trouble I ever used."
MRS. F. CODY, OTTAWA, ONT.

These wonderful little tablets are pure fruit juices—prepared according to the secret formula of an Ottawa physician who discovered the method of using fruit to cure disease. Fruit-a-tives act directly on the liver, increase the flow of bile, and thus cause the bowels to move regularly and naturally every day.

Fruit-a-tives

or Fruit Liver Tablets.

At all druggists. 50c. a box. Manufactured by Fruit-a-tives Limited, Ottawa.

Broken Threads Mean Lost Time

A silk that has kinks, knots or rough places is bound to snap at these weak spots. Every time you have to stop and re-thread the needle, the silk maker is stealing your time.

Belding's Spool Silks

are evenly twisted and spooled—pure, tough silk. They sew smoothly in the highest speeded machines.

Get BELDING'S SPOOL SILKS if you want silks that won't waste your time by breaking. Every spool full length.

LAND NOTICES

TAKE NOTICE—Sixty days after date I intend to apply to the Hon. the Chief Commissioner of Lands and Works at Victoria for permission to purchase the following described land, begining at a post near the north bank of the Kootenay river, West Kootenay District, marked W. NEW YORK FASHION LETTER

New York, June 3—This is the month of the graduating frock and both fashionable dressmakers and humble seamstresses are wrestling with the problems of girlish modishness. The frock must be simple but there are many varieties of simplicity.

The lingerie frock is still first favorite *for the purpose—more so than ever this* season—but it is a lingerie frock with a difference, and, as a rule, its simplicity is in general effect and in the eye of the beholder rather than in the details of the frock.

The possibilities of the tuck in connection with the lingerie frock are endless, and though many tucks call for additional material, they are less expensive than any good separate trimming.

The full skirt of fine lawn, gored at the top to do away with superfluous stuff, but left full enough to be shirred into the waistband, or tucked vertically around the hips, may be made charming by the use of tucks as sole trimming. Graduated tucks, narrowing as they recede from the hem towards the half skirt line where they end, are well liked, but groups of tucks either uniform or made with a different depth for each group, are effective.

A deep flounce with many fine tucks upon its bottom and set on the skirt either with heading or with a group of tucks, is usually becoming and lessens the difficulty of the cutting, since the flounce gives *ample fulness at the bottom of the skirt* and all is not left to the gores.

A double or triple skirt, the shaped flounces set on a bell-shaped sharply flaring foundation and each bordered by many fine tucks, is pretty if well cut, and is becoming to the girl with fair length of skirt line; but unless the overlapping flounces are well shaped or of superlatively soft, fine material, this model is prone to look bunglesome. An under petticoat, very clinging around the hips and very flaring and bouffant at the bottom, is always needed *to give this double or triple skirt the* correct silhouette.

With the tucked skirt, tucks in the blouse are imperative, and the only other trimming is introduced in the yoke or guimpe and bertha and in the sleeves.

Another type of lingerie frock, elaborate in effect, yet less costly than the intricately trimmed confections of the fashionable dressmaker, is the embroidery gown, made *from robe patterns of embroidery or from* by-the-yard embroidery flouncing. Some of the patterns, including plain material, flouncing of two widths, insertion bands, and perhaps medallions, are exquisitely dainty, and often the skirt is already put together and so nearly finished that any dressmaker can *hang it and put it on the* band. These are not cheap, when fine, but the embroidery is less costly than hand work.

Valenciennes insertion by the mile is used upon the graduating frocks, inset in straight lines, vandykes, scallops, scrolls, Greek key designs, bowknots, etc. It is used, too, to join seams, to frame embroidered medallions, to form whole guimpes *and long cuffs.* Valenciennes lace is employed not merely as edging or frilling, but also to be inset like the insertion band

The princess graduating frock is a very successful one of French batiste, finely shirred to a deep girdle form at the guimpe and collar of Valenciennes insertion and with deep Valenciennes edging. Guimpe and collar are of Valenciennes and the full skirt shows scrolls of inset Valencien*nes above the deep flounce shirred in many* fine lines in the points of the scroll. Two narrow flat flounces, lace edged and inset, trim the bottom of the deep flounce and the whole arrangement of skirt trimming is most effective without being excessively complicated.

The fine dotted and embroidered Swisses make delightful graduating frocks, as well as the batistes, mulls and fine lawns, and there are new Swisses this season, powdered closely with tiny dots and showing at intervals a small embroidered design as well *that are finding favor with dressmakers.*

Outside of the lingerie province, the plain and figured nets, chiffons, silk mousseline, crape and all the very sheer silks are suitable for the graduating frock. Fine viole and eolienne, too, are used where expense and serviceablity are vital considerations, and a very simple made frock of white voile with no trimmings save nun's pleats on the skirts and with some gold lace in guimpe and sleeves, is not only a very serviceable and inexpensive frock, but a very girlish and pretty one as well.

Chiffon and mousseline de soie are perishable and quite as costly as the fine lingerie frock, which is more fashionable this season; but the sheer white silks and *gauzes and crapes are durable things.* All white is, of course, the ideal thing for the graduate, but a little model frock shown by a popular house has been copied for a pretty graduate in one of the boarding schools of the Hudson.

It is one of the sheer silky stuffs too *thin for silk, too heavy for gauze—a white* silk of the radium or claire de lune weight and lustre, and is made over a white silk flowered in blurred pink roses. Only the merest hint of color or design shows through the white and in some lights not even that tint is seen, but there is a fascination in the shifting, fleeting suggestion of a shadowy color and outline.

ESTELLE CLAIREMONT.

BOUNDARY SHIPMENTS GROW

Copper Smelters Have Again Beaten the Record.

(Special to The Daily News)

Phoenix, June 3.—Over 400,000 tons of ore have been treated by Boundary smelters this year. The following are the shipments from the Boundary Mines for this week: Granby mines to Granby smelter, 13,495 tons; Mother Lode to B. C. Copper smelter, 3,392 tons; Mountain Rose to B. C. Copper smelter, 66 tons; Emma to Nelson, 99 tons; Oro Denoro to Granby smelter, 33 tons; Last Chance to B. C. Copper and Trail smelters, 60 tons; total for week, 17,145 tons; total for year to date, 395,349 tons.

This week the Boundary smelters treated ore as follows: Granby smelter, 13,750 tons; B. C. Copper smelter, 4,220 tons; total treatment for week, 17,970 tons; total treament for year to date 405,039 tons.

WHY SUFFER FROM RHEUMATISM

Why suffer from rheumatism when one application of Chamberlain's Pain Balm will relieve the pain? The quick relief which this liniment affords makes rest and sleep possible, and that alone is worth many times its cost. Many who have used it *hoping only for a short relief from suffering* have been happily surprised to find that after awhile the relief became permanent. Mrs. V. H. Leggett of Yum Yum, Tennessee, writes: "I am a great sufferer from rheumatism, all over from head to foot, and Chamberlain's Pain Balm is the only thing that will relieve the pain." For sale by all druggists and dealers.

N. W. T. WHEAT CROP.

Winnipeg, June 2.—Some of the wheat in the Medicine Hat district is 24 inches high. The weather conditions throughout the west are ideal, and grain is growing rapidly with strong blades.

It will pay you to keep Chamberlain's Colic Cholera and Diarrhoea Remedy in your house. It only costs a quarter. Sold by all druggists and dealers

Synopsis of Regulations for Disposal of Mineral on Dominion Lands in Manitoba, the Northwest Territories and the Yukon Territory.

Coal—Coal lands may be purchased at $10 *per acre for soft coal and $20 for anthracite.* Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2000 pounds shall be collected on the gross output.

Quartz—Persons of eighteen years and over and joint stock companies holding free miner's certificates may obtain entry for a *mining location.*

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of $7.50 per annum for an individual, and from $50 to $100 per annum for a company, according to capital.

A free miner, having discovered mineral in place, may locate a claim 1500x1500 feet *by marking out the same* with two legal posts, bearing location notices, one at each end on the line of the lode or vein.

The claim shall be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made, and upon complying with other requirements, purchase the land at $1.00 per acre.

Permission may be granted by the Minister of the Interior to locate claims containing *iron and mica, also copper in the Yukon* territory, of an area not exceeding 160 acres.

The patent for a mining location shall provide for the payment of a Royalty of ½ 1-2 per cent of the sales of the products of the location.

Placer Mining—Manitoba and the N.W.T. excepting the Yukon Territory—Placer mining *claims generally are 100 feet square;* entry fee, $5; renewable yearly. On the North Saskatchewan River claims are either bar or bench, the former being 100 feet long and extending between high and low water mark. The latter includes bar diggings, but extends back to the base of the hill or bank, but not exceeding 1000 feet. Where steam power is used claims *200 feet wide may be obtained.*

Dredging in the rivers of Manitoba and the N.W.T., excepting the Yukon Territory—A free miner may obtain only two leases of five miles each for a term of twenty years renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged beds or bars of the river below low *water mark, and subject to the rights of* all persons who have, or may receive entries for bar diggings or bench claims except on the Saskatchewan River where the lessee may dredge to high water mark on each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a per*son or company has obtained more than* one lease one dredge for each fifteen miles or fraction is sufficient. Rental $10 per annum for each mile of river leased. Royalty at the rate of two and a half per cent collected on the output after it exceeds $10,000.

Dredging in the Yukon Territory—Six leases of five miles each may be granted *to a free miner for a term of twenty years,* also renewable.

The lessee's right is confined to the submerged bed or bars in the river below low water mark, that boundary to be fixed by its position on the first day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the *lease, and one dredge for each five miles* within six years from such date. Rental $100 per mile for the first year and $10 per mile for each subsequent year. Royalty same as placer mining.

Placer Mining in the Yukon Territory—Creek, gulch, river and hill claims shall not exceed 250 feet in length, measured on the base line or general direction of the *creek or gulch, the width being from 1000* to 2000 feet. All other placer claims shall be 250 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days, if the claim is within ten miles of a Mining Recorder's office. One extra day is allowed for each additional ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim 1000 feet in length, and if the party consists of two, 1500 feet altogether, on the output of which no royalty shall be charged, the rest of the party ordinary claims only.

Entry fee $10. Royalty at the rate of two *and a half per cent on the value of the* gold shipped from the Yukon Territory to be paid to the Comptroller.

No free miner shall receive a grant of more than one mining claim on each separate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notice and *paying fee of $2. A claim may be aban*doned and another obtained on the same creek, gulch or river, by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least $200.

A certificate that work has been done must be obtained each year; if not, the claim shall be deemed to be abandoned, and open to occupation *and entry by a free* miner.

The boundaries of a claim may be defined absolutely by having a survey made and publishing notices in the Yukon Official Gazette.

Petroleum—All unappropriated Dominion Lands in Manitoba, the Northwest Territories and within the Yukon Territory are open to prospecting *for petroleum, and the* Minister may reserve for an individual or company having machinery on the land to be prospected, an area of 1920 acres for such period as he may decide, the length of which shall not exceed three times the breadth. Should the prospector discover oil in paying quantities, and satisfactorily establish such discovery, an area not exceeding 640 acres, *including the oil well,* will be sold to the prospector at the rate of $1 an acre, and the remainder of the tract reserved, namely 1280 acres, will be sold at the rate of $3 per acre, subject to royalty at such rate as may be specified by Order in Council.

NELSON'S NEWS OF THE DAY

Thurman Bros. have received a full official list of the winners in the Vancouver real estate Derby sweepstake.

David Bogle, who is in the city on his way to Portland, says that the coal and oil company in which he is interested, will begin to open up their properties in the Flathead valley within the next 30 days.

T. R. French and associates have returned from Alberta where they have spent the last few months prospecting. They say that the country is more coal than mineral.

While the exact number of free miner's certificates issued on May 31st is not yet available, it is known that the total falls below that of last year, when for ordinary, companies and special, 969 certificates were issued.

A Scandinavian service will be conducted at the Salvation Army barracks on Thursday evening, June 8. All who understand the Norwegian or Swedish language are specially requested to attend the service at 8 p.m.

The regular C.P.R. service from here to the coast via Robson was resumed last night and this evening the train will go out as usual at 7:15. Tomorow the new time table, particulars of which have already been published, will come into force.

Bandmaster Irwin announces an open air concert by the band at Tramway park this afternoon commencing at 3 o'clock. Owing to the meeting of the synod this week the regular evening concert from the Ward street bandstand will likely be given on Thursday in place of Wednesday.

R. J. Steel reports the sale of lots 12 and 17, of 8 and 35 acres respectively, on the Granite wagon road to Mrs. Plato and R. J. Smyth, of Trail, who will ranch upon their newly acquired propetries. R. Manson has purchased the lot adjoining his house on Houston street, lot 3, block 51, from the Nelson Tramway company.

Edward White, son of Rev. J. H. White, formerly a public school boy in Nelson, is now a student at Columbia college, New Westminster. In a recent athletic meeting held in New Westminster, at which Washington university and Leland Stanford were both represented, White broke the record for both in the mile race, covering it in 4 minutes 40 3-5 seconds.

Adjutant Dean and captain Papstein officers of the Salvation Army, who for the past 18 months have had charge of the local corps, will say farwell to the people of eNlson on next Sunday, June 11. On Monday evening, June 12, there will be a strawberry social in the barracks, this being the last entertainment that the present officers will hold here. On Thursday, June 15, the officers will leave for their new appointment, which will be made public later.

W. E. Davison, secretary of the Nelson lacrosse team, has received a letter from Cranbrook asking for a game here on July 1st. The Nelson team now consists of Nelson boys, formerly junior players. A few veterans have consented to play this season to give stability and confidence to the colts until they get used to playing in senior company. They are Joe Thompson, J. H. Fox, Al. Jeffs and W. H. Deacon. The offer of Cranbrook will be accepted if the celebration committee will guarantee expenses. In the meantime a visit of the Rossland team has been acranged for next Thursday afternoon.

STOCKS AND GRAIN

Stocks opened lower but closed strong. Copper opened 81 1-4, closed 83 1-8; Sugar, 132 1-2, closed 132 3-4; U.S.S. 25 5-8, closed 25 3-4, preferred 91 1-2, closed 92; B.R.T., 62 5-8, closed 63 3-4; Met., 118, closed, 118 5-8; St. Paul, 171 7-8, closed 172 1-8; R.I. 25 7-8, closed 26 1-4 ; U.P., 121 1-2, closed 122 1-8; Mo. Pac., 96 1-2, closed 96 3-8; L. and N., 143 5-8, closed 143 1-2; Erie, 39 5-8, closed, 40; So. Pac., 61 1-2, closed 61 7-8; C.P.R., 146 3-4, closed 146 7-8; Reading opened 94 1-2, sold to 96 and closed at 95 1-2. The stocks are a purchase.

Chicago grain—Liverpool closed 3-8 lower and our market opened a shade lower, on the lower cables; July at 88 7-8; Sept 82 1-2. There was some profit taking on account of being Saturday, which caused the market to sell lower. July closed at Friday's close; Sept 82 1-8 and 1-4.

Corn was weak, July opened 51 1-8 and closed 50 1-8; Sept opened 49 1-2, closed 49 1-4. Oats a shade lower, July closed 30 5-8; Sept. 28 7-8. Provisions, July pork closed $12.60.

Reported by I. C. Major and company, Nelson, June 3.

SYNOD MEETS ON WEDNESDAY

Diocese of Kootenay Will Join in Request For Uniform Hymnal.

The synod of the church of England in the diocese of Kootenay will be convened in this city Wednesday morning. Clerical and lay delegates from every church in the diocese will be present.

The diocese is large and the status of various parishes is not the same. There is always a lot of routine business to be discussed and settled. The proceedings will certainly include conference on such departments of church life and work as home and foreign missions, Sunday schools and church societies. The opening charge of the bishop will outline the work to be done.

One question to be dealt with is certain to be that of a church hymnal. Every recent diocesan synod throughout Canada has forwarded a recommendation to the general synod that some steps be taken to secure the use of a uniform hymn book throughout the church in Canada.

CHURCH SERVICES

Anglican—St. Saviour's church, corner of Ward and Silica streets. Sunday after Ascension; holy communion, 8 a.m.; morning prayer and holy communion, 11 a. m.; children's service, 2:30 p.m.; evensong, 7:30. Rev. F. H. Graham, rector.

Catholic—Church of Mary Immaculate, corner of Ward and Mill streets. Low mass at 8 a.m.; high mass at 10:30 a.m.; evening service, 7:30 p.m. Rev. Father Althoff, priest.

Salvation Army—Barracks on Victoria street, west of Josephine. The following services will be held today: Knee drill, 8 a.m.; holiness meeting, 11 a.m.; a praise meeting at 3 p.m.; Salvation meeting at 8 p.m.

Baptist church—Stanley street, near Mill. Morning service at 11 a.m.; evening service at 7:30; Sunday school, 2:30 p.m. Rev. E. H. Shanks, pastor.

Presbyterian church—St. Paul's, corner of Victoria and Kootenay streets. Morning service, 11 a.m.; 2:30, Sunday school; 7:30, evening service. Rev. J. T. Ferguson, pastor.

Methodist church—Corner Silica and Josephine streets. Morning service 11; Sunday school, 2:30 p.m.; evening service, 7:30. Rev W. W. Baer, pastor. Morning topic, "The Life of Faith"; evening topic, "The Virtue of Covetousness."

LONDON BYE-ELECTION.

Politics Are Warming Up With Both Parties in the Forest City.

London, Ont., June 3.—The political situation in the bye-election here is assuming a very interesting aspect. Both sides are putting forth every energy possible and the result is very vague, as yet. The electors are showing a very deep consideration of the issues in question and the various views put forth on both sides by the leading politicians of th edominion. The vote will doubtless the dominion. The vote will doubtless for both parties.

A GOOD SUGGESTION

Mr. C. B. Wainwright of Lemon City, Fla., writes the manufacturers that much better results are obtained from the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy in cases of pains in the stomach, colic, cholera morbus by taking it in water as hot as can be drank. That when taken in this way the effect is double in rapidity. "It seems to get at the right spot instantly. For sale by all druggists and dealers.

James Band, proprietor of the Grove hotel, Fairview, has had that favorite summer resort nicely fitted up. It is conveniently located within half a block of the street car line and good meals and the best of liquors and cigars make it a popular house of call. Drop in any time when passing and sample some of those choice thirst quenchers always on tap.

WELCOME TO THE BRIDE

GERMANY'S FUTURE EMPRESS IS GREETED BY THOUSANDS.

CROWN PRINCE'S ANTE-NUPTIAL FETE IN BERLIN.

Berlin, June 3—Looking far more attractive than in any of her pictures, the duchess Cecilia of Mecklenburg-Schwerin drove publicly into this city today. Hundreds of thousands of her future subjects saw her for the first time and they received her according to a carefully wrought out program. But when they saw her smiling and with natural and not forced bearing their good feeling expressed itself spontaneously in many a "Hoch" and cheer. It is the sincere belief that she is not only the betrothed of the crown prince, but his sweetheart. As the chief burgomaster said in welcominb her, the people of the city hoped her life would be rose strewn, as was the pavement over which she drove.

The crown prince, who following tradition ,filed his company of foot guards over the route of the procession an hour before the duchess entered the city, was also splendidly received. He acknowledged the cheering by saluting with his sword at every second step.

The business of the government paused and a million or so persons took a half-holiday to welcome an 18-year-old girl, the duchess Cecilia of Mecklenburg-Schwerin, who will some time most probably be the German empress. Her way was rose strewn, a choir of children sang her a greeting, the old guilds with their emblems of the trades lined the route, artillery sounded dully in an immensity of cheering, while at the end of her progress through the people, the imperial family and all the great personages of state joined with the emperor and the crown prince Frederick William in receiving her at the palace.

For first class cord wood, also cedar for kindling, ring up Yale-Kootenay Ice Co., Telephone 148.

USING DIAMOND DRILLS

AT WORK ON THREE GROUPS OF MINES IN BOUNDARY.

BOND ON FAIRY QUEEN GROUP IN HEDLEY CAMP.

(Special to The Daily News)

Phoenix, June 3.—The Great Northern has had a number of ore cars built recently that will hold 100,000 pounds, or 50 tons each of Boundary ore. They were constructed specially for use on the run between the Granby mines and smelter, and are now en route to Phoenix from the east. They will arrive in time to be used when the daily tonnage is increased by 700, or 800 tons, which will be when the two new furnaces, now being installed at the smelter are in operation—some time in July.

The Brooklyn and Stemwinder mines in this camp are kept unwatered, pending the arrival of the engineers, now understood to be en route from the east to make an examination of the properties for the reorganized Montreal & Boston Consolidated.

J. E. McAllister, superintendent of the British Columbia Copper Co.'s Mother Lode smelter, has returned from an extended trip to eastern cities, on business connected with the enlargement of those reduction works.

Three groups of mines in the Boundary are now being exploited with the diamond drill. For eight or ten months the Granby Co. has had Boyles Bros., of Spokane, doing this work on the Monarch and adjoining claims, and it still continues. The British Columbia Copper Co. is operating its own diamond drill at its Mother Lode mine in Deadwood camp, and Lake D. Wolfard, president of the Wellington Co., has Knight & Stone, of Spokane, at work on the Wolfard group, where a contract has been made for a starter of a thousand feet of holes.

F. M. Elkins, of Greenwood, has just returned from an extended visit to San Francisco and Vancouver, and states that he and W. E. Hodges, of the latter place, have given a bond for $125,000 on the Fairy Queen group of claims, located near the Kingston group in Hedley camp. W. E. Collis and associates, of Victoria have taken the bond, and are expected to start development work shortly.

GUN CLUB SHOOT

The regular weekly shoot of the Nelson gun club was held at the Stanley street traps yesterday afternoon. Six shooters appeared and made generally fair scores. Three events of 25 birds each were contested, Blackwood winning the first and Brassfield the second and third. The score follows:

First event, 25 birds—

Ink	18
Ward	16
Tierney	19
Blackwood	21
Macdonnell	12

Second event, 25 birds—

Brassfield	22
Macdonnell	15

Third event, 25 birds—

Brassfield	22
Tierney	21
Macdonnell	5

AMATEURS WON OUT

Iroquois Were Defeated in a Fast Game Yesterday Morning

In a fast game yesterday morning the warring teams for the junior baseball championship had a strenuous struggle for mastery. The youngsters, on whom are built the budding hopes of Nelson baseball players, were every bit as enthusiastic as are the seniors and rooting was the order of the day. A veritable pandemonium of yells and cheers greeted the Amateurs when they finally succeeded in defeating the Iroquois by a score of 12 to 7.

The following was the line up of the Amateurs—R. Bard, catcher; W. Brown, pitcher; B. Leet, 1st base; M. McCandlish, short stop; R. Swartz, 2nd base; E. Ellis, 3rd base; W. Ebbs, right field; H. Ferguson, centre; G. Gore, left field.

Iroquois—E. Irwin, catcher; J. Ingram, pitcher; T. Stevens, 1st base; W. Middleton, short stop; H. Redding, 2nd base; F. Salter, 3rd base; K. Weir, right field; G. Stevens, left field. The Iroquois played without a centre field.

Wash greasy dishes, pots or pans with Lever's Dry Soap a powder. It will remove the grease with the greatest ease. 36

HEALTHY PLANTS

Require the Most Careful Attention as Well as Good Soil.

Did you ever see a rosebush which—despite the most beneficent environment of soil—of sunshine—and of atmosphere,—seemed never to achieve a healthy growth.

A ton of manure will not help a plant that has a canker eating out its heart.

You must destroy the cause before you can remove the effect.

You cannot cure Dandruff and Baldness by rubbing on hair lotions, and rubbing in vaseline, etc.

You must look to the cause of the trouble—it's a germ at the roots of your hair which causes it to fall out.

Newbro's Herpicide destroys the germ, and healthy hair is the sure result.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co. Detroit Mich.

CANADA DRUG & BOOK COMPANY
Special Agents.

MAIL CONTRACT

SEALED TENDERS, addressed to the Postmaster General, will be received at Ottawa until noon, on Friday, the 14th July next, for the conveyance of His Majesty's Mails, on a proposed contract for four years, twelve times per week each way, between the Creston Postoffice and Crow's Nest Pass Railway Station, to commence at Postmaster General's pleasure.

Printed notices containing further information as to conditions of proposed contract may be seen and blank forms of tender may be obtained at the Postoffice of Creston, and at the office of the Postoffice Inspector.

Postoffice Inspector's office, Vancouver, B. C., 2nd June, 1905.

JOHN R. GREENFIELD.
Postoffice Inspector.

The normal eye should be able to do a normal amount of work. If your eyes readily become tired it is because seeing calls for abnormal effort. This is eyestrain and if neglected may end in complete loss of sight. We can give you eye comfort.

NELSON'S NEWS OF THE DAY

Dr. Gilbert Hartin of Kaslo has been appointed a coroner for the province.

Mrs. J. W. Holmes left last night on a visit to her old home in Wyoming, Ont.

Lloyd A. Manly of Grand Forks, is going into the hotel business at Coleman, Alberta.

The regular fortnightly meeting of the city council will be held in the city hall tomorrow morning at 10:30.

Mrs. Robinson, wife of the captain of the steamer Moyie, and Miss Ferris of the Home hospital, left last evening on a visit to Victoria and the coast.

H. C. Cummins has returned to the city from Marysville, where he has finished a contract undertaken by him in connection with the equipment of the Sullivan smelter.

All customs mail for Sandon, Whitewater, McGuigan, Lardo, Poplar, Gold Hill and Howser henceforth will go to Kaslo for distribution. All duty will be paid at the Kaslo office.

Rev. D. M. Perley, pastor of the Phoenix Methodist church, for the past year, has left for his new charge at Moyie, and and was tendered a reception by the members of his congregation before leaving.

J. Fred Hume is getting up a party to visit the Portland Fair this month. The party will go and return in a special car. Persons desiring to join in the trip are asked to report to Mr. Hume.

The duke of Sutherland, the largest land holder in Great Britain, is expected here on Tuesday next with William Whyte, second vice-president of the C.P.R., and R. Marpole, superintendent of the Pacific division.

The Great Northern has had a gang of from 100 to 200 extra men at work for some time, with several engines, ballasting the Phoenix extension. The work is now completed to within five or six miles of Grand Forks.

At the Baptist church today Rev. E. H. Shanks will preach at both morning and evening services. A special song service of 15 minutes duration will precede the regular service this evening. A cordial invitation is extended to all vistors.

C. J. South and the seven children in his charge who were at the Royal hotel yesterday have gone on to the coast. Three of the children were from Fernie, previously of Michel; the other four are from Marysville. The latter have been very badly treated, but will come round all right under good surroundings.

A meeting was called yesterday afternoon for the purpose of arranging for the reception of the visiting American mining negineers, due here on the 27th inst. Owing to the unavoidable absence of some of the local mining men, the meeting was adpourned to 11:30 tomorrow morning.

The first number of Smitheringale and Drumm's newspaper, the Frank Paper, is to hand. It is a bright, newsy sheet and starts out with a generous advertising patronage. The proprietors are capable newspapermen and will give the people of Frank a newspaper they can be proud of.

A photograph, or a series of photographs will be taken this week of the launches registered at this port. Commodore Busk will be in the city early in the week and an hour—probably 10:30 a.m.—on Wednesday or Thursday, will be fixed on for a photograph parade. The launch club hope that all launch owners will make arrangements to have their boats out for this occasion, even if the owners are prevented from being present. The taking of the pictures will only occupy a short time, and it is desirable that there should be a large and representative turn out of the local fleet.

ROSSLAND MINES' OUTPUT

Important Strike Made Upon the Le Roi No. 2 Mine

Rossland, June 3—In the rear of the mine office in a tunnel which is being driven on the Le Roi No. 2, diagonally across towards the War Eagle ground, a find of high grade ore has been made. It now completely fills the face of the tunnel. It is though by those who have seen it to be a new ledge. The management of the mine regard the find as important although it has not been developed enough to determine its size.

The connection on the 600 foot level of the Centre Star, between that mine and the War Eagle has been made, thus giving a better means of ventilation. This crosscut connecting the two mines runs for a distance of 1000 feet between the two main shafts. Six hundred feet of it was recently finished. It was while making this connection that a nine foot shoot of high grade ore was encountered. This shoot, now that the connection has been made, will be developed.

Following are the shipments for the week: Le Roi, 2575; Centre Star, 1800; War Eagle, 1580; Le Roi No. 2, 60; Le Roi No. 2, milled, 630; Jumbo, 390; Spitzee, 600. Total for the week, 7545 tons; for the year to date, 146,509 tons.
